Mr. Mack Frazelle  
Water and Wastewater Treatment Utilities  
Base Maintenance Division  
Camp Lejeune Marine Corp Base  
Jacksonville, NC 28452

Dear Mr. Frazelle:

As I had indicated to you on the phone, AD+SOIL has recently completed cleaning two water treatment plant lime lagoons at the Cherry Point Marine Corp Air Station. AD+SOIL is interested in similar work with Camp Lejeune. As promised, I am enclosing additional information about AD+SOIL and the range of services we offer our clients.

In a nutshell, AD+SOIL is a Waste Management firm specializing in water and wastewater treatment plant by-product disposal. We have developed techniques specifically geared to effectively and cleanly remove residual solids and to handle the material in a regulatory acceptable manner. AD+SOIL is registered with the State of North Carolina to handle water treatment plant lime sludge and as such, will be in a favorable position to handle Camp Lejeune product with little effort.

If I can offer any further assistance please don't hesitate to contact me at our West Chester office (215-793-3200). Thank you for your time.

Sincerely,

Timothy J. Ford  
Area Manager
