Mr. Paul Wilms, Director
Division of Environmental Management
NC Department of Natural Resources
and Community Development
Post Office Box 27687
Raleigh, North Carolina 27611

Dear Sir:

In accordance with requirements of the National Pollutant Discharge Elimination System (NPDES) Permit Number NC0003239, two copies of Discharge Monitoring Reports (DMRs) for the month of September 1986 are submitted.

There are no stream samplings for the Courthouse Bay Wastewater Treatment Plant or the Onslow Beach Wastewater Treatment Plant or downstream analysis for the Rifle Range Wastewater Treatment Plant due to inclement weather, i.e., high winds, which halted sampling run.

The storm drains listed on the enclosed table may be correlated with base geography and facilities by referring to maps with numbered storm drains monitoring points that have been previously provided. Storm drains that have no values reported for the quarter were checked; however, each time they were checked they were either dry or had no flow. The Base Environmental staff is continuing to work on operational control methodology to reduce oil and grease and total suspended residue discharges. New construction to replace outdated base facilities should further reduce oil and grease and total suspended residue discharges.

Questions regarding this report should be forwarded to Ms. Elizabeth Betz, Supervisory Chemist, Natural Resources and Environmental Affairs Division, Assistant Chief of Staff, Facilities at (919) 451-5977.

Sincerely,

J. I. WOOTEN
Director, Natural Resources Division
Assistant Chief of Staff, Facilities
By direction of the Commanding General

Encls:

(1) DEM Forms MR-1, MR-2 & MR-3 (2 copies)

Copy to:

From: Director, Natural Resources and Environmental Affairs
Division, Marine Corps Base, Camp Lejeune
To: Base Maintenance Officer, Marine Corps Base, Camp Lejeune
(Attn: Utilities Director)

Subj: NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
PERMIT RELATED REPORTING DATA

Encl: (1) Monthly Report of Waste Treatment Plant Water Quality
(2) Violations of NPDES Limits

1. It is requested that the enclosures be routed to the Utilities Systems General Foreman. Enclosure (1) summarizes the subject data generated by the Water Quality Control Laboratory and contract laboratories for the seven wastewater treatment plants aboard the Camp Lejeune complex for the month of September 1986. Presently, only the Biochemical Oxygen Demand (BOD), Total Suspended Residue, and Coliform data are submitted to the EPA and State. The ammonia, oil and grease, nitrogen and phosphorus data is being generated as background data for the proposed NPDES permit. Enclosure (2) outlines the violations to the present NPDES permit as well as the proposed NPDES permit.

2. Questions regarding the enclosures should be forwarded to the Supervisory Chemist, Water Quality Control Laboratory, Natural Resources and Environmental Affairs Division, x5977.

J. I. WOOTEN
