

FISH AND WILDLIFE STATISTICAL DATA FY-84

1. FRESH WATER PONDS

Number of Ponds 12
 Total surface acres 35.5
 Average size 2.95 acres

2. WILDLIFE CLEARINGS

Number of Clearings 234
 Total acres 525
 Average size 2.24

3. BIG GAME HARVESTS

	(Males)	(Females)
Deer hunts by hunters	442	323
Taken by bow and arrow	19	21
Taken by muzzle loader	1	0
Taken by organized hunters	132	136
Taken by individual hunters	273	131
Accidental kills by motor vehicles	17	35
Wild turkey harvested	36	
Black bear harvested	2	

4. RECREATIONAL HUNTING

Total number of hunter trips..... 12,478
 Total number of hours hunted 63,849
 Number trips by military personnel 10,930
 Number trips by civilian employees 813
 Number trips by civilian guests 735

5. RECREATIONAL FISHING

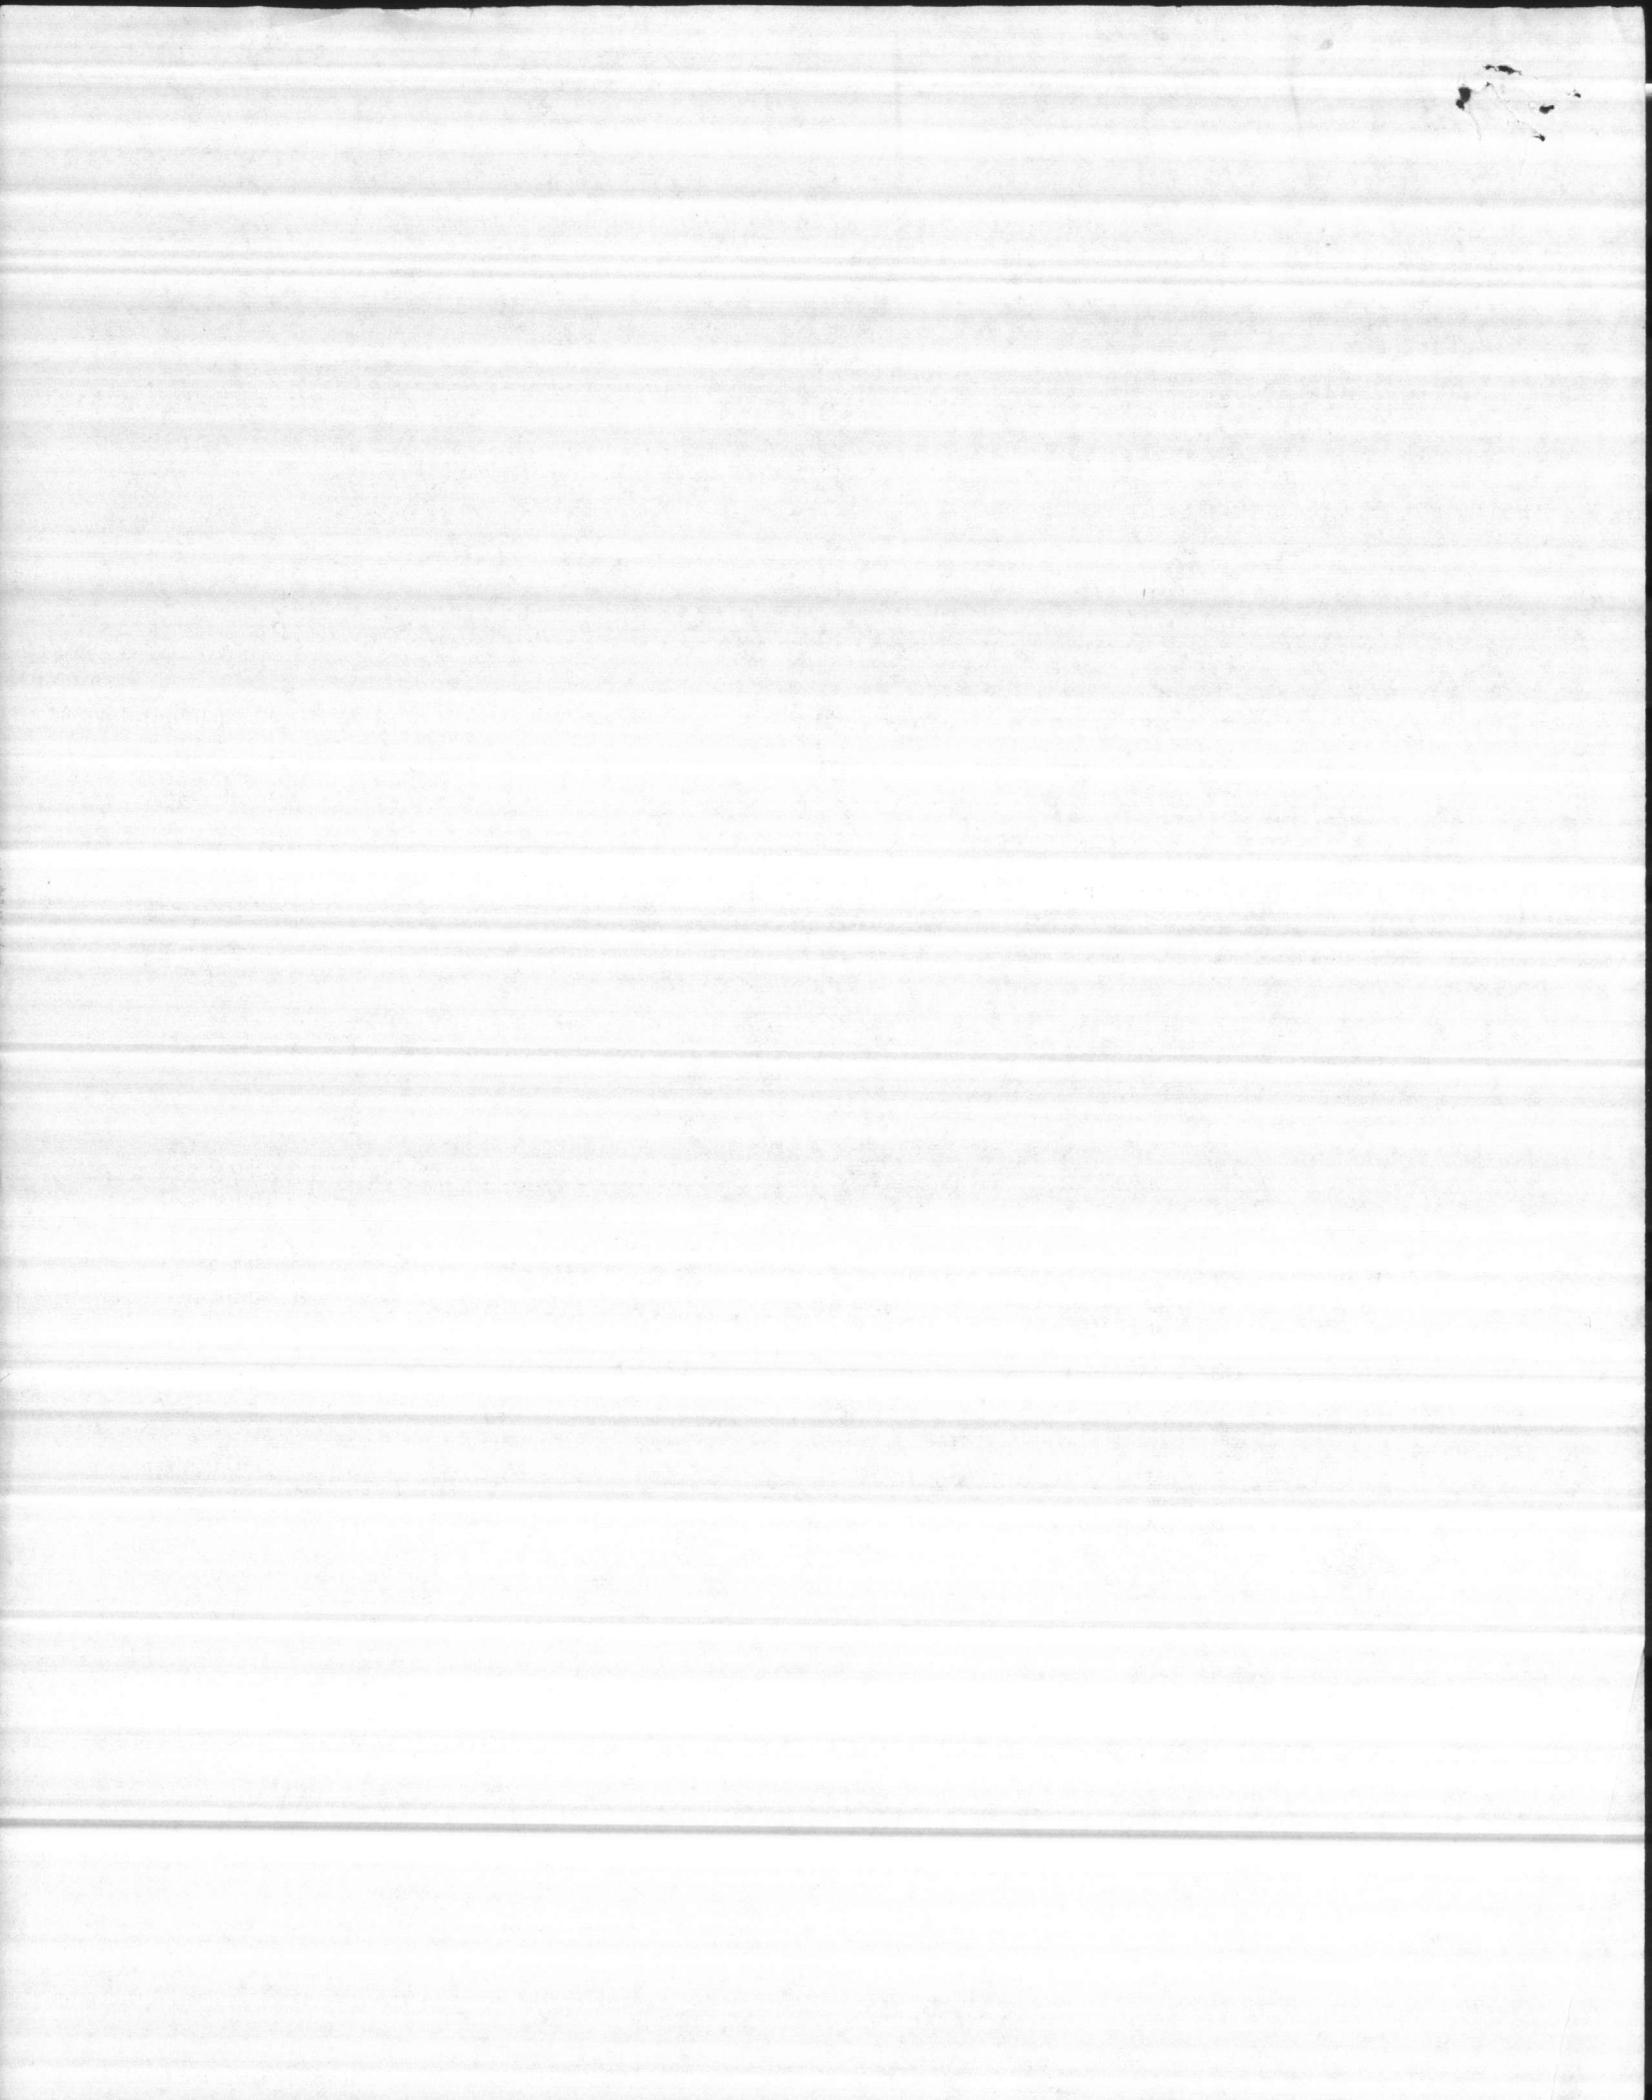

Freshwater fishing trips (est)123,000
 Saltwater fishing trips (est)750,000

6. ENDANGERED SPECIES

Red-Cockaded Woodpecker	Humpback Whale
American Alligator	Right Whale
Fin Whale	Sei Whale

7. THREATENED SPECIES

Atlantic Loggerhead Sea Turtle
 Green Sea Turtle
 Eastern Brown Pelican

8. RED-COCKADED WOODPECKER

Number of colonies	33
Acres of marked habitat	2,637

9. LOGGERHEAD SEA TURTLES

Number of nests	63
Number of crawls	121
Number of eggs laid	7,788
Number of eggs hatched	4,484
Number of Turtles tagged	26
Number of tag returns	30
Number of stranded Turtles	4
Number of nests lost during Hurricane Diane	2
Number of nests lost during high tide/NE winds	6
Number of unhatched nests from unknown causes	5
Percent hatching success	57%

Planted 3,000 ornamental autumn olive seedlings.

Planted 10,000 bicolor lespedeza seedlings.

Cleared woody debris, prescribed burned around cavity trees.

Disced out leave areas, prescribed burned quail management area.

Established approximately 150 acres to annual grain mixture.

Established approximately 200 acres to winter grains.

Conducted annual survey for Red-Cockaded Woodpecker.

Conducted annual survey for American Alligator.

Monitored nesting activity for Sea Turtles at Onslow Beach.
