Mr. William Myers
Head, Solid and Hazardous Waste
Management Branch
North Carolina Department of
Human Resources
Post Office Box 2091
Raleigh, North Carolina 27602-2091

Re: Resource Conservation and
Recovery Act, Part B Permit,
Facility ID No. NC6170022580
Marine Corps Base, Camp Lejeune
North Carolina

Dear Mr. Myers:

In accordance with the N.C. Hazardous Waste Management Rules
10 NC 10F, a change to the signatory of the subject permit is
warranted due to personnel change at this command. Accordingly,
the authorization as the owner is Brigadier General J. B. Knotts,
vice Major General L. H. Buehl.

We request this change be reflected in future reference to the
subject permit. For additional assistance on this matter,
please contact Mr. Bob Alexander, at 919-451-3034.

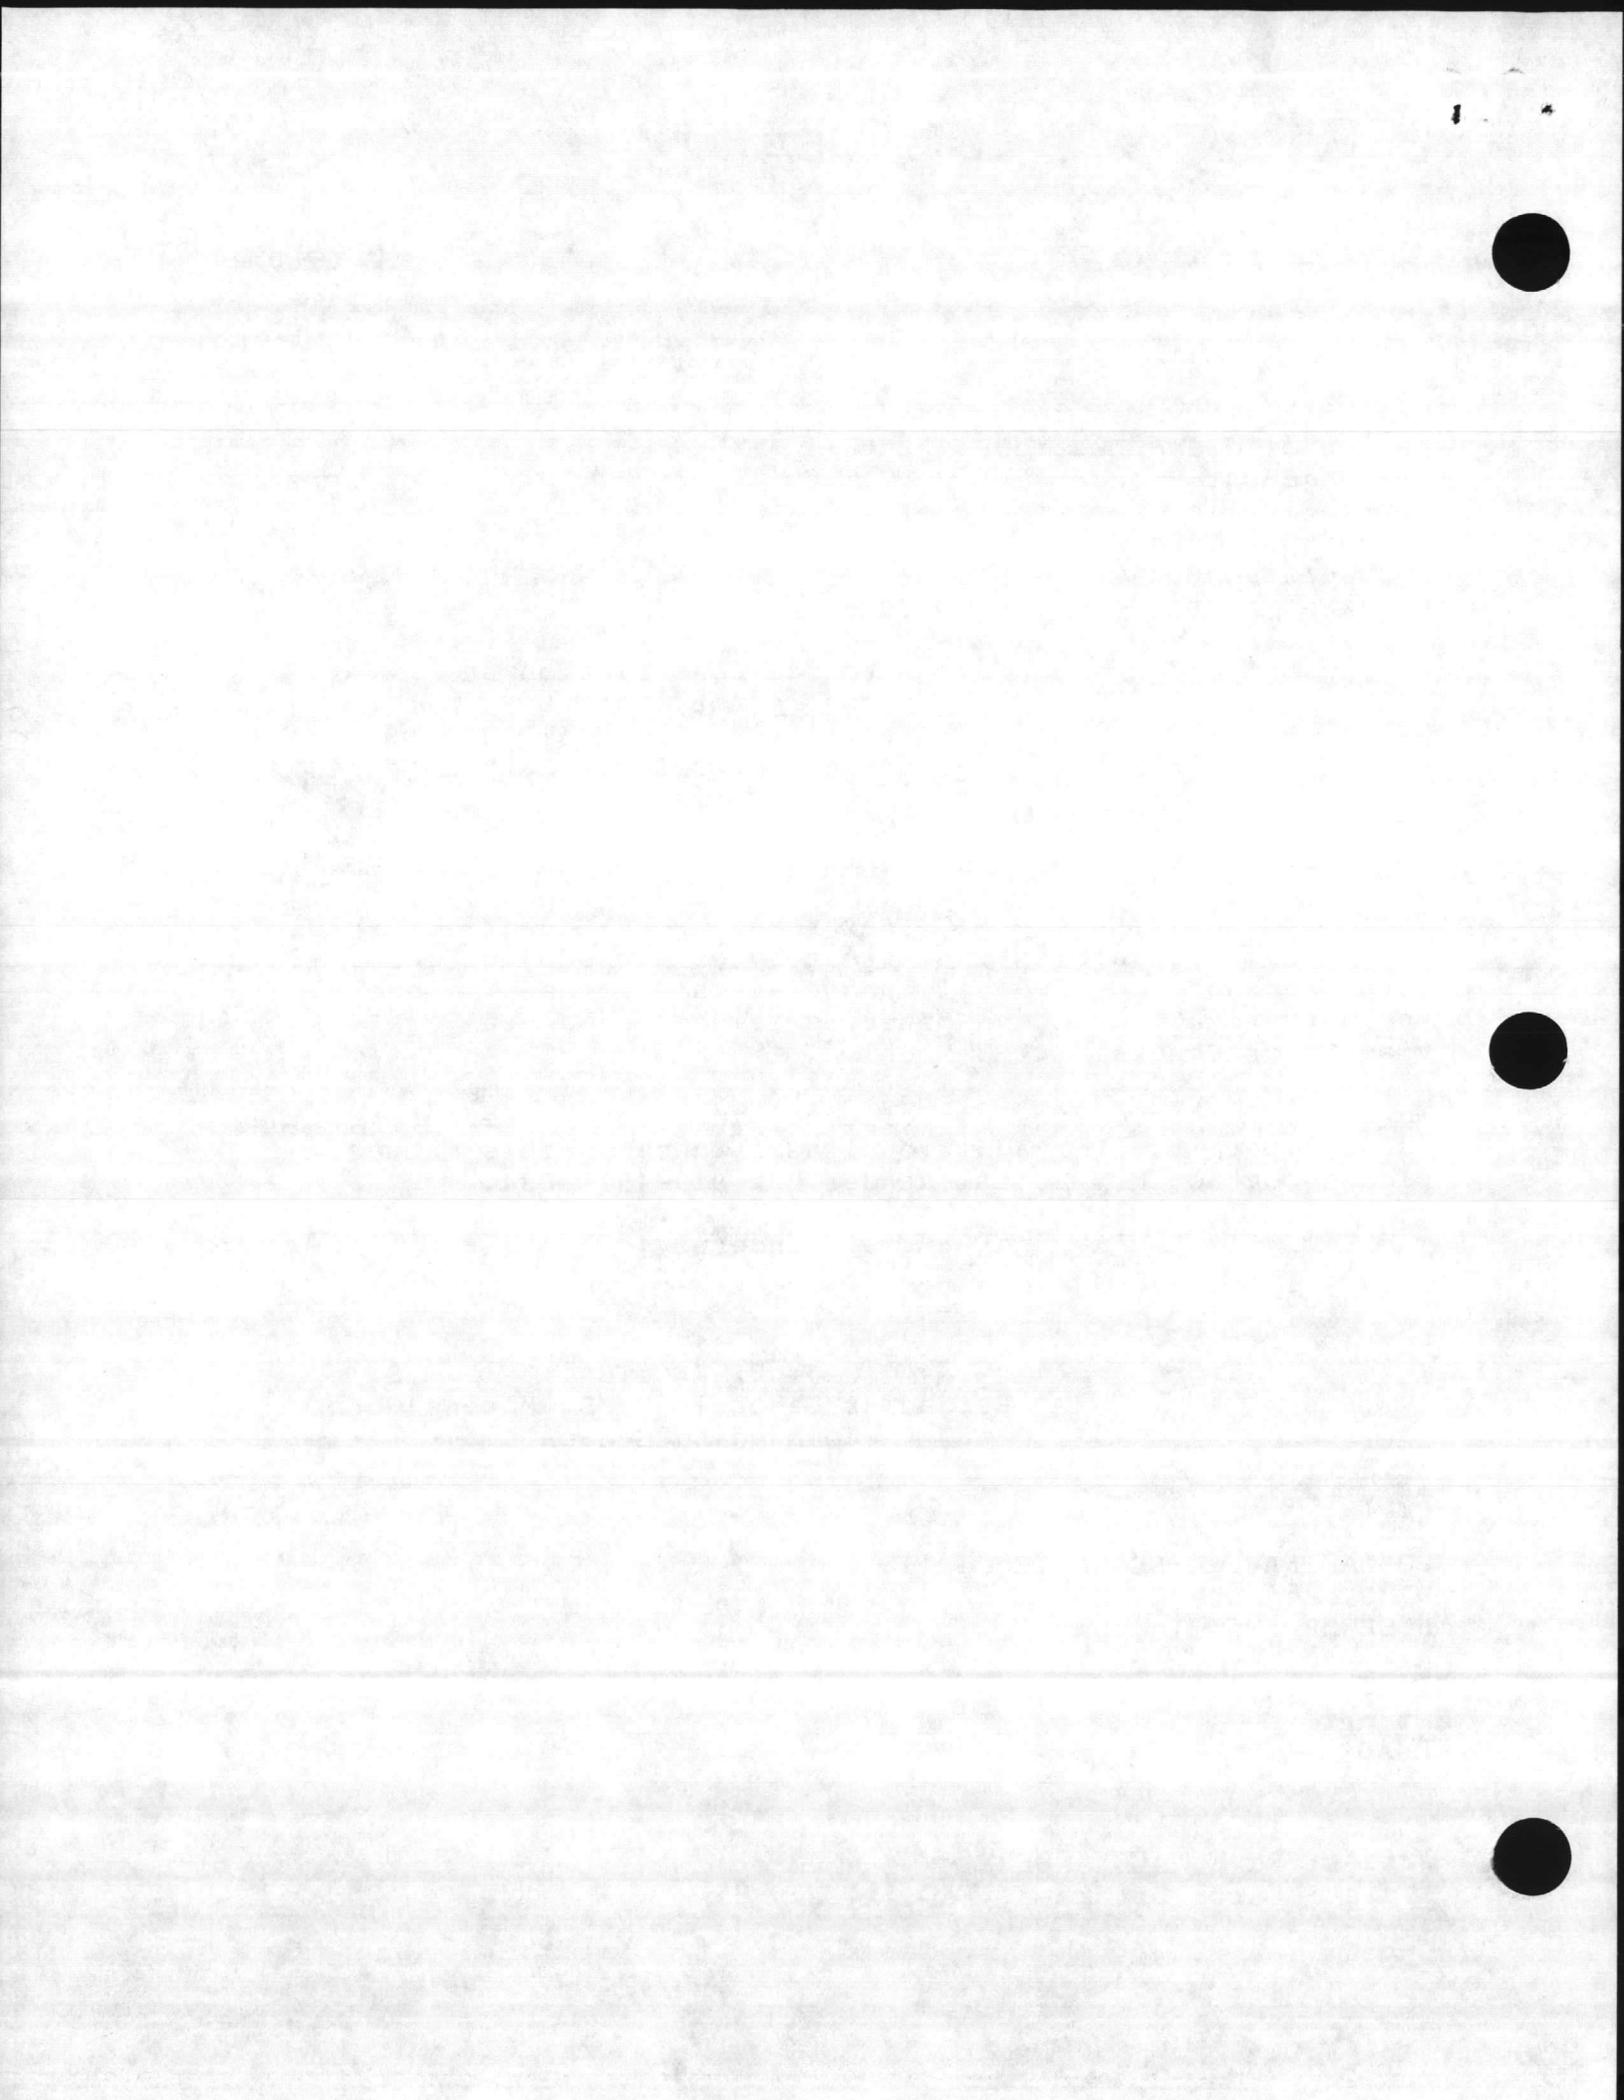

Sincerely,

J. B. KNOTTS
Brigadier General, U. S. Marine Corps
Commanding General

ACTION BRIEF

DATE: 18 NOV 1985

Staff Section: Assistant Chief of Staff, Facilities

Subj: CHANGE TO SIGNATORY ON RESOURCE CONSERVATION AND RECOVERY
ACT, HAZARDOUS WASTE PART B PERMIT, CAMP
LEJEUNE, N. C.

Problem

Authorized signatory on the subject permit is no longer accurate because of personnel changes at MCB and DRMO.

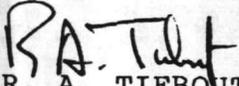

Background/Discussion

During the inspection of the hazardous waste storage facility on 6 March by Mr. Doug Holyfield, N. C. Solid and Hazardous Waste Management Branch, Mr. Holyfield advised MCB of requirement in 40 CFR 122.6, which requires changes to signatory on the RCRA Part B Permit.

Recommended Action

Sign the attached letter.

Very respectfully,

R. A. TIEBOUT
AC/S, Facilities

BOB ALEXANDER

NORTH CAROLINA HAZARDOUS WASTE MANAGEMENT RULES

NCAC 10F

INCLUDES AMENDMENTS

EFFECTIVE OCTOBER 1, 1982

(d) Information requirements. All applicants for RCRA, UIC, or NPDES permits (for State 404 permits see Section 123.94) shall provide the following information to the Director, using the application form provided by the Director [additional information required of applicants is set forth in Sections 122.24 and 122.25 (RCRA), 122.38 (UIC), and 122.53 (NPDES)].

- (1) The activities conducted by the applicant which require it to obtain permits under RCRA, UIC, NPDES, or PSD.
- (2) Name, mailing address, and location of the facility for which the application is submitted.
- (3) Up to four SIC codes which best reflect the principal products or services provided by the facility.
- (4) The operator's name, address, telephone number, ownership status, and status as Federal, State, private, public, or other entity.
- (5) Whether the facility is located on Indian lands.
- (6) A listing of all permits or construction approvals received or applied for under any of the following programs:
 - (i) Hazardous Waste Management program under RCRA.
 - (ii) UIC program under SDWA.
 - (iii) NPDES program under CWA.
 - (iv) Prevention of Significant Deterioration (PSD) program under the Clean Air Act.
 - (v) Nonattainment program under the Clean Air Act.
 - (vi) National Emission Standards for Hazardous Pollutants (NESHAPS) preconstruction approval under the Clean Air Act.
 - (vii) Ocean dumping permits under the Marine Protection Research and Sanctuaries Act.
 - (viii) Dredge or fill permits under section 404 of CWA.
 - (ix) Other relevant environmental permits, including State permits.
- (7) A topographic map (or other map if a topographic map is unavailable) extending one mile beyond the property boundaries of the source, depicting the facility and each of its intake and discharge structures; each of its hazardous waste treatment, storage, or disposal facilities; each well where fluids from the facility are injected underground; and those wells, springs, other surface water bodies, and drinking water wells listed in public records or otherwise known to the applicant within $\frac{1}{4}$ mile of the facility property boundary.
- (8) A brief description of the nature of the business.
- (e) Recordkeeping. Applicants shall keep records of all data used to complete permit applications and any supplemental information submitted under Sections 122.4(d), 122.24, and 122.25 (RCRA; 122.38 (UIC); 122.53 (NPDES); and 123.94 (404) for a period of at least 3 years from the date the application is signed.

(4) 40 CFR 122.5(d), Continuation of Expiring Permits;

122.5 Continuation of expiring permits.

- (d) State continuation.
 - (1) An EPA 1 (or, in the case of 404, Corps of Engineers) issued permit does not continue in force beyond its expiration date under Federal law if at that time a State is the permitting authority. States authorized to administer the RCRA, UIC, NPDES or 404 programs may continue either EPA (or Corps of Engineers) or State-issued permits until the effective date of the new permits, if State law allows. Otherwise, the facility or activity is operating without a permit from the time of expiration of the old permit to the effective date of the State-issued new permit.

(5) 40 CFR 122.6, Signatories to Permit Applications and Reports;

122.6 Signatories to permit applications and reports.

(Applicable to State programs, see Section 123.7.)

(a) Applications. All permit applications, except those submitted for Class II wells under the UIC program [see paragraph (b) of this section], shall be signed as follows:

- (1) For a corporation: by a principal executive officer of at least the level of vice-president;
- (2) For a partnership or sole proprietorship: by a general partner or the proprietor, respectively; or
- (3) For a municipality, State, Federal, or other public agency: by either a principal executive officer or ranking elected official.

(b) Reports. All reports required by permits, other information requested by the Director, and all permit applications submitted for Class II wells under Section 122.38 for the UIC program shall be signed by a person described in paragraph (a) of this section, or by a duly authorized representative of that person. A person is a duly authorized representative only if:

- (1) The authorization is made in writing by a person described in paragraph (a) of this section;
- (2) The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity, such as the position of plant manager, operator of a well, a well field, superintendent, or position of equivalent responsibility. (A duly authorized representative may thus be either a named individual or any individual occupying a named position); and
- (3) The written authorization is submitted to the Director.

(c) ~~Changes to authorization:~~ If an authorization under paragraph (b) of this section is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, a new authorization satisfying the requirements of paragraph (b) of this section must be submitted to the Director prior to or together with any reports, information, or applications to be signed by an authorized representative.

(d) Certification. Any person signing a document under paragraphs (a) or (b) of this section shall make the following certification:

"I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

(6) 40 CFR 122.7, Conditions Applicable to all Permits:

122.7. Conditions applicable to all permits.

(Applicable to State programs, see 123.7.)

The following conditions apply to all RCRA, UIC, NPDES, and 404 permits. For additional conditions applicable to all permits for each of the programs individually, see sections 122.28 (RCRA), 122.41 (UIC), 122.60 and 122.61 (NPDES) and 123.97 (404). All conditions applicable to all permits, and all additional conditions applicable to all permits for individual programs, shall be incorporated into the permits either expressly or by reference. If incorporated by reference, a specific citation to these regulations (or the corresponding approved State regulations) must be given in the permit.

(a) Duty to comply. The permittee must comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the appropriate Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

(b) Duty to reapply. If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the permittee must apply for and obtain a new permit.

(c) Duty to halt or reduce activity. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

(d) Duty to mitigate. The permittee shall take all reasonable steps to minimize or correct any adverse impact on the environment resulting from noncompliance with this permit.

(e) Proper operation and maintenance. The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator's staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the conditions of the permit.

(f) Permit actions. This permit may be modified, revoked and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance, does not stay any permit condition.

(g) Property rights. This permit does not convey any property rights of any sort, or any exclusive privilege.

(h) Duty to provide information. The permittee shall furnish to the Director, within a reasonable time, any information which the Director may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. The permittee shall also furnish to the Director, upon request, copies of records required to be kept by this permit. For RCRA only, this condition shall include the word "relevant" immediately following the word "any" in the preceding sentence.

(i) Inspection and entry. The permittee shall allow the Director, or an authorized representative, upon the presentation of credentials and other documents as may be required by law, to:

(1) Enter upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit; For RCRA only, this condition shall include the phrase "at reasonable times" after "enter";

Have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;
