Ref: (a) AC/S, Fac memo of 18 Apr 77

1. In response to reference (a), this Department has reviewed the subject proposal and as most of the purported project advantages are related to military training activities, it is suggested that pertinent comments from the AC/S, Training are indicated.
2. The Corps of Engineers must comply with the National Environmental Policy Act on proposals of this nature, and in doing so, adverse or beneficial aspects of the proposed action should be identified.
