Tom Morris, who works for me as an environmental protection specialist, drafted the point paper. We finalized last week so it is up to date. Working with CMC HQ and Major Jack wrt Public Relation efforts.

Neal,

Received fax, thanks. Questions: Do you know where it come from? It looks like LFL, but is not clear; and, do you know when was it written?

Steve

We've got alot - recommend setting up a time with Mick Senus and/or Tom Morris to review material. Tom has developed a great point paper that we'll fax over.

V/R,

N

Neal,

I've been passing e-mails and faxes with Scott Jack at PAO on the public health study to be done by the Agency for Toxic Substances and Disease Registry (ATDSR) regarding the ABC Cleaners. He tells me you have some info. I don't see legal issues in this matter, but need to make sure files are complete. Could you pass me what you've got?

Steve
