FAX #: 910/451-5687

From: Brian Marshburn

COMMENTS

Bill,

Please find the attached authorization for the sampling of water supply wells in close proximity of sites under the Installation Restoration (IR) Program. Per a recommendation from the ATSDR (Association of Toxic Substances and Disease Registry) all supply wells should be sampled and tested annually; however, those within approximately 1,500 feet of an IR program site should be sampled and tested semi-annually. Those that meet the semi-annual status are:

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16
 613, 616, 633, 635, 637, 638, 642, 646, 647, 654, BB-44, BB-47, BB-221, TC-700, TC-1253, AS-131, and AS-5009

The authorization is signed by Mick since Neal is TAD in Georgia.

If you have any questions, please call at X-5068.

Thanks,

Brian

IF THERE IS ANY PROBLEM WITH THIS TRANSMISSION, PLEASE CALL COMMERCIAL (910) 451-5068, OR DSN 484-5068. OUR FAX NUMBER IS (910) 451-5997.
