REMARKS: MCB Camp Lejeune Public Health Assessment

Carole,

Attached are some promised comments on your questions from Appendix B-2. I still have some additional specific comments, but I think I have covered all of my major issues with you at this point, and since you are working on some fairly major changes to the document, many of my specific comments may already be overcome by your changes. I will be out of the office July 28-30 and again Aug 1-11. If you have specific questions, you can leave me a voice mail and I will try to get back with you, or you can contact my supervisor, Linda Saksvig at (757) 322-4793.

-Kate
