5 May 1982

From: Commanding General, Marine Corps Base
To: Commandant of the Marine Corps (LFF-2)
Subj: Completion of Potential Hazardous Waste Site Inspection;
reports for
Ref: (a) TeleCon btwn EnvirMgtO, MCB and Mr. J. Holloway,
Region IV, EPA, 23 April 1982
(b) TeleCon btwn EnvirMgtO, MCB and Mr. Paul Hubbell,
30 April 1982
Encl: (1) Federal Activities Coordinator, USEPA Region IV ltr
of 8 Apr 82 with Site Inspection Reports

1. The enclosure is a request by the Region IV Office of the United States Environmental Protection Agency for the completion of potential Hazardous Waste Site Inspection Reports for sites at Camp Lejeune and MCAS(H) New River, North Carolina. Most of the information requested will not be available to this command until the completion of the Naval Activity Committee for Environmental Protection (NACIP) site evaluation, the results of which will not be available until approximately September 1982. Without this information, Marine Corps Base, Camp Lejeune cannot fill out the required forms. The feasibility of deferring completion of the forms was discussed during reference (a). Subsequently, during reference (b), Mr. Hubbell requested the enclosure be forwarded to the Commandant of the Marine Corps (Code LFF-2) for action.

2. Accordingly, the enclosure is hereby provided.

K. P. HILLICE, Jr.
