Dear Gary Allen Evans:

The National Opinion Research Center (NORC), on behalf of the U.S. Department of Health and Human Services, is doing a survey. We want to contact people who lived at the Marine Corps Base Camp Lejeune in Jacksonville, North Carolina, between 1968 and 1985.

We would like to talk to parents of children born while they were living in Camp Lejeune base housing. An interview will be done over the phone. It will take only about 15 minutes to complete.

Please expect a phone call from us within the next few weeks. We can go ahead and complete the short interview at the time we call, if you are willing to take part.

I want to let you know that taking part in this survey is up to you. Your information will be kept private to the extent allowed by law. Any reports of this survey will not identify people and will give only group information.

If you or someone you know would like more information about the survey or are eligible to take part, please call NORC toll-free at 1-800-639-4270.

Thank you for your help. We look forward to talking with you soon.

Sincerely yours,

Wendy E. Kaye, Ph.D.
