Encl: (1) N.C. Solid&HazWasteMgmt Br ltr of 10 Sep 84

1. Reference (a) forwarded the Subpart B Permit Application to the State of North Carolina in accordance with the Resource Conservation and Recovery Act of 1976, as amended. References (b) and (c) provided supplemental information as requested by the State to include the Waste Analysis Plan, Contingency Plan, and Closure Plan. Reference (d) distributed for review the draft Hazardous Waste Management Permit.

2. The final status permit for management of hazardous material/waste generated at the Camp Lejeune complex is provided in the enclosure. Due to the shared responsibilities for compliance with the many permit conditions, we emphasize the need for close coordination and communication between all activities.

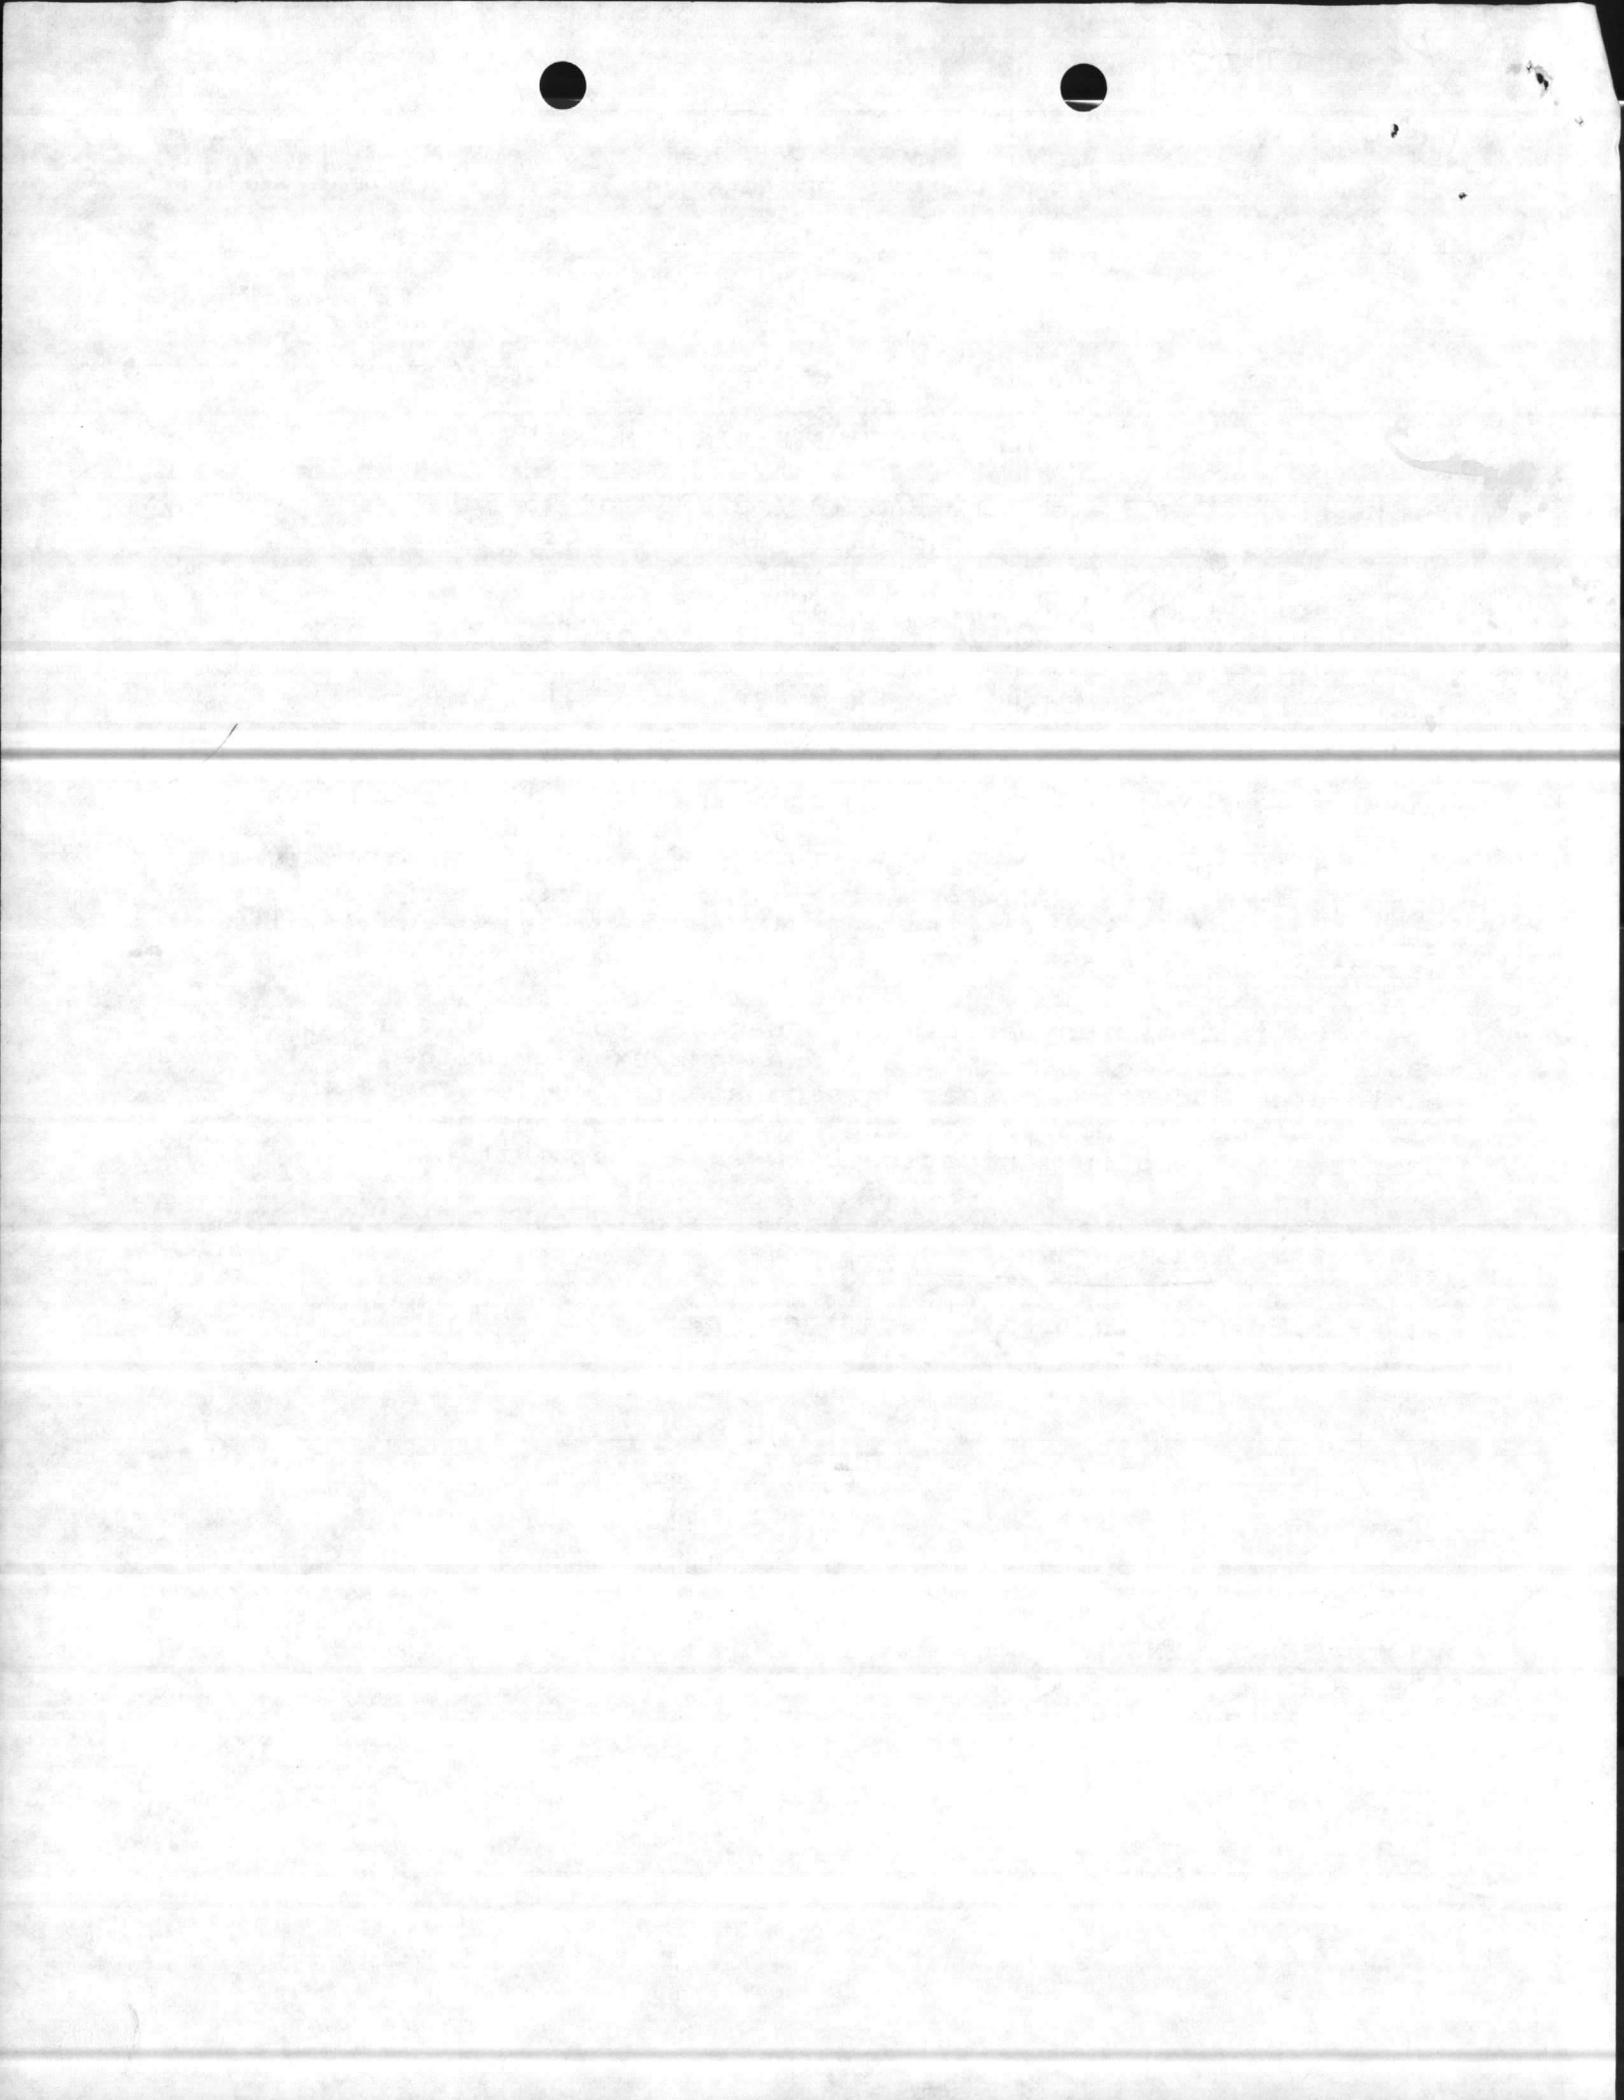

3. Reference (e) announces an inspection by the State of North Carolina on 25 September 1984.

4. For further information on the final permit or the inspection, please contact Mr. Bob Alexander, ext. 3034.

Dear Mr. Alexander:

Re: Final Status Hazardous Waste Management Permit

Attached please find a final status permit for the management of hazardous wastes at your facility. The permit identifies specific wastes and associated management practices that can be handled in accordance with N.C. Hazardous Waste Management Rules.

Future changes in handled wastes and/or management practices can be allowed only with proper permit modifications. Please contact me if you have any questions.

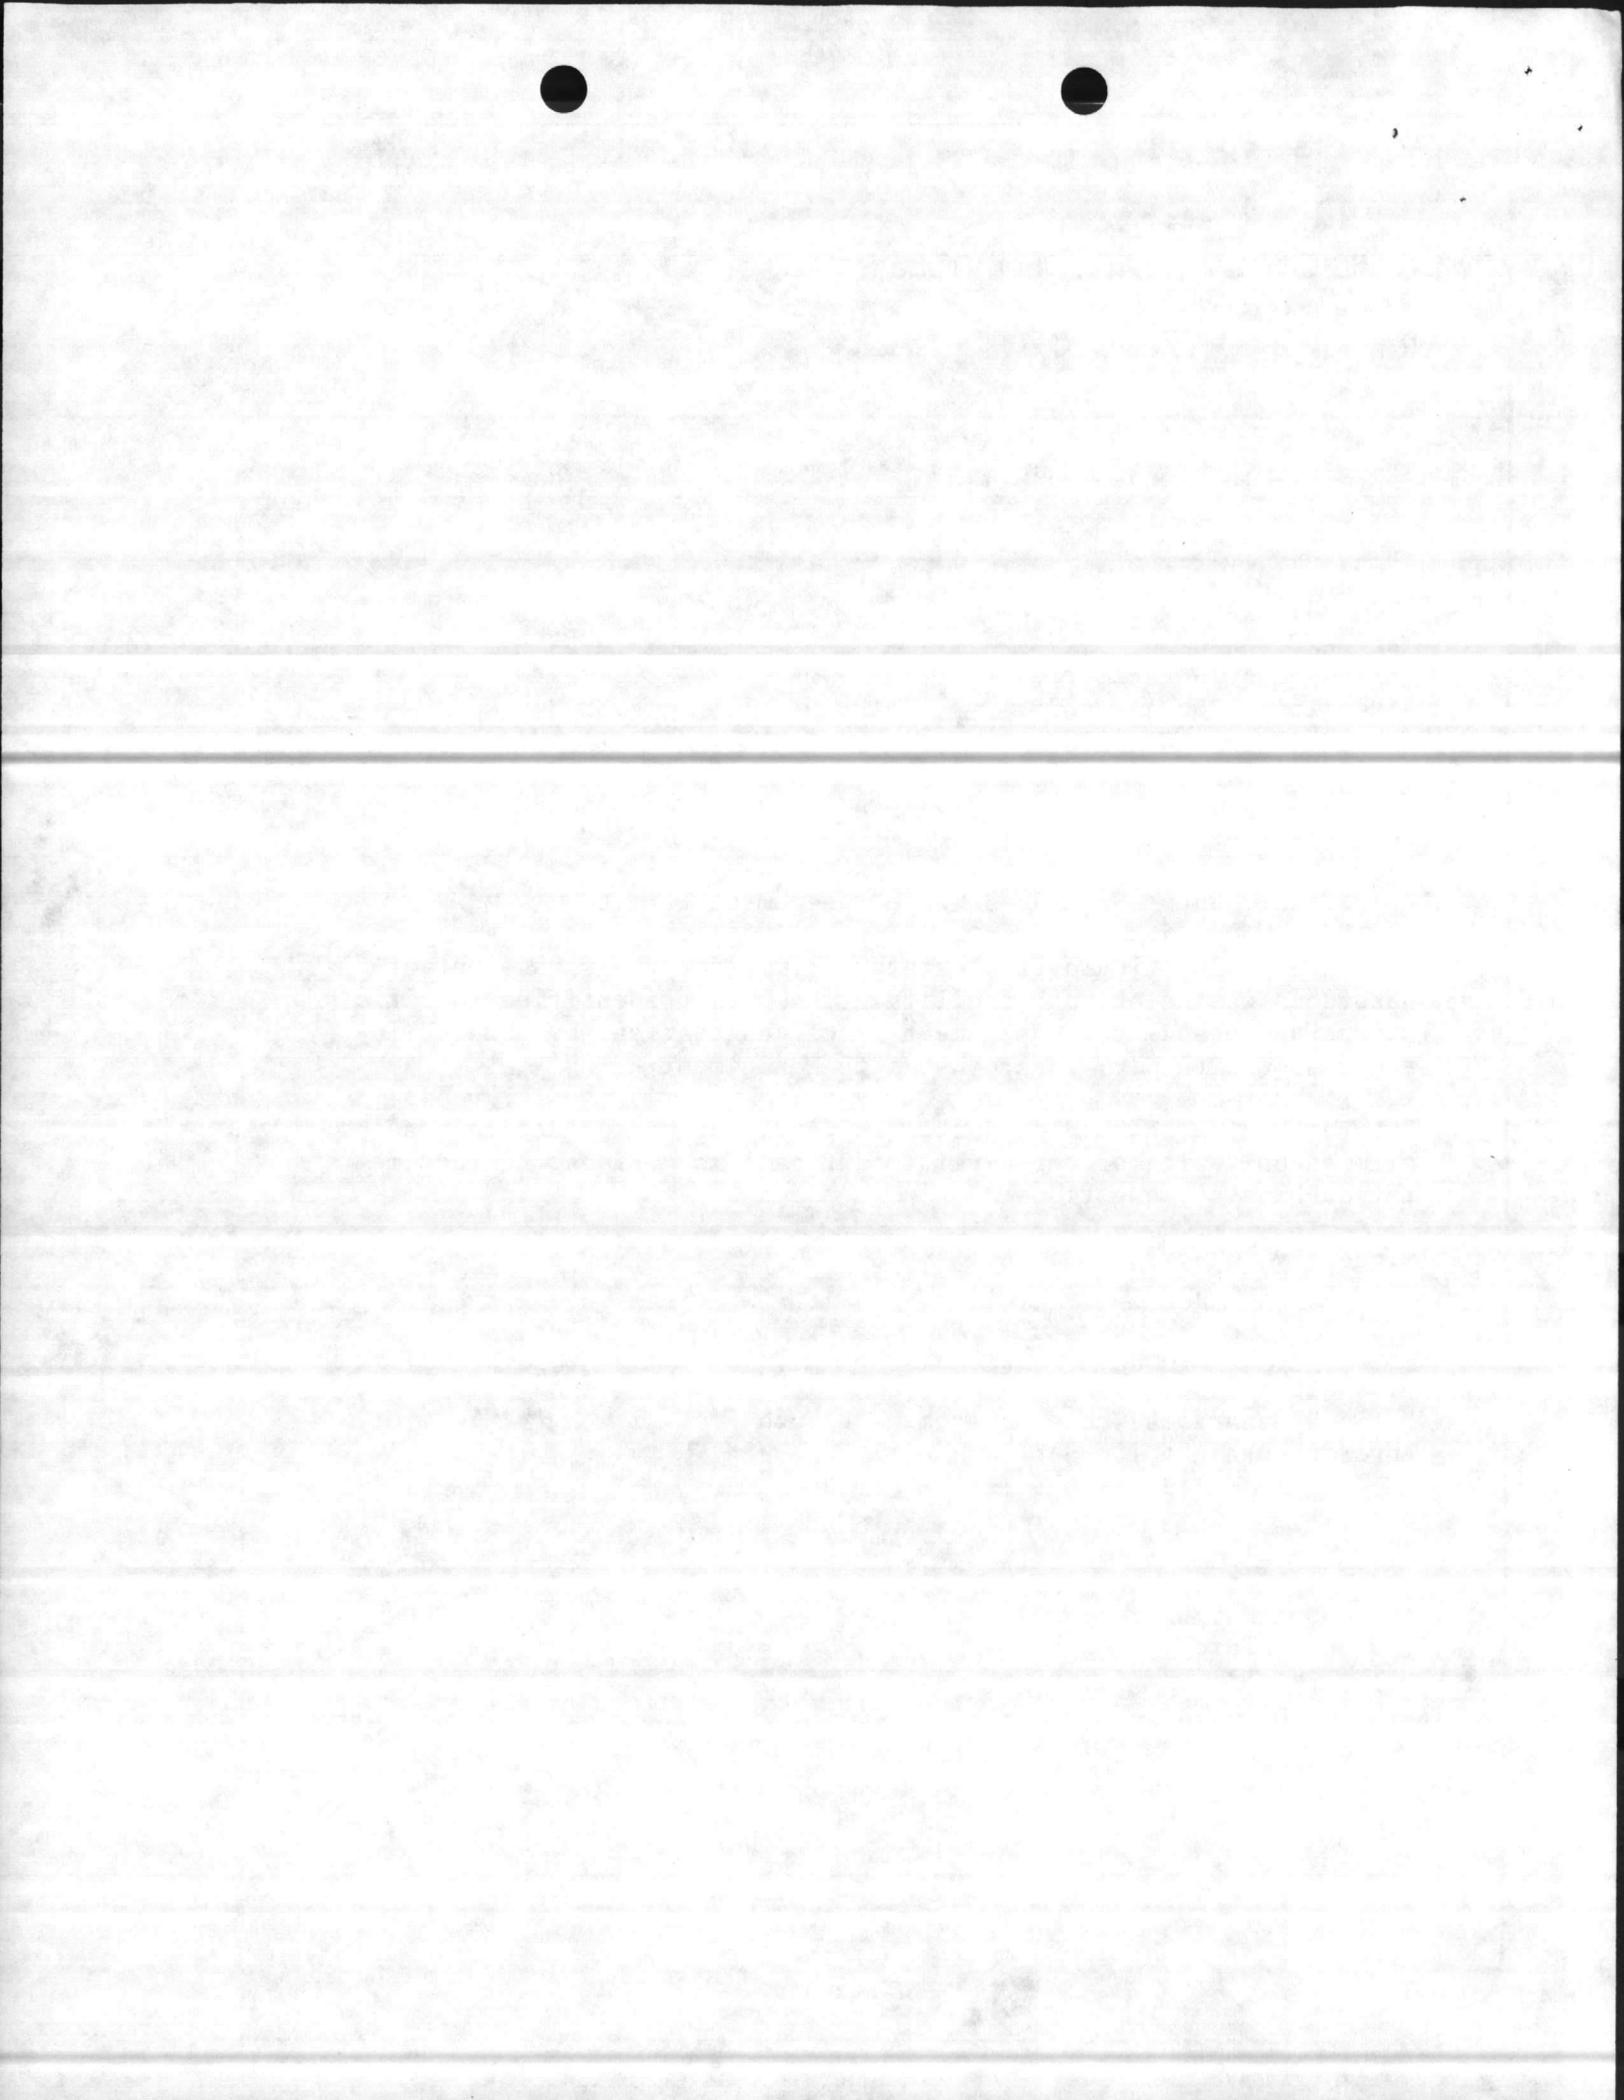

Sincerely,

O.W. Strickland, Head

I.D. NUMBER NC6170022580
PERMIT NO. NC6170022580

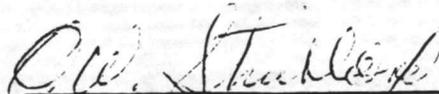

H A Z A R D O U S W A S T E M A N A G E M E N T P E R M I T

Permittee Marine Corps Base Camp Lejeune
Camp Lejeune, N.C. 28542

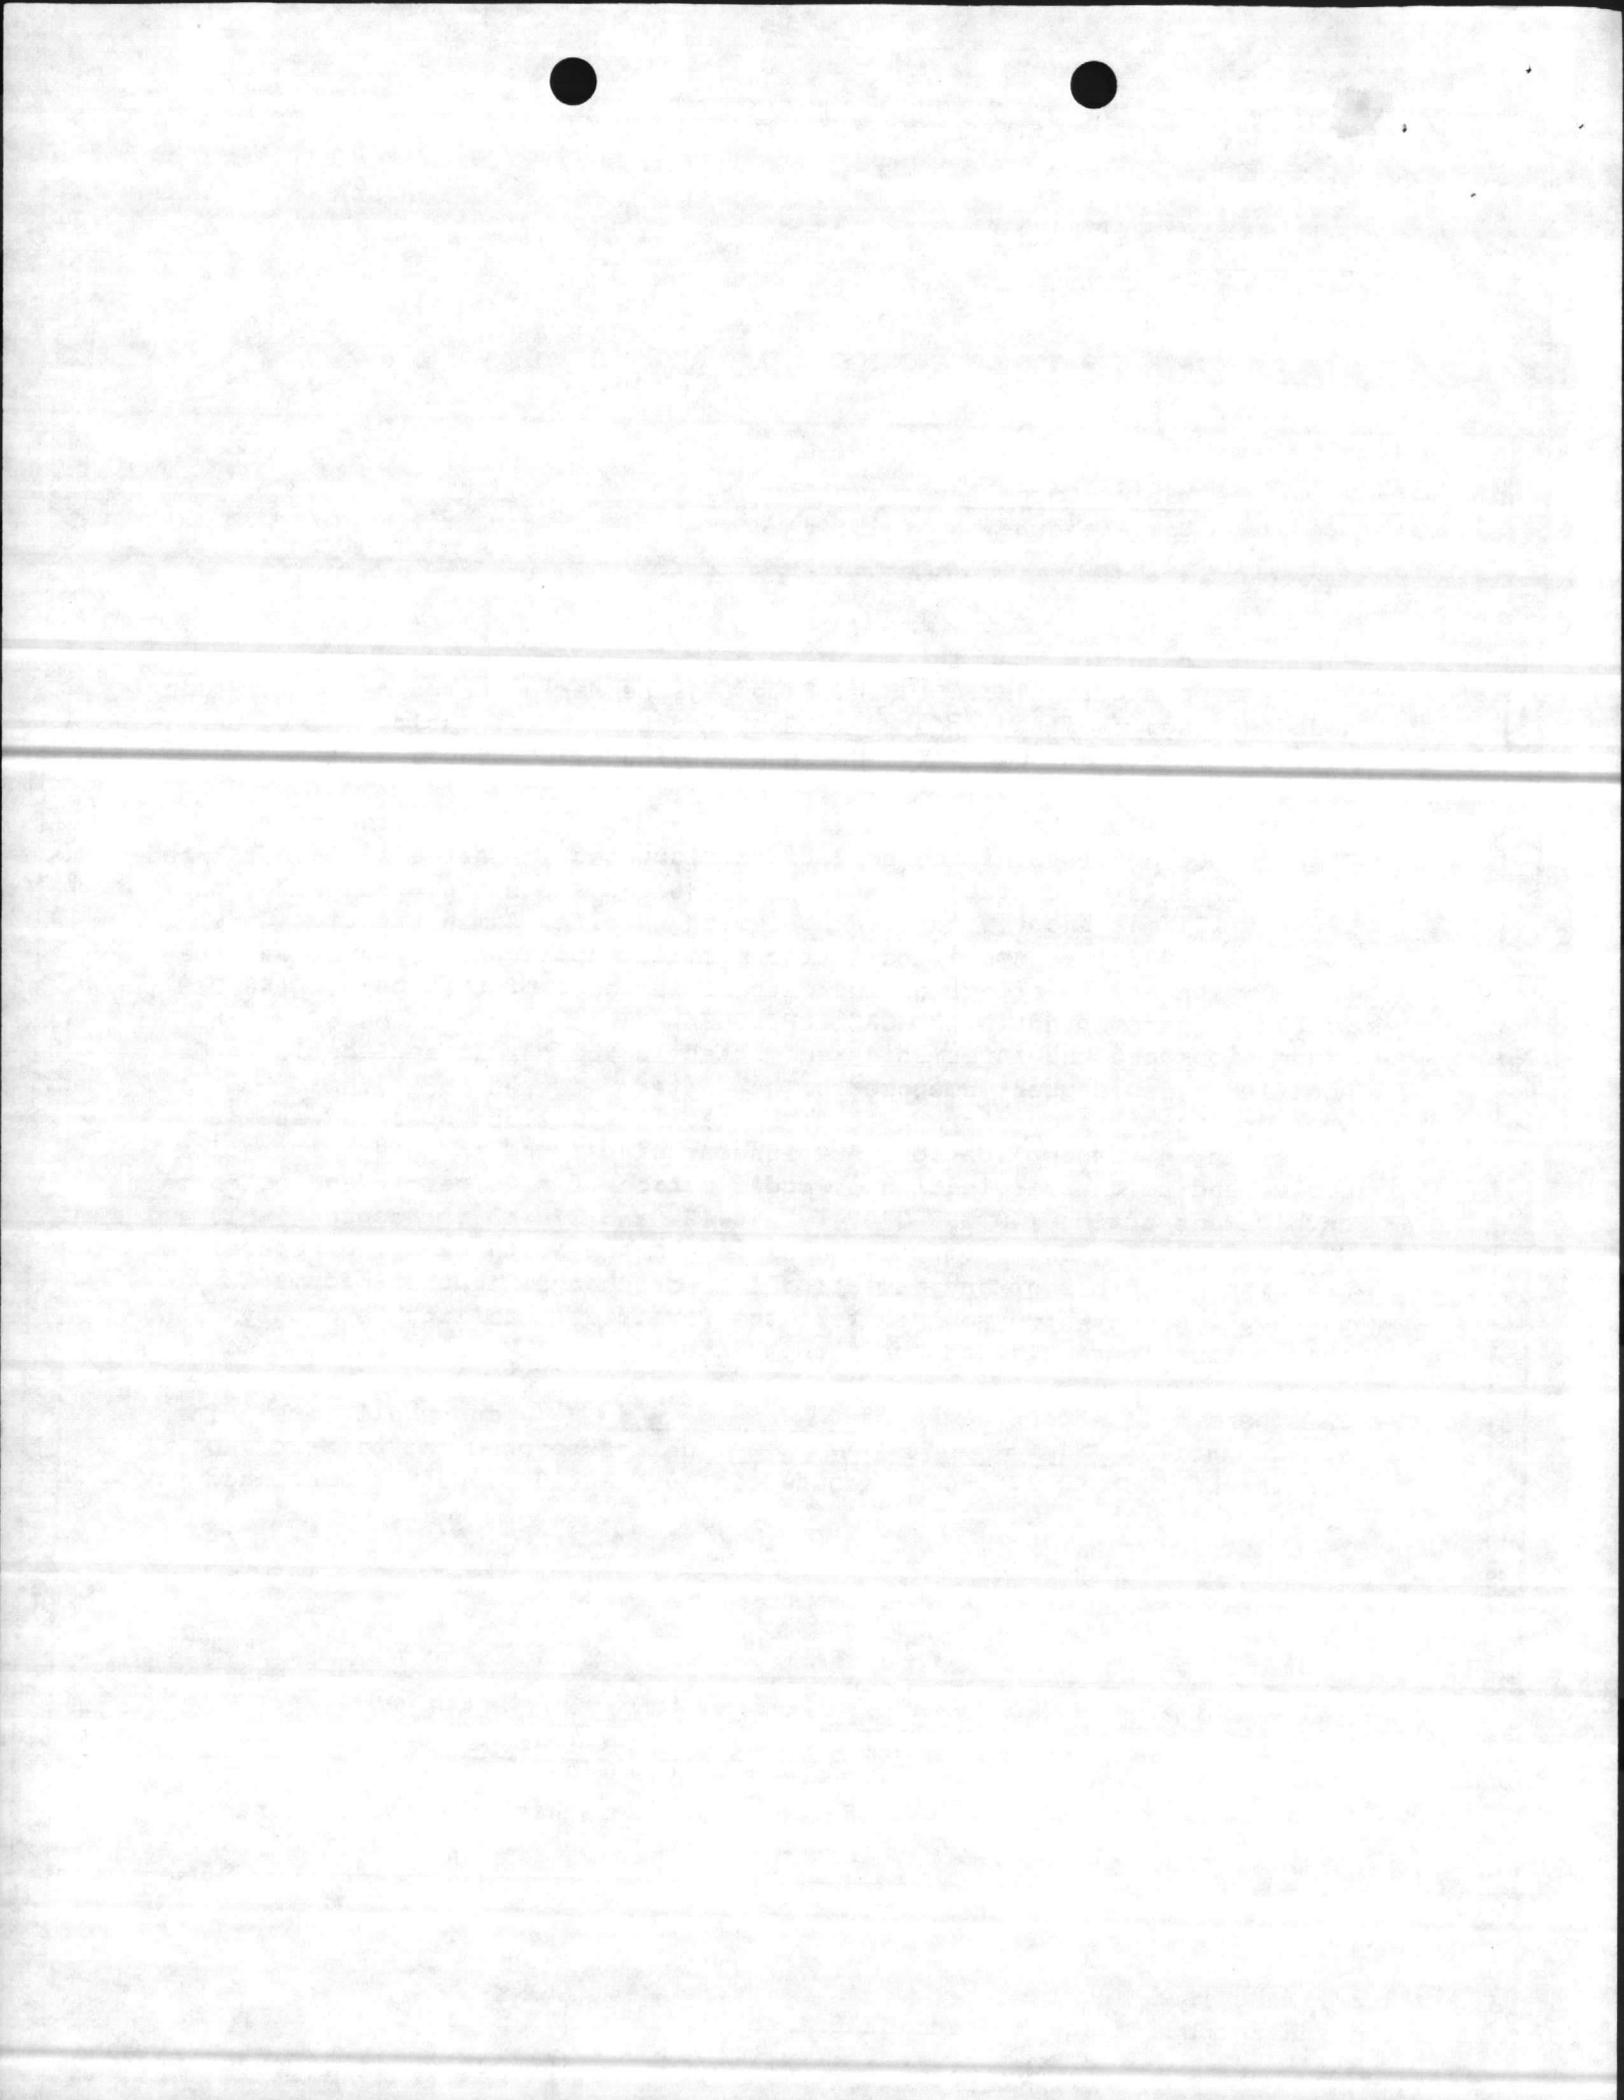

Pursuant to the 10 NCAC 10F North Carolina Hazardous Waste Management Rules, a permit is issued to the Camp Lejeune Marine Corps Base, hazardous waste storage facility located in Camp Lejeune, N.C., Onslow County on Highway 24, at latitude 34°40'00" and longitude 77°20'00".

The Permittee must comply with all terms and conditions of the permit. This permit consists of the conditions discussed in Part I, II, and III and the applicable regulations contained in 40 CFR Parts 260 through 264 and 270 and 124 [as adopted in 10 NCAC (North Carolina Administrative Code) 10F .0029-.0036] as specified in the permit. Applicable regulations are those which are in effect on the date of issuance of this permit [40 CFR 270.32(c) as adopted in 10 NCAC 10F .0034. This permit is based on the assumption that the information submitted in the permit application and as modified by subsequent amendments (hereafter referred to as the application) is accurate and that the facility will be operated as specified in the application. Any inaccuracies found in this information could lead to the termination or modification of this permit and potential enforcement action [40 CFR 270.41, 270.42, and 270.43 as adopted in 10 NCAC 10F .0034. The Permittee shall inform the North Carolina Department of Human Resources of any deviation from or changes in the information in the application which would affect the Permittee's ability to comply with the applicable regulations or permit conditions.

This permit is effective as of September 7, 1984, and shall remain in effect until September 7, 1994, unless revoked and reissued, or terminated [40 CFR 270.50 as adopted in 10 NCAC 10F .0034 or continued in accordance with NCAC.

O. W. Strickland, Head
Solid & Hazardous Waste Management Branch
Document No. 1071A

PART I - STANDARD CONDITIONS

A. EFFECT OF PERMIT

The permittee is allowed to store hazardous waste in accordance with the conditions of this permit. Any storage of hazardous waste not authorized in this permit is prohibited. Compliance with this permit constitutes compliance, for purposes of enforcement, with the N.C. Hazardous Waste Management Rules (10 NCAC 10F). Issuance of this permit does not convey property rights of any sort or any exclusive privilege; nor does it authorize any injury to persons or property, any invasion of other private rights, or any infringement of State or local law or regulations. Compliance with the terms of this permit does not constitute a defense to any action brought under any law governing protection of public health or the environment for any imminent and substantial endangerment to human health or the environment.

B. PERMIT ACTIONS

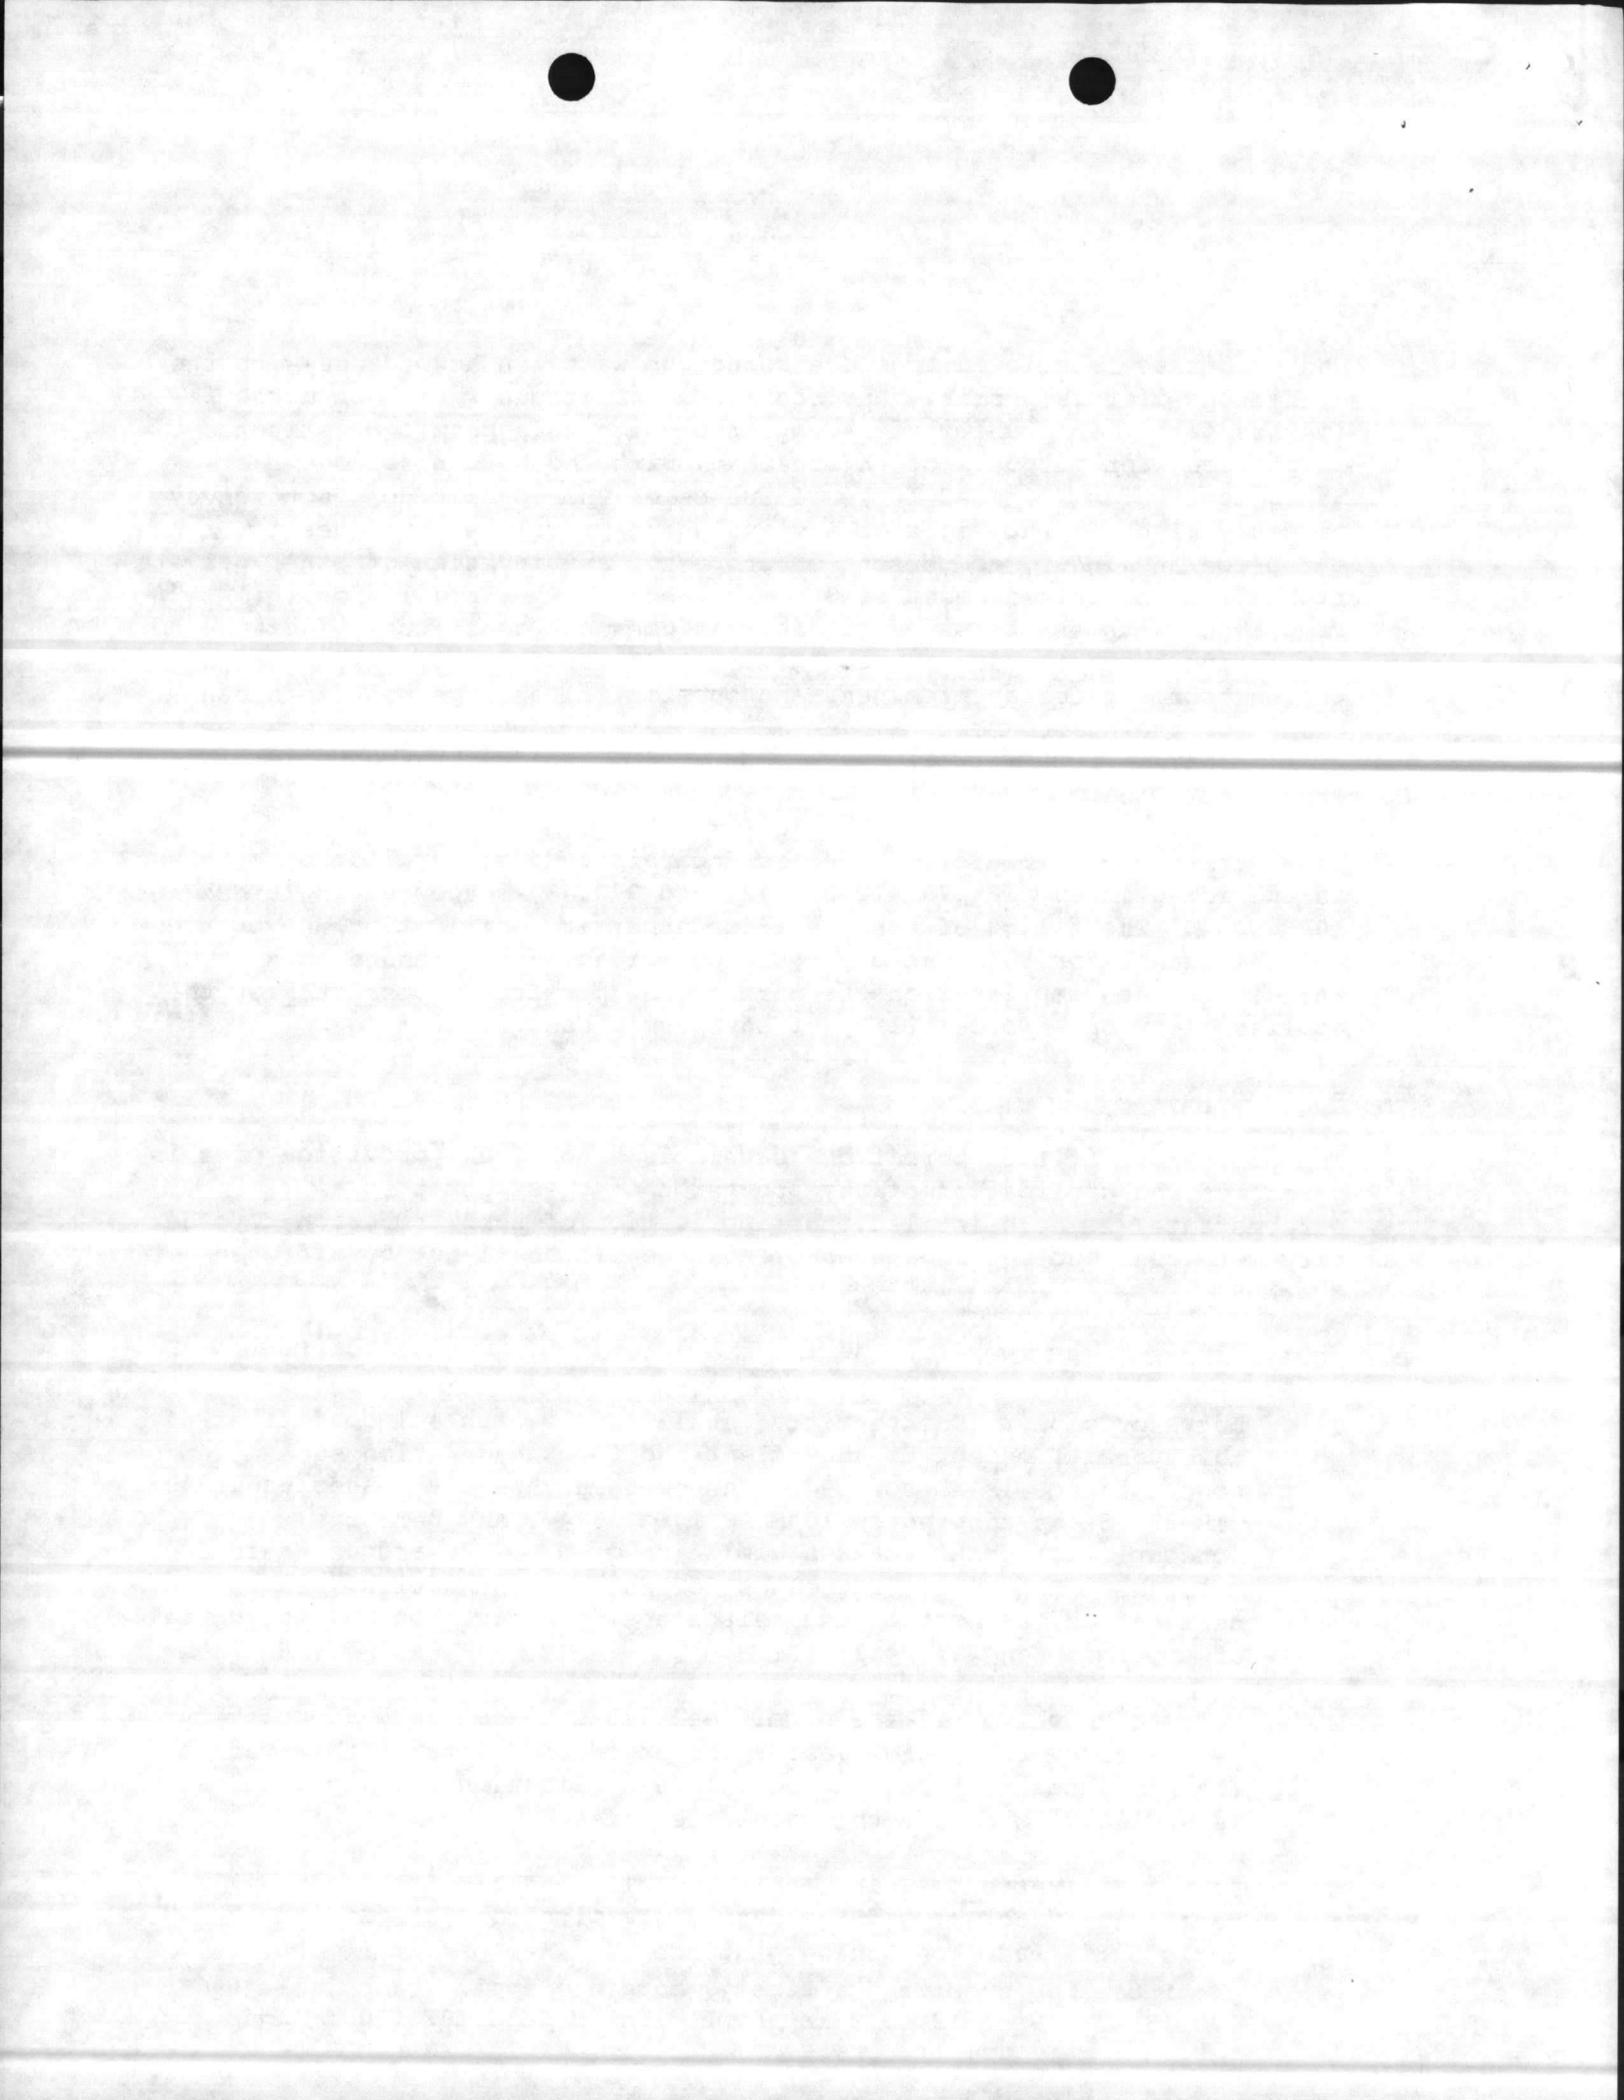

This permit may be modified, revoked and reissued, or terminated for cause as specified in 40 CFR 270.41, 270.42, and 270.43 as adopted in 10 NCAC 10F .0034. The filing of a request for a permit modification, revocation and reissuance, or termination or the notification of planned changes or anticipated noncompliance on the part of the permittee does not stay the applicability or enforceability of any permit condition.

C. SEVERABILITY

The provisions of this permit are severable, and if any provision of this permit or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit shall not be affected thereby.

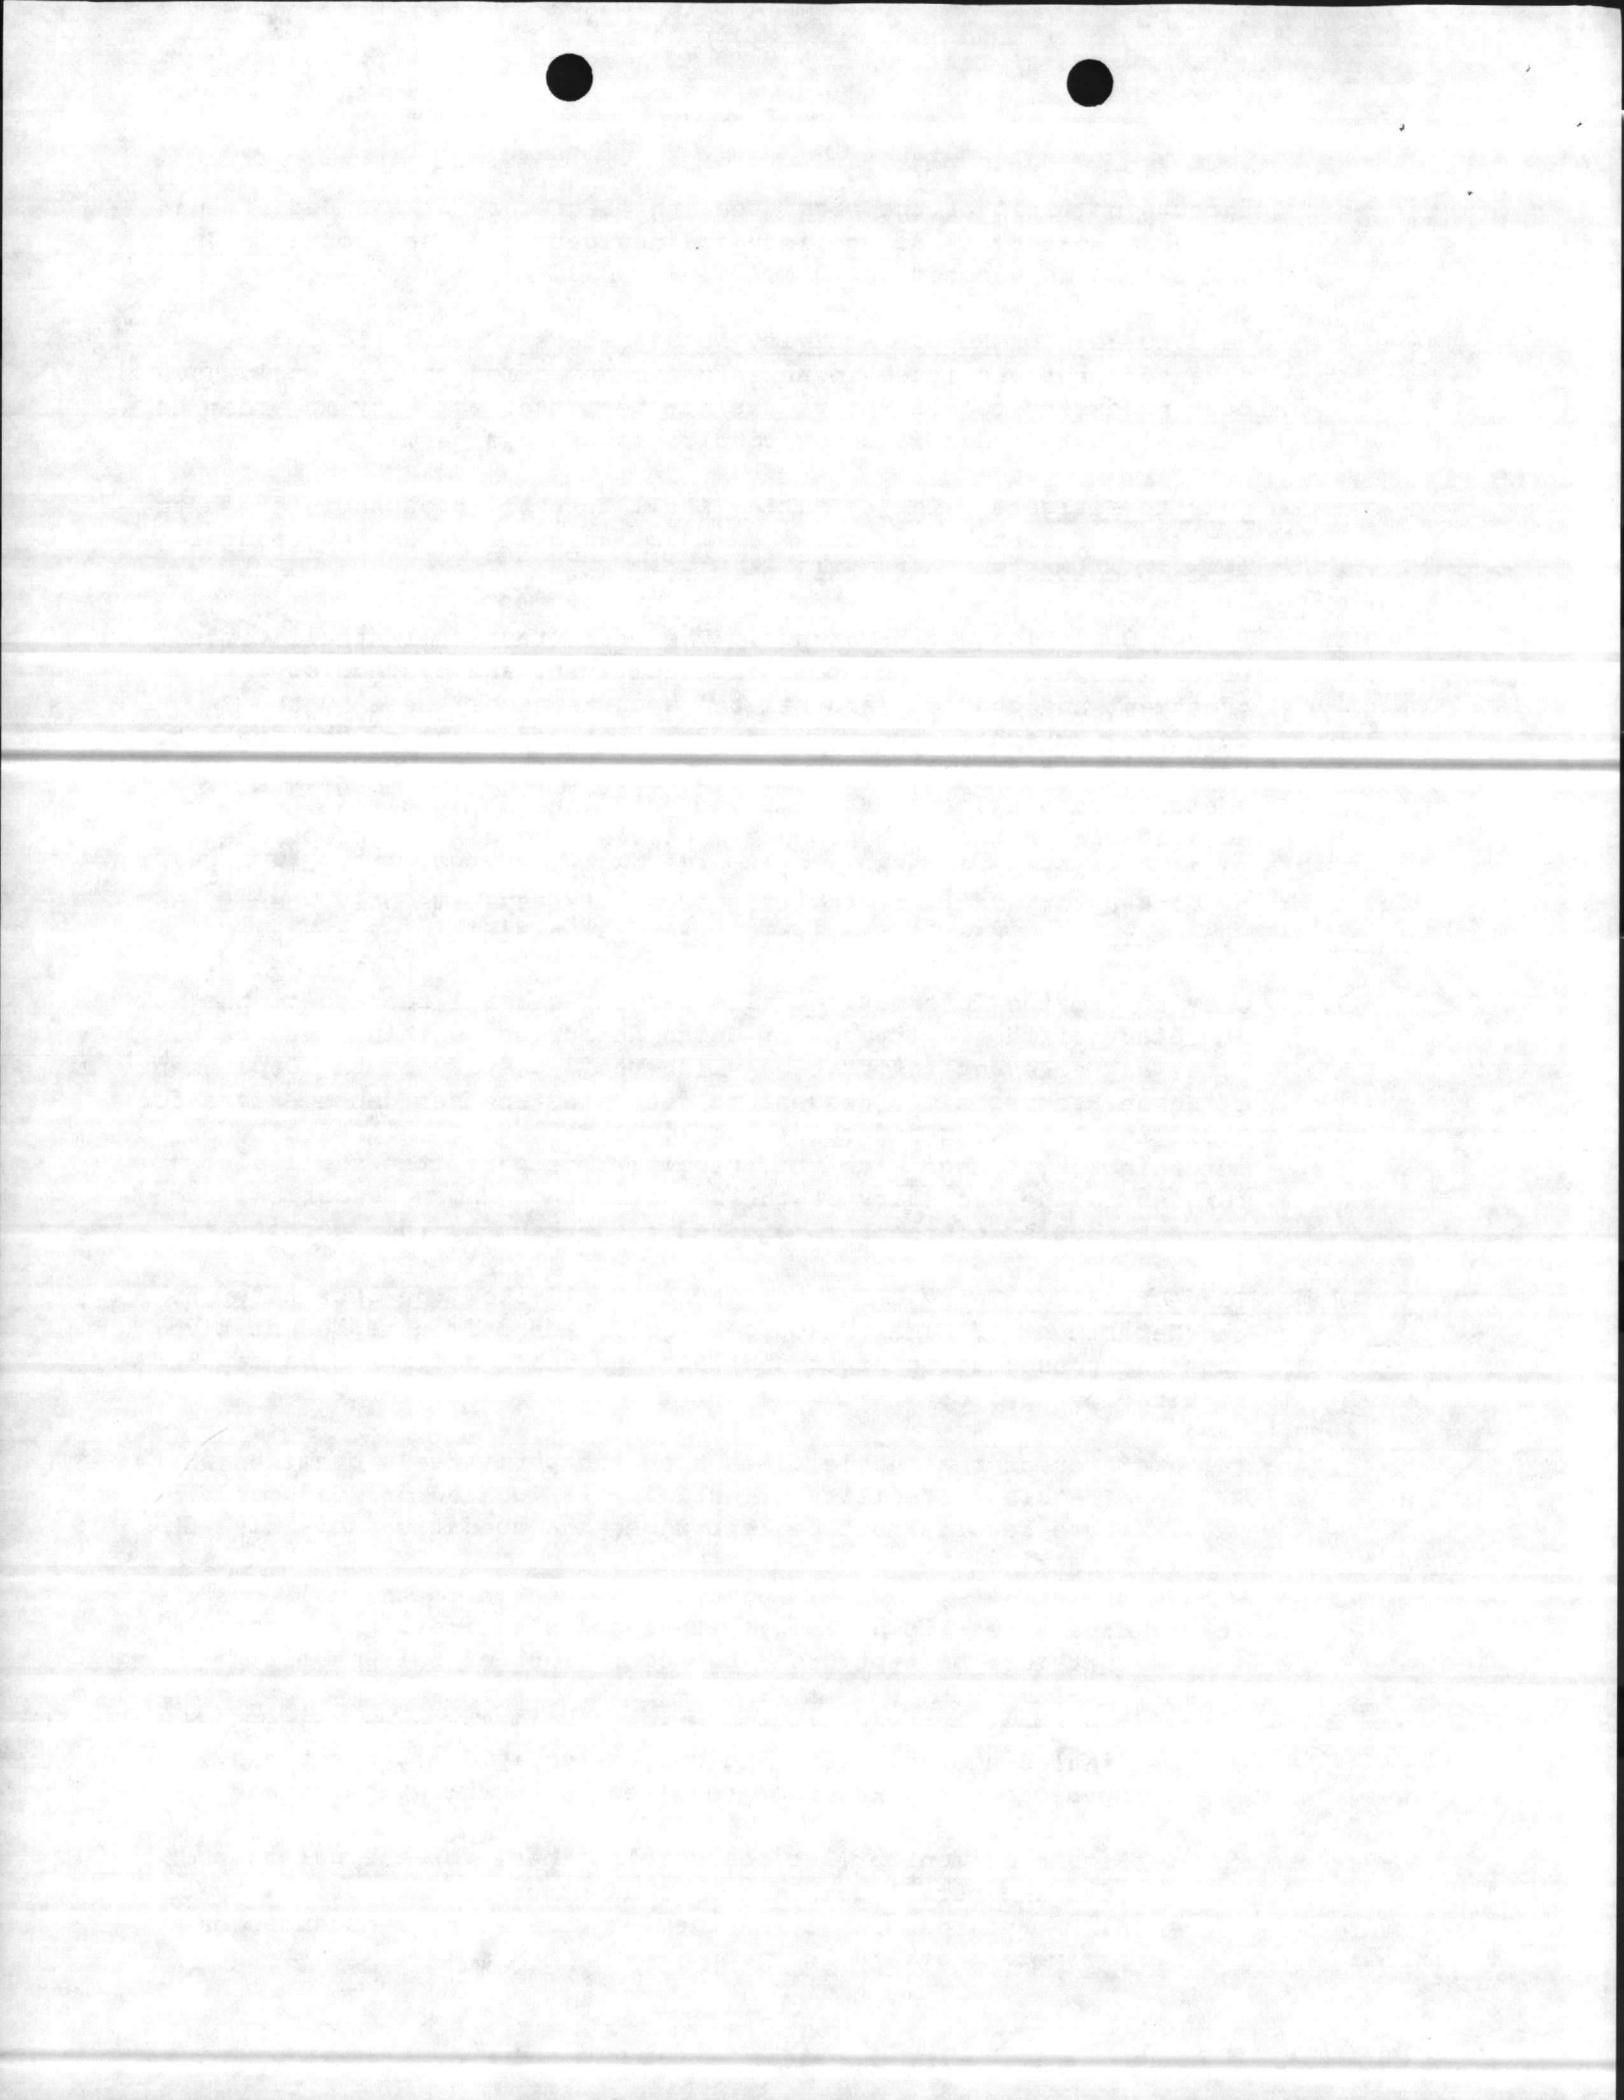

D. DUTIES AND REQUIREMENTS

1. Duty to Comply. The permittee shall comply with all conditions of this permit, except to the extent and for the duration such noncompliance is authorized by an emergency permit issued under 40 CFR 270.61 as adopted in 10 NCAC 10F .0034. Any permit noncompliance constitutes a violation of N. C. Hazardous Waste Management Rules and is grounds for enforcement action, permit termination, revocation and reissuance, modification, or for denial of a permit renewal application.
2. Duty to Reapply. If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the permittee must submit a complete application for a new permit at least 180 days before this permit expires.
3. Permit Expiration. This permit and all conditions therein will remain in effect beyond the permit's expiration date and until a decision is made concerning issuance of a new permit if the permittee has submitted a timely, complete application (see 40 CFR 270.13-270.29 and 270.10 as adopted in 10 NCAC 10F .0034) and

through no fault of the permittee, the Secretary of the Department of Human Resources has not issued a new permit as set forth in 40 CFR 124.15 as adopted in 10 NCAC 10F .0035.

4. Need to Halt or Reduce Activity Not a Defense. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.
5. Duty to Mitigate. The permittee shall take all reasonable steps to minimize or correct any adverse impact on the environment resulting from noncompliance with this permit.
6. Proper Operation and Maintenance. The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facility or similar systems only when necessary to achieve compliance with the conditions of the permit.
7. Duty to Provide Information. The permittee shall furnish to the Secretary of the Department of Human Resources, within a reasonable time, any relevant information which the Secretary of the Department of Human Resources may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. The permittee shall also furnish to the Secretary of the Department of Human Resources, upon request, copies of records required to be kept by this permit.
8. Inspection and Entry. The permittee shall allow the Secretary of the Department of Human Resources, or an authorized representative, upon the presentation of credentials and other documents as may be required by law to:
 - (a) Enter at reasonable times upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;
 - (b) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
 - (c) Inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under this permit; and
 - (d) Sample or monitor, at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the N. C. Hazardous Waste Management Rules, any substances or parameters at any location.

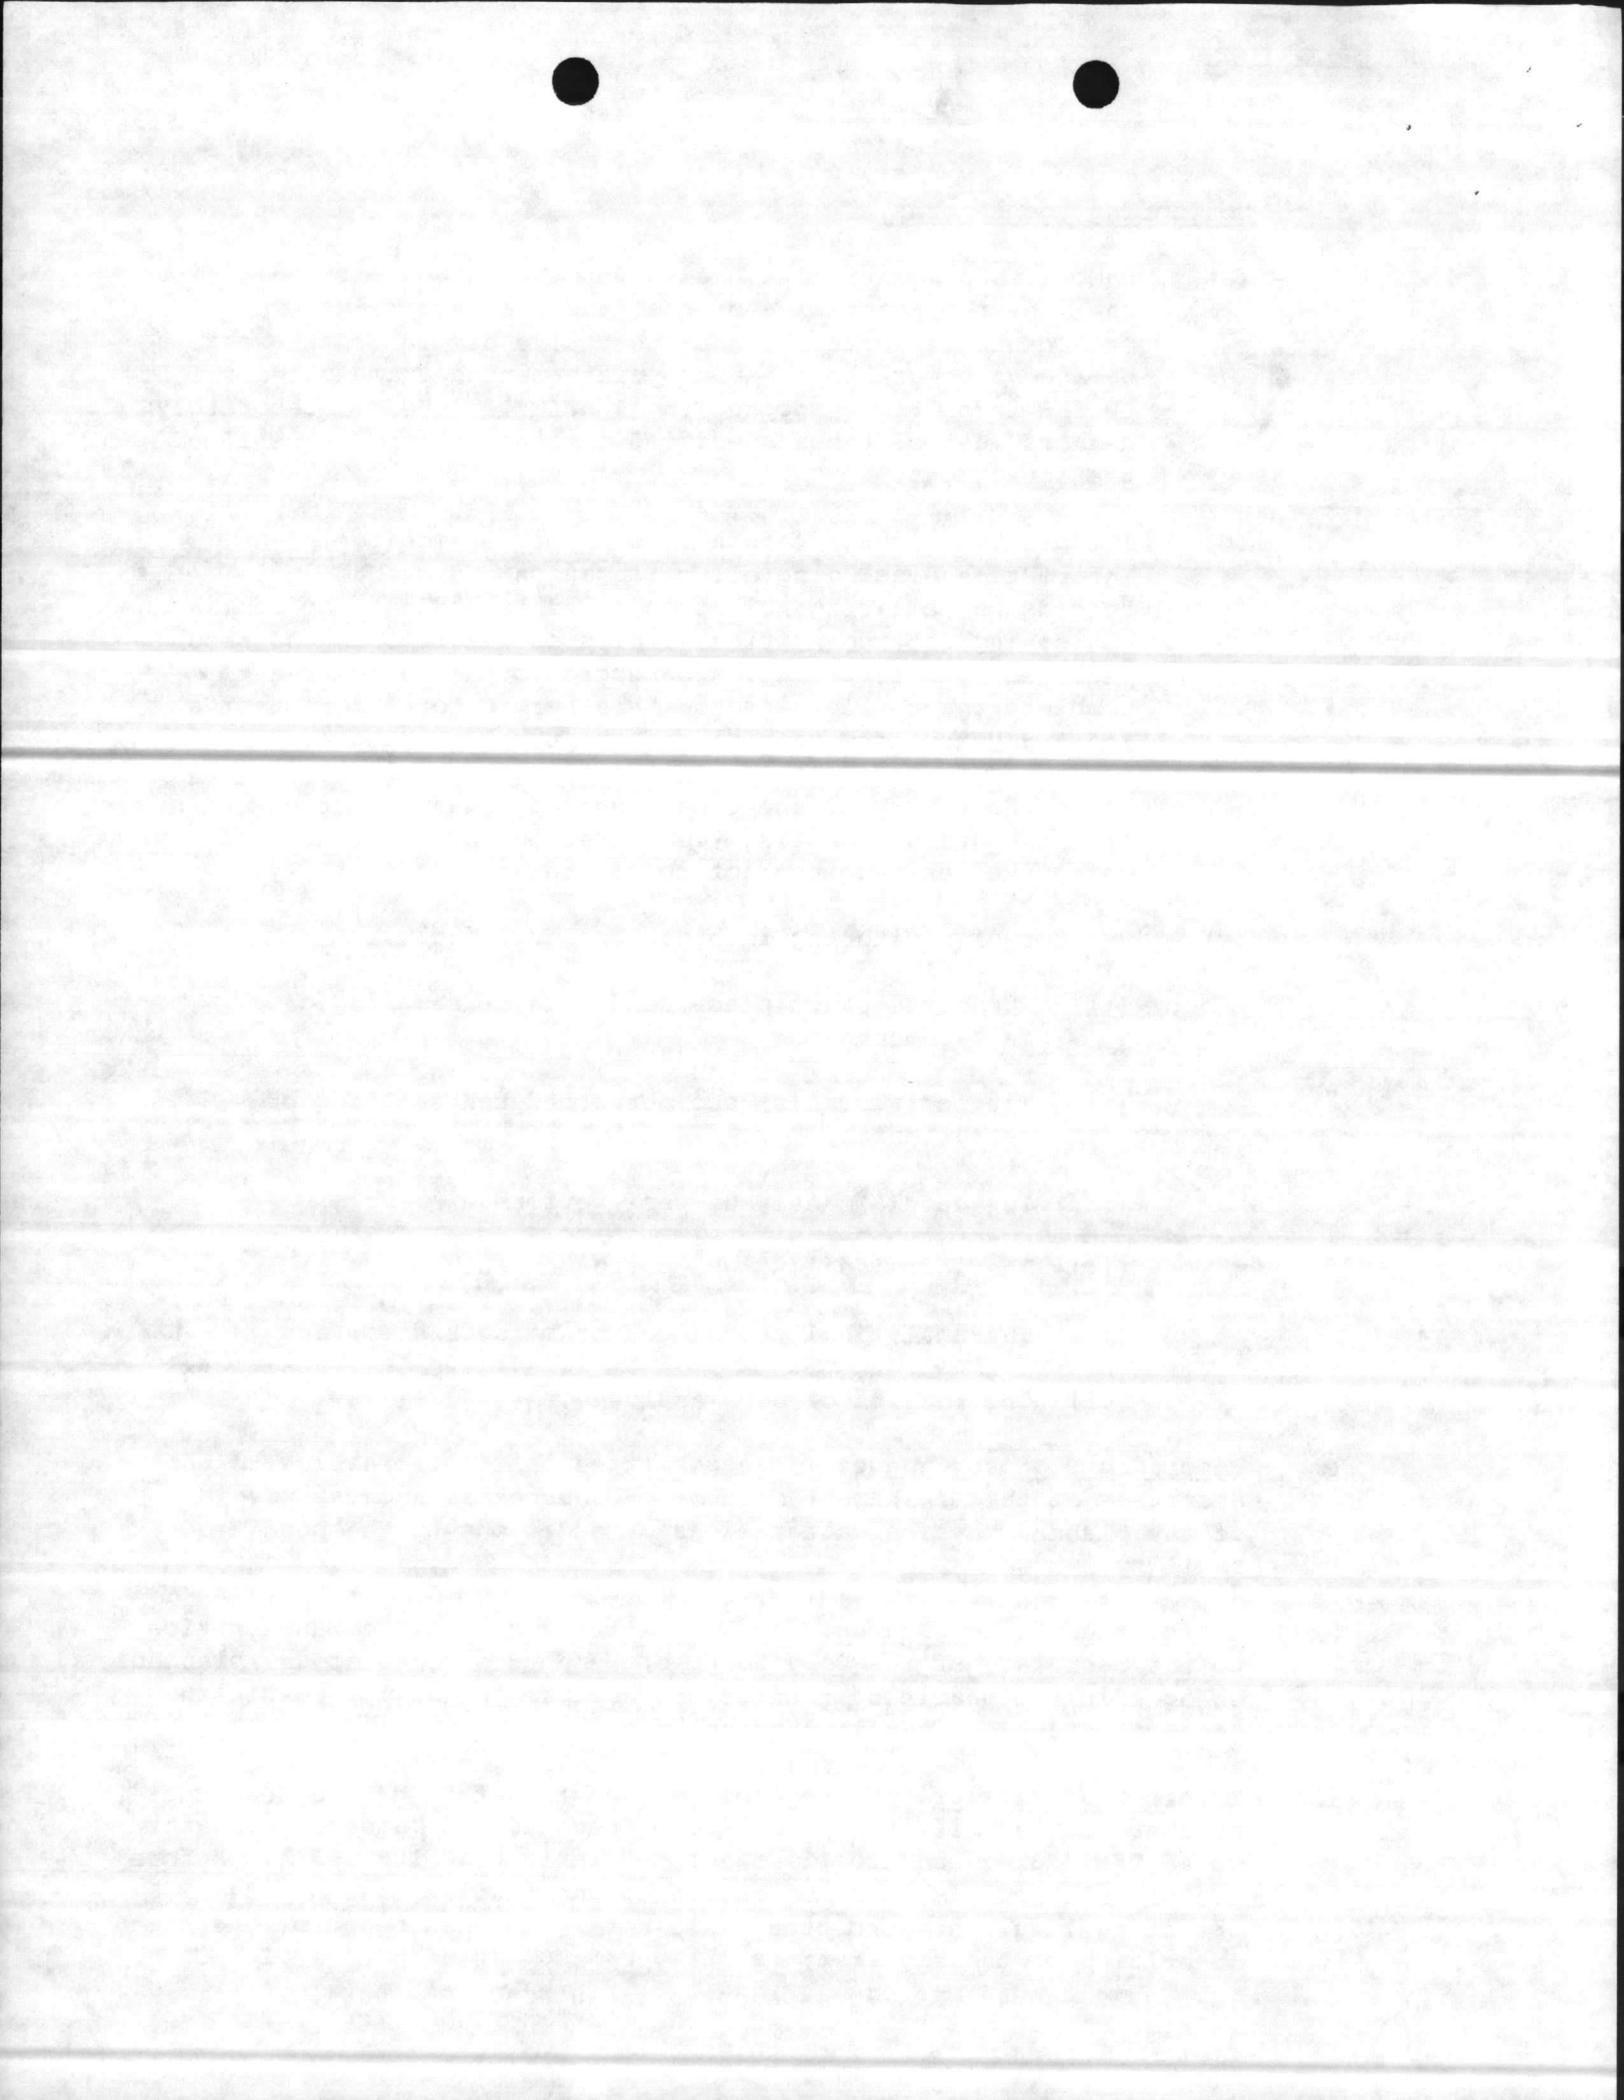

9. Monitoring and Records.

- (a) Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity. The method used to obtain a representative sample of the waste to be analyzed must be the appropriate method from Appendix I of 40 CFR Part 261 as adopted in 10 NCAC 10F .0029. Laboratory methods must be those specified in table 5, enclosure 11 of the attachment.
- (b) The permittee shall retain records of all monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, copies of all reports and records required by this permit, and records of all data used to complete the application for this permit for a period of at least 3 years from the date of the sample, measurement, report or record. These periods may be extended by request of the Secretary of the Department of Human Resources at any time and are automatically extended during the course of any unresolved enforcement action regarding this facility.
- (c) Records of monitoring information shall include:
 - (i) The date, exact place, and time of sampling or measurements;
 - (ii) The individual(s) who performed the sampling or measurements;
 - (iii) The date(s) analyses were performed;
 - (iv) The individual(s) who performed the analyses;
 - (v) The analytical techniques or methods used; and
 - (vi) The results of such analyses.

10. Reporting Planned Changes. The permittee shall give notice to the Secretary of the Department of Human Resources as soon as possible of any planned physical alterations or additions to the permitted facility.

11. Anticipated Noncompliance. The permittee shall give advance notice to the Secretary of the Department of Human Resources of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

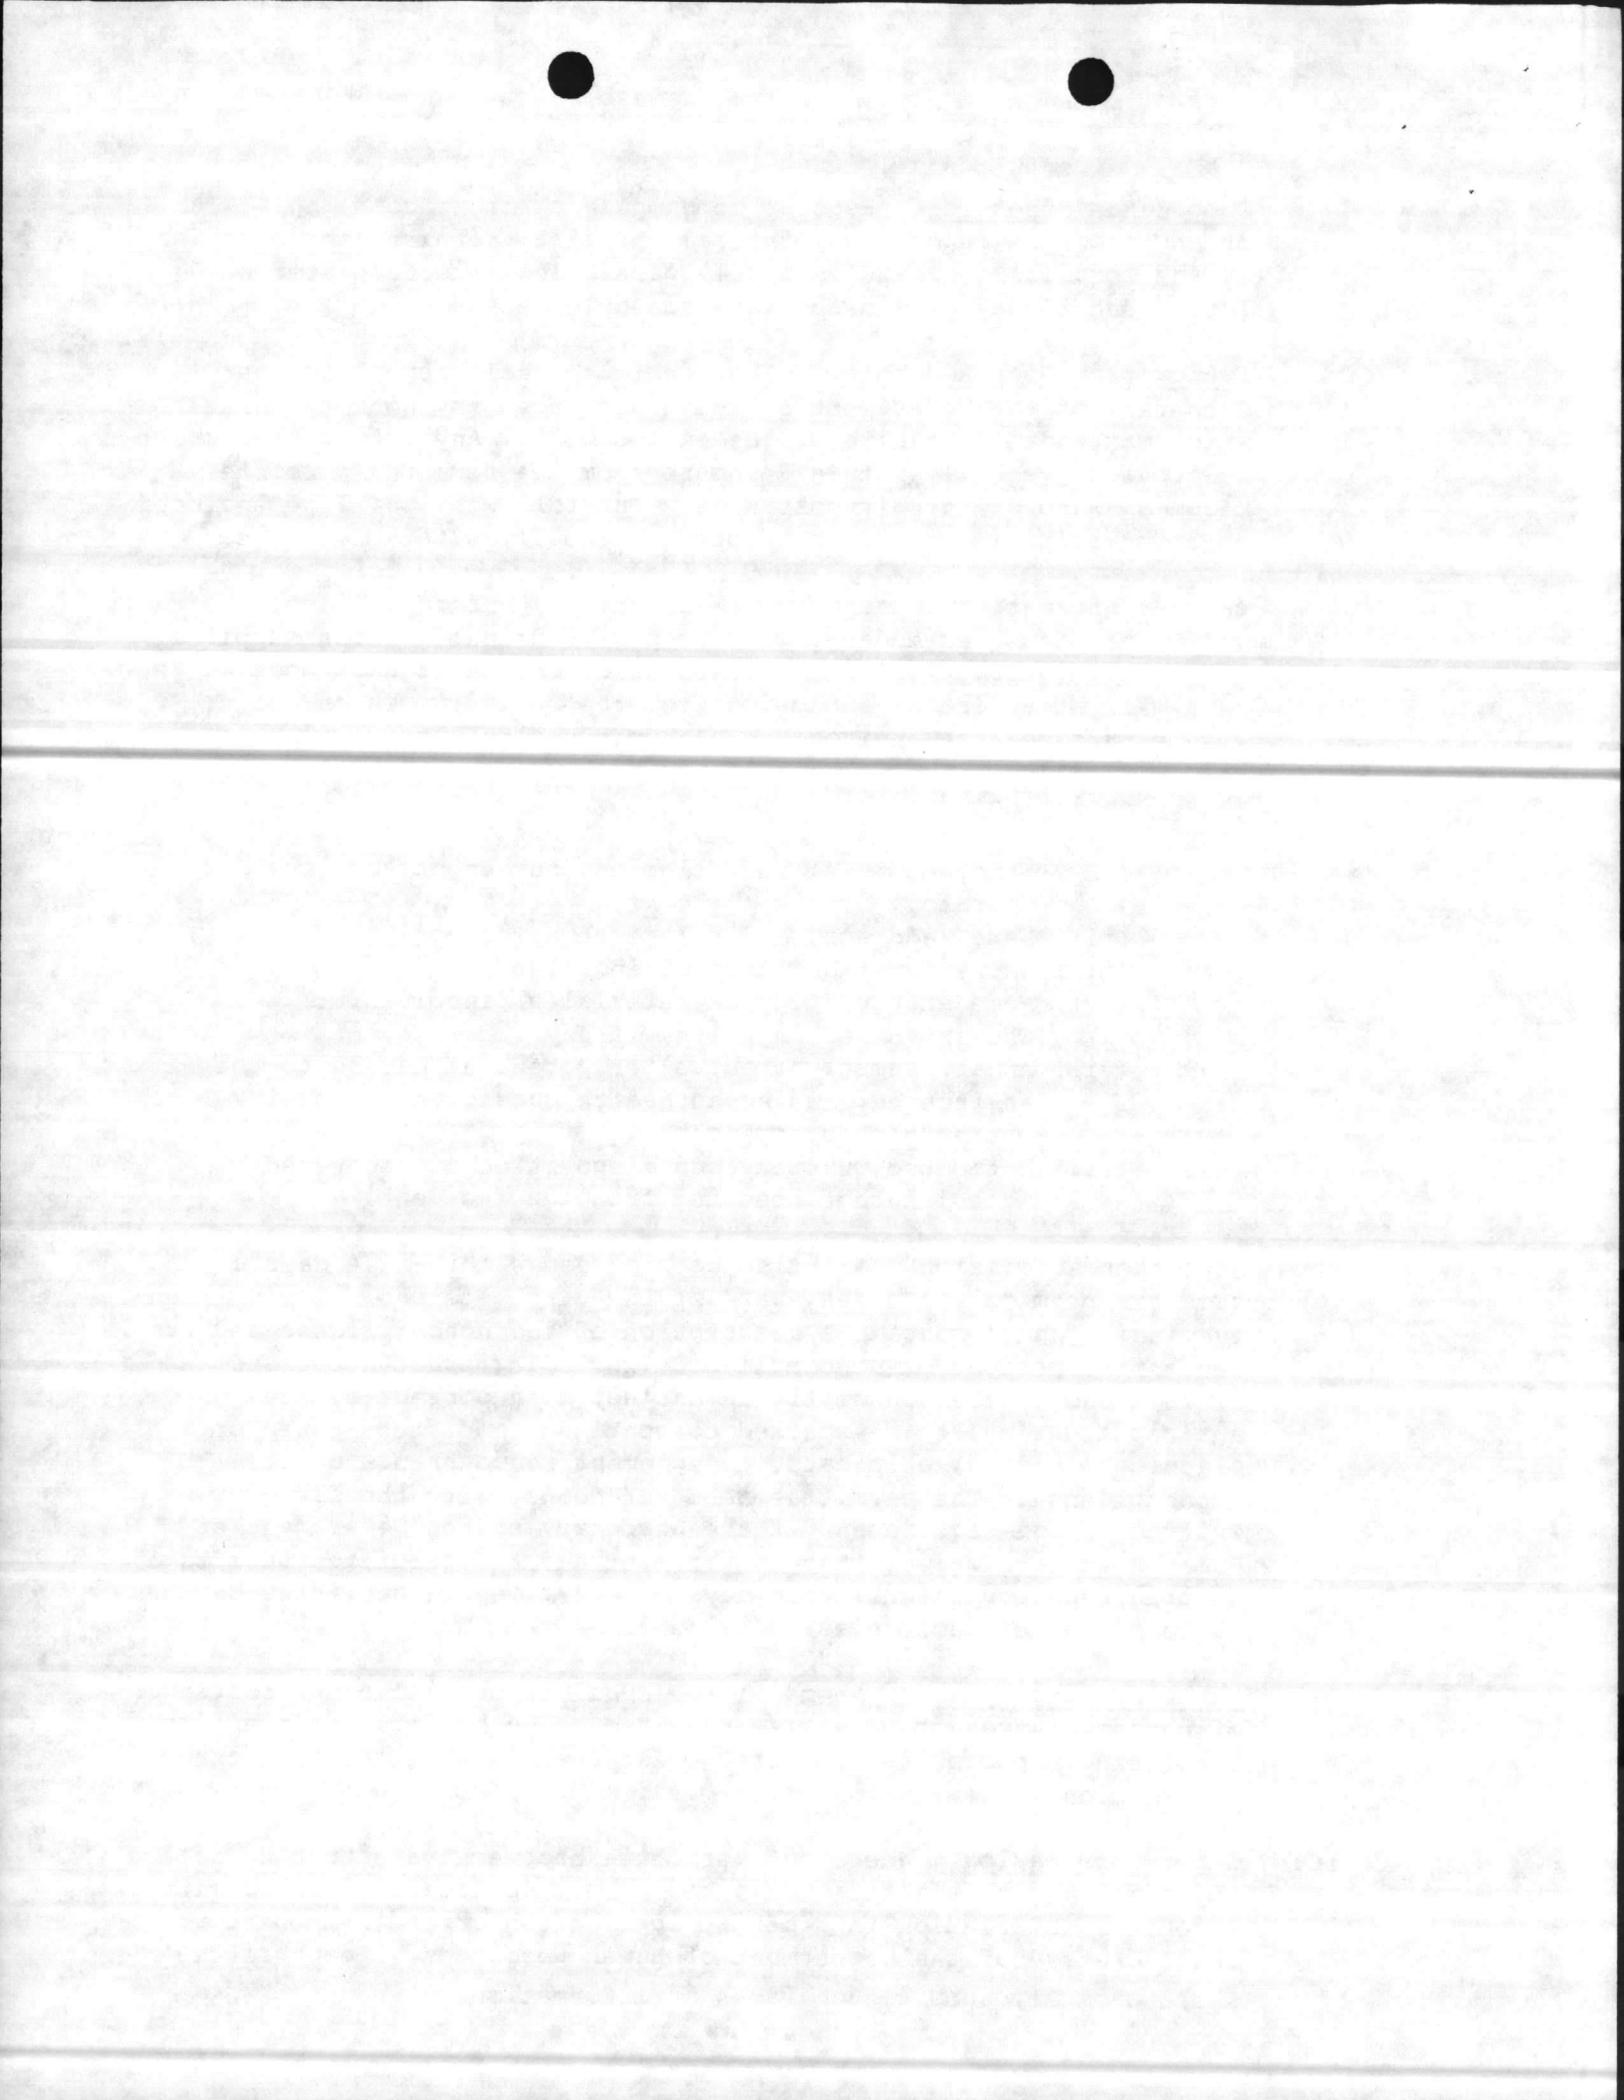

12. Transfer of Permits. This permit may be transferred to a new owner or operator only if it is modified or revoked and reissued pursuant to 40 CFR 270.41 and 270.42 as adopted in 10 NCAC 10F .0034. Before transferring ownership or operation of the facility during its operating life, the permittee shall notify the new owner or operator in writing of the requirements of 40 CFR 264 as adopted in 10 NCAC 10F .0032 and 40 CFR 270 as adopted in 10 NCAC 10F .0034.

13. Compliance Schedules. Reports of compliance or noncompliance with, or any progress reports on, interim and final requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.
14. Twenty-four Hour Reporting. The permittee shall report to the Secretary of the Department of Human Resources any noncompliance which may endanger health or the environment. Any information shall be provided verbally within 24 hours from the time the permittee becomes aware of the circumstances. The following shall be included as information which must be reported verbally within 24 hours:
- (a) Information concerning release of any hazardous waste that may cause an endangerment to public drinking water supplies.
 - (b) Any information of a release or discharge of hazardous waste, or of a fire or explosion from the facility, which could threaten the environment or human health outside the facility. The description of the occurrence and its cause shall include:
 - (i) Name, address, and telephone number of the owner or operator.
 - (ii) Name, address, and telephone number of the facility.
 - (iii) Date, time, and type of incident.
 - (iv) Name and quantity of material(s) involved.
 - (v) The extent of injuries, if any.
 - (vi) An assessment of actual or potential hazard to the environment and human health outside the facility, where this is applicable.
 - (vii) Estimated quantity and disposition of recovered material that resulted from the incident.

A written submission shall also be provided within five days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the periods of noncompliance (including exact dates and times), and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance. The permittee need not comply with the five-day written notice requirement if the Secretary of the Department of Human Resources waives that requirement and the permittee submits a written report within fifteen days of the time the permittee becomes aware of the circumstances.

15. Other Noncompliance. The permittee shall report all other instances of noncompliance not otherwise required to be reported at the time monitoring reports are submitted. The reports shall contain the information listed in Condition D.14.
16. Other Information. Where the permittee becomes aware that he failed to submit any relevant facts in the permit application, or submitted incorrect information in a permit application or in any report to the Secretary of the Department of Human Resources, the permittee shall promptly submit such facts or information.

E. SIGNATORY REQUIREMENTS

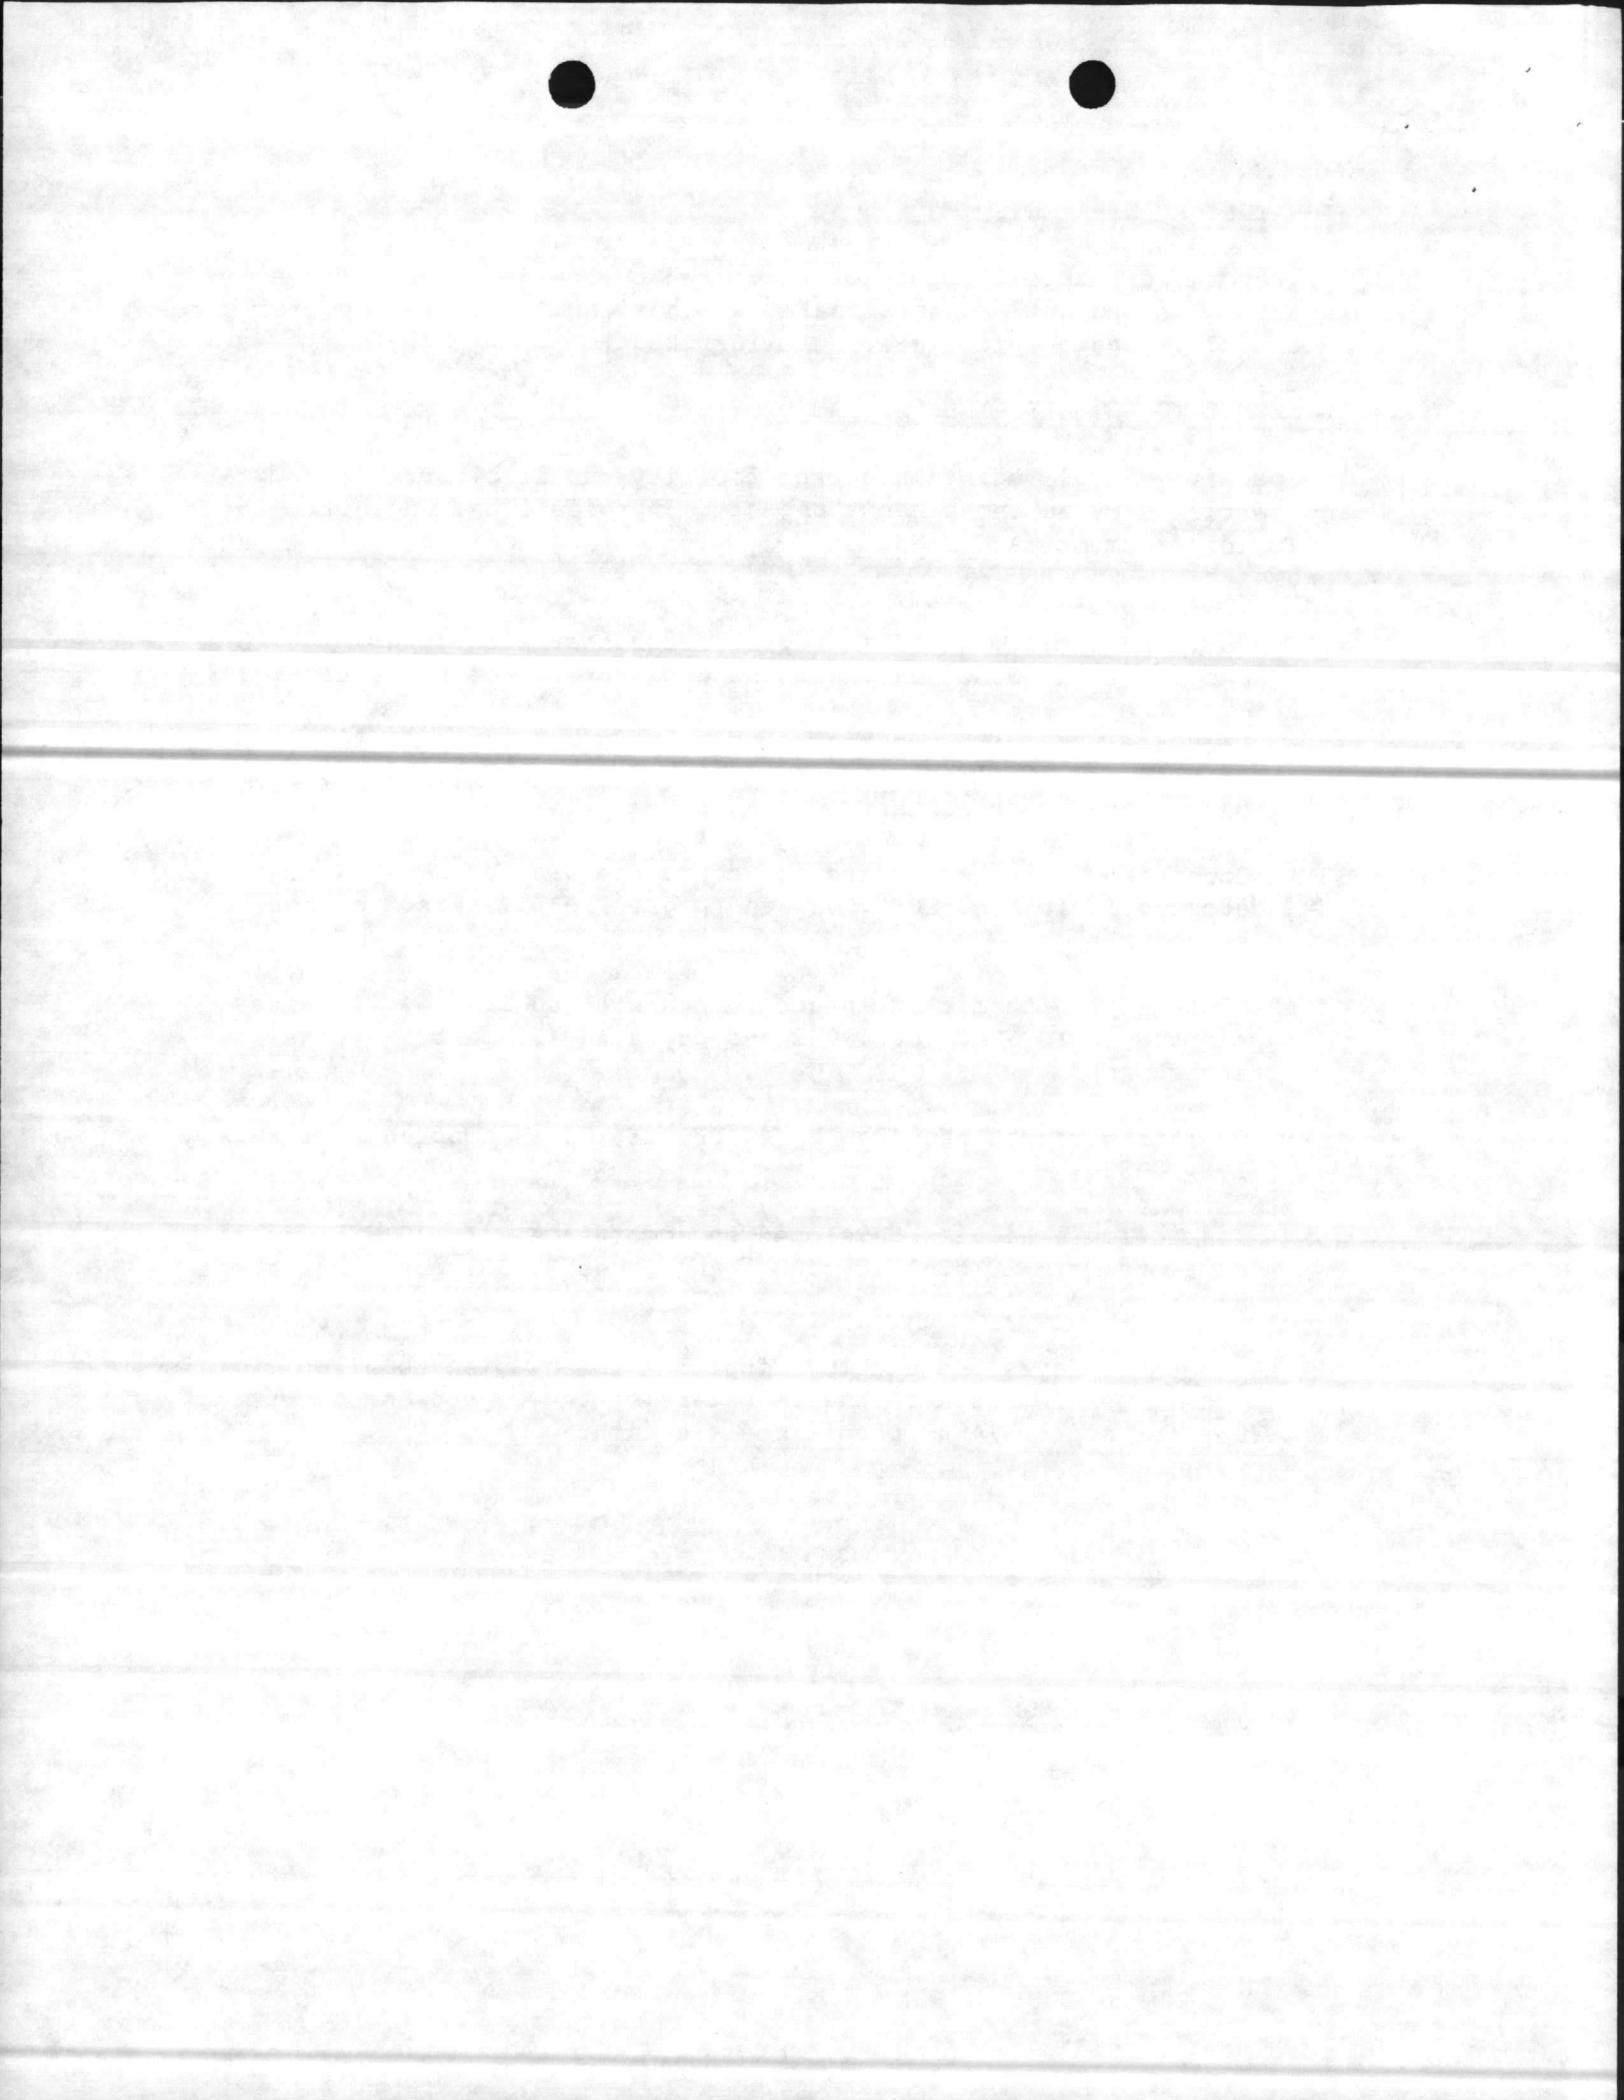

All reports or other information requested by the Secretary of the Department of Human Resources shall be signed and certified according to 40 CFR 270.11 as adopted in 10 NCAC 10F .0034.

F. DOCUMENTS TO BE MAINTAINED AT FACILITY SITE

The permittee shall maintain at the facility, until closure is completed and certified by an independent registered professional engineer, the following documents and amendments, revisions and modifications to these documents:

- (1) Waste analysis plan submitted in accordance with 40 CFR 264.13 as adopted in 10 NCAC 10F .0032 and enclosure 11 of the attachment.
- (2) Personnel training documents and records submitted in accordance with 40 CFR 264.16(d) as adopted in 10 NCAC 10F .0032 and page 39, part H of the attachment.
- (3) Contingency plan submitted in accordance with 40 CFR 264.53(a) as adopted in 10 NCAC 10F .0032 and pages 33-35b, part G of the attachment.
- (4) Closure plan submitted in accordance with 40 CFR 264.112(a) as adopted in 10 NCAC 10F .0032 and pages 40-43, part I of the attachment.
- (5) Operating record required by 40 CFR 264.73 as adopted in 10 NCAC 10F. 0032.
- (6) Inspection schedules developed in accordance with 40 CFR 264.15(b) as adopted in 10 NCAC 10F .0032 and pages 29-30, part F of the attachment.

All amendments, revisions and modifications to any plan required by this permit shall be submitted to the Secretary of the Department of Human Resources for approval and permit modification.

PART II - GENERAL FACILITY CONDITIONS

- A. Authorized Waste. The permittee is authorized to store the following hazardous waste(s) or categories of hazardous waste in accordance with the conditions specified in this permit:

Waste identified as hazardous by characteristic only

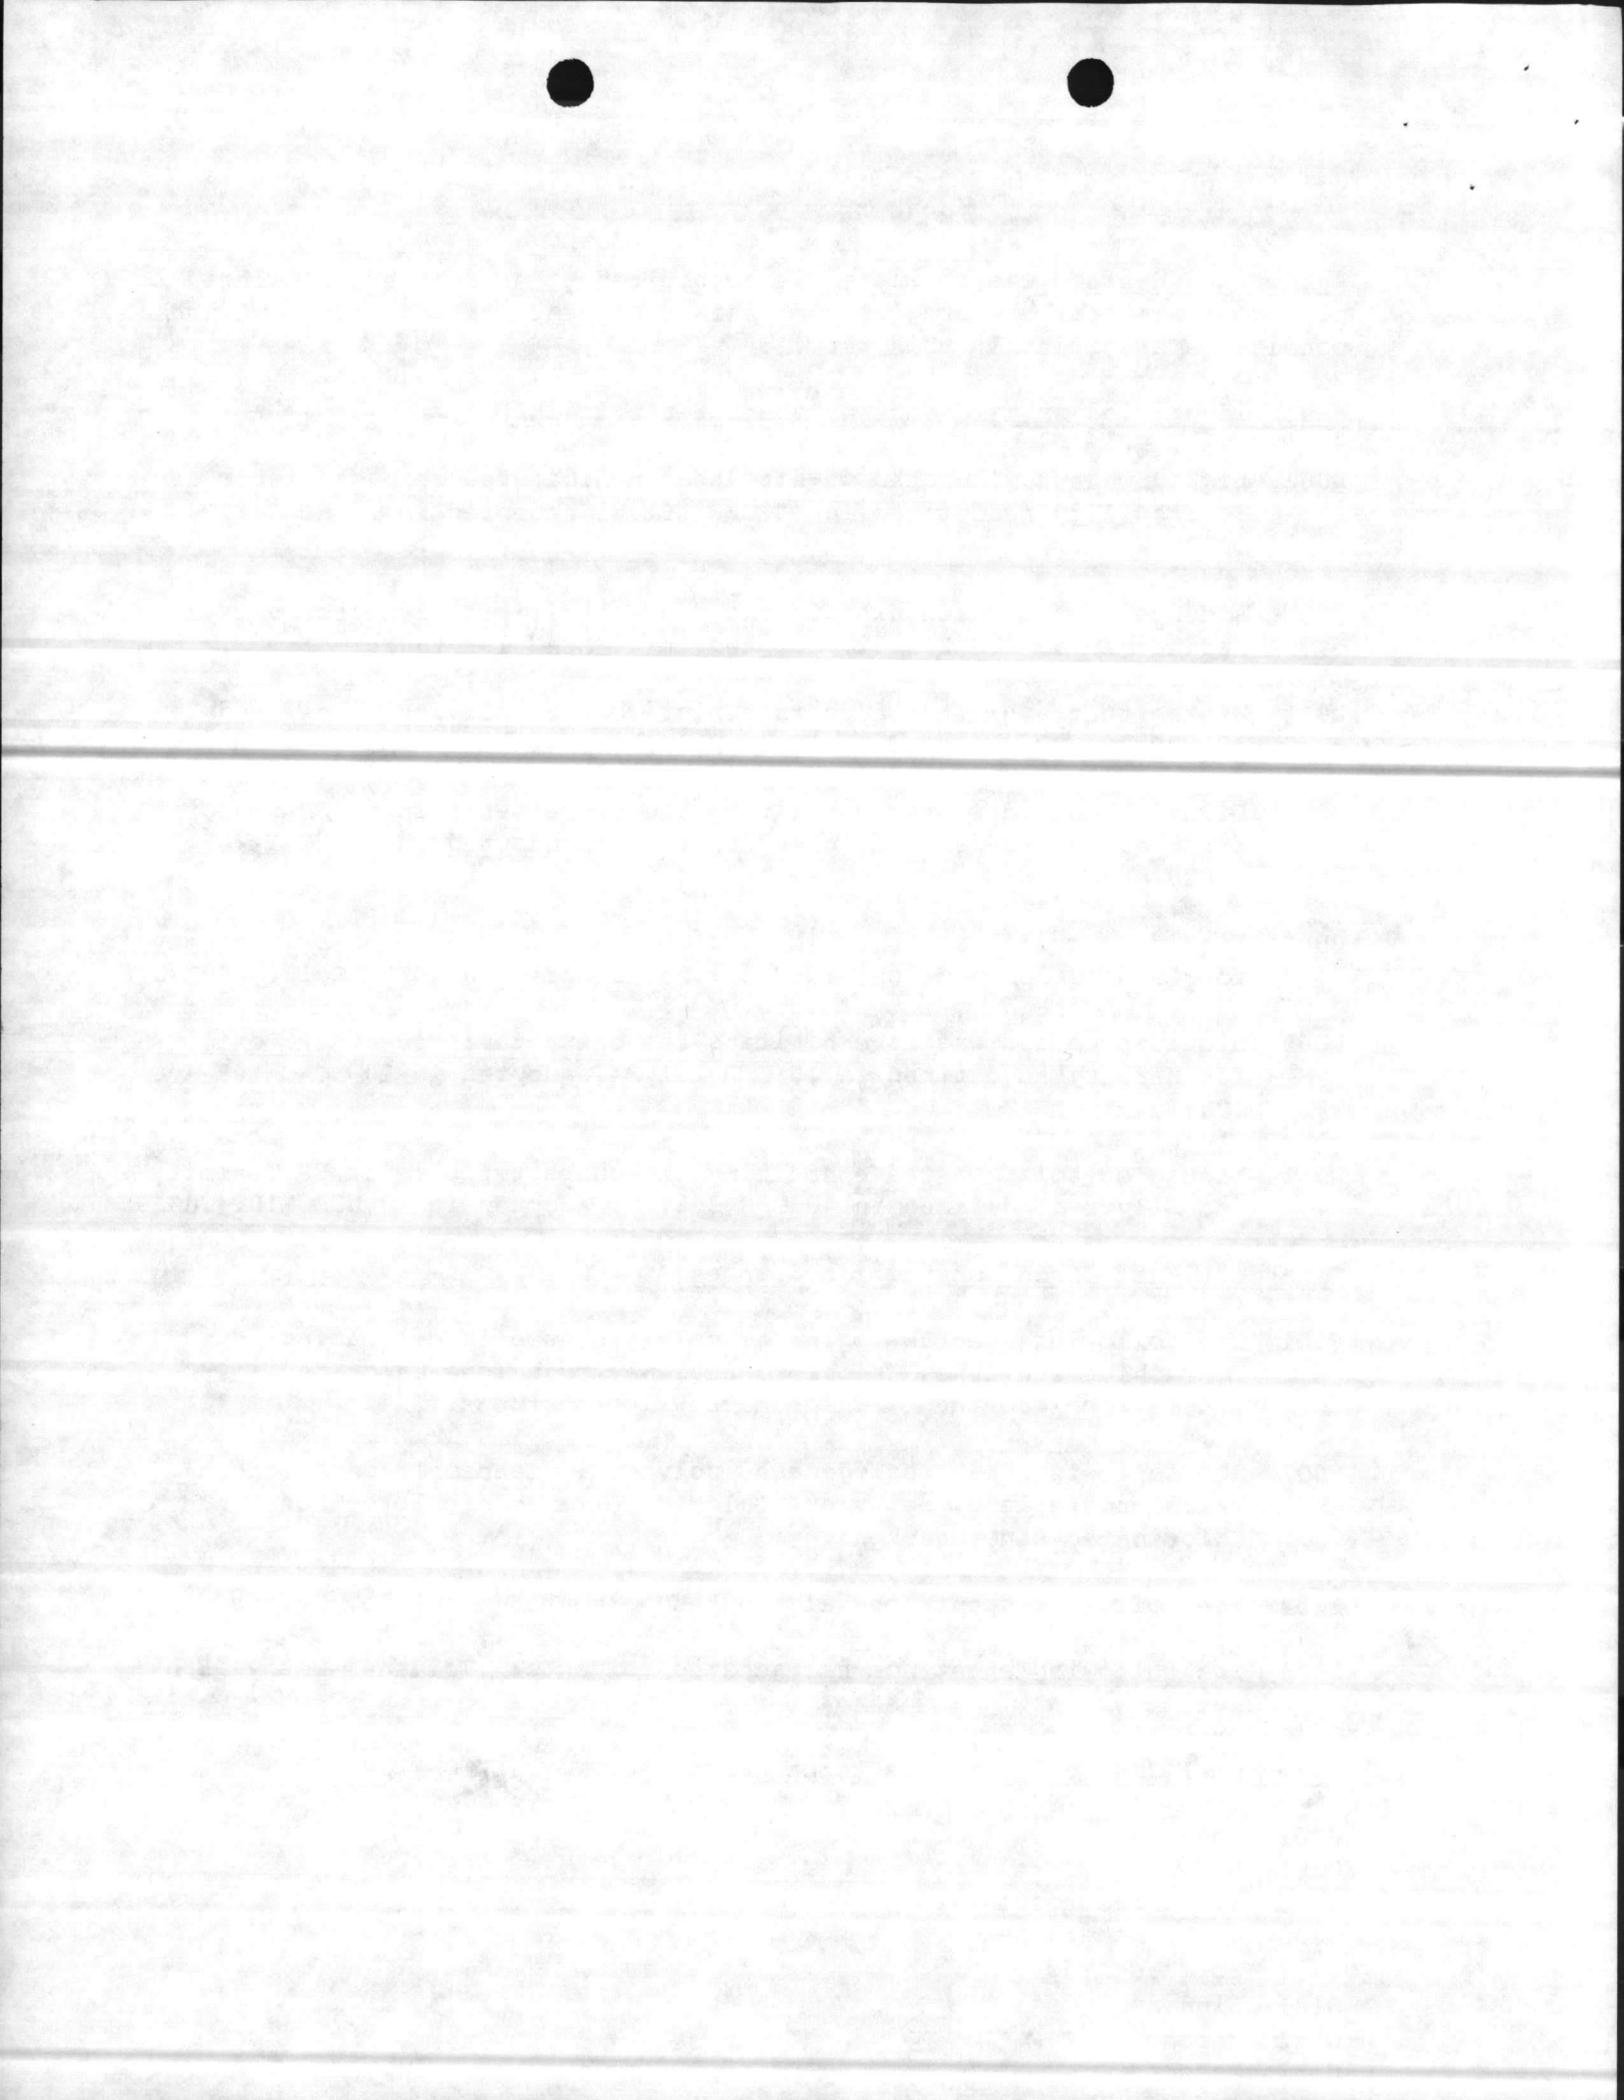

- D001 Liquid wastes generated on-site that exhibit the characteristic of ignitability as defined in 40 CFR 261.21, adopted in 10-NCAC 10F .0029.
- D002 Aqueous wastes which exhibit the characteristic of corrosivity as defined in 40 CFR 261.22, adopted in 10 NCAC 10F .0029.
- D003 Wastes that exhibit the characteristic of reactivity as defined in 40 CFR 261.23, adopted in 10 NCAC 10F .0029
- D007 Liquid or solid wastes exhibiting the characteristic of EP Toxicity for Chromium as defined in 40 CFR 261.24, adopted in 10 NCAC 10F .0029.
- D008 Liquid or solid wastes exhibiting the characteristic of EP Toxicity for Lead as defined in 40 CFR 261.24, adopted in 10 NCAC 10F .0029.
- D009 Liquid or solid wastes exhibiting the characteristic of EP Toxicity for Mercury as defined in 40 CFR 261.24, adopted in 10 NCAC 10F .0029.
- D011 Liquid or solid wastes exhibiting the characteristic of EP Toxicity for Silver as defined in 40 CFR 261.24, adopted in 10 NCAC 10F .0029.

Hazardous Waste from Nonspecific Sources

- F001 The following spent halogenated solvents used in degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Chlorinated fluorocarbons.
- F002 The following spent halogenated solvents: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Chlorinated fluorocarbons.
- F003 The following spent non-halogenated solvents: Acetone, Xylene
- F005 The following spent non-halogenated solvents: Toluene, Methyl Ethyl Ketone

Commercial Chemical Products to be Discarded

- U002 Acetone
U061 DDT
U076 1,1 Dichloroethane
U080 Dichloromethane
U122 Formaldehyde
U129 Lindane
U142 Kepone
U151 Mercury

Commercial Chemical Products to be Discarded (Continued)

U159 Methyl Ethyl Ketone
U188 Phenol
U210 Tetrachloroethene
U220 Toluene
U226 1,1,1-Trichloroethane
U228 Trichloroethene
U239 Xylene

B. Design and Operation of Facility. The permittee shall maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste constituents to air, soil or surface water which could threaten human health or the environment.

C. Required Notice.

(1) The permittee shall notify the Secretary of the Department of Human Resources in writing at least four weeks in advance of the date the permittee expects to receive hazardous waste from a source outside of the United States. Notice of subsequent shipments during the same calendar year of the same waste from the same foreign source is not required.

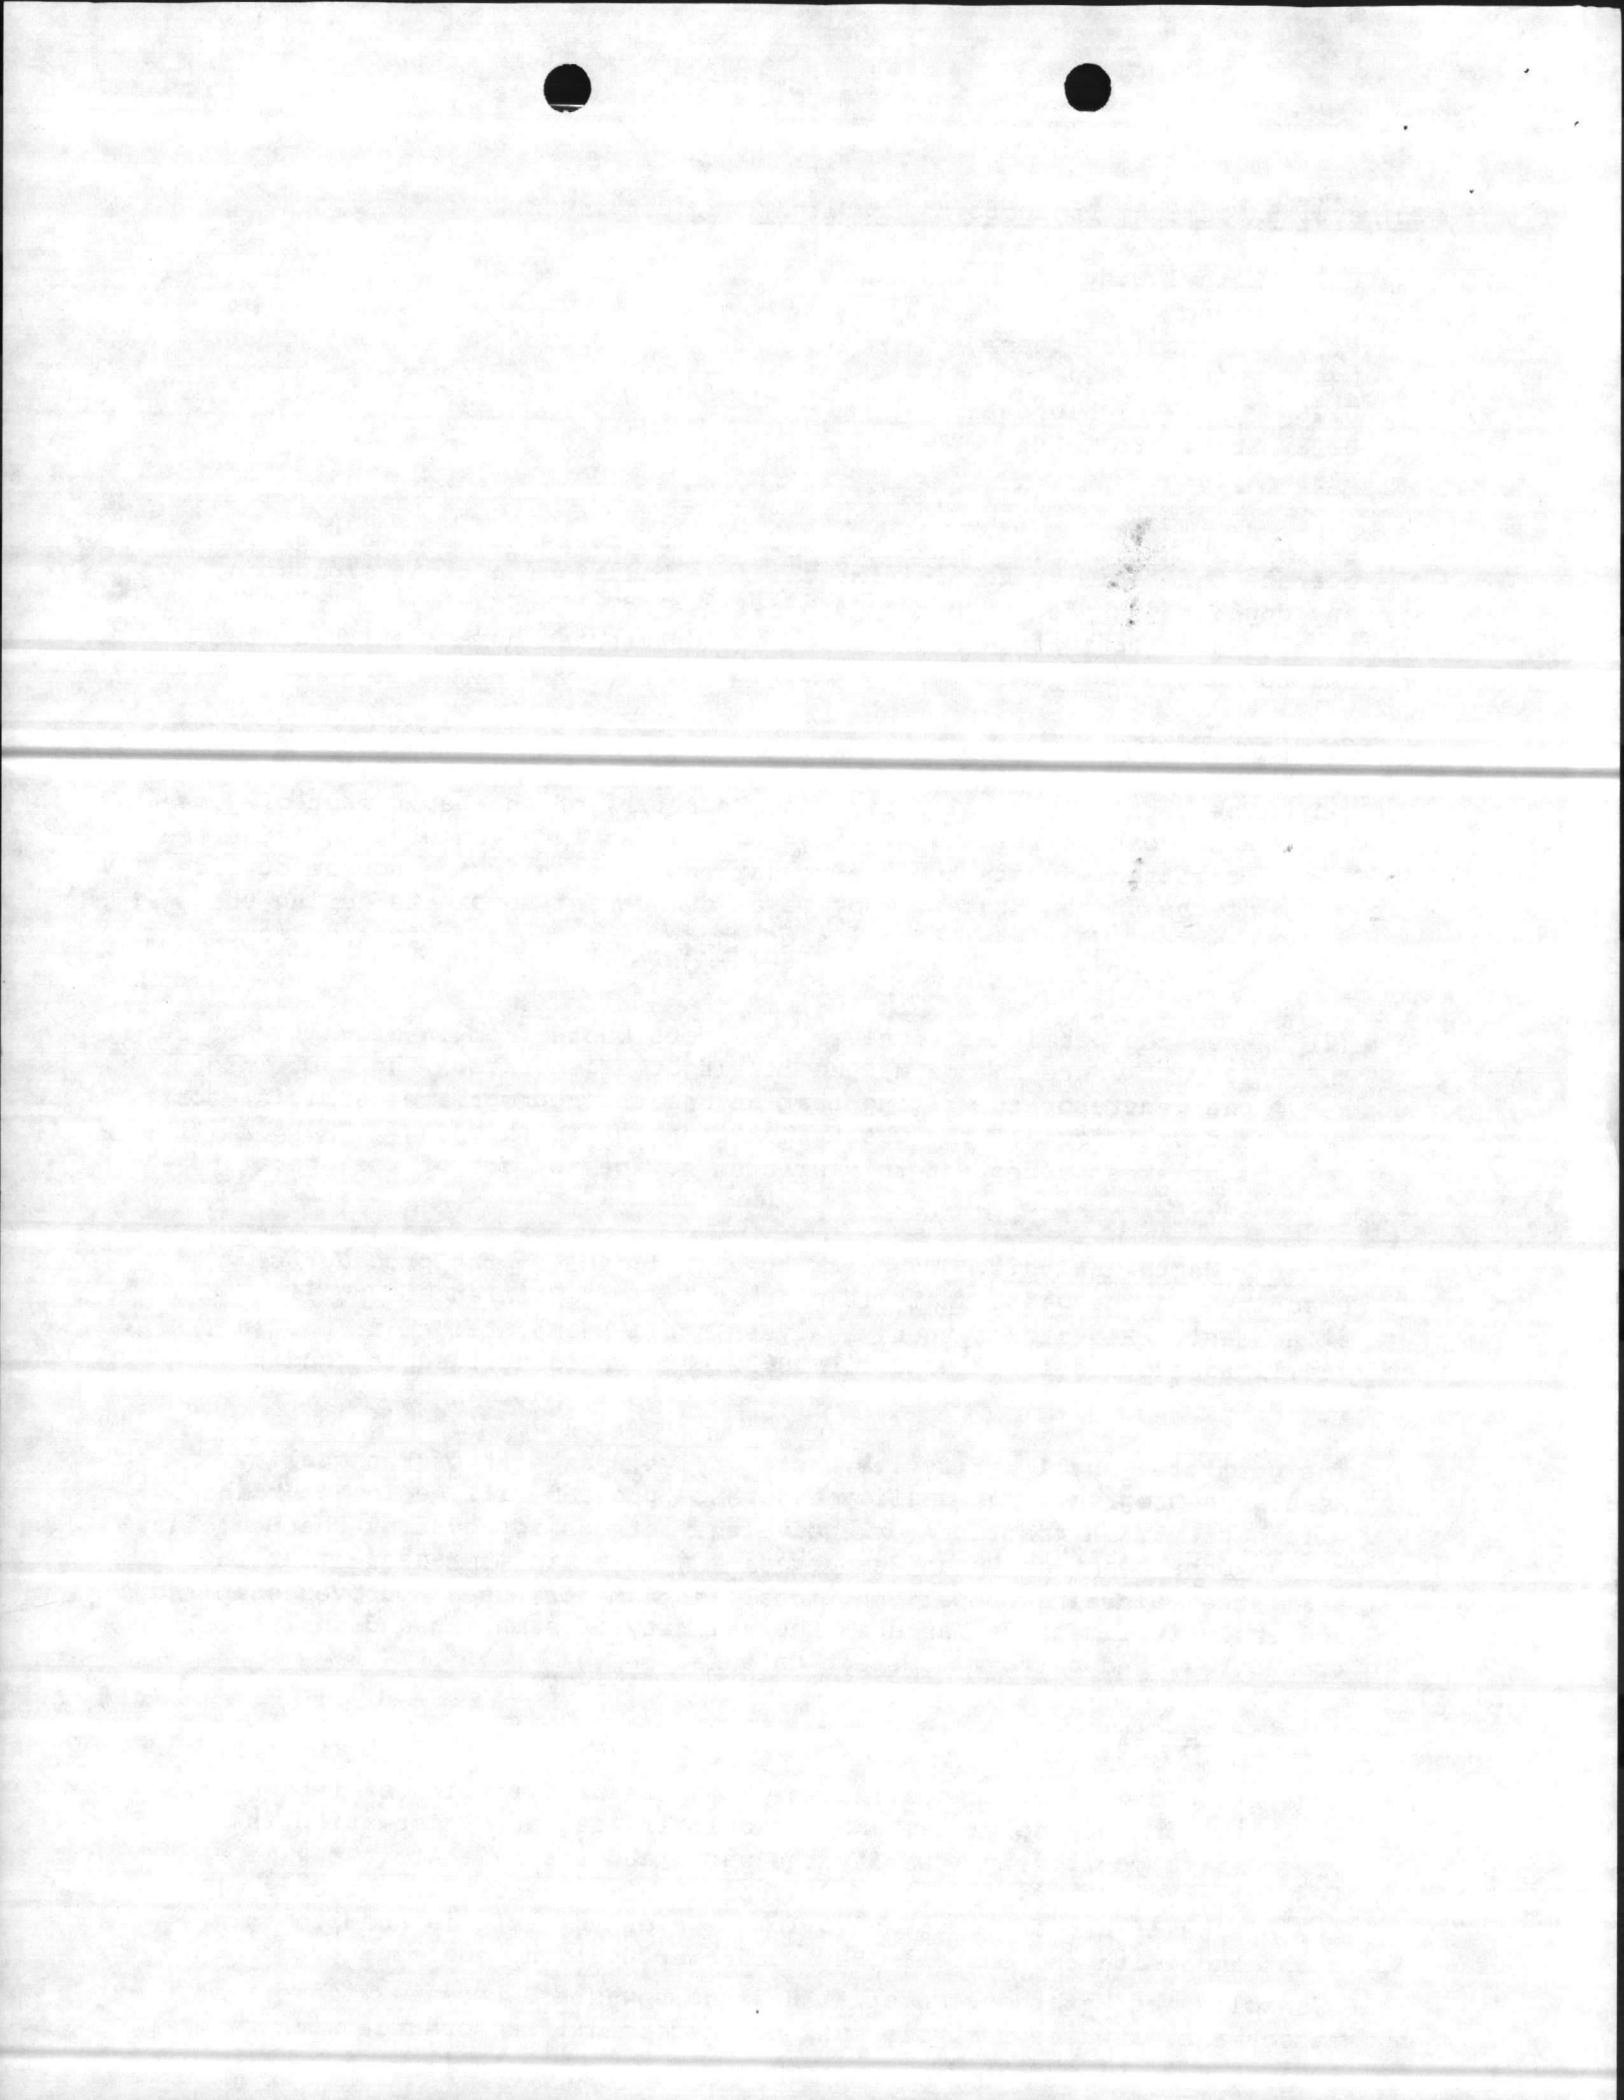

(2) When the permittee receives hazardous waste from an off-site source (except where the permittee is also the generator), he must inform the generator in writing that he has the appropriate permit(s) for, and will accept, the waste the generator is shipping. The permittee shall keep a copy of this written notice as part of the operating record.

D. General Waste Analysis. The permittee shall follow the procedures described in the waste analysis plan as indicated in enclosure 11 of the attachment. Results of these analyses shall be maintained as per 40 CFR 264.13 as adopted in 10 NCAC 10F .0032. and as identified in condition I.D.9.

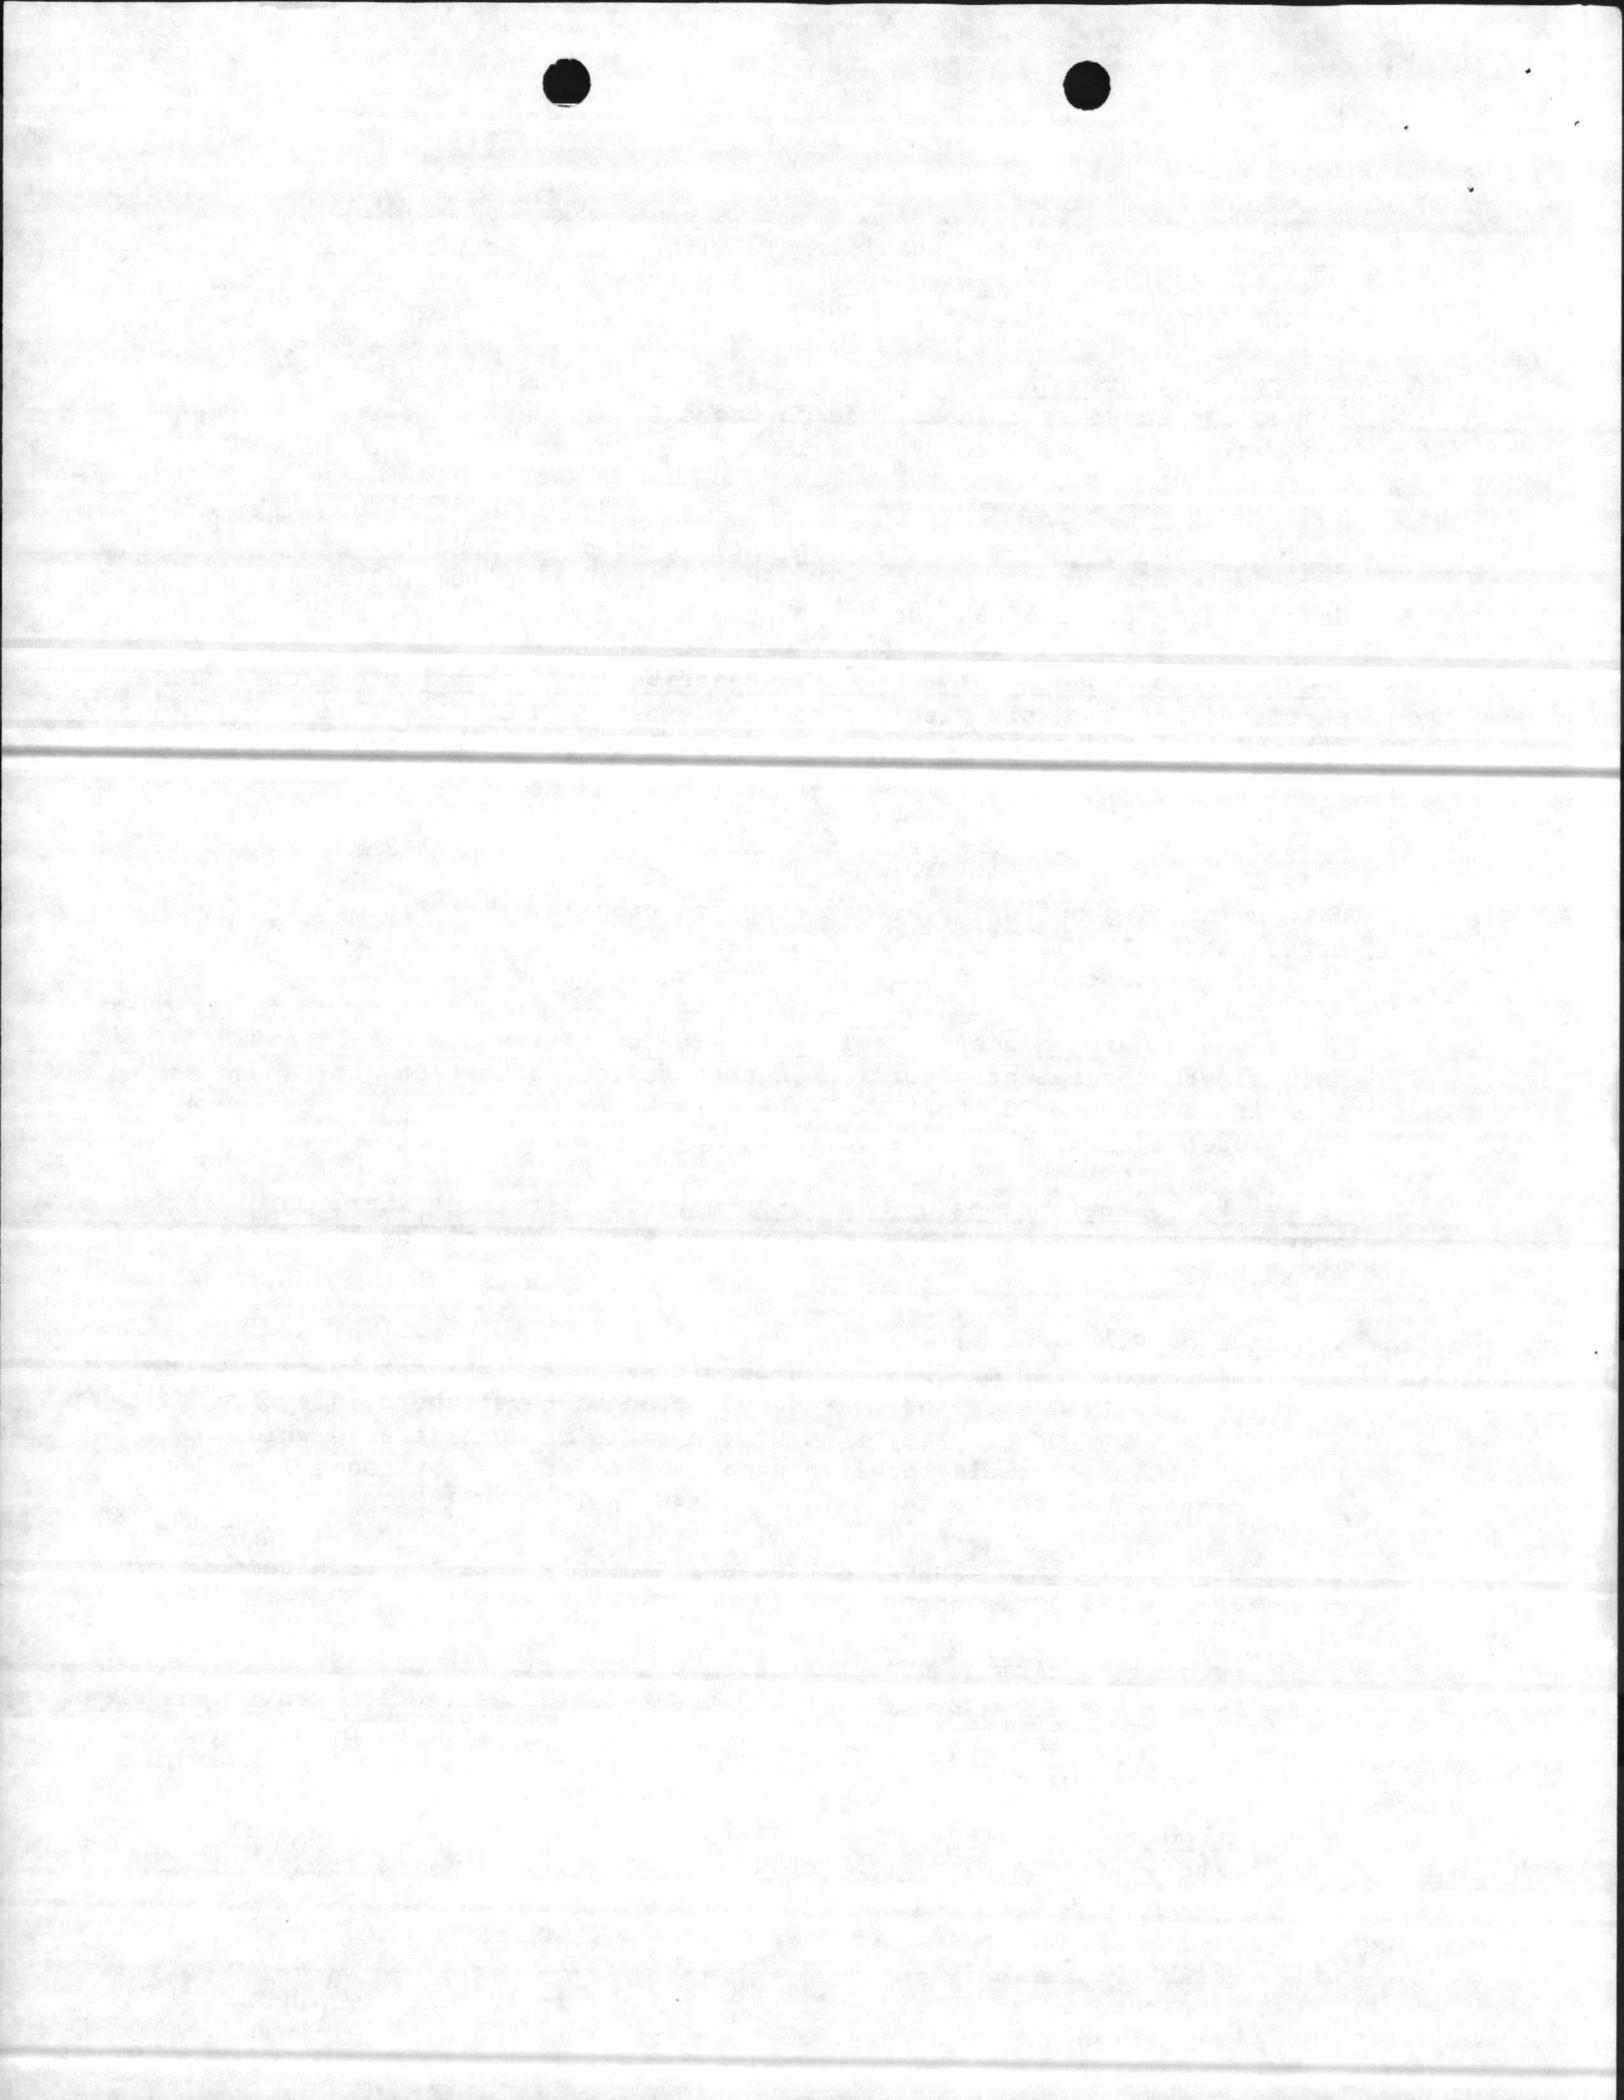

The permittee shall verify its waste analysis as part of the quality assurance program. The quality assurance program will be in accordance with current EPA practices or equivalent methods approved by the Secretary of the Department of Human Resources; and at a minimum ensure that the permittee maintains proper functional instruments, uses approved sampling and analytical methods, assures the validity of sampling and analytical procedures, and performs correct calculations.

Special Condition

Generating organization certification may be used in lieu of laboratory analysis for routine waste handling only if adequate information is provided to positively identify the waste and insure that it may be properly stored, transported and disposed of. The certification shall be the Disposal Turn-in Document (DTID). Unless a waste is handled in accordance with enclosure 1 (Base Order 6240.5) and enclosure 2 (Consolidated Hazardous Material/Hazardous waste Disposal Guidance) of the attachment, a waste analysis must be performed in accordance with enclosure 11 of the attachment.

- E. Security. The permittee shall comply with the security provisions of 40 CFR 264.14(b) and (c) as adopted in 10 NCAC 10F .0032 and page 29, part F of the attachment.
- F. General Inspection Requirements. The permittee shall follow the inspection schedule as described on pages 29-31, part F of the attachment and shall comply with 40 CFR 264.15 (c) and (d) as adopted in 10 NCAC 10F .0032.
- G. Personnel Training. The permittee shall conduct personnel training in accordance with 40 CFR 264.16 as adopted in 10 NCAC 10F .0032 and as described on pages 36-39, part H of the attachment.
- H. General Requirements for Ignitable, Reactive, or Incompatible Waste. The permittee shall comply with the requirements of 40 CFR 264.17(a) as adopted in 10 NCAC 10F .0032 and the documentation requirements of 264.17(c) as adopted in 10 NCAC 10F .0032.
- I. Required Equipment. The permittee shall equip the facility and make readily available to operating personnel the necessary equipment to carry out the contingency plan, as described on page 32, part F of the attachment. At all times, the equipment requirement described in 40 CFR 264.52, as adopted in 10 NCAC 10F .0032 shall be met.
- J. Testing and Maintenance of Equipment. The permittee shall test and maintain the equipment specified in the previous permit condition and as identified on page 30, part F of the attachment, as necessary to ensure its proper operation in time of emergency.
- K. Access to Communications or Alarm System. The permittee shall maintain access to the communications or alarm system as required by 40 CFR 264.34 as adopted in 10 NCAC 10F .0032.
- L. Contingency Plan.
1. Implementation of Plan. The permittee shall immediately carry out the provisions of the contingency plan whenever there is a fire, explosion, or release of hazardous waste or constituents which threatens or could threaten human health or the environment as required by 40 CFR 264.56 as adopted in 10 NCAC 10F .0032.
 2. Copies of Plan. The permittee shall comply with the requirements of 40 CFR 264.53 as adopted in 10 NCAC 10F .0032.
 3. Special Condition. The Base Fire Chief will, at least annually, review the contingency plan and the types of wastes located in the hazardous waste storage facility with representatives of the Naval Hospital and Base Provost Marshall
 4. Amendments to Plan. The permittee shall review and immediately amend, if necessary, the contingency plan, in accordance with 40 CFR 264.54 as adopted in 10 NCAC 10F .0032.
 5. Emergency Coordinator. The permittee shall comply with the requirements of 40 CFR 264.55 as adopted in 10 NCAC 10F .0032, concerning the emergency coordinator.

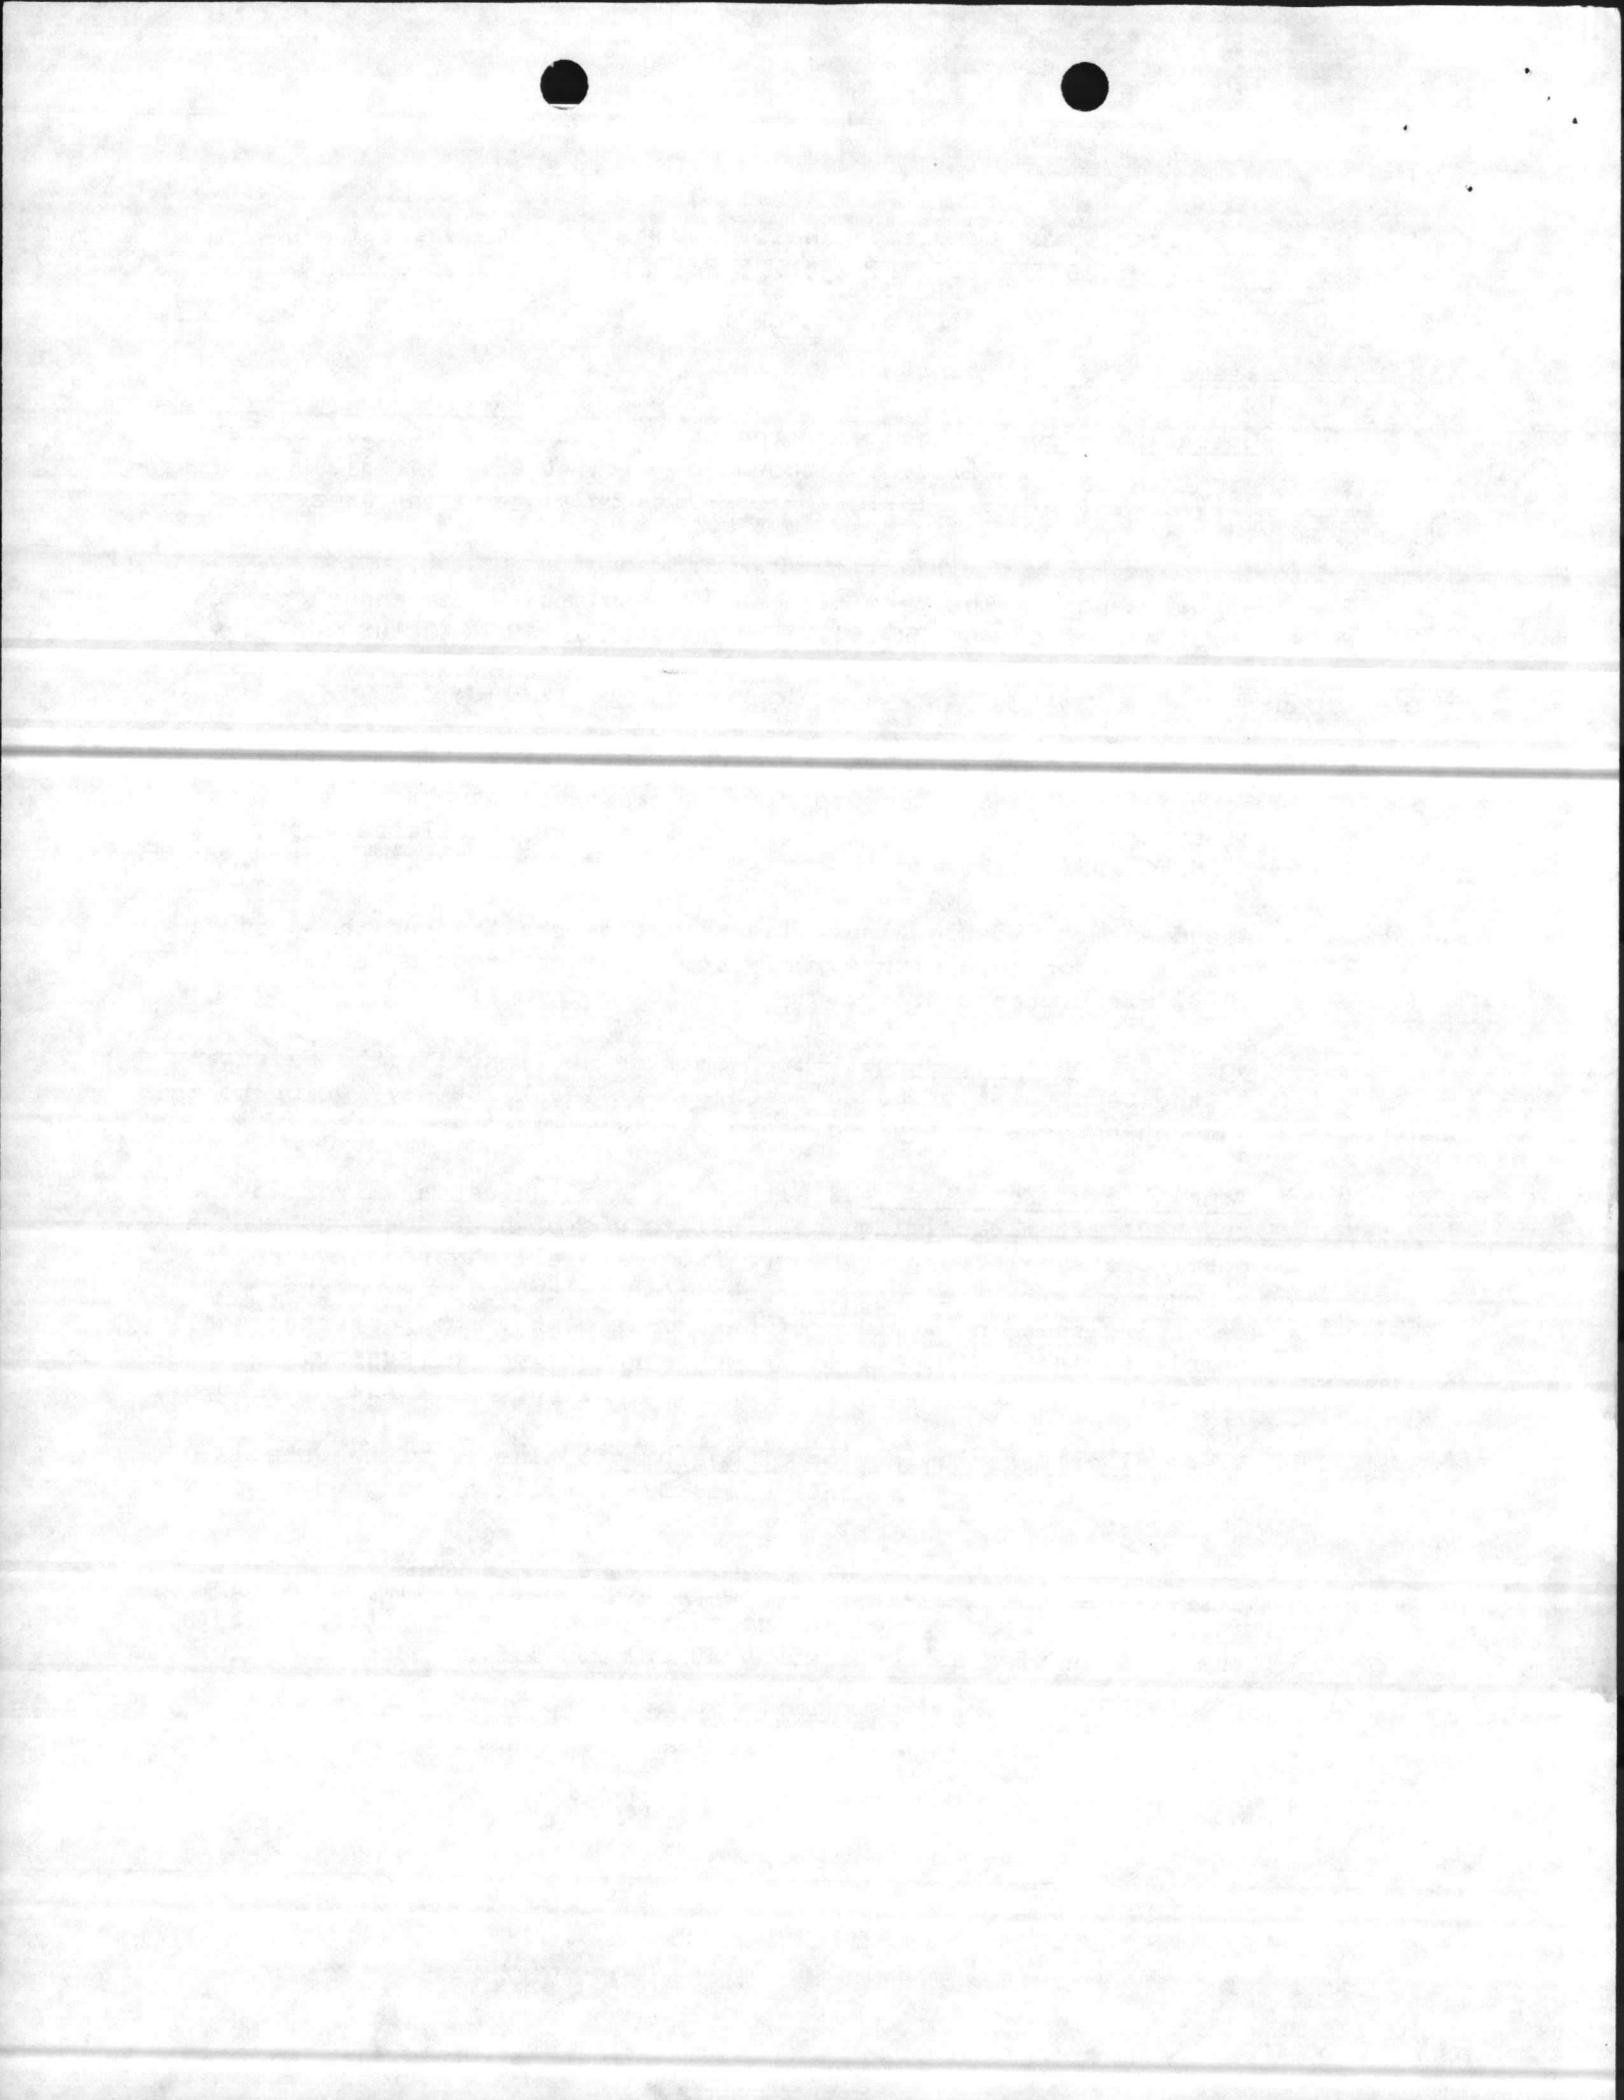

M. Manifest System. The permittee shall comply with the manifest requirements of 40 CFR 264.71, 264.72, and 264.76 as adopted in 10 NCAC 10F .0032.

N. Recordkeeping and Reporting.

1. Operating Record. The permittee shall maintain a written operating record at the facility in accordance with 40 CFR 264.73(a), (b)(1), (2), (3), (4), (5), (6), (7) (off-site only), and (8) as adopted in 10 NCAC 10F .0032.
2. Annual Report. The permittee shall comply with the annual report requirements of 40 CFR 264.75 as adopted in 10 NCAC 10F .0032.

O. Closure

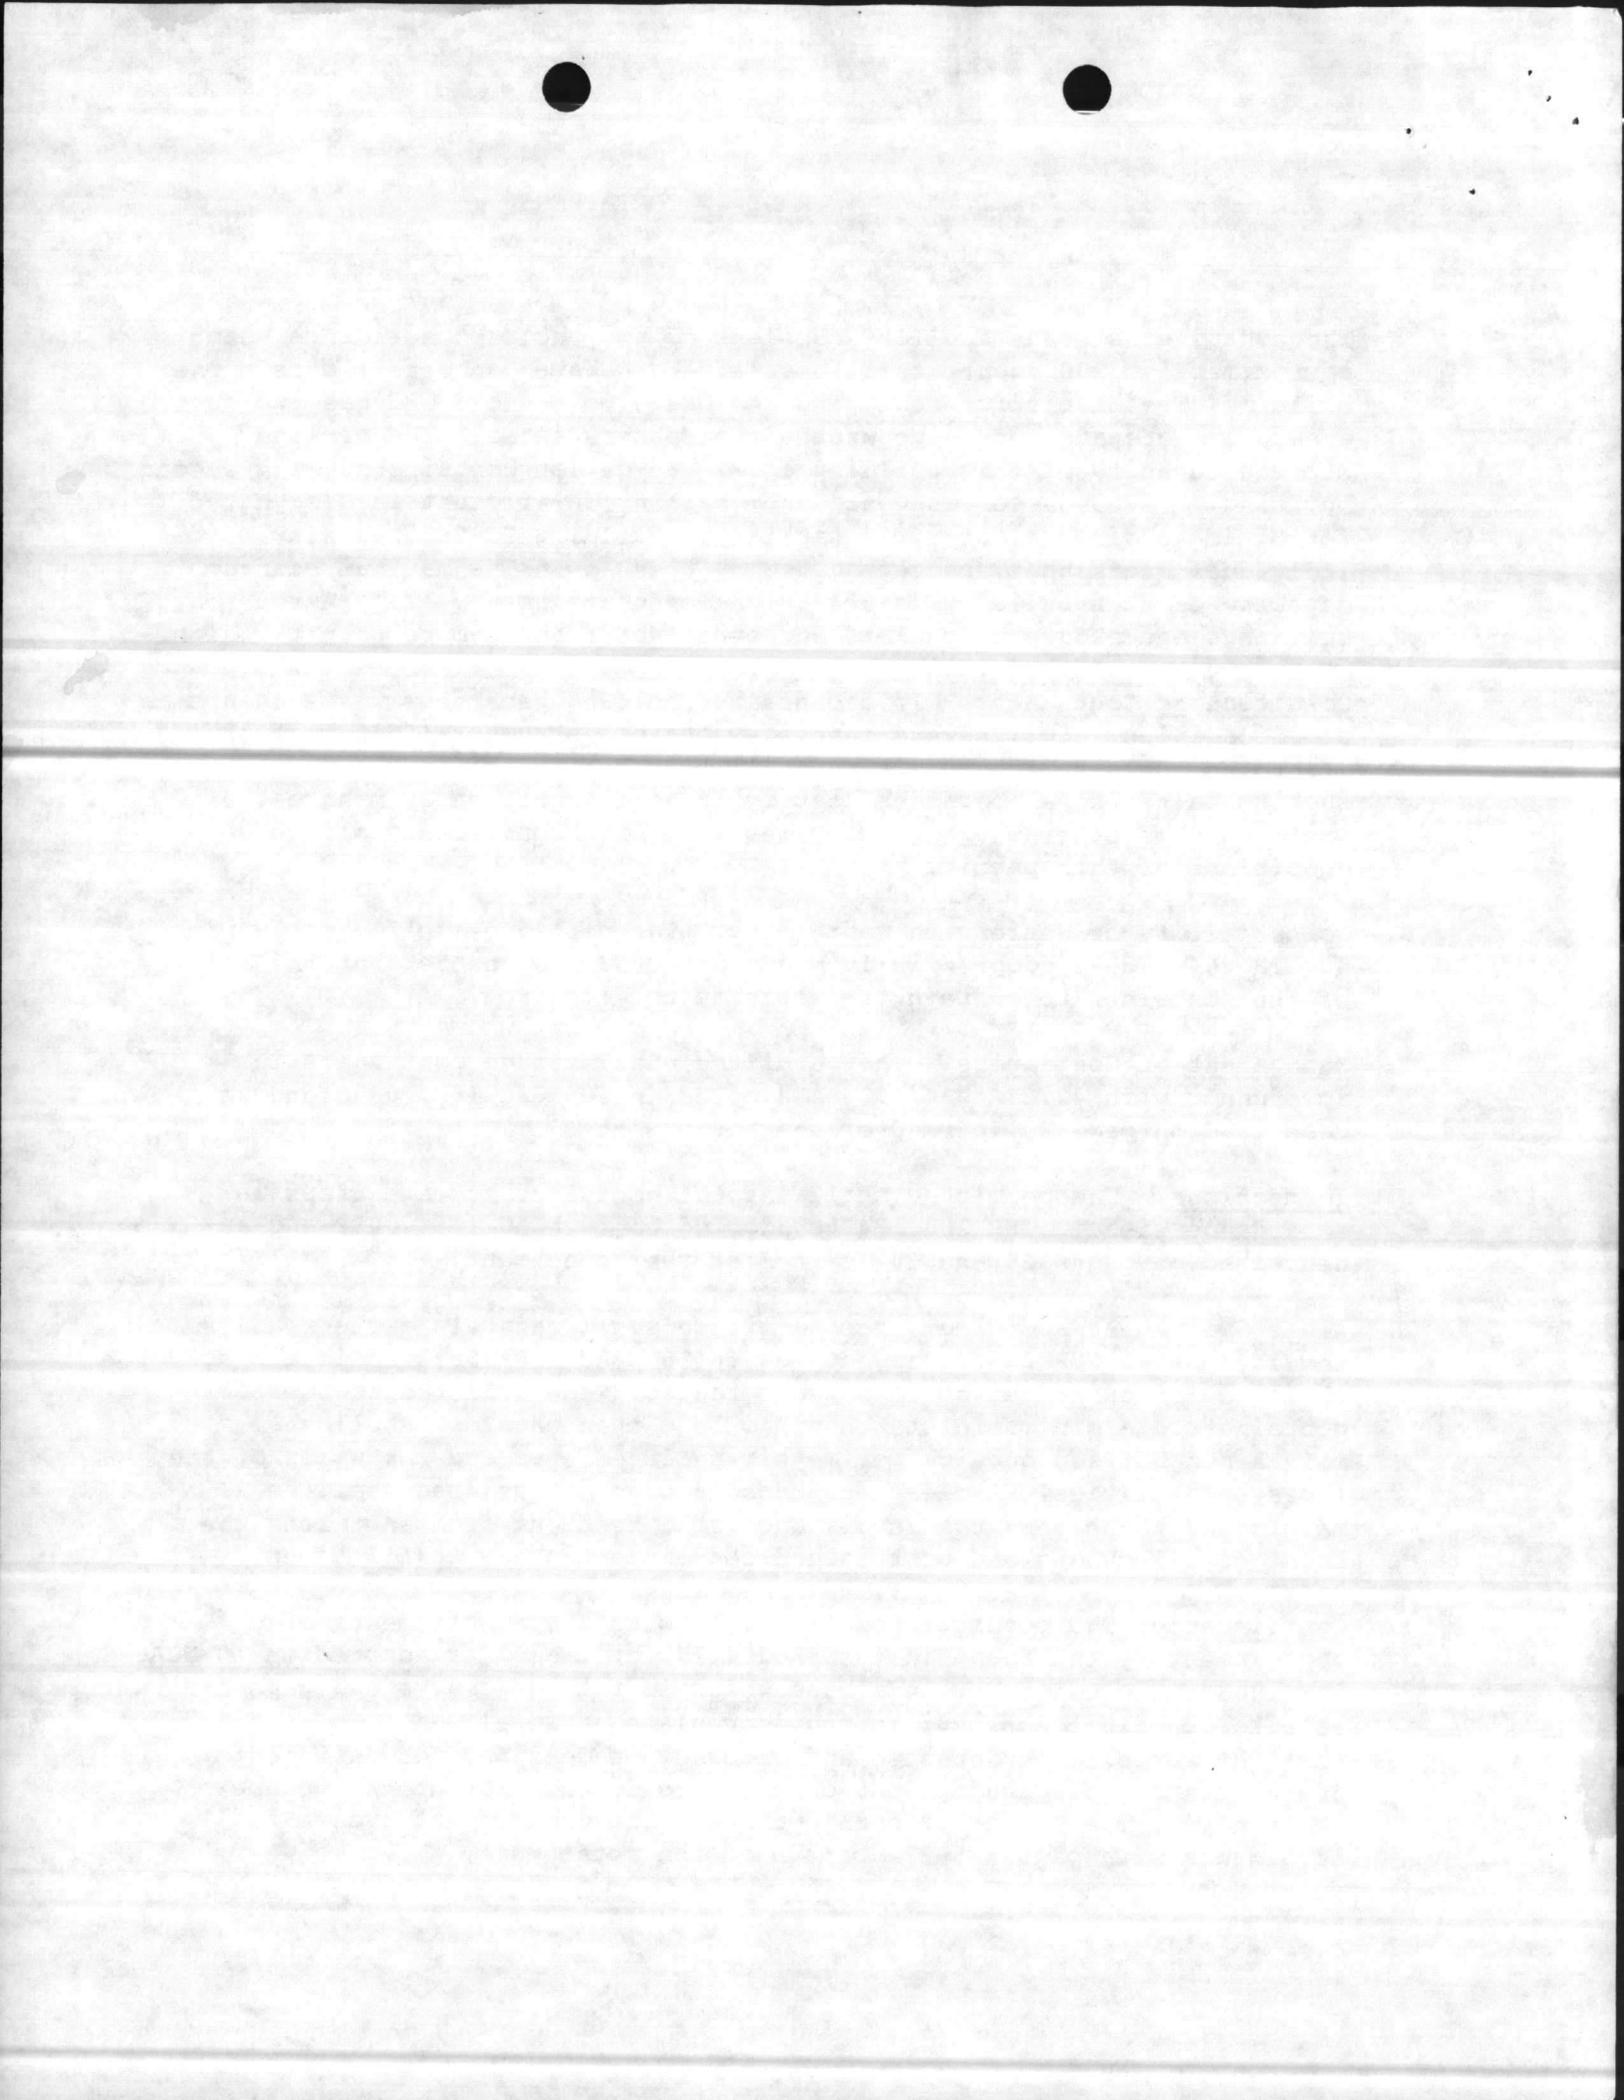

1. Performance Standard. The permittee shall close the facility in accordance with the closure plan as described on pages 40-43, part I of the attachment, and as required in 40 CFR 264.111 as adopted in 10 NCAC 10F .0032.
2. Amendment to Closure Plan. The permittee shall amend the closure plan in accordance with 40 CFR 264.112(b) as adopted in 10 NCAC 10F .0032 whenever necessary.
3. Notification of Closure. The permittee shall notify the Secretary of the Department of Human Resources at least 180 days prior to the date he expects to begin closure.
4. Time Allowed For Closure. Within 90 days (unless a waiver is granted) after receiving the final volume of hazardous waste, the permittee shall treat or remove from site all hazardous waste in accordance with the schedule specified in the closure plan . After receiving the final volume of hazardous waste, the permittee shall complete closure activities in accordance with the schedule specified in the closure plan on page 42, part I of the attachment.
5. Disposal or Decontamination of Equipment. The permittee shall comply with the requirements of 40 CFR 264.114 as adopted in 10 NCAC 10F .0032.
6. Certification of Closure. The permittee shall certify that the facility has been closed in accordance with the specifications in the closure plan as required by 40 CFR 264.115 as adopted in 10 NCAC 10F .0032.

PART III - STORAGE IN CONTAINERS

The container storage facility consists of two enclosed buildings, each approximately 3200 square feet in area. Both have concrete floors. One building, TP-451, is for receiving the waste to be sold and has two curbed areas to segregate corrosive wastes from other wastes. The maximum storage capacity of this building is 224 55-gallon containers. The second building, TC-863, receives waste from building TP-451 that is designated for ultimate disposal at a TSD facility. Building TC-863 has six individual areas that are segregated by trenches. The maximum storage capacity of this building is 504 55-gallon containers. All drums in both buildings are stored on pallets and cannot be stacked more than two high.

- A. Condition of Containers. If a container holding hazardous waste is not in good condition (e.g., severe rusting, apparent structural defects) or if it begins to leak, the permittee shall transfer the hazardous waste from such container to a container that is in good condition or manage the waste in some other way that complies with the requirements of the conditions of this permit.
- B. Compatibility of Waste with Containers. The permittee shall comply with 40 CFR 264.172 as adopted in 10 NCAC 10F .0032 and ensure that the ability of the container to contain the waste is not impaired.
- C. Management of Containers. The permittee shall manage containers in accordance with 40 CFR 264.173 as adopted in 10 NCAC 10F .0032 and as described on page 25, part D of the attachment.
- D. Inspections. The permittee shall inspect container storage areas in accordance with 40 CFR 264.174 as adopted in 10 NCAC 10F .0032 and as described on pages 29 and 30, part F of the attachment.
- E. Aisle Space. At a minimum, the permittee shall maintain aisle space as required by 40 CFR 264.35 as adopted in 10 NCAC 10F .0032. Aisle space shall be maintained at no less than 4 feet between palletized rows of containers. A minimum distance of no less than one foot shall be maintained between outside perimeter palletized rows and the walls of the storage facilities. A clear and unobstructed access area shall be maintained at no less than a distance of 5 feet out from and along the front of all curbed and/or trenched containment areas at all times.
- F. Containment. The permittee shall comply with the requirements of a containment system found in 40 CFR 264.175(b)(1)-(5) as adopted in 10 NCAC 10F .0032, including having a base which is free of cracks and gaps and able to contain leaks, spills and accumulated rainfall until such time that the material is detected and removed, be designed for efficient drainage and having sufficient capacity to contain 10% of the volume of containers. The permittee shall maintain the containment system in accordance with pages 25-27, part D of the attachment.

- G. Special Requirements for Ignitable or Reactive Waste. The permittee shall not locate containers holding ignitable or reactive waste within 15 meters (50 feet) of the facility's property line.
- H. Special Requirements for Incompatible Waste.
- (1) The permittee shall not place incompatible wastes in the same container.
 - (2) The permittee shall not place hazardous waste in an unwashed container that previously held an incompatible waste or material.
 - (3) The permittee shall not store a container of hazardous waste that is incompatible with any waste or material stored nearby in other containers, piles, open tanks or surface impoundments unless the container is separated from the other materials by a dike, berm, wall, or other device.
- I. Closure. The permittee shall follow the closure plan as described in enclosure 3 of the attachment, and shall comply with 40 CFR 264.178 as adopted in 10 NCAC 10F .0032.
