Adw

From: Base Maintenance Officer
To: Assistant Chief of Staff, Training
Via: Assistant Chief of Staff, Facilities

Subj: Dining Facility Drainage Pit at TLZ Gander; request for

Ref: (a) FoneCon btwn Mr. J. Wooten, BMaintDept, and Lt Cobb,
H&S Bn, 2d FSSG, on 30 Apr 79
(b) On Site Inspection and Percolation Test by Mr. A.
Rouse, Public Works Dept, and Mr. H. Foil,
BMaintDept, on 1 May 79

1. As requested in reference (a), the soil conditions were evaluated at the subject proposed dining facility during reference (b). It was determined that the soil conditions would not allow percolation which is necessary to have an environmentally acceptable operation as EPA regulations prohibit surface discharge from the facility.

2. Based on reference (b) it is recommended that the request to construct the drainage pit be denied. An alternative would be to containerize the wastewater and transport to a sewage treatment plant for proper disposal.

T. R. BAISLEY

BCC: Lt Cobb, H&S Bn, 2d FSSG
