Memo for the Record - Fuel Hauling Contract #M67001-79-D-0011

A meeting was held this morning with Mr. Bailey of Jenkins Gas Company concerning the Base Maintenance Officer's letter of 27 April 1979.

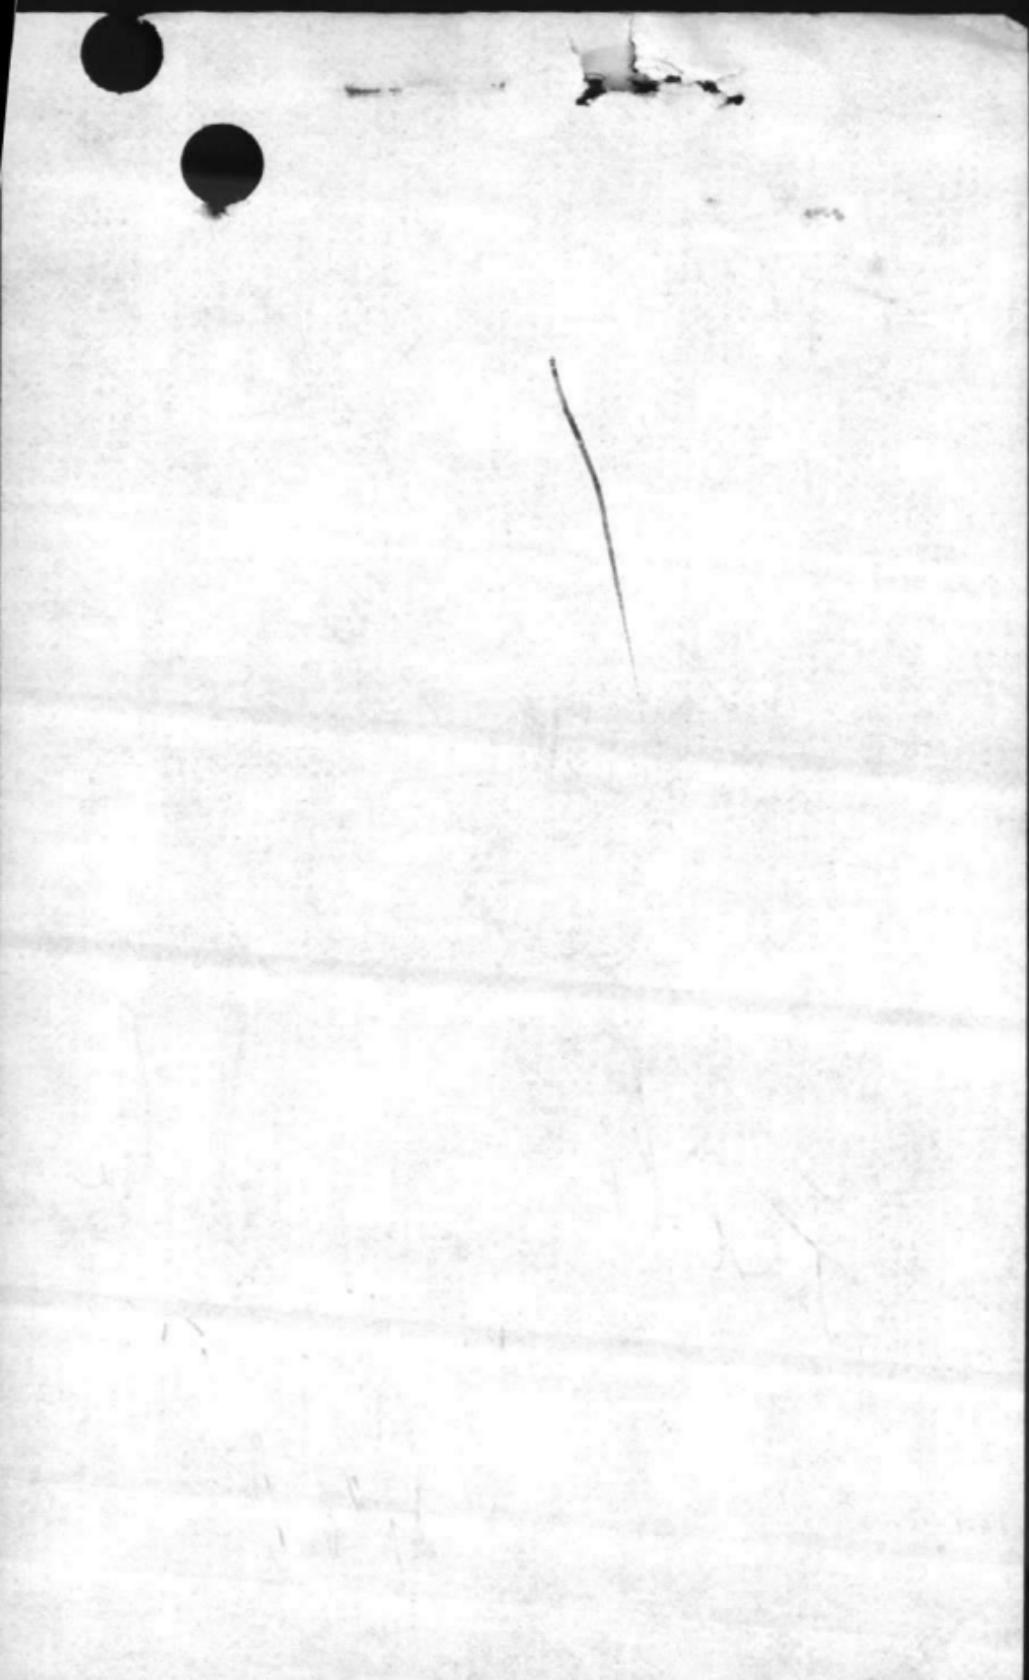

I showed the pictures of oil spills to Mr. Bailey and asked him to review the situation and to advise this office of the action he contemplates taking concerning spills that have occurred since 1 October 1978. Mr. Bailey indicated that he would have one of his employees do a full survey of the base and advise us of those houses where he would replace soil. Mr. Bailey indicated that he would place a man on this project full time until it is resolved, and I anticipate that we should hear from Jenkins Gas Company within the next four weeks (no specific date was agreed upon). The results of this review will be provided to the Director of Quarters and Housing when they are available.

W. A. TWEED
