Subj: Drainage Ditch at Building M-255; debris in

Ref: (a) Onsite Inspection of Drainage Ditch at Building M-255
on 21 Mar 1984 by Mr. Ken JOLLY, NREAD

1. During reference (a) the subject drainage ditch was clogged with wood building debris, paint containers, kerosene containers and other refuse. The discarded refuse is impeding drainage from adjacent uplands and contributing to pollution of waters downstream of the site.
2. It is requested that the subject debris be removed and disposed of as soon as possible.
3. Point of contact in this matter is Mr. Ken Jolly, telephone 2083/1690.

J. I. WOOTEN
