Dear [REDACTED]

This letter is in response to your May 18, 1990 letter and June 4, 1990 meeting with Ms. Elizabeth Betz, of the base Environmental Management Department. Your letter requested a tour of the Base's Stormwater Retention system to assist you in your work in conjunction with the North Carolina Division of Environmental Management on evaluating the recent stormwater regulations.

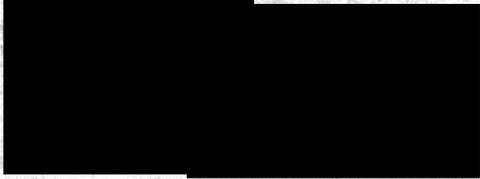

On 4 June 1990, during the meeting with Ms. Betz, you were shown the wet retention pond, located alongside Julian C. Smith Road (formally River Road). At that time, you requested permission to sample this retention pond during a rainfall event. Accordingly, a one-time authorization is granted to sample the retention pond discussed previously provided that an employee of the Environmental Management Department accompanies you during the sampling, that copies of results of your testing are provided to this Command. Please be advised that this approval and other communications with you are not intended to authorize you to act as an agent or contractor for the U. S. Government.

Please coordinate your visit with Ms. Betz or Mr. Danny Sharpe, Director of the Hazardous Waste & Pollution Control Division, Environmental Management Department, at telephone (919) 451-2471.

Sincerely,

JULIAN I. WOOTEN
Assistant Chief of Staff,
Environmental Management Department

Memorandum

DATE: 19 June 1990

FROM: Staff Judge Advocate, Marine Corps Base, Camp Lejeune

TO: A/CS, EMD, Marine Corps Base, Camp Lejeune

SUBJ: LETTER TO MS. STEEL

1. Liason has been made with EACO.
2. General concept is unobjectionable. However, you insure that Base has access to final research results. Also, I recommend you insure that Ms. Steel understands that she is acting independently and is no way a U.S. Government agent or contractor.
3. I recommend that someone accompany her at all times while she is on board Camp Lejeune.

Camp Le

Dear Sir

I am writing upon the recommendation of Elizabeth Betz to request permission to observe the engineered Stormwater systems located within the Marine Corps Base.

I am a graduate student at Duke University, working in conjunction with the North Carolina Department of Environmental Management, evaluating the efficacy of the recent Stormwater Regulations.

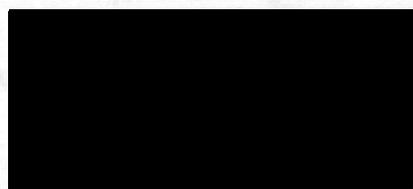

I would like to be able to tour the five sites located within Camp Lejuene, make visual observations, and take a few rudimentary measurements where applicable as soon as would be possible. Thursday, May 24 or Friday, May 25 would be the most convenient for me. I imagine that a full tour will take roughly 4 hours.

Please let me know how I can get the permission and requisite accompaniment for such a tour.

I can be reached through Alexis Finn of the Department of Environmental Management, Water Quality Division, Wilmington, N.C., at (919) 256-4161.

Your assistance in this matter is appreciated.

Sincerely,

5417420 10 225

[REDACTED]

Dear [REDACTED]

This letter is in response to your May 18, 1990 letter and June 4, 1990 meeting with Ms. Elizabeth Betz, of the base Environmental Management Department. Your letter requested a tour of the Base's Stormwater Retention system to assist you in your work in conjunction with the North Carolina Division of Environmental Management on evaluating the recent Stormwater regulations.

On 4 June 1990, during the meeting with Ms. Betz, you were shown the wet retention pond, located along side Julian C. Smith Road (formally River Road). At that time you requested permission to sample this retention pond during a rainfall event. Accordingly, a one-time authorization is granted to sample the retention pond discussed previously provided that an employee of the Environmental Management Department accompanies you during the sampling *and that copies of results of your testing are provided to this command*

Please coordinate your visit with Ms. Betz or Mr. Danny Sharpe, Director of the Hazardous Waste & Pollution Control Division, Environmental Management Department, at telephone (919) 451-2471.

Sincerely,

JULIAN I. WOOTEN
Assistant Chief of Staff,
Environmental Management Department
By direction of the
Base Commander

Additionally, please be advised that for the purposes of these approval letter and other activities by you

Please be advised that nothing contained in this approval or other communication with you are intended to authorize you to act as an agent or contractor for the US government.

Box 100
No. 1000

This letter is in response to your May 18, 1980 letter and June 4, 1980 meeting with Mr. Elizabeth Bear, of the same Environmental Management Department. Your letter requested a copy of the Base's groundwater detection system to assist you in your work in connection with the North Carolina Division of Environmental Management in enforcing the recent groundwater regulations.

On June 10, 1980, during the meeting with Mr. Bear, you were shown the wet collection ponds located along Base Lullian Smith Road, formerly River Road. At that time you requested permission to sample the collection ponds during a special event. Accordingly, a one-time sampling permit is being issued to sample the ponds. A pond distiller previously provided for an employee of the Environmental Management Department is being used during the sampling.

Please contact your staff with Mr. Bear or Mr. Tony Eberle, Director of the Base's Environmental Protection Division, Environmental Management Department, at telephone (919) 437-3411.
