Subj: MAINTENANCE OF FRESH WATER PONDS

1. Recreational fishing activity at all existing fresh water ponds opened for fishing has increased significantly with the warmer temperatures. Concurrent with the increased fishing activity, unfortunately, there is more littering along the pond shorelines. The litter problem continues to exist although each pond is well posted to help prevent littering.

2. It is requested that the General Services Section, Base Maintenance Division, develop a regular schedule for removing litter deposited along the shorelines of the following ponds:

<u>POND NAME</u>	<u>GRID COORDINATES</u>
CEDAR POINT	871281
MILE HAMMOCK	874279
WARD	872286
HOGPEN	884301
POWER LINE	884290
COURTHOUSE BAY	843291
PRINCE	899310
OAK	888287
ORDE	854366
NEW RIVER	763428
HICKORY	866422 *
HENDERSON	868422 *

* Ponds will likely be opened for fishing in July 1987.

3. For further information concerning pond maintenance, please contact Mr. Albert Henry, NREAD, extension 2195.
