Neal,

Attached is a copy of your memo and Dennis's response.

I believe we have covered all the wells in question. We are sending a letter to LT Carlson requesting to add HP-649 and HP-636 (which has added), HP-610 is also being closed, 606 is still in operation 637 & 652 are being close. Please let Bob know so all of us can close the loop. Thanks
