    (2) Base Maintenance Officer

Subj: MODEL INSTALLATION PROGRAM PROPOSAL NO. 87-CLNC-116-FAC,  
      MAIN SEWAGE PLANT

1. Your proposal to relocate the park from the center of the sewage treatment sections due to possible chlorine exposure has been reviewed. It was determined that relocation of the park is unnecessary as procedures, such as inspecting the chlorine tanks frequently, are in effect to ensure there is no danger. For this reason, your proposal is disapproved.

2. Your interest and participation in the Model Installation Program are appreciated. Any future ideas you may have which promote efficiency and cost effectiveness at our installation will be welcomed. Your continued support in helping to make the Camp Lejeune community a better place to work and live is encouraged.

UNITED STATES MARINE CORPS  
Marine Corps Base  
Camp Lejeune, North Carolina 28542-5001

NOV 2 8 1987

TO: Commanding General, Marine Corps Base, Camp Lejeune  
FROM: Major General, Headquarters, Marine Corps Base, Camp Lejeune  
SUBJECT: (1) Analysis of the 1987-88 Training Program  
(2) Training Program Review

DATE: 11/15/87  
BY: Major General, Headquarters, Marine Corps Base, Camp Lejeune

The purpose of this report is to provide a comprehensive analysis of the 1987-88 Training Program. The report is based on a review of the program's objectives, content, and delivery. The analysis identifies strengths and weaknesses of the program and provides recommendations for improvement. The report is intended for the use of the Commanding General and other senior leaders in the Marine Corps Base, Camp Lejeune.

The report is organized into four main sections: Introduction, Analysis, Findings, and Recommendations. The Introduction provides an overview of the program and the purpose of the report. The Analysis section discusses the program's objectives, content, and delivery. The Findings section identifies the strengths and weaknesses of the program. The Recommendations section provides suggestions for improving the program.
