Subj: RESTRICTED AUTOMOTIVE REPAIRS WITHIN AREA TWO PARKING LOTS

Ref: (a) Mting btwn GySgt ELEEN (6thMar S-4) and Mr. SHARPE (Base Natural Resources) on 29 May 85

1. As discussed in the reference, it was brought to the attention of this Command that Area 2 parking lots are being utilized as automotive repair lots, which is strictly prohibited as set forth by Base Orders. One of the biggest problems we are facing is that oil from the auto's is being drained/poured directly into the sewage/man-hole drains, which will turn into a Natural Resource Nightmare if continued. This has to stop immediately.
2. There are a few viable solutions to this matter, (1) Coordinate with each Motor Pool to set up places to change and dump oil into proper containers (2) Alert OOD's to check Parking Lots during their tour of duty (3) Get the word out to our Marines/Sailors that could be an Office Hour Offense if caught.
3. Point of contact for assistance/information contact GySgt ELEEN at. 3737/3547.
