

HEADQUARTERS, MARINE CORPS BASE, CAMP LEJEUNE

*f*

ACTION BRIEF

Date: JUL 0 7 1981

Staff Section: Base Maintenance Department

Subj: Cooperative Agreement; update of

Ref: (a) MCO P11000.8A  
(b) Public Law 86-797 as amended

Problem:

References (a) and (b) require Marine Corps Base to maintain a Cooperative Agreement with the U. S. Fish and Wildlife Service and the North Carolina Wildlife Resources Commission for technical management assistance in support of fish and wildlife resources. The cooperative plan must include provisions for the conservation and protection of game, nongame, threatened and endangered species.

Background/Discussion:

Formal consultation procedures for threatened and endangered species are in the process of completion at Marine Corps Base. Biological opinions rendered under Public Law 93-205, The Endangered Species Act of 1973, as amended, are being implemented for the protection of threatened and endangered species. Implementation of these biological opinions ~~should~~ <sup>are</sup> be reflected in the updated Cooperative Agreement which has been signed by a representative of the U. S. Fish and Wildlife Service and the North Carolina Wildlife Resources Commission. This plan was reviewed by SJA on 1 July 1981.

This Cooperative Plan merely updates the existing plan as it pertains to endangered species.

Recommended Action:

It is recommended that the attached Cooperative Agreement be signed.

Very respectfully,

*F. H. Mount* *KPM*  
F. H. MOUNT  
Base Maintenance Officer

MCBCL 5216/2
