Consolidated Reports of Condition and Income for A Bank With Domestic and Foreign Offices - FFIEC 031

Report at the close of business June 30, 2025

(20250630)
(RCON 9999)

This report is required by law: 12 U.S.C. §324 (State member banks); 12 U.S.C. §1817 (State non member banks); 12 U.S.C. §161 (National banks); and 12 U.S.C. §1464 (Savings associations).

Unless the context indicates otherwise, the term "bank" in this report form refers to both banks and savings associations.

NOTE: Each bank's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Reports of Condition and Income. The Reports of Condition and Income are to be prepared in accordance with federal regulatory authority instructions. The Reports of Condition and Income must be signed by the Chief Financial Officer (CFO) of the reporting bank (or by the individual performing an equivalent function) and attested to by not less than two directors (trustees) for state non member banks and three directors for state member banks, national banks, and savings associations.

I, the undersigned CFO (or equivalent) of the named bank, attest that the Reports of Condition and Income (including the supporting schedules) for this report date have been prepared in conformance with the instructions issued by the appropriate Federal regulatory authority and are true and correct to the best of my knowledge and belief.

We, the undersigned directors (trustees), attest to the correctness of the Reports of Condition and Income (including the supporting schedules) for this report date and declare that the Reports of Condition and Income have been examined by us and to the best of our knowledge and belief have been prepared in conformance with the instructions issued by the appropriate Federal regulatory authority and are true and correct.

Director (Trustee)

Submission of Reports

Each bank must file its Reports of Condition and Income (Call Report) data by either:

(a) Using computer software to prepare its Call Report and then submitting the report data directly to the FFIEC's Central Data Repository (CDR), an Internet-based system for datacollection (https://cdr.ffiec.gov/cdr/), or

(b) Completing its Call Report in paper form and arranging with a software vendor or another party to convert the data in to the electronic format that can be processed by the CDR. The software vendor or other party then must electronically submit the bank's data file to the CDR.

For technical assistance with submissions to the CDR, please contact the CDR Help Desk by telephone at (888) CDR-3111, by fax at (703) 774-3946, or by e-mail at CDR.Help@cdr.ffiec.gov.

FDIC Certificate Number **57565** (RSSD 9050)

To fulfill the signature and attestation requirement for the Reports of Condition and Income for this report date, attach your bank's completed signature page (or a photocopy or a computer generated version of this page) to the hard-copy record of the data file submitted to the CDR that your bank must place in its files.

The appearance of your bank's hard-copy record of the submitted data file need not match exactly the appearance of the FFIEC's sample report forms, but should show at least the caption of each Call Report item and the reported amount.

UT State Abbreviation (RSSD 9200)

84111 Zip Code (RSSD 9220)

The estimated average burden associated with this information collection is 50.4 hours per respondent and is estimated to vary from 20 to 775 hours per response, depending on individual circumstances. Burden estimates include the time for reviewing instructions, gathering and maintaining data in the required form, and completing the information collection, but exclude the time for compiling and maintaining business records in the normal course of a respondent's activities. A Federal agency may not conduct or sponsor, and an organization (or a person) is not required to respond to a collection of information, unless it displays a currently valid OMB control number. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, and to one of the following: Secretary, Board of Governors of the Federal Reserve System, 20th and C Streets, NW, Washington, DC 20551; Legislative and Regulatory Analysis Division, Office of the Comptroller of the Currency, Washington, DC 20219; Assistant Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429.

State member banks should contact their Federal Reserve District Bank.

Contact Information for the Reports of Condition and Income

To facilitate communication between the Agencies and the bank concerning the Reports of Condition and Income, please provide contact information for (1) the Chief Financial Officer (or equivalent) of the bank signing the reports for this quarter, and (2) the person at the bank—other than the Chief Financial Officer (or equivalent)—to whom questions about the reports should be directed. If the Chief Financial Officer (or equivalent) is the primary contact for questions about the reports, please provide contact information for another person at the bank who will serve as a secondary contact for communications between the Agencies and the bank concerning the Reports of Condition and Income. Enter “none” for the contact’s e-mail address or fax number if not available. Contact information for the Reports of Condition and Income is for the confidential use of the Agencies and will not be released to the public.

USA PATRIOT Act Section 314(a) Anti-Money Laundering

Contact Information

This information is being requested to identify points-of-contact who are in charge of your bank's USA PATRIOT Act Section 314(a) information requests. Bank personnel listed could be contacted by law enforcement officers or the Financial Crimes Enforcement Network (FinCEN) for additional information related to specific Section 314(a) search requests or other anti-terrorist financing and anti- money laundering matters. Communications sent by FinCEN to the bank for purposes other than Section 314(a) notifications will state the intended purpose and should be directed to the appropriate bank personnel for review. Any disclosure of customer records to law enforcement officers or FinCEN must be done in compliance with applicable law, including the Right to Financial Privacy Act (12 U.S.C. 3401 et seq.).

Please provide information for a primary and secondary contact. Information for a third and fourth contact may be provided at the bank's option. Enter "none" for the contact's e-mail address if not available. This contact information is for the confidential use of the Agencies, FinCEN, and law enforcement officers and will not be released to the public.

Memorandum item 2 is to be completed by banks with $1 billion or more in total assets			
2. Income from the sale and servicing of mutual funds and annuities in domestic offices (included in Schedule RI, item 8)[1]	RIAD8431	**0**	M.2.
3. Income on tax-exempt loans and leases to states and political subdivisions in the U.S. (included in Schedule RI, items 1.a and 1.b)	RIAD4313	**0**	M.3.
4. Income on tax-exempt securities issued by states and political subdivisions in the U.S. (included in Schedule RI, item 1.d.(3))	RIAD4507	**0**	M.4.
5. Number of full-time equivalent employees at end of current period (round to nearest whole number)	RIAD4150	**645**	M.5.

3. For banks required to complete Schedule RI, Memorandum item 8, trading revenue reported in Schedule RI, item 5.c, must equal the sum of Memorandum items 8.a through 8.e.
4. Exclude net gains (losses) on sales of trading assets and held-to-maturity and available-for-sale debt securities.
*. Describe on Schedule RI-E—Explanations.
5. Item 8.b is to be completed by all institutions. See the instructions this item and the Glossary entry for "Securities Activities" for further detail on accounting for investments in equity securities.
1. The asset-size tests are based on the total assets reported on the June 30, 2024, Report of Condition.

Dollar amounts in thousands

6. Not applicable			M.6.
7. If the reporting institution has applied pushdown accounting this calendar year, report the date of the institution's acquisition (see instructions)[2]	RIAD9106	**0**	M.7.
8. Trading revenue (from cash instruments and derivative instruments) (sum of Memorandum items 8.a through 8.e must equal Schedule RI, item 5.c):			M.8.
Memorandum items 8.a through 8.e are to be completed by banks that reported average trading assets (Schedule RC-K, item 7) of $2 million or more for any quarter of the preceding calendar year. a. Interest rate exposures	RIAD8757	**NR**	M.8.a.
b. Foreign exchange exposures	RIAD8758	**NR**	M.8.b.
c. Equity security and index exposures	RIAD8759	**NR**	M.8.c.
d. Commodity and other exposures	RIAD8760	**NR**	M.8.d.
e. Credit exposures	RIADF186	**NR**	M.8.e.
Memorandum items 8.f through 8.h are to be completed by banks with $100 billion or more in total assets that are required to complete Schedule RI, Memorandum items 8.a through 8.e, above. f. Impact on trading revenue of changes in the creditworthiness of the bank's derivatives counterparties on the bank's derivative assets (year-to-date changes) (included in Memorandum items 8.a through 8.e above):			M.8.f.
1. Gross credit valuation adjustment (CVA)	RIADFT36	**NR**	M.8.f.1.
2. CVA hedge	RIADFT37	**NR**	M.8.f.2.
g. Impact on trading revenue of changes in the creditworthiness of the bank on the bank's derivative liabilities (year-to-date changes) (included in Memorandum items 8.a through 8.e above):			M.8.g.
1. Gross debit valuation adjustment (DVA)	RIADFT38	**NR**	M.8.g.1.
2. DVA hedge	RIADFT39	**NR**	M.8.g.2.
h. Gross trading revenue, before including positive or negative net CVA and net DVA	RIADFT40	**NR**	M.8.h.
9. Net gains (losses) recognized in earnings on credit derivatives that economically hedge credit exposures held outside the trading account:			M.9.
a. Net gains (losses) on credit derivatives held for trading	RIADC889	**0**	M.9.a.
b. Net gains (losses) on credit derivatives held for purposes other than trading	RIADC890	**0**	M.9.b.
10. Credit losses on derivatives (see instructions)	RIADA251	**0**	M.10.
11. Does the reporting bank have a Subchapter S election in effect for federal income tax purposes for the current tax year?	RIADA530	**No**	M.11.
12. Not applicable			M.12.
Memorandum item 13 is to be completed by banks that have elected to account for assets and liabilities under a fair value option. 13. Net gains (losses) recognized in earnings on assets and liabilities that are reported at fair value under a fair value option:			M.13.
a. Net gains (losses) on assets	RIADF551	**NR**	M.13.a.
1. Estimated net gains (losses) on loans attributable to changes in instrument-specific credit risk	RIADF552	**NR**	M.13.a.1.
b. Net gains (losses) on liabilities	RIADF553	**NR**	M.13.b.
1. Estimated net gains (losses) on liabilities attributable to changes in instrument-specific credit risk	RIADF554	**NR**	M.13.b.1.
14. Not applicable			M.14.
Memorandum item 15 is to be completed by institutions with $1 billion or more in total assets that answered "Yes" to Schedule RC-E, Part I, Memorandum item 5. 15. Components of service charges on deposit accounts in domestic offices (sum of Memorandum items 15.a through 15.d must equal Schedule RI, item 5.b):			M.15.
a. Consumer overdraft-related service charges levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use	RIADH032	**NR**	M.15.a.
b. Consumer account periodic maintenance charges levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use	RIADH033	**NR**	M.15.b.
c. Consumer customer automated teller machine (ATM) fees levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use	RIADH034	**NR**	M.15.c.
d. All other service charges on deposit accounts	RIADH035	**NR**	M.15.d.

2. Report the date in YYYYMMDD format. For example, a bank acquired on March 1, 2025, would report 20250301.

Schedule RI-A - Changes in Bank Equity Capital(Form Type - 031)

Dollar amounts in thousands

1. Total bank equity capital most recently reported for the December 31, 2024, Reports of Condition and Income (i.e., after adjustments from amended Reports of Income)	RIAD3217	**9,539,375**	1.
2. Cumulative effect of changes in accounting principles and corrections of material accounting errors*	RIADB507	**0**	2.
3. Balance end of previous calendar year as restated (sum of items 1 and 2)	RIADB508	**9,539,375**	3.
4. Net income (loss) attributable to bank (must equal Schedule RI, item 14)	RIAD4340	**665,934**	4.
5. Sale, conversion, acquisition, or retirement of capital stock, net (excluding treasury stock transactions)	RIADB509	**0**	5.
6. Treasury stock transactions, net	RIADB510	**0**	6.
7. Changes incident to business combinations, net	RIAD4356	**0**	7.
8. LESS: Cash dividends declared on preferred stock	RIAD4470	**0**	8.
9. LESS: Cash dividends declared on common stock	RIAD4460	**660,000**	9.
10. Other comprehensive income[1]	RIADB511	**105,409**	10.
11. Other transactions with stockholders (including a parent holding company) (not included in items 5, 6, 8, or 9 above)*	RIAD4415	**-9**	11.
12. Total bank equity capital end of current period (sum of items 3 through 11) (must equal Schedule RC, item 27.a)	RIAD3210	**9,650,709**	12.

*. Describe on Schedule RI-E—Explanations

1. Includes, but is not limited to, changes in net unrealized holding gains (losses) on available-for-sale debt securities, changes in accumulated net gains (losses) on cash flow hedges, foreign currency translation adjustments, and pension and other postretirement plan-related changes other than net periodic benefit cost.

Schedule RI-B Part I - Charge-offs and Recoveries on Loans and Leases(Form Type - 031)

Part I includes charge-offs and recoveries through the allocated transfer risk reserve.

Dollar amounts in thousands	(Column A) Charge-offs Calendar year-to-date		(Column B) Recoveries Calendar year-to-date		
1. Loans secured by real estate:					1.
a. Construction, land development, and other land loans in domestic offices:					1.a.
1. 1-4 family residential construction loans	RIADC891	**0**	RIADC892	**0**	1.a.1.
2. Other construction loans and all land development and other land loans	RIADC893	**0**	RIADC894	**0**	1.a.2.
b. Secured by farmland in domestic offices	RIAD3584	**0**	RIAD3585	**0**	1.b.
c. Secured by 1-4 family residential properties in domestic offices:					1.c.
1. Revolving, open-end loans secured by 1-4 family residential properties and extended under lines of credit	RIAD5411	**0**	RIAD5412	**0**	1.c.1.
2. Closed-end loans secured by 1-4 family residential properties:					1.c.2.
a. Secured by first liens	RIADC234	**0**	RIADC217	**0**	1.c.2.a.
b. Secured by junior liens	RIADC235	**0**	RIADC218	**0**	1.c.2.b.
d. Secured by multifamily (5 or more) residential properties in domestic offices	RIAD3588	**27,769**	RIAD3589	**0**	1.d.
e. Secured by nonfarm nonresidential properties in domestic offices:					1.e.
1. Loans secured by owner-occupied nonfarm nonresidential properties	RIADC895	**0**	RIADC896	**0**	1.e.1.
2. Loans secured by other nonfarm nonresidential properties	RIADC897	**0**	RIADC898	**0**	1.e.2.
f. In foreign offices	RIADB512	**NR**	RIADB513	**NR**	1.f.
2. Not applicable					2.
3. Loans to finance agricultural production and other loans to farmers	RIAD4655	**0**	RIAD4665	**0**	3.
4. Commercial and industrial loans:					4.
a. To U.S. addressees (domicile)	RIAD4645	**352**	RIAD4617	**0**	4.a.
b. To non-U.S. addressees (domicile)	RIAD4646	**0**	RIAD4618	**0**	4.b.
5. Loans to individuals for household, family, and other personal expenditures:					5.
a. Credit cards	RIADB514	**664**	RIADB515	**398**	5.a.
b. Automobile loans	RIADK129	**0**	RIADK133	**0**	5.b.
c. Other (includes revolving credit plans other than credit cards and other consumer loans)	RIADK205	**0**	RIADK206	**0**	5.c.
6. Loans to foreign governments and official institutions	RIAD4643	**0**	RIAD4627	**0**	6.
7. All other loans	RIAD4644	**0**	RIAD4628	**0**	7.
8. Lease financing receivables:					8.
a. Leases to individuals for household, family, and other personal expenditures	RIADF185	**0**	RIADF187	**0**	8.a.
b. All other leases	RIADC880	**0**	RIADF188	**0**	8.b.
9. Total (sum of items 1 through 8)	RIAD4635	**28,785**	RIAD4605	**398**	9.
1. Loans to finance commercial real estate, construction, and land development activities (not secured by real estate) included in Schedule RI-B, part I, items 4 and 7, above	RIAD5409	**0**	RIAD5410	**0**	M.1.
2. Loans secured by real estate to non-U.S. addressees (domicile) (included in Schedule RI-B, part I, item 1, above)	RIAD4652	**0**	RIAD4662	**0**	M.2.
3. Not applicable					M.3.

Dollar amounts in thousands			
Memorandum item 4 is to be completed by banks that (1) together with affiliated institutions, have outstanding credit card receivables (as defined in the instructions) that exceed $500 million as of the report date, or (2) are credit card specialty banks as defined for Uniform Bank Performance Report purposes. 4. Uncollectible retail credit card fees and finance charges reversed against income (i.e., not included in charge-offs against the allowance for credit losses on loans and leases)	RIADC388	**NR**	M.4.

Schedule RI-B Part II - Changes in Allowances for Credit Losses(Form Type - 031)

Dollar amounts in thousands	(Column A) Loans and Leases Held for Investment		(Column B) Held-to-maturity Debt Securities		(Column C) Available-for-sale Debt Securities		
1. Balance most recently reported for the December 31, 2024, Reports of Condition and Income (i.e., after adjustments from amended Reports of Income)	RIADB522	**118,433**	RIADJH88	**0**	RIADJH94	**0**	1.
2. Recoveries (column A must equal Part I, item 9, column B, above)	RIAD4605	**398**	RIADJH89	**0**	RIADJH95	**0**	2.
3. LESS: Charge-offs (column A must equal Part I, item 9, column A, above less Schedule RI-B, Part II, item 4, column A)	RIADC079	**28,785**	RIADJH92	**0**	RIADJH98	**0**	3.
4. LESS: Write-downs arising from transfers of financial assets	RIAD5523	**0**	RIADJJ00	**0**	RIADJJ01	**0**	4.
5. Provisions for credit losses[1]	RIAD4230	**599**	RIADJH90	**0**	RIADJH96	**0**	5.
6. Adjustments* (see instructions for this schedule)[*]	RIADC233	**0**	RIADJH91	**0**	RIADJH97	**0**	6.
7. Balance end of current period (sum of items 1, 2, 5, and 6, less items 3 and 4) (column A must equal Schedule RC, item 4.c)	RIAD3123	**90,645**	RIADJH93	**0**	RIADJH99	**0**	7.

Dollar amounts in thousands			
1. Allocated transfer risk reserve included in Schedule RI-B, Part II, item 7, column A, above	RIADC435	**0**	M.1.
Memorandum items 2 and 3 are to be completed by banks that (1) together with affiliated institutions, have outstanding credit card receivables (as defined in the instructions) that exceed $500 million as of the report date, or (2) are credit card specialty banks as defined for Uniform Bank Performance Report purposes. 2. Separate valuation allowance for uncollectible retail credit card fees and finance charges	RIADC389	**NR**	M.2.
3. Amount of allowance for credit losses on loans and leases attributable to retail credit card fees and finance charges.	RIADC390	**NR**	M.3.
4. Not applicable			M.4.
5. Provisions for credit losses on other financial assets measured at amortized cost (not included in item 5, above)	RIADJJ02	**0**	M.5.
6. Allowance for credit losses on other financial assets measured at amortized cost (not included in item 7, above)	RCFDJJ03	**0**	M.6.
7. Provisions for credit losses on off-balance-sheet credit exposures	RIADMG93	**1,314**	M.7.
8. Estimated amount of expected recoveries of amounts previously written off included within the allowance for credit losses on loans and leases held for investment (included in item 7, column A, "Balance end of current period," above).	RIADMG94	**0**	M.8.

1. The sum of item 5, column A through C, plus Schedule RI-B, Part II, Memorandum items 5 and 7, below must equal Schedule RI, item 4.

*. Describe on Schedule RI-E - Explanations.

Schedule RI-C - Disaggregated Data on the Allowances for Credit Losses(Form Type - 031)

Dollar amounts in thousands	(Column A) Amortized Cost		(Column B) Allowance Balance		
1. Real estate loans:					1.
a. Construction loans	RCFDJJ04	**2,852**	RCFDJJ12	**11**	1.a.
b. Commercial real estate loans	RCFDJJ05	**2,128,241**	RCFDJJ13	**35,356**	1.b.
c. Residential real estate loans	RCFDJJ06	**30,918,152**	RCFDJJ14	**45,134**	1.c.
2. Commercial loans[2]	RCFDJJ07	**52,779,225**	RCFDJJ15	**7,689**	2.
3. Credit cards	RCFDJJ08	**293,533**	RCFDJJ16	**906**	3.
4. Other consumer loans	RCFDJJ09	**886,050**	RCFDJJ17	**1,549**	4.
5. Unallocated, if any			RCFDJJ18	**0**	5.
6. Total (sum of items 1.a. through 5)[3]	RCFDJJ11	**87,008,053**	RCFDJJ19	**90,645**	6.

Dollar amounts in thousands			
7. Securities issued by states and political subdivisions in the U.S.	RCFDJJ20	**0**	7.
8. Mortgage-backed securities (MBS) (including CMOs, REMICs, and stripped MBS)	RCFDJJ21	**0**	8.
9. Asset-backed securities and structured financial products	RCFDJJ23	**0**	9.
10. Other debt securities	RCFDJJ24	**0**	10.
11. Total (sum of items 7 through 10)[4]	RCFDJJ25	**0**	11.

Schedule RI-D - Income from Foreign Offices(Form Type - 031)

For all banks with foreign offices (including Edge or Agreement subsidiaries and IBFs) and total foreign office assets of $10 billion or more where foreign office revenues, assets, or net income exceed 10 percent of consolidated total revenues, total assets, or net income.

Dollar amounts in thousands			
1. Total interest income in foreign offices	RIADC899	**NR**	1.
2. Total interest expense in foreign offices	RIADC900	**NR**	2.
3. Provisions for credit losses in foreign offices	RIADKW02	**NR**	3.
4. Noninterest income in foreign offices:			4.
a. Trading revenue	RIADC902	**NR**	4.a.
b. Investment banking, advisory, brokerage, and underwriting fees and commissions	RIADC903	**NR**	4.b.
c. Net securitization income	RIADC904	**NR**	4.c.
d. Other noninterest income	RIADC905	**NR**	4.d.
5. Realized gains (losses) on held-to-maturity and available-for-sale debt securities and change in net unrealized holding gains (losses) on equity securities not held for trading in foreign offices	RIADJA28	**NR**	5.
6. Total noninterest expense in foreign offices	RIADC907	**NR**	6.
7. Adjustments to pretax income in foreign offices for internal allocations to foreign offices to reflect the effects of equity capital on overall bank funding costs	RIADC908	**NR**	7.
8. Applicable income taxes (on items 1 through 7)	RIADC909	**NR**	8.
9. Discontinued operations, net of applicable income taxes, in foreign offices	RIADGW64	**NR**	9.
10. Net income attributable to foreign offices before internal allocations of income and expense (item 1 plus or minus items 2 through 9)	RIADC911	**NR**	10.
11. Not applicable			11.
12. Eliminations arising from the consolidation of foreign offices with domestic offices	RIADC913	**NR**	12.
13. Consolidated net income attributable to foreign offices (sum of items 10 and 12)	RIADC914	**NR**	13.

2. Include all loans and leases not reported as real estate loans, credit cards, or other consumer loans in item 1, 3, or 4 of Schedule RI-C.
3. Item 6, column B must equal schedule RC, item 4.c.
4. Item 11 must equal Schedule RI-B, Part II, item 7, column B.

Schedule RI-E - Explanations (Form Type - 031)

Schedule RI-E is to be completed each quarter on a calendar year-to-date basis.

Detail all adjustments in Schedule RI-A and RI-B, all extraordinary items and other adjustments in Schedule RI, and all significant items of other noninterest income and other noninterest expense in Schedule RI. (See instructions for details.)

Dollar amounts in thousands

1. Other noninterest income (from Schedule RI, item 5.l) Itemize and describe amounts greater than $100,000 that exceed 7 percent of Schedule RI, item 5.l:			1.
a. Income and fees from the printing and sale of checks	RIADC013	**0**	1.a.
b. Earnings on/increase in value of cash surrender value of life insurance	RIADC014	**0**	1.b.
c. Income and fees from automated teller machines (ATMs)	RIADC016	**0**	1.c.
d. Rent and other income from other real estate owned	RIAD4042	**0**	1.d.
e. Safe deposit box rent	RIADC015	**0**	1.e.
f. Bank card and credit card interchange fees	RIADF555	**38,471**	1.f.
g. Income and fees from wire transfers	RIADT047	**0**	1.g.
h. Disclose component and the dollar amount of that component:			1.h.

1. The $10 billion asset-size test is based on the total assets reported on the June 30, 2024, Report of Condition

Schedule RC-C Part II - Loans to Small Businesses and Small Farms(Form Type - 031)

Report the number and amount currently outstanding as of the report date of business loans with "original amounts" of $1,000,000 or less and farm loans with "original amounts" of $500,000 or less. The following guidelines should be used to determine the "original amount" of a loan:
(1) For loans drawn down under lines of credit or loan commitments, the "original amount" of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was most recently approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the "original amount" is the amount currently outstanding on the report date. (2) For loan participations and syndications, the "original amount" of the loan participation or syndication is the entire amount of the credit originated by the lead lender. (3) For all other loans, the "original amount" is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.

Dollar amounts in thousands

1. Selected components of total deposits (i.e., sum of item 7, columns A and C):			M.1.
a. Total Individual Retirement Accounts (IRAs) and Keogh Plan accounts	RCON6835	**13,923,121**	M.1.a.
b. Total brokered deposits	RCON2365	**32,226,063**	M.1.b.
c. Brokered deposits of $250,000 or less (fully insured brokered deposits)[2]	RCONHK05	**32,226,063**	M.1.c.
d. Maturity data for brokered deposits:			M.1.d.
1. Brokered deposits of $250,000 or less with a remaining maturity of one year or less (included in Memorandum item 1.c above)	RCONHK06	**13,961,954**	M.1.d.1.
2. Not applicable			M.1.d.2.
3. Brokered deposits of more than $250,000 with a remaining maturity of one year or less (included in Memorandum item 1.b above)	RCONK220	**0**	M.1.d.3.
e. Preferred deposits (uninsured deposits of states and political subdivisions in the U.S. reported in item 3 above which are secured or collateralized as required under state law) (to be completed for the December report only).	RCON5590	**NR**	M.1.e.
f. Estimated amount of deposits obtained through the use of deposit listing services that are not brokered deposits	RCONK223	**0**	M.1.f.
g. Total reciprocal deposits (as of the report date)	RCONJH83	**4,209,942**	M.1.g.
Memorandum items 1.h.(1)(a), 1.h.(2)(a), 1.h.(3)(a), and 1.h.(4)(a) are to be completed by banks with $100 billion or more in total assets			M.1.h.
h. Sweep deposits:[3]			
1. Fully insured, affiliate sweep deposits	RCONMT87	**21,251,090**	M.1.h.1.
a. Fully insured, affiliate, retail sweep deposits	RCONMT88	**18,522,690**	M.1.h.1.a.
2. Not fully insured, affiliate sweep deposits	RCONMT89	**5,315,931**	M.1.h.2.
a. Not fully insured, affiliate, retail sweep deposits	RCONMT90	**4,633,410**	M.1.h.2.a.
3. Fully insured, non-affiliate sweep deposits	RCONMT91	**11,658,541**	M.1.h.3.
a. Fully insured, non-affiliate, retail sweep deposits	RCONMT92	**11,658,541**	M.1.h.3.a.
4. Not fully insured, non-affiliate sweep deposits	RCONMT93	**0**	M.1.h.4.
a. Not fully insured, non-affiliate, retail sweep deposits	RCONMT94	**0**	M.1.h.4.a.
i. Total sweep deposits that are not brokered deposits	RCONMT95	**30,776,964**	M.1.i.
2. Components of total nontransaction accounts (sum of Memorandum items 2.a through 2.d must equal item 7, column C above):			M.2.
a. Savings deposits:			M.2.a.
1. Money market deposit accounts (MMDAs)	RCON6810	**38,225,562**	M.2.a.1.
2. Other savings deposits (excludes MMDAs)	RCON0352	**35,426,188**	M.2.a.2.
b. Total time deposits of less than $100,000	RCON6648	**24,777,465**	M.2.b.
c. Total time deposits of $100,000 through $250,000	RCONJ473	**0**	M.2.c.
d. Total time deposits of more than $250,000	RCONJ474	**0**	M.2.d.
e. Individual Retirement Accounts (IRAs) and Keogh Plan accounts of $100,000 or more included in Memorandum items 2.c and 2.d above	RCONF233	**0**	M.2.e.
3. Maturity and repricing data for time deposits of $250,000 or less:			M.3.
a. Time deposits of $250,000 or less with a remaining maturity or next repricing date of:			M.3.a.
1. Three months or less	RCONHK07	**1,440,804**	M.3.a.1.
2. Over three months through 12 months	RCONHK08	**5,072,551**	M.3.a.2.
3. Over one year through three years	RCONHK09	**12,409,501**	M.3.a.3.
4. Over three years	RCONHK10	**5,854,609**	M.3.a.4.
b. Time deposits of $250,000 or less with a REMAINING MATURITY of one year or less (included in Memorandum items 3.a.(1) and 3.a.(2) above)[3]	RCONHK11	**6,513,355**	M.3.b.
4. Maturity and repricing data for time deposits of more than $250,000:			M.4.
a. Time deposits of more than $250,000 with a remaining maturity or next repricing date of:			M.4.a.
1. Three months or less	RCONHK12	**0**	M.4.a.1.
2. Over three months through 12 months	RCONHK13	**0**	M.4.a.2.
3. Over one year through three years	RCONHK14	**0**	M.4.a.3.
4. Over three years	RCONHK15	**0**	M.4.a.4.

2. The dollar amount used as the basis for reporting in Memorandum item 1.c reflects the deposit insurance limit in effect on the report date.

3. The $100 billion asset-size test is based on the total assets reported on the June 30, 2024, Report of Condition.

3. Report both fixed- and floating-rate time deposits by remaining maturity. Exclude floating rate time deposits with a next repricing date of one year or less that have a remaining maturity of over one year.

		Dollar amounts in thousands	
b. Time deposits of more than $250,000 with a REMAINING MATURITY of one year or less (included in Memorandum items 4.a.(1) and 4.a.(2) above)[3]	RCONK222	**0**	M.4.b.
5. Does your institution offer one or more consumer deposit account products, i.e., transaction account or nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use?	RCONP752	**No**	M.5.
Memorandum items 6 and 7 are to be completed by institutions with $1 billion or more in total assets that answered "Yes" to Memorandum item 5 above.			
6. Components of total transaction account deposits of individuals, partnerships, and corporations (sum of Memorandum items 6.a and 6.b must be less than or equal to item 1, column A, above):[5]			M.6.
a. Total deposits in those noninterest-bearing transaction account deposit products intended primarily for individuals for personal, household, or family use	RCONP753	**NR**	M.6.a.
b. Total deposits in those interest-bearing transaction account deposit products intended primarily for individuals for personal, household, or family use	RCONP754	**NR**	M.6.b.
7. Components of total nontransaction account deposits of individuals, partnerships, and corporations (sum of Memorandum items 7.a.(1), 7.a.(2), 7.b.(1), and 7.b.(2) plus all time deposits of individuals, partnerships, and corporations must equal item 1, column C, above):			M.7.
a. Money market deposit accounts (MMDAs) of individuals, partnerships, and corporations (sum of Memorandum items 7.a.(1) and 7.a.(2) must be less than or equal to Memorandum item 2.a.(1) above):			M.7.a.
1. Total deposits in those MMDA deposit products intended primarily for individuals for personal, household, or family use	RCONP756	**NR**	M.7.a.1.
2. Deposits in all other MMDAs of individuals, partnerships, and corporations	RCONP757	**NR**	M.7.a.2.
b. Other savings deposit accounts of individuals, partnerships, and corporations (sum of Memorandum items 7.b.(1) and 7.b.(2) must be less than or equal to Memorandum item 2.a.(2) above):			M.7.b.
1. Total deposits in those other savings deposit account deposit products intended primarily for individuals for personal, household, or family use	RCONP758	**NR**	M.7.b.1.
2. Deposits in all other savings deposit accounts of individuals, partnerships, and corporations	RCONP759	**NR**	M.7.b.2.

Schedule RC-E Part II - Deposits in Foreign Offices including Edge and Agreement subsidiaries and IBFs(Form Type - 031)

		Dollar amounts in thousands	
Deposits of:			
1. Individuals, partnerships, and corporations (include all certified and official checks)	RCFNB553	**0**	1.
2. U.S. banks (including IBFs and foreign branches of U.S. banks) and other U.S. depository institutions	RCFNB554	**0**	2.
3. Foreign banks (including U.S. branches and agencies of foreign banks, including their IBFs)	RCFN2625	**0**	3.
4. Foreign governments and official institutions (including foreign central banks)	RCFN2650	**0**	4.
5. U.S. Government and states and political subdivisions in the U.S.	RCFNB555	**0**	5.
6. Total	RCFN2200	**NR**	6.
1. Time deposits with a remaining maturity of one year or less (included in Schedule RC, item 13.b)	RCFNA245	**NR**	M.1.

5. The $1 billion asset size test is based on the total assets reported on the June 30, 2024, Report of Condition.

Schedule RC-F - Other Assets(Form Type - 031)

Dollar amounts in thousands

1. Accrued interest receivable[2]	RCFDB556	**148,307**	1.
2. Net deferred tax assets[3]	RCFD2148	**319,333**	2.
3. Interest-only strips receivable (not in the form of a security)[4]	RCFDHT80	**0**	3.
4. Equity investments without readily determinable fair values[5]	RCFD1752	**217,611**	4.
5. Life insurance assets:			5.
a. General account life insurance assets	RCFDK201	**0**	5.a.
b. Separate account life insurance assets	RCFDK202	**0**	5.b.
c. Hybrid account life insurance assets	RCFDK270	**0**	5.c.
6. All other assets (itemize and describe amounts greater than $100,000 that exceed 25% of this item)	RCFD2168	**417,035**	6.
a. Prepaid expenses	RCFD2166	**0**	6.a.
b. Repossessed personal property (including vehicles)	RCFD1578	**0**	6.b.
c. Derivatives with a positive fair value held for purposes other than trading	RCFDC010	**0**	6.c.
d. Not applicable			6.d.
e. Computer software	RCFDFT33	**0**	6.e.
f. Accounts receivable	RCFDFT34	**0**	6.f.
g. Receivables from foreclosed government-guaranteed mortgage loans	RCFDFT35	**0**	6.g.
h. Disclose component and the dollar amount of that component:			6.h.
1. Describe component	TEXT3549	**Click here for value**	6.h.1.
2. Amount of component	RCFD3549	**206,488**	6.h.2.
i. Disclose component and the dollar amount of that component:			6.i.
1. Describe component	TEXT3550	**NR**	6.i.1.
2. Amount of component	RCFD3550	**0**	6.i.2.
j. Disclose component and the dollar amount of that component:			6.j.
1. Describe component	TEXT3551	**NR**	6.j.1.
2. Amount of component	RCFD3551	**0**	6.j.2.
7. Total (sum of items 1 through 6) (must equal Schedule RC, item 11)	RCFD2160	**1,102,286**	7.

(TEXT3549) Mortgage Remittance Receivables From Servicer

2. Include accrued interest receivable on loans, leases, debt securities, and other interest-bearing assets. Exclude accrued interest receivables on financial assets that are reported elsewhere on the balance sheet.
3. See discussion of deferred income taxes in Glossary entry on Income Taxes.
4. Report interest-only strips receivable in the form of a security as available-for-sale securities in Schedule RC, item 2.b, or as trading assets in Schedule RC, item 5, as appropriate.
5. Include Federal Reserve stock, Federal Home Loan Bank stock, and bankers' bank stock.

Schedule RC-G - Other Liabilities(Form Type - 031)

Dollar amounts in thousands

1. Not available			1.
a. Interest accrued and unpaid on deposits in domestic offices[6]	RCON3645	**174,589**	1.a.
b. Other expenses accrued and unpaid (includes accrued income taxes payable)	RCFD3646	**523,918**	1.b.
2. Net deferred tax liabilities[2]	RCFD3049	**0**	2.
3. Allowance for credit losses on off-balance sheet credit exposures	RCFDB557	**5,188**	3.
4. All other liabilities (itemize and describe amounts greater than $100,000 that exceed 25 percent of this item)	RCFD2938	**123,244**	4.
a. Accounts payable	RCFD3066	**0**	4.a.
b. Deferred compensation liabilities	RCFDC011	**0**	4.b.
c. Dividends declared but not yet payable	RCFD2932	**0**	4.c.
d. Derivatives with a negative fair value held for purposes other than trading	RCFDC012	**0**	4.d.
e. Operating lease liabilities	RCFDLB56	**0**	4.e.
f. Disclose component and the dollar amount of that component:			4.f.
1. Describe component	TEXT3552	**Click here for value**	4.f.1.
2. Amount of component	RCFD3552	**38,902**	4.f.2.
g. Disclose component and the dollar amount of that component:			4.g.
1. Describe component	TEXT3553	**Click here for value**	4.g.1.
2. Amount of component	RCFD3553	**48,100**	4.g.2.
h. Disclose component and the dollar amount of that component:			4.h.
1. Describe component	TEXT3554	**NR**	4.h.1.
2. Amount of component	RCFD3554	**0**	4.h.2.
5. Total	RCFD2930	**826,939**	5.

(TEXT3552) Deferred Revenue

(TEXT3553) Intercompany Payable

6. For savings banks, include "dividends" accrued and unpaid on deposits.
2. See discussion of deferred income taxes in Glossary entry on Income Taxes.

Schedule RC-H - Selected Balance Sheet Items for Domestic Offices(Form Type - 031)

To be completed only by banks with foreign offices.

Dollar amounts in thousands			
1. Not applicable			1.
2. Not applicable			2.
3. Securities purchased under agreements to resell	RCONB989	**NR**	3.
4. Securities sold under agreements to repurchase[1]	RCONB995	**NR**	4.
5. Other borrowed money	RCON3190	**NR**	5.
EITHER 6. Net due from own foreign offices, Edge and Agreement subsidiaries, and IBFs	RCON2163	**NR**	6.
OR 7. Net due to own foreign offices, Edge and Agreement subsidiaries, and IBFs	RCON2941	**NR**	7.
8. Total assets (excludes net due from foreign offices, Edge and Agreement subsidiaries, and IBFs)	RCON2192	**NR**	8.
9. Total liabilities (excludes net due to foreign offices, Edge and Agreement subsidiaries, and IBFs)	RCON3129	**NR**	9.

Dollar amounts in thousands	(Column A) Amortized Cost of Held-to-Maturity Securities		(Column B) Fair Value of Available-for-Sale Securities		
10. U.S. Treasury securities	RCON0211	**NR**	RCON1287	**NR**	10.
11. U.S. Government agency obligations (exclude mortgage-backed securities)	RCON8492	**NR**	RCON8495	**NR**	11.
12. Securities issued by states and political subdivisions in the U.S.	RCON8496	**NR**	RCON8499	**NR**	12.
13. Mortgage-backed securities (MBS):					13.
a. Mortgage pass-through securities:					13.a.
1. Issued or guaranteed by FNMA, FHLMC, or GNMA	RCONG389	**NR**	RCONG390	**NR**	13.a.1.
2. Other mortgage pass-through securities	RCON1709	**NR**	RCON1713	**NR**	13.a.2.
b. Other mortgage-backed securities (include CMOs, REMICs, and stripped MBS):					13.b.
1. Issued or guaranteed by U.S. Government agencies or sponsored agencies[1]	RCONG393	**NR**	RCONG394	**NR**	13.b.1.
2. All other mortgage-backed securities	RCON1733	**NR**	RCON1736	**NR**	13.b.2.
14. Other domestic debt securities (include domestic structured financial products and domestic asset-backed securities)	RCONG397	**NR**	RCONG398	**NR**	14.
15. Other foreign debt securities (include foreign structured financial products and foreign asset-backed securities)	RCONG399	**NR**	RCONG400	**NR**	15.
16. Not applicable.					16.
17. Total held-to-maturity and available-for-sale debt securities (sum of items 10 through 15)	RCON1754	**NR**	RCON1773	**NR**	17.

Dollar amounts in thousands			
18. Equity investments not held for trading:			18.
a. Equity securities with readily determinable fair values[4]	RCONJA22	**NR**	18.a.
b. Equity investments without readily determinable fair values	RCON1752	**NR**	18.b.
Items 19, 20 and 21 are to be completed by banks that reported total trading assets of $10 million or more in any of the four preceding calendar quarters and all banks meeting the FDIC's definition of a large or highly complex institution for deposit insurance assessment purposes. 19. Total trading assets	RCON3545	**NR**	19.
20. Total trading liabilities	RCON3548	**NR**	20.
21. Total loans held for trading	RCONHT71	**NR**	21.
tem 22 is to be completed by banks that: (1) have elected to report financial instruments or servicing assets and liabilities at fair value under a fair value option with changes in fair value recognized in earnings, or (2) are required to complete Schedule RC-D, Trading Assets and Liabilities. 22. Total amount of fair value option loans held for investment and held for sale	RCONJF75	**NR**	22.

1. Institutions should report item 4 amounts net of any applicable allowance for credit losses.

1. U.S. Government agencies include, but are not limited to, such agencies as the Government National Mortgage Association (GNMA), the Federal Deposit Insurance Corporation (FDIC), and the National Credit Union Administration (NCUA). U.S. Government-sponsored agencies include, but are not limited to, such agencies as the Federal Home Loan Mortgage Corporation (FHLMC) and the Federal National Mortgage Association (FNMA).

4. Item 18.a is to be completed by all institutions. See the instructions for this item and the Glossary entry for "Securities Activities" for further detail on accounting for investments in equity securities.

Schedule RC-I - Assets and Liabilities of IBFs(Form Type - 031)

To be completed only by banks with IBFs and other "foreign" offices.

		Dollar amounts in thousands	
1. Total IBF assets of the consolidated bank (component of Schedule RC, item 12)	RCFN2133	**NR**	1.
2. Total IBF liabilities (component of Schedule RC, item 21)	RCFN2898	**NR**	2.

Schedule RC-K - Quarterly Averages(Form Type - 031)

		Dollar amounts in thousands	
1. Interest-bearing balances due from depository institutions	RCFD3381	**20,842,934**	1.
2. U.S. Treasury securities and U.S. Government agency obligations (excluding mortgage-backed securities)[2]	RCFDB558	**2,167,936**	2.
3. Mortgage-backed securities[2]	RCFDB559	**4,603,000**	3.
4. All other debt securities and equity securities with readily determinable fair values not held for trading[2]	RCFDB560	**4,335**	4.
5. Federal funds sold and securities purchased under agreements to resell	RCFD3365	**0**	5.
6. Loans:			6.
a. Loans in domestic offices:			6.a.
1. Total loans	RCON3360	**86,175,538**	6.a.1.
2. Loans secured by real estate:			6.a.2.
a. Loans secured by 1-4 family residential properties	RCON3465	**30,490,094**	6.a.2.a.
b. All other loans secured by real estate	RCON3466	**2,189,389**	6.a.2.b.
3. Loans to finance agricultural production and other loans to farmers	RCON3386	**0**	6.a.3.
4. Commercial and industrial loans	RCON3387	**610,065**	6.a.4.
5. Loans to individuals for household, family, and other personal expenditures:			6.a.5.
a. Credit cards	RCONB561	**301,203**	6.a.5.a.
b. Other (includes revolving credit plans other than credit cards, automobile loans, and other consumer loans)	RCONB562	**883,136**	6.a.5.b.
b. Total loans in foreign offices, Edge and Agreement subsidiaries, and IBFs	RCFN3360	**0**	6.b.
Item 7 is to be completed by banks with total trading assets of $10 million or more in any of the four preceding calendar quarters and all banks meeting the FDIC's definition of a large or highly complex institution for deposit insurance assessment purposes. 7. Trading assets	RCFD3401	**0**	7.
8. Lease financing receivables (net of unearned income)	RCFD3484	**0**	8.
9. Total assets[4]	RCFD3368	**114,808,091**	9.
10. Interest-bearing transaction accounts in domestic offices (interest-bearing demand deposits, NOW accounts, ATS accounts, and telephone and preauthorized transfer accounts)	RCON3485	**0**	10.
11. Nontransaction accounts in domestic offices:			11.
a. Savings deposits (includes MMDAs)	RCONB563	**74,127,549**	11.a.
b. Time deposits of $250,000 or less	RCONHK16	**23,796,219**	11.b.
c. Time deposits of more than $250,000	RCONHK17	**0**	11.c.
12. Interest-bearing deposits in foreign offices, EDGE and Agreement subsidiaries, and IBFs	RCFN3404	**NR**	12.
13. Federal funds purchased and securities sold under agreements to repurchase	RCFD3353	**260,964**	13.
14. Other borrowed money (includes mortgage indebtedness and obligations under capitalized leases)	RCFD3355	**6,286,807**	14.

2. Quarterly averages for all debt securities should be based on amortized cost.
2. Quarterly averages for all debt securities should be based on amortized cost.
4. The quarterly average for total assets should reflect securities not held for trading as follows: a) Debt securities at amortized cost, b) Equity securities with readily determinable fair values at fair value, c) Equity investments without readily determinable fair values, their balance sheet carrying values (i.e., fair value or, if elected, cost minus impairment, if any, plus or minus changes resulting from observable price changes).

Schedule RC-L - Derivatives and Off-Balance Sheet Items(Form Type - 031)

Please read carefully the instructions for the preparation of Schedule RC-L. Some of the amounts reported in Schedule RC-L are regarded as volume indicators and not necessarily as measures of risk.

Dollar amounts in thousands

1. Unused commitments:			1.
a. Revolving, open-end lines secured by 1-4 family residential properties, i.e., home equity lines	RCFD3814	**0**	1.a.
Item 1.a.(1) is to be completed for the December report only. 1. Unused commitments for reverse mortgages outstanding that are held for investment in domestic offices	RCONHT72	**NR**	1.a.1.
b. Credit card lines (Sum of items 1.b.(1) and 1.b.(2) must equal item 1.b)	RCFD3815	**2,386,782**	1.b.
Items 1.b.(1) and 1.b.(2) are to be completed by banks with either $300 million or more in total assets or $300 million or more in credit card lines. (Sum of items 1.b.(1) and 1.b.(2) must equal item 1.b) *Items 1.b.(1) and 1.b.(2) are to be completed semiannually in the June and December reports only.* 1. Unused consumer credit card lines	RCFDJ455	**2,185,875**	1.b.1.
2. Other unused credit card lines	RCFDJ456	**200,907**	1.b.2.
c. Commitments to fund commercial real estate, construction, and land development loans:			1.c.
1. Secured by real estate:			1.c.1.
a. 1-4 family residential construction loan commitments	RCFDF164	**0**	1.c.1.a.
b. Commercial real estate, other construction loan, and land development loan commitments	RCFDF165	**52,207**	1.c.1.b.
2. Not secured by real estate	RCFD6550	**9,992**	1.c.2.
d. Securities underwriting	RCFD3817	**0**	1.d.
e. Other unused commitments:			1.e.
1. Commercial and industrial loans	RCFDJ457	**119,863**	1.e.1.
2. Loans to depository financial institutions	RCFDPV10	**0**	1.e.2.
3. Loans to nondepository financial institutions	RCFDPV11	**4,300,901**	1.e.3.
a. Loans to mortgage credit intermediaries[1]	RCFDPV12	**150,000**	1.e.3.a.

a. Credit cards	RCFDK274	80	RCFDK275	0	RCFDK276	0	M1f4a
b. Automobile loans	RCFDK277	0	RCFDK278	0	RCFDK279	0	M1f4b
c. Other (includes revolving credit plans other than credit cards and other consumer loans)	RCFDK280	0	RCFDK281	0	RCFDK282	0	M1f4c.
g. Total loan modifications to borrowers experiencing financial difficulty* included in Schedule RC-N, items 1 through 7, above (sum of items Memorandum item 1.a.(1) through Memorandum item 1.f)[1]	RCFDHK26	80	RCFDHK27	0	RCFDHK28	0	M.1.g.
2. Loans to finance commercial real estate, construction, and land development activities (not secured by real estate) included in Schedule RC-N, items 4 and 7, above	RCFD6558	0	RCFD6559	0	RCFD6560	0	M.2.
3. Loans secured by real estate to non-U.S. addressees (domicile) (included in Schedule RC-N, item 1, above)	RCFD1248	0	RCFD1249	0	RCFD1250	0	M.3.
4. Not applicable							M.4.
5. Loans and leases held for sale (included in Schedule RC-N, items 1 through 8, above)	RCFDC240	0	RCFDC241	0	RCFDC226	0	M.5.

Dollar amounts in thousands	(Column A) Past due 30 through 89 days		(Column B) Past due 90 days or more		
6. Derivative contracts: Fair value of amounts carried as assets	RCFD3529	0	RCFD3530	0	M.6.

Dollar amounts in thousands

Memorandum items 7 and 8 are to be completed semiannually in the June and December reports only.			
7. Additions to nonaccrual assets during the previous six months	RCFDC410	41,432	M.7.
8. Nonaccrual assets sold during the previous six months	RCFDC411	0	M.8.

Dollar amounts in thousands	(Column A) Past due 30 through 89 days and still accruing		(Column B) Past due 90 days or more and still accruing		(Column C) Nonaccrual		
9. Loans to nondepository financial institutions included in Schedule RC-N, item 7	RCFDPV23	0	RCFDPV24	0	RCFDPV25	0	M.9.

1. Exclude amounts reported in Memorandum items 1.f.(1) through 1.f.(4) when calculating the total in Memorandum item 1.g. *The loan modification to borrowers experiencing financial difficulty revisions are effective as of the June 30, 2024, report date.

Schedule RC-O - Other Data for Deposit Insurance and FICO Assessments(Form Type - 031)

All FDIC-insured depository institutions must complete items 1 through 9, 10, and 11, Memorandum item 1, and, if applicable, item 9.a, Memorandum items 2, 3, and 6 through 18 each quarter. Unless otherwise indicated, complete items 1 through 11 and Memorandum items 1 through 3 on an "unconsolidated single FDIC certificate number basis" (see instructions) and complete Memorandum items 6 through 18 on a fully consolidated basis.

		Dollar amounts in thousands	
1. Total deposit liabilities before exclusions (gross) as defined in Section 3(l) of the Federal Deposit Insurance Act and FDIC regulations	RCFDF236	**98,615,856**	1.
2. Total allowable exclusions, including interest accrued and unpaid on allowable exclusions (including foreign deposits)	RCFDF237	**0**	2.
3. Total foreign deposits, including interest accrued and unpaid thereon (included in item 2 above)	RCFNF234	**0**	3.
4. Average consolidated total assets for the calendar quarter	RCFDK652	**114,808,091**	4.
a. Averaging method used (for daily averaging, enter 1; for weekly averaging, enter 2)	RCFDK653	**1**	4.a.
5. Average tangible equity for the calendar quarter[1]	RCFDK654	**10,193,690**	5.
6. Holdings of long-term unsecured debt issued by other FDIC-insured depository institutions	RCFDK655	**0**	6.
7. Unsecured "Other borrowings" with a remaining maturity of (sum of items 7.a through 7.d must be less than or equal to Schedule RC-M, items 5.b.(1)(a)-(d) minus item 10.b):			7.
a. One year or less	RCFDG465	**34,639**	7.a.
b. Over one year through three years	RCFDG466	**1,000,000**	7.b.
c. Over three years through five years	RCFDG467	**0**	7.c.
d. Over five years	RCFDG468	**0**	7.d.
8. Subordinated notes and debentures with a remaining maturity of (sum of items 8.a through 8.d must equal Schedule RC, item 19):			8.
a. One year or less	RCFDG469	**0**	8.a.
b. Over one year through three years	RCFDG470	**0**	8.b.
c. Over three years through five years	RCFDG471	**0**	8.c.
d. Over five years	RCFDG472	**0**	8.d.
9. Brokered reciprocal deposits (included in Schedule RC-E, Part I, Memorandum item 1.b)	RCONG803	**0**	9.
Item 9.a is to be completed on a fully consolidated basis by all institutions that own another insured depository institution. a. Fully consolidated brokered reciprocal deposits	RCONL190	**NR**	9.a.
10. Banker's bank certification: Does the reporting institution meet both the statutory definition of a banker's bank and the business conduct test set forth in FDIC regulations? If the answer to item 10 is "YES," complete items 10.a and 10.b	RCFDK656	**No**	10.
If the answer to item 10 is "YES," complete items 10.a and 10.b. a. Banker's bank deduction	RCFDK657	**NR**	10.a.
b. Banker's bank deduction limit	RCFDK658	**NR**	10.b.
11. Custodial bank certification: Does the reporting institution meet the definition of a custodial bank set forth in FDIC regulations? If the answer to item 11 is "YES," complete items 11.a and 11.b	RCFDK659	**No**	11.
If the answer to item 11 is "YES," complete items 11.a and 11.b. a. Custodial bank deduction	RCFDK660	**NR**	11.a.
b. Custodial bank deduction limit	RCFDK661	**NR**	11.b.
1. Total deposit liabilities of the bank (including related interest accrued and unpaid) less allowable exclusions (including related interest accrued and unpaid) (sum of Memorandum items 1.a.(1), 1.b.(1), 1.c.(1), and 1.d.(1) must equal Schedule RC-O, item 1 less item 2):			M.1.
a. Deposit accounts (excluding retirement accounts) of $250,000 or less:[1]			M.1.a.
1. Amount of deposit accounts (excluding retirement accounts) of $250,000 or less	RCONF049	**83,878,708**	M.1.a.1.
2. Number of deposit accounts (excluding retirement accounts) of $250,000 or less	RCONF050	**6076**	M.1.a.2.
b. Deposit accounts (excluding retirement accounts) of more than $250,000:[1]			M.1.b.
1. Amount of deposit accounts (excluding retirement accounts) of more than $250,000	RCONF051	**779,973**	M.1.b.1.
2. Number of deposit accounts (excluding retirement accounts) of more than $250,000	RCONF052	**11**	M.1.b.2.
c. Retirement deposit accounts of $250,000 or less:[1]			M.1.c.
1. Amount of retirement deposit accounts of $250,000 or less	RCONF045	**13,957,175**	M.1.c.1.
2. Number of retirement deposit accounts of $250,000 or less	RCONF046	**52**	M.1.c.2.
d. Retirement deposit accounts of more than $250,000:[1]			M.1.d.

1. See instructions for averaging methods. For deposit insurance assessment purposes, tangible equity is defined as Tier 1 capital as set forth in the banking agencies' regulatory capital standards and reported in Schedule RC-R, Part I, item 26, except as described in the instructions.

1. The dollar amounts used as the basis for reporting in Memorandum items 1.a through 1.d reflect the deposit insurance limits in effect on the report date.

		Dollar amounts in thousands	
1. Amount of retirement deposit accounts of more than $250,000	RCONF047	**0**	M.1.d.1.
2. Number of retirement deposit accounts of more than $250,000	RCONF048	**0**	M.1.d.2.
Memorandum item 2 is to be completed by banks with $1 billion or more in total assets. 2. Estimated amount of uninsured deposits in domestic offices of the bank and in insured branches in Puerto Rico and U.S. territories and possessions, including related interest accrued and unpaid (see instructions)[3]	RCON5597	**27,495,325**	M.2.
3. Has the reporting institution been consolidated with a parent bank or savings association in that parent bank's or parent savings association's Call Report? If so, report the legal title and FDIC Certificate Number of the parent bank or parent savings association:			M.3.
a. Legal title	TEXTA545	**NR**	M.3.a.
b. FDIC Certificate Number	RCONA545	**0**	M.3.b.
4. Dually payable deposits in the reporting institution's foreign branches	RCFNGW43	**NR**	M.4.
Memorandum items 5 through 12 are to be completed by "large institutions" and "highly complex institutions" as defined in FDIC regulations. 5. Applicable portion of the CECL transitional amount or modified CECL transitional amount that has been added to retained earnings for regulatory capital purposes as of the current report date and is attributable to loans and leases held for investment	RCFDMW53	**NR**	M.5.
6. Criticized and classified items:			M.6.
a. Special mention	RCFDK663	**CONF**	M.6.a.
b. Substandard	RCFDK664	**CONF**	M.6.b.
c. Doubtful	RCFDK665	**CONF**	M.6.c.
d. Loss	RCFDK666	**CONF**	M.6.d.
7. "Nontraditional 1-4 family residential mortgage loans" as defined for assessment purposes only in FDIC regulations:			M.7.
a. Nontraditional 1-4 family residential mortgage loans	RCFDN025	**CONF**	M.7.a.
b. Securitizations of nontraditional 1-4 family residential mortgage loans	RCFDN026	**CONF**	M.7.b.
8. "Higher-risk consumer loans" as defined for assessment purposes only in FDIC regulations:			M.8.
a. Higher-risk consumer loans	RCFDN027	**CONF**	M.8.a.
b. Securitizations of higher-risk consumer loans	RCFDN028	**CONF**	M.8.b.
9. "Higher-risk commercial and industrial loans and securities" as defined for assessment purposes only in FDIC regulations:			M.9.
a. Higher-risk commercial and industrial loans and securities	RCFDN029	**CONF**	M.9.a.
b. Securitizations of higher-risk commercial and industrial loans and securities	RCFDN030	**CONF**	M.9.b.
10. Commitments to fund construction, land development, and other land loans secured by real estate for the consolidated bank:			M.10.
a. Total unfunded commitments	RCFDK676	**4,148**	M.10.a.
b. Portion of unfunded commitments guaranteed or insured by the U.S. government (including the FDIC)	RCFDK677	**0**	M.10.b.
11. Amount of other real estate owned recoverable from the U.S. government under guarantee or insurance provisions (excluding FDIC loss-sharing agreements)	RCFDK669	**0**	M.11.
12. Nonbrokered time deposits of more than $250,000 in domestic offices (included in Schedule RC-E, Memorandum item 2.d)	RCONK678	**0**	M.12.
Memorandum item 13.a is to be completed by "large institutions" and "highly complex institutions" as defined in FDIC regulations. Memorandum items 13.b through 13.h are to be completed by "large institutions" only. 13. Portion of funded loans and securities in domestic and foreign offices guaranteed or insured by the U.S. government (including FDIC loss-sharing agreements):			M.13.
a. Construction, land development, and other land loans secured by real estate	RCFDN177	**0**	M.13.a.
b. Loans secured by multifamily residential and nonfarm nonresidential properties	RCFDN178	**0**	M.13.b.
c. Closed-end loans secured by first liens on 1-4 family residential properties	RCFDN179	**0**	M.13.c.
d. Closed-end loans secured by junior liens on 1-4 family residential properties and revolving, open-end loans secured by 1-4 family residential properties and extended under lines of credit	RCFDN180	**0**	M.13.d.
e. Commercial and industrial loans	RCFDN181	**0**	M.13.e.
f. Credit card loans to individuals for household, family, and other personal expenditures	RCFDN182	**0**	M.13.f.
g. All other loans to individuals for household, family, and other personal expenditures	RCFDN183	**0**	M.13.g.
h. Non-agency residential mortgage-backed securities	RCFDM963	**0**	M.13.h.
Memorandum items 14 and 15 are to be completed by "highly complex institutions" as defined in FDIC regulations. 14. Amount of the institution's largest counterparty exposure	RCFDK673	**CONF**	M.14.
15. Total amount of the institution's 20 largest counterparty exposures	RCFDK674	**CONF**	M.15.

3. Uninsured deposits should be estimated based on the deposit insurance limits set forth in Memorandum items 1.a through 1.d.

Dollar amounts in thousands

Memorandum item 16 is to be completed by "large institutions" and "highly complex institutions" as defined in FDIC regulations.			
16. Portion of loan modifications to borrowers experiencing financial difficulty that are in compliance with their modified terms and are guaranteed or insured by the U.S. government (including the FDIC) (included in Schedule RC-C, part I, Memorandum item 1).....	RCFDL189	**0**	M.16.
Memorandum item 17 is to be completed on a fully consolidated basis by those "large institutions" and "highly complex institutions" as defined in FDIC regulations that own another insured depository institution.			M.17.
17. Selected fully consolidated data for deposit insurance assessment purposes:			
a. Total deposit liabilities before exclusions (gross) as defined in Section 3(l) of the Federal Deposit Insurance Act and FDIC regulations.....	RCFDL194	**NR**	M.17.a.
b. Total allowable exclusions, including interest accrued and unpaid on allowable exclusions (including foreign deposits).....	RCFDL195	**NR**	M.17.b.
c. Unsecured "Other borrowings" with a remaining maturity of one year or less.....	RCFDL196	**NR**	M.17.c.
d. Estimated amount of uninsured deposits in domestic offices of the institution and in insured branches in Puerto Rico and U.S. territories and possessions, including related interest accrued and unpaid.....	RCONL197	**NR**	M.17.d.

Schedule RC-P - 1-4 Family Residential Mortgage Banking Activities in Domestic Offices(Form Type - 031)

Schedule RC-P is to be completed by banks at which either 1-4 family residential mortgage loan originations and purchases for resale from all sources, loan sales, or quarter-end loans held for sale or trading in domestic offices exceed $10 million for two consecutive quarters.

Dollar amounts in thousands			
1. Retail originations during the quarter of 1-4 family residential mortgage loans for sale[1]	RCONHT81	**NR**	1.
2. Wholesale originations and purchases during the quarter of 1-4 family residential mortgage loans for sale[2]	RCONHT82	**NR**	2.
3. 1-4 family residential mortgage loans sold during the quarter	RCONFT04	**NR**	3.
4. 1-4 family residential mortgage loans held for sale or trading at quarter-end (included in Schedule RC, items 4.a and 5)	RCONFT05	**NR**	4.
5. Noninterest income for the quarter from the sale, securitization, and servicing of 1-4 family residential mortgage loans (included in Schedule RI, items 5.c, 5.f, 5.g, and 5.i)	RIADHT85	**NR**	5.
6. Repurchases and indemnifications of 1-4 family residential mortgage loans during the quarter	RCONHT86	**NR**	6.
7. Representation and warranty reserves for 1-4 family residential mortgage loans sold:			7.
a. For representations and warranties made to U.S. government agencies and government-sponsored agencies	RCONL191	**CONF**	7.a.
b. For representations and warranties made to other parties	RCONL192	**CONF**	7.b.
c. Total representation and warranty reserves (sum of items 7.a and 7.b)	RCONM288	**NR**	7.c.

Schedule RC-Q - Assets and Liabilities Measured at Fair Value on a Recurring Basis(Form Type - 031)

Schedule RC-Q is to be completed by banks that:

(1) Have elected to report financial instruments or servicing assets and liabilities at fair value under a fair value option with changes in fair value recognized in earnings, or
(2) Are required to complete Schedule RC-D, Trading Assets and Liabilities.

Dollar amounts in thousands	(Column A) Total Fair Value Reported on Schedule RC	(Column B) LESS: Amounts Netted in the Determination of Total Fair Value	(Column C) Level 1 Fair Value Measurements	(Column D) Level 2 Fair Value Measurements	(Column E) Level 3 Fair Value Measurements

42. Adjusted allowances for credit losses and eligible credit reserves includable in tier 2 capital			42.
a. Adjusted allowances for credit losses (AACL) includable in tier 2 capital[2]	RCFA5310	**95,834**	42.a.
b. (Advanced approaches institutions that exit parallel run only): Eligible credit reserves includable in tier 2 capital.	RCFW5310	**NR**	42.b.
43. Not applicable.			43.
44. Tier 2 capital before deductions			44.
a. Tier 2 capital before deductions (sum of items 39 through 42)	RCFAP870	**95,834**	44.a.
b. (Advanced approaches institutions that exit parallel run only): Tier 2 capital before deductions (sum of items 39 through 41, plus item 42.b)	RCFWP870	**NR**	44.b.
45. LESS: Tier 2 capital deductions	RCFAP872	**0**	45.
46. Tier 2 capital			46.
a. Tier 2 capital (greater of item 44.a minus item 45, or zero)	RCFA5311	**95,834**	46.a.
b. (Advanced approaches institutions that exit parallel run only): Tier 2 capital (greater of item 44.b minus item 45, or zero)	RCFW5311	**NR**	46.b.
47. Total capital			47.
a. Total capital (sum of items 26 and 46.a)	RCFA3792	**10,398,099**	47.a.
b. (Advanced approaches institutions that exit parallel run only): Total capital (sum of items 26 and 46.b)	RCFW3792	**NR**	47.b.
48. Total risk-weighted assets			48.
a. Total risk-weighted assets (from Schedule RC-R, Part II, item 31)	RCFAA223	**35,584,338**	48.a.
b. (Advanced approaches institutions that exit parallel run only): Total risk-weighted assets using advanced approaches rule (from FFIEC 101 Schedule A, item 60)	RCFWA223	**NR**	48.b.

3. Beginning with the June 30, 2020, report date, all non-advanced approaches institutions should report in item 18, column A, the sum of items 13.a, 14.a, 15.a, and 17, column A; all advanced approaches institutions should report in item 18, column B, the sum of items 13.b, 14.b, 15.b, 16, and 17, column B.

1. Beginning with the June 30, 2020, report date, all non-advanced approaches institutions should report the sum of item 19, column A, and item 25 in item 26; all advanced approaches institutions should report the sum of item 19, column B, and item 25 in item 26.

2. Institutions that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should include the applicable portion of the CECL transitional amount or the modified CECL transitional amount, respectively, in item 27.

3. Beginning with the June 30, 2020, report date, all non-advanced approaches institutions should report in item 28 the sum of items 6, 7, 8, 10.b, 13.a, 14.a, 15.a, 17 (column A), and certain elements of item 24 - see instructions; all advanced approaches institutions should report in item 28, the sum of items 6, 7, 8, 10.b, 11, 13.b, 14.b, 15.b, 16, 17 (column B), and certain elements of item 24 - see instructions.

4. For the December 31, 2021, report date only, advanced approaches institutions that adopt SA-CCR prior to the mandatory compliance date should enter "1" in item 31.b.

Dollar amounts in thousands	(Column A) Percentage		(Column B) Percentage		
49. Common equity tier 1 capital ratio (Column A: item 19, column A or B, as applicable, divided by item 48.a) (Advanced approaches institutions that exit parallel run only: Column B: item 19, column B, divided by item 48.b)	RCFAP793	**28.9517%**	RCFWP793	**NR**	49.
50. Tier 1 capital ratio (Column A: item 26 divided by item 48.a) (Advanced approaches institutions that exit parallel run only: Column B: item 26 divided by item 48.b)	RCFA7206	**28.9517%**	RCFW7206	**NR**	50.
51. Total capital ratio (Column A: item 47.a divided by item 48.a) (Advanced approaches institutions that exit parallel run only: Column B: item 47.b divided by item 48.b)	RCFA7205	**29.2210%**	RCFW7205	**NR**	51.

Dollar amounts in thousands			
52. Institution-specific capital buffer necessary to avoid limitations on distributions and discretionary bonus payments:			52.
a. Capital conservation buffer	RCFAH311	**21.2210%**	52.a.
b. Advanced approaches institutions and institutions subject to Category III capital standards only: Total applicable capital buffer	RCFWH312	**2.5000%**	52.b.
53. Eligible retained income[1]	RCFAH313	**NR**	53.
54. Distributions and discretionary bonus payments during the quarter[2]	RCFAH314	**NR**	54.
55. Advanced approaches institutions and institutions subject to Category III capital standards only: Supplementary leverage ratio information:			55.
a. Total leverage exposure[3]	RCFAH015	**117,853,323**	55.a.
b. Supplementary leverage ratio	RCFAH036	**8.7416%**	55.b.

2. Institutions that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should subtract the applicable portion of the AACL transitional amount or the modified AACL transitional amount, respectively, from the AACL, as defined in the regulatory capital rule, before determining the amount of AACL includable in tier 2 capital. See instructions for further detail on the CECL transition provisions.

1. Institutions must complete item 53 only if the amount reported in item 52.a above is less than or equal to 2.5000 percent (plus any other applicable buffer if the institution is an advanced approaches institution or a Category III institution).

2. Institutions must complete item 54 only if the amount reported in Schedule RC-R, Part I, item 46.a, in the Call Report for the December 31, 2019, report date was less than or equal to 2.5000 percent (plus any other applicable buffer if the institution is an advanced approaches institution or a Category III institution).

3. Institutions that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should include the applicable portion of the CECL transitional amount or the modified CECL transitional amount, respectively, in item 55.a.

Schedule RC-R Part II - Risk-Weighted Assets(Form Type - 031)

Institutions are required to assign a 100 percent risk weight to all assets not specifically assigned a risk weight under Subpart D of the federal banking agencies' regulatory capital rules and not deducted from tier 1 or tier 2 capital.

IHC Consolidated Financial Statements

Board of Governors of the Federal Reserve System

Consolidated Financial Statements for Holding Companies—FR Y-9C

Report at the close of business as of the last calendar day of the quarter

This Report is required by law: Section 5(c) of the BHC Act (12 U.S.C. § 1844(c)), section 10 of Home Owners' Loan Act (HOLA) (12 U.S.C. § 1467a(b)), section 618 of the Dodd-Frank Act (12 U.S.C. § 1850a(c)(1)), section 165 of the Dodd-Frank Act (12 U.S.C. § 5365), and section 252.153(b)(2) of Regulation YY (12 CFR 252.153(b)(2)).

This report form is to be filed by holding companies with total consolidated assets of $3 billion or more. In addition, holding companies meeting certain criteria must file this report (FR Y-9C) regardless of size. See page 1 of the general instructions for further information. However, when such holding companies own or control, or are owned or controlled by, other holding companies, only the top-tier holding company must file this report for the consolidated holding company organization. The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: Each holding company's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Consolidated Financial Statements for Holding Companies. The Consolidated Financial Statements for Holding Companies is to be prepared in accordance with instructions provided by the Federal Reserve System. The Consolidated Financial Statements for Holding Companies must be signed and attested by the Chief Financial Officer (CFO) of the reporting holding company (or by the individual performing this equivalent function).

I, the undersigned CFO (or equivalent) of the named holding company, attest that the Consolidated Financial Statements for Holding Companies (including the supporting schedules) for this report date have been prepared in conformance with the instructions issued by the Federal Reserve System and are true and correct to the best of my knowledge and belief.

(c) Other deposits	6761	1,009,047	2.a.(1)(c)
(2) In foreign offices, Edge and Agreement subsidiaries, and IBFs	4172	0	2.a.(2)
b. Expense on federal funds purchased and securities sold under agreements to repurchase	4180	396,219	2.b.
c. Interest on trading liabilities and other borrowed money[2] (excluding subordinated notes and debentures)	4185	1,277,691	2.c.
d. Interest on subordinated notes and debentures and on mandatory convertible securities[2]	4397	0	2.d.
e. Other interest expense	4398	520,130	2.e.
f. Total interest expense (sum of items 2.a through 2.e)	4073	3,717,914	2.f.
3. Net interest income (item 1.h minus item 2.f)	4074	976,186	3.
4. Provision for **credit losses**[3]	JJ33	-4,530	4.
5. Noninterest income:			
a. Income from fiduciary activities	4070	0	5.a.
b. Service charges on deposit accounts in domestic offices	4483	0	5.b.
c. Trading revenue[2, 4]	A220	226,078	5.c.

1. Includes interest income on time certificates of deposit not held for trading.
2. To be completed by holding companies with $5 billion or more in total assets. (Asset-size test is based on the prior year June 30 report date). Income and or expenses pertaining to these items should be reported in the "other" categories 1.g, 2.e, and 5.l, respectively by holding companies with less than $5 billion in total assets.
3. **Holding companies** should report in item 4, the provisions for credit losses for all financial assets and off-balance sheet credit exposures.
4. For holding companies required to complete Schedule HI, memoranda item 9, trading revenue reported in Schedule HI, item 5.c must equal the sum of memoranda items 9.a through 9.e.

Schedule HI—Continued

Dollar Amounts in Thousands	BHCK	Amount	
Holding companies with less than $5 billion in total assets should report data items 5.d.(6) and 5.d.(7) only and leave 5.d.(1) through 5.d.(5) blank.			
5. d. Income from securities-related and insurance activities:			
(1) Fees and commissions from securities brokerage	C886	1,154,338	5.d.(1)
(2) Investment banking, advisory, and underwriting fees and commissions	C888	4,355,390	5.d.(2)
(3) Fees and commissions from annuity sales	C887	109,182	5.d.(3)
(4) Underwriting income from insurance and reinsurance activities	C386	0	5.d.(4)
(5) Income from other insurance activities	C387	22,882	5.d.(5)
(6) Fees and commissions from securities brokerage, investment banking, advisory, and underwriting fees and commissions	KX46		5.d.(6)
(7) Income from insurance activities[5]	KX47		5.d.(7)
e. Venture capital revenue[6]	B491	0	5.e.
f. Net servicing fees	B492	53,382	5.f.
g. Net securitization income[6]	B493	82,599	5.g.
h. Not applicable.			
i. Net gains (losses) on sales of loans and lease	8560	20	5.i.
j. Net gains (losses) on sales of other real estate owned	8561	1,111	5.j.
k. Net gains (losses) on sales of other assets[7]	B496	0	5.k.
l. Other noninterest income[8]	B497	1,711,280	5.l.
m. Total noninterest income (sum of items 5.a through 5.l)	4079	7,716,262	5.m.
6. a. Realized gains (losses) on held-to-maturity securities	3521	0	6.a.
b. Realized gains (losses) on available-for-sale debt securities	3196	0	6.b.
7. Noninterest expense:			
a. Salaries and employee benefits	4135	5,421,782	7.a.
b. Expenses of premises and fixed assets (net of rental income) (excluding salaries and employee benefits and mortgage interest)	4217	633,985	7.b.
c. (1) Goodwill impairment losses	C216	0	7.c.(1)
(2) Amortization expense and impairment losses for other intangible assets	C232	0	7.c.(2)
d. Other noninterest expense[9]	4092	2,419,443	7.d.
e. Total noninterest expense (sum of items 7.a through 7.d)	4093	8,475,210	7.e.
8. a. Income (loss) before change in net unrealized holding gains (losses) on equity securities not held for trading, applicable income taxes, and discontinued operations (sum of items 3, 5.m, 6.a, 6.b, minus items 4 and 7.e)	HT69	221,768	8.a.
b. Change in net unrealized holding gains (losses) on equity securities not held for trading[10]	HT70	29,928	8.b.
c. Income (loss) before applicable income taxes and discontinued operations (sum of items 8.a and 8.b)	4301	251,696	8.c.
9. Applicable income taxes (on item 8.c)	4302	-626,455	9.
10. Income (loss) before discontinued operations (item 8.c minus item 9)	4300	878,151	10.
11. Discontinued operations, net of applicable income taxes[11]	FT28	0	11.
12. Net income (loss) attributable to holding company and noncontrolling (minority) interests (sum of items 10 and 11)	G104	878,151	12.
13. LESS: Net income (loss) attributable to noncontrolling (minority) interests (if net income, report as a positive value; if net loss, report as a negative value)	G103	0	13.
14. Net income (loss) attributable to holding company (item 12 minus item 13)	4340	878,151	14.

5. Includes underwriting income from insurance and reinsurance activities.
6. To be completed by holding companies with $5 billion or more in total assets (Asset-size test is based on the prior year June 30 report date). Income and or expenses pertaining to these items should be reported in the "other" categories.
7. Excludes net gains (losses) on sales of trading assets and held-to-maturity and available-for-sale debt securities.
8. See Schedule HI, memoranda item 6.
9. See Schedule HI, memoranda item 7.
10. Item 8.b is to be completed by all holding companies. See the instructions for this item and the Glossary entry for "Securities Activities" for further detail on accounting for investments in equity securities.
11. Describe on Schedule HI, memoranda item 8.

Schedule HI—Continued

Memoranda

Dollar Amounts in Thousands	BHCK	Amount	
Memo Items 1 and 2 are to be reported by holding companies with $5 billion or more in total assets.[1]			
1. Net interest income (item 3 above) on a fully taxable equivalent basis	4519	978,636	M.1.

1. Includes provisions governing the accounting for investments in equity securities, include realized and unrealized gains (losses) (and all other value changes) on equity securities and other equity investments not held for trading in item 6.

Notes to the Income Statement (Other)

Enter in the lines provided below any additional information on specific line items on the income statement or to its schedules that the holding company wishes to explain, that has been separately disclosed in the holding company's quarterly reports to its shareholders, in its press releases, or on its quarterly reports to the Securities and Exchange Commission (SEC). *Exclude* any transactions that have been separately disclosed under the reporting requirements specified in memoranda items 6 through 8 to Schedule HI, the Consolidated Income Statement.

Also include any transactions which previously would have appeared as footnotes to Schedules HI through HI-B.

Each additional piece of information disclosed should include the appropriate reference to schedule and item number, as well as a description of the additional information and the dollar amount (in thousands of dollars) associated with that disclosure.

Example

A holding company has received $1.35 million of back interest on loans and leases that are currently in nonaccrual status. The holding company's interest income for the quarter shows that increase which has been disclosed in the report to the stockholders and to the SEC. Enter on the line item below the following information:

2. Exclude equity securities.

Schedule HC-E—Deposit Liabilities[1]

Dollar Amounts in Thousands	BHCB	Amount	
1. Deposits held in domestic offices of commercial bank subsidiaries of the reporting holding company:			
a. Noninterest-bearing balances[2]	2210	12,052	1.a.
b. Interest-bearing demand deposits, NOW, ATS, and other transaction accounts	3187	1	1.b.
c Money market deposit accounts and other savings accounts	2389	73,651,750	1.c.
d. Time deposits of $250,000 or less	HK29	24,777,465	1.d.
e. Time deposits of more than $250,000	J474	0	1.e.
2. Deposits held in domestic offices of other depository institutions that are subsidiaries of the reporting holding company:	BHOD		
a. Noninterest-bearing balances[2]	3189	6,185,410	2.a.
b. Interest-bearing demand deposits, NOW, ATS, and other transaction accounts	3187	10,776,644	2.b.
c. Money market deposit accounts and other savings accounts	2389	0	2.c.
d. Time deposits of $250,000 or less	HK29	0	2.d.
e. Time deposits of more than $250,000	J474	0	2.e.

Memoranda

Dollar Amounts in Thousands	BHDM	Amount	
1. Brokered deposits $250,000 or less with a remaining maturity of one year or less	HK06	13,961,954	M.1.
2. Brokered deposits $250,000 or less with a remaining maturity of more than one year	HK31	18,264,109	M.2.
3. Time deposits of more than $250,000 with a remaining maturity of one year or less	HK32	0	M.3.
	BHFN		
4. Foreign office time deposits with a remaining maturity of one year or less	A245	0	M.4.

1. The sum of items 1.a through 1.e and items 2.a through 2.e must equal the sum of Schedule HC, items 13.a.(1) and 13.a.(2).
2. Includes noninterest-bearing demand, time, and savings deposits.

Schedule HC-F—Other Assets[1]

Dollar Amounts in Thousands	BHCK	Amount	
1. Accrued interest receivable[2]	B556	598,782	1.
2. Net deferred tax assets[3]	2148	8,089,797	2.
3. Interest-only strips receivable (not in the form of a security)[4]	HT80	0	3.
4. Equity investments without readily determinable fair values[5]	1752	1,020,136	4.
5. Life insurance assets:			
a. General account life insurance assets	K201	11,100	5.a.
b. Separate account life insurance assets	K202	245,294	5.b.
c. Hybrid account life insurance assets	K270	0	5.c.
6. Other	2168	9,055,280	6.
	BHCT		
7. Total (sum of items 1 through 6) (must equal Schedule HC, item 11)	2160	19,020,389	7.

1. **Holding companies** should report asset amounts in Schedule HC-F net of any applicable allowance for credit losses.
2. Include accrued interest receivable on loans, leases, debt securities, and other interest-bearing assets. Exclude accrued interest receivables on interest-bearing assets that are reported elsewhere on the balance sheet.
3. See discussion of deferred income taxes in Glossary entry on "income taxes."
4. Report interest-only strips receivable in the form of a security as available-for-sale securities in Schedule HC, item 2.b, or as trading assets in Schedule HC, item 5, as appropriate.
5. Include Federal Reserve stock, Federal Home Loan Bank stock, and bankers' bank stock.

Schedule HC-G—Other Liabilities

Dollar Amounts in Thousands	BHCK	Amount	
1. Not applicable.			
2. Net deferred tax liabilities[1]	3049	0	2.
3. Allowance for credit losses on off-balance-sheet credit exposures	B557	5,188	3.
4. Other	B984	14,150,545	4.
	BHCT		
5. Total (sum of items 2 through 4) (must equal Schedule HC, item 20)	2750	14,155,733	5.

1. See discussion of deferred income taxes in Glossary entry on "income taxes."

Schedule HC-H—Interest Sensitivity[1]

Dollar Amounts in Thousands	BHCK	Amount	
1. Earning assets that are repriceable within one year or mature within one year	3197	127,648,237	1.
2. Interest-bearing deposit liabilities that reprice within one year or mature within one year included in item 13.a.(2) and 13.b.(2) on Schedule HC, Balance Sheet	3296	6,513,356	2.
3. Long-term debt that reprices within one year included in items 16 and 19.a on Schedule HC, Balance Sheet	3298	28,381,636	3.
4. Variable-rate preferred stock (includes both limited-life and perpetual preferred stock)	3408	0	4.
5. Long-term debt reported in Schedule HC, item 19.a on the Balance Sheet that is scheduled to mature within one year	3409	0	5.

1. Holding companies with foreign offices have the option of excluding the smallest of such non-U.S. offices from coverage in this schedule. Such holding companies may omit the smallest of their offices in foreign countries when arrayed by total assets provided that the assets of the excluded offices do not exceed 50 percent of the total assets of the holding company's assets in foreign countries and 10 percent of the holding company's total consolidated assets as of the report date.

Schedule HC-I—Insurance-Related Underwriting Activities (Including Reinsurance)

Schedule HC-I must be completed by all top-tier holding companies. (See instructions for additional information.)

I. Property and Casualty Underwriting

Item 1 is to be completed by holding companies with $10,000,000 or more in reinsurance recoverables as of the effective date each quarter.

Dollar Amounts in Thousands	BHCK	Amount	
Assets			
1. Reinsurance recoverables	B988		1.
2. Total assets	C244	0	2.
Liabilities			
3. Claims and claims adjustment expense reserves	B990	0	3.
4. Unearned premiums	B991	0	4.
5. Total equity	C245	0	5.
6. Net income	C246	0	6.

II. Life and Health Underwriting

Item 1 is to be completed by holding companies with $10,000,000 or more in reinsurance recoverables as of the effective date each quarter.

Dollar Amounts in Thousands	BHCK	Amount	
Assets			
1. Reinsurance recoverables	C247		1.
2. Separate account assets	B992	0	2.
3. Total assets	C248	0	3.
Liabilities			
4. Policyholder benefits and contractholder funds	B994	0	4.
5. Separate account liabilities	B996	0	5.
6. Total equity	C249	0	6.
7. Net income	C250	0	7.

Schedule HC-K—Quarterly Averages

Dollar Amounts in Thousands	BHCK	Amount	
Assets			
1. Securities:			
a. U.S. Treasury securities and U.S. government agency obligations (excluding mortgage-backed securities)[1]	B558	5,229,781	1.a.
b. Mortgage-backed securities[1]	B559	7,996,330	1.b.
c. All other debt securities[1] and equity securities with readily determinable fair values not held for trading[2]	B560	15,489	1.c.
2. Federal funds sold and securities purchased under agreements to resell	3365	36,729,964	2.
	BHDM		
3. a. Total loans and leases in domestic offices	3516	98,071,247	3.a.
(1) Loans secured by 1–4 family residential properties	3465	30,539,685	3.a.(1)
(2) All other loans secured by real estate	3466	2,171,846	3.a.(2)
(3) Loans to finance agricultural production and other loans to farmers	3386	0	3.a.(3)
(4) Commercial and industrial loans	3387	8,516,136	3.a.(4)
(5) Loans to individuals for household, family, and other personal expenditures:			
(a) Credit cards	B561	297,198	3.a.(5)(a)
(b) Other (includes single payment, installment other than auto loans, all student loans, and revolving credit plans other than credit cards	B562	36,836,197	3.a.(5)(b)
	BHFN		
b. Total loans and leases in foreign offices, Edge and agreement subsidiaries, and IBFs	3360	0	3.b.
Item 4(a) is to be completed by holding companies with $5 billion or more in total assets and total trading assets of $10 million or more in any of the four preceding calendar quarters.[3]	BHCK		
4. a. Trading assets	3401	8,344,002	4.a.
b. Other earning assets	B985	30,908,403	4.b.
5. Total consolidated assets[4]	3368	208,690,809	5.
Liabilities			
6. Interest-bearing deposits (domestic)[5]	3517	107,480,171	6.
7. Interest-bearing deposits (foreign)[5]	3404	0	7.
8. Federal funds purchased and securities sold under agreements to repurchase	3353	8,498,706	8.
9. All other borrowed money	2635	40,562,746	9.
10. Not applicable.			
Equity Capital			
11. Total equity capital (excludes limited-life preferred stock)	3519	34,045,327	11.

1. Quarterly averages for all debt securities should be based on amortized cost.
2. Quarterly averages for equity securities with readily determinable fair values should be based on fair value.
3. Asset-size test is based on the total assets reported as of prior year June 30 report date.
4. The quarterly average for total assets should reflect securities not held for trading as follows:
   a) Debt securities at amortized cost.
   b) Equity securities with readily determinable fair values should be reported at fair value.
   c) Equity investments without readily determinable fair values should be reported at their balance sheet carrying values (i.e., fair value or, if elected, cost minus impairment, if any, plus or minus changes resulting from observable price changes).
5. Includes interest-bearing demand deposits.

For Federal Reserve Bank Use Only

	c. Other borrowed money with a remaining maturity of more than one year			2333	32,663,517	14.c.
				BHCT		
	d. Total (sum of items 14.a, 14.b, and 14.c) (must equal Schedule HC, item 16)			3190	36,875,861	14.d.

15.	Does the holding company sell private label or third-party mutual funds and annuities? (Enter "1" for Yes; enter "0" for No.)	0=No 1=Yes	BHCK	B569	1	15.

1. Asset-size test is based on the total assets reported as of prior year June 30 report date.
2. Report total assets before eliminating intercompany transactions between the consolidated insurance or reinsurance subsidiary and other offices or consolidated subsidiaries of the reporting holding company.

Schedule HC-M—Continued

	BHCK	Amount	
16. Assets under management in proprietary mutual funds and annuities	B570	106,632,931	16.

The following two questions (items 17 and 18) will be used to determine if the reporting holding company must complete the Consolidated Holding Company Report of Equity Investments in Nonfinancial Companies (FR Y-12). See the line item instructions for further details.

17. Does the holding company hold, either directly or indirectly through a subsidiary or affiliate, any non-financial equity investments (see instructions for definition) within a Small Business Investment Company (SBIC) structure, or under section 4(c)(6) or 4 (c)(7) of the Bank Holding Company Act, or pursuant to the merchant banking authority of section 4(k)4(H) of the Bank Holding Company Act, or pursuant to the investment authority granted by Regulation K? (Enter "1" for Yes; enter "0" for No.) …

0=No / 1=Yes	BHCK		
1	C161	1	17.

If the answer to item 17 is no, your organization does not need to complete the FR Y-12. Skip item 18 and proceed to items 19.a and 19.b below. If the answer to item 17 is yes, proceed to item 18.

18. Do your aggregate nonfinancial equity investments (see instructions for definition) equal or exceed the lesser of $100 million (on an acquisition cost basis) or 10 percent of the holding company's consolidated Tier 1 capital as of the report date? (Enter "1" for Yes; enter "0" for No.)

0=No / 1=Yes	BHCK		
1	C159	1	18.

If the answer to both item 17 and item 18 is yes, your organization must complete the FR Y-12. Skip items 19.a and 19.b and proceed to item 20 below.

If the answer to either item 17 or item 18 is no, your organization does not need to complete the FR Y-12. Proceed to items 19.a. and 19.b. below.

Items 19.a. and 19.b. are to be completed by all holding companies that are not required to file the FR Y-12.

	0=No / 1=Yes	BHCK		
19. a. Has the holding company sold or otherwise liquidated its holding of any nonfinancial equity investment since the previous reporting period? (Enter "1" for Yes; enter "0" for No.)	1	C700		19.a.
b. Does the holding company manage any nonfinancial equity investments for the benefit of others? (Enter "1" for Yes; enter "0" for No.)	1	C701		19.b.

Dollar Amounts in Thousands	BHCK	Amount	
Memoranda items 20 and 21 are to be completed only by holding companies who have made an effective election to become a financial holding company. See the line item instructions for further details.			
20. Balances of broker-dealer subsidiaries engaged in underwriting or dealing securities pursuant to Section 4(k)(4)(E) of the Bank Holding Company Act as amended by the Gramm-Leach-Bliley Act:			
a. Net assets	C252	66,216,809	20.a.
b. Balances due from related institutions:			
(1) Due from the holding company (parent company only), gross	4832	0	20.b.(1)
(2) Due from subsidiary banks of the holding company, gross	4833	256,824	20.b.(2)
(3) Due from nonbank subsidiaries of the holding company, gross	4834	5,261,753	20.b.(3)
c. Balances due to related institutions:			
(1) Due to holding company (parent company only), gross	5041	19,036,904	20.c.(1)
(2) Due to subsidiary banks of the holding company, gross	5043	32,582	20.c.(2)
(3) Due to nonbank subsidiaries of the holding company, gross	5045	6,256,834	20.c.(3)
d. Intercompany liabilities reported in items 20.c.(1), 20.c.(2), and 20.c.(3) above that qualify as liabilities subordinated to claims of general creditors	5047	5,849,653	20.d.
21. Net assets of subsidiaries engaged in insurance or reinsurance underwriting pursuant to Section 4(k)(4)(B) of the Bank Holding Company Act as amended by the Gramm-Leach-Bliley Act (12 U.S.C. § 1843(k)(4)(B))[1]	C253	0	21.

1. A savings and loan holding company that wishes to engage in financial holding company activities must have an effective election to be treated as a financial holding company or conducts activities under section 10(c)(2)(H)(i) of the HOLA (12 U.S.C. 1467a(c)(2)(H)(i)).

Schedule HC-M—Continued

Memoranda item 22 is to be completed by holding companies with total assets of $30 billion or more.

22. Address (URL) for the reporting holding company's web page that displays risk disclosures, including those about credit and market risk. (Example: www.examplebhc.com/riskdisclosures)

Memoranda

Dollar Amounts in Thousands	BHCK	Amount	
Memorandum items 3 and 4 are to be completed by holding companies that have elected to measure loans included in Schedule HC-C, items 1 through 9, at fair value under a fair value option.			
3. Loans measured at fair value:			
a. Loans secured by real estate:			
(1) Secured by 1–4 family residential properties	HT87	10,165	M.3.a.(1)
(2) All other loans secured by real estate	HT88	0	M.3.a.(2)
b. Commercial and industrial loans	F585	0	M.3.b.
c. Loans to individuals for household, family, and other personal expenditures			
(i.e., consumer loans) (includes purchased paper)	HT89	0	M.3.c.
d. Other loans	F589	9,003,811	M.3.d.
4. Unpaid principal balances of loans measured at fair value (reported in memorandum item 3):			
a. Loans secured by real estate:			
(1) Secured by 1–4 family residential properties	HT91	114,716	M.4.a.(1)
(2) All other loans secured by real estate	HT92	0	M.4.a.(2)
b. Commercial and industrial loans	F597	0	M.4.b.
c. Loans to individuals for household, family, and other personal expenditures			
(i.e., consumer loans) (includes purchased paper)	HT93	0	M.4.c.
d. Other loans	F601	9,003,811	M.4.d.

For Federal Reserve Bank Use Only

C.I. _____

Schedule HC-R—Regulatory Capital

Part I. Regulatory Capital Components and Ratios

Dollar Amounts in Thousands	BHCA	Amount	
Common Equity Tier 1 Capital			
1. Common stock plus related surplus, net of treasury stock and unearned employee stock ownership plan (ESOP) shares	P742	51,276,715	1.
2. Retained earnings[1]	KW00	-25,619,234	2.
a. Does your institution have a CECL transition election in effect as of the quarter-end report date? (enter "0" for No; enter "1" for Yes with a 3-year CECL transition election; enter "2" for Yes with a 5-year 2020 CECL transition election.)	BHCA JJ29	0	2.a.
	BHCA	Amount	
3. Accumulated other comprehensive income (AOCI)	B530	-1,078,038	3.
a. AOCI opt-out election (enter "1" for Yes; enter "0" for No.) (Advanced approaches institutions must enter "0" for No.)	0=No 1=Yes BHCA P838	1	3.a.
	BHCA	Amount	
4. Common equity tier 1 minority interest includable in common equity tier 1 capital	P839	0	4.
5. Common equity tier 1 capital before adjustments and deductions (sum of items 1 through 4)	P840	24,579,443	5.
Common Equity Tier 1 Capital: Adjustments and Deductions			
6. LESS: Goodwill net of associated deferred tax liabilities (DTLs)	P841	6,080,194	6.
7. LESS: Intangible assets (other than goodwill and mortgage servicing assets (MSAs)), net of associated DTLs	P842	676	7.
8. LESS: Deferred tax assets (DTAs) that arise from net operating loss and tax credit carryforwards, net of any related valuation allowances and net of DTLs	P843	1,150,936	8.
9. AOCI-related adjustments (if entered "1" for Yes in item 3.a, complete only items 9.a through 9.e; if entered "0" for No in item 3.a, complete only item 9.f):			
a. LESS: Net unrealized gains (losses) on available-for-sale debt securities (if a gain, report as a positive value; if a loss, report as a negative value)	P844	0	9.a.
b. Not applicable.			
c. LESS: Accumulated net gains (losses) on cash flow hedges (if a gain, report as a positive value; if a loss, report as a negative value)	P846	-336,656	9.c.
d. LESS: Amounts recorded in AOCI attributed to defined benefit postretirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (if a gain, report as a positive value; if a loss, report as a negative value)	P847	-354,931	9.d.
e. LESS: Net unrealized gains (losses) on held-to-maturity securities that are included in AOCI (if a gain, report as a positive value; if a loss, report as a negative value)	P848	-283,811	9.e.
f. To be completed only by holding companies that entered "0" for No in item 3.a: LESS: Accumulated net gain (loss) on cash flow hedges included in AOCI, net of applicable income taxes, that relate to the hedging of items that are not recognized at fair value on the balance sheet (if a gain, report as a positive value; if a loss, report as a negative value)	P849		9.f.

1. Holding companies that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should include the applicable portion of the CECL transitional amount or the modified CECL transitional amount, respectively, in this item.

Schedule HC-R—Continued

Part I—Continued

Dollar Amounts in Thousands	BHCA	Amount	
10. Other deductions from (additions to) common equity tier 1 capital before threshold-based deductions:			
a. LESS: Unrealized net gain (loss) related to changes in the fair value of liabilities that are due to changes in own credit risk (if a gain, report as a positive value; if a loss, report as a negative value)	Q258	-14,053	10.a.
b. LESS: All other deductions from (additions to) common equity tier 1 capital before threshold-based deductions	P850	37,143	10.b.

Dollar Amounts in Thousands	(Column A) Non-advanced Approaches Holding Companies[1] BHCA	Amount	(Column B) Advanced Approaches Holding Companies[1] BHCW	Amount	
11. LESS: Non-significant investments in the capital of unconsolidated financial institutions in the form of common stock that exceed the 10 percent threshold for non-significant investments			P851		11.
12. Subtotal (for column A, item 5 minus items 6 through 10.b; for column B, item 5 minus items 6 through 11)	P852	18,299,945	P852		12.
13. a. LESS: Investments in the capital of unconsolidated financial institutions, net of associated DTLs, that exceed 25 percent of item 12	LB58	0			13.a.
b. LESS: Significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold			P853		13.b.
14. a. LESS: MSAs, net of associated DTLs, that exceed 25 percent of item 12	LB59	0			14.a.
b. LESS: MSAs, net of associated DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold			P854		14.b.
15. a. LESS: DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs, that exceed 25 percent of item 12	LB60	2,147,850			15.a.
b. LESS: DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold			P855		15.b.
16. LESS: Amount of significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs; MSAs, net of associated DTLs; and DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs; that exceeds the 15 percent common equity tier 1 capital deduction threshold			P856		16.
17. LESS: Deductions applied to common equity tier 1 capital due to insufficient amounts of additional tier 1 capital and tier 2 capital[2] to cover deductions	P857	0	P857		17.
18. Total adjustments and deductions for common equity tier 1 capital[3]	P858	2,147,850	P858		18.
19. Common equity tier 1 capital (item 12 minus item 18)	P859	16,152,095	P859		19.

1. All non-advanced approaches holding companies should complete column A for items 11-19; all advanced approaches holding companies should complete column B for items 11-19.
2. A holding company that has a CBLR framework election in effect as of the quarter-end report date is neither required to calculate tier 2 capital nor make any deductions that would have been taken from tier 2 capital as of the report date.
3. All non-advanced approaches holding companies should report in item 18, column A, the sum of items 13.a, 14.a, 15.a, and 17, column A; all advanced approaches holding companies should report in item 18, column B, the sum of items 13.b, 14.b, 15.b, 16, and 17, column B.

Schedule HC-R—Continued

Part I—Continued

Dollar Amounts in Thousands	BHCA	Amount	
Additional Tier 1 Capital			
20. Additional tier 1 capital instruments plus related surplus	P860	2,900,000	20.
21. Non-qualifying capital instruments subject to phase out from additional tier 1 capital	P861	0	21.
22. Tier 1 minority interest not included in common equity tier 1 capital	P862	0	22.
23. Additional tier 1 capital before deductions (sum of items 20, 21, and 22)	P863	2,900,000	23.
24. LESS: Additional tier 1 capital deductions	P864	78,009	24.
25. Additional tier 1 capital (greater of item 23 minus item 24, or zero)	P865	2,821,991	25.
Tier 1 Capital			
26. Tier 1 capital[1]	8274	18,974,086	26.
Total Assets for the Leverage Ratio			
27. Average total consolidated assets[2]	KW03	208,690,809	27.
28. LESS: Deductions from common equity tier 1 capital and additional tier 1 capital[3]	P875	9,494,808	28.
29. LESS: Other deductions from (additions to) assets for leverage ratio purposes	B596	0	29.
30. Total assets for the leverage ratio (item 27 minus items 28 and 29)	A224	199,196,001	30.

Leverage Ratio*	BHCA	Percentage	
31. Leverage ratio (item 26 divided by item 30)	7204	9.5253	31.

a. Does your holding company have a community bank leverage ratio (CBLR) framework election in effect as of the quarter-end report date? (enter "1" for Yes; enter "0" for No)

0=No 1=Yes	BHCA LE74	0	31.a.

If your holding company entered “1” for Yes in item 31.a:
- Complete items 32 through 36
- Do not complete items 37 through 53
- Do not complete Part II of Schedule HC-R.

If your holding company entered “0” for No in item 31.a:
- Skip (do not complete) items 32 through 36,
- Complete items 37 through 53 as applicable, and
- Complete Part II of Schedule HC-R.

Item 31.b is to be completed only by non-advanced approaches holding companies that elect to use the Standardized Approach for Counterparty Credit Risk (SA-CCR) for purposes of the standardized approach and supplementary leverage ratio.

b. Standardized Approach for Counterparty Credit Risk opt-in election (enter "1" for Yes; leave blank for No)

 1=Yes	BHCA NC99		31.b.

* Report each ratio and buffer as a percentage, rounded to four decimal places, e.g., 12.3456.

1. All non-advanced approaches holding companies should report the sum of item 19, column A, and item 25 in item 26; all advanced approaches institutions should report the sum of item 19, column B, and item 25 in item 26.
2. Holding companies that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should include the applicable portion of the CECL transitional amount or the modified CECL transitional amount, respectively, in item 27.
3. All non-advanced approaches holding companies should report in item 28 the sum of items 6, 7, 8, 10.b, 13.a, 14.a, 15.a, 17 (column A), and certain elements of item 24 - see instructions; all advanced approaches holding companies should report in item 28, the sum of items 6, 7, 8, 10.b, 11, 13.b, 14.b, 15.b, 16, 17 (column B), and certain elements of item 24 - see instructions.

Part I—Continued

Qualifying Criteria and Other Information for CBLR holding company*

Dollar Amounts in Thousands	(Column A) BHCA	(Column A) Amount	(Column B) BHCA	(Column B) Percentage	
32. Total assets (Schedule HC, item 12); (must be less than $10 billion)	2170				32.
33. Trading assets and trading liabilities (Schedule HC, sum of items 5 and 15). Report as a dollar amount in column A and as a percentage of total assets (5% limit) in column B	KX77		KX78		33.
34. Off-balance sheet exposures:					
a. Unused portion of conditionally cancellable commitments	KX79				34.a.
b. Securities lent and borrowed (Schedule HC-L, sum of items 6.a and 6.b)	KX80				34.b.
c. Other off-balance sheet exposures	KX81				34.c.
d. Total off-balance sheet exposures (sum of items 34.a through 34.c). Report as a dollar amount in column A and as a percentage of total assets (25% limit) in column B	KX82		KX83		34.d.

Dollar Amounts in Thousands	BHCA	Amount	
35. Unconditionally cancellable commitments	S540		35.
36. Investments in the tier 2 capital of unconsolidated financial institutions	LB61		36.

If your holding company entered "0" for No in item 31.a, complete items 37 through 53, as applicable, and Part II of Schedule HC-R. If your holding company entered "1" for Yes in item 31.a, do not complete items 37 through 53 or Part II of Schedule HC-R.

Dollar Amounts in Thousands	BHCA	Amount	
Tier 2 Capital[1]			
37. Tier 2 capital instruments plus related surplus	P866	0	37.
38. Non-qualifying capital instruments subject to phase out from tier 2 capital	P867	0	38.
39. Total capital minority interest that is not included in tier 1 capital	P868	0	39.
40. a. **Adjusted allowances for credit losses(AACL)** includable in tier 2 capital[2]	5310	190,200	40.a.
b. (Advanced approaches holding companies that exit parallel run only): Eligible credit reserves includable in tier 2 capital	BHCW		
	5310		40.b.
41. Not applicable.	BHCA		
42. a. Tier 2 capital before deductions (sum of items 37 through 40.a)	P870	190,200	42.a.
b. (Advanced approaches holding companies that exit parallel run only): Tier 2 capital before deductions (sum of items 37 through 39, plus item 40.b)	BHCW		
	P870		42.b.

* Report each ratio and buffer as a percentage, rounded to four decimal places, e.g., 12.3456.

1. A holding company that has a CBLR election in effect as of the quarter-end report date is neither required to calculate tier 2 capital nor make any deductions that would have been taken from tier 2 capital as of the report date.
2. Holding companies that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should subtract the applicable portion of the AACL transitional amount or the modified AACL transitional amount, respectively, from the AACL, as defined in the regulatory capital rule, before determining the amount of AACL includable in tier 2 capital. See instructions for further detail on the CECL transition provisions.

	Allocation by Risk-Weight Category							
23. Total assets, derivatives, off-balance sheet items, and other items subject to risk weighting by risk-weight category (for each of columns C through P, sum of items 11 through 22; for column Q, sum of items 10 through 22)	BHCK S562 4,578,260	BHCK S563 0	BHCK S564 0	BHCK S565 1,503	BHCK S566 379	BHCK S567 20	BHCK S568 761	23.
24. Risk weight factor	X 250%	X 300%	X 400%	X 600%	X 625%	X 937.5%	X 1250%	24.
25. Risk-weighted assets by risk-weight category (for each column, item 23 multiplied by item 24)	BHCK S573 11,445,650	BHCK S574 0	BHCK S575 0	BHCK S576 9,018	BHCK S577 2,369	BHCK S578 188	BHCK S579 9,513	25.

Items 26 through 31 are to be reported quarterly by all holding companies.

Dollar Amounts in Thousands	Totals BHCK	Totals Amount	
26. Risk-weighted assets for purposes of calculating the **adjusted allowance for credit losses (AACL)** 1.25 percent threshold	S580	72,481,876	26.
27. Standardized market-risk weighted assets (applicable only to holding companies that are covered by the market risk capital rules)	S581	6,987,738	27.
28. Risk-weighted assets before deductions for excess **AACL**[30] and allocated risk transfer risk reserve[31]	B704	77,243,755	28.
29. LESS: Excess **AACL**[30]	A222	0	29.
30. LESS: Allocated transfer risk reserve	3128	0	30.
31. Total risk-weighted assets (item 28 minus items 29 and 30)	G641	77,243,755	31.

30. Holding companies that have elected to apply the 3-year or the 5-year 2020 CECL transition provision should subtract the applicable portion of the AACL transitional amount or the modified AACL transitional amount, respectively, from the AACL, as defined in the regulatory capital rule, before determining the amount of excess AACL.

31. Sum of items 2.b through 20, column S; items 9.a, 9.b, 9.c, 9.d, and 10, columns T and U; item 25, columns C through Q; and item 27 (if applicable).

Schedule HC-R—Continued

Part II—Continued

Memoranda

Memoranda items 1, 2 and 3, columns A, B an C are to be completed semiannually in June and December by holding companies with less than $5 billion in total assets[1.]

e. Other assets	JF91	0	JF90	4,116	1.e.
2. Liabilities of consolidated VIEs for which creditors do not have recourse to the general credit of the reporting holding company:					
a. Other borrowed money	JF92	0	JF85	0	2.a.
b. Other liabilities	JF93	0	JF86	4,116	2.b.
3. All other assets of consolidated VIEs (not included in items 1.a through 1.e above)	K030	0	JF87	22,566	3.
4. All other liabilities of consolidated VIEs (not included in items 2.a through 2.b above)	K033	0	JF88	14,754	4.

Dollar Amounts in Thousands	BHCK	Amount	
5. Total assets of asset-backed commercial paper (ABCP) conduit VIEs	JF77	0	5.
6. Total liabilities of ABCP conduit VIEs	JF78	0	6.

1. Asset-size test is based on the total assets reported as of prior year June 30 report date.

Notes to the Balance Sheet—Predecessor Financial Items

For holding companies involved in a business combination(s) during the quarter, provide on the lines below quarterly average information for any acquired company(ies) with aggregated assets of $10 billion or more or 5 percent of the reporting holding company's total consolidated assets as of the previous quarter-end, whichever is less.

	Dollar Amounts in Thousands	BHBC	Amount	
1.	Average loans and leases (held for investment and held for sale)	3516		1.
2.	Average earning assets	3402		2.
3.	Average total consolidated assets	3368		3.
4.	Average equity capital	3519		4.

Notes to the Balance Sheet (Other)

Enter in the lines provided below any additional information on specific line items on the balance sheet or its supporting schedules that the holding company wishes to explain, that has been separately disclosed in the holding company's quarterly reports to its shareholders, in its press releases, or on its quarterly reports to the Securities and Exchange Commission (SEC).

Each additional piece of information disclosed should include the appropriate reference to schedule and item number, as well as a description of the additional information and the dollar amount (in thousands of dollars) associated with that disclosure.

Example

A holding company has guaranteed a new loan for its leveraged Employee Stock Ownership Plan (ESOP) for $750 thousand and that amount has increased the holding company's long-term unsecured debt by a material amount. The holding company has disclosed that change to its stockholders and to the SEC. Enter on the line item below the following information:

"1trn"	One trillion, i.e. 1,000,000,000,000

In this report, unless the context requires otherwise, references to any gender shall apply to all genders.

Alternative performance measures

An alternative performance measure (an APM) is a financial measure of historical or future financial performance, financial position or cash flows other than a financial measure defined or specified in the applicable recognized accounting standards or in other applicable regulations. A number of APMs are reported in UBS's external reports (annual, quarterly and other reports). APMs are used to provide a more complete picture of operating performance and to reflect management's view of the fundamental drivers of the business results. A definition of each APM, the method used to calculate it and the information content are presented under "Alternative performance measures" in the appendix to this report. These APMs may qualify as non-GAAP measures as defined by US Securities and Exchange Commission (SEC) regulations.

Comparability

Comparative information in this report is presented as follows.

Profit and loss information and other flow-based information for the second quarter of 2025, the first quarter of 2025 and the fourth quarter of 2024 is based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG. Profit and loss information and other flow-based information for the second quarter of 2024 and the six-month period ending 30 June 2024 includes only one month of post-merger UBS AG data.

Balance sheet information as at 30 June 2025, 31 March 2025 and 31 December 2024 includes post-merger consolidated information.

Comparison between UBS AG consolidated and UBS Group AG consolidated

This report should be read in conjunction with the UBS Group second quarter 2025 report that was published on 30 July 2025 and is available under "Quarterly reporting" at *ubs.com/investors*. A comparison of selected financial and capital information of UBS AG consolidated and of UBS Group AG consolidated is provided after the Notes to the UBS AG interim consolidated financial statements.

1 Refer to "Alternative performance measures" in the appendix to this report for the relevant definition(s) and calculation method(s). 2 Based on the Swiss systemically relevant bank framework. Refer to the "Capital management" section of this report for more information. 3 The disclosed ratios represent quarterly averages for the quarters presented and are calculated based on an average of 61 data points in the second quarter of 2025, 62 data points in the first quarter of 2025, 64 data points in the fourth quarter of 2024 and 61 data points in the second quarter of 2024, of which 40 data points were before the merger of UBS AG and Credit Suisse AG (i.e. from 2 April 2024 until 30 May 2024), and 21 data points were after the merger (i.e. from 31 May 2024 until 30 June 2024). Refer to the "Liquidity and funding management" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at ubs.com/investors, for more information. 4 Consists of invested assets for Global Wealth Management, Asset Management (including invested assets from associates) and Personal & Corporate Banking. Refer to "Note 31 Invested assets and net new money" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at ubs.com/investors, for more information.

Recent developments

Management report

Integration of Credit Suisse

We remain on track to substantially complete the integration of Credit Suisse by the end of 2026. Our focus continues to be on client account migrations and infrastructure decommissioning.

In the second quarter of 2025, we successfully completed the first main wave of our Swiss business migrations, having now migrated approximately one-third of the targeted client accounts, and we still aim to complete the Swiss booking center migrations by the end of the first quarter of 2026.

We have made substantial further progress with regard to the simplification of our legal entity structure in the US and Europe, having merged Credit Suisse Holdings (USA), Inc. with UBS Americas Inc, deregistered Credit Suisse (USA) LLC as a broker-dealer and established UBS Europe SE as the single EU intermediate parent undertaking ahead of schedule.

On 18 July 2025, the High Court of England and Wales approved the transfer of Credit Suisse International's residual business and related products to UBS AG London Branch and UBS Europe SE pursuant to Part VII of the Financial Services and Markets Act 2000. The transfer of the relevant assets and liabilities is expected to occur over the next six months.

Regulatory and legal developments

Developments in Switzerland aimed at strengthening financial stability

In June 2025, the Swiss Federal Council published regulatory proposals that aim to further strengthen banking stability in Switzerland (the Financial Stability Proposals). Proposed measures to be submitted to the Swiss Parliament for enactment would exclude from common equity tier 1 (CET1) capital investments in foreign subsidiaries of systemically important banks (SIBs), include additional requirements for the recovery and resolution of SIBs, add measures to increase the potential for obtaining liquidity via the Swiss National Bank (the SNB), introduce a Senior Managers Regime for banks, and provide additional powers for the Swiss Financial Market Supervisory Authority (FINMA). Proposed measures at the ordinance level would exclude capitalized software and deferred tax assets (DTAs) on temporary differences from CET1 capital, add stricter requirements for prudential valuation adjustments (PVAs) of assets and liabilities, permit the mandatory suspension of interest payments for additional tier 1 capital instruments in the event of a cumulative loss over four quarters, and introduce measures that aim to enable FINMA and other authorities to better assess the situation of banks in a liquidity crisis.

The Swiss Federal Council plans to start a public consultation in the fall of 2025 on the legislative amendments to capital requirements related to foreign subsidiaries and has indicated it expects to submit its proposal to the Swiss Parliament in the first half of 2026. Entry into force of these amendments is expected in 2028, at the earliest, and is expected to be phased in over a period of at least six to eight years. For the remaining legislative amendments, a consultation draft is expected in the first half of 2026, with the Swiss Federal Council's submission to the Parliament in the first half of 2027. The entry into force of these amendments is expected in 2028 or 2029.

The measures at the ordinance level, including the capital treatment of capitalized software and DTAs on temporary differences, are in public consultation until September 2025, with the ordinances expected to enter into force in January 2027, at the earliest. In addition, a consultation on amendments to the Liquidity Ordinance is expected to begin in the first half of 2026. The amendments to be proposed are expected to set minimum requirements for maintaining borrowing capacity for emergency liquidity assistance.

Based on financial information published for the first quarter of 2025 and given UBS AG's target CET1 capital ratio of between 12.5% and 13%, UBS AG would be required to hold additional estimated CET1 capital of around USD 24bn on a pro-forma basis if the recommendations were to be implemented as proposed. This includes around USD 23bn related to the full deduction of UBS AG's investments in foreign subsidiaries. These pro-forma figures reflect previously announced expected capital repatriations of around USD 5bn.

The incremental CET1 capital of around USD 24bn required at UBS AG would result in a CET1 capital ratio at the UBS Group AG (consolidated) level of around 19%. At Group level, the proposed measures related to DTAs on temporary differences, capitalized software and PVAs would eliminate capital recognition for these items in a manner misaligned with international standards. This would reduce the CET1 capital ratio for the Group to around 17%, underrepresenting UBS's capital strength.

The additional capital of USD 24bn would be in addition to the previously communicated incremental capital of around USD 18bn that UBS will have to hold as a result of the acquisition of the Credit Suisse Group in order to meet existing regulations. This includes around USD 9bn to remove the regulatory concessions granted to Credit Suisse and around USD 9bn to meet the current progressive requirements due to the increased leverage ratio denominator (LRD) and higher market share of the combined business. The progressive requirements for LRD and market share are subject to confirmation.

On this basis, UBS would be required to hold around USD 42bn in additional CET1 capital in total.

Recent developments related to the implementation of the final Basel III standards

In June 2025, the European Commission (the EC) proposed to delay the implementation of the Fundamental Review of the Trading Book (the FRTB) by another year, to 1 January 2027. We expect that the overall impact on UBS will be limited.

In July 2025, the UK Prudential Regulatory Authority published for consultation proposals to delay the implementation of the FRTB internal models approach from 1 January 2027 to 1 January 2028. The FRTB regulation for standardized and advanced standardized approaches will continue to apply from 1 January 2027. With UBS's entities not being subject to the corresponding UK regulation, we expect that the overall impact on UBS will be limited.

In Switzerland, the FRTB became effective on 1 January 2025, together with all other requirements of the final Basel III regulation.

The Swiss Federal Council pauses the revision of the Ordinance on Climate Disclosures

In June 2025, the Swiss Federal Council decided to pause the revision of the Ordinance on Climate Disclosures until the approval of the ongoing revision of the overarching legislation on sustainability reporting in the Swiss Code of Obligations or until 1 January 2027, at the latest.

Recent developments related to EU sustainability reporting

In July 2025, Germany's Federal Ministry of Justice and Consumer Protection published a new draft bill to implement the EU Corporate Sustainability Reporting Directive (the CSRD). If enacted, the draft bill would make CSRD reporting mandatory for the 2025 financial year for large companies that are subject to wave one reporting requirements of the CSRD, which would include UBS AG.

In July 2025, the EC adopted amendments to the European Sustainability Reporting Standards (the ESRS) to allow wave one companies to omit certain of the ESRS disclosures for the 2025 and 2026 financial years. Also in July 2025, the EC published proposed measures to simplify the disclosure requirements under Art. 8 of the EU Taxonomy Regulation. These actions are part of a broader initiative by the EU to simplify its sustainability standards and to reduce the reporting burden on companies. We are currently assessing the impact of these measures on the disclosures of UBS AG and UBS Europe SE.

Other developments

Resolution of legacy Credit Suisse cross-border matter

On 5 May 2025, Credit Suisse Services AG entered into an agreement with the US Department of Justice (the DOJ) to settle a long-running tax-related investigation into Credit Suisse's implementation of its 2014 plea agreement, relating to its legacy cross-border business with US taxpayers booked in Switzerland, which began before UBS acquired the Credit Suisse Group. Credit Suisse Services AG pleaded guilty to one count of conspiracy to aid and assist in the preparation of false income tax returns. Credit Suisse Services AG also contemporaneously entered into a non-prosecution agreement regarding US taxpayers booked in the legacy Credit Suisse Singapore booking center. In the second quarter of 2025, we paid USD 511m with respect to the aforementioned resolutions and we recorded in our Non-core and Legacy division a USD 41m net increase in provisions, which included a provision for the estimated costs of UBS's ongoing obligations with the DOJ in respect of legacy Credit Suisse accounts.

› **Refer to "Note 16 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information**

Sale of O'Connor business

In May 2025, UBS Asset Management (Americas) LLC entered into an agreement to sell its O'Connor single-manager hedge fund, private credit and commodities platform to Cantor Fitzgerald. The sale includes O'Connor's six investment strategies with around USD 11bn in assets under management and, as part of the agreement, UBS and Cantor Fitzgerald will establish a long-term commercial arrangement. The transaction is expected to close in stages, beginning in the fourth quarter of 2025, subject to regulatory approvals and other customary closing conditions. UBS AG does not expect to recognize a material profit or loss upon completion of the transaction.

Ownership increase in UBS Securities China

In the second quarter of 2025, we increased our stake in UBS Securities China from 67% to 100%. The closing of the transaction did not affect profit or loss and there was no material effect on our CET1 capital.

UBS AG performance, business divisions and Group Items

Management report

Our businesses

We report five business divisions, each of which qualifies as an operating segment pursuant to IFRS Accounting Standards: Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank, and Non-core and Legacy. Non-core and Legacy consists of positions and businesses not aligned with our strategy and policies.

Our Group functions are support and control functions that provide services to the Group. Virtually all costs incurred by our Group functions are allocated to the business divisions, leaving a residual amount that we refer to as Group Items in our segment reporting.

This discussion and analysis of the results of the business divisions and Group Items compares the results for the second quarter of 2025 and the six-month period ending 30 June 2025, which are both based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG, with the results for the second quarter of 2024 and the six-month period ending 30 June 2024, which both only included one month of post-merger UBS AG consolidated results. This is a material driver in many of the increases across both revenues and operating expenses.

2Q25 compared with 2Q24

The legal merger of UBS AG and Credit Suisse AG on 31 May 2024 has had a significant impact on the results from June 2024 onward. This discussion and analysis of results compares the second quarter of 2025, which covers three full months of post-merger results, with the second quarter of 2024, which included only one month of post-merger results. This is a material driver in many of the increases across both revenues and operating expenses.

› **Refer to "Note 2 Accounting for the merger of UBS AG and Credit Suisse AG" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about the accounting for the merger of UBS AG and Credit Suisse AG**

Results: 2Q25 vs 2Q24

Operating profit before tax was USD 862m, compared with an operating loss before tax of USD 196m in the second quarter of 2024, reflecting higher total revenues, partly offset by increases in operating expenses and net credit loss expenses. Total revenues increased by USD 1,735m, or 18%, to USD 11,635m, which included an increase from foreign currency effects. The increase in total revenues was largely due to increases of USD 965m in combined net interest income and other net income from financial instruments measured at fair value through profit or loss and USD 925m in net fee and commission income, partly offset by USD 156m lower other income. Operating expenses increased by USD 609m, or 6%, to USD 10,621m, and included an increase from foreign currency effects. The overall increase was largely due to increases of USD 852m in personnel expenses and USD 113m in depreciation, amortization and impairment of non-financial assets, partly offset by a decrease of USD 356m in general and administrative expenses. Net credit loss expenses were USD 152m, compared with USD 84m in the second quarter of 2024.

Integration-related expenses in general and administrative expenses primarily included shared services costs charged from other companies in the UBS Group reporting scope, consulting fees and outsourcing costs. Integration-related personnel expenses were mainly due to salaries and variable compensation related to the integration of Credit Suisse. In addition, there was accelerated depreciation of properties and leasehold improvements in depreciation, amortization and impairment of non-financial assets.

Total revenues: 2Q25 vs 2Q24

Net interest income and other net income from financial instruments measured at fair value through profit or loss

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss increased by USD 965m to USD 4,958m, mainly driven by increases in Global Wealth Management, Personal & Corporate Banking and the Investment Bank.

Global Wealth Management revenues increased by USD 402m to USD 2,042m, mainly driven by the consolidation of Credit Suisse AG net interest income for the full quarter. The remaining variance was mainly due to an increase in net interest income, largely driven by positive foreign currency effects and deposit inflows into higher-margin products, and an increase in trading revenues, reflecting higher levels of client activity.

Personal & Corporate Banking revenues increased by USD 334m to USD 1,357m, predominantly due to the consolidation of Credit Suisse AG net interest income for the full quarter, as well as positive foreign currency effects.

Investment Bank revenues increased by USD 379m to USD 1,886m, mainly due to higher Derivatives & Solutions revenues, mostly driven by Foreign Exchange, Equity Derivatives and Rates, due to elevated volatility and higher levels of client activity. In addition, there were higher revenues in Financing, with increases in all products, led by Prime Brokerage, supported by higher client balances. These increases were partly offset by lower revenues in Global Banking, largely driven by a contraction in Leveraged Capital Markets revenues.

Non-core and Legacy revenues were negative USD 150m compared with positive USD 121m in the second quarter of 2024. Revenues included lower net gains from position exits and lower net interest income from securitized products and credit products, as well as due to the consolidation of Credit Suisse AG revenues for the full quarter.

Revenues in Group Items were negative USD 176m compared with negative USD 288m in the second quarter of 2024. The change in revenues was mainly driven by mark-to-market gains from Group hedging and own debt, including hedge accounting ineffectiveness, compared with losses in the second quarter of 2024. Revenues in the second quarter of 2025 included offsetting impacts on portfolio-level economic hedges and mark-to-market effects on own credit.

- **Refer to the relevant business division commentary in this section for more information about business-division specific revenues**
- **Refer to "Note 4 Net interest income" in the "Consolidated financial statements" section of this report for more information about net interest income**

1 Mainly includes spread-related income in connection with client-driven transactions, foreign currency translation effects and income and expenses from precious metals, which are included in the income statement line Other net income from financial instruments measured at fair value through profit or loss. The amounts reported on this line are one component of Transaction-based income in the management discussion and analysis in the "Global Wealth Management" and "Personal & Corporate Banking" sections of this report.

Net fee and commission income

Net fee and commission income increased by USD 925m to USD 6,526m, mainly driven by the consolidation of Credit Suisse AG revenues for the full quarter.

The consolidation of Credit Suisse AG revenues for the full quarter was the main factor driving a USD 485m increase in fees from portfolio management, to USD 3,163m, and a USD 242m increase in investment fund fees, to USD 1,600m, predominantly in Global Wealth Management and Asset Management, respectively. The increase in Global Wealth Management was also due to positive market performance and net new fee-generating asset inflows.

Net brokerage fees increased by USD 187m to USD 1,189m, mainly due to higher levels of client activity in Global Wealth Management, and in Cash Equities in Execution Services in the Investment Bank, due to higher volumes.

› **Refer to "Note 5 Net fee and commission income" in the "Consolidated financial statements" section of this report for more information**

Other income

Other income was USD 150m and included the consolidation of Credit Suisse AG income for the full quarter, compared with USD 306m in the second quarter of 2024. The decrease was largely due to lower costs charged to shared services subsidiaries of UBS Group AG. In addition, losses of USD 35m from disposals of properties held for sale were incurred, predominantly in Group Items. The second quarter of 2025 also included a USD 31m loss relating to an investment in an associate.

› **Refer to "Note 6 Other income" in the "Consolidated financial statements" section of this report for more information**

Credit loss expense / release: 2Q25 vs 2Q24

Total net credit loss expenses in the second quarter of 2025 were USD 152m, reflecting net expenses of USD 38m related to performing positions and net expenses of USD 114m on credit-impaired positions. Net credit loss expenses were USD 84m in the second quarter of 2024.

› **Refer to "Note 9 Expected credit loss measurement" in the "Consolidated financial statements" section of this report for more information**

General and administrative expenses	4,228	4,077	4,584	4	(8)	8,305	7,570
of which: net expenses / (releases) for litigation, regulatory and similar matters	*163*	*196*	*1,161*	*(17)*	*(86)*	*359*	*1,169*
Depreciation, amortization and impairment of non-financial assets	744	714	631	4	18	1,458	1,162
Total operating expenses	10,621	10,701	10,012	(1)	6	21,322	17,689

1 Financial advisor compensation consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements.

Personnel expenses

Personnel expenses increased by USD 852m to USD 5,649m, mainly driven by the consolidation of Credit Suisse AG expenses for the full quarter, reflecting both the combined workforce resulting from the merger and higher accruals for performance awards, and also driven by a USD 44m increase in financial advisor compensation resulting from higher compensable revenues.

› **Refer to "Note 7 Personnel expenses" in the "Consolidated financial statements" section of this report for more information**

General and administrative expenses

General and administrative expenses decreased by USD 356m to USD 4,228m and included the consolidation of Credit Suisse AG expenses for the full quarter. The overall decrease was largely attributable to a USD 998m reduction in costs for litigation, regulatory and similar matters, mainly due to recognition of costs in the second quarter of 2024 when UBS agreed to fund an offer by the Credit Suisse supply chain finance funds to redeem all of the outstanding units of the respective funds. This was partly offset by an increase of USD 441m in shared services costs for Technology, Finance and Risk charged by shared services subsidiaries of UBS Group AG. General and administrative expenses also included increases of USD 45m in real estate and logistics costs, USD 43m in consulting, legal and audit fees, and USD 38m in technology costs.

› **Refer to "Note 8 General and administrative expenses" in the "Consolidated financial statements" section of this report for more information**

› **Refer to "Note 16 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information about litigation, regulatory and similar matters**

› **Refer to the "Regulatory and legal developments" and "Risk factors" sections of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about litigation, regulatory and similar matters on a UBS AG consolidated basis**

Depreciation, amortization and impairment of non-financial assets

Depreciation, amortization and impairment of non-financial assets increased by USD 113m to USD 744m and included the consolidation of Credit Suisse AG expenses for the full quarter. The overall increase was largely attributable to a USD 73m increase of amortization of internally generated capitalized software as a result of a higher cost base of software assets, as well as higher depreciation attributable to right-of-use assets associated with real estate leases.

Tax: 2Q25 vs 2Q24

UBS AG had a net income tax benefit of USD 336m in the second quarter of 2025, representing a negative effective tax rate of 39.0%, compared with a tax expense of USD 28m in the second quarter of 2024.

This reflected a net deferred tax benefit of USD 664m, which included a USD 663m benefit related to integration-related tax planning, primarily driven by the recognition of deferred tax assets (DTAs) in respect of tax losses carried forward and deductible temporary differences resulting from the final consolidation of legal entities in the United States and a USD 52m benefit due to an increase in DTA recognition within UBS AG's US branch. These benefits were partly offset by a net deferred tax expense of USD 51m that primarily related to the amortization of DTAs previously recognized in relation to tax losses carried forward and deductible temporary differences.

The current tax expense was USD 328m, which primarily related to the taxable profits of UBS Switzerland AG and other entities.

Total comprehensive income attributable to shareholders

In the second quarter of 2025, total comprehensive income attributable to shareholders was USD 4,213m, reflecting a net profit of USD 1,192m and other comprehensive income (OCI), net of tax, of USD 3,021m.

Foreign currency translation OCI was USD 2,610m, mainly resulting from the US dollar weakening against the Swiss franc and the euro.

OCI related to cash flow hedges was USD 562m, mainly reflecting net unrealized gains on US dollar hedging derivatives resulting from decreases in the relevant US dollar long-term interest rates and net losses on hedging instruments that were reclassified from OCI to the income statement.

OCI related to own credit on financial liabilities designated at fair value was negative USD 138m, primarily due to a tightening of our own credit spreads.

- **Refer to "Statement of comprehensive income" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Reconciliation of equity under IFRS Accounting Standards to Swiss SRB common equity tier 1 capital (UBS AG vs UBS Group AG consolidated)" in the "Capital management" section of this report for more information about the effects of OCI on common equity tier 1 capital**
- **Refer to "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about own credit on financial liabilities designated at fair value**

Sensitivity to interest rate movements

As of 30 June 2025, it is estimated that a parallel shift in yield curves by +100 basis points could lead to a combined increase in annual net interest income from our banking book of approximately USD 1.4bn in the first year after such a shift. Of this increase, approximately USD 0.7bn, USD 0.4bn and USD 0.1bn would result from changes in Swiss franc, US dollar and euro interest rates, respectively.

A parallel shift in yield curves by –100 basis points could lead to a combined increase in annual net interest income of approximately USD 0.8bn. Of this increase, approximately USD 1.5bn would result from changes in the Swiss franc interest rate, driven by both contractual and assumed flooring benefits under negative interest rates. US dollar and euro interest rate changes would lead to an offsetting decrease of USD 0.5bn and USD 0.1bn, respectively.

These estimates do not represent net interest income forecasts as they are based on a hypothetical scenario of an immediate change in interest rates, equal across all currencies and relative to implied forward rates as of 30 June 2025 applied to our banking book. These estimates further assume no change to balance sheet size and product mix, stable foreign exchange rates, and no specific management action.

› **Refer to the "Risk management and control" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at *ubs.com/investors*, for information about interest rate risk in the banking book**

Key figures and personnel

Below is an overview of selected key figures of UBS AG consolidated. For further information about key figures related to capital management, refer to the "Capital management" section of this report.

Cost / income ratio: 2Q25 vs 2Q24

The cost / income ratio was 91.3%, compared with 101.1%, mainly reflecting an increase in total revenues, partly offset by an increase in operating expenses.

Personnel: 2Q25 vs 1Q25

The number of internal personnel employed as of 30 June 2025 was 62,958 (full-time equivalents), a net decrease of 4,415 compared with 31 March 2025.

Common equity tier 1 capital: 2Q25 vs 1Q25

During the second quarter of 2025, common equity tier 1 (CET1) capital decreased by USD 0.9bn to USD 69.8bn, mainly as operating profit before tax of USD 0.9bn and foreign currency translation gains of USD 2.5bn were more than offset by dividend accruals of USD 3.5bn and current tax expenses of USD 0.3bn.

Return on common equity tier 1 capital: 2Q25 vs 2Q24

The annualized return on CET1 capital was 6.8%, compared with negative 1.7%, driven by net profit attributable to shareholders compared with a net loss attributable to shareholders in the second quarter of 2024, as well as a decrease in average CET1 capital.

Risk-weighted assets: 2Q25 vs 1Q25

During the second quarter of 2025, RWA increased by USD 16.8bn to USD 498.3bn, driven by an USD 18.7bn increase in currency effects, partly offset by a USD 1.5bn decrease resulting from asset size and other movements and a USD 0.3bn decrease resulting from model updates and methodology changes.

Common equity tier 1 capital ratio: 2Q25 vs 1Q25

The CET1 capital ratio decreased to 14.0% from 14.7%, reflecting the aforementioned increase in RWA and the aforementioned decrease in CET1 capital.

Leverage ratio denominator: 2Q25 vs 1Q25

During the second quarter of 2025, the leverage ratio denominator (the LRD) increased by USD 94.3bn to USD 1,660.1bn, mainly driven by currency effects of USD 88.4bn and asset size and other movements of USD 5.8bn.

Common equity tier 1 leverage ratio: 2Q25 vs 1Q25

The CET1 leverage ratio decreased to 4.2% from 4.5%, reflecting the aforementioned increase in the LRD and the aforementioned decrease in CET1 capital.

Results 6M25 vs 6M24

Operating profit before tax increased by USD 1,018m, or 86%, to USD 2,201m, reflecting a USD 4,790m increase in total revenues, which was partly offset by a USD 3,633m increase in operating expenses. Net credit loss expenses were USD 275m compared with net credit loss expenses of USD 136m in the first six months of 2024.

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss increased by USD 2,466m to USD 10,210m. Revenues in Global Wealth Management increased by USD 918m, mainly driven by the consolidation of Credit Suisse AG revenues for the full period, positive foreign currency effects, deposit inflows into higher-margin products, as well as the impact of higher levels of client activity. Personal & Corporate Banking increased by USD 677m, largely due to the consolidation of Credit Suisse AG net interest income for the full period. The Investment Bank increased by USD 878m, mainly due to an increase in Derivatives & Solutions revenues that resulted from elevated volatility and higher levels of client activity. In addition, there were higher revenues in Financing, led by Prime Brokerage, supported by higher client balances. These increases were partly offset by lower revenues in Global Banking, which mainly resulted from lower volumes in Leveraged Capital Markets. Non-core and Legacy revenues were negative USD 33m compared with positive USD 139m in the first six months of 2024, largely due to lower net gains from position exits and net interest income from securitized products and credit products, partly offset by the effect from the consolidation of Credit Suisse AG revenues for the full period. Group Items revenues were negative USD 413m, compared with negative USD 563m in the first six months of 2024, mainly due to lower mark-to-market losses from Group hedging and own debt, including hedge accounting ineffectiveness. The losses in the first half of 2025 were driven by mark-to-market effects on own credit and portfolio-level economic hedges within Group Treasury.

Net fee and commission income increased by USD 2,406m to USD 13,156m. The consolidation of Credit Suisse AG revenues for the full period led to increases of USD 1,131m in portfolio management and related service fees and USD 584m in investment fund fees, predominantly in Global Wealth Management and Asset Management, respectively. The increase in Global Wealth Management was also due to positive market performance and net new fee-generating asset inflows. Net brokerage fees increased by USD 511m, mainly reflecting higher levels of client activity in Global Wealth Management and in Execution Services in the Investment Bank, due to higher volumes.

Other income was USD 432m, compared with USD 515m in the first six months of 2024, and included the consolidation of Credit Suisse income for the full period. The overall change was mainly due to lower costs charged to shared services subsidiaries of UBS Group AG. The share of net profits of associates and joint ventures was USD 118m higher, mainly reflecting a USD 64m gain related to the Swisscard transactions, partly offset by a USD 16m net loss relating to an investment in an associate.

Personnel expenses increased by USD 2,601m to USD 11,559m and included the consolidation of Credit Suisse AG expenses for the full period, reflecting both the combined workforce resulting from the merger and higher accruals for performance awards, and also driven by a USD 186m increase in financial advisor compensation as a result of higher compensable revenues.

General and administrative expenses increased by USD 735m to USD 8,305m, mainly driven by the consolidation of Credit Suisse AG expenses for the full period. The overall increase was largely attributable to a USD 739m increase in shared services costs charged by shared services subsidiaries of the UBS Group. General and administrative expenses also included a USD 180m expense related to the Swisscard transactions in Personal & Corporate Banking and increases of USD 130m in technology costs, USD 119m in real estate and logistics costs, and USD 99m in consulting, legal and audit fees. These increases were partly offset by USD 810m lower expenses for litigation, regulatory and similar matters, mainly due to the costs recognized in the first six months of 2024 when UBS agreed to fund an offer by the Credit Suisse supply chain finance funds to redeem all of the outstanding units in the respective funds.

Depreciation, amortization and impairment of non-financial assets increased by USD 296m to USD 1,458m and included the impact from the consolidation of Credit Suisse AG expenses for the full period. The overall increase included a USD 217m increase of amortization of internally generated capitalized software mainly as a result of the consolidation of Credit Suisse AG expenses and a higher cost base of software assets, as well as higher depreciation attributable to right-of-use assets associated with real estate leases.

Outlook

The third quarter started with strong market performance in risk assets, particularly international equities, combined with a weak US dollar. Investor sentiment remains broadly constructive, tempered by persistent macroeconomic and geopolitical uncertainties. Against this backdrop, our client conversations and deal pipelines indicate a high level of readiness among investors and corporates to deploy capital as conviction around the macro outlook strengthens.

For the third quarter, we expect Global Wealth Management's net interest income (NII) and Personal & Corporate Banking's NII in Swiss francs to be broadly stable. In US dollar terms, this translates to a sequential low single-digit percentage increase.

We also expect trading and transactional activity to reflect more normalized seasonal patterns and activity levels compared with the same quarter a year ago, particularly in Global Wealth Management's transaction-based revenues and the Investment Bank's Global Markets performance.

We remain focused on actively engaging with our clients, helping them to navigate a complex environment while executing on our growth and integration plans. We are confident in our ability to deliver on our 2025 and 2026 financial targets, leveraging the power of our diversified business model.

1 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 2 Relates to licensed professionals with the ability to provide investment advice to clients in the Americas. Consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. Also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. Recruitment loans to financial advisors were USD 1,579m as of 30 June 2025. 3 Loans and Customer deposits in this table include customer brokerage receivables and payables, respectively, which are presented in separate reporting lines on the balance sheet. 4 Refer to the "Risk management and control" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at ubs.com/investors, for more information about (credit-)impaired exposures. Excludes loans to financial advisors.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 332m, or 46%, to USD 1,052m, mainly driven by the positive impact from the merger of UBS AG and Credit Suisse AG, and higher total revenues, partly offset by higher operating expenses.

Total revenues

Total revenues increased by USD 979m, or 19%, to USD 6,171m, mainly due to the consolidation of Credit Suisse AG revenues for the full quarter. The remaining increase largely reflected increases in recurring net fee income and transaction-based income.

Net interest income increased by USD 270m, or 20%, to USD 1,587m, mainly driven by the consolidation of Credit Suisse AG net interest income for the full quarter, with the remaining variance largely driven by positive foreign currency effects and deposit inflows into higher-margin products.

Recurring net fee income increased by USD 459m, or 16%, to USD 3,352m, mainly driven by positive market performance and net new fee-generating asset inflows, as well as the consolidation of Credit Suisse AG recurring net fee income for the full quarter.

Transaction-based income increased by USD 265m, or 28%, to USD 1,225m, mainly driven by the consolidation of Credit Suisse AG transaction-based income for the full quarter and higher levels of client activity across all regions.

Other income decreased by USD 15m to USD 7m and included a loss of USD 8m related to an investment in an associate.

Credit loss expense / release

Net credit loss releases were USD 2m, compared with net releases of USD 2m in the second quarter of 2024.

Operating expenses

Operating expenses increased by USD 648m, or 14%, to USD 5,121m, mainly driven by the consolidation of Credit Suisse AG operating expenses for the full quarter, unfavorable foreign currency effects and an increase in financial advisor compensation as a result of higher compensable revenues.

Invested assets: 2Q25 vs 1Q25

Invested assets increased by USD 294bn, or 7%, to USD 4,512bn, mainly driven by positive market performance of USD 178bn, positive foreign currency effects of USD 97bn and net new asset inflows.

Loans: 2Q25 vs 1Q25

Loans increased by USD 18.2bn to USD 319.9bn, mainly driven by positive foreign currency effects and positive net new loans.

› **Refer to the "Risk management and control" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at *ubs.com/investors*, for more information**

Customer deposits: 2Q25 vs 1Q25

Customer deposits increased by USD 24.2bn to USD 489.0bn, mainly driven by positive foreign currency effects and net new deposit inflows.

Results: 6M25 vs 6M24

Profit before tax increased by USD 613m, or 37%, to USD 2,268m, mainly driven by the positive impact from the merger of UBS AG and Credit Suisse AG, and higher total revenues, partly offset by higher operating expenses.

Total revenues increased by USD 2,353m, or 23%, to USD 12,463m, mainly due to the consolidation of Credit Suisse AG revenues for the full period. The remaining increase largely reflected increases in recurring net fee income and transaction-based income.

Net interest income increased by USD 655m, or 26%, to USD 3,176m, mainly driven by the consolidation of Credit Suisse AG net interest income for the full period, with the remaining variance largely driven by positive foreign currency effects and deposit inflows into higher-margin products.

Recurring net fee income increased by USD 1,040m, or 19%, to USD 6,626m, mainly driven by positive market performance and net new fee-generating asset inflows, as well as the consolidation of Credit Suisse AG recurring net fee income for the full period.

Transaction-based income increased by USD 703m, or 36%, to USD 2,648m, mainly driven by the consolidation of Credit Suisse AG transaction-based income for the full period and higher levels of client activity across all regions.

Other income decreased by USD 44m to USD 14m, mostly due to lower shared services costs charged to other subsidiaries of UBS Group AG, mainly related to secondments and included a net loss of USD 5m related to an investment in an associate.

Net credit loss expenses were USD 6m, compared with net expenses of USD 7m in the first half of 2024.

Operating expenses increased by USD 1,742m, or 21%, to USD 10,190m, mainly driven by the consolidation of Credit Suisse AG operating expenses for the full period, unfavorable foreign currency effects and an increase in financial advisor compensation as a result of higher compensable revenues.

Results: 2Q25 vs 2Q24

Profit before tax decreased by CHF 30m, or 7%, to CHF 383m, as higher total revenues and lower net credit loss expenses were more than offset by higher operating expenses.

Total revenues

Total revenues increased by CHF 281m, or 20%, to CHF 1,698m, mainly due to the consolidation of Credit Suisse AG revenues for the full quarter.

Net interest income increased by CHF 148m to CHF 929m, largely reflecting the consolidation of Credit Suisse AG net interest income for the full quarter.

Recurring net fee income increased by CHF 42m to CHF 313m, mainly due to the consolidation of Credit Suisse AG recurring net fee income for the full quarter.

Transaction-based income increased by CHF 131m to CHF 484m, largely due to the consolidation of Credit Suisse AG transaction-based income for the full quarter.

Other income was negative CHF 28m, compared with CHF 11m, and included a loss of CHF 18m related to an investment in an associate.

Credit loss expense / release

Net credit loss expenses were CHF 91m and included the effect from the consolidation of Credit Suisse AG, as well as net credit loss expenses on credit-impaired positions. Net credit loss expenses in the second quarter of 2024 were CHF 98m.

Operating expenses

Operating expenses increased by CHF 319m, or 35%, to CHF 1,224m, largely due to the consolidation of Credit Suisse AG operating expenses for the full quarter, and included higher integration-related expenses.

Results: 6M25 vs 6M24

Profit before tax decreased by CHF 145m, or 16%, to CHF 761m, as higher total revenues were more than offset by higher operating expenses and net credit loss expenses.

Total revenues increased by CHF 868m, or 33%, to CHF 3,502m, mainly due to the consolidation of Credit Suisse AG revenues for the full period.

Net interest income increased by CHF 419m to CHF 1,882m, largely reflecting the consolidation of Credit Suisse AG net interest income for the full period.

Recurring net fee income increased by CHF 149m to CHF 642m, mainly due to the consolidation of Credit Suisse AG recurring net fee income for the full period, as well as an increase in revenues due to higher investment product levels, mostly reflecting net new inflows and positive market performance.

Transaction-based income increased by CHF 285m to CHF 938m, largely due to the consolidation of Credit Suisse AG transaction-based income for the full period.

Other income was CHF 40m, compared with CHF 25m, and included a gain of CHF 58m related to the Swisscard transactions and a net loss of CHF 8m related to an investment in an associate.

Net credit loss expenses were CHF 143m, mainly reflecting the effect from the consolidation of Credit Suisse AG, primarily due to net credit loss expenses on credit-impaired positions in the legacy Credit Suisse corporate loan book. Net credit loss expenses in the first half of 2024 were CHF 108m.

Operating expenses increased by CHF 977m, or 60%, to CHF 2,597m, largely due to the consolidation of Credit Suisse AG operating expenses for the full period, and included both a CHF 164m expense related to the Swisscard transactions and higher integration-related expenses.

1 Net management fees include transaction fees, fund administration revenues (including net interest and trading income from lending activities and foreign-exchange hedging as part of the fund services offering), distribution fees, incremental fund-related expenses, gains or losses from seed money and co-investments, funding costs, the negative pass-through impact of third-party performance fees, and other items that are not Asset Management's performance fees. 2 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 3 The invested assets amounts reported for associates are prepared in accordance with their local regulatory requirements and practices. 4 Includes invested assets from associates.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 28m, or 23%, to USD 149m, mainly reflecting the impact from the consolidation of Credit Suisse AG for the full quarter.

Total revenues

Total revenues increased by USD 137m, or 22%, to USD 771m, primarily reflecting the consolidation of Credit Suisse AG revenues for the full quarter, partly offset by the second quarter of 2024 including USD 28m of net gains from disposals.

Net management fees increased by USD 151m, or 26%, to USD 733m, largely reflecting the impact from the consolidation of Credit Suisse AG net management fees for the full quarter.

Performance fees increased by USD 16m, or 67%, to USD 39m, mainly due to an increase in Hedge Fund Businesses.

Operating expenses

Operating expenses increased by USD 109m, or 21%, to USD 622m, largely due to the consolidation of Credit Suisse AG operating expenses for the full quarter, partly offset by lower non-personnel and personnel costs.

Invested assets: 2Q25 vs 1Q25

Invested assets increased by USD 156bn, or 9%, to USD 1,952bn, reflecting positive foreign currency effects of USD 96bn and positive market performance of USD 62bn, partly offset by negative net new money of USD 2bn.

Results: 6M25 vs 6M24

Profit before tax increased by USD 114m, or 67%, to USD 286m, mainly reflecting the impact from the consolidation of Credit Suisse AG for the full period.

Total revenues increased by USD 369m, or 32%, to USD 1,512m, primarily reflecting the consolidation of Credit Suisse AG revenues for the full period, partly offset by the first half of 2024 including USD 28m of net gains from disposals.

Net management fees increased by USD 376m, or 35%, to USD 1,445m, largely reflecting the consolidation of Credit Suisse AG net management fees for the full period.

Performance fees increased by USD 24m, or 51%, to USD 69m, mainly due to an increase in Hedge Fund Businesses and the consolidation of Credit Suisse AG performance fees for the full period.

Operating expenses increased by USD 253m, or 26%, to USD 1,225m, largely due to the consolidation of Credit Suisse AG operating expenses for the full period, partly offset by lower non-personnel and personnel costs.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 153m, or 65%, to USD 390m, mainly due to higher total revenues, partly offset by higher operating expenses.

Total revenues

Total revenues increased by USD 380m, or 16%, to USD 2,816m, due to higher revenues in Global Markets, partly offset by lower revenues in Global Banking.

Global Banking

Global Banking revenues decreased by USD 98m, or 16%, to USD 527m, reflecting lower Capital Markets and Advisory revenues.

Advisory revenues decreased by USD 34m, or 15%, to USD 192m, mainly due to lower private-fund activity levels and a decrease in merger and acquisition transaction revenues.

Capital Markets revenues decreased by USD 64m, or 16%, to USD 335m, largely driven by lower Leveraged Capital Markets revenues as sponsor activity sharply reduced and due to markdowns on positions.

Global Markets

Global Markets revenues increased by USD 478m, or 26%, to USD 2,289m, driven by higher Derivatives & Solutions, Financing and Execution Services revenues.

Execution Services revenues increased by USD 96m, or 24%, to USD 501m, mainly driven by higher Cash Equities revenues across all regions, on higher volumes.

Derivatives & Solutions revenues increased by USD 239m, or 27%, to USD 1,119m, with higher Foreign Exchange, Equity Derivatives and Rates revenues, mainly due to elevated volatility and higher levels of client activity.

Financing revenues increased by USD 144m, or 27%, to USD 670m, with increases in all products, led by Prime Brokerage, supported by higher client balances.

Equities

Global Markets Equities revenues increased by USD 286m, or 21%, to USD 1,623m, mainly driven by higher revenues in Cash Equities, Prime Brokerage and Equity Derivatives.

Foreign Exchange, Rates and Credit

Global Markets Foreign Exchange, Rates and Credit revenues increased by USD 192m, or 41%, to USD 666m, mainly driven by increases in Foreign Exchange revenues.

Credit loss expense / release

Net credit loss expenses were USD 41m, compared with net credit loss releases of USD 1m in the second quarter of 2024.

Operating expenses

Operating expenses increased by USD 185m, or 8%, to USD 2,385m, mainly driven by higher personnel expenses and unfavorable foreign currency effects.

Results: 6M25 vs 6M24

Profit before tax increased by USD 429m, or 84%, to USD 938m, mainly due to higher total revenues, partly offset by higher operating expenses.

Total revenues increased by USD 1,045m, or 22%, to USD 5,869m, due to higher revenues in Global Markets, partly offset by lower revenues in Global Banking.

Global Banking revenues decreased by USD 42m, or 4%, to USD 1,097m, reflecting lower Capital Markets revenues, partly offset by higher Advisory revenues.

Advisory revenues increased by USD 23m, or 6%, to USD 414m, mostly due to higher merger and acquisition transaction revenues, partly offset by lower private-fund activity levels.

Capital Markets revenues decreased by USD 64m, or 9%, to USD 684m, largely driven by lower Leveraged Capital Markets revenues as sponsor activity sharply reduced and due to markdowns on positions.

Global Markets revenues increased by USD 1,087m, or 30%, to USD 4,771m, driven by higher Derivatives & Solutions, Financing and Execution Services revenues.

Execution Services revenues increased by USD 215m, or 27%, to USD 1,017m, mainly driven by higher Cash Equities revenues across all regions, on higher volumes.

Derivatives & Solutions revenues increased by USD 607m, or 33%, to USD 2,420m, with higher revenues in Equity Derivatives and Foreign Exchange, mainly due to elevated volatility and higher levels of client activity.

Financing revenues increased by USD 265m, or 25%, to USD 1,334m, with increases in all products, led by Prime Brokerage, supported by higher client balances.

Equities
Global Markets Equities revenues increased by USD 741m, or 27%, to USD 3,438m, mainly driven by higher revenues in Equity Derivatives, Cash Equities and Prime Brokerage.

Foreign Exchange, Rates and Credit
Global Markets Foreign Exchange, Rates and Credit revenues increased by USD 345m, or 35%, to USD 1,333m, mainly driven by increases in Foreign Exchange revenues.

Net credit loss expenses were USD 90m, compared with net credit loss expenses of USD 31m in the first half of 2024.

Operating expenses increased by USD 556m, or 13%, to USD 4,840m, mainly due to higher personnel expenses.

Non-core and Legacy

Non-core and Legacy

	As of or for the quarter ended			% change from		Year-to-date	
USD m	30.6.25	31.3.25	30.6.24	1Q25	2Q24	30.6.25	30.6.24

Operating profit / (loss) before tax	(880)	(639)	(1,365)	38	(36)	(1,519)	(1,483)

Results: 2Q25 vs 2Q24

Loss before tax was USD 880m, compared with a loss before tax of USD 1,365m.

Total revenues
Total revenues were negative USD 140m, compared with total revenues of USD 165m, mainly reflecting lower net gains from position exits and lower net interest income from securitized products and credit products, as well as due to the consolidation of Credit Suisse AG revenues for the full quarter.

Credit loss expense / release
Net credit loss releases were USD 1m, compared with net credit loss releases of USD 23m.

Operating expenses
Operating expenses decreased by USD 812m, or 52%, to USD 740m, mainly due to the second quarter of 2024 including litigation expenses of USD 1,118m, largely reflecting UBS agreeing in that quarter to fund an offer by the Credit Suisse supply chain finance funds (the SCFFs) to redeem all the outstanding units of the respective funds. This reduction was partly offset by higher operating expenses resulting from the consolidation of Credit Suisse AG expenses for the full quarter in 2025. In addition, operating expenses in the second quarter of 2025 included USD 139m related to provisions for litigation, regulatory and similar matters.

Results: 6M25 vs 6M24

Loss before tax was USD 1,519m, compared with a loss before tax of USD 1,483m.

Total revenues were negative USD 21m, compared with total revenues of USD 186m, mainly reflecting lower net gains from position exits and net interest income from securitized products and credit products, partly offset by the effect from the consolidation of Credit Suisse AG revenues for the full period. Total revenues in the first half of 2025 included a loss of USD 11m from the sale of Select Portfolio Servicing, the US mortgage servicing business of Credit Suisse.

Net credit loss expenses were USD 9m, compared with net credit loss releases of USD 23m.

Operating expenses decreased by USD 203m, or 12%, to USD 1,488m, mainly due to the first half of 2024 including litigation expenses of USD 1,118m, largely reflecting UBS agreeing in the second quarter of 2024 to fund an offer by the SCFFs to redeem all the outstanding units of the respective funds. This reduction was partly offset by higher operating expenses resulting from the consolidation of Credit Suisse AG expenses for the full period in 2025. In addition, operating expenses in the first half of 2025 included USD 230m related to provisions for litigation, regulatory and similar matters.

Total revenues	(70)	(46)	(90)	50	(23)	(116)	(196)
Credit loss expense / (release)	0	(1)	0			(1)	1
Operating expenses	249	299	275	(17)	(9)	548	487
Operating profit / (loss) before tax	(318)	(344)	(365)	(8)	(13)	(663)	(684)

Results: 2Q25 vs 2Q24

Loss before tax was USD 318m, mainly reflecting operating expenses and deferred tax asset (DTA) funding costs. The USD 47m, or 13%, decrease in loss before tax between quarters was largely due to mark-to-market gains from Group hedging and own debt, including hedge accounting ineffectiveness, compared with mark-to-market losses in the second quarter of 2024. The gains in the second quarter of 2025 included offsetting impacts on portfolio-level economic hedges and mark-to-market effects on own credit. The second quarter of 2025 also included losses from disposals of properties held for sale.

Results: 6M25 vs 6M24

Loss before tax was USD 663m, mainly reflecting operating expenses, DTA funding costs and mark-to-market losses from Group hedging and own debt, including hedge accounting ineffectiveness. The USD 21m, or 3%, decrease in loss before tax between periods was largely due to lower mark-to-market losses from Group hedging and own debt, including hedge accounting ineffectiveness. The losses in the first half of 2025 were driven by mark-to-market effects on own credit and portfolio-level economic hedges. In addition, the first half of 2025 included an increase in provisions for litigation, regulatory and similar matters, higher shared services costs charged by other subsidiaries of UBS Group AG, and losses from disposals of properties held for sale.

Risk management and control

This section provides information about key developments during the reporting period and should be read in conjunction with the "Risk management and control" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, and the "Recent developments" section of this report for more information about the integration of Credit Suisse.

UBS AG consolidated risk profile

The risk profile of UBS AG consolidated does not differ materially from that of UBS Group AG consolidated and the risk information provided in the UBS Group second quarter 2025 report is equally applicable to UBS AG consolidated.

The credit risk profile of UBS AG consolidated as of 30 June 2025 differed from that of UBS Group AG consolidated in relation to total banking products exposure, mainly reflecting purchase price allocation effects booked at the Group level relating to the acquisition of the Credit Suisse Group, as well as receivables of UBS AG and UBS Switzerland AG from UBS Group AG and UBS Business Solutions AG, reflecting consolidation scope differences.

The total banking products exposure of UBS AG consolidated as of 30 June 2025 was USD 1,111.9bn, i.e. USD 7.7bn, or 0.7%, higher than the exposure of UBS Group AG consolidated. As of 31 March 2025, the total banking products exposure of UBS AG consolidated was USD 1,046.3bn, i.e. USD 9.7bn, or 0.9%, higher than the exposure of UBS Group AG consolidated.

- **Refer to the "Risk management and control" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at *ubs.com/investors*, for more information**
- **Refer to the "Comparison between UBS AG consolidated and UBS Group AG consolidated" section of this report for more information about selected financial and capital information of UBS AG consolidated and UBS Group AG consolidated**

Capital management

The disclosures in this section are provided for UBS AG on a consolidated basis and focus on information in accordance with the Basel III framework, as applicable to Swiss systemically relevant banks (SRBs). They should be read in conjunction with "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, which provides more information about relevant capital management objectives, planning and activities, as well as the Swiss SRB total loss-absorbing capacity framework, on a UBS AG consolidated basis.

In Switzerland, the amendments to the Capital Adequacy Ordinance (the CAO) that incorporate the final Basel III standards into Swiss law, including the five new ordinances that contain the implementing provisions for the revised CAO, entered into force on 1 January 2025.

UBS AG contributes a significant portion of capital to, and provides substantial liquidity to, its subsidiaries. Many of these subsidiaries are subject to local regulations requiring compliance with minimum capital, liquidity and similar requirements.

- **Refer to the UBS Group and significant regulated subsidiaries and sub-groups 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information about additional regulatory disclosures for UBS Group AG on a consolidated basis, as well as the significant regulated subsidiaries and sub-groups of UBS Group AG**

Risk-weighted assets / leverage ratio denominator				
Risk-weighted assets		**498,327**		
Leverage ratio denominator				**1,660,097**

1 Includes applicable add-ons of 1.66% for risk-weighted assets (RWA) and 0.51% for leverage ratio denominator (LRD), of which 4 basis points for RWA and 1 basis points for LRD reflect a Pillar 2 capital add-on of USD 193m related to the supply chain finance funds matter at Credit Suisse. An additional 18 basis points for RWA reflect a Pillar 2 capital add-on for the residual exposure (after collateral mitigation) to hedge funds, private equity and family offices, effective 1 January 2025. 2 Includes the Pillar 2 add-on for the residual exposure (after collateral mitigation) to hedge funds, private equity and family offices of 0.12% for CET1 capital and 0.05% for AT1 capital, effective 1 January 2025. For AT1 capital, under Pillar 1 requirements, a maximum of 4.3% of AT1 capital can be used to meet going concern requirements; 4.35% includes the aforementioned Pillar 2 capital add-on. 3 Our CET1 leverage ratio requirement of 3.51% consists of a 1.5% base requirement, a 1.5% base buffer capital requirement, a 0.25% LRD add-on requirement, a 0.25% market share add-on requirement based on our Swiss credit business and a 0.01% Pillar 2 capital add-on related to the supply chain finance funds matter at Credit Suisse. 4 A maximum of 25% of the gone concern requirements can be met with instruments that have a remaining maturity of between one and two years. Once at least 75% of the minimum gone concern requirement has been met with instruments that have a remaining maturity of greater than two years, all instruments that have a remaining maturity of between one and two years remain eligible to be included in the total gone concern capital. 5 From 1 January 2023, the resolvability discount on the gone concern capital requirements for systemically important banks (SIBs) has been replaced with reduced base gone concern capital requirements equivalent to 75% of the total going concern requirements (excluding countercyclical buffer requirements and the Pillar 2 add-ons). 6 As of July 2024, FINMA has the authority to impose a surcharge of up to 25% of the total going concern capital requirements (excluding countercyclical buffer requirements and the Pillar 2 add-ons) should obstacles to an SIB's resolvability be identified in future resolvability assessments. 7 Includes applicable add-ons of 1.08% for RWA and 0.38% for LRD.

UBS AG, on a consolidated basis, is subject to the going and gone concern requirements of the Swiss CAO, which include additional requirements applicable to Swiss SRBs. The table above provides the risk-weighted asset (RWA)- and leverage ratio denominator (LRD)-based requirements and information as of 30 June 2025.

UBS AG and UBS Switzerland AG are subject to going and gone concern requirements on a standalone basis.

Effective 1 January 2025, a Pillar 2 capital add-on for uncollateralized exposures to hedge funds, private equity and family offices has been introduced. This resulted in an increase of 18 basis points in the RWA-based going concern capital requirement as of 30 June 2025.

On a standalone basis as of 30 June 2025, UBS AG's fully applied common equity tier 1 (CET1) capital ratio was 13.2%. Additional capital information for UBS AG standalone will be published with our 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*.

Total loss-absorbing capacity

The table below provides Swiss SRB going and gone concern information based on the Swiss SRB framework and requirements that are discussed under "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*. Changes to the Swiss SRB framework and requirements after the publication of the UBS AG Annual Report 2024 are described above.

Reconciliation of equity under IFRS Accounting Standards to Swiss SRB common equity tier 1 capital (UBS AG vs UBS Group AG consolidated)

As of 30.6.25

USD m	UBS AG (consolidated)	UBS Group AG (consolidated)	Difference
Total equity under IFRS Accounting Standards	94,854	89,699	5,155
Equity attributable to non-controlling interests	(576)	(422)	(154)
Defined benefit plans, net of tax	(1,042)	(1,054)	12
Deferred tax assets recognized for tax loss carry-forwards	(2,527)	(2,527)	0
Deferred tax assets for unused tax credits	(871)	(871)	
Deferred tax assets on temporary differences, excess over threshold	(547)	(1,070)	523
Goodwill, net of tax	(6,284)	(5,779)	(505)
Intangible assets, net of tax	(107)	(742)	635
Compensation-related components (not recognized in net profit)		(2,752)	2,752
Expected losses on advanced internal ratings-based portfolio less provisions	(594)	(592)	(2)
Unrealized (gains) / losses from cash flow hedges, net of tax	1,527	1,527	
Own credit related to (gains) / losses on financial liabilities measured at fair value that existed at the balance sheet date, net of tax	1,094	1,036	59
Own credit related to (gains) / losses on derivative financial instruments that existed at the balance sheet date	(79)	(79)	0
Prudential valuation adjustments	(176)	(176)	
Accruals for dividends to shareholders for 2024	(6,500)[1]		(6,500)
Capital reserve for expected future share repurchases		(2,006)	2,006
Other[2]	(8,343)	(1,483)	(6,860)
Total common equity tier 1 capital	69,829	72,709	(2,880)

1 Reflects the appropriation of USD 6,500m to a special dividend reserve approved at the 2025 Annual General Meeting in April 2025. The decision on the special dividend payment is intended to be made at an Extraordinary General Meeting in the second half of 2025, considering the proposed requirements from Switzerland's review of its capital regime. 2 Includes dividend accruals for the current year and other items.

The going concern capital of UBS AG consolidated was USD 3.2bn lower than the going concern capital of UBS Group AG consolidated as of 30 June 2025, reflecting lower CET1 capital of USD 2.9bn and lower going concern loss-absorbing additional tier 1 (AT1) capital of USD 0.4bn.

The aforementioned difference in CET1 capital was primarily due to a USD 12.9bn difference in dividend accruals between UBS AG and UBS Group AG, largely offset by UBS Group AG consolidated equity being USD 5.2bn lower, compensation-related regulatory capital accruals at the UBS Group AG level of USD 2.8bn, a capital reserve for expected future share repurchases of USD 2.0bn and a USD 0.5bn effect from eligible deferred tax assets on temporary differences.

The going concern loss-absorbing AT1 capital of UBS AG consolidated was USD 0.4bn lower than that of UBS Group AG consolidated as of 30 June 2025, mainly reflecting deferred contingent capital plan awards granted at the Group level to eligible employees for the 2020 to 2024 performance years.

Differences in capital between UBS AG consolidated and UBS Group AG consolidated related to employee compensation plans will reverse to the extent underlying services are performed by employees of, and are consequently charged to, UBS AG and its subsidiaries. Such reversal generally occurs over the service period of the employee compensation plan.

The RWA of UBS AG consolidated were USD 6.2bn lower than the RWA of UBS Group AG consolidated, mainly reflecting non-counterparty-related-assets held outside the UBS AG consolidation scope, partly offset by intercompany credit risk exposures in UBS AG toward Group entities outside of the UBS AG consolidation scope.

The LRD of UBS AG consolidated was USD 2.0bn higher than the LRD of UBS Group AG consolidated, mainly reflecting purchase price allocation (PPA) adjustments that apply at the Group level but not at the UBS AG level, as well as intercompany exposures in UBS AG toward Group entities, partly offset by fixed assets held outside of the UBS AG consolidation scope.

The LRD for UBS AG consolidated exceeds that of UBS Group AG consolidated, and UBS AG's RWA is lower than that of UBS Group AG consolidated. This divergence stems mainly from certain PPA adjustments that apply at the Group level but not at the UBS AG level and are subject to low risk weights.

› **Refer to the "Capital management" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at *ubs.com/investors*, for information about the developments of loss-absorbing capacity, RWA and LRD for UBS Group AG consolidated**

Dividends on equity investments, investment funds and associates received in cash[3]	**1,803**	1,505

1 Foreign currency translation and foreign exchange effects on operating assets and liabilities and on cash and cash equivalents are presented within the Other net adjustments line, with the exception of foreign currency hedge effects related to foreign exchange swaps, which are presented on the line Financial assets and liabilities at fair value held for trading and derivative financial instruments. 2 Includes cash receipts from the sale of loans and loan commitments of USD 581m and USD 436m within Non-core and Legacy for the six-month periods ended 30 June 2025 and 30 June 2024, respectively. 3 Includes dividends received from associates. 4 Includes cash proceeds net of cash and cash equivalents disposed from the sale of the US mortgage servicing business of Credit Suisse, Select Portfolio Servicing, which was managed in Non-core and Legacy. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information. 5 Reflects the repayment of the Emergency Liquidity Assistance facility to the Swiss National Bank, which was recognized in the balance sheet line Amounts due to banks. 6 Includes funding from UBS Group AG measured at amortized cost (recognized on the balance sheet in Funding from UBS Group AG measured at amortized cost) and measured at fair value (recognized on the balance sheet in Other financial liabilities designated at fair value). 7 Reflects cash flows from securities financing transactions measured at amortized cost that use UBS AG debt instruments as the underlying. 8 Includes only balances with an original maturity of three months or less. 9 Money market paper is included in the balance sheet under Financial assets at fair value not held for trading (30 June 2025: USD 2,431m; 30 June 2024: USD 9,479m), Other financial assets measured at amortized cost (30 June 2025: USD 338m; 30 June 2024: USD 564m), Financial assets measured at fair value through other comprehensive income (30 June 2025: USD 140m; 30 June 2024: USD 344m) and Financial assets at fair value held for trading (30 June 2025: USD 127m; 30 June 2024: USD 430m).

Notes to the UBS AG interim consolidated financial statements (unaudited)

Note 1 Basis of accounting

Basis of preparation

The consolidated financial statements (the financial statements) of UBS AG and its subsidiaries (together, UBS AG) are prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board (the IASB), and are presented in US dollars. These interim financial statements are prepared in accordance with IAS 34, *Interim Financial Reporting*.

In preparing these interim financial statements, the same accounting policies and methods of computation have been applied as in the UBS AG consolidated annual financial statements for the period ended 31 December 2024. These interim financial statements are unaudited and should be read in conjunction with: UBS AG's audited consolidated financial statements in the UBS AG Annual Report 2024; the "Management report" sections of this report, specifically the disclosures in the "Recent developments" section of this report regarding the sale of O'Connor hedge funds and the ownership increase in UBS Securities China and in the "UBS AG performance, business divisions and Group Items" section of this report regarding the sale of Select Portfolio Servicing (the US mortgage servicing business of Credit Suisse) and the transactions related to Swisscard; and the information about significant transactions disclosed in the UBS AG first quarter 2025 report. In the opinion of management, all necessary adjustments have been made for a fair presentation of UBS AG's financial position, results of operations and cash flows.

Preparation of these interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities. These estimates and assumptions are based on the best available information. Actual results in the future could differ from such estimates and differences may be material to the financial statements. Revisions to estimates, based on regular reviews, are recognized in the period in which they occur. For more information about areas of estimation uncertainty that are considered to require critical judgment, refer to "Note 1a Material accounting policies" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024.

Currency translation rates

The following table shows the rates of the main currencies used to translate the financial information of UBS AG's operations with a functional currency other than the US dollar into US dollars.

Currency translation rates

	Closing exchange rate				Average rate[1]				
	As of				For the quarter ended			Year-to-date	
	30.6.25	31.3.25	31.12.24	30.6.24	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
1 CHF	1.26	1.13	1.10	1.11	1.23	1.11	1.10	1.17	1.12
1 EUR	1.18	1.08	1.04	1.07	1.15	1.05	1.07	1.10	1.08
1 GBP	1.37	1.29	1.25	1.26	1.35	1.26	1.26	1.31	1.26
100 JPY	0.69	0.67	0.63	0.62	0.70	0.66	0.63	0.68	0.65

1 Monthly income statement items of operations with a functional currency other than the US dollar are translated into US dollars using month-end rates. Disclosed average rates for a quarter represent an average of three month-end rates, weighted according to the income and expense volumes of all operations of UBS AG with the same functional currency for each month. Weighted average rates for individual business divisions may deviate from the weighted average rates for UBS AG.

Note 2 Accounting for the merger of UBS AG and Credit Suisse AG

Merger of UBS AG and Credit Suisse AG

The merger of UBS AG and Credit Suisse AG effected on 31 May 2024 with no consideration payable by UBS AG constituted a business combination under common control. For details of the accounting for the merger, including accounting policies applicable to business combinations under common control, refer to "Note 1a Material accounting policies" and "Note 2 Accounting for the merger of UBS AG and Credit Suisse AG" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024.

Comparability

The income statement and the statement of comprehensive income for the first and second quarters of 2025 are based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG. The income statement and the statement of comprehensive income for the second quarter of 2024 include one month of consolidated data following the merger of UBS AG and Credit Suisse AG (June 2024) and two months of pre-merger UBS AG data only (April and May 2024). The year-to-date information for 2025 in the income statement, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows is based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG. The year-to-date information for 2024 in the income statement, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows includes one month of consolidated data following the merger of UBS AG and Credit Suisse AG (June 2024) and five months of pre-merger UBS AG data only (January through May 2024). The balance sheet information as of 30 June 2025, 31 March 2025 and 31 December 2024 includes post-merger consolidated information.

Note 3 Segment reporting

UBS AG's business divisions are organized globally into five business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank and Non-core and Legacy. All five business divisions are supported by Group Items and qualify as reportable segments for the purpose of segment reporting. Together with Group Items they reflect the management structure of UBS AG.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information about UBS AG's reporting segments.**

Total general and administrative expenses	**4,228**	4,077	4,584	8,305	7,570

1 Reflects the net increase / (decrease) in provisions for litigation, regulatory and similar matters recognized in the income statement. Refer to Note 16b for more information. 2 Includes a USD 180m expense related to the payment to Swisscard for the sale of the Credit Suisse card portfolios to UBS AG. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information.

Note 9 Expected credit loss measurement

a) Credit loss expense / release

Total net credit loss expenses in the second quarter of 2025 were USD 152m, reflecting USD 38m net expenses related to performing positions and USD 114m net expenses on credit-impaired positions.

Stage 1 and 2 net expenses of USD 38m included scenario-update-related net expenses of USD 23m, mainly from corporate lending, and portfolio changes, and USD 13m expenses in anticipation of a portfolio re-calibration in the large corporate clients segment.

Credit loss expenses of USD 114m for credit-impaired positions primarily related to Personal & Corporate Banking and Investment Bank exposures related to a small number of corporate counterparties.

Credit loss expense / (release)

Group Items	0	0	0
Total	(29)	113	84

b) Changes to ECL models, scenarios and scenario weights

Scenarios and scenario weights

The expected credit loss (ECL) scenarios, along with their related macroeconomic factors and market data, were reviewed in light of the economic and political conditions prevailing in the second quarter of 2025 through a series of governance meetings, with input and feedback from UBS AG Risk and Finance experts across the business divisions and regions.

The baseline scenario was updated with the latest macroeconomic forecasts as of 30 June 2025. The assumptions on a calendar-year basis are included in the table below and have been revised downward in the US, the Eurozone and Japan relative to the start of 2025 in the second half of the year following the announcement of US tariffs imposed on imports from other countries. In general, forecasts for Swiss GDP growth and unemployment are less optimistic than in 2024, due to spillover effects from the US tariff announcements. Expectations for long-term interest rates were revised and are marginally lower, while forecasts for house prices remained unchanged.

At the beginning of the first quarter of 2025, UBS AG replaced the stagflationary geopolitical crisis scenario applied at the end of 2024 with the global crisis scenario, as the severe downside scenario. It targets risks such as sovereign defaults, low interest rates, a crisis in the Eurozone and significant emerging market stress. The mild stagflation crisis scenario replaced the mild debt crisis scenario as the mild downside scenario. In the mild stagflation crisis scenario, interest rates are assumed to rise rather than decline, as in the previously applied mild debt crisis scenario. However, the declines in GDP and equities are similar.

UBS AG kept the scenarios and scenario weights in line with those applied in the UBS AG first quarter 2025 report. All of the scenarios, including the asset price appreciation and the baseline scenarios, have been updated based on the latest macroeconomic forecasts as of 30 June 2025. The assumptions on a calendar-year basis are included in the table below.

Comparison of shock factors

	Baseline		
Key parameters	2024	2025	2026
Real GDP growth (annual percentage change)			
US	2.8	1.6	1.2
Eurozone	0.8	0.7	1.0
Switzerland	1.4	0.9	1.4
Unemployment rate (%, annual average)			
US	4.0	4.3	4.8

c) ECL-relevant balance sheet and off-balance sheet positions including ECL allowances and provisions

The following tables provide information about financial instruments and certain non-financial instruments that are subject to ECL requirements. For amortized-cost instruments, the carrying amount represents the maximum exposure to credit risk, taking into account the allowance for credit losses. Financial assets measured at fair value through other comprehensive income (FVOCI) are also subject to ECL; however, unlike amortized-cost instruments, the allowance for credit losses for FVOCI instruments does not reduce the carrying amount of these financial assets. Instead, the carrying amount of financial assets measured at FVOCI represents the maximum exposure to credit risk.

No purchased credit-impaired financial assets were recognized in the second quarter of 2025. Originated credit-impaired financial assets were not material and are not presented in the table below.

In addition to recognized financial assets, certain off-balance sheet financial instruments and other credit lines are also subject to ECL. The maximum exposure to credit risk for off-balance sheet financial instruments is calculated based on the maximum contractual amounts.

ECL-relevant balance sheet and off-balance sheet positions

Total allowances and provisions					**(3,527)**	**(487)**	**(623)**	**(2,417)**

1 The carrying amount of financial assets measured at amortized cost represents the total gross exposure net of the respective ECL allowances.

Note 9 Expected credit loss measurement (continued)

The table below provides information about the gross carrying amount of exposures subject to ECL and the ECL coverage ratio for UBS AG's core loan portfolios (i.e. *Loans and advances to customers* and *Loans to financial advisors*) and relevant off-balance sheet exposures. *Cash and balances at central banks*, *Amounts due from banks*, *Receivables from securities financing transactions*, *Cash collateral receivables on derivative instruments* and *Financial assets measured at fair value through other comprehensive income* are not included in the table below, due to their lower sensitivity to ECL.

ECL coverage ratios are calculated by dividing ECL allowances and provisions by the gross carrying amount of the related exposures.

The overall coverage ratio for performing positions was unchanged at 10 basis points as of 30 June 2025. Compared with 31 March 2025, coverage ratios for performing positions related to real estate lending (on-balance sheet) were unchanged at 4 basis points, and coverage ratios for performing positions related to corporate lending (on-balance sheet) increased by 2 basis points to 74 basis points.

Note 10 Fair value measurement

a) Fair value hierarchy

The fair value hierarchy classification of financial and non-financial assets and liabilities measured at fair value is summarized in the table below.

During the first six months of 2025, assets and liabilities that were transferred from Level 2 to Level 1, or from Level 1 to Level 2, and were held for the entire reporting period were not material.

Determination of fair values from quoted market prices or valuation techniques[1]

of which: Funding from UBS Group AG	*0*	*4,639*	*1,480*	*6,119*	*0*	*4,042*	*1,515*	*5,557*	*0*	*3,848*	*1,494*	*5,342*
of which: Over-the-counter debt instruments and others	*0*	*2,861*	*2,182*	*5,043*	*0*	*2,969*	*2,644*	*5,613*	*0*	*2,930*	*2,768*	*5,698*
Total liabilities measured at fair value	39,535	379,098	19,352	437,984	31,909	333,894	19,633	385,436	25,406	355,744	20,405	401,555

1 Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are not included in this table. The fair value of these derivatives was not material for the periods presented.
2 Other non-financial assets primarily consist of properties and other non-current assets held for sale, which are measured at the lower of their net carrying amount or fair value less costs to sell.

b) Valuation adjustments

The table below summarizes the changes in deferred day-1 profit or loss reserves during the relevant period.

Deferred day-1 profit or loss is generally released into *Other net income from financial instruments measured at fair value through profit or loss* when the pricing of equivalent products or the underlying parameters become observable or when the transaction is closed out.

Deferred day-1 profit or loss reserves

	For the quarter ended			Year-to-date	
USD m	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
Reserve balance at the beginning of the period	391	421	379	421	397
Effect from merger of UBS AG and Credit Suisse AG[1]			1		1
Profit / (loss) deferred on new transactions	68	65	59	133	101
(Profit) / loss recognized in the income statement	(41)	(95)	(50)	(135)	(110)
Foreign currency translation	(1)	(1)	(1)	(2)	(1)
Reserve balance at the end of the period	417	391	388	417	388

1 Refer to Note 2 for more information about the merger of UBS AG and Credit Suisse AG.

The table below summarizes other valuation adjustment reserves recognized on the balance sheet.

Other valuation adjustment reserves on the balance sheet

	As of		
USD m	30.6.25	31.3.25	31.12.24
Own credit adjustments on financial liabilities designated at fair value[1]	(1,100)	(942)	(1,165)
of which: debt issued designated at fair value	*(774)*	*(680)*	*(780)*
of which: other financial liabilities designated at fair value	*(325)*	*(262)*	*(385)*
Credit valuation adjustments[2]	(40)	(128)	(125)
Funding and debit valuation adjustments	(87)	(69)	(96)
Other valuation adjustments	(966)	(971)	(1,206)
of which: liquidity	*(586)*	*(570)*	*(746)*
of which: model uncertainty	*(380)*	*(401)*	*(460)*

1 Own credit adjustments on financial liabilities designated at fair value includes amounts for TLAC notes. 2 Amount does not include reserves against defaulted counterparties.

c) Level 3 instruments: valuation techniques and inputs

The table below presents material Level 3 assets and liabilities, together with the valuation techniques used to measure fair value, as well as the inputs used in a given valuation technique that are considered significant as of 30 June 2025 and unobservable, and a range of values for those unobservable inputs.

The range of values represents the highest- and lowest-level inputs used in the valuation techniques. Therefore, the range does not reflect the level of uncertainty regarding a particular input or an assessment of the reasonableness of UBS AG's estimates and assumptions, but rather the different underlying characteristics of the relevant assets and liabilities held by UBS AG.

The significant unobservable inputs disclosed in the table below are consistent with those included in "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024.

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities

	Fair value						Range of inputs						
	Assets		Liabilities				30.6.25			31.12.24			
USD bn	30.6.25	31.12.24	30.6.25	31.12.24	Valuation technique(s)	Significant unobservable input(s)[1]	low	high	weighted average[2]	low	high	weighted average[2]	unit[1]
Financial assets and liabilities at fair value held for trading and Financial assets at fair value not held for trading													
Corporate and municipal bonds	*0.8*	*1.0*	*0.0*	*0.2*	Relative value to market comparable	Bond price equivalent	12	104	77	23	114	98	points
Loans at fair value (held for trading and not held for trading) and guarantees[3]	*6.0*	*5.2*	*0.0*	*0.0*	Relative value to market comparable	Loan price equivalent	3	101	93	1	173	84	points
					Discounted expected cash flows	Credit spread	17	294	94	16	545	195	basis points
					Market comparable and securitization model	Credit spread	98	1,958	225	75	1,899	208	basis points
Asset-backed securities	*0.7*	*0.7*	*0.0*	*0.0*	Relative value to market comparable	Bond price equivalent	5	105	80	0	112	79	points
Investment fund units[4]	*0.7*	*0.8*	*0.0*	*0.0*	Relative value to market comparable	Net asset value							
Equity instruments[4]	*3.2*	*3.0*	*0.0*	*0.0*	Relative value to market comparable	Price							
Debt issued designated at fair value[3]			11.4	11.8									
Other financial liabilities designated at fair value[3]			3.8	4.3	Discounted expected cash flows	Funding spread	95	224		95	201		basis points
Derivative financial instruments													
Interest rate	*0.9*	*0.9*	*0.3*	*0.3*	Option model	Volatility of interest rates	53	119		50	156		basis points
						IR-to-IR correlation	68	99		60	99		%
					Discounted expected cash flows	Funding spread	5	20		5	20		basis points
Credit	*0.9*	*0.6*	*0.2*	*0.4*	Discounted expected cash flows	Credit spreads	3	1,760		2	1,789		basis points
						Credit correlation	50	58		50	66		%
						Recovery rates	0	100		0	100		%
					Option model	Credit volatility	60	143		59	127		%
						Recovery rates	0	40					%
Equity / index	*1.3*	*1.1*	*3.5*	*3.1*	Option model	Equity dividend yields	0	10		0	16		%
						Volatility of equity stocks, equity and other indices	3	99		4	126		%
						Equity-to-FX correlation	(65)	74		(65)	80		%
						Equity-to-equity correlation	(10)	100		0	100		%
Loan commitments measured at FVTPL			*0.0*	*0.1*	Relative value to market comparable	Loan price equivalent	80	100		60	101		points

1 The ranges of significant unobservable inputs are represented in points, percentages and basis points. Points are a percentage of par (e.g. 100 points would be 100% of par). 2 Weighted averages are provided for most non-derivative financial instruments and were calculated by weighting inputs based on the fair values of the respective instruments. Weighted averages are not provided for inputs related to Other financial liabilities designated at fair value and Derivative financial instruments, as this would not be meaningful. 3 Debt issued designated at fair value primarily consists of UBS AG structured notes, which include variable maturity notes with various equity and foreign exchange underlying risks, as well as rates-linked and credit-linked notes, all of which have embedded derivative parameters that are considered to be unobservable. The derivative instrument parameters for debt issued designated at fair value, embedded derivatives for over-the-counter debt instruments reported under Other financial liabilities designated at fair value and funded derivatives reported under Loans at fair value (held for trading and not held for trading) are presented in the corresponding derivative financial instruments lines in this table. 4 The range of inputs is not disclosed, as there is a dispersion of values given the diverse nature of the investments.

d) Level 3 instruments: sensitivity to changes in unobservable input assumptions

The table below summarizes those financial assets and liabilities classified as Level 3 for which a change in one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, and the estimated effect thereof.

The sensitivity data shown below presents an estimation of valuation uncertainty based on reasonably possible alternative values for Level 3 inputs at the balance sheet date and does not represent the estimated effect of stress scenarios. Typically, these financial assets and liabilities are sensitive to a combination of inputs from Levels 1–3. Although well-defined interdependencies may exist between Level 1 / 2 parameters and Level 3 parameters (e.g. between interest rates, which are generally Level 1 or Level 2, and prepayments, which are generally Level 3), these have not been incorporated in the table. Furthermore, direct interrelationships between the Level 3 parameters are not a significant element of the valuation uncertainty.

Sensitivity of fair value measurements to changes in unobservable input assumptions[1]

	30.6.25		31.3.25		31.12.24	
USD m	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Loans at fair value (held for trading and not held for trading) and guarantees[2]	141	(112)	147	(115)	185	(143)
Securities financing transactions	25	(14)	25	(20)	30	(24)
Auction rate securities	8	(4)	8	(6)	8	(6)
Asset-backed securities	19	(17)	23	(18)	32	(28)
Equity instruments	387	(370)	348	(314)	333	(308)
Investment fund units	178	(180)	176	(178)	179	(181)
Loan commitments measured at FVTPL	13	(41)	15	(47)	38	(42)
Interest rate derivatives, net	68	(58)	77	(65)	115	(70)
Credit derivatives, net	78	(108)	88	(108)	112	(117)
Foreign exchange derivatives, net	6	(5)	4	(3)	3	(2)
Equity / index derivatives, net	690	(577)	619	(503)	732	(617)
Other	216	(115)	256	(152)	289	(161)
Total	1,830	(1,601)	1,785	(1,528)	2,056	(1,700)

1 Sensitivity of issued and over-the-counter debt instruments is reported with the equivalent derivative or Other. 2 Sensitivity of funded derivatives is reported under equivalent derivatives.

e) Level 3 instruments: movements during the period

The table below presents additional information about material Level 3 assets and liabilities measured at fair value on a recurring basis. Level 3 assets and liabilities may be hedged with instruments classified as Level 1 or Level 2 in the fair value hierarchy and, as a result, realized and unrealized gains and losses included in the table may not include the effect of related hedging activity. Furthermore, the realized and unrealized gains and losses presented in the table are not limited solely to those arising from Level 3 inputs, as valuations are generally derived from both observable and unobservable parameters.

Assets and liabilities transferred into or out of Level 3 are presented as if those assets or liabilities had been transferred on 1 January 2025.

Note 10 Fair value measurement (continued)

Movements of Level 3 instruments

USD bn	Balance at the beginning of the period	Effect from merger of UBS AG and Credit Suisse AG	Net gains / losses included in compre-hensive income[1]	*of which: related to instruments held at the end of the period*	Purchases	Sales	Issuances	Settlements	Transfers into Level 3	Transfers out of Level 3	Foreign currency translation	Balance at the end of the period

1 Net gains / losses included in comprehensive income are recognized in Net interest income and Other net income from financial instruments measured at fair value through profit or loss in the Income statement, and also in Gains / (losses) from own credit on financial liabilities designated at fair value, before tax in the Statement of comprehensive income. 2 Total Level 3 assets as of 30 June 2025 were USD 15.9bn (31 December 2024: USD 14.7bn). Total Level 3 liabilities as of 30 June 2025 were USD 19.4bn (31 December 2024: USD 20.4bn).

f) Financial instruments not measured at fair value

The table below reflects the estimated fair values of financial instruments not measured at fair value. Valuation principles applied when determining fair value estimates for financial instruments not measured at fair value are consistent with those described in "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024.

Financial instruments not measured at fair value

	30.6.25		31.3.25		31.12.24	
USD bn	Carrying amount	Fair value	Carrying amount	Fair value	Carrying amount	Fair value
Assets						
Cash and balances at central banks	236.2	236.2	231.4	231.4	223.3	223.3
Amounts due from banks	20.7	20.7	20.3	20.3	18.1	18.1
Receivables from securities financing transactions measured at amortized cost	110.2	110.2	101.8	101.8	118.3	118.3
Cash collateral receivables on derivative instruments	45.5	45.5	39.0	39.0	44.0	44.0
Loans and advances to customers	653.2	649.3	603.2	597.1	587.3	582.4
Other financial assets measured at amortized cost	72.5	71.3	66.9	65.4	59.3	57.5
Liabilities						
Amounts due to banks	31.9	31.9	27.8	27.8	23.3	23.4
Payables from securities financing transactions measured at amortized cost	16.3	16.3	15.0	15.0	14.8	14.8
Cash collateral payables on derivative instruments	33.5	33.5	32.0	32.0	36.4	36.4
Customer deposits	804.7	805.5	747.5	748.2	749.5	750.0
Funding from UBS Group AG measured at amortized cost	113.0	117.2	111.5	115.3	107.9	112.5
Debt issued measured at amortized cost	107.5	107.9	98.3	98.7	101.1	102.7
Other financial liabilities measured at amortized cost[1]	14.9	14.9	15.6	15.6	17.9	17.9

1 Excludes lease liabilities.

Note 11 Derivative instruments

a) Derivative instruments

As of 30.6.25, USD bn	Derivative financial assets	Derivative financial liabilities	Notional values related to derivative financial assets and liabilities[1]	Other notional values[2]
Derivative financial instruments				
Interest rate	38.6	33.6	3,687	18,031
Credit derivatives	3.2	3.4	132	
Foreign exchange	78.6	88.9	8,221	372
Equity / index	45.4	53.8	1,579	98
Commodities	4.3	3.5	174	19
Other[3]	0.6	0.7	168	
Total derivative financial instruments, based on netting under IFRS Accounting Standards[4]	170.6	183.9	13,961	18,519
Further netting potential not recognized on the balance sheet[5]	(153.5)	(162.0)		
of which: netting of recognized financial liabilities / assets	*(130.5)*	*(130.5)*		
of which: netting with collateral received / pledged	*(23.0)*	*(31.5)*

1 In cases where derivative financial instruments are presented on a net basis on the balance sheet, the respective notional values of the netted derivative financial instruments are still presented on a gross basis. Notional amounts of client-cleared ETD and OTC transactions through central clearing counterparties are not disclosed, as they have a significantly different risk profile. 2 Other notional values relate to derivatives that are cleared through either a central counterparty or an exchange and settled on a daily basis. The fair value of these derivatives is presented on the balance sheet within Cash collateral receivables on derivative instruments and Cash collateral payables on derivative instruments. 3 Includes Loan commitments measured at FVTPL, as well as unsettled purchases and sales of non-derivative financial instruments for which the changes in the fair value between trade date and settlement date are recognized as derivative financial instruments. 4 Financial assets and liabilities are presented net on the balance sheet if UBS AG has the unconditional and legally enforceable right to offset the recognized amounts, both in the normal course of business and in the event of default, bankruptcy or insolvency of UBS AG or its counterparties, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information. 5 Reflects the netting potential in accordance with enforceable master netting and similar arrangements where not all criteria for a net presentation on the balance sheet have been met. Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information.

b) Cash collateral on derivative instruments

1 Financial assets and liabilities are presented net on the balance sheet if UBS AG has the unconditional and legally enforceable right to offset the recognized amounts, both in the normal course of business and in the event of default, bankruptcy or insolvency of UBS AG or its counterparties, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. 2 Reflects the netting potential in accordance with enforceable master netting and similar arrangements where not all criteria for a net presentation on the balance sheet have been met. Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024 for more information.

Note 12 Other assets and liabilities

a) Other financial assets measured at amortized cost

USD m	30.6.25	31.3.25	31.12.24
Debt securities	52,642	48,095	41,583
Loans to financial advisors	2,682	2,738	2,723
Fee- and commission-related receivables	2,716	2,493	2,231
Finance lease receivables	6,811	6,104	5,934
Settlement and clearing accounts	457	444	430
Accrued interest income	2,195	2,127	2,196
Other[1]	5,043	4,864	4,182
Total other financial assets measured at amortized cost	72,546	66,864	59,279

1 Predominantly includes cash collateral provided to exchanges and clearing houses to secure securities trading activity through those counterparties.

b) Other non-financial assets

USD m	30.6.25	31.3.25	31.12.24
Precious metals and other physical commodities	9,465	7,623	7,341
Deposits and collateral provided in connection with litigation, regulatory and similar matters[1]	2,132	2,012	1,946
Prepaid expenses	1,271	1,285	1,194
Current tax assets	1,347	1,410	1,504
VAT, withholding tax and other tax receivables	974	816	1,129
Properties and other non-current assets held for sale	186	189	195
Assets of disposal groups held for sale[2]			1,823
Other	1,708	1,799	2,149
Total other non-financial assets	17,082	15,134	17,282

1 Refer to Note 16 for more information. 2 Refer to Note 6 for more information about the sale of Select Portfolio Servicing.

c) Other financial liabilities measured at amortized cost

USD m	30.6.25	31.3.25	31.12.24
Other accrued expenses	2,607	2,646	2,732
Accrued interest expenses	5,317	4,910	5,862
Settlement and clearing accounts	1,892	2,193	1,925
Lease liabilities	3,631	3,824	3,871
Other	5,081	5,849	7,372
Total other financial liabilities measured at amortized cost	18,528	19,421	21,762

d) Other financial liabilities designated at fair value

USD m	30.6.25	31.3.25	31.12.24
Financial liabilities related to unit-linked investment contracts	19,669	17,528	17,203
Securities financing transactions	4,699	4,093	5,798
Over-the-counter debt instruments and other	5,043	5,613	5,698
Funding from UBS Group AG[1]	6,119	5,557	5,342
Total other financial liabilities designated at fair value	35,529	32,792	34,041

1 Funding from UBS Group AG consists of subordinated debt of UBS AG and its subsidiaries toward UBS Group AG. Subordinated debt consists of unsecured debt obligations that are contractually subordinated in right of payment to all other present and future non-subordinated obligations of the respective issuing entity.

e) Other non-financial liabilities

USD m	30.6.25	31.3.25	31.12.24
Compensation-related liabilities	5,501	4,460	6,897
of which: net defined benefit liability	*739*	*704*	*691*
Current tax liabilities	934	1,697	1,536
Deferred tax liabilities	322	303	283
VAT, withholding tax and other tax payables	914	888	1,067
Deferred income	639	596	614
Liabilities of disposal groups held for sale[1]			1,212
Other	119	80	304
Total other non-financial liabilities	8,429	8,024	11,911

1 Refer to Note 6 for more information about the sale of Select Portfolio Servicing.

Note 13 Funding from UBS Group AG measured at amortized cost

Funding from UBS Group AG measured at amortized cost

USD m	30.6.25	31.3.25	31.12.24
Debt contributing to total loss-absorbing capacity (TLAC)	87,555	88,236	87,036
Debt eligible as high-trigger loss-absorbing additional tier 1 capital instruments[1]	18,656	18,325	14,585
Debt eligible as low-trigger loss-absorbing additional tier 1 capital instruments			1,245
Other[2]	6,789	4,895	5,051
Total funding from UBS Group AG measured at amortized cost[3,4]	113,000	111,457	107,918

1 For 30 June 2025, includes USD 10.2bn (31 March 2025: USD 10.1bn; 31 December 2024: USD 6.9bn) that is, upon the occurrence of a trigger event or a viability event, subject to conversion into ordinary UBS shares. 2 Includes debt no longer eligible as TLAC having a residual maturity of less than one year and high-trigger loss-absorbing additional tier 1 capital instruments that ceased to be eligible when UBS Group AG issued notice of redemption. 3 Consists of subordinated debt of UBS AG and its subsidiaries toward UBS Group AG. Subordinated debt consists of unsecured debt obligations that are contractually subordinated in right of payment to all other present and future non-subordinated obligations of the respective issuing entity. 4 UBS AG has also recognized funding from UBS Group AG that is designated at fair value. Refer to Note 12d for more information.

Note 14 Debt issued designated at fair value

Debt issued designated at fair value

USD m	30.6.25	31.3.25	31.12.24
Equity-linked[1]	59,645	57,151	54,069
Rates-linked	23,607	23,778	23,641
Credit-linked	4,197	5,354	5,225
Fixed-rate	15,027	15,178	14,250
Commodity-linked	3,140	3,462	3,592
Other	2,636	2,470	1,789
Total debt issued designated at fair value[2]	108,252	107,393	102,567
of which: issued by UBS AG standalone with original maturity greater than one year[3]	*89,883*	*85,588*	*82,491*
of which: issued by Credit Suisse International standalone with original maturity greater than one year[3]	*2*	*110*	*96*

1 Includes investment fund unit-linked instruments issued. 2 As of 30 June 2025, 100% of Total debt issued designated at fair value was unsecured (31 March 2025: 100% and 31 December 2024: 100%). 3 Based on original contractual maturity without considering any early redemption features.

Note 15 Debt issued measured at amortized cost

Debt issued measured at amortized cost

USD m	30.6.25	31.3.25	31.12.24
Short-term debt[1]	35,306	30,582	30,509
Senior unsecured debt	29,414	30,106	33,416
of which: issued by UBS AG standalone with original maturity greater than one year	*29,370*	*30,071*	*32,621*
Covered bonds	11,479	9,089	8,814
Subordinated debt	673	676	689
of which: eligible as non-Basel III-compliant tier 2 capital instruments	*196*	*205*	*207*
Debt issued through the Swiss central mortgage institutions	30,158	27,378	27,251
Other long-term debt	476	429	424
Long-term debt[2]	72,199	67,677	70,595
Total debt issued measured at amortized cost[3,4]	107,505	98,259	101,104

1 Debt with an original contractual maturity of less than one year, includes mainly certificates of deposit and commercial paper. 2 Debt with an original contractual maturity greater than or equal to one year. The classification of debt issued into short-term and long-term does not consider any early redemption features. 3 Net of bifurcated embedded derivatives, the fair value of which was not material for the periods presented. 4 Except for Covered bonds (100% secured), Debt issued through the Swiss central mortgage institutions (100% secured) and Other long-term debt (93% secured), 100% of the balance was unsecured as of 30 June 2025.

Note 16 Provisions and contingent liabilities

a) Provisions

The table below presents an overview of total provisions.

Overview of total provisions

USD m	30.6.25	31.3.25	31.12.24
Provisions other than provisions for expected credit losses	4,666	5,146	4,799
Provisions for expected credit losses[1]	415	348	332
Total provisions	5,082	5,495	5,131

1 Refer to Note 9c for more information about ECL provisions recognized for off-balance sheet financial instruments and credit lines.

The table below presents additional information for provisions other than provisions for expected credit losses.

Additional information for provisions other than provisions for expected credit losses

USD m	Litigation, regulatory and similar matters[1]	Restructuring[2]	Real estate[3]	Other[4]	Total
Balance as of 31 December 2024	3,598	699	224	278	4,799

Balance as of 30 June 2025	3,446	684	240	296	4,666

1 Consists of provisions for losses resulting from legal, liability and compliance risks. 2 Includes USD 265m of provisions for onerous contracts related to real estate as of 30 June 2025 (31 March 2025: USD 374m; 31 December 2024: USD 383m); USD 363m of personnel-related restructuring provisions as of 30 June 2025 (31 March 2025: USD 342m; 31 December 2024: USD 262m) and USD 55m of provisions for onerous contracts related to technology as of 30 June 2025 (31 March 2025: USD 66m; 31 December 2024: USD 54m). 3 Mainly includes provisions for reinstatement costs with respect to leased properties. 4 Mainly includes provisions related to employee benefits, VAT and operational risks. 5 Includes a new provision for the estimated costs associated with UBS AG's ongoing obligations as described in item 1 of section b) of this Note. 6 Mainly includes provisions used for the resolution reached with the US Department of Justice in the second quarter of 2025 as described in item 1 of section b) of this Note.

Information about provisions and contingent liabilities in respect of litigation, regulatory and similar matters, as a class, is included in Note 16b. There are no material contingent liabilities associated with the other classes of provisions.

b) Litigation, regulatory and similar matters

UBS operates in a legal and regulatory environment that exposes it to significant litigation and similar risks arising from disputes and regulatory proceedings. As a result, UBS is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations. "UBS", "we" and "our", for purposes of this Note, refer to UBS AG and / or one or more of its subsidiaries, as applicable.

Such matters are subject to many uncertainties, and the outcome and the timing of resolution are often difficult to predict, particularly in the earlier stages of a case. There are also situations where UBS may enter into a settlement agreement. This may occur in order to avoid the expense, management distraction or reputational implications of continuing to contest liability, even for those matters for which UBS believes it should be exonerated. The uncertainties inherent in all such matters affect the amount and timing of any potential outflows for both matters with respect to which provisions have been established and other contingent liabilities. UBS makes provisions for such matters brought against it when, in the opinion of management after seeking legal advice, it is more likely than not that UBS has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required, and the amount can be reliably estimated. Where these factors are otherwise satisfied, a provision may be established for claims that have not yet been asserted against UBS, but are nevertheless expected to be, based on UBS's experience with similar asserted claims. If any of those conditions is not met, such matters result in contingent liabilities. If the amount of an obligation cannot be reliably estimated, a liability exists that is not recognized even if an outflow of resources is probable. Accordingly, no provision is established even if the potential outflow of resources with respect to such matters could be significant. Developments relating to a matter that occur after the relevant reporting period, but prior to the issuance of financial statements, which affect management's assessment of the provision for such matter (because, for example, the developments provide evidence of conditions that existed at the end of the reporting period), are adjusting events after the reporting period under IAS 10 and must be recognized in the financial statements for the reporting period.

Specific litigation, regulatory and other matters are described below, including all such matters that management considers to be material and others that management believes to be of significance to UBS due to potential financial, reputational and other effects. The amount of damages claimed, the size of a transaction or other information is provided where available and appropriate in order to assist users in considering the magnitude of potential exposures.

Note 16 Provisions and contingent liabilities (continued)

In the case of certain matters below, we state that we have established a provision, and for the other matters, we make no such statement. When we make this statement and we expect disclosure of the amount of a provision to prejudice seriously our position with other parties in the matter because it would reveal what UBS believes to be the probable and reliably estimable outflow, we do not disclose that amount. In some cases we are subject to confidentiality obligations that preclude such disclosure. With respect to the matters for which we do not state whether we have established a provision, either: (a) we have not established a provision; or (b) we have established a provision but expect disclosure of that fact to prejudice seriously our position with other parties in the matter because it would reveal the fact that UBS believes an outflow of resources to be probable and reliably estimable.

With respect to certain litigation, regulatory and similar matters for which we have established provisions, we are able to estimate the expected timing of outflows. However, the aggregate amount of the expected outflows for those matters for which we are able to estimate expected timing is immaterial relative to our current and expected levels of liquidity over the relevant time periods.

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in the "Provisions" table in Note 16a above. UBS provides below an estimate of the aggregate liability for its litigation, regulatory and similar matters as a class of contingent liabilities. Estimates of contingent liabilities are inherently imprecise and uncertain as these estimates require UBS to make speculative legal assessments as to claims and proceedings that involve unique fact patterns or novel legal theories, that have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Taking into account these uncertainties and the other factors described herein, UBS estimates the future losses that could arise from litigation, regulatory and similar matters disclosed below for which an estimate is possible, that are not covered by existing provisions are in the range of USD 0bn to USD 3.1bn.

Litigation, regulatory and similar matters may also result in non-monetary penalties and consequences. A guilty plea to, or conviction of, a crime could have material consequences for UBS. Resolution of regulatory proceedings may require UBS to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations, and may permit financial market utilities to limit, suspend or terminate UBS's participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations, could have material consequences for UBS.

Provisions for litigation, regulatory and similar matters, by business division and in Group Items[1]

1 Provisions, if any, for the matters described in items 2 and 9 of this Note are recorded in Global Wealth Management. Provisions, if any, for the matters described in items 4, 5, 6, 7 and 8 of this Note are recorded in Non-core and Legacy. Provisions, if any, for the matters described in item 1 of this Note are allocated between Global Wealth Management, Personal & Corporate Banking and Non-core and Legacy. Provisions, if any, for the matters described in item 3 of this Note are allocated between the Investment Bank, Non-core and Legacy and Group Items. Provisions, if any, for the matters described in item 10 of this Note are allocated between the Investment Bank and Non-core and Legacy. 2 Includes a new provision for the estimated costs of UBS AG's ongoing obligations with the US Department of Justice as described in item 1 of this Note. 3 Mainly includes provisions used for the resolution reached with the US Department of Justice in the second quarter of 2025 as described in item 1 of this Note.

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. Credit Suisse offices in various locations, including the UK, the Netherlands, France and Belgium, have been contacted by regulatory and law enforcement authorities seeking records and information concerning investigations into Credit Suisse's historical private banking services on a cross-border basis and in part through its local branches and banks. The UK and French aspects of these issues have been closed. UBS is continuing to cooperate with the authorities.

Since 2013, UBS (France) S.A., UBS AG and certain former employees have been under investigation in France in relation to UBS's cross-border business with French clients. In connection with this investigation, the investigating judges ordered UBS AG to provide bail ("*caution*") of EUR 1.1bn.

In 2019, the court of first instance returned a verdict finding UBS AG guilty of unlawful solicitation of clients on French territory and aggravated laundering of the proceeds of tax fraud, and UBS (France) S.A. guilty of aiding and abetting unlawful solicitation and of laundering the proceeds of tax fraud. The court imposed fines aggregating EUR 3.7bn on UBS AG and UBS (France) S.A. and awarded EUR 800m of civil damages to the French state. A trial in the Paris Court of Appeal took place in March 2021. In December 2021, the Court of Appeal found UBS AG guilty of unlawful solicitation and aggravated laundering of the proceeds of tax fraud. The court ordered a fine of EUR 3.75m, the confiscation of EUR 1bn, and awarded civil damages to the French state of EUR 800m. UBS appealed the decision to the French Supreme Court. The Supreme Court rendered its judgment on 15 November 2023. It upheld the Court of Appeal's decision regarding unlawful solicitation and aggravated laundering of the proceeds of tax fraud, but overturned the confiscation of EUR 1bn, the penalty of EUR 3.75m and the EUR 800m of civil damages awarded to the French state. The case has been remanded to the Court of Appeal for a retrial regarding these overturned elements. The French state has reimbursed the EUR 800m of civil damages to UBS AG.

In May 2014, Credit Suisse AG entered into settlement agreements with the SEC, the Federal Reserve, and the New York Department of Financial Services and agreed with the US Department of Justice (the DOJ) to plead guilty to conspiring to aid and assist US taxpayers in filing false tax returns (the 2014 Plea Agreement). Credit Suisse continued to report to and cooperate with US authorities in accordance with its obligations under the 2014 Plea Agreement, including by conducting a review of cross-border services provided by Credit Suisse. In this connection, Credit Suisse provided information to US authorities regarding potentially undeclared US assets held by clients at Credit Suisse since the 2014 Plea Agreement. In May 2025, Credit Suisse Services AG entered into a plea agreement (the 2025 Plea Agreement) with the DOJ under which it agreed to plead guilty to one count of conspiracy to aid and assist in the preparation of false income tax returns relating to legacy Credit Suisse accounts booked in Credit Suisse's Swiss booking center, thereby settling the investigation into Credit Suisse's implementation of the 2014 Plea Agreement. In addition, Credit Suisse Services AG entered into a non-prosecution agreement with the DOJ (the 2025 NPA) relating to legacy Credit Suisse accounts booked in Credit Suisse's Singapore booking center. The 2025 Plea Agreement and the 2025 NPA provide for penalties, restitution and forfeiture of USD 511m in the aggregate. The 2025 Plea Agreement and the 2025 NPA include ongoing obligations of UBS to furnish information and cooperate with DOJ's investigations of legacy Credit Suisse accounts held by US persons in its Switzerland and Singapore booking centers and related accounts in other booking centers. In the second quarter of 2025, we recorded in our Non-core and Legacy division a USD 41m net increase in provisions, which included a new provision for the estimated costs of UBS's ongoing obligations with the DOJ.

Our balance sheet at 30 June 2025 reflected provisions in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

2. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC (BMIS) investment fraud, UBS AG, UBS (Luxembourg) S.A. (now UBS Europe SE, Luxembourg branch) and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the Swiss Financial Market Supervisory Authority (FINMA) and the Luxembourg Commission de Surveillance du Secteur Financier. Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds faced severe losses, and the Luxembourg funds are in liquidation. The documentation establishing both funds identifies UBS entities in various roles, including custodian, administrator, manager, distributor and promoter, and indicates that UBS employees serve as board members.

In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims against UBS entities, non-UBS entities and certain individuals, including current and former UBS employees, seeking amounts totaling approximately EUR 2.1bn, which includes amounts that the funds may be held liable to pay the trustee for the liquidation of BMIS (BMIS Trustee).

A large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff fraud. The majority of these cases have been filed in Luxembourg, where decisions that the claims in eight test cases were inadmissible have been affirmed by the Luxembourg Court of Appeal, and the Luxembourg Supreme Court has dismissed a further appeal in one of the test cases.

In the US, the BMIS Trustee filed claims against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2bn. In 2014, the US Supreme Court rejected the BMIS Trustee's motion for leave to appeal decisions, dismissing all claims against UBS defendants except those for the recovery of approximately USD 125m of payments alleged to be fraudulent conveyances and preference payments. Similar claims have been filed against Credit Suisse entities seeking to recover redemption payments. In 2016, the bankruptcy court dismissed these claims against the UBS entities and most of the Credit Suisse entities. In 2019, the Court of Appeals reversed the dismissal of the BMIS Trustee's remaining claims. The cases were remanded to the Bankruptcy Court for further proceedings.

3. Foreign exchange, LIBOR and benchmark rates, and other trading practices

Foreign-exchange-related regulatory matters: Beginning in 2013, numerous authorities commenced investigations concerning possible manipulation of foreign exchange markets and precious metals prices. As a result of these investigations, UBS entered into resolutions with Swiss, US and UK regulators and the European Commission. UBS was granted conditional immunity by the Antitrust Division of the DOJ and by authorities in other jurisdictions in connection with potential competition law violations relating to foreign exchange and precious metals businesses. In December 2021, the European Commission issued a decision imposing a fine of EUR 83.3m on Credit Suisse entities based on findings of anticompetitive practices in the foreign exchange market. Credit Suisse appealed the decision to the European General Court and, in July 2025, the court issued a judgment reducing the fine to EUR 28.9m. The European Commission is permitted to appeal the decision. UBS received leniency and accordingly no fine was assessed.

Foreign-exchange-related civil litigation: Putative class actions have been filed since 2013 in US federal courts and in other jurisdictions against UBS, Credit Suisse and other banks on behalf of persons who engaged in foreign currency transactions with any of the defendant banks. UBS and Credit Suisse have resolved US federal court class actions relating to foreign currency transactions with the defendant banks and persons who transacted in foreign exchange futures contracts and options on such futures. Certain class members have excluded themselves from that settlement and filed individual actions in US and English courts against UBS, Credit Suisse and other banks, alleging violations of US and European competition laws and unjust enrichment. UBS, Credit Suisse and the other banks have resolved those individual matters. In addition, Credit Suisse and UBS, together with other financial institutions, were named in a consolidated putative class action in Israel, which made allegations similar to those made in the actions pursued in other jurisdictions. Credit Suisse and UBS entered into agreements to settle all claims in this action in April 2022 and February 2024, respectively. Credit Suisse's settlement received court approval and became final in May 2025. UBS's settlement remains subject to court approval.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies conducted investigations regarding potential improper attempts by UBS, among others, to manipulate LIBOR and other benchmark rates at certain times. UBS and Credit Suisse reached settlements or otherwise concluded investigations relating to benchmark interest rates with the investigating authorities. UBS was granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Antitrust Division of the DOJ and the Swiss Competition Commission (WEKO), in connection with potential antitrust or competition law violations related to certain rates. However, UBS has not reached a final settlement with WEKO, as the Secretariat of WEKO has asserted that UBS does not qualify for full immunity.

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives. Also pending in the US and in other jurisdictions are a number of other actions asserting losses related to various products whose interest rates were linked to LIBOR and other benchmarks, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. The complaints allege manipulation, through various means, of certain benchmark interest rates, including USD LIBOR, Yen LIBOR, EURIBOR, CHF LIBOR, and GBP LIBOR and seek unspecified compensatory and other damages under various legal theories.

USD LIBOR class and individual actions in the US: Beginning in 2013, putative class actions were filed in US federal district courts (and subsequently consolidated in the US District Court for the Southern District of New York (SDNY)) by plaintiffs who engaged in over-the-counter instruments, exchange-traded Eurodollar futures and options, bonds or loans that referenced USD LIBOR. The complaints allege violations of antitrust law and the Commodities Exchange Act, as well breach of contract and unjust enrichment. Following various rulings by the SDNY and the Second Circuit dismissing certain of the causes of action and allowing others to proceed, one class action with respect to transactions in over-the-counter instruments and several actions brought by individual plaintiffs are proceeding in the district court. UBS and Credit Suisse have entered into settlement agreements in respect of the class actions relating to exchange-traded instruments, bonds and loans. These settlements have received final court approval and the actions have been dismissed as to UBS and Credit Suisse. In addition, an individual action was filed in federal court in California against UBS, Credit Suisse and numerous other banks alleging that the defendants conspired to fix the interest rate used as the basis for loans to consumers by jointly setting the USD ICE LIBOR rate and monopolized the market for LIBOR-based consumer loans and credit cards. The court dismissed the initial complaint and subsequently dismissed an amended complaint with prejudice; the US Court of Appeals for the Ninth Circuit affirmed the dismissal. In June 2025, the US Supreme Court denied plaintiffs' petition to challenge the decisions of the lower courts.

Other benchmark class actions in the US: The Yen LIBOR/Euroyen TIBOR, EURIBOR and GBP LIBOR actions have been dismissed. Plaintiffs have appealed the dismissals.

In January 2023, defendants moved to dismiss the complaint in the CHF LIBOR action. In 2023, the court approved a settlement by Credit Suisse of the claims against it in this matter.

Government bonds: In 2021, the European Commission issued a decision finding that UBS and six other banks breached European Union antitrust rules between 2007 and 2011 relating to European government bonds. The European Commission fined UBS EUR 172m, which amount was confirmed on appeal in March 2025. UBS has appealed to the European Court of Justice.

Credit default swap auction litigation – In June 2021, Credit Suisse, along with other banks and entities, was named in a putative class action filed in federal court in New Mexico alleging manipulation of credit default swap (CDS) final auction prices. Defendants filed a motion to enforce a previous CDS class action settlement in the SDNY. In January 2024, the SDNY ruled that, to the extent claims in the New Mexico action arise from conduct prior to 30 June 2014, those claims are barred by the SDNY settlement. The plaintiffs appealed and, in May 2025, the Second Circuit affirmed the SDNY decision.

With respect to additional matters and jurisdictions not encompassed by the settlements and orders referred to above, UBS's balance sheet at 30 June 2025 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

4. Mortgage-related matters

Government and regulatory related matters: DOJ RMBS settlement – In January 2017, Credit Suisse Securities (USA) LLC (CSS LLC) and its current and former US subsidiaries and US affiliates reached a settlement with the DOJ related to its legacy Residential Mortgage-Backed Securities (RMBS) business, a business conducted through 2007. The settlement resolved potential civil claims by the DOJ related to certain of those Credit Suisse entities' packaging, marketing, structuring, arrangement, underwriting, issuance and sale of RMBS. Pursuant to the terms of the settlement a civil monetary penalty was paid to the DOJ in January 2017. The settlement also required the Credit Suisse entities to provide certain levels of consumer relief measures, including affordable housing payments and loan forgiveness, and the DOJ and Credit Suisse agreed to the appointment of an independent monitor to oversee the completion of the consumer relief requirements of the settlement. In August 2025, CSS LLC entered into an agreement with the DOJ to resolve all of Credit Suisse's outstanding Consumer Relief Obligations under the 2017 settlement by paying USD 300m. UBS AG is fully provisioned for this settlement, which will not have a material effect on its financial statements for the third quarter of 2025.

Civil litigation: Repurchase litigations – Credit Suisse affiliates are defendants in various civil litigation matters related to their roles as issuer, sponsor, depositor, underwriter and/or servicer of RMBS transactions. These cases currently include repurchase actions by RMBS trusts and/or trustees, in which plaintiffs generally allege breached representations and warranties in respect of mortgage loans and failure to repurchase such mortgage loans as required under the applicable agreements. The amounts disclosed below do not reflect actual realized plaintiff losses to date. Unless otherwise stated, these amounts reflect the original unpaid principal balance amounts as alleged in these actions.

DLJ Mortgage Capital, Inc. (DLJ) is a defendant in New York State court in five actions: An action brought by Asset Backed Securities Corporation Home Equity Loan Trust, Series 2006-HE7 alleges damages of not less than USD 374m. In December 2023, the court granted in part DLJ's motion to dismiss, dismissing with prejudice all notice-based claims; the parties have appealed. An action by Home Equity Asset Trust, Series 2006-8, alleges damages of not less than USD 436m. An action by Home Equity Asset Trust 2007-1 alleges damages of not less than USD 420m. Following a non-jury trial, the court issued a decision in December 2024 that the plaintiff established liability relating to certain of the loans at issue, and in May 2025, the court awarded damages of approximately USD 66m plus interest and costs. The parties have appealed the decision on liability. An action by Home Equity Asset Trust 2007-2 alleges damages of not less than USD 495m. An action by CSMC Asset-Backed Trust 2007-NC1 does not allege a damages amount.

5. ATA litigation

Since November 2014, a series of lawsuits have been filed against a number of banks, including Credit Suisse, in the US District Court for the Eastern District of New York (EDNY) and the SDNY alleging claims under the United States Anti-Terrorism Act (ATA) and the Justice Against Sponsors of Terrorism Act. The plaintiffs in each of these lawsuits are, or are relatives of, victims of various terrorist attacks in Iraq and allege a conspiracy and/or aiding and abetting based on allegations that various international financial institutions, including the defendants, agreed to alter, falsify or omit information from payment messages that involved Iranian parties for the express purpose of concealing the Iranian parties' financial activities and transactions from detection by US authorities. The lawsuits allege that this conduct has made it possible for Iran to transfer funds to Hezbollah and other terrorist organizations actively engaged in harming US military personnel and civilians. In January 2023, the Second Circuit affirmed a September 2019 ruling by the EDNY granting defendants' motion to dismiss the first filed lawsuit. In October 2023, the US Supreme Court denied plaintiffs' petition for a writ of certiorari. In February 2024, plaintiffs filed a motion to vacate the judgment in the first filed lawsuit. Of the other seven cases, four are stayed, including one that was dismissed as to Credit Suisse and most of the bank defendants prior to entry of the stay, and in three cases defendants moved to dismiss plaintiffs' amended complaints.

6. Customer account matters

Several clients have claimed that a former relationship manager in Switzerland had exceeded his investment authority in the management of their portfolios, resulting in excessive concentrations of certain exposures and investment losses. Credit Suisse AG has investigated the claims, as well as transactions among the clients. Credit Suisse AG filed a criminal complaint against the former relationship manager with the Geneva Prosecutor's Office upon which the prosecutor initiated a criminal investigation. Several clients of the former relationship manager also filed criminal complaints with the Geneva Prosecutor's Office. In February 2018, the former relationship manager was sentenced to five years in prison by the Geneva criminal court for fraud, forgery and criminal mismanagement and ordered to pay damages of approximately USD 130m. On appeal, the Criminal Court of Appeals of Geneva and, subsequently, the Swiss Federal Supreme Court upheld the main findings of the Geneva criminal court.

Civil lawsuits have been initiated against Credit Suisse AG and / or certain affiliates in various jurisdictions, based on the findings established in the criminal proceedings against the former relationship manager.

In Singapore, in a now-concluded civil lawsuit, Credit Suisse Trust Limited was ordered to pay USD 461m, including interest and costs.

In Bermuda, in the civil lawsuit brought against Credit Suisse Life (Bermuda) Ltd., the Supreme Court of Bermuda issued a judgment awarding damages of USD 607.35m to the plaintiff. Credit Suisse Life (Bermuda) Ltd. appealed the decision. In June 2023, the Bermuda Court of Appeal confirmed the award and the Supreme Court of Bermuda's finding that Credit Suisse Life (Bermuda) Ltd. breached its contractual and fiduciary duties, but overturned the finding that Credit Suisse Life (Bermuda) Ltd. made fraudulent misrepresentations. In March 2024, Credit Suisse Life (Bermuda) Ltd. was granted leave to appeal the judgment to the Judicial Committee of the Privy Council and a hearing on the appeal was held in June 2025. The Bermuda Court of Appeal also ordered that the current stay continue pending determination of the appeal on the condition that the damages awarded, plus interest calculated at the Bermuda statutory rate of 3.5%, remain in the escrow account.

In Switzerland, certain civil lawsuits have been commenced against Credit Suisse AG in the Court of First Instance of Geneva since March 2023.

7. Mozambique matter

Credit Suisse was subject to investigations by regulatory and enforcement authorities, as well as civil litigation, regarding certain Credit Suisse entities' arrangement of loan financing to Mozambique state enterprises, Proindicus S.A. and Empresa Moçambicana de Atum S.A. (EMATUM), a distribution to private investors of loan participation notes (LPN) related to the EMATUM financing in September 2013, and certain Credit Suisse entities' subsequent role in arranging the exchange of those LPNs for Eurobonds issued by the Republic of Mozambique. In 2019, three former Credit Suisse employees pleaded guilty in the EDNY to accepting improper personal benefits in connection with financing transactions carried out with two Mozambique state enterprises.

In October 2021, Credit Suisse reached settlements with the DOJ, the US Securities and Exchange Commission (SEC), the UK Financial Conduct Authority (FCA) and FINMA to resolve inquiries by these agencies, including findings that Credit Suisse failed to appropriately organize and conduct its business with due skill and care, and manage risks. Credit Suisse Group AG entered into a three-year Deferred Prosecution Agreement (DPA) with the DOJ in connection with the criminal information charging Credit Suisse Group AG with conspiracy to commit wire fraud and Credit Suisse Securities (Europe) Limited (CSSEL) entered into a Plea Agreement and pleaded guilty to one count of conspiracy to violate the US federal wire fraud statute. Under the terms of the DPA, UBS Group AG (as successor to Credit Suisse Group AG) continued compliance enhancement and remediation efforts agreed by Credit Suisse, and undertake additional measures as outlined in the DPA. In January 2025, as permitted under the terms of the DPA, the DOJ elected to extend the term of the DPA by one year.

8. ETN-related litigation

XIV litigation: Since March 2018, three class action complaints were filed in the SDNY on behalf of a putative class of purchasers of VelocityShares Daily Inverse VIX Short-Term Exchange Traded Notes linked to the S&P 500 VIX Short-Term Futures Index (XIV ETNs). The complaints have been consolidated and asserts claims against Credit Suisse for violations of various anti-fraud and anti-manipulation provisions of US securities laws arising from a decline in the value of XIV ETNs in February 2018. On appeal from an order of the SDNY dismissing all claims, the Second Circuit issued an order that reinstated a portion of the claims. In decisions in March 2023 and February 2025, the court granted class certification for two of the three classes proposed by plaintiffs and denied class certification of the third proposed class.

9. Bulgarian former clients matter

In December 2020, the Swiss Office of the Attorney General brought charges against Credit Suisse AG and other parties concerning the diligence and controls applied to a historical relationship with Bulgarian former clients who are alleged to have laundered funds through Credit Suisse AG accounts. In June 2022, following a trial, Credit Suisse AG was convicted in the Swiss Federal Criminal Court of certain historical organizational inadequacies in its anti-money-laundering framework and ordered to pay a fine of CHF 2m. In addition, the court seized certain client assets in the amount of approximately CHF 12m and ordered Credit Suisse AG to pay a compensatory claim in the amount of approximately CHF 19m. Credit Suisse AG appealed the decision to the Swiss Federal Court of Appeals. Following the merger of UBS AG and Credit Suisse AG, UBS AG confirmed the appeal. In November 2024, the court issued a judgment that acquitted UBS AG and annulled the fine and compensatory claim ordered by the first instance court. In February 2025, the court affirmed the acquittal of UBS AG, and the Office of the Attorney General has appealed the judgment to the Swiss Federal Supreme Court. UBS has also appealed, limited to the issue whether a successor entity by merger can be criminally liable for acts of the predecessor entity.

10. Archegos

Credit Suisse and UBS have received requests for documents and information in connection with inquiries, investigations and/or actions relating to their relationships with Archegos Capital Management (Archegos), including from FINMA (assisted by a third party appointed by FINMA), the DOJ, the SEC, the US Federal Reserve, the US Commodity Futures Trading Commission (CFTC), the US Senate Banking Committee, the Prudential Regulation Authority (PRA), the FCA, the WEKO, the Hong Kong Competition Commission and other regulatory and governmental agencies. UBS is cooperating with the authorities in these matters. In July 2023, CSI and CSSEL entered into a settlement agreement with the PRA providing for the resolution of the PRA's investigation. Also in July 2023, FINMA issued a decree ordering remedial measures and the Federal Reserve Board issued an Order to Cease and Desist. Under the terms of the order, Credit Suisse paid a civil money penalty and agreed to undertake certain remedial measures relating to counterparty credit risk management, liquidity risk management and non-financial risk management, as well as enhancements to board oversight and governance. UBS Group, as the legal successor to Credit Suisse Group AG, is a party to the FINMA decree and Federal Reserve Board Cease and Desist Order.

Civil actions relating to Credit Suisse's relationship with Archegos have been filed against Credit Suisse and/or certain officers and directors, including claims for breaches of fiduciary duties.

Note 17 Supplemental guarantor information

In 2015, the Personal & Corporate Banking and Wealth Management businesses booked in Switzerland were transferred from UBS AG to UBS Switzerland AG through an asset transfer in accordance with the Swiss Merger Act. Under the terms of the asset transfer agreement, UBS Switzerland AG assumed joint liability for contractual obligations of UBS AG existing on the asset transfer date, including the full and unconditional guarantee of certain SEC-registered debt securities issued by UBS AG. The joint liability of UBS Switzerland AG for contractual obligations of UBS AG increased in the first half of 2025 by USD 0.1bn to USD 2.7bn as of 30 June 2025. The increase reflected foreign currency effects, partly offset by contractual maturities and fair value movements.

UBS AG, together with UBS Group AG, has fully and unconditionally guaranteed the outstanding SEC-registered debt securities of Credit Suisse (USA), LLC, which as of 30 June 2025 consisted of a single outstanding issuance with a balance of USD 742m maturing in July 2032. Credit Suisse (USA), LLC is an indirect, wholly owned subsidiary of UBS AG. UBS AG assumed Credit Suisse AG's obligations under the guarantee as of 31 May 2024 (i.e. the date of the merger). In accordance with the guarantee, if Credit Suisse (USA), LLC fails to make a timely payment under the agreements governing such debt securities, the holders of the debt securities may demand payment from either UBS Group AG or UBS AG, without first proceeding against Credit Suisse (USA), LLC.

Comparison between UBS AG consolidated and UBS Group AG consolidated

The table below provides a comparison of selected financial and capital information of UBS AG consolidated and of UBS Group AG consolidated.

UBS AG and UBS Group AG both prepare consolidated financial statements in accordance with IFRS Accounting Standards. UBS Group AG has applied acquisition accounting as defined by IFRS 3, *Business Combinations*, to the acquisition of the Credit Suisse Group in 2023. The merger of UBS AG and Credit Suisse AG on 31 May 2024 has been accounted for as a business combination under common control, as defined in IFRS 3, using the historic carrying values of the assets and liabilities of Credit Suisse AG as at the date of the transaction (31 May 2024), determined under IFRS Accounting Standards. Therefore, differences exist between the accounting treatments applied at the UBS Group AG and UBS AG consolidated levels. There are also certain scope and presentation differences, as noted below.

- **Refer to "Note 2 Accounting for the merger of UBS AG and Credit Suisse AG" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about the accounting for the merger of UBS AG and Credit Suisse AG**

Assets, liabilities, revenues, operating expenses and tax expenses / (benefits) relating to UBS Group AG and its directly held subsidiaries, including UBS Business Solutions AG, are reflected in the consolidated financial statements of UBS Group AG but not in those of UBS AG. UBS AG's assets, liabilities, revenues and operating expenses related to transactions with UBS Group AG and its directly held subsidiaries, including UBS Business Solutions AG and other shared services subsidiaries, are not subject to elimination in the UBS AG consolidated financial statements, but are eliminated in the UBS Group AG consolidated financial statements.

In the second quarter of 2025, UBS AG consolidated recognized a net profit of USD 1,198m, while UBS Group AG consolidated recognized a net profit of USD 2,402m. The USD 1,205m difference was mainly due to certain purchase price allocation (PPA) effects recognized at the UBS Group AG level upon the acquisition of the Credit Suisse Group. These resulted in net accretion income at the UBS Group AG level, net of tax effects, whereas UBS AG has not applied acquisition accounting and does not have the PPA effects or the corresponding net income. The PPA effects also resulted in net releases for litigation, regulatory and similar matters for UBS Group AG (while UBS AG incurred net expenses). Other differences in net profit mainly arise as UBS Business Solutions AG and other shared services subsidiaries of UBS Group AG charge other legal entities within the UBS AG consolidation scope a markup on costs incurred for services provided.

As of 30 June 2025, the total assets of UBS AG consolidated were USD 1.8bn higher than the total assets of UBS Group AG consolidated. The difference mainly reflected PPA effects recognized at the UBS Group AG level upon the acquisition of the Credit Suisse Group, partly offset by consolidation scope differences. The total liabilities of UBS AG consolidated were USD 3.3bn lower than the total liabilities of UBS Group AG, mainly due to consolidation scope differences and PPA effects.

The equity of UBS AG consolidated was USD 5.2bn higher than the equity of UBS Group AG consolidated as of 30 June 2025. This difference was mainly due to PPA effects of USD 3.6bn recognized at the UBS Group AG level upon the acquisition of the Credit Suisse Group that did not impact UBS AG consolidated, primarily related to loans and loan commitments measured at amortized cost and contingent liabilities recognized under IFRS 3 for litigation, as well as consolidation scope differences of USD 1.4bn. The difference in the equity between the two scopes decreased by USD 4.4bn in the second quarter of 2025, mainly driven by the higher dividend paid by UBS AG to UBS Group AG compared with the dividend distribution of UBS Group AG.

The going concern capital of UBS AG consolidated was USD 3.2bn lower than the going concern capital of UBS Group AG consolidated as of 30 June 2025, reflecting the common equity tier 1 (CET1) capital of UBS AG being lower by USD 2.9bn and going concern loss-absorbing additional tier 1 (AT1) capital being USD 0.4bn lower.

The USD 2.9bn lower CET1 capital of UBS AG consolidated was primarily due to a USD 12.9bn difference in dividend accruals between UBS AG and UBS Group AG, largely offset by UBS Group AG consolidated equity being USD 5.2bn lower, compensation-related regulatory capital accruals at the UBS Group AG level of USD 2.8bn, a capital reserve for expected future share repurchases of USD 2.0bn and a USD 0.5bn effect from eligible deferred tax assets on temporary differences.

The quarterly average liquidity coverage ratio (the LCR) of UBS AG consolidated was 2.9 percentage points lower than the quarterly average LCR of UBS Group AG consolidated. The difference mainly reflected the higher net cash outflows of UBS AG consolidated from intercompany deposits and loans that are not within the Group consolidation scope but are within the UBS AG consolidation scope.

The net stable funding ratio (NSFR) of UBS AG consolidated was 1.5 percentage points lower than the NSFR of UBS Group AG consolidated. The difference primarily reflected lower UBS AG consolidated eligible regulatory capital as compared to UBS Group AG consolidated.

1 The disclosed ratios represent quarterly averages for the quarters presented and are calculated based on an average of 61 data points in the second quarter of 2025, 62 data points in the first quarter of 2025 and 64 data points in the fourth quarter of 2024. Refer to the "Liquidity and funding management" section of the UBS Group second quarter 2025 report, available under "Quarterly reporting" at ubs.com/investors, for more information.

Appendix

Alternative performance measures

An alternative performance measure (an APM) is a financial measure of historical or future financial performance, financial position or cash flows other than a financial measure defined or specified in the applicable recognized accounting standards or in other applicable regulations. A number of APMs are reported in the discussion of the financial and operating performance of the external reports (annual, quarterly and other reports). APMs are used to provide a more complete picture of operating performance and to reflect management's view of the fundamental drivers of the business results. A definition of each APM, the method used to calculate it and the information content are presented in alphabetical order in the table below. These APMs may qualify as non-GAAP measures as defined by US Securities and Exchange Commission (SEC) regulations.

APM label	Calculation	Information content
Cost / income ratio (%)	Calculated as operating expenses divided by total revenues.	This measure provides information about the efficiency of the business by comparing operating expenses with total revenues.
Cost of credit risk[1] (bps)	Calculated as total credit loss expense / (release) (annualized for reporting periods shorter than 12 months) divided by the average balance of lending assets for the reporting period, expressed in basis points. Lending assets include the gross amounts of Amounts due from banks and Loans and advances to customers.	This measure provides information about the total credit loss expense / (release) incurred in relation to the average balance of gross lending assets for the period.
Credit-impaired lending assets as a percentage of total lending assets, gross (%)	Calculated as credit-impaired lending assets divided by total lending assets. Lending assets includes the gross amounts of Amounts due from banks and Loans and advances to customers. Credit-impaired lending assets refers to the sum of stage 3 and purchased credit-impaired positions.	This measure provides information about the proportion of credit-impaired lending assets in the overall portfolio of gross lending assets.
Fee-generating assets (USD) – Global Wealth Management	Calculated as the sum of discretionary and nondiscretionary wealth management portfolios (mandate volume) and assets where generated revenues are predominantly of a recurring nature, i.e. mainly investment, mutual, hedge and private-market funds where we have a distribution agreement, including client commitments into closed-ended private-market funds from the date that recurring fees are charged. Assets related to our Global Financial Intermediaries business are excluded, as are assets of sanctioned clients.	This measure provides information about the volume of invested assets that create a revenue stream, whether as a result of the nature of the contractual relationship with clients or through the fee structure of the asset. An increase in the level of fee-generating assets results in an increase in the associated revenue stream. Assets of sanctioned clients are excluded from fee-generating assets.
Gross margin on invested assets[1] (bps) – Asset Management	Calculated as total revenues (annualized for reporting periods shorter than 12 months) divided by average invested assets.	This measure provides information about the total revenues of the business in relation to invested assets.
Impaired loan portfolio as a percentage of total loan portfolio, gross (%) – Global Wealth Management, Personal & Corporate Banking	Calculated as impaired loan portfolio divided by total gross loan portfolio.	This measure provides information about the proportion of impaired loan portfolio in the total gross loan portfolio.
Integration-related expenses (USD)	Generally include costs of internal staff and contractors substantially dedicated to integration activities, retention awards, redundancy costs, incremental expenses from the shortening of useful lives of property, equipment and software, and impairment charges relating to these assets. Classification as integration-related expenses does not affect the timing of recognition and measurement of those expenses or the presentation thereof in the income statement. Integration-related expenses incurred by Credit Suisse also included expenses associated with restructuring programs that existed prior to the acquisition.	This measure provides information about expenses that are temporary, incremental and directly related to the integration of Credit Suisse into UBS.

APM label	Calculation	Information content
Invested assets (USD and CHF) – Global Wealth Management, Personal & Corporate Banking, Asset Management	Calculated as the sum of managed fund assets, managed institutional assets, discretionary and advisory wealth management portfolios, fiduciary deposits, time deposits, savings accounts, and wealth management securities or brokerage accounts.	This measure provides information about the volume of client assets managed by or deposited with UBS for investment purposes.
Net interest margin[1] (bps) – Personal & Corporate Banking	Calculated as net interest income (annualized for reporting periods shorter than 12 months) divided by average loans.	This measure provides information about the profitability of the business by calculating the difference between the price charged for lending and the cost of funding, relative to loan value.
Net new assets (USD) – Global Wealth Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period, plus interest and dividends. Excluded from the calculation are movements due to market performance, foreign exchange translation, fees, and the effects on invested assets of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of invested assets during a specific period as a result of net new asset flows, plus the effect of interest and dividends.
Net new assets growth rate (%) – Global Wealth Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period (annualized for reporting periods shorter than 12 months), plus interest and dividends, divided by total invested assets at the beginning of the period.	This measure provides information about the growth of invested assets during a specific period as a result of net new asset flows.
Net new deposits (USD) – Global Wealth Management	Calculated as the net amount of inflows and outflows of deposits recorded during a specific period. Deposits include customer deposits and customer brokerage payables. Excluded from the calculation are movements due to fair value measurement, foreign exchange translation, accrued interest and fees, as well as the effects on customer deposits of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of deposits during a specific period as a result of net new deposit flows.
Net new fee-generating assets (USD) – Global Wealth Management	Calculated as the net amount of fee-generating asset inflows and outflows, including dividend and interest inflows into mandates and outflows from mandate fees paid by clients during a specific period. Excluded from the calculation are the effects on fee-generating assets of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of fee-generating assets during a specific period as a result of net flows, excluding movements due to market performance and foreign exchange translation, as well as the effects on fee-generating assets of strategic decisions by UBS to exit markets or services.
Net new loans (USD) – Global Wealth Management	Calculated as the net amount of originations, drawdowns and repayments of loans recorded during a specific period. Loans include loans and advances to customers and customer brokerage receivables. Excluded from the calculation are allowances, movements due to fair value measurement and foreign exchange translation, as well as the effects on loans and advances to customers of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of loans during a specific period as a result of net new loan flows.
Net new money (USD) – Global Wealth Management, Asset Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period. Excluded from the calculation are movements due to market performance, foreign exchange translation, dividends, interest and fees, as well as the effects on invested assets of strategic decisions by UBS to exit markets or services. Net new money is not measured for Personal & Corporate Banking.	This measure provides information about the development of invested assets during a specific period as a result of net new money flows.
Net profit growth (%)	Calculated as the change in net profit attributable to shareholders from continuing operations between current and comparison periods divided by net profit attributable to shareholders from continuing operations of the comparison period.	This measure provides information about profit growth since the comparison period.
Operating expenses (underlying) (USD)	Calculated by adjusting operating expenses as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses.	This measure provides information about the amount of operating expenses, while excluding items that management believes are not representative of the underlying performance of the businesses.

APM label	Calculation	Information content
Operating profit / (loss) before tax (underlying) (USD)	Calculated by adjusting operating profit / (loss) before tax as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses.	This measure provides information about the amount of operating profit / (loss) before tax, while excluding items that management believes are not representative of the underlying performance of the businesses.
Pre-tax profit growth (%) – Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank	Calculated as the change in net profit before tax attributable to shareholders from continuing operations between current and comparison periods divided by net profit before tax attributable to shareholders from continuing operations of the comparison period.	This measure provides information about pre-tax profit growth since the comparison period.
Pre-tax profit growth (underlying) (%) – Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank	Calculated as the change in net profit before tax attributable to shareholders from continuing operations between current and comparison periods divided by net profit before tax attributable to shareholders from continuing operations of the comparison period. Net profit before tax attributable to shareholders from continuing operations excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about pre-tax profit growth since the comparison period, while excluding items that management believes are not representative of the underlying performance of the businesses.
Recurring net fee income (USD and CHF) – Global Wealth Management, Personal & Corporate Banking	Calculated as the total of fees for services provided on an ongoing basis, such as portfolio management fees, asset-based investment fund fees and custody fees, which are generated on client assets, and administrative fees for accounts.	This measure provides information about the amount of recurring net fee income.
Return on attributed equity[1] (%)	Calculated as business division operating profit before tax (annualized for reporting periods shorter than 12 months) divided by average attributed equity.	This measure provides information about the profitability of the business divisions in relation to attributed equity.
Return on common equity tier 1 capital[1] (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average common equity tier 1 capital.	This measure provides information about the profitability of the business in relation to common equity tier 1 capital.
Return on equity[1] (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders.	This measure provides information about the profitability of the business in relation to equity.
Return on tangible equity[1] (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders less average goodwill and intangible assets.	This measure provides information about the profitability of the business in relation to tangible equity.
Revenues over leverage ratio denominator, gross[1] (%)	Calculated as total revenues (annualized for reporting periods shorter than 12 months) divided by the average leverage ratio denominator.	This measure provides information about the revenues of the business in relation to the leverage ratio denominator.
Tangible book value per share (USD)	Calculated as equity attributable to shareholders less goodwill and intangible assets divided by the number of shares outstanding.	This measure provides information about tangible net assets on a per-share basis.
Total book value per share (USD)	Calculated as equity attributable to shareholders divided by the number of shares outstanding.	This measure provides information about net assets on a per-share basis.
Total revenues (underlying) (USD)	Calculated by adjusting total revenues as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses.	This measure provides information about the amount of total revenues, while excluding items that management believes are not representative of the underlying performance of the businesses.
Transaction-based income (USD and CHF) – Global Wealth Management, Personal & Corporate Banking	Calculated as the total of the non-recurring portion of net fee and commission income, mainly composed of brokerage and transaction-based investment fund fees, and credit card fees, as well as fees for payment and foreign-exchange transactions, together with other net income from financial instruments measured at fair value through profit or loss.	This measure provides information about the amount of the non-recurring portion of net fee and commission income, together with other net income from financial instruments measured at fair value through profit or loss.
Underlying cost / income ratio (%)	Calculated as underlying operating expenses (as defined above) divided by underlying total revenues (as defined above).	This measure provides information about the efficiency of the business by comparing operating expenses with total revenues, while excluding items that management believes are not representative of the underlying performance of the businesses.

APM label	Calculation	Information content
Underlying net profit growth (%)	Calculated as the change in net profit attributable to shareholders from continuing operations between current and comparison periods divided by net profit attributable to shareholders from continuing operations of the comparison period. Net profit attributable to shareholders from continuing operations excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about profit growth since the comparison period, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on attributed equity[1] (%)	Calculated as underlying business division operating profit before tax (annualized for reporting periods shorter than 12 months) (as defined above) divided by average attributed equity.	This measure provides information about the profitability of the business divisions in relation to attributed equity, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on common equity tier 1 capital[1] (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average common equity tier 1 capital. Net profit attributable to shareholders excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about the profitability of the business in relation to common equity tier 1 capital, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on tangible equity[1] (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders less average goodwill and intangible assets. Net profit attributable to shareholders excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about the profitability of the business in relation to tangible equity, while excluding items that management believes are not representative of the underlying performance of the businesses.

1 Profit or loss information for each of the second quarter of 2025 and the first quarter of 2025 is based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG and for the purpose of the calculation of return measures has been annualized by multiplying such by four. Profit or loss information for the second quarter of 2024 is presented on a consolidated basis, including Credit Suisse AG data for one month (June 2024), and for the purpose of the calculation of return measures has been annualized multiplying such by four. Profit or loss information for the first six months of 2025 is based entirely on consolidated data following the merger of UBS AG and Credit Suisse AG and for the purpose of the calculation of return measures has been annualized by multiplying such by two. Profit or loss information for the first six months of 2024 is presented on a consolidated basis, including Credit Suisse AG data for one month (June 2024), and for the purpose of the calculation of return measures has been annualized by multiplying such by two.

VAT	value added tax

This is a general list of the abbreviations frequently used in our financial reporting. Not all of the listed abbreviations may appear in this particular report.

Information sources

Reporting publications

Annual publications

UBS AG Annual Report: Published in English, this report provides descriptions of: the performance of UBS AG (consolidated); the strategy and performance of the business divisions and Group functions; risk, treasury and capital management; corporate governance; and financial information, including the financial statements.

Compensation Report: This report discusses the compensation framework and provides information about compensation for the Board of Directors and the Group Executive Board members. It is available in English and German (*"Vergütungsbericht"*) and represents a component of the UBS Group Annual Report.

Sustainability Report: Published in English, the Sustainability Report provides disclosures on environmental, social and governance topics related to the UBS Group. It also provides certain disclosures related to diversity, equity and inclusion.

Quarterly publications

Quarterly financial report: This report provides an update on performance and strategy (where applicable) for the respective quarter. It is available in English.

The annual and quarterly publications are available in .pdf and online formats at *ubs.com/investors*, under "Financial information". Printed copies, in any language, of the aforementioned annual publications are no longer provided.

Other information

Website

The "Investor Relations" website at *ubs.com/investors* provides the following information about UBS: results-related news releases; financial information, including results-related filings with the US Securities and Exchange Commission (the SEC); information for shareholders, including UBS dividend and share repurchase program information, and for bondholders, including rating agencies reports; the corporate calendar; and presentations by management for investors and financial analysts. Information is available online in English, with some information also available in German.

Results presentations

Quarterly results presentations are webcast live. Recordings of most presentations can be downloaded from *ubs.com/presentations*.

Messaging service

Email alerts to news about UBS can be subscribed for under "UBS News Alert" at *ubs.com/global/en/investor-relations/contact/investor-services.html*. Messages are sent in English, German, French or Italian, with an option to select theme preferences for such alerts.

Form 20-F and other submissions to the US Securities and Exchange Commission

UBS files periodic reports with and submits other information to the SEC. Principal among these filings is the annual report on Form 20-F, filed pursuant to the US Securities Exchange Act of 1934. The filing of Form 20-F is structured as a wraparound document. Most sections of the filing can be satisfied by referring to the UBS AG Annual Report. However, there is a small amount of additional information in Form 20-F that is not presented elsewhere and is particularly targeted at readers in the US. Readers are encouraged to refer to this additional disclosure. Any document that is filed with the SEC is available on the SEC's website: *sec.gov*. Refer to *ubs.com/investors* for more information.

Cautionary statement regarding forward-looking statements | This report contains statements that constitute "forward-looking statements", including but not limited to management's outlook for UBS's financial performance, statements relating to the anticipated effect of transactions and strategic initiatives on UBS's business and future development and goals or intentions to achieve climate, sustainability and other social objectives. While these forward-looking statements represent UBS's judgments, expectations and objectives concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS's expectations. In particular, the global economy may suffer significant adverse effects from increasing political tensions between world powers, changes to international trade policies, including those related to tariffs and trade barriers, and ongoing conflicts in the Middle East, as well as the continuing Russia–Ukraine war. UBS's acquisition of the Credit Suisse Group has materially changed its outlook and strategic direction and introduced new operational challenges. The integration of the Credit Suisse entities into the UBS structure is expected to continue through 2026 and presents significant operational and execution risk, including the risks that UBS may be unable to achieve the cost reductions and business benefits contemplated by the transaction, that it may incur higher costs to execute the integration of Credit Suisse and that the acquired business may have greater risks or liabilities than expected. Following the failure of Credit Suisse, Switzerland is considering significant changes to its capital, resolution and regulatory regime, which, if adopted, would significantly increase our capital requirements or impose other costs on UBS. These factors create greater uncertainty about forward-looking statements. Other factors that may affect UBS's performance and ability to achieve its plans, outlook and other objectives also include, but are not limited to: (i) the degree to which UBS is successful in the execution of its strategic plans, including its cost reduction and efficiency initiatives and its ability to manage its levels of risk-weighted assets (RWA) and leverage ratio denominator (LRD), liquidity coverage ratio and other financial resources, including changes in RWA assets and liabilities arising from higher market volatility and the size of the combined Group; (ii) the degree to which UBS is successful in implementing changes to its businesses to meet changing market, regulatory and other conditions; (iii) inflation and interest rate volatility in major markets; (iv) developments in the macroeconomic climate and in the markets in which UBS operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, currency exchange rates, residential and commercial real estate markets, general economic conditions, and changes to national trade policies on the financial position or creditworthiness of UBS's clients and counterparties, as well as on client sentiment and levels of activity; (v) changes in the availability of capital and funding, including any adverse changes in UBS's credit spreads and credit ratings of UBS, as well as availability and cost of funding to meet requirements for debt eligible for total loss-absorbing capacity (TLAC); (vi) changes in central bank policies or the implementation of financial legislation and regulation in Switzerland, the US, the UK, the EU and other financial centers that have imposed, or resulted in, or may do so in the future, more stringent or entity-specific capital, TLAC, leverage ratio, net stable funding ratio, liquidity and funding requirements, heightened operational resilience requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration, constraints on transfers of capital and liquidity and sharing of operational costs across the Group or other measures, and the effect these will or would have on UBS's business activities; (vii) UBS's ability to successfully implement resolvability and related regulatory requirements and the potential need to make further changes to the legal structure or booking model of UBS in response to legal and regulatory requirements including heightened requirements and expectations due to its acquisition of the Credit Suisse Group; (viii) UBS's ability to maintain and improve its systems and controls for complying with sanctions in a timely manner and for the detection and prevention of money laundering to meet evolving regulatory requirements and expectations, in particular in the current geopolitical turmoil; (ix) the uncertainty arising from domestic stresses in certain major economies; (x) changes in UBS's competitive position, including whether differences in regulatory capital and other requirements among the major financial centers adversely affect UBS's ability to compete in certain lines of business; (xi) changes in the standards of conduct applicable to its businesses that may result from new regulations or new enforcement of existing standards, including measures to impose new and enhanced duties when interacting with customers and in the execution and handling of customer transactions; (xii) the liability to which UBS may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS, due to litigation, contractual claims and regulatory investigations, including the potential for disqualification from certain businesses, potentially large fines or monetary penalties, or the loss of licenses or privileges as a result of regulatory or other governmental sanctions, as well as the effect that litigation, regulatory and similar matters have on the operational risk component of its RWA; (xiii) UBS's ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors; (xiv) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xv) UBS's ability to implement new technologies and business methods, including digital services, artificial intelligence and other technologies, and ability to successfully compete with both existing and new financial service providers, some of which may not be regulated to the same extent; (xvi) limitations on the effectiveness of UBS's internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xvii) the occurrence of operational failures, such as fraud, misconduct, unauthorized trading, financial crime, cyberattacks, data leakage and systems failures, the risk of which is increased with persistently high levels of cyberattack threats; (xviii) restrictions on the ability of UBS Group AG, UBS AG and regulated subsidiaries of UBS AG to make payments or distributions, including due to restrictions on the ability of its subsidiaries to make loans or distributions, directly or indirectly, or, in the case of financial difficulties, due to the exercise by FINMA or the regulators of UBS's operations in other countries of their broad statutory powers in relation to protective measures, restructuring and liquidation proceedings; (xix) the degree to which changes in regulation, capital or legal structure, financial results or other factors may affect UBS's ability to maintain its stated capital return objective; (xx) uncertainty over the scope of actions that may be required by UBS, governments and others for UBS to achieve goals relating to climate, environmental and social matters, as well as the evolving nature of underlying science and industry and the increasing divergence among regulatory regimes; (xxi) the ability of UBS to access capital markets; (xxii) the ability of UBS to successfully recover from a disaster or other business continuity problem due to a hurricane, flood, earthquake, terrorist attack, war, conflict, pandemic, security breach, cyberattack, power loss, telecommunications failure or other natural or man-made event; and (xxiii) the effect that these or other factors or unanticipated events, including media reports and speculations, may have on its reputation and the additional consequences that this may have on its business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. UBS's business and financial performance could be affected by other factors identified in its past and future filings and reports, including those filed with the US Securities and Exchange Commission (the SEC). More detailed information about those factors is set forth in documents furnished by UBS and filings made by UBS with the SEC, including the UBS Group AG and UBS AG Annual Reports on Form 20-F for the year ended 31 December 2024. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages and percent changes disclosed in text and tables are calculated on the basis of unrounded figures. Absolute changes between reporting periods disclosed in the text, which can be derived from numbers presented in related tables, are calculated on a rounded basis.

Tables | Within tables, blank fields generally indicate non-applicability or that presentation of any content would not be meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis. Values that are zero on a rounded basis can be either negative or positive on an actual basis.

Websites | In this report, any website addresses are provided solely for information and are not intended to be active links. UBS is not incorporating the contents of any such websites into this report.

To the General Meeting of
UBS AG, Zurich and Basel

Basel, 14 March 2025

Report of the statutory auditor

Report on the audit of the financial statements

Opinion

We have audited the financial statements of UBS AG (the Company), which comprise the balance sheet as at 31 December 2024, the income statement and the statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements comply with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the "Auditor's responsibilities for the audit of the financial statements" section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the financial statements.

Shape the future with confidence

Valuation of investments in subsidiaries and other participations

Area of focus	As of 31 December 2024, the carrying amount of UBS AG's investments in subsidiaries and other participations is USD 73.1 billion. Investments in subsidiaries and other participations are equity interests that are held to carry on the business of UBS AG or for other strategic purposes. They include all subsidiaries directly held by UBS AG through which UBS AG conducts its business on a global basis. The investments are measured individually and carried at cost less impairment. The carrying amount is tested for impairment annually, with the recoverable amount being determined using a discounted dividend model. Due to the inherent uncertainties in valuing investments in subsidiaries, including forecasting and management's judgments, and considering the significance of the account we identified this area as a key audit matter.
Our audit response	Our audit procedures included the review of management's process over the valuation of investments in subsidiaries and other participations, including impairment tests. We obtained an understanding and evaluated the relevant controls addressing the identified risks and tested the design and operating effectiveness of these controls. Our focus was on controls over the review of the valuation models and the estimation of future cashflows, as well as governance and oversight over management's valuation process. We assessed the appropriateness of the valuation methodology, taking into account the nature of the investment and the underlying business. With the support of valuation specialists, we assessed the assumptions and methodologies used by management, to determine the recoverable amount of the investment in subsidiaries and other participations. We also assessed the relevant disclosures regarding investments in subsidiaries and other participations (within note 4 to the financial statements).

Shape the future with confidence

Valuation of complex or illiquid instruments at fair value

Area of focus

At 31 December 2024, UBS AG held financial assets and liabilities measured at fair value, including financial instruments that did not trade in active markets. These instruments are reported within the following accounts: financial assets and liabilities at fair value held for trading, derivative financial instruments, financial assets at fair value not held for trading, debt issued designated at fair value, brokerage payables designated at fair value, and other financial liabilities designated at fair value. In determining the fair value of these financial instruments, the Company used valuation techniques, modelling assumptions, and estimates of unobservable market inputs which required significant management judgment.

Auditing management's judgments and assumptions used in the estimation of the fair value of these instruments was complex due to the highly judgmental nature of valuation techniques, key modelling assumptions and significant unobservable inputs. Auditing the valuation of complex or illiquid instruments at fair value included consideration of any incremental risks arising from the impact of current macroeconomic influences on valuation techniques and inputs, such as geopolitics and inflation. The valuation techniques that required especially complex judgement included discounted cash flow and earnings-based valuation techniques. Highly judgmental modelling assumptions result from a range of different models or model calibrations used by market participants. Valuation inputs which were particularly complex and subjective included those with a limited degree of observability and the associated extrapolation, interpolation or calibration of curves using limited and proxy data points. Examples of such inputs included unobservable credit spreads and bond prices, interest rate and FX correlation and equity volatility.

Our audit response

We obtained an understanding, evaluated the design and tested the operating effectiveness of the controls over management's financial instrument valuation processes, including controls over market data inputs, model and methodology governance, and valuation adjustments.

We tested the valuation techniques, models and methodologies, and the inputs used in those models, as outlined above, by performing an independent revaluation of certain complex or illiquid financial assets and liabilities with the support of specialists. We used independent models and inputs and compared inputs to available market data among other procedures. We also independently challenged key judgments in relation to a sample of fair value adjustments.

We also assessed management's disclosures regarding fair value measurement (within Notes 15, 16a and 16b to the financial statements).

Expected credit losses

Area of focus

UBS AG applies in its standalone financial statements the ECL approach which is used in its consolidated financial statements under the IFRS Accounting Standards.

ECL is recognized for financial assets measured at amortized cost, fee and lease receivables, claims arising from Group-internal funding presented as Funding provided to significant regulated subsidiaries eligible as total loss-absorbing capacity, guarantees, irrevocable loan commitments, revolving revocable credit lines, and forward starting reverse repurchase and securities borrowing agreements. The allowances and provisions for ECL consists of exposures that are in default which are individually evaluated for impairment ("stage 3" as well as losses inherent in the loan portfolio that are not specifically identified ("stage 1 and stage 2"). Management's ECL estimates represent the difference between contractual cash flows and those the Company expects to receive, discounted at the effective interest rate. The method used to calculate ECL is based on a combination of the following principal factors: probability of default ("PD"), loss given default ("LGD") and exposure at default ("EAD").

Auditing management's estimate of the allowances and provisions for ECL was complex due to the highly judgmental nature of forward-looking economic scenarios that form the basis of the ECL calculation, their probability weightings, post-model adjustments, and the credit risk models used to estimate stage 1 and stage 2 ECL. The macroeconomic developments during 2024, including persisting geopolitical tensions and inflation, contributed to further uncertainty and complexity in estimating ECL. As a result, the ECL estimation required higher management judgement, specifically within the following three areas: (i) scenario selection, including assumptions about the scenario severity, underlying macroeconomic variables, and the number of scenarios necessary to sufficiently cover the bandwidth of potential outcomes, as well as related scenario weights (ii) credit risk models, since the output from historic data based models may not be indicative of current or future conditions; and (iii) post-model adjustments.

Additionally, auditing the measurement of individual ECL for stage 3 was complex due to the high degree of judgment involved in management's process for estimating ECL based on assumptions. These assumptions take into account expected future cash flows from collateral and other credit enhancements or expected payouts from bankruptcy proceedings for unsecured claims and, where applicable, time to realization of collateral and the seniority of claims.

Shape the future with confidence

Our audit response

We obtained an understanding, evaluated the design and tested the operating effectiveness of management's controls over the ECL estimate, including management's choice of forward-looking economic scenarios used to measure ECL and the probability weighting assigned to such scenarios. We evaluated management's methodologies and governance controls for developing and monitoring the economic scenarios used and the probability weightings assigned to them, and selected post-model adjustments. Supported by specialists, we assessed the key macroeconomic variables used in the forward-looking scenarios, such as real gross domestic product growth, unemployment rate, interest rates and house price indices, and evaluated the modelled correlation and translation of those macroeconomic factors to the ECL estimate. We further assessed the appropriateness of the post-model adjustments by considering management's governance process, assumptions used and sensitivity analysis.

We also obtained an understanding, evaluated the design and tested the operating effectiveness of controls over credit risk models used in the ECL estimate, including controls over the completeness and accuracy of data flow and calculation logic in the ECL calculation. With the support of specialists, on a sample basis, we performed an evaluation of management's models and tested the model outcomes by inspecting model documentation, reperforming model calculations, and comparing data used as inputs to management's forecast to external sources, among other procedures.

For the measurement of stage 3, we obtained an understanding, evaluated the design and tested the operating effectiveness of controls over management's process, including an evaluation of the assumptions used by management regarding the future cash flows from debtors' continuing operations and/or the liquidation of collateral. Supported by specialists in certain areas, we additionally tested collateral valuation, cash flow assumptions and exit strategies by performing inquiries of management, inspecting underlying documents, such as loan contracts, financial statements, covenants, budgets and business plans, and by re-performing discounted cash flow calculations among other procedures, on a sample basis.

We also assessed management's disclosures regarding financial assets at amortized cost and other positions in scope of expected credit loss measurement (within Notes 13a to 13e to the financial statements).

Legal provisions

Area of focus	UBS AG operates in a legal and regulatory environment that is exposed to significant litigation and similar risks arising from disputes and regulatory proceedings. Such matters are subject to many uncertainties and the outcomes may be difficult to predict. These uncertainties inherently affect the amount and timing of potential outflows with respect to the legal provisions which have been established. Auditing management's assessment of legal provisions was complex and judgmental due to the significant subjectivity involved in management's estimate of the amount and probability that an outflow of resources will be required for existing legal matters, including inquiries regarding cross-border wealth management businesses. The legal provisions for these matters are based on management's estimation of the amount and likelihood of the occurrence of certain scenarios.
Our audit response	We obtained an understanding, evaluated the design and tested the operational effectiveness of management's controls over the legal provision process. Our procedures included testing management's review of the accuracy of the inputs to the estimation of the amount and likelihood of the occurrence of certain scenarios. Where appropriate, we assessed the methodologies on which the provision amounts were based, recalculated the provisions and tested the underlying information. We inspected internal and external legal analyses of the matters supporting the judgmental aspects impacted by legal interpretations. We obtained correspondence directly from external legal counsel to assess the information provided by management and performed inquiries with external counsel as necessary. We also assessed the appropriateness of the accounting treatment for the remeasurement of legal provisions. We also assessed management's disclosure regarding legal provisions (within Note 13b to the financial statements).

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the financial statements
The Board of Directors is responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework for banks, the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTsuisse's website at: https://www.expertsuisse.ch/en/audit-report. This description forms an integral part of our report.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Based on our audit in accordance with Art. 728a para. 1 item 2 CO, we confirm that the proposal of the Board of Directors complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

1 Cash to be paid in the future by either UBS AG or the counterparty.

Off-balance sheet items

Contingent liabilities include indemnities and guarantees issued by UBS AG for the benefit of subsidiaries and creditors of subsidiaries.

Where the indemnity amount issued by UBS AG is not specifically defined, the indemnity relates to the solvency or minimum capitalization of a subsidiary, and therefore no amount is included in the table above.

Joint and several liability – value-added tax

UBS AG is jointly and severally liable for the combined value-added tax (VAT) liability of UBS entities that belong to the VAT group of UBS in Switzerland. This contingent liability is not included in the table above.

Guarantees – UBS Europe SE

Following the combined UK business transfer and cross-border merger of UBS Limited into UBS Europe SE in March 2019, UBS AG issued a guarantee for the benefit of counterparties of UBS Europe SE's investment banking business, covering transactions subject to master netting agreements.

A similar guarantee that UBS AG issued in 2003 for the benefit of each counterparty of UBS Limited also continues to be effective. This guarantee covers transactions in accordance with and contemplated under any agreement entered into by UBS Limited prior to the merger into UBS Europe SE, to the extent that such an agreement has not been amended by UBS Europe SE thereafter.

Under both guarantees, UBS AG promises to pay to the beneficiary counterparties any unpaid liabilities covered under the terms of the guarantees on demand. These guarantees are included as contingent liabilities in the off-balance sheet items table above.

Indemnities – UBS Europe SE

In connection with the establishing of UBS Europe SE in 2016, UBS AG entered into agreements with UBS Europe SE under which UBS AG would provide UBS Europe SE with limited indemnification of payment obligations that may arise from certain litigation, regulatory and similar matters.

As of 31 December 2024, the amount of such potential payment obligations could not be reliably estimated and the likelihood of an outflow is not considered to be probable or the probability of an outflow was assessed to be remote; therefore, the table above does not include any amount related to this limited indemnification.

In addition, in accordance with the bylaws of the Deposit Protection Fund of the Association of German Banks, UBS AG issued an indemnity in favor of this fund on behalf of UBS Europe SE. The probability of an outflow was assessed to be remote, and as a result, the table above does not include any exposure arising under this indemnity.

Note 1 Name, legal form and registered office

UBS AG is incorporated and domiciled in Switzerland. Its registered offices are at Bahnhofstrasse 45, CH-8001 Zurich and Aeschenvorstadt 1, CH-4051 Basel, Switzerland. UBS AG operates under Art. 620 et seq. of the Swiss Code of Obligations and Swiss banking law as an *Aktiengesellschaft*, a corporation limited by shares.

UBS AG is a regulated bank in Switzerland and is 100% owned by UBS Group AG, the ultimate parent of the UBS Group. UBS AG holds investments in and provides funding to subsidiaries, including the other banking subsidiaries of the UBS Group. In addition, UBS AG operates globally, including business activities from all five UBS business divisions and Group functions. In the ordinary course of business, the main contributors to the net profit / (loss) of UBS AG are Group Treasury, Global Wealth Management, the Investment Bank and Group Services. The balance sheet is mainly composed of financial assets and liabilities from the Investment Bank, Global Wealth Management and Group Treasury, as well as investments in subsidiaries and other participations in Group Treasury and fixed assets of Group Services.

UBS AG employed 18,161 personnel on a full-time equivalent basis as of 31 December 2024, compared with 10,398 personnel as of 31 December 2023.

Note 2 Accounting policies

a) Significant accounting policies

UBS AG standalone financial statements are prepared in accordance with Swiss GAAP (the FINMA Accounting Ordinance, FINMA Circular 2020/1 "Accounting – banks" and the Banking Ordinance) and represent "reliable assessment statutory single-entity financial statements". The accounting policies are principally the same as those outlined in Note 1 to the consolidated financial statements of UBS AG included in the UBS AG Annual Report 2024. Major differences between the Swiss GAAP requirements and IFRS Accounting Standards are described in Note 33 to the consolidated financial statements of UBS AG. The significant accounting policies applied for the standalone financial statements of UBS AG are discussed below.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Compensation policy

The compensation structure and processes of UBS AG conform to the compensation principles and framework of UBS Group AG.

› **Refer to the UBS Group AG Compensation Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Deferred compensation

Expenses for deferred compensation awards granted by UBS Group AG to employees of UBS AG in the form of UBS shares, notional investment funds and notional additional tier 1 (AT1) capital instruments are charged by UBS Group AG to UBS AG.

› **Refer to "Note 27 Employee benefits: variable compensation" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Foreign currency translation

Non-US dollar-denominated transactions are translated into US dollars at the spot exchange rate on the date of the transaction. At the balance sheet date, all non-US dollar-denominated monetary assets and liabilities, as well as non-US dollar-denominated equity instruments recorded in *Trading portfolio assets* and *Financial investments*, are translated into US dollars using the closing exchange rate. Non-monetary items measured at historic cost are translated at the spot exchange rate on the date of the transaction. Assets and liabilities of branches with functional currencies other than the US dollar are translated into US dollars at the closing exchange rate. Income and expense items of such branches are translated at weighted-average exchange rates for the period. All currency translation effects are recognized in the income statement.

› **Refer to Note 2c for information about the retroactive translation of Credit Suisse AG's financial information in 2024 following the merger of UBS AG and Credit Suisse AG**

The main currency translation rates used by UBS AG are provided in Note 32 to the UBS AG consolidated financial statements in the UBS AG Annual Report 2024.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Presentation currencies

The primary presentation currency of the financial statements of UBS AG is the US dollar. Amounts in Swiss francs are additionally presented for each component of the financial statements. UBS AG applies the modified closing rate method for converting the US dollar presentation currency amounts into Swiss francs: assets and liabilities are converted at the closing rate, equity positions at historic rates and income and expense items at the weighted-average rate for the period. The resulting currency translation effects are recognized separately in *Voluntary earnings reserve*.

On 31 May 2024, UBS AG completed the absorption merger of Credit Suisse AG and retroactively recognized Credit Suisse AG's balance sheet as of 1 January 2024, and its accounting records for the period from 1 January to 31 May 2024, expressed in Credit Suisse AG's presentation currency, Swiss francs. Thereby, the merger balance sheet was translated to UBS AG's primary presentation currency, the US dollar, at the exchange rate of the opening balance sheet, and the transactions recorded in profit and loss were translated at the monthly average exchange rate. The balance sheet as of 31 May 2024 was translated at the 31 May 2024 closing rate. The resulting currency effects were recognized in *Statutory capital reserve*.

› **Refer to Note 2c for more information**

Structured debt instruments

Structured debt instruments consist of debt instruments issued and transacted over the counter and include a host contract and one or more embedded derivatives that do not relate to UBS AG's own equity. By applying the fair value option, the vast majority of structured debt instruments are measured at fair value as a whole and recognized in *Financial liabilities designated at fair value*. The fair value option for structured debt instruments can be applied only if the following criteria are cumulatively met:

– the structured debt instrument is measured on a fair value basis and is subject to risk management that is equivalent to risk management for trading activities;
– the application of the fair value option eliminates or significantly reduces an accounting mismatch that would otherwise arise; and
– changes in fair value attributable to changes in unrealized own credit are not recognized.

Fair value changes related to *Financial liabilities designated at fair value,* excluding changes in unrealized own credit, are recognized in *Net trading income.* Interest expense on *Financial liabilities designated at fair value* is recognized in *Interest expense*.

Where the designation criteria for the fair value option are not met, the embedded derivatives are assessed for bifurcation for measurement purposes. Bifurcated embedded derivatives are measured at fair value through profit or loss and presented in the same balance sheet line as the host contract.

› **Refer to Note 20 for more information**

Group-internal funding

UBS AG obtains funding from UBS Group AG in the form of loans that are subject to mandatory conversion and / or debt waiver, as explained below, and generally either qualify as loss-absorbing tier 1 capital or as gone concern loss-absorbing capacity, i.e. total funding eligible as total loss-absorbing capacity (TLAC), at the UBS AG consolidated and standalone levels. A portion of Group-internal funding obtained is further on lent by UBS AG to certain subsidiaries in the form of loans.

› **Refer to Note 21 for information about funding eligible as total loss-absorbing capacity at the UBS AG level**

UBS AG's obligations arising from Group-internal funding it has received are presented as *Funding received from UBS Group AG measured at amortized cost* and *Funding received from UBS Group AG* within *Financial liabilities designated at fair value*. UBS AG's claims arising from the Group-internal funding it has provided are presented as *Funding provided to significant regulated subsidiaries eligible as total loss-absorbing capacity* and are measured at amortized cost less any allowance for expected credit losses.

Subordinated assets and liabilities

Subordinated assets are composed of claims that, based on an irrevocable written declaration, in the event of liquidation, bankruptcy or composition concerning the debtor rank after the claims of all other creditors and may not be offset against amounts payable to the debtor nor be secured by its assets. *Subordinated liabilities* are composed of corresponding obligations.

Subordinated assets and liabilities that contain a point-of-non-viability clause in accordance with Swiss capital requirements pursuant to Art. 29 and 30 of the Capital Adequacy Ordinance are disclosed as being *Subject to mandatory conversion and / or debt waiver* and provide for the claim or the obligation to be written off or converted into equity in the event that the issuing bank reaches a point of non-viability.

Investments in subsidiaries and other participations

Investments in subsidiaries and other participations are equity interests that are held to carry on the business of UBS AG or for other strategic purposes. They include all subsidiaries directly held by UBS AG through which UBS AG conducts its business on a global basis. The investments are measured individually and carried at cost less impairment. The carrying amount is tested for impairment when indicators of a potential decrease in value exist, which include significant operating losses incurred or a severe depreciation of the currency in which the investment is denominated. If an investment in a subsidiary is impaired, its value is generally written down to the net asset value or a value above the net asset value if, in the opinion of management, forecasts of future profitability provide sufficient evidence that a carrying amount above net assets is supported. Subsequent recoveries in value are recognized up to the original cost value based on either an increased net asset value or a value above the net asset value if aforementioned conditions are met. Management may exercise its discretion as to what extent, and in which period, a recovery in value is recognized. Impairments of investments are presented *as Impairment of investments in subsidiaries and other participations* and reversals of impairments are presented as *Extraordinary income* in the income statement. Impairments and partial or full reversals of impairments for a subsidiary during the same annual period are determined on a net basis.

› **Refer to Note 4 for more information**

Hedge accounting for Investments in subsidiaries and other participations

UBS AG applies hedge accounting for certain investments in subsidiaries and other participations denominated in currencies other than the US dollar, which are designated as hedged items. For this purpose, foreign exchange (FX) derivatives, mainly FX forwards and FX swaps, are used and designated as hedging instruments.

The hedged risk is determined as the change in the carrying amount of the hedged item arising solely from changes in spot FX rates. Consequently, UBS AG only designates the spot element of the FX derivatives as hedging instruments. Changes in the fair value of the hedging instruments attributable to changes in forward points are not part of a hedge accounting designation. These amounts, therefore, do not form part of the effectiveness assessment and are recognized in *Net trading income*.

The effective portion of gains and losses of these FX derivatives is deferred on the balance sheet as *Other assets* or *Other liabilities* to the extent no change is recognized in the carrying amount of the hedged item arising from changes in spot FX rates. Otherwise, the effective portion of gains and losses of these FX derivatives is matched with the corresponding valuation adjustments of the hedged item recorded in the income statement and recorded either as a reduction of *Impairment of investments in subsidiaries and other participations* or as *Extraordinary income*.

Revenue and expense transfers with other Group entities

UBS AG pays to and receives amounts from other Group entities in connection with revenue-sharing arrangements. Revenues transferred to and received from Group entities are settled in cash as entity revenue transfers paid or received. When the nature of the underlying transaction between UBS AG and the Group entity contains a single, clearly identifiable service component, related income and expenses are presented in the respective income statement line item, e.g. *Fee and commission income from securities and investment business and other fee and commission income*, *Fee and commission expense* or *Net trading income*. To the extent the nature of the underlying transaction contains various service components and is not clearly attributable to a particular income statement line item, related income and expenses are presented in *Sundry ordinary income* and *Sundry ordinary expenses*.

UBS AG receives services from UBS Business Solutions AG, mainly relating to the Group Operations and Technology Office, as well as certain other services from other Group entities.

UBS AG provides services to Group entities, mainly relating to real estate and selected other Group Services functions.

Services received from and provided to Group entities are settled in cash as entity cost transfers paid or received. Entity cost transfers paid are presented within *General and administrative expenses* and entity cost transfers received are presented within *Sundry ordinary income* or *Income from real estate holdings*.

› **Refer to Notes 5 and 7 for more information**

Post-employment benefit plans

Swiss GAAP permit the use of IFRS Accounting Standards or Swiss accounting standards for post-employment benefit plans, with the election made on a plan-by-plan basis.

UBS AG has elected to apply Swiss accounting standards for the Swiss pension plans in its standalone financial statements. The requirements of the Swiss accounting standards are better aligned with the specific nature of Swiss pension plans, which are hybrid in that they combine elements of defined contribution and defined benefit plans but are treated as defined benefit plans under IFRS Accounting Standards. Swiss accounting standards require that the employer contributions to the pension fund are recognized as *Personnel expenses* in the income statement. The employer contributions to the Swiss pension fund are determined as a percentage of contributory compensation. Furthermore, Swiss accounting standards require an assessment as to whether, based on the financial statements of the pension funds prepared in accordance with Swiss accounting standards (Swiss GAAP FER 26), an economic benefit to, or obligation of, UBS AG arises from the pension funds that is recognized in the balance sheet when conditions are met. Conditions for recording a pension asset or liability would be met if, for example, an employer contribution reserve is available or UBS AG is required to contribute to the reduction of a pension deficit (on the pension plan's Swiss GAAP FER 26 basis).

Key differences between Swiss accounting standards and IFRS Accounting Standards include the treatment of dynamic elements, such as future salary increases and future interest credits on retirement savings, which are not considered under the static method used in accordance with Swiss accounting standards. Also, the discount rate used to determine the defined benefit obligation in accordance with IFRS Accounting Standards is based on the yield of high-quality corporate bonds of the market in the respective pension plan country. The discount rate used in accordance with Swiss accounting standards, i.e. the technical interest rate, is determined by the Pension Foundation Boards.

› **Refer to Note 23 for more information**

UBS AG has elected to apply IFRS Accounting Standards (IAS 19) for its non-Swiss defined benefit plans. However, remeasurements of the defined benefit obligation and the plan assets are recognized in the income statement rather than directly in equity.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Deferred taxes

Deferred tax assets are not recognized in UBS AG's standalone financial statements. However, deferred tax liabilities may be recognized for taxable temporary differences. Changes in the deferred tax liability balance are recognized in the income statement.

Allowances and provisions for expected credit losses

UBS AG is required to apply expected credit loss (ECL) approaches for credit-impaired and non-credit-impaired financial instruments in its standalone financial statements.

For the substantial majority of non-credit-impaired exposures within the scope of the Swiss GAAP ECL requirements, UBS AG has chosen to apply the IFRS Accounting Standards ECL approach, which is also applied in its consolidated financial statements. These exposures include all financial assets that are measured at amortized cost under both frameworks, Swiss GAAP and IFRS Accounting Standards, fee and lease receivables, claims arising from Group-internal funding presented as *Funding provided to significant regulated subsidiaries eligible as total loss-absorbing capacity*, guarantees, irrevocable loan commitments, revolving revocable credit lines, and forward starting reverse repurchase and securities borrowing agreements. Further information about the ECL approach under IFRS Accounting Standards is provided in Note 1 to the consolidated financial statements of UBS AG.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

For the small residual population of exposures within the scope of the Swiss GAAP ECL requirements, which are not subject to ECL under IFRS Accounting Standards due to classification differences, alternative approaches are applied.

– For exposures for which Pillar 1 internal ratings-based models are applied for measurement of credit risk risk-weighted assets (RWA), ECL for such exposures is calculated as the regulatory expected loss (EL), with an add-on to scale up to the residual maturity of exposures maturing beyond the next 12 months. This approach is mainly applied for brokerage receivables presented within *Due from customers,* which generally mature within 12 months. For detailed information about regulatory EL, refer to the "Risk management and control" section of the UBS AG Annual Report 2024.
– For exposures for which the standardized approach is applied for the measurement of credit risk RWA, ECL is determined using a portfolio approach that derives a conservative probability of default (PD) and a conservative loss given default (LGD) for the entire portfolio. This approach is mainly applied for a small number of loans to large corporate clients presented within *Due from customers.*

UBS applies a single definition of default for credit risk management purposes, regulatory reporting and ECL, with a counterparty classified as defaulted based on quantitative and qualitative criteria.

› **Refer to the "Risk management and control" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

An allowance for credit losses is reported as a decrease in the carrying amount of a financial asset. For an off-balance sheet item, such as a commitment, a provision for credit losses is reported in *Provisions*. Changes to allowances and provisions for credit losses are recognized in *Credit loss (expense) / release*.

› **Refer to Note 13 for more information**

Dispensations in the standalone financial statements

As UBS AG prepares consolidated financial statements in accordance with IFRS Accounting Standards, UBS AG is exempt from various disclosures in the standalone financial statements. The dispensations include the management report, the statement of cash flows and various note disclosures, as well as the publication of full interim financial statements.

b) Changes in accounting policies

In 2024, the following accounting policies were adopted in context of the absorption merger of Credit Suisse AG.

In an absorption merger executed retroactively for accounting purposes in accordance with Swiss law, currency effects arising upon the initial recognition of the merger balance sheet and the activity of the absorbed entity until the legal effective date of the merger are recorded directly in the *Statutory capital reserve* in equity to the extent such effects relate to the translation of financial information presented by the absorbed entity in a currency other than UBS AG's presentation currency, the US dollar.

The income statement effect resulting from the initial application of UBS AG's accounting policies and practices to the merger balance sheet is recognized as a merger adjustment in *Extraordinary expenses*.

› **Refer to Note 9 for more information**

c) Change in organization

In 2024, UBS continued the integration of Credit Suisse, with a focus on client account migrations, infrastructure decommissioning and legal entity integration.

› **Refer to the "Our business model and environment" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Merger of UBS AG and Credit Suisse AG

In December 2023, the Board of Directors of UBS Group AG approved the merger of UBS AG and Credit Suisse AG, and both entities entered into a definitive merger agreement, as amended on 30 April 2024. On 31 May 2024, UBS AG formally completed the merger by absorption of Credit Suisse AG. In the standalone financial statements of UBS AG, the acquisition has been accounted for retroactively as of 1 January 2024, applying the previous book values of Credit Suisse AG. The merger balance sheet with assets of USD 306,447m (CHF 257,935m) and liabilities of USD 275,105m (CHF 231,554m) was recognized, together with a corresponding increase of *Statutory capital reserves* in equity of USD 31,343m (CHF 26,381m), of which USD 55,471m (CHF 46,690m) was attributed to *Capital contribution reserve* and negative USD 24,129m (negative CHF 20,309m) to *Other statutory capital reserve*.

UBS AG's accounting policies and methodologies were applied retroactively from 1 January 2024. This resulted in an adjustment, which was recorded in *Extraordinary expenses* of USD 598m (CHF 504m).

› **Refer to Note 9 for more information**

Furthermore, the retroactive translation of Credit Suisse AG's financial information, previously expressed in Swiss francs, (i.e. the merger balance sheet, the accounting policy application and the activity from 1 January 2024 to 31 May 2024) to UBS AG's presentation currency, the US dollar, resulted in a foreign currency translation effect of USD 2,049m (CHF 1,851m), which was recorded as a reduction of *Other statutory capital reserves* within *Statutory capital reserves*.

Profit and loss information for 2024 includes the full-year profit and loss of the merged Credit Suisse AG. Comparative full-year profit and loss information for 2023 and the balance sheet as of 31 December 2023 include pre-merger UBS AG standalone data only.

Other integration activities

In June 2024, following the merger with Credit Suisse AG, UBS AG contributed its subsidiary Credit Suisse Holdings (USA), Inc. to the entity holding its Americas business, UBS Americas Holding LLC.

In July 2024, UBS Switzerland AG completed its merger by absorption of Credit Suisse (Schweiz) AG.

› **Refer to Note 4 for more information**

Note 2 Accounting policies (continued)

d) Events after the reporting period

There were no significant events after the reporting period.

e) Risk management

UBS AG is fully integrated into the Group-wide risk management process described in the audited part of the "Risk management and control" section of the UBS AG Annual Report 2024.

Further information about the use of derivative instruments and hedge accounting is provided on the following pages and in Notes 1, 11 and 25 to the consolidated financial statements of UBS AG.

› **Refer to the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Reorganizations

As of 1 January 2024, the merger of UBS AG and Credit Suisse AG resulted in an increase in the carrying amount of *Investments in subsidiaries and other participations* of USD 33.9bn (CHF 28.5bn), mainly driven by Credit Suisse Holdings (USA) Inc. (USD 6.4bn (CHF 5.4bn)), Credit Suisse (Schweiz) AG (USD 13.6bn (CHF 11.5bn)) and Credit Suisse International (USD 8.2bn (CHF 6.9bn)).

In June 2024, as part of the transition to a single US intermediate holding company, UBS AG contributed its investment in Credit Suisse Holdings (USA) Inc. to UBS Americas Holding LLC, increasing the carrying amount of UBS Americas Holding LLC by USD 6.3bn (CHF 5.7bn).

As of 1 July 2024, the merger of UBS Switzerland AG and Credit Suisse (Schweiz) AG was completed, increasing the carrying amount of UBS Switzerland AG by USD 13.0bn (CHF 11.7bn).

Impairments and reversal of impairments

In 2024, UBS AG recognized *Impairments of investments in subsidiaries and other participations* of USD 543m (CHF 500m). In 2023, UBS AG recognized Impairments of investments in subsidiaries and other participations of USD 3,715m (CHF 3,343m), mainly due to an impairment related to UBS Americas Holding LLC as the recoverable amount of this participation declined, mostly due to lower forecasted profits and dividend payouts.

In 2024, UBS AG recognized *Reversal of impairments of investments in subsidiaries and other participations* of USD 3,996m (CHF 3,497m), mainly due to a reversal of an impairment related to Credit Suisse International as the recoverable amount of this participation increased, mainly due to progressed integration including improved actual financials and forecasted financial performance.

Dividends and capital repayments

Dividend income from investments in subsidiaries and other participations of USD 6,275m (CHF 5,730m) in 2024 and USD 5,430m (CHF 4,862m) in 2023 was mainly attributable to UBS Switzerland AG, UBS Americas Holding LLC, UBS Asset Management AG and UBS Europe SE. In addition, in 2024 Credit Suisse Securities (Europe) Limited contributed a substantial dividend.

In December 2024, UBS Americas Holding LLC repaid capital of USD 6.0bn (CHF 5.4bn) and Credit Suisse International repaid capital of USD 7.0bn (CHF 6.3bn) to UBS AG.

Accounting policy and methodology alignment effect upon merger of UBS AG and Credit Suisse AG[2]	598	0	504	0
Other extraordinary expense	3	2	1	2
Total extraordinary expenses	600	2	505	2

1 Refer to Note 4 for more information. 2 Refer to Note 2c for more information.

Gains from disposals of subsidiaries and other participations in 2024 included a gain of USD 169m (CHF 155m) on the sale of Credit Suisse Services India Ltd, a former subsidiary of Credit Suisse AG, to UBS Business Solutions AG.

Accounting policy and methodology alignment effect upon merger of UBS AG and Credit Suisse AG

As a result of the merger of UBS AG and Credit Suisse AG, UBS AG's accounting policies and methodologies were applied to the merger balance sheet of Credit Suisse AG as of 1 January 2024.

This resulted in a merger adjustment of USD 598m (CHF 504m), which was recorded in *Extraordinary expenses*. The adjustment included the alignment of methodologies related to credit allowances and provisions (USD –559m (CHF –471m)), which Credit Suisse AG generally accounted for by reference to US GAAP compared with UBS AG's general application of IFRS Accounting Standards, own credit adjustment curves (USD –537m (CHF –452m)), and smaller adjustments related to the classification of certain debt instruments at fair value compared to a legacy Credit Suisse AG amortized cost treatment, and full expense recognition of certain loan origination costs and fees at inception, which were previously deferred and recognized over time by Credit Suisse AG. These effects were partly reduced by the effects of electing the fair value option for certain structured TLAC instruments under UBS AG's accounting policies (USD 513m (CHF 432m)), and smaller adjustments related to the measurement of real estate and the recognition of net defined benefit assets.

Note 10 Taxes

	USD m		CHF m	
	For the year ended		For the year ended	
	31.12.24	31.12.23	31.12.24	31.12.23
Income tax expense / (benefit)	461	279	416	255
of which: current	*492*	*277*	*443*	*254*
of which: deferred	*(31)*	*2*	*(28)*	*2*
Capital tax	40	31	35	28
Total tax expense / (benefit)	501	310	451	283

An income tax expense of USD 461m (CHF 416m) was recognized for UBS AG in 2024, compared with USD 279m (CHF 255m) for 2023. The income tax expense for 2024 was reduced by a benefit of USD 36m (CHF 32m) in respect of the utilization of tax losses carried forward, primarily in Jersey and Singapore.

The income tax expense for 2023 was reduced by a benefit of USD 15m (CHF 13m) in respect of the utilization of tax losses carried forward, primarily in Jersey.

The income tax expenses for 2024 and 2023 related to UBS AG's taxable profits that are not offset by tax losses carried forward.

For 2024, the average tax rate, defined as income tax expense divided by the sum of operating profit and extraordinary income minus extraordinary expenses and capital tax, was 8.2% (2023: 15.5%). This reflected the aforementioned benefit in respect of the utilization of tax losses carried forward and also that no tax expense was recognized in respect of dividends that UBS AG received from its subsidiaries.

Note 13 Allowances and provisions

Allowances and provisions of USD 4,869m (CHF 4,422m) as of 31 December 2024 included allowances and provisions for credit losses of USD 1,896m (CHF 1,722m). Allowances and provisions of USD 2,249m (CHF 1,893m) as of 31 December 2023 included allowances and provisions for credit losses of USD 294m (CHF 247m).

The 2024 increase in allowances and provisions for credit losses of USD 1,602m (CHF 1,475m) included USD 1,551m (CHF 1,305m) from the merger with Credit Suisse AG as of 1 January 2024, net credit loss expenses of USD 206m (CHF 179m) recognized in the income statement, primarily related to credit-impaired positions, as well as USD 155m (CHF 9m) other allowances and provision movements without ECL profit or loss impact, mainly from the merger with Credit Suisse AG, for write-offs and other movements that did not impact the income statement.

Allowances of USD 1,492m (CHF 1,256m) and provisions of USD 1,290m (CHF 1,086m) recognized upon the merger with Credit Suisse AG, a total of USD 2,782m (CHF 2,342m), include a merger adjustment of USD 577m (CHF 486m) recognized in the income statement and recorded in *Extraordinary expenses*. This adjustment largely relates to UBS accounting policy adoption and methodology alignment on credit loss allowances and provisions for Credit Suisse AG's transactions, including those with direct and indirect subsidiaries of UBS AG. UBS AG's Swiss GAAP policy for recognizing credit loss allowances and provisions is to the largest extent possible aligned with IFRS, whereas Credit Suisse AG's Swiss GAAP policy was generally calibrated to US GAAP. Certain allowances and provisions recognized by Credit Suisse AG as of 31 December 2023 related to Non-Core and Legacy positions were measured by UBS AG at fair value and not included in UBS AG's allowances and provisions at the merger date.

1 Excludes capital tax payables.

Note 18 Pledged assets

The table below provides information about pledged assets, other than assets placed with central banks related to undrawn credit lines and for payment, clearing and settlement purposes (31 December 2024: USD 1.1bn (CHF 0.9bn), 31 December 2023: USD 3.5bn (CHF 2.9bn)) and those pledged in connection with securities financing transactions (refer to Note 11 for more information).

	31.12.24	31.12.23
USD m	Carrying amount of pledged assets	Carrying amount of pledged assets
Securities[1]	12,112	8,011
Property[2]	2,025	2,187
Total pledged assets	14,137	10,198

1 Includes securities pledged for derivative transactions, where the replacement values are managed on a portfolio basis across counterparties and product types, and therefore there is no direct relationship between the specific collateral pledged and the associated liability. 2 These pledged properties serve as collateral for an existing mortgage loan from UBS Switzerland AG, the carrying amount of which was USD 2,521m as of 31 December 2024 (USD 2,804m as of 31 December 2023).

	31.12.24	31.12.23
CHF m	Carrying amount of pledged assets	Carrying amount of pledged assets
Securities[1]	10,999	6,743
Property[2]	1,839	1,841
Total pledged assets	12,838	8,584

1 Includes securities pledged for derivative transactions, where the replacement values are managed on a portfolio basis across counterparties and product types, and therefore there is no direct relationship between the specific collateral pledged and the associated liability. 2 These pledged properties serve as collateral for an existing mortgage loan from UBS Switzerland AG, the carrying amount of which was CHF 2,289m as of 31 December 2024 (CHF 2,360m as of 31 December 2023).

Note 19 Country risk of total assets

The table below provides a breakdown of total non-Swiss assets by credit rating, after netting of assets and liabilities as recognized on the balance sheet but before other risk mitigants. The credit ratings reflect the sovereign credit rating of the country to which the ultimate risk of the underlying asset is related. The ultimate country of risk for unsecured loan positions is the domicile of the immediate borrower or, in the case of a legal entity, the domicile of the ultimate parent entity. For collateralized or guaranteed positions, the ultimate country of risk is the domicile of the provider of the collateral or guarantor or, if applicable, the domicile of the ultimate parent entity of the provider of the collateral or guarantor. For mortgage loans, the ultimate country of risk is the country where the real estate is located. Similarly, the ultimate country of risk for property and equipment is the country where the property and equipment are located. Assets for which Switzerland is the ultimate country of risk are provided separately at the bottom of the table in order to provide a reconciliation to total balance sheet assets.

Note 20 Structured debt instruments

The table below provides a breakdown of financial liabilities designated at fair value that are considered structured debt instruments.

	USD m		CHF m	
	31.12.24	31.12.23	31.12.24	31.12.23
Fixed-rate bonds with structured features	8,684	5,679	7,886	4,780
Structured debt instruments issued:				
Equity-linked	53,917	46,220	48,962	38,903
Rates-linked	22,373	16,681	20,316	14,040
Credit-linked	4,787	4,287	4,347	3,608
Commodity-linked[1]	3,620	3,704	3,288	3,118
FX-linked	1,253	699	1,138	589
Funding received from UBS Group AG designated at fair value[2]	4,998	2,711	4,539	2,282
Structured over-the-counter (OTC) debt instruments	3,268	877	2,968	738
Total financial liabilities designated at fair value	102,901	80,859	93,444	68,058

1 Includes precious metals-linked debt instruments issued. 2 Refer to Note 21 for more information.

In addition to *Financial liabilities designated at fair value*, certain structured debt instruments were reported within the balance sheet lines *Due to banks*, *Due to customers* and *Bonds issued*. These instruments were bifurcated for measurement purposes. As of 31 December 2024, the total carrying amount of the host instruments was USD 8,258m (CHF 7,499m) (31 December 2023: USD 7,555m (CHF 6,359m)) and the total carrying amount of the bifurcated embedded derivatives was positive USD 63m (CHF 57m) (31 December 2023: positive USD 58m (CHF 49m)).

Note 21 Funding eligible as total loss-absorbing capacity at the UBS AG level

	USD m		CHF m	
	31.12.24	31.12.23	31.12.24	31.12.23
Funding eligible as total loss-absorbing capacity at the UBS AG level included in:				
Funding received from UBS Group AG measured at amortized cost	108,185	67,292	98,243	56,639
Funding received from UBS Group AG designated at fair value	4,998	2,711	4,539	2,282
Bonds issued	218	546	198	460
Total funding eligible as total loss-absorbing capacity at the UBS AG level[1]	113,401	70,549	102,980	59,381

1 Represents the Swiss GAAP carrying amount of instruments qualifying as total loss-absorbing capital. In accordance with the Basel III framework, as applicable to Swiss systemically relevant banks (SRB), total funding eligible as total loss-absorbing capacity at the UBS AG level was USD 108,004m (CHF 98,079m) as of 31 December 2024 (31 December 2023: USD 66,951m (CHF 56,352m)). Refer to the "UBS AG standalone regulatory information" section of this report for more information about Swiss SRB going and gone concern capital.

Note 22a Share capital

UBS AG shares issued and outstanding

As of 31 December 2024, UBS AG's share capital of USD 386m (CHF 380m) consisted of 3,858,408,466 fully paid-up registered issued and outstanding shares with a nominal value of USD 0.10, which each entitle the holder to one vote at the meeting of the shareholders of UBS AG, if entered into the share register as having the right to vote, as well as a proportionate share of distributed dividends (unchanged from 31 December 2023). UBS AG's shares are not subject to any restrictions or limitations on their transferability. All shares were held by UBS Group AG.

Conditional share capital

As of 31 December 2024, the following conditional share capital was available to the Board of Directors (the BoD) of UBS AG:

– Conditional capital in the amount of USD 38,000,000, for the issuance of a maximum of 380,000,000 fully paid registered shares with a nominal value of USD 0.10 each (unchanged from 31 December 2023), to be issued through the voluntary or mandatory exercise of conversion rights and / or warrants granted in connection with the issuance of bonds or similar financial instruments on national or international capital markets. This conditional capital allowance was approved at the Extraordinary General Meeting held on 26 November 2014, having originally been approved at the Annual General Meeting (the AGM) of UBS AG on 14 April 2010. The BoD has not made use of such allowance.

Conversion capital

As of 31 December 2024, UBS AG had conversion capital in the amount of USD 70,000,000, for the issuance of a maximum of 700,000,000 fully paid registered shares with a nominal value of USD 0.10 each. The issuance of fully paid registered shares only occurs through the mandatory conversion of claims arising upon occurrence of one or more trigger events under financial market instruments with contingent conversion features issued by UBS AG. The creation of this conversion capital was approved at the Annual General Meeting of Shareholders (the AGM) held on 23 April 2024.

Non-distributable reserves

Non-distributable reserves consist of 50% of the share capital of UBS AG, amounting to USD 193m (CHF 190m) as of 31 December 2024 (unchanged from 31 December 2023).

Note 22b Significant shareholders

The sole direct shareholder of UBS AG is UBS Group AG, which holds 100% of UBS AG shares. These shares are entitled to voting rights. Indirect shareholders of UBS AG included in the table below are the direct shareholders of UBS Group AG (acting in their own name or in their capacity as nominees for other investors or beneficial owners) that were registered in the UBS Group AG share register with 3% or more of the share capital of UBS Group AG as of 31 December 2024 or as of 31 December 2023. The shares and share capital of UBS AG held by indirect shareholders, as shown in the table below, represent their relative holding of UBS Group AG shares. They do not have voting rights in UBS AG.

	31.12.24		31.12.23

Total assets for defined benefit plans	428	344	388	290

1 As of 31 December 2024, USD 428m (CHF 388m) mainly reflected USD 362m (CHF 329m) for the UBS UK defined benefit plan, USD 36m (CHF 33m) for the Credit Suisse Guernsey defined benefit plan, USD 22m (CHF 20m) for the UBS US Investment Bank defined benefit plan and USD 6m (CHF 6m) for the Credit Suisse Swiss pension plan. As of 31 December 2023, USD 344m (CHF 290m) mainly reflected USD 341m (CHF 287m) for the UBS UK defined benefit plan and USD 3m (CHF 2m) for the UBS US defined benefit plan.

b) Liabilities related to defined benefit plans	USD m		CHF m	
	31.12.24	31.12.23	31.12.24	31.12.23
Provision for Swiss pension plans	0	0	0	0
Net defined benefit liabilities for defined benefit plans[1]	61	66	55	56
Total provision for defined benefit plans	61	66	55	56
Bank accounts at UBS and UBS debt instruments held by Swiss pension funds	293	11	266	10
UBS derivative financial instruments held by Swiss pension funds	15	34	14	29
Total liabilities related to defined benefit plans	369	112	335	94

1 As of 31 December 2024, USD 61m (CHF 55m) mainly reflected USD 35m (CHF 32m) for the UBS US plans, USD 12m (CHF 11m) for the UBS UK plan and USD 8m (CHF 7m) for the UBS Taiwan plan. As of 31 December 2023, USD 66m (CHF 56m) mainly reflected USD 37m (CHF 31m) for the UBS US plans, USD 14m (CHF 12m) for the UBS UK plan and USD 11m (CHF 9m) for the UBS Taiwan plan.

c) Swiss pension plan	USD m		CHF m	
	As of or for the year ended			
	31.12.24	31.12.23	31.12.24	31.12.23
Pension plan surplus[1]	1,195	343	1,085	288
Economic benefit / (obligation) of UBS AG	6	0	6	0
Change in economic benefit / (obligation) recognized in the income statement	0	0	0	0
Employer contributions in the period recognized in the income statement	177	28	157	25
Performance awards-related employer contributions accrued	7	3	6	3
Total pension expense recognized in the income statement within Personnel expenses	184	31	163	28

1 The pension plan surplus is determined in accordance with Swiss GAAP (FER 26) and consists of the reserve for the fluctuation in asset value and a prepaid contribution. The reserve for the fluctuation did not represent an economic benefit for UBS AG in accordance with Swiss GAAP (FER 16) as of both 31 December 2024 and 31 December 2023.

UBS AG has elected to apply FER 16 for its Swiss pension plan and IFRS Accounting Standards (IAS 19) for its non-Swiss defined benefit plans. However, remeasurements of the defined benefit obligations and assets for non-Swiss defined benefit plans are recognized in the income statement rather than directly in equity.

In 2024, an expense of USD 277m (CHF 243m) was recognized in the income statement, driven by expenses of USD 130m (CHF 116m) related to defined contribution plans and USD 148m (CHF 127m) related to defined benefit plans. In 2023, an expense of USD 124m (CHF 115m) was recognized in the income statement, driven by expenses of USD 76m (CHF 68m) related to defined contribution plans and USD 49m (CHF 47m) related to defined benefit plans.

The Swiss pension plans had an employer contribution reserve of USD 6m as of 31 December 2024 and none as of 31 December 2023.

- **Refer to "Note 26 Post-employment benefit plans" in the "Consolidated financial statements" section of the UBS AG Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about defined benefit plans in accordance with IFRS Accounting Standards**

Note 24 Related parties

Transactions with related parties are conducted at internally agreed transfer prices or at arm's-length terms and neither involve more than the normal risk of collectability nor contain any other unfavorable features for the firm. Loans, fixed advances and mortgages granted to non-independent members of the governing bodies in the ordinary course of business are also on substantially the same terms and conditions that are available to other employees, including interest rates and collateral. Independent members of the governing bodies are granted loans and mortgages in the ordinary course of business at general market conditions.

of which: placed with subsidiaries and affiliated entities	*0*	*0*	*0*	*0*
Total fiduciary transactions	2,435	39	2,211	33

Fiduciary transactions encompass transactions entered into by UBS AG that result in holding or placing assets on behalf of individuals, trusts, defined benefit plans and other institutions. Unless the recognition criteria for the assets are satisfied, these assets and the related income are excluded from UBS AG's balance sheet and income statement but are disclosed in this Note as off-balance sheet fiduciary transactions. Client deposits that are initially placed as fiduciary transactions with UBS AG may be recognized on UBS AG's balance sheet in situations in which the deposit is subsequently placed within UBS AG. In such cases, these deposits are not reported in the table above.

Statement of proposed appropriation of total profit and dividend distribution

The Board of Directors (the BoD) proposes that the Annual General Meeting of Shareholders (the AGM) on 8 April 2025 approve the appropriation of total profit and an ordinary dividend distribution of USD 6,500m out of the total profit (USD 5,138m) and out of the *Voluntary earnings reserve* (USD 1,362m). Furthermore, the BoD proposes the appropriation of an amount of USD 6,500m out of the *Voluntary earnings reserve* to a special dividend reserve within the *Voluntary earnings reserve*.

Appropriation of and distribution out of total profit

	USD m	CHF m
	For the year ended	For the year ended
	31.12.24	31.12.24[1]
Net profit for the period	5,138	4,684
Profit / (loss) carried forward	0	0
Total profit available for appropriation	5,138	4,684
Appropriation of total profit		
Dividend distribution	(5,138)	(4,684)
Profit / (loss) carried forward	0	0
Proposed dividend out of voluntary earnings reserve		
Total voluntary earnings reserve before distribution	13,157	11,311
Dividend distribution	(1,362)	(1,219)
Total voluntary earnings reserve after distribution	11,795	10,092
of which: appropriation to special dividend reserve within voluntary earnings reserve[2]	*6,500*	*5,903*

1 For illustrative purposes, the proposed dividend of USD 6,500m is converted to Swiss francs at the closing exchange rate as of 31 December 2024 (CHF / USD 1.10), which equals a Swiss franc dividend of CHF 5,903m and would result in a distribution of CHF 4,684m out of total profit and the remainder of CHF 1,219m out of the voluntary earnings reserve. 2 The Voluntary earnings reserve includes a special dividend reserve of USD 6,500m (CHF 5,903m) available for appropriation. The decision on the special dividend payment is intended to be made at an Extraordinary General Meeting in the second half of 2025, considering any proposed requirements from Switzerland's ongoing review of its capital regime.

UBS AG standalone regulatory information

Key metrics for the fourth quarter of 2024

The table below is based on Basel Committee on Banking Supervision (BCBS) Basel III rules and IFRS Accounting Standards.

During the fourth quarter of 2024, tier 1 capital decreased by USD 8.5bn to USD 90.9bn. Common equity tier 1 (CET1) capital decreased by USD 8.1bn to USD 75.1bn, mainly as operating profit before tax of USD 1.1bn was more than offset by additional accruals for capital returns to UBS Group AG of USD 8.5bn. As of 31 December 2024, accruals for capital returns to UBS Group AG amounted to USD 13.0bn, reflecting a proposed ordinary dividend distribution of USD 6.5bn and the appropriation of USD 6.5bn to a special dividend reserve, both subject to approval at the Annual General Meeting in the second quarter of 2025. The decision on the distribution of the special dividend is intended to be made at an Extraordinary General Meeting in the second half of 2025, considering any proposed requirements from Switzerland's ongoing review of its capital regime.

Additional tier 1 (AT1) capital issued by the Group and on lent to UBS AG decreased by USD 0.4bn to USD 15.8bn, mainly reflecting negative impacts from interest rate risk hedge, foreign currency translation and other effects.

Phase-in risk-weighted assets (RWA) decreased by USD 57.2bn to USD 508.0bn during the fourth quarter of 2024, primarily driven by decreases in participation RWA as a result of capital repatriations and credit and counterparty credit risk RWA.

During the fourth quarter of 2024, the leverage ratio denominator (the LRD) decreased by USD 45.1bn to USD 899.3bn, driven by currency effects of USD 31.2bn and asset size and other movements of USD 13.9bn. The asset size and other movements were mainly driven by lower lending balances, investments in subsidiaries as a result of capital repatriations, trading portfolio assets and disposals of high-quality liquid asset (HQLA) portfolio securities, partly offset by higher securities financing transactions and derivative exposures.

Correspondingly, the CET1 capital ratio of UBS AG standalone increased to 14.8% from 14.7%, reflecting the decrease in RWA, partly offset by the decrease in CET1 capital. The firm's Basel III leverage ratio decreased to 10.1% from 10.5%, reflecting the decrease in tier 1 capital, partly offset by the aforementioned decrease in the LRD.

The quarterly average liquidity coverage ratio (the LCR) of UBS AG standalone decreased 38.3 percentage points to 244.0%, remaining above the prudential requirement communicated by the Swiss Financial Market Supervisory Authority (FINMA). The movement in the quarterly average LCR was primarily driven by a decrease in HQLA of USD 27.5bn to USD 142.7bn, mainly reflecting lower cash available, driven by decreases in debt issued measured at amortized cost and short-term borrowings, higher funding provided to subsidiaries, and an increase in non-HQLA-related securities financing transactions and funding of trading assets. The effect of the decrease in HQLA was partly offset by a decrease in net cash outflows of USD 1.8bn to USD 58.6bn, reflecting lower net outflows from derivatives and higher net inflows from securities financing transactions, partly offset by lower inflows from intercompany funding to subsidiaries.

As of 31 December 2024, the net stable funding ratio decreased 3.1 percentage points to 97.3%, remaining above the prudential requirement communicated by FINMA. Available stable funding decreased by USD 36.2bn to USD 410.2bn, mainly driven by lower regulatory capital, deposits and debt issued. Required stable funding decreased by USD 23.1bn to USD 421.8bn, mainly driven by lower lending assets and investments in subsidiaries.

1 Based on phase-in rules for RWA. Refer to "Swiss systemically relevant bank going and gone concern requirements and information" below for more information. 2 Calculated as 8% of total RWA, based on total capital minimum requirements, excluding CET1 buffer requirements. 3 Swiss SRB going and gone concern requirements and information for UBS AG standalone are provided below in this section. 4 Excludes non-BCBS capital buffer requirements for risk-weighted positions that are directly or indirectly backed by residential properties in Switzerland. 5 Represents the CET1 ratio that is available to meet buffer requirements. Calculated as the CET1 ratio minus the BCBS CET1 capital requirement and, where applicable, minus the BCBS tier 2 capital requirement met with CET1 capital. 6 Calculated after the application of haircuts, inflow and outflow rates, as well as, where applicable, caps on Level 2 assets and cash inflows. Calculated based on an average of 64 data points in the fourth quarter of 2024 and 65 data points in the third quarter of 2024. For the prior-quarter data points, refer to the respective Pillar 3 Report, available under "Pillar 3 disclosures" at ubs.com/investors, for more information. 7 In accordance with Art. 17h para. 3 and 4 of the Liquidity Ordinance, UBS AG standalone is required to maintain a minimum NSFR of at least 80% without taking into account excess funding of UBS Switzerland AG and 100% after taking into account such excess funding.

Swiss systemically relevant bank going and gone concern requirements and information

UBS AG standalone is considered a systemically relevant bank (an SRB) under Swiss banking law and is subject to capital regulations on a standalone basis.

The capital requirements based on RWA include a minimum CET1 capital requirement of 10.26%, including a countercyclical buffer of 0.19%, and a total going concern capital requirement of 14.56%, including a countercyclical buffer of 0.19%. The capital requirements based on the LRD include a minimum CET1 capital requirement of 3.54% and a total going concern leverage ratio requirement of 5.04%.

CET1 capital and high-trigger AT1 capital instruments are eligible as going concern capital. As of 31 December 2024, one remaining outstanding low-trigger AT1 capital instrument, amounting to USD 1.2bn, that was on lent from UBS Group AG to UBS AG qualified as going concern capital, as agreed with FINMA.

UBS AG standalone is subject to a gone concern capital requirement based on the sum of: (i) the nominal value of the gone concern instruments issued by UBS entities and held by the parent firm; (ii) 75% of the capital requirements resulting from third-party exposure on a standalone basis; and (iii) a buffer requirement equal to 30% of the Group's gone concern capital requirement on UBS AG's consolidated exposure. As of 1 January 2024, the buffer requirement has been fully phased in. The gone concern capital requirement is the higher of RWA- and LRD-based requirements, calculated separately. The gone concern capital coverage ratio reflects how much gone concern capital is available to meet the gone concern requirement. Outstanding high- and low-trigger loss-absorbing tier 2 capital instruments, non-Basel III-compliant tier 2 capital instruments, and total loss-absorbing capacity-eligible unsecured debt instruments are eligible to meet gone concern requirements until one year before maturity.

For direct and indirect investments, including the holding of regulatory capital instruments of UBS AG by subsidiaries that are active in banking and finance, a FINMA decree introduced a risk-weighting approach, with a phase-in period until 1 January 2028. From 1 January 2019 onward, the initial risk weight of these investments of 200% is being gradually raised by 5 percentage points per year for Switzerland-domiciled investments and by 20 percentage points per year for foreign-domiciled investments until the fully applied risk weights are 250% and 400%, respectively. As of 31 December 2024, the applicable phase-in risk weights were 230% for Switzerland-domiciled investments and 320% for foreign-domiciled investments.

› **Refer to "Capital and capital ratios of our significant regulated subsidiaries" in the "Capital, liquidity and funding, and balance sheet" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about the joint liability of UBS AG and UBS Switzerland AG**

The tables below provide details of the Swiss SRB RWA- and LRD-based going and gone concern requirements and information as required by FINMA; details regarding eligible gone concern instruments are provided below.

1 Net exposures for direct and indirect investments including holding of regulatory capital instruments in Switzerland-domiciled subsidiaries and for direct and indirect investments including holding of regulatory capital instruments in foreign-domiciled subsidiaries are risk-weighted at 230% and 320%, respectively, for the current year. Risk weights will gradually increase by 5 percentage points per year for Switzerland-domiciled investments and 20 percentage points per year for foreign-domiciled investments until the fully applied risk weights of 250% and 400%, respectively, are applied.

Climate risk

Our climate strategy and governance are determined and overseen at the UBS Group level. Similarly, we identify and manage climate risks, including climate-related financial risks, in our own operations, balance sheet, client assets and supply chain at the UBS Group level.

Climate-related metrics for the UBS AG legal entity are presented in the UBS Group Annual Report 2024.

Alternative performance measures

An alternative performance measure (an APM) is a financial measure of historical or future financial performance, financial position or cash flows other than a financial measure defined or specified in the applicable recognized accounting standards or in other applicable regulations. We report a number of APMs in the discussion of the financial and operating performance of the Group, our business divisions and Group Items. We use APMs to provide a more complete picture of our operating performance and to reflect management's view of the fundamental drivers of our business results. A definition of each APM, the method used to calculate it and the information content are presented under "Alternative performance measures" in the appendix to this report. Our APMs may qualify as non-GAAP measures as defined by US Securities and Exchange Commission (SEC) regulations. Our underlying results are APMs and are non-GAAP financial measures.

› **Refer to the "Group performance" section of this report and to "Alternative performance measures" in the appendix to this report for additional information about underlying results**

Significant regulated subsidiary and sub-group information

Financial and regulatory key figures for our significant regulated subsidiaries and sub-groups will be published on 5 August 2025 and will be available under "Holding company and significant regulated subsidiaries and sub-groups" at *ubs.com/investors*.

1 Refer to the "Share information and earnings per share" section of this report for more information. 2 Refer to the "Targets, capital guidance and ambitions" section of the UBS Group Annual Report 2024, available under "Annual reporting" at ubs.com/investors, and to the "Recent development" section of this report for more information about our performance targets. 3 Refer to "Alternative performance measures" in the appendix to this report for the relevant definition(s) and calculation method(s). 4 Refer to the "Group performance" section of this report for more information about underlying results. 5 Based on the Swiss systemically relevant bank framework. Refer to the "Capital management" section of this report for more information. 6 The disclosed ratios represent quarterly averages for the quarters presented and are calculated based on an average of 61 data points in the second quarter of 2025, 62 data points in the first quarter of 2025, 64 data points in the fourth quarter of 2024 and 61 data points in the second quarter of 2024. Refer to the "Liquidity and funding management" section of this report for more information. 7 Consists of invested assets for Global Wealth Management, Asset Management (including invested assets from associates) and Personal & Corporate Banking. Refer to "Note 31 Invested assets and net new money" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024, available under "Annual reporting" at ubs.com/investors, for more information. 8 The calculation of market capitalization reflects total shares issued multiplied by the share price at the end of the period.

Recent developments

Management report

Integration of Credit Suisse

We remain on track to substantially complete the integration of Credit Suisse by the end of 2026. Our focus continues to be on client account migrations and infrastructure decommissioning.

In the second quarter of 2025, we successfully completed the first main wave of our Swiss business migrations, having now migrated approximately one-third of the targeted client accounts, and we still aim to complete the Swiss booking center migrations by the end of the first quarter of 2026.

We have made substantial further progress in simplifying our legal entity structure in the US and Europe, having merged Credit Suisse Holdings (USA), Inc. with UBS Americas Inc, deregistered Credit Suisse Securities (USA) LLC as a broker-dealer and established UBS Europe SE as the single EU intermediate parent undertaking ahead of schedule.

In the second quarter of 2025, we realized an additional USD 0.7bn in gross cost savings. Cumulative gross cost savings at the end of the second quarter of 2025 amounted to USD 9.1bn compared with the 2022 combined cost base of UBS and Credit Suisse. This represents around 70% of our ambition to deliver around USD 13bn in annualized exit rate gross cost savings by the end of 2026.

As of 30 June 2025, our Non-core and Legacy business division has delivered a 62% reduction in risk-weighted assets (RWA) since the second quarter of 2023. We still aim for Non-core and Legacy's credit and market risk RWA to be below USD 8bn by the end of 2025, and we expect its operating expenses, excluding litigation, to be around USD 1.6bn in 2025.

On 18 July 2025, the High Court of England and Wales approved the transfer of Credit Suisse International's residual business and related products to UBS AG London Branch and UBS Europe SE pursuant to Part VII of the Financial Services and Markets Act 2000. The transfer of the relevant assets and liabilities is expected to occur over the next six months.

Regulatory and legal developments

Developments in Switzerland aimed at strengthening financial stability

In June 2025, the Swiss Federal Council published regulatory proposals that aim to further strengthen banking stability in Switzerland (the Financial Stability Proposals). Proposed measures to be submitted to the Swiss Parliament for enactment would exclude from common equity tier 1 (CET1) capital investments in foreign subsidiaries of systemically important banks (SIBs), include additional requirements for the recovery and resolution of SIBs, add measures to increase the potential for obtaining liquidity via the Swiss National Bank (the SNB), introduce a Senior Managers Regime for banks, and provide additional powers for the Swiss Financial Market Supervisory Authority (FINMA). Proposed measures at the ordinance level would exclude capitalized software and deferred tax assets (DTAs) on temporary differences from CET1 capital, add stricter requirements for prudential valuation adjustments (PVAs) of assets and liabilities, permit the mandatory suspension of interest payments for additional tier 1 capital instruments in the event of a cumulative loss over four quarters, and introduce measures that aim to enable FINMA and other authorities to better assess the situation of banks in a liquidity crisis.

The Swiss Federal Council plans to start a public consultation in the fall of 2025 on the legislative amendments to capital requirements related to foreign subsidiaries and has indicated it expects to submit its proposal to the Swiss Parliament in the first half of 2026. Entry into force of these amendments is expected in 2028, at the earliest, and is expected to be phased in over a period of at least six to eight years. For the remaining legislative amendments, a consultation draft is expected in the first half of 2026, with the Swiss Federal Council's submission to the Parliament in the first half of 2027. The entry into force of these amendments is expected in 2028 or 2029.

The measures at the ordinance level, including the capital treatment of capitalized software and DTAs on temporary differences, are in public consultation until September 2025, with the ordinances expected to enter into force in January 2027, at the earliest. In addition, a consultation on amendments to the Liquidity Ordinance is expected to begin in the first half of 2026. The amendments to be proposed are expected to set minimum requirements for maintaining borrowing capacity for emergency liquidity assistance.

Based on financial information published for the first quarter of 2025 and given UBS AG's target CET1 capital ratio of between 12.5% and 13%, UBS AG would be required to hold additional estimated CET1 capital of around USD 24bn on a pro-forma basis if the recommendations were to be implemented as proposed. This includes around USD 23bn related to the full deduction of UBS AG's investments in foreign subsidiaries. These pro-forma figures reflect previously announced expected capital repatriations of around USD 5bn.

The incremental CET1 capital of around USD 24bn required at UBS AG would result in a CET1 capital ratio at the UBS Group AG (consolidated) level of around 19%. At Group level, the proposed measures related to DTAs on temporary differences, capitalized software and PVAs would eliminate capital recognition for these items in a manner misaligned with international standards. This would reduce the CET1 capital ratio for the Group to around 17%, underrepresenting UBS's capital strength.

The additional capital of USD 24bn would be in addition to the previously communicated incremental capital of around USD 18bn that UBS will have to hold as a result of the acquisition of the Credit Suisse Group in order to meet existing regulations. This includes around USD 9bn to remove the regulatory concessions granted to Credit Suisse and around USD 9bn to meet the current progressive requirements due to the increased leverage ratio denominator (LRD) and higher market share of the combined business. The progressive requirements for LRD and market share are subject to confirmation.

On this basis, UBS would be required to hold around USD 42bn in additional CET1 capital in total.

Recent developments related to the implementation of the final Basel III standards

In June 2025, the European Commission (the EC) proposed to delay the implementation of the Fundamental Review of the Trading Book (the FRTB) by another year, to 1 January 2027. We expect that the overall impact on UBS will be limited.

In July 2025, the UK Prudential Regulatory Authority published for consultation proposals to delay the implementation of the FRTB internal models approach from 1 January 2027 to 1 January 2028. The FRTB regulation for standardized and advanced standardized approaches will continue to apply from 1 January 2027. With UBS's entities not being subject to the corresponding UK regulation, we expect that the overall impact on UBS will be limited.

In Switzerland, the FRTB became effective on 1 January 2025, together with all other requirements of the final Basel III regulation.

The Swiss Federal Council pauses the revision of the Ordinance on Climate Disclosures

In June 2025, the Swiss Federal Council decided to pause the revision of the Ordinance on Climate Disclosures until the approval of the ongoing revision of the overarching legislation on sustainability reporting in the Swiss Code of Obligations or until 1 January 2027, at the latest.

Recent developments related to EU sustainability reporting

In July 2025, Germany's Federal Ministry of Justice and Consumer Protection published a new draft bill to implement the EU Corporate Sustainability Reporting Directive (the CSRD). If enacted, the draft bill would make CSRD reporting mandatory for the 2025 financial year for large companies that are subject to wave one reporting requirements of the CSRD, which would include UBS AG.

In July 2025, the EC adopted amendments to the European Sustainability Reporting Standards (the ESRS) to allow wave one companies to omit certain of the ESRS disclosures for the 2025 and 2026 financial years. Also in July 2025, the EC published proposed measures to simplify the disclosure requirements under Art. 8 of the EU Taxonomy Regulation. These actions are part of a broader initiative by the EU to simplify its sustainability standards and to reduce the reporting burden on companies. We are currently assessing the impact of these measures on the disclosures of UBS AG and UBS Europe SE.

Other developments

Resolution of legacy Credit Suisse cross-border matter

On 5 May 2025, Credit Suisse Services AG entered into an agreement with the US Department of Justice (the DOJ) to settle a long-running tax-related investigation into Credit Suisse's implementation of its 2014 plea agreement, relating to its legacy cross-border business with US taxpayers booked in Switzerland, which began before UBS acquired the Credit Suisse Group. Credit Suisse Services AG pleaded guilty to one count of conspiracy to aid and assist in the preparation of false income tax returns. Credit Suisse Services AG also contemporaneously entered into a non-prosecution agreement regarding US taxpayers booked in the legacy Credit Suisse Singapore booking center. In the second quarter of 2025, we paid USD 511m with respect to the aforementioned resolutions and we recorded in our Non-core and Legacy division a net release of USD 427m of provisions and contingent liabilities, which included a provision for the estimated costs of UBS's ongoing obligations with the DOJ in respect of legacy Credit Suisse accounts.

› **Refer to "Note 14 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information**

Sale of O'Connor business

In May 2025, UBS Asset Management (Americas) LLC entered into an agreement to sell its O'Connor single-manager hedge fund, private credit and commodities platform to Cantor Fitzgerald. The sale includes O'Connor's six investment strategies with around USD 11bn in assets under management and, as part of the agreement, UBS and Cantor Fitzgerald will establish a long-term commercial arrangement. The transaction is expected to close in stages, beginning in the fourth quarter of 2025, subject to regulatory approvals and other customary closing conditions. UBS does not expect to recognize a material profit or loss upon completion of the transaction.

Ownership increase in UBS Securities China

In the second quarter of 2025, we increased our stake in UBS Securities China from 67% to 100%. The closing of the transaction did not affect profit or loss and there was no material effect on our CET1 capital.

Capital returns and targets

On 1 July 2025, we launched a new program to repurchase up to USD 2bn of shares. As previously announced, we plan to complete the repurchase of up to USD 2bn of shares in the second half of 2025. We will communicate our 2026 capital returns ambitions with our fourth-quarter and full-year financial results for 2025. Our share repurchases will be subject to maintaining our CET1 capital ratio target of around 14% and achieving our financial targets. The program we launched in April 2024 was closed in May 2025 after completing the USD 2bn of share repurchases as planned. In the first half of 2025, we repurchased a total of USD 1bn of shares.

› **Refer to the "Share information and earnings per share" section of this report for more information**

We maintain our target of achieving an underlying return on CET1 capital of around 15% and an underlying cost / income ratio of less than 70% by the end of 2026 (both on an exit rate basis). We will provide an update on our longer-term returns targets when there is more clarity on the timing of potential changes and when the likely final outcome of the Financial Stability Proposals becomes more visible.

UBS Group performance, business divisions and Group Items

Management report

Our businesses

We report five business divisions, each of which qualifies as an operating segment pursuant to IFRS Accounting Standards: Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank, and Non-core and Legacy. Non-core and Legacy consists of positions and businesses not aligned with our strategy and policies.

Our Group functions are support and control functions that provide services to the Group. Virtually all costs incurred by our Group functions are allocated to the business divisions, leaving a residual amount that we refer to as Group Items in our segment reporting.

Underlying results

In addition to reporting our results in accordance with IFRS Accounting Standards, we report underlying results that exclude items of profit or loss that management believes are not representative of the underlying performance.

In the second quarter of 2025, underlying revenues excluded purchase price allocation (PPA) effects and other integration items. PPA effects mainly consisted of PPA adjustments on financial instruments measured at amortized cost, including off-balance sheet positions, arising from the acquisition of the Credit Suisse Group. Accretion of PPA adjustments on financial instruments is accelerated when the related financial instrument is derecognized before its contractual maturity. No adjustment is made for accretion of PPA on financial instruments within Non-core and Legacy, due to the nature of its business model. Underlying revenues also excluded a loss relating to an investment in an associate.

In the second quarter of 2025, underlying expenses excluded integration-related expenses that are temporary, incremental and directly related to the integration of Credit Suisse into UBS, including costs of internal staff and contractors substantially dedicated to integration activities, retention awards, redundancy costs, incremental expenses from the shortening of useful lives of property, equipment and software, and impairment charges relating to these assets. Classification as integration-related expenses does not affect the timing of recognition and measurement of those expenses or the presentation thereof in the income statement.

Results: 2Q25 vs 2Q24

Reported operating profit before tax increased by USD 724m, or 49%, to USD 2,193m, reflecting an increase in total revenues and lower operating expenses, partly offset by higher net credit loss expenses. Total revenues increased by USD 208m, or 2%, to USD 12,112m, which included an increase from foreign currency effects and a decrease of USD 184m in accretion impacts resulting from PPA adjustments on financial instruments and other integration items. The increase in total revenues was driven by increases of USD 177m in net fee and commission income and USD 155m in combined net interest income and other net income from financial instruments measured at fair value through profit or loss, partly offset by a USD 124m decrease in other income. Operating expenses decreased by USD 584m, or 6%, to USD 9,756m, which included an increase from foreign currency effects and a USD 319m decrease in integration-related expenses. The overall decrease in operating expenses was mainly driven by USD 437m lower general and administrative expenses, a USD 143m decrease in personnel expenses and a USD 5m decrease in depreciation, amortization and impairment of non-financial assets. Net credit loss expenses were USD 163m, compared with USD 95m in the second quarter of 2024.

Underlying results 2Q25 vs 2Q24

Underlying revenues for the second quarter of 2025 excluded PPA effects and other integration items of USD 596m and a USD 31m loss relating to an investment in an associate. Underlying operating expenses excluded USD 1,055m of integration-related expenses and PPA effects.

On an underlying basis, profit before tax increased by USD 623m to USD 2,683m, reflecting a USD 422m increase in total revenues and a USD 268m decrease in operating expenses, partly offset by a USD 68m increase in net credit loss expenses.

Total revenues: 2Q25 vs 2Q24

Net interest income and other net income from financial instruments measured at fair value through profit or loss

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss increased by USD 155m to USD 5,373m and included a decrease of USD 51m in accretion impacts resulting from PPA adjustments on financial instruments and other PPA effects.

Global Wealth Management revenues decreased by USD 65m to USD 2,167m, which included USD 91m lower accretion of PPA adjustments on financial instruments and other PPA effects. Excluding the aforementioned effects, net interest income decreased, mainly driven by lower loan revenues, reflecting margin contraction, and lower deposit revenues due to lower central bank interest rates, partly offset by the effect of higher deposit volumes, positive foreign currency effects and balance sheet optimization measures. In addition, trading revenues increased, mainly reflecting higher levels of client activity.

Personal & Corporate Banking revenues increased by USD 21m to USD 1,585m, which included USD 31m higher accretion of PPA adjustments on financial instruments and other PPA effects, as well as positive foreign currency effects. Excluding the aforementioned effects, net interest income decreased, mainly driven by lower central bank interest rates affecting deposit revenues, partly mitigated by pricing measures, lower liquidity and funding costs, and higher loan revenues.

Investment Bank revenues increased by USD 354m to USD 1,882m, including a USD 14m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. The overall growth was mainly due to higher Derivatives & Solutions revenues, mostly driven by Foreign Exchange, Rates and Equity Derivatives, due to elevated volatility and higher levels of client activity. In addition, there were higher revenues in Financing, with increases in all products, led by Prime Brokerage, supported by higher client balances. These increases were partly offset by lower revenues in Global Banking, largely driven by a contraction in Leveraged Capital Markets revenues.

Non-core and Legacy revenues were negative USD 92m, compared with positive USD 310m in the second quarter of 2024, mainly due to lower net gains from position exits and lower net interest income from securitized products and credit products, partly offset by lower liquidity and funding costs, as a result of a smaller portfolio.

Revenues in Group Items were negative USD 168m, compared with negative USD 417m in the second quarter of 2024. The change in revenues was mainly driven by mark-to-market gains from Group hedging and own debt, including hedge accounting ineffectiveness, compared to losses in the second quarter of 2024. Revenues in the second quarter of 2025 included offsetting impacts on portfolio-level economic hedges and mark-to-market effects on own credit.

- **Refer to the relevant business division commentary in this section for more information about business-division-specific revenues**
- **Refer to "Note 3 Net interest income" in the "Consolidated financial statements" section of this report for more information about net interest income**

1 Mainly includes spread-related income in connection with client-driven transactions, foreign currency translation effects and income and expenses from precious metals, which are included in the income statement line Other net income from financial instruments measured at fair value through profit or loss. The amounts reported on this line are one component of Transaction-based income in the management discussion and analysis in the "Global Wealth Management" and "Personal & Corporate Banking" sections of this report.

Net fee and commission income

Net fee and commission income increased by USD 177m to USD 6,708m and included a decrease of USD 152m in accretion of PPA adjustments on financial instruments and other PPA effects, which was reflected in other fee and commission income, predominantly in Global Banking in the Investment Bank.

Investment fund fees increased by USD 200m to USD 1,601m, mainly in Global Wealth Management and Asset Management. In addition, fees for portfolio management and related services increased by USD 94m to USD 3,165m, predominantly in Global Wealth Management. The increases in Global Wealth Management were mainly due to higher average levels of fee-generating assets reflecting positive market performance and net new fee-generating asset inflows. The increase in Asset Management was largely driven by positive foreign currency effects and positive market performance, partly offset by continued margin compression.

Net brokerage fees increased by USD 150m to USD 1,188m, due to higher levels of client activity in Global Wealth Management, and in Cash Equities in Execution Services in the Investment Bank, due to higher volumes.

M&A and corporate finance fees decreased by USD 47m to USD 225m, mainly reflecting lower advisory revenues in our Global Banking business within the Investment Bank.

- **Refer to "Note 4 Net fee and commission income" in the "Consolidated financial statements" section of this report for more information**

Other income

Other income was USD 30m, compared with USD 154m in the second quarter of 2024. The second quarter of 2025 included a USD 31m loss relating to an investment in an associate. In addition, there were losses of USD 27m recognized on repurchases of UBS's own debt instruments, compared with gains of USD 4m in the second quarter of 2024. The second quarter of 2024 included a USD 28m net gain in Asset Management from the sale of our Brazilian real estate fund management business.

- **Refer to "Note 5 Other income" in the "Consolidated financial statements" section of this report for more information**

Credit loss expense / release: 2Q25 vs 2Q24

Total net credit loss expenses in the second quarter of 2025 were USD 163m, reflecting net expenses of USD 38m related to performing positions and net expenses of USD 125m on credit-impaired positions. Net credit loss expenses were USD 95m in the second quarter of 2024.

› **Refer to "Note 8 Expected credit loss measurement" in the "Consolidated financial statements" section of this report for more information**

1 Financial advisor compensation consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements.

Personnel expenses

Personnel expenses decreased by USD 143m to USD 6,976m, including a USD 206m decrease in integration-related expenses. The overall decrease was mainly as a result of lower amortization of awards granted in prior periods and lower accruals for performance awards. In addition, salary expenses were lower, reflecting the impact of a smaller workforce, largely offset by foreign currency effects. These decreases were partly offset by a USD 44m increase in financial advisor compensation resulting from higher compensable revenues.

› **Refer to "Note 6 Personnel expenses" in the "Consolidated financial statements" section of this report for more information**

General and administrative expenses

General and administrative expenses decreased by USD 437m to USD 1,881m, including a USD 113m decrease in integration-related expenses. The overall decrease was mainly due to USD 259m higher net releases for litigation, regulatory and similar matters. In addition, there were decreases of USD 82m in outsourcing costs, mainly reflecting lower IT services costs, as well as USD 77m lower consulting, legal and audit fees, largely attributable to the decrease in integration-related expenses.

- **Refer to "Note 7 General and administrative expenses" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Note 14 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information about litigation, regulatory and similar matters**
- **Refer to the "Regulatory and legal developments" and "Risk factors" sections of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about litigation, regulatory and similar matters**

Tax: 2Q25 vs 2Q24

The Group had a net income tax benefit of USD 209m in the second quarter of 2025, representing a negative effective tax rate of 9.5%, compared with a tax expense of USD 293m in the second quarter of 2024 and a positive effective tax rate of 20.0%.

This reflected a net deferred tax benefit of USD 577m, which included a USD 663m benefit related to integration-related tax planning, primarily driven by the recognition of deferred tax assets (DTAs) in respect of tax losses carried forward and deductible temporary differences resulting from the final consolidation of legal entities in the United States. These benefits were partly offset by a net deferred tax expense of USD 86m that primarily related to the amortization of DTAs previously recognized in relation to tax losses carried forward and deductible temporary differences.

The current tax expense was USD 368m, which primarily related to the taxable profits of UBS Switzerland AG and other entities.

Excluding any potential effects from the remeasurement of deferred tax assets in connection with the 2025 business planning process and any material jurisdictional statutory tax rate changes that could be enacted, the Group's effective tax rate for the second half of 2025 is expected to be higher than the structural rate of 23%. The projected second-half rate is elevated because the Group's net profit is expected to include certain restructuring costs and other expenses resulting from the ongoing integration of the legacy operations of Credit Suisse into the UBS Group, which are not expected to result in a tax benefit because such costs and expenses cannot be offset against relevant Group profits.

Total comprehensive income attributable to shareholders

In the second quarter of 2025, total comprehensive income attributable to shareholders was USD 5,335m, reflecting a net profit of USD 2,395m and other comprehensive income (OCI), net of tax, of USD 2,941m.

Foreign currency translation OCI was USD 2,536m, mainly resulting from the US dollar weakening against the Swiss franc and the euro.

OCI related to cash flow hedges was USD 562m, mainly reflecting net unrealized gains on US dollar hedging derivatives resulting from decreases in the relevant US dollar long-term interest rates and net losses on hedging instruments that were reclassified from OCI to the income statement.

OCI related to own credit on financial liabilities designated at fair value was negative USD 124m, primarily due to a tightening of our own credit spreads.

- **Refer to "Statement of comprehensive income" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Reconciliation of equity under IFRS Accounting Standards to Swiss SRB common equity tier 1 capital" in the "Capital management" section of this report for more information about the effects of OCI on common equity tier 1 capital**
- **Refer to "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about own credit on financial liabilities designated at fair value**

Sensitivity to interest rate movements

As of 30 June 2025, it is estimated that a parallel shift in yield curves by +100 basis points could lead to a combined increase in annual net interest income from our banking book of approximately USD 1.3bn in the first year after such a shift. Of this increase, approximately USD 0.7bn, USD 0.4bn and USD 0.1bn would result from changes in Swiss franc, US dollar and euro interest rates, respectively.

A parallel shift in yield curves by –100 basis points could lead to a combined increase in annual net interest income of approximately USD 0.9bn. Of this increase, approximately USD 1.5bn would result from changes in the Swiss franc interest rate, driven by both contractual and assumed flooring benefits under negative interest rates. US dollar and euro interest rate changes would lead to an offsetting decrease of USD 0.4bn and USD 0.1bn, respectively.

These estimates do not represent net interest income forecasts, as they are based on a hypothetical scenario of an immediate change in interest rates, equal across all currencies and relative to implied forward rates as of 30 June 2025 applied to our banking book. These estimates further assume no change to balance sheet size and product mix, stable foreign exchange rates, and no specific management action.

› **Refer to the "Risk management and control" section of this report for information about interest rate risk in the banking book**

Key figures and personnel

Below is an overview of selected key figures of the Group. For further information about key figures related to capital management, refer to the "Capital management" section of this report.

Cost / income ratio: 2Q25 vs 2Q24

The cost / income ratio was 80.5%, compared with 86.9%, and on an underlying basis the cost / income ratio was 75.4%, compared with 80.6%, both as a result of higher total revenues and lower operating expenses.

Personnel: 2Q25 vs 1Q25

The number of internal and external personnel employed was approximately 123,526 (workforce count) as of 30 June 2025, a net decrease of 2,551 compared with 31 March 2025. The number of internal personnel employed as of 30 June 2025 was 105,132 (full-time equivalents), a net decrease of 1,657 compared with 31 March 2025. The number of external staff was approximately 18,393 (workforce count) as of 30 June 2025, a net decrease of approximately 894 compared with 31 March 2025.

Common equity tier 1 capital: 2Q25 vs 1Q25

During the second quarter of 2025, our common equity tier 1 (CET1) capital increased by USD 3.6bn to USD 72.7bn, mainly driven by operating profit before tax of USD 2.2bn, foreign currency translation gains of USD 2.3bn and an increase in eligible DTAs on temporary differences of USD 0.4bn, partly offset by dividend accruals of USD 0.8bn and current tax expenses of USD 0.4bn. Share repurchases of USD 0.5bn made under our 2024 share repurchase program in the second quarter of 2025 did not affect our CET1 capital position, as there was an equal reduction in the capital reserve for expected future share repurchases.

Return on common equity tier 1 capital: 2Q25 vs 2Q24

The annualized return on CET1 capital was 13.5%, compared with 5.9%. On an underlying basis, the return on CET1 capital was 15.3%, compared with 8.4%. These increases were driven by an increase in net profit attributable to shareholders and a decrease in average CET1 capital.

Risk-weighted assets: 2Q25 vs 1Q25

During the second quarter of 2025, RWA increased by USD 21.2bn to USD 504.5bn, driven by an USD 18.6bn increase in currency effects and a USD 3.0bn increase resulting from asset size and other movements, partly offset by a USD 0.3bn decrease resulting from model updates and methodology changes.

Common equity tier 1 capital ratio: 2Q25 vs 1Q25

Our CET1 capital ratio increased to 14.4% from 14.3%, reflecting a USD 3.6bn increase in CET1 capital, partly offset by a USD 21.2bn increase in RWA.

Leverage ratio denominator: 2Q25 vs 1Q25

The leverage ratio denominator (the LRD) increased by USD 96.5bn to USD 1,658.1bn, mainly due to currency effects of USD 88.1bn and asset size and other movements of USD 8.4bn.

Common equity tier 1 leverage ratio: 2Q25 vs 1Q25

Our CET1 leverage ratio was stable at 4.4%, reflecting a USD 96.5bn increase in the LRD, offset by a USD 3.6bn increase in CET1 capital.

Results 6M25 vs 6M24

Operating profit before tax increased by USD 481m, or 13%, to USD 4,325m. Total revenues increased by USD 26m and included a decrease of USD 389m in accretion impacts resulting from PPA adjustments on financial instruments and other PPA effects. Operating expenses decreased by USD 517m, including a USD 412m decrease in integration-related expenses. Net credit loss expenses were USD 263m, compared with USD 201m in the first six months of 2024.

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss decreased by USD 401m to USD 10,940m and included a decrease of USD 168m in accretion impacts resulting from PPA adjustments on financial instruments and other PPA effects, largely reflected in a USD 189m decrease in net interest income in Global Wealth Management. The overall decrease of USD 225m in Global Wealth Management revenues was also driven by lower loan revenues, reflecting margin contraction, and lower deposit revenues due to lower central bank interest rates, partly offset by the effects of balance sheet optimization measures, higher deposit volumes and positive foreign currency effects. Personal & Corporate Banking revenues decreased by USD 256m, mainly driven by lower central bank interest rates affecting deposit revenues, partly mitigated by pricing measures. Investment Bank revenues increased by USD 838m, mainly due to an increase in Derivatives & Solutions revenues that resulted from increased volatility and higher levels of client activity. In addition, there were higher revenues in Financing, driven by higher client balances. These increases were partly offset by lower revenues in Global Banking, which mainly resulted from lower volumes in Leveraged Capital Markets. Non-core and Legacy revenues decreased by USD 1,139m, mainly due to lower net gains from position exits and lower net interest income from securitized products and credit products, partly offset by lower liquidity and funding costs. Revenues in the first six months of 2024 also included a net gain of USD 272m from the conclusion of agreements with Apollo relating to the former Credit Suisse securitized products group. Revenues in Group Items were negative USD 437m, compared with negative USD 823m in the first six months of 2024, and included lower mark-to-market losses from Group hedging and own debt, including hedge accounting ineffectiveness, within Group Treasury.

Net fee and commission income increased by USD 462m to USD 13,485m and included a decrease of USD 282m in accretion of PPA adjustments on financial instruments and other PPA effects, which was reflected in other fee and commission income. Investment fund fees increased by USD 485m and fees for portfolio management and related services increased by USD 148m, both mainly in Global Wealth Management, mainly due to higher average levels of fee-generating assets, reflecting positive market performance and net new fee-generating asset inflows. Net brokerage fees increased by USD 367m due to higher levels of client activity in Global Wealth Management and in Execution Services in the Investment Bank, due to higher volumes. M&A and corporate finance fees decreased by USD 60m, predominantly in our Global Banking business within the Investment Bank.

Other income was USD 243m compared with USD 278m in the first six months of 2024. Revenues included losses of USD 62m recognized on repurchases of UBS's own debt instruments, compared with gains of USD 26m in the first six months of 2024. In addition, there was a USD 16m net loss relating to an investment in an associate. The first six months of 2024 also included a USD 28m net gain in Asset Management from the sale of our Brazilian real estate fund management business. These decreases were partly offset by a USD 97m gain in Non-core and Legacy related to the sale of Select Portfolio Servicing, the US mortgage servicing business of Credit Suisse, and a USD 64m gain in Personal & Corporate Banking related to the Swisscard transactions.

Personnel expenses decreased by USD 60m to USD 14,008m, attributable to a decrease in salary expenses, reflecting the impact of a smaller workforce, and the amortization of awards granted in prior periods, partly offset by foreign currency effects. These decreases were partly offset by higher accruals for performance awards and a USD 186m increase in financial advisor compensation resulting from higher compensable revenues.

General and administrative expenses decreased by USD 419m to USD 4,312m, mainly driven by USD 193m lower consulting, legal and audit fees, USD 140m higher net releases for litigation, regulatory and similar matters, as well as a USD 126m decrease in outsourcing costs. This was partly offset by a USD 180m expense related to the Swisscard transactions in Personal & Corporate Banking.

Outlook

The third quarter started with strong market performance in risk assets, particularly international equities, combined with a weak US dollar. Investor sentiment remains broadly constructive, tempered by persistent macroeconomic and geopolitical uncertainties. Against this backdrop, our client conversations and deal pipelines indicate a high level of readiness among investors and corporates to deploy capital, as conviction around the macro outlook strengthens.

For the third quarter, we expect Global Wealth Management's net interest income (NII) and Personal & Corporate Banking's NII in Swiss francs to be broadly stable. In US dollar terms, this translates to a sequential low single-digit percentage increase.

We also expect trading and transactional activity to reflect more normalized seasonal patterns and activity levels compared to the same quarter a year ago, particularly in Global Wealth Management's transaction-based revenues and the Investment Bank's Global Markets performance. Pull-to-par revenues[1] are expected to be around USD 0.4bn, partly mitigating the expected USD 1.1bn in integration-related expenses.

We remain focused on actively engaging with our clients, helping them to navigate a complex environment while executing on our growth and integration plans. We are confident in our ability to deliver on our 2025 and 2026 financial targets, leveraging the power of our diversified business model.

1 Pull-to-par revenues are revenues recognized when fair value reductions taken on financial instruments acquired as part of the Credit Suisse transaction through the required purchase price allocation (PPA) unwind as the instruments approach their maturity.

1 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 2 Includes accretion of PPA adjustments on financial instruments and other PPA effects, as well as temporary and incremental items directly related to the integration. 3 Includes temporary, incremental operating expenses directly related to the integration, as well as amortization of intangibles resulting from the acquisition of the Credit Suisse Group. 4 Refer to the "Equity attribution" section of this report for more information about the equity attribution framework. 5 Relates to licensed professionals with the ability to provide investment advice to clients in the Americas. Consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. Also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. Recruitment loans to financial advisors were USD 1,579m as of 30 June 2025. 6 Loans and Customer deposits in this table include customer brokerage receivables and payables, respectively, which are presented in separate reporting lines on the balance sheet. 7 Refer to the "Risk management and control" section of this report for more information about (credit-)impaired exposures. Excludes loans to financial advisors.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 333m, or 38%, to USD 1,204m, mainly due to higher total revenues and lower operating expenses. Underlying profit before tax was USD 1,443m, an increase of 24%, after excluding from operating expenses USD 383m of integration-related expenses and purchase price allocation (PPA) effects and excluding from total revenues USD 153m of PPA effects and other integration items and an USD 8m loss related to an investment in an associate.

Total revenues

Total revenues increased by USD 247m, or 4%, to USD 6,300m, largely driven by higher recurring net fee income and transaction-based income, partly offset by lower net interest income, and included an USD 80m decrease in PPA effects and other integration items. Excluding USD 153m of PPA effects and other integration items and an USD 8m loss related to an investment in an associate, underlying total revenues were USD 6,156m, an increase of 6%.

Net interest income decreased by USD 120m, or 7%, to USD 1,705m, and included a USD 92m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. The remaining variance was largely driven by lower loan revenues, reflecting margin contraction, and lower deposit revenues due to lower central bank interest rates. The variance also included a change to our segmentation approach that was implemented in February 2025 and led to a shift of some affluent clients to Personal & Corporate Banking. The decrease was partly offset by the effects of higher deposit volumes, positive foreign currency effects and balance sheet optimization measures. Excluding PPA effects of USD 148m, underlying net interest income was USD 1,557m, a decrease of 2%.

Recurring net fee income increased by USD 247m, or 8%, to USD 3,351m, mainly driven by higher average levels of fee-generating assets, reflecting positive market performance and net new fee-generating asset inflows.

Transaction-based income increased by USD 131m, or 12%, to USD 1,236m, mainly driven by higher levels of client activity across all regions. Excluding PPA effects of USD 5m, underlying transaction-based income was USD 1,232m, an increase of 11%.

Other income decreased by USD 12m to USD 7m and included a loss of USD 8m related to an investment in an associate. Excluding the aforementioned loss, underlying other income was USD 15m.

Credit loss expense / release

Net credit loss expenses were USD 3m, compared with net credit loss releases of USD 1m in the second quarter of 2024.

Operating expenses

Operating expenses decreased by USD 90m, or 2%, to USD 5,093m and included a USD 140m decrease in integration-related expenses. Excluding USD 383m of integration-related expenses and PPA effects, underlying operating expenses were USD 4,710m, an increase of 1%, mainly driven by unfavorable foreign currency effects and higher financial advisor compensation reflecting an increase in compensable revenues.

Invested assets: 2Q25 vs 1Q25

Invested assets increased by USD 294bn to USD 4,512bn, mainly driven by positive market performance of USD 177.8bn, foreign currency effects of USD 96.8bn and net new asset inflows of USD 23.3bn.

Loans: 2Q25 vs 1Q25

Loans increased by USD 18.2bn to USD 318.3bn, mainly driven by positive foreign currency effects and positive net new loans of USD 3.4bn.

› **Refer to the "Risk management and control" section of this report for more information**

Customer deposits: 2Q25 vs 1Q25

Customer deposits increased by USD 24.4bn to USD 488.8bn, mainly driven by positive foreign currency effects and net new deposit inflows of USD 9.0bn.

Results: 6M25 vs 6M24

Profit before tax increased by USD 591m, or 30%, to USD 2,563m, mainly due to higher total revenues and lower operating expenses. Underlying profit before tax was USD 2,988m, an increase of 23%, after excluding from operating expenses USD 739m of integration-related expenses and PPA effects and excluding from total revenues USD 318m of PPA effects and other integration items and a USD 5m loss related to an investment in an associate.

Total revenues increased by USD 526m, or 4%, to USD 12,722m, largely driven by higher recurring net fee income and transaction-based income, partly offset by lower net interest income, and included a USD 149m decrease in PPA effects and other integration items. Excluding USD 318m of PPA effects and other integration items and a USD 5m loss related to an investment in an associate, underlying total revenues were USD 12,408m, an increase of 6%.

Net interest income decreased by USD 285m, or 8%, to USD 3,413m, and included a USD 190m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. The remaining variance was largely driven by lower loan revenues, reflecting margin contraction, and lower deposit revenues due to lower central bank interest rates. The variance also included a change to our segmentation approach that was implemented in February 2025 and led to a shift of some affluent clients to Personal & Corporate Banking. The decrease was partly offset by the effects of balance sheet optimization measures, higher deposit volumes and positive foreign currency effects. Excluding PPA effects of USD 307m, underlying net interest income was USD 3,106m, a decrease of 3%.

Recurring net fee income increased by USD 502m, or 8%, to USD 6,630m, mainly driven by higher average levels of fee-generating assets, reflecting positive market performance and net new fee-generating asset inflows.

Transaction-based income increased by USD 347m, or 15%, to USD 2,664m, mainly driven by higher levels of client activity across all regions. Excluding PPA effects of USD 11m, underlying transaction-based income was USD 2,653m, an increase of 13%.

Other income decreased by USD 38m to USD 15m and included a net loss of USD 5m related to an investment in an associate. Excluding the aforementioned loss, underlying other income was USD 19m.

Net credit loss expenses were USD 9m, compared with net credit loss releases of USD 4m in the first half of 2024.

Operating expenses decreased by USD 78m, or 1%, to USD 10,150m and included a USD 189m decrease in integration-related expenses. Excluding USD 739m of integration-related expenses and PPA effects, underlying operating expenses were USD 9,411m, an increase of 1%, mainly driven by unfavorable foreign currency effects and higher financial advisor compensation reflecting an increase in compensable revenues.

1 Including the following business units: United States and Canada; and Latin America. 2 Includes impacts from accretion of purchase price allocation (PPA) adjustments on financial instruments and other PPA effects, integration-related expenses, certain gains and losses including from investments in associates, referral payments from and to Personal & Corporate Banking from client shifts, impacts from agreements with certain clients, and impacts from minor functions which are not included in the four regions individually presented in this table. 3 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 4 Items of profit or loss that management believes are not representative of the underlying performance, namely impacts from accretion of purchase price allocation adjustments on financial instruments and other PPA effects, integration-related expenses, amortization of intangibles resulting from the acquisition of the Credit Suisse Group, and certain gains and losses from investments in associates. 5 Loans and Customer deposits in this table include customer brokerage receivables and payables, respectively, which are presented in separate reporting lines on the balance sheet.

Regional comments 2Q25 vs 2Q24, except where indicated

Americas

Profit before tax increased by USD 117m to USD 364m. Total revenues increased by USD 168m, or 6%, to USD 2,929m, mainly driven by increases of USD 124m in recurring net fee income, USD 23m in net interest income and USD 18m in transaction-based income. Operating expenses increased by USD 51m, or 2%, to USD 2,561m. The cost / income ratio decreased to 87.4% from 90.9%. Loans increased by 2% compared with the first quarter of 2025, to USD 100.4bn, mainly driven by positive net new loans of USD 1.9bn. Customer deposits were broadly stable compared with the first quarter of 2025, at USD 114.1bn, with net new deposit inflows of USD 0.2bn. Net new asset outflows were USD 3.5bn.

Asia Pacific

Profit before tax increased by USD 38m to USD 348m. Total revenues increased by USD 44m, or 5%, to USD 947m, mainly driven by increases of USD 46m in transaction-based income and USD 28m in recurring net fee income, partly offset by a USD 19m decrease in net interest income. Operating expenses were broadly stable at USD 598m. The cost / income ratio decreased to 63.2% from 66.0%. Loans increased by 3% compared with the first quarter of 2025, to USD 44.7bn, mainly driven by positive foreign currency effects and by positive net new loans of USD 0.2bn. Customer deposits increased by 3% compared with the first quarter of 2025, to USD 122.9bn, with net new deposit inflows of USD 4.8bn. Net new asset inflows were USD 11.1bn.

EMEA

Profit before tax increased by USD 92m to USD 394m. Total revenues increased by USD 75m, or 6%, to USD 1,234m, mainly driven by increases of USD 48m in recurring net fee income and USD 44m in transaction-based income, partly offset by a USD 21m decrease in net interest income. Operating expenses decreased by USD 17m, or 2%, to USD 839m. The cost / income ratio decreased to 68.0% from 73.8%. Loans increased by 5% compared with the first quarter of 2025, to USD 63.2bn, mainly driven by positive net new loans of USD 2.2bn and positive foreign currency effects. Customer deposits increased by 5% compared with the first quarter of 2025, to USD 117.6bn, mainly driven by net new deposit inflows of USD 4.5bn and by positive foreign currency effects. Net new asset inflows were USD 9.1bn.

Switzerland

Profit before tax increased by USD 31m to USD 353m. Total revenues increased by USD 46m to USD 1,049m, mostly driven by increases of USD 45m in recurring net fee income and USD 17m in transaction-based income. Operating expenses increased by USD 15m, or 2%, to USD 698m. The cost / income ratio decreased to 66.5% from 68.1%. Loans increased by 12% compared with the first quarter of 2025, to USD 108.8bn, mainly driven by positive foreign currency effects, partly offset by negative net new loans of USD 0.7bn. Customer deposits increased by 11% compared with the first quarter of 2025, to USD 130.0bn, mainly driven by positive foreign currency effects. Net new asset inflows were USD 7.0bn.

Divisional items

Operating loss before tax was USD 256m and mainly included USD 383m of integration-related expenses and PPA effects, impacts from agreements with certain clients, and a loss of USD 8m related to an investment in an associate, partly offset by the aforementioned USD 153m related to PPA effects and other integration items.

1 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 2 Includes accretion of PPA adjustments on financial instruments and other PPA effects, as well as temporary and incremental items directly related to the integration. 3 Represents the gain related to UBS's share of income recorded by Swisscard for the sale of the Credit Suisse card portfolios to UBS. 4 Includes temporary, incremental operating expenses directly related to the integration, as well as amortization of intangibles resulting from the acquisition of the Credit Suisse Group. 5 For the first quarter of 2025 this represents the expense related to the payment to Swisscard for the sale of the Credit Suisse card portfolios to UBS. 6 Refer to the "Equity attribution" section of this report for more information about the equity attribution framework. 7 Refer to the "Risk management and control" section of this report for more information about (credit-)impaired exposures.

Results: 2Q25 vs 2Q24

Profit before tax decreased by CHF 137m, or 19%, to CHF 566m, mainly reflecting lower total revenues, partly offset by lower operating expenses. Underlying profit before tax was CHF 557m, a decrease of 14%, mainly driven by lower net interest income, resulting from lower market interest rates. This underlying profit excludes from total revenues CHF 222m of purchase price allocation (PPA) effects and other integration items and a loss of CHF 18m related to an investment in an associate; it also excludes from operating expenses CHF 195m of integration-related expenses and PPA effects.

Total revenues

Total revenues decreased by CHF 161m, or 8%, to CHF 1,900m, mainly due to lower net interest income and other income, and included a CHF 1m decrease in PPA effects and other integration items. Total revenues in the second quarter of 2025 also included a loss of CHF 18m related to an investment in an associate. Excluding CHF 222m of PPA effects and other integration items and the aforementioned loss, underlying total revenues were CHF 1,696m, a decrease of 8%.

Net interest income decreased by CHF 114m, or 9%, to CHF 1,111m, mainly driven by lower central bank interest rates affecting deposit revenues, partly mitigated by pricing measures, lower liquidity and funding costs, and higher loan revenues. Net interest income also included a CHF 4m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding PPA effects of CHF 205m, underlying net interest income was CHF 907m, a decrease of 11%.

Recurring net fee income was stable at CHF 357m, largely due to higher custody asset levels, mainly reflecting net new inflows and positive market performance, offset by the effect from a reclassification of recurring net fee income to transaction-based income as a result of aligning Credit Suisse presentation to that of UBS in the second half of 2024.

Transaction-based income was broadly stable at CHF 459m, as lower corporate client revenues were offset by the positive impact from the aforementioned reclassification, and included a CHF 5m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding CHF 17m of PPA effects and other integration items, underlying transaction-based income was also largely stable at CHF 442m.

Other income was negative CHF 28m, compared with positive CHF 16m, and included a loss of CHF 18m related to an investment in an associate. Excluding this loss, underlying other income was negative CHF 10m.

Credit loss expense / release

Net credit loss expenses were CHF 91m and mainly reflected net expenses on credit-impaired positions. Net credit loss expenses in the prior-year quarter were CHF 92m.

Operating expenses

Operating expenses decreased by CHF 23m, or 2%, to CHF 1,243m and included a CHF 30m increase in integration-related expenses. Excluding CHF 195m of integration-related expenses and PPA effects, underlying operating expenses were CHF 1,048m, a decrease of 5%, mainly driven by lower personnel expenses, including lower variable compensation.

Results: 6M25 vs 6M24

Profit before tax decreased by CHF 451m, or 29%, to CHF 1,111m, mainly reflecting lower total revenues and higher operating expenses. Underlying profit before tax was CHF 1,154m, a decrease of 19%, predominantly driven by lower net interest income, resulting from lower market interest rates. This underlying profit excludes from total revenues CHF 438m of PPA effects and other integration items, a gain of CHF 58m related to the Swisscard transactions, and a net loss of CHF 8m related to an investment in an associate; it also excludes from operating expenses CHF 367m of integration-related expenses and PPA effects and a CHF 164m expense related to the Swisscard transactions.

Total revenues decreased by CHF 312m, or 7%, to CHF 3,889m, predominantly due to lower net interest income, and included an CHF 11m decrease in PPA effects and other integration items. Total revenues in the first half of 2025 also included a gain of CHF 58m related to the Swisscard transactions and a net loss of CHF 8m related to an investment in an associate. Excluding CHF 438m of PPA effects and other integration items and the aforementioned gain and a net loss, underlying total revenues were CHF 3,401m, a decrease of 9%.

Net interest income decreased by CHF 331m, or 13%, to CHF 2,226m, mainly driven by lower central bank interest rates affecting deposit revenues, partly mitigated by pricing measures. Net interest income also included a CHF 17m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding PPA effects of CHF 396m, underlying net interest income was CHF 1,829m, a decrease of 15%.

Recurring net fee income increased by CHF 10m, or 1%, to CHF 715m, largely due to higher custody asset levels, mainly reflecting net new inflows and positive market performance, partly offset by the effect from a reclassification of recurring net fee income to transaction-based income as a result of aligning Credit Suisse presentation to that of UBS in the second half of 2024.

Transaction-based income was stable at CHF 911m, as lower corporate client revenues were offset by the positive impact from the aforementioned reclassification, and included a CHF 6m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding CHF 42m of PPA effects and other integration items, underlying transaction-based income was broadly stable at CHF 869m.

Other income increased by CHF 11m to CHF 38m, mainly reflecting a gain of CHF 58m related to the Swisscard transactions and a net loss of CHF 8m related to an investment in an associate. Excluding these items, underlying other income was negative CHF 12m.

Net credit loss expenses were CHF 139m and mainly reflected net expenses on credit-impaired positions, primarily in the legacy Credit Suisse corporate loan book. Net credit loss expenses in the prior-year period were CHF 132m.

Operating expenses increased by CHF 131m, or 5%, to CHF 2,638m, largely due to a CHF 164m expense related to the Swisscard transactions, and included a CHF 61m increase in integration-related expenses. Excluding CHF 367m of integration-related expenses and PPA effects and the aforementioned expense of CHF 164m, underlying operating expenses were CHF 2,108m, a decrease of 4%, mainly driven by lower personnel expenses, including lower variable compensation.

1 Net management fees include transaction fees, fund administration revenues (including net interest and trading income from lending activities and foreign-exchange hedging as part of the fund services offering), distribution fees, incremental fund-related expenses, gains or losses from seed money and co-investments, funding costs, the negative pass-through impact of third-party performance fees, and other items that are not Asset Management's performance fees. 2 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 3 Refer to the "Equity attribution" section of this report for more information about the equity attribution framework. 4 The invested assets and net new money amounts reported for associates are prepared in accordance with their local regulatory requirements and practices. 5 Includes invested assets from associates.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 23m, or 18%, to USD 153m, mainly due to lower operating expenses. Underlying profit before tax was USD 216m, a decrease of 5%, after excluding integration-related expenses of USD 63m.

Total revenues

Total revenues increased by USD 4m to USD 772m, reflecting increases in net management fees and performance fees, largely offset by the second quarter of 2024 including USD 28m of net gains from disposals.

Net management fees increased by USD 22m, or 3%, to USD 733m, largely driven by positive foreign currency effects and positive market performance, partly offset by continued margin compression.

Performance fees increased by USD 11m, or 36%, to USD 39m, mainly due to increases in Hedge Fund Businesses, partly offset by decreases in the Fixed Income business.

Operating expenses

Operating expenses decreased by USD 20m, or 3%, to USD 618m and included a USD 35m decrease in integration-related expenses. Excluding integration-related expenses of USD 63m, underlying operating expenses were USD 555m, an increase of 3%, mainly due to unfavorable foreign currency effects.

Invested assets: 2Q25 vs 1Q25

Invested assets increased by USD 156bn to USD 1,952bn, reflecting positive foreign currency effects of USD 96bn and positive market performance of USD 62bn, partly offset by negative net new money of USD 2bn. Excluding money market flows and associates, net new money was negative USD 5bn.

Results: 6M25 vs 6M24

Profit before tax increased by USD 48m, or 20%, to USD 289m, mainly due to lower operating expenses, partly offset by lower total revenues. Underlying profit before tax was USD 424m, an increase of 4%, after excluding integration-related expenses of USD 135m.

Total revenues decreased by USD 30m, or 2%, to USD 1,513m, primarily due to the first half of 2024 including USD 28m of net gains from disposals.

Net management fees decreased by USD 10m, or 1%, to USD 1,446m, largely driven by margin compression, partly offset by positive market performance and foreign currency effects.

Performance fees increased by USD 10m, or 17%, to USD 69m, mainly due to increases in Hedge Fund Businesses, partly offset by decreases in the Real Estate business.

Operating expenses decreased by USD 79m, or 6%, to USD 1,224m and included a USD 34m decrease in integration-related expenses. Excluding integration-related expenses of USD 135m, underlying operating expenses were USD 1,088m, a decrease of 4%, reflecting decreases in non-personnel and personnel expenses.

Results: 2Q25 vs 2Q24

Profit before tax increased by USD 80m, or 17%, to USD 557m, mainly due to higher total revenues, partly offset by higher net credit loss expenses and operating expenses. Underlying profit before tax was USD 526m, an increase of 28%, after excluding USD 152m of purchase price allocation (PPA) effects and USD 121m of integration-related expenses.

Total revenues

Total revenues increased by USD 163m, or 6%, to USD 2,966m, due to higher revenues in Global Markets, partly offset by lower revenues in Global Banking, and included an overall USD 158m decrease in PPA effects. Excluding these effects, underlying total revenues were USD 2,815m, an increase of 13%, including positive foreign currency effects.

Global Banking

Global Banking revenues decreased by USD 293m, or 30%, to USD 681m, mainly driven by Capital Markets revenues, and included a USD 146m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Global Banking revenues were USD 521m, a decrease of 22%.

Advisory revenues decreased by USD 47m, or 19%, to USD 192m, driven by lower private-fund activity levels and a decrease in merger and acquisition transaction revenues.

Capital Markets revenues decreased by USD 248m, or 34%, to USD 488m, and included a USD 146m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Capital Markets revenues decreased by USD 101m, or 24%, largely driven by lower Leveraged Capital Markets revenues as sponsor activity sharply reduced and due to markdowns on positions.

Global Markets

Global Markets revenues increased by USD 457m, or 25%, to USD 2,286m, driven by higher Derivatives & Solutions, Financing and Execution Services revenues.

Execution Services revenues increased by USD 96m, or 24%, to USD 501m, mainly driven by higher Cash Equities revenues across all regions, on higher volumes.

Derivatives & Solutions revenues increased by USD 218m, or 24%, to USD 1,115m, with higher Foreign Exchange, Rates and Equity Derivatives revenues, mainly due to elevated volatility and higher levels of client activity.

Financing revenues increased by USD 144m, or 27%, to USD 670m, with increases in all products, led by Prime Brokerage, supported by higher client balances.

Equities

Global Markets Equities revenues increased by USD 264m, or 20%, to USD 1,619m, mainly driven by higher revenues in Cash Equities, Prime Brokerage and Equity Derivatives.

Foreign Exchange, Rates and Credit

Global Markets Foreign Exchange, Rates and Credit revenues increased by USD 193m, or 41%, to USD 667m, mainly driven by increases in Foreign Exchange revenues.

Credit loss expense / release

Net credit loss expenses were USD 48m, compared with net credit loss releases of USD 6m in the second quarter of 2024.

Operating expenses

Operating expenses increased by USD 29m, or 1%, to USD 2,361m, and included a USD 124m decrease in integration-related expenses. Excluding integration-related expenses of USD 121m, underlying operating expenses were USD 2,241m, an increase of 7%, mainly due to higher personnel expenses and unfavorable foreign currency effects.

Results: 6M25 vs 6M24

Profit before tax increased by USD 247m, or 24%, to USD 1,279m, mainly due to higher total revenues, partly offset by higher operating expenses and net credit loss expenses. Underlying profit before tax was USD 1,222m, an increase of 50%, after excluding USD 290m of PPA effects and USD 233m of integration-related expenses.

Total revenues increased by USD 595m, or 11%, to USD 6,149m, due to higher revenues in Global Markets, partly offset by lower revenues in Global Banking, and included an overall USD 313m decrease in PPA effects. Excluding these effects, underlying total revenues were USD 5,860m, an increase of 18%.

Global Banking revenues decreased by USD 456m, or 25%, to USD 1,391m, mainly driven by Capital Markets revenues, and included a USD 288m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Global Banking revenues were USD 1,084m, a decrease of 13%.

Advisory revenues decreased by USD 14m, or 3%, to USD 414m, mainly due to lower private-fund activity levels, partly offset by higher merger and acquisition transaction revenues.

Capital Markets revenues decreased by USD 442m, or 31%, to USD 977m, and included a USD 288m decrease in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Capital Markets revenues decreased by USD 153m, or 19%, largely driven by lower Leveraged Capital Markets revenues as sponsor activity sharply reduced and due to markdowns on positions.

Global Markets revenues increased by USD 1,051m, or 28%, to USD 4,758m, driven by higher Derivatives & Solutions, Financing and Execution Services revenues.

Execution Services revenues increased by USD 210m, or 26%, to USD 1,017m, mainly driven by higher Cash Equities revenues across all regions, on higher volumes.

Derivatives & Solutions revenues increased by USD 576m, or 31%, to USD 2,407m, with higher revenues in Foreign Exchange and Equity Derivatives, mainly due to increased volatility and higher levels of client activity.

Financing revenues increased by USD 265m, or 25%, to USD 1,334m, with increases in all products, led by Prime Brokerage, supported by higher client balances.

Equities
Global Markets Equities revenues increased by USD 717m, or 26%, to USD 3,425m, mainly driven by higher revenues in Equity Derivatives, Cash Equities and Prime Brokerage.

Foreign Exchange, Rates and Credit
Global Markets Foreign Exchange, Rates and Credit revenues increased by USD 334m, or 33%, to USD 1,333m, mainly driven by increases in Foreign Exchange revenues.

Net credit loss expenses were USD 83m, compared with net credit loss expenses of USD 26m in the first half of 2024.

Operating expenses increased by USD 292m, or 6%, to USD 4,788m, and included a USD 154m decrease in integration-related expenses. Excluding integration-related expenses of USD 233m, underlying operating expenses were USD 4,555m, an increase of 11%, mainly due to higher personnel expenses.

Results: 2Q25 vs 2Q24

Loss before tax was USD 250m, compared with a loss before tax of USD 405m. Underlying profit before tax was USD 1m, after excluding integration-related expenses of USD 252m, compared with an underlying loss before tax of USD 80m.

Total revenues

Total revenues were negative USD 82m, compared with total revenues of USD 401m, mainly reflecting lower net gains from position exits and lower net interest income from securitized products and credit products, partly offset by lower liquidity and funding costs, as a result of a smaller portfolio.

Credit loss expense / release

Net credit loss releases were USD 2m, compared with net credit loss releases of USD 1m in the second quarter of 2024.

Operating expenses

Operating expenses were USD 170m, a decrease of USD 637m, or 79%, mainly due to releases in provisions for litigation, regulatory and similar matters, as well as lower personnel expenses, risk management costs, technology costs and compliance and regulatory costs, and included a USD 73m decrease in integration-related expenses. Excluding integration-related expenses of USD 252m, underlying operating expenses were negative USD 83m.

Risk-weighted assets and leverage ratio denominator: 2Q25 vs 1Q25

The active unwinding of Non-core and Legacy assets resulted in a decrease in risk-weighted assets (RWA) and the leverage ratio denominator (the LRD). RWA decreased by USD 1.5bn to USD 32.7bn, mostly due to decreases in the loan, securitized product and macro portfolios. The LRD decreased by USD 5.4bn to USD 29.4bn, mainly driven by reductions in high-quality liquid assets.

Results: 6M25 vs 6M24

Loss before tax was USD 642m, compared with a loss before tax of USD 451m. Underlying loss before tax was USD 199m, after excluding integration-related expenses of USD 444m, compared with underlying profit before tax of USD 117m.

Total revenues were USD 202m, a decrease of USD 1,200m, mainly reflecting lower net gains from position exits and lower net interest income from securitized products and credit products, partly offset by lower liquidity and funding costs, as a result of a smaller portfolio. Total revenues in the first half of 2025 included a gain of USD 97m from the sale of Select Portfolio Servicing, the US mortgage servicing business of Credit Suisse. Total revenues in the first half of 2024 included a net gain of USD 272m, after accounting for the purchase price allocation adjustments recorded at the closing of the acquisition of the Credit Suisse Group, from the sale of assets from the former Credit Suisse securitized products group to Apollo Management Holdings and certain other entities (collectively Apollo).

Net credit loss expenses were USD 6m, compared with net credit loss expenses of USD 35m in the first half of 2024.

Operating expenses were USD 838m, a decrease of USD 980m, or 54%, mainly due to releases in provisions for litigation, regulatory and similar matters, as well as lower personnel expenses, technology costs, risk management costs, compliance and regulatory costs, premises costs and operations costs, and included a USD 124m decrease in integration-related expenses. Excluding integration-related expenses of USD 444m, underlying operating expenses were USD 395m, a decrease of 68%.

Results: 2Q25 vs 2Q24

Loss before tax was USD 167m, mainly driven by deferred tax asset (DTA) funding costs. The USD 210m, or 56%, decrease in loss before tax between the quarters was largely due to mark-to-market gains from Group hedging and own debt, compared with mark-to-market losses in the second quarter of 2024. Underlying loss before tax was USD 188m, after excluding from total revenues USD 17m of purchase price allocation effects and other integration items and also excluding from operating expenses negative USD 4m of integration-related expenses. This compared with an underlying loss before tax of USD 371m in the second quarter of 2024.

Income from Group hedging and own debt, including hedge accounting ineffectiveness, was net USD 8m, compared with net negative income of USD 194m. The flat result in the second quarter of 2025 was due to offsetting impacts on portfolio-level economic hedges and mark-to-market effects on own credit.

Results: 6M25 vs 6M24

Loss before tax was USD 465m, mainly driven by DTA funding costs, mark-to-market losses from Group hedging and own debt, and an increase in provisions for litigation, regulatory and similar matters. The USD 233m, or 33%, decrease in loss before tax between the periods was largely due to lower mark-to-market losses from Group hedging and own debt, partly offset by an increase in provisions for litigation, regulatory and similar matters. Underlying loss before tax was USD 513m, after excluding from total revenues USD 47m of purchase price allocation effects and other integration items and also excluding from operating expenses negative USD 1m of integration-related expenses. This compared with an underlying loss before tax of USD 687m in the first half of 2024.

Income from Group hedging and own debt, including hedge accounting ineffectiveness, was net negative USD 110m, compared with net negative income of USD 385m. The losses in the first half of 2025 were driven by mark-to-market effects on own credit and portfolio-level economic hedges.

Risk management and control

This section provides information about key developments during the reporting period and should be read in conjunction with the "Risk management and control" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, and the "Recent developments" section of this report for more information about the integration of Credit Suisse.

Persistently high geopolitical tensions and trade policy developments marked the second quarter of 2025. While equity markets recovered from the sharp sell-off at the start of the quarter and volatility eased, significant uncertainty remains. The further weakening of the US dollar contributed to additional passive increases in reported exposures from our non-US-dollar-denominated portfolios. We are closely monitoring these developments, continually assessing portfolio impacts and considering potential mitigating actions.

Credit risk

Overall banking products exposure

Overall banking products exposure increased by USD 68bn compared with 31 March 2025, to USD 1,104bn as of 30 June 2025, primarily reflecting currency effects across banking products, partly offset by outflows in balances at central banks related to purchases of high-quality liquid asset portfolio securities.

- **Refer to the "Balance sheet and off-balance sheet" section of this report for more information about balance sheet movements**
- **Refer to the "Group performance" section and "Note 8 Expected credit loss measurement" in the "Consolidated financial statements" section of this report for more information about credit loss expense / release**

Loan underwriting

In the Investment Bank, mandated loan underwriting commitments on a notional basis decreased by USD 1.4bn compared with 31 March 2025, to USD 7.0bn as of 30 June 2025, driven by deal syndications, partly offset by new mandates. As of 30 June 2025, USD 1.1bn of these commitments had not been distributed as originally planned.

Loan underwriting exposures in the Investment Bank are classified as held for trading, with fair values reflecting the market conditions at the end of the quarter. Credit hedges are in place to help protect against fair value movements in the portfolio.

1 IFRS 9 gross exposure for banking products includes the following financial instruments within the scope of expected credit loss measurement: balances at central banks, amounts due from banks, loans and advances to customers, other financial assets at amortized cost, guarantees and irrevocable loan commitments. 2 Internal management view of credit risk, which differs in certain respects from IFRS Accounting Standards. 3 Commitments that can be canceled by UBS at any time but expose UBS to credit risk if the client has the ability to draw the facility before UBS can take action. These commitments are subject to expected credit loss requirements. 4 As counterparty risk for traded products is managed at the counterparty level, no further split between exposures in the Investment Bank, Non-core and Legacy, and Group Items is provided.

1 Collateral arrangements generally incorporate a range of collateral, including cash, equity and debt instruments, real estate, and other collateral. For the purposes of this disclosure, UBS applies a risk-based approach that generally prioritizes collateral according to its liquidity profile. In the case of loan facilities with funded and unfunded elements, the collateral is first allocated to the funded element. For legacy Credit Suisse infrastructure, a risk-based approach is applied that generally prioritizes real estate collateral and prioritizes other collateral according to its liquidity profile. In the case of loan facilities with funded and unfunded elements, the collateral is proportionately allocated. 2 Includes but is not limited to life insurance contracts, rights in respect of subscription or capital commitments from fund partners, inventory, gold and other commodities.

Market risk

Average management value-at-risk (VaR) (1-day, 95% confidence level) of the UBS Group excluding certain legacy Credit Suisse components in the second quarter of 2025 decreased to USD 8m from USD 9m, mainly driven by the Investment Bank's Global Markets business.

Average management VaR (1-day, 98% confidence level) of the aforementioned legacy Credit Suisse components in the second quarter of 2025 decreased to USD 3m from USD 4m, driven by de-risking within Non-core and Legacy.

Management value-at-risk (1-day, 95% confidence level, 5 years of historical data) of the business divisions and Group Items excluding certain legacy Credit Suisse components, by general market risk type[1,2]

1 The legacy Credit Suisse components not included in the UBS Group management VaR predominantly reflect the portfolio in Non-core and Legacy. These positions continue to be managed on legacy Credit Suisse infrastructure based on legacy Credit Suisse management VaR methodology until full migration of these positions to UBS infrastructure or the liquidation of the positions. This process is ongoing, and the management VaR of the legacy Credit Suisse components is expected to continue decreasing over time. 2 Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The minima and maxima for each level may occur on different days, and, likewise, the VaR for each business division or risk type, being driven by the extreme loss tail of the corresponding distribution of simulated profits and losses for that business division or risk type, may well be driven by different days in the historical time series, rendering invalid the simple summation of figures to arrive at the aggregate total. 3 The difference between the sum of the standalone VaR for the business divisions and Group Items and the total VaR. 4 As the minima and maxima for different business divisions and Group Items occur on different days, it is not meaningful to calculate a portfolio diversification effect.

Economic value of equity and net interest income sensitivity

The economic value of equity (EVE) sensitivity in the UBS Group banking book to a +1-basis-point parallel shift in yield curves was negative USD 40.2m as of 30 June 2025, compared with negative USD 38.7m as of 31 March 2025. This excluded the sensitivity of USD 6.9m from additional tier 1 (AT1) capital instruments (as per specific Swiss Financial Market Supervisory Authority (FINMA) requirements) in contrast to general Basel Committee on Banking Supervision (BCBS) guidance. Exposure in the banking book of the UBS Group increased during the second quarter of 2025, predominantly driven by an appreciation of the Swiss franc against the US dollar and decreasing market rates.

The majority of our interest rate risk in the banking book (IRRBB) as of 30 June 2025 was a reflection of the net asset duration that we ran to offset our modeled sensitivity of net USD 32.3m (31 March 2025: USD 30.3m) assigned to our equity, goodwill and real estate, with the aim of generating a stable net interest income contribution. Of this, USD 18.7m and USD 11.6m were attributable to the US dollar and the Swiss franc portfolios, respectively, (31 March 2025: USD 18.1m and USD 10.5m, respectively).

In addition to the aforementioned sensitivity, we calculate the six interest rate shock scenarios prescribed by FINMA. The "Parallel up" scenario, assuming all positions were measured at fair value, was the most severe as of 30 June 2025 and would have resulted in a change in EVE of negative USD 7.3bn, or 8.0% of our tier 1 capital (31 March 2025: negative USD 7.1bn, or 8.1%), which is well below the 15% threshold as per the BCBS supervisory outlier test for high levels of IRRBB.

The immediate effect on our tier 1 capital in the "Parallel up" scenario as of 30 June 2025 would have been a decrease of approximately USD 1.0bn, or 1.1%, in our tier 1 capital (31 March 2025: USD 0.7bn, or 0.8%), reflecting the fact that the vast majority of our banking book is accrual accounted or subject to hedge accounting. The "Parallel up" scenario would subsequently have a positive effect on net interest income, assuming a constant balance sheet.

As the overall interest rate risk sensitivity shows a greater impact from slower asset repricing compared with faster liabilities repricing, the "Parallel down" scenario was the most beneficial as of 30 June 2025 and would have resulted in a change in EVE of positive USD 7.6bn (31 March 2025: positive USD 7.5bn) and a small positive immediate effect on our tier 1 capital.

- **Refer to "Interest rate risk in the banking book" in the "Risk management and control" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about the management of interest rate risk in the banking book**
- **Refer to "Sensitivity to interest rate movements" in the "Group performance" section of this report for more information about the effects of increases in interest rates on the net interest income of our banking book**

Country risk

We remain watchful of a range of geopolitical developments and political changes in a number of countries, as well as global trade relations, including policies related to tariffs, international tensions from the Russia–Ukraine war, and conflicts in the Middle East, and we continued to monitor potential second-order impacts in the second quarter of 2025. As of 30 June 2025, our direct exposure to Israel was less than USD 0.5bn and our direct exposure to Gulf Cooperation Council countries was less than USD 5bn, while our direct exposure to Egypt and Jordan was limited, and there was no direct exposure to Iran, Iraq, Lebanon or Syria. Our direct exposure to Russia as of 30 June 2025 was less than USD 0.5bn, and our direct exposure to Belarus and Ukraine remained immaterial. As of 30 June 2025, our exposure to emerging market countries was less than 10% of our total country exposure and mainly to countries in Asia.

Uncertainty about economic policy remained elevated. In the second quarter of 2025, inflation was broadly stable in major Western economies, although concerns about the potential impact of trade tensions on prices and economic growth persisted. The Chinese economy rebounded somewhat in the second quarter of 2025, driven in part by its export industry rushing to ship goods quickly, ahead of possible tariff increases; concerns remain about the property sector and strains on local government finances.

Non-financial risk

Compliance risk

We are committed to achieving fair outcomes for our clients, upholding market integrity and cultivating the highest standards of employee conduct. To support these objectives, we maintain a firm-wide conduct risk framework designed to promote consistent standards and foster a strong culture of accountability.

We continue to prioritize areas such as suitability risk, product governance, cross-divisional service offerings, quality of advice and price transparency. These remain key focus areas for UBS and the broader financial industry. Cross-border risk (including the risk of unintended permanent establishment) remains an area of regulatory attention for global financial institutions, including a focus on market access, such as third-country market access to the European Economic Area. We maintain a series of controls designed to address these risks, and we are increasing the number of automated controls, thereby increasing overall control coverage.

Reputational risk, regulatory fragmentation related to environmental, social and governance topics, and the elevated risk of greenwashing arising from our service offering, disclosures and commitments remain key risks for 2025.

Financial crime risk

Financial crime, including money laundering, terrorist financing, sanctions violations, fraud, bribery and corruption, presents a major risk, as technological innovation and geopolitical developments increase the complexity of doing business and heightened regulatory attention continues.

An effective financial crime prevention program therefore remains essential, and we continue to focus on strategic enhancements to our global anti-money-laundering, know-your-client and sanctions programs. Money laundering and financial fraud techniques are becoming increasingly sophisticated, and heightened geopolitical volatility makes the sanctions landscape more complex. The extensive and continuously evolving sanctions arising from the Russia–Ukraine war require constant attention to prevent circumvention risks, while worsening conflicts in the Middle East may further increase terrorist-financing risks. Complex investment and technology restrictions, coupled with relatively limited asset-freeze sanctions, apply in the case of China, which has in response imposed both its own restrictions and domestic laws countering the sanctions, and we will continue to closely monitor this situation as it evolves.

Operational risk

There is an increased risk of cyber-related operational disruption to business activities at our locations and those of third-party suppliers due to operating a more complex set of legal entities since the acquisition of Credit Suisse and the increasingly dynamic threat environment. This is intensified by current geopolitical factors and evidenced by the continuing high volumes and increasing sophistication of cyberattacks against financial institutions globally and on third-party service providers. A notable example of this is a recent data breach at Chain IQ, one of our third-party suppliers. Our incident review has not identified any impact on UBS's clients or systems to date, but the data breach included the exposure of certain non-sensitive UBS employee information.

We remain on heightened alert to respond to and mitigate elevated cyber- and information-security threats, and continue to invest in improving our technology infrastructure and information-security governance to strengthen our prevention, detection and response capabilities against attacks. In addition, we operate a global framework designed to drive enhancements in operational resilience across all business divisions and relevant jurisdictions, and we work with the third-party service providers that are of critical importance to our operations to assess their operational resilience in line with our standards and to mitigate any identified risks.

The increasing interest in data-driven advisory processes and the use of artificial intelligence (AI) and machine learning are introducing new questions related to the fairness of AI algorithms, data life-cycle management, data ethics, data privacy and security, and records management.

Legal entity integration, including that of existing Credit Suisse businesses, and the closing of legacy businesses introduce operational complexity and the risk that businesses in wind-down are not effectively managed. These risks continue to be carefully monitored in addition to the delivery of consolidated financial and regulatory reporting submissions.

Capital management

The disclosures in this section are provided for UBS Group AG on a consolidated basis and focus on key developments during the reporting period and information in accordance with the Basel III framework, as applicable to Swiss systemically relevant banks (SRBs). They should be read in conjunction with "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, which provides more information about our capital management objectives, planning and activities, as well as the Swiss SRB total loss-absorbing capacity (TLAC) framework.

In Switzerland, the amendments to the Capital Adequacy Ordinance (the CAO) that incorporate the final Basel III standards into Swiss law, including the five new ordinances that contain the implementing provisions for the revised CAO, entered into force on 1 January 2025.

UBS Group AG is a holding company and conducts substantially all of its operations through UBS AG and subsidiaries thereof. UBS Group AG and UBS AG contribute a significant portion of their respective capital and provide substantial liquidity to such subsidiaries. Many of these subsidiaries are subject to local regulations requiring compliance with minimum capital, liquidity and similar requirements.

- **Refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information about additional regulatory disclosures for UBS Group AG on a consolidated basis, as well as the significant regulated subsidiaries and sub-groups of UBS Group AG**
- **Refer to the UBS AG second quarter 2025 report, which will be available as of 5 August 2025 under "Quarterly reporting" at *ubs.com/investors*, for more information about capital and other regulatory information for UBS AG consolidated, in accordance with the Basel III framework, as applicable to Swiss SRBs**
- **Refer to "Recent developments related to the implementation of the final Basel III standards" in the "Recent developments" section of this report for more information about the incorporation of the final Basel III standards**

We are subject to the going and gone concern requirements of the Swiss CAO, which include additional requirements applicable to Swiss SRBs. The table below provides the risk-weighted asset (RWA)- and leverage ratio denominator (LRD)-based requirements and information as of 30 June 2025.

Effective 1 January 2025, a Pillar 2 capital add-on for uncollateralized exposures to hedge funds, private equity and family offices has been introduced. This resulted in an increase of 18 basis points in the RWA-based going concern capital requirement as of 30 June 2025.

Swiss SRB going and gone concern requirements and information

Eligible total loss-absorbing capacity	37.89	191,171	11.53	191,171
Risk-weighted assets / leverage ratio denominator				
Risk-weighted assets		504,500		
Leverage ratio denominator				1,658,089

1 Includes applicable add-ons of 1.62% for risk-weighted assets (RWA) and 0.50% for leverage ratio denominator (LRD), of which 18 basis points for RWA reflect the Pillar 2 capital add-on for the residual exposure (after collateral mitigation) to hedge funds, private equity and family offices, effective 1 January 2025. 2 Includes the Pillar 2 add-on for the residual exposure (after collateral mitigation) to hedge funds, private equity and family offices of 0.12% for CET1 capital and 0.05% for AT1 capital, effective 1 January 2025. For AT1 capital, under Pillar 1 requirements, a maximum of 4.3% of AT1 capital can be used to meet going concern requirements; 4.35% includes the aforementioned Pillar 2 capital add-on. 3 Our CET1 leverage ratio requirement of 3.50% consists of a 1.5% base requirement, a 1.5% base buffer capital requirement, a 0.25% LRD add-on requirement and a 0.25% market share add-on requirement based on our Swiss credit business. 4 A maximum of 25% of the gone concern requirements can be met with instruments that have a remaining maturity of between one and two years. Once at least 75% of the minimum gone concern requirement has been met with instruments that have a remaining maturity of greater than two years, all instruments that have a remaining maturity of between one and two years remain eligible to be included in the total gone concern capital. 5 From 1 January 2023, the resolvability discount on the gone concern capital requirements for systemically important banks (SIBs) has been replaced with reduced base gone concern capital requirements equivalent to 75% of the total going concern requirements (excluding countercyclical buffer requirements and the Pillar 2 add-on). 6 As of July 2024, the Swiss Financial Market Supervisory Authority (FINMA) has the authority to impose a surcharge of up to 25% of the total going concern capital requirements (excluding countercyclical buffer requirements and the Pillar 2 add-on) should obstacles to an SIB's resolvability be identified in future resolvability assessments. 7 Includes applicable add-ons of 1.08% for RWA and 0.38% for LRD.

Additional capital requirements for UBS Group AG consolidated under current requirements

As a result of the acquisition of the Credit Suisse Group in 2023, the capital add-ons applicable to SRBs based on market share and LRD for UBS Group AG consolidated will increase commensurate with the Group's increased market share and higher LRD after the acquisition. Based on the existing regulations, we currently estimate that this will add around USD 9bn to the Group's tier 1 capital requirement, when fully phased in. The phase-in of the increased capital requirements will commence from 1 January 2026 and will be completed by the beginning of 2030, at the latest. The capital add-ons for market share and LRD are subject to confirmation.

Total loss-absorbing capacity leverage ratio	11.5	12.0	12.2

Total loss-absorbing capacity and movement

Our TLAC increased by USD 4.0bn to USD 191.2bn in the second quarter of 2025.

Going concern capital and movement

Our going concern capital increased by USD 3.9bn to USD 91.7bn. Our common equity tier 1 (CET1) capital increased by USD 3.6bn to USD 72.7bn, mainly driven by operating profit before tax of USD 2.2bn, foreign currency translation gains of USD 2.3bn and an increase in eligible deferred tax assets on temporary differences of USD 0.4bn, partly offset by dividend accruals of USD 0.8bn and current tax expenses of USD 0.4bn. Share repurchases of USD 0.5bn made under our 2024 share repurchase program in the second quarter of 2025 did not affect our CET1 capital position, as there was an equal reduction in the capital reserve for expected future share repurchases. The 2024 share repurchase program was completed on 23 May 2025.

› **Refer to "Share information and earnings per share" in this section for more information about our share repurchase programs**

Our loss-absorbing additional tier 1 (AT1) capital increased by USD 0.3bn to USD 19.0bn, reflecting positive impacts from interest rate risk hedge, foreign currency translation and other effects.

Following the approval of a maximum amount of conversion capital by UBS Group AG's shareholders at the 2024 Annual General Meeting, AT1 capital instruments issued from the beginning of the fourth quarter of 2023 are, upon the occurrence of a trigger event or a viability event, subject to conversion into UBS Group AG ordinary shares rather than a write-down. AT1 capital instruments issued prior to the fourth quarter of 2023 remain subject to a write-down.

Gone concern loss-absorbing capacity and movement

Our total gone concern loss-absorbing capacity increased by USD 0.1bn to USD 99.4bn and included USD 99.3bn of TLAC-eligible senior unsecured debt instruments. The increase of USD 0.1bn mainly reflected new issuances of TLAC-eligible senior unsecured debt instruments totaling USD 3.5bn equivalent and positive impacts from interest rate risk hedge, foreign currency translation and other effects. These effects were largely offset by USD 3.9bn TLAC-eligible senior unsecured debt instruments ceasing to be eligible as gone concern capital, as they entered the final year before maturity and the call of USD 3.3bn equivalent of TLAC-eligible senior unsecured debt instruments.

› **Refer to "Bondholder information" at *ubs.com/investors* for more information about the eligibility of capital and senior unsecured debt instruments and about key features and terms and conditions of capital instruments**

Loss-absorbing capacity and leverage ratios

Our CET1 capital ratio increased to 14.4% from 14.3%, reflecting a USD 3.6bn increase in CET1 capital, partly offset by a USD 21.2bn increase in RWA.

Our CET1 leverage ratio was stable at 4.4%, reflecting a USD 96.5bn increase in the LRD, offset by a USD 3.6bn increase in CET1 capital.

Our going concern capital ratio was stable at 18.2%, reflecting a USD 3.9bn increase in going concern capital, offset by a USD 21.2bn increase in RWA.

Our going concern leverage ratio decreased to 5.5% from 5.6%, reflecting a USD 96.5bn increase in the LRD, partly offset by a USD 3.9bn increase in going concern capital.

Our gone concern loss-absorbing capacity ratio decreased to 19.7% from 20.6%, largely reflecting the aforementioned increase in RWA.

Our gone concern leverage ratio decreased to 6.0% from 6.4%, mainly due to the aforementioned increase in the LRD.

1 Includes goodwill related to significant investments in financial institutions of USD 19m as of 30 June 2025 (USD 19m as of 31 March 2025, USD 19m as of 31 December 2024) presented on the balance sheet line Investments in associates. 2 Includes dividend accruals for 2025 and other items.

Additional information

Sensitivity to currency movements

Risk-weighted assets

We estimate that a 10% depreciation of the US dollar against other currencies would have increased our RWA by USD 24bn and our CET1 capital by USD 2.6bn as of 30 June 2025 (31 March 2025: USD 21bn and USD 2.4bn, respectively) and decreased our CET1 capital ratio by 15 basis points (31 March 2025: 14 basis points). Conversely, a 10% appreciation of the US dollar against other currencies would have decreased our RWA by USD 21bn and our CET1 capital by USD 2.3bn (31 March 2025: USD 19bn and USD 2.2bn, respectively) and increased our CET1 capital ratio by 15 basis points (31 March 2025: 13 basis points).

Leverage ratio denominator

We estimate that a 10% depreciation of the US dollar against other currencies would have increased our LRD by USD 112bn as of 30 June 2025 (31 March 2025: USD 100bn) and decreased our CET1 leverage ratio by 13 basis points (31 March 2025: 12 basis points). Conversely, a 10% appreciation of the US dollar against other currencies would have decreased our LRD by USD 102bn (31 March 2025: USD 90bn) and increased our CET1 leverage ratio by 14 basis points (31 March 2025: 13 basis points).

The aforementioned sensitivities do not consider foreign currency translation effects related to defined benefit plans other than those related to the currency translation of the net equity of foreign operations.

› **Refer to "Active management of sensitivity to foreign exchange movements" under "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Risk-weighted assets

During the second quarter of 2025, RWA increased by USD 21.2bn to USD 504.5bn, driven by an USD 18.6bn increase in currency effects and a USD 3.0bn increase resulting from asset size and other movements, partly offset by a USD 0.3bn decrease resulting from model updates and methodology changes.

Movement in risk-weighted assets, by key driver

USD bn	RWA as of 31.3.25	Currency effects	Model updates and methodology changes	Asset size and other[1]	RWA as of 30.6.25
Credit and counterparty credit risk[2]	282.3	17.2	(0.3)	3.5	302.6
Non-counterparty-related risk[3]	33.3	1.3		0.4	35.0
Market risk	31.4			(0.9)	30.5
Operational risk	136.4				136.4
Total	**483.3**	**18.6**	**(0.3)**	**3.0**	**504.5**

1 Includes the Pillar 3 categories "Asset size", "Credit quality of counterparties", "Acquisitions and disposals" and "Other". For more information, refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at ubs.com/investors. 2 Includes settlement risk, credit valuation adjustments, equity and investments in funds exposures in the banking book, and securitization exposures in the banking book. 3 Non-counterparty-related risk includes deferred tax assets recognized for temporary differences, property, equipment, software and other items.

Credit and counterparty credit risk

Credit and counterparty credit risk RWA increased by USD 20.4bn to USD 302.6bn as of 30 June 2025, driven by a USD 17.2bn increase from currency effects and a USD 3.5bn increase resulting from asset size and other movements, partly offset by a USD 0.3bn decrease due to model updates and methodology changes.

Asset size and other movements by business division and Group Items:

- Global Wealth Management RWA increased by USD 2.4bn, mainly due to higher RWA from loans and loan commitments, derivatives, and credit valuation adjustments (CVA).
- Personal & Corporate Banking RWA increased by USD 2.6bn, mainly driven by increases in loans to corporate clients and mortgage loans.
- Asset Management RWA were unchanged.
- Investment Bank RWA increased by USD 0.2bn, as increases in RWA due to higher allocations from Group Treasury following higher levels of high-quality liquid assets (HQLA) were partly offset by decreases in loans and loan commitments.
- Non-core and Legacy RWA decreased by USD 1.5bn, mainly driven by our actions to actively unwind the portfolio, in addition to the natural roll-off.
- Group Items RWA decreased by USD 0.2bn.

Model updates and methodology changes resulted in an RWA decrease of USD 0.3bn, as a USD 0.7bn decrease in the multiplier for CVA capital requirements and various smaller model updates and methodology changes amounting to a decrease in RWA of USD 0.4bn were partly offset by an increase of USD 0.8bn resulting from the decommissioning of Credit Suisse probability of default models for banks and international mortgages.

› **Refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information**
› **Refer to "Credit risk" in the "Risk management and control" section of this report for more information**

Market risk

Market risk RWA decreased by USD 0.9bn to USD 30.5bn in the second quarter of 2025, due to asset size and other movements in the Investment Bank's Global Markets business and de-risking within Non-core and Legacy.

› **Refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information**
› **Refer to "Market risk" in the "Risk management and control" section of this report for more information**

Operational risk

Operational risk RWA were unchanged at USD 136.4bn.

› **Refer to "Note 14 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information**

Outlook

We expect RWA developments with regard to model updates and methodology changes to decrease by around USD 2bn during the third quarter of 2025. The extent and timing of RWA changes may vary as model updates are completed and receive regulatory approval, along with changes in the composition of the relevant portfolios.

Operational risk							
Total	**6.6**	**13.5**	**0.2**	**1.3**	**(1.5)**	**1.1**	**21.2**

1 Includes settlement risk, credit valuation adjustments, equity and investments in funds exposures in the banking book, and securitization exposures in the banking book. 2 Non-counterparty-related risk includes deferred tax assets recognized for temporary differences (30 June 2025: USD 18.4bn; 31 March 2025: USD 17.6bn), as well as property, equipment, software and other items (30 June 2025: USD 16.6bn; 31 March 2025: USD 15.7bn).

Leverage ratio denominator

During the second quarter of 2025, the LRD increased by USD 96.5bn to USD 1,658.1bn, mainly due to currency effects of USD 88.1bn and asset size and other movements of USD 8.4bn.

Movement in leverage ratio denominator, by key driver

USD bn	LRD as of 31.3.25	Currency effects	Asset size and other	LRD as of 30.6.25
On-balance sheet exposures (excluding derivatives and securities financing transactions)	1,182.9	74.0	6.7	1,263.7
Derivative exposures	149.8	4.1	2.9	156.8
Securities financing transaction exposures	164.7	6.4	(0.2)	170.9
Off-balance sheet items	64.2	3.6	(1.1)	66.7
Total exposures	1,561.6	88.1	8.4	1,658.1

The LRD movements described below exclude currency effects.

On-balance sheet exposures (excluding derivatives and securities financing transactions) increased by USD 6.7bn, mainly reflecting increases in the HQLA portfolio and lending balances in Global Wealth Management and Personal & Corporate Banking, partly offset by a decrease in cash and balances at central banks in Group Treasury.

Derivative exposures increased by USD 2.9bn, primarily reflecting market-driven movements.

Off-balance sheet exposures decreased by USD 1.1bn, mainly due to decreases in commitments.

› **Refer to the "Balance sheet and off-balance sheet" section of this report for more information about balance sheet movements**

Equity attribution

Under our equity attribution framework, tangible equity is attributed based on equally weighted average RWA and average LRD, which both include resource allocations from our Group functions to the business divisions. Average RWA and LRD are converted to CET1 capital equivalents using target capital ratios. If the attributed tangible equity calculated under the weighted-driver approach is less than the CET1 capital equivalent of risk-based capital (RBC) for any business division, the CET1 capital equivalent of RBC is used as a floor for that business division. The floor was applicable for Asset Management and Non-core and Legacy in all of the periods shown below.

In addition to tangible equity, we allocate equity to the business divisions to support goodwill and intangible assets. We also allocate to the business divisions attributed equity related to CET1 capital deduction items that are attributable to divisional activities, such as compensation-related components or expected losses on the advanced internal ratings-based portfolio less provisions. We attribute all remaining capital deduction items to Group Items. These primarily include equity related to deferred tax assets, accruals for shareholder returns, and unrealized gains / losses from cash flow hedges.

› **Refer to the "Balance sheet and off-balance sheet" section of this report for more information about movements in equity attributable to shareholders**

Average attributed equity

	For the quarter ended			Year-to-date	
USD bn	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24

1 Includes average attributed equity related to capital deduction items for deferred tax assets, accruals for shareholder returns and unrealized gains / losses from cash flow hedges.

Liquidity and funding management

Strategy, objectives and governance

This section provides liquidity and funding management information and should be read in conjunction with "Liquidity and funding management" in the "Capital, liquidity and funding, and balance sheet" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, which provides more information about the Group's strategy, objectives and governance in connection with liquidity and funding management.

Liquidity coverage ratio

The quarterly average liquidity coverage ratio (the LCR) of the UBS Group increased 1.3 percentage points to 182.3%, remaining above the prudential requirement communicated by the Swiss Financial Market Supervisory Authority (FINMA).

The movement in the quarterly average LCR was primarily driven by an increase in high-quality liquid assets of USD 40.0bn to USD 358.8bn, mainly reflecting higher cash available due to a decrease in funding for trading assets and higher customer deposits, partly offset by lower cash available due to higher lending assets. The average net cash outflows increased by USD 20.7bn to USD 196.8bn, reflecting higher outflows from deposits, lower net inflows from securities financing transactions and higher net outflows from derivatives.

› **Refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information about the LCR**

Liquidity coverage ratio

USD bn, except where indicated	Average 2Q25[1]	Average 1Q25[1]
High-quality liquid assets	358.8	318.7
Net cash outflows[2]	196.8	176.2
Liquidity coverage ratio (%)[3]	182.3	181.0

1 Calculated based on an average of 61 data points in the second quarter of 2025 and 62 data points in the first quarter of 2025. 2 Represents the net cash outflows expected over a stress period of 30 calendar days. 3 Calculated after the application of haircuts and inflow and outflow rates, as well as, where applicable, caps on Level 2 assets and cash inflows.

Net stable funding ratio

As of 30 June 2025, the net stable funding ratio (the NSFR) of the UBS Group decreased 1.8 percentage points to 122.4%, remaining above the prudential requirement communicated by FINMA.

Available stable funding increased by USD 43.0bn to USD 904.7bn, mainly driven by increases in both customer deposits and debt issued measured at amortized cost, largely driven by currency effects, as well as higher regulatory capital. Required stable funding increased by USD 45.1bn to USD 738.9bn, primarily reflecting an increase in lending assets, which was also largely due to currency effects.

› **Refer to the 30 June 2025 Pillar 3 Report, which will be available as of 28 August 2025 under "Pillar 3 disclosures" at *ubs.com/investors*, for more information about the NSFR**

Net stable funding ratio

USD bn, except where indicated	30.6.25	31.3.25
Available stable funding	904.7	861.7
Required stable funding	738.9	693.8
Net stable funding ratio (%)	122.4	124.2

Balance sheet and off-balance sheet

This section provides balance sheet and off-balance sheet information and should be read in conjunction with "Balance sheet and off-balance sheet" in the "Capital, liquidity and funding, and balance sheet" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, which provides more information about the balance sheet and off-balance sheet positions.

Balances disclosed in this report represent quarter-end positions, unless indicated otherwise. Intra-quarter balances fluctuate in the ordinary course of business and may differ from quarter-end positions.

Balance sheet assets (30 June 2025 vs 31 March 2025)

Total assets were USD 1,670.0bn as of 30 June 2025, an increase of USD 126.6bn compared with 31 March 2025, mainly reflecting currency effects as a result of the depreciation of the US dollar against other major currencies.

Lending assets increased by USD 52.3bn, primarily reflecting currency effects. Derivatives and cash collateral receivables on derivative instruments increased by USD 38.5bn, predominantly in Derivatives & Solutions and Financing in the Investment Bank, primarily reflecting market-driven increases in foreign currency contracts resulting from the depreciation of the US dollar.

Other financial assets measured at fair value increased by USD 9.1bn, mainly driven by purchases of high-quality liquid asset (HQLA) portfolio securities and currency effects. Securities financing transactions at amortized cost increased by USD 8.4bn, mainly reflecting currency effects and net cash reinvestment trades in Group Treasury. Other financial assets measured at amortized cost increased by USD 5.7bn, mainly reflecting purchases of HQLA portfolio securities and currency effects. Cash and balances at central banks increased by USD 4.8bn, mainly due to currency effects, partly offset by purchases of HQLA portfolio securities.

Assets

	As of		% change from
USD bn	30.6.25	31.3.25	31.3.25
Cash and balances at central banks	236.2	231.4	2

Other financial assets measured at fair value[2]	114.6	105.5	9
Non-financial assets	55.5	51.9	7
Total assets	1,670.0	1,543.4	8

1 Consists of Loans and advances to customers and Amounts due from banks. 2 Consists of Financial assets at fair value not held for trading and Financial assets measured at fair value through other comprehensive income.

Balance sheet liabilities (30 June 2025 vs 31 March 2025)

Total liabilities were USD 1,580.3bn as of 30 June 2025, an increase of USD 124.5bn compared with 31 March 2025, mainly reflecting currency effects as a result of the depreciation of the US dollar against other major currencies.

Customer deposits increased by USD 55.1bn, primarily driven by currency effects, as well as net new deposit inflows, largely in Global Wealth Management. Derivatives and cash collateral payables on derivative instruments increased by USD 43.2bn, predominantly in the Investment Bank, reflecting the same drivers as on the asset side.

Trading liabilities increased by USD 9.2bn, mainly due to an increase in positions held in the Investment Bank to hedge client positions, as well as market-driven increases. Short-term borrowings increased by USD 8.8bn, mainly driven by net new issuances of commercial paper and certificates of deposit in Group Treasury, as well as by currency effects. Debt issued designated at fair value and long-term debt issued measured at amortized cost increased by USD 7.5bn, mainly driven by currency effects and market-driven increases on equity-linked notes, partly offset by net maturities.

The "Liabilities, by product and currency" table in this section provides more information about the Group's funding sources.

1 Consists of short-term debt issued measured at amortized cost and amounts due to banks, which includes amounts due to central banks. 2 The classification of debt issued measured at amortized cost into short-term and long-term is based on original contractual maturity and therefore long-term debt also includes debt with a remaining time to maturity of less than one year. This classification does not consider any early redemption features. 3 Excludes other comprehensive income related to defined benefit plans and own credit, which is recorded directly in Retained earnings.

Equity (30 June 2025 vs 31 March 2025)

Equity attributable to shareholders increased by USD 2,092m to USD 89,277m as of 30 June 2025.

The net increase of USD 2,092m was mainly driven by positive total comprehensive income attributable to shareholders of USD 5,335m, reflecting a net profit of USD 2,395m and other comprehensive income (OCI) of USD 2,941m. OCI mainly included OCI related to foreign currency translation of USD 2,536m, cash flow hedge OCI of USD 562m and negative OCI related to own credit on financial liabilities designated at fair value of USD 124m. In addition, deferred share-based compensation awards of USD 292m were expensed in the income statement, increasing share premium.

These increases were partly offset by distributions to shareholders of USD 2,866m, reflecting a dividend payment of USD 0.90 per share. In addition, net treasury share activity reduced equity by USD 678m, predominantly due to the repurchasing of USD 494m of shares under our 2024 share repurchase program and the purchasing of USD 239m of shares in relation to employee share-based compensation plans.

In the second quarter of 2025, we canceled 120,506,008 shares purchased under our 2022 share repurchase program, as approved by the shareholders at the 2025 Annual General Meeting. The cancellation of shares resulted in reclassifications within equity but had no net effect on our total equity attributable to shareholders.

Share information and earnings per share

UBS Group AG shares are listed on the SIX Swiss Exchange (SIX). They are also listed on the New York Stock Exchange (the NYSE) as global registered shares. Each share has a nominal value of USD 0.10. Shares issued decreased in the second quarter of 2025, as 120,506,008 shares acquired under our 2022 share repurchase program were canceled by means of a capital reduction, as approved by the shareholders at the 2025 Annual General Meeting (the AGM).

We held 172m shares as of 30 June 2025, of which 64m shares had been acquired under our 2024 share repurchase program for cancellation purposes. The remaining 109m shares are primarily held to hedge our share delivery obligations related to employee share-based compensation and participation plans.

Treasury shares held decreased by 102m shares in the second quarter of 2025. This largely reflected the aforementioned cancellation of 121m shares, partly offset by 15.8m shares repurchased under our 2024 program and the purchasing of 6.7m shares in relation to employee share-based compensation plans.

Shares acquired under our 2024 program totaled 64m as of 30 June 2025 for a total acquisition cost of USD 2,000m (CHF 1,739m). This program concluded on 23 May 2025, and the 64m shares repurchased under this program will be canceled by means of a capital reduction, subject to approval by the shareholders at a future AGM.

On 1 July 2025, we launched a new program to repurchase up to USD 2bn of shares. As previously announced, we plan to complete the repurchase of up to USD 2bn of shares in the second half of 2025. We will communicate our 2026 capital returns ambitions with our fourth-quarter and full-year financial results for 2025. Our share repurchases will be subject to maintaining our common equity tier 1 capital ratio target of around 14% and achieving our financial targets.

› **Refer to the "Equity, CET1 capital and returns" table in the "Group performance" section of this report for more information about equity attributable to shareholders and tangible equity attributable to shareholders**

Market capitalization (USD m)[6]	113,036	105,173	101,903	113,036	101,903

1 The weighted average shares outstanding for basic earnings per share (EPS) are calculated by taking the number of shares at the beginning of the period, adjusted by the number of shares acquired or issued during the period, multiplied by a time-weighted factor for the period outstanding. As a result, balances are affected by the timing of acquisitions and issuances during the period. 2 The weighted average number of shares for notional employee awards with performance conditions reflects all potentially dilutive shares that are expected to vest under the terms of the awards. 3 Based on a settlement date view. 4 Reflects potential shares that could dilute basic EPS in the future but were not dilutive for any of the periods presented. Mainly includes equity-based awards subject to absolute and relative performance conditions and equity derivative contracts. 5 Represents the share price as listed on the SIX Swiss Exchange, translated to US dollars using the closing exchange rate as of the respective date. 6 The calculation of market capitalization reflects total shares issued multiplied by the share price at the end of the period.

1 Excludes other comprehensive income related to defined benefit plans and own credit that is recorded directly in Retained earnings. 2 Excludes non-controlling interests. 3 Includes treasury shares acquired and disposed of by the Investment Bank in its capacity as a market maker with regard to UBS shares and related derivatives, and to hedge certain issued structured debt instruments. These acquisitions and disposals are reported based on the sum of the net monthly movements. 4 Reflects the cancellation of 120,506,008 shares purchased under UBS's 2022 share repurchase program as approved by the shareholders at the 2025 Annual General Meeting. Swiss tax law requires Switzerland-domiciled companies with shares listed on a Swiss stock exchange to reduce capital contribution reserves by at least 50% of the total capital reduction amount exceeding the nominal value upon cancellation of the shares. 5 Reflects the payment of an ordinary cash dividend of USD 0.90 per dividend-bearing share in April 2025 (2024: USD 0.70 per dividend-bearing share paid in May 2024). Swiss tax law requires Switzerland-domiciled companies with shares listed on a Swiss stock exchange to pay no more than 50% of dividends from capital contribution reserves, with the remainder required to be paid from retained earnings.

Dividends on equity investments, investment funds and associates received in cash[3]	**1,803**	1,529

1 Foreign currency translation and foreign exchange effects on operating assets and liabilities and on cash and cash equivalents are presented within the Other net adjustments line, with the exception of foreign currency hedge effects related to foreign exchange swaps, which are presented on the line Financial assets and liabilities at fair value held for trading and derivative financial instruments. 2 Includes cash receipts from the sale of loans and loan commitments of USD 581m and USD 9,857m within Non-core and Legacy for the six-month periods ended 30 June 2025 and 30 June 2024, respectively. 3 Includes dividends received from associates. 4 Includes cash proceeds net of cash and cash equivalents disposed from the sale of the US mortgage servicing business of Credit Suisse, Select Portfolio Servicing, which was managed in Non-core and Legacy. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information. 5 Reflects the repayment of the Emergency Liquidity Assistance facility to the Swiss National Bank, which was recognized in the balance sheet line Amounts due to banks. 6 Reflects cash flows from securities financing transactions measured at amortized cost that use UBS debt instruments as the underlying. 7 Includes only balances with an original maturity of three months or less. 8 Money market paper is included in the balance sheet under Financial assets at fair value not held for trading (30 June 2025: USD 2,431m; 30 June 2024: USD 9,479m), Other financial assets measured at amortized cost (30 June 2025: USD 340m; 30 June 2024: USD 565m), Financial assets measured at fair value through other comprehensive income (30 June 2025: USD 140m; 30 June 2024: USD 344m) and Financial assets at fair value held for trading (30 June 2025: USD 127m; 30 June 2024: USD 430m).

Notes to the UBS Group AG interim consolidated financial statements (unaudited)

Note 1 Basis of accounting

Basis of preparation

The consolidated financial statements (the financial statements) of UBS Group AG and its subsidiaries (together, UBS or the Group) are prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board (the IASB), and are presented in US dollars. These interim financial statements are prepared in accordance with IAS 34, *Interim Financial Reporting*.

In preparing these interim financial statements, the same accounting policies and methods of computation have been applied as in the UBS Group AG consolidated annual financial statements for the period ended 31 December 2024. These interim financial statements are unaudited and should be read in conjunction with: UBS Group AG's audited consolidated financial statements in the UBS Group Annual Report 2024; the "Management report" sections of this report, specifically the disclosures in the "Recent developments" section of this report regarding the sale of O'Connor hedge funds and the ownership increase in UBS Securities China and in the "UBS Group performance, business divisions and Group Items" section of this report regarding the sale of Select Portfolio Servicing (the US mortgage servicing business of Credit Suisse) and the transactions related to Swisscard; and the information about significant transactions disclosed in the UBS Group first quarter 2025 report. In the opinion of management, all necessary adjustments have been made for a fair presentation of the Group's financial position, results of operations and cash flows.

Preparation of these interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities. These estimates and assumptions are based on the best available information. Actual results in the future could differ from such estimates and differences may be material to the financial statements. Revisions to estimates, based on regular reviews, are recognized in the period in which they occur. For more information about areas of estimation uncertainty that are considered to require critical judgment, refer to "Note 1a Material accounting policies" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024.

Currency translation rates

The following table shows the rates of the main currencies used to translate the financial information of UBS's operations with a functional currency other than the US dollar into US dollars.

Currency translation rates

	Closing exchange rate				Average rate[1]				
	As of				For the quarter ended			Year-to-date	
	30.6.25	31.3.25	31.12.24	30.6.24	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
1 CHF	1.26	1.13	1.10	1.11	1.23	1.11	1.10	1.17	1.12
1 EUR	1.18	1.08	1.04	1.07	1.15	1.05	1.07	1.10	1.08
1 GBP	1.37	1.29	1.25	1.26	1.35	1.26	1.26	1.31	1.26
100 JPY	0.69	0.67	0.63	0.62	0.70	0.66	0.63	0.68	0.65

1 Monthly income statement items of operations with a functional currency other than the US dollar are translated into US dollars using month-end rates. Disclosed average rates for a quarter represent an average of three month-end rates, weighted according to the income and expense volumes of all operations of the Group with the same functional currency for each month. Weighted average rates for individual business divisions may deviate from the weighted average rates for the Group.

Note 2 Segment reporting

UBS's business divisions are organized globally into five business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank, and Non-core and Legacy. All five business divisions are supported by Group Items and qualify as reportable segments for the purpose of segment reporting. Together with Group Items they reflect the management structure of the Group.

› **Refer to the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information about the Group's reporting segments**

Other[5]	2	(31)	89	(29)	145
Total other income	30	213	154	243	278

1 Includes foreign exchange gains / (losses) reclassified from other comprehensive income related to the disposal or closure of foreign operations. 2 Includes a gain of USD 97m recognized upon completion of the sale of Select Portfolio Servicing, the US mortgage servicing business of Credit Suisse, which was managed in Non-core and Legacy. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information. 3 Includes a gain of USD 64m related to UBS's share of income recorded by Swisscard for the sale of the Credit Suisse card portfolios to UBS. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information. 4 Includes rent received from third parties. 5 Includes losses of USD 27m for the second quarter of 2025 related to the repurchase of UBS's own debt instruments (first quarter of 2025: losses of USD 36m; second quarter of 2024: gains of USD 4m).

Note 6 Personnel expenses

Personnel expenses

	For the quarter ended			Year-to-date	
USD m	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
Salaries and variable compensation[1]	5,900	5,968	6,058	11,868	11,922
of which: variable compensation – financial advisors[2]	*1,335*	*1,409*	*1,291*	*2,744*	*2,558*
Contractors	79	72	82	152	168
Social security	416	405	419	821	828
Post-employment benefit plans	321	349	309	671	676
Other personnel expenses	260	237	251	497	476
Total personnel expenses	6,976	7,032	7,119	14,008	14,068

1 Includes role-based allowances. 2 Financial advisor compensation consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements.

Note 7 General and administrative expenses

General and administrative expenses

	For the quarter ended			Year-to-date	
USD m	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
Outsourcing costs	381	378	463	760	886
Technology costs	592	573	567	1,166	1,154
Consulting, legal and audit fees	317	287	394	604	797
Real estate and logistics costs	284	239	302	523	590
Market data services	178	168	188	346	387
Marketing and communication	145	123	137	268	251
Travel and entertainment	89	74	87	163	159
Litigation, regulatory and similar matters[1]	(412)	114	(153)	(298)	(158)
Other	306	475[2]	334	781[2]	665
Total general and administrative expenses	1,881	2,431	2,318	4,312	4,731

1 Reflects the net increase / (decrease) in provisions for litigation, regulatory and similar matters recognized in the income statement. The quarters and six-month periods ended 30 June 2025 and 30 June 2024 also reflect decreases in acquired contingent liabilities measured under IFRS 3. Refer to Note 14b for more information. 2 Includes a USD 180m expense related to the payment to Swisscard for the sale of the Credit Suisse card portfolios to UBS. Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information.

Note 8 Expected credit loss measurement

a) Credit loss expense / release

Total net credit loss expenses in the second quarter of 2025 were USD 163m, reflecting USD 38m net expenses related to performing positions and USD 125m net expenses on credit-impaired positions.

Stage 1 and 2 net expenses of USD 38m included scenario-update-related net expenses of USD 23m, mainly from corporate lending and portfolio changes, and USD 13m expenses in anticipation of a portfolio re-calibration in the large corporate clients segment.

Credit loss expenses of USD 125m for credit-impaired positions primarily related to Personal & Corporate Banking and Investment Bank exposures related to a small number of corporate counterparties.

Credit loss expense / (release)

Total	(22)	132	(15)	95

b) Changes to ECL models, scenarios and scenario weights

Scenarios and scenario weights

The expected credit loss (ECL) scenarios, along with their related macroeconomic factors and market data, were reviewed in light of the economic and political conditions prevailing in the second quarter of 2025 through a series of governance meetings, with input and feedback from UBS Risk and Finance experts across the business divisions and regions.

The baseline scenario was updated with the latest macroeconomic forecasts as of 30 June 2025. The assumptions on a calendar-year basis are included in the table below and have been revised downward in the US, the Eurozone and Japan relative to the start of 2025 in the second half of the year following the announcement of US tariffs imposed on imports from other countries. In general, forecasts for Swiss GDP growth and unemployment are less optimistic than in 2024, due to spillover effects from the US tariff announcements. Expectations for long-term interest rates were revised and are marginally lower, while forecasts for house prices remained unchanged.

At the beginning of the first quarter of 2025, UBS replaced the stagflationary geopolitical crisis scenario applied at the end of 2024 with the global crisis scenario, as the severe downside scenario. It targets risks such as sovereign defaults, low interest rates, a crisis in the Eurozone and significant emerging market stress. The mild stagflation crisis scenario replaced the mild debt crisis scenario as the mild downside scenario. In the mild stagflation crisis scenario, interest rates are assumed to rise rather than decline, as in the previously applied mild debt crisis scenario. However, the declines in GDP and equities are similar.

UBS kept the scenarios and scenario weights in line with those applied in the UBS Group first quarter 2025 report. All of the scenarios, including the asset price appreciation and the baseline scenarios, have been updated based on the latest macroeconomic forecasts as of 30 June 2025. The assumptions on a calendar-year basis are included in the table below.

Comparison of shock factors

	Baseline		
Key parameters	**2024**	**2025**	**2026**
Real GDP growth (annual percentage change)			
US	2.8	1.6	1.2
Eurozone	0.8	0.7	1.0
Switzerland	1.4	0.9	1.4
Unemployment rate (%, annual average)			
US	4.0	4.3	4.8

Switzerland	0.9	4.0	2.5

Economic scenarios and weights applied

	Assigned weights in %		
ECL scenario	**30.6.25**	**31.3.25**	**30.6.24**
Asset price appreciation	5.0	5.0	–
Baseline	50.0	50.0	60.0
Mild debt crisis	–	–	15.0
Stagflationary geopolitical crisis	–	–	25.0
Mild stagflation crisis	30.0	30.0	–
Global crisis	15.0	15.0	–

c) ECL-relevant balance sheet and off-balance sheet positions including ECL allowances and provisions

The following tables provide information about financial instruments and certain non-financial instruments that are subject to ECL requirements. For amortized-cost instruments, the carrying amount represents the maximum exposure to credit risk, taking into account the allowance for credit losses. Financial assets measured at fair value through other comprehensive income (FVOCI) are also subject to ECL; however, unlike amortized-cost instruments, the allowance for credit losses for FVOCI instruments does not reduce the carrying amount of these financial assets. Instead, the carrying amount of financial assets measured at FVOCI represents the maximum exposure to credit risk.

In addition to recognized financial assets, certain off-balance sheet financial instruments and other credit lines are also subject to ECL. The maximum exposure to credit risk for off-balance sheet financial instruments is calculated based on the maximum contractual amounts.

ECL-relevant balance sheet and off-balance sheet positions

USD m	30.6.25									
	Carrying amount[1]					ECL allowances[2]				
Financial instruments measured at amortized cost	Total	Stage 1	Stage 2	Stage 3	PCI	Total	Stage 1	Stage 2	Stage 3	PCI

1 The carrying amount of financial assets measured at amortized cost represents the total gross exposure net of the respective ECL allowances. 2 Negative balances are representative of a net improvement in credit quality since the acquisition of the respective financial instrument, which is reflected as a negative ECL allowance.

Note 8 Expected credit loss measurement (continued)

The table below provides information about the gross carrying amount of exposures subject to ECL and the ECL coverage ratio for UBS's core loan portfolios (i.e. *Loans and advances to customers* and *Loans to financial advisors*) and relevant off-balance sheet exposures. *Cash and balances at central banks*, *Amounts due from banks*, *Receivables from securities financing transactions*, *Cash collateral receivables on derivative instruments* and *Financial assets measured at fair value through other comprehensive income* are not included in the table below, due to their lower sensitivity to ECL.

ECL coverage ratios are calculated by dividing ECL allowances and provisions by the gross carrying amount of the related exposures.

The overall coverage ratio for performing positions increased by 1 basis point to 11 basis points as of 30 June 2025. Compared with 31 March 2025, coverage ratios for performing positions related to real estate lending (on-balance sheet) were unchanged at 4 basis points, and coverage ratios for performing positions related to corporate lending (on-balance sheet) increased by 3 basis points to 75 basis points.

Note 9 Fair value measurement

a) Fair value hierarchy

The fair value hierarchy classification of financial and non-financial assets and liabilities measured at fair value is summarized in the table below.

During the first six months of 2025, assets and liabilities that were transferred from Level 2 to Level 1, or from Level 1 to Level 2, and were held for the entire reporting period were not material.

Determination of fair values from quoted market prices or valuation techniques[1]

of which: Over-the-counter debt instruments and others	*0*	*2,861*	*2,182*	*5,043*	*0*	*2,969*	*2,644*	*5,613*	*0*	*2,930*	*2,768*	*5,698*
Total liabilities measured at fair value	39,517	378,158	19,351	437,027	31,910	332,923	19,632	384,465	25,406	355,703	20,405	401,514

1 Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are not included in this table. The fair value of these derivatives was not material for the periods presented.
2 Other non-financial assets primarily consist of properties and other non-current assets held for sale, which are measured at the lower of their net carrying amount or fair value less costs to sell.

b) Valuation adjustments

The table below summarizes the changes in deferred day-1 profit or loss reserves during the relevant period.

Deferred day-1 profit or loss is generally released into *Other net income from financial instruments measured at fair value through profit or loss* when the pricing of equivalent products or the underlying parameters become observable or when the transaction is closed out.

Deferred day-1 profit or loss reserves

	For the quarter ended			Year-to-date	
USD m	30.6.25	31.3.25	30.6.24	30.6.25	30.6.24
Reserve balance at the beginning of the period	391	421	384	421	404
Profit / (loss) deferred on new transactions	68	65	59	133	101
(Profit) / loss recognized in the income statement	(41)	(95)	(55)	(135)	(116)
Foreign currency translation	(1)	(1)	(1)	(2)	(1)
Reserve balance at the end of the period	417	391	388	417	388

The table below summarizes other valuation adjustment reserves recognized on the balance sheet.

Other valuation adjustment reserves on the balance sheet

	As of		
USD m	30.6.25	31.3.25	31.12.24
Own credit adjustments on financial liabilities designated at fair value[1]	(1,040)	(897)	(1,165)
of which: debt issued designated at fair value	*(1,080)*	*(929)*	*(1,188)*
of which: other financial liabilities designated at fair value	*40*	*32*	*23*
Credit valuation adjustments[2]	(40)	(128)	(125)
Funding and debit valuation adjustments	(87)	(69)	(96)
Other valuation adjustments	(966)	(971)	(1,207)
of which: liquidity	*(586)*	*(570)*	*(746)*
of which: model uncertainty	*(380)*	*(401)*	*(460)*

1 Own credit adjustments on financial liabilities designated at fair value includes amounts for TLAC notes. 2 Amount does not include reserves against defaulted counterparties.

c) Level 3 instruments: valuation techniques and inputs

The table below presents material Level 3 assets and liabilities, together with the valuation techniques used to measure fair value, as well as the inputs used in a given valuation technique that are considered significant as of 30 June 2025 and unobservable, and a range of values for those unobservable inputs.

The range of values represents the highest- and lowest-level inputs used in the valuation techniques. Therefore, the range does not reflect the level of uncertainty regarding a particular input or an assessment of the reasonableness of the Group's estimates and assumptions, but rather the different underlying characteristics of the relevant assets and liabilities held by the Group.

The significant unobservable inputs disclosed in the table below are consistent with those included in "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024.

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities

	Fair value						Range of inputs						
	Assets		Liabilities				30.6.25			31.12.24			
USD bn	30.6.25	31.12.24	30.6.25	31.12.24	Valuation technique(s)	Significant unobservable input(s)[1]	low	high	weighted average[2]	low	high	weighted average[2]	unit[1]
Financial assets and liabilities at fair value held for trading and Financial assets at fair value not held for trading													
Corporate and municipal bonds	*0.8*	*1.0*	*0.0*	*0.2*	Relative value to market comparable	Bond price equivalent	12	104	77	23	114	98	points
Loans at fair value (held for trading and not held for trading) and guarantees[3]	*6.0*	*5.2*	*0.0*	*0.0*	Relative value to market comparable	Loan price equivalent	3	101	93	1	173	84	points
					Discounted expected cash flows	Credit spread	17	294	94	16	545	195	basis points
					Market comparable and securitization model	Credit spread	98	1,958	225	75	1,899	208	basis points
Asset-backed securities	*0.7*	*0.7*	*0.0*	*0.0*	Relative value to market comparable	Bond price equivalent	5	105	80	0	112	79	points
Investment fund units[4]	*0.7*	*0.8*	*0.0*	*0.0*	Relative value to market comparable	Net asset value							
Equity instruments[4]	*3.2*	*3.0*	*0.0*	*0.0*	Relative value to market comparable	Price							
Debt issued designated at fair value[3]			12.9	13.3									
Other financial liabilities designated at fair value[3]			2.3	2.8	Discounted expected cash flows	Funding spread	95	224		95	201		basis points
Derivative financial instruments													
Interest rate	*0.9*	*0.9*	*0.3*	*0.3*	Option model	Volatility of interest rates	53	119		50	156		basis points
						IR-to-IR correlation	68	99		60	99		%
					Discounted expected cash flows	Funding spread	5	20		5	20		basis points
Credit	*0.9*	*0.6*	*0.2*	*0.4*	Discounted expected cash flows	Credit spreads	3	1,760		2	1,789		basis points
						Credit correlation	50	58		50	66		%
						Recovery rates	0	100		0	100		%
					Option model	Credit volatility	60	143		59	127		%
						Recovery rates	0	40					%
Equity / index	*1.3*	*1.1*	*3.5*	*3.1*	Option model	Equity dividend yields	0	10		0	16		%
						Volatility of equity stocks, equity and other indices	3	99		4	126		%
						Equity-to-FX correlation	(65)	74		(65)	80		%
						Equity-to-equity correlation	(10)	100		0	100		%
Loan commitments measured at FVTPL			*0.0*	*0.1*	Relative value to market comparable	Loan price equivalent	80	100		60	101		points

1 The ranges of significant unobservable inputs are represented in points, percentages and basis points. Points are a percentage of par (e.g. 100 points would be 100% of par). 2 Weighted averages are provided for most non-derivative financial instruments and were calculated by weighting inputs based on the fair values of the respective instruments. Weighted averages are not provided for inputs related to Other financial liabilities designated at fair value and Derivative financial instruments, as this would not be meaningful. 3 Debt issued designated at fair value primarily consists of UBS structured notes, which include variable maturity notes with various equity and foreign exchange underlying risks, as well as rates-linked and credit-linked notes, all of which have embedded derivative parameters that are considered to be unobservable. The derivative instrument parameters for debt issued designated at fair value, embedded derivatives for over-the-counter debt instruments reported under Other financial liabilities designated at fair value and funded derivatives reported under Loans at fair value (held for trading and not held for trading) are presented in the corresponding derivative financial instruments lines in this table. 4 The range of inputs is not disclosed, as there is a dispersion of values given the diverse nature of the investments.

d) Level 3 instruments: sensitivity to changes in unobservable input assumptions

The table below summarizes those financial assets and liabilities classified as Level 3 for which a change in one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, and the estimated effect thereof.

The sensitivity data shown below presents an estimation of valuation uncertainty based on reasonably possible alternative values for Level 3 inputs at the balance sheet date and does not represent the estimated effect of stress scenarios. Typically, these financial assets and liabilities are sensitive to a combination of inputs from Levels 1–3. Although well-defined interdependencies may exist between Level 1 / 2 parameters and Level 3 parameters (e.g. between interest rates, which are generally Level 1 or Level 2, and prepayments, which are generally Level 3), these have not been incorporated in the table. Furthermore, direct interrelationships between the Level 3 parameters are not a significant element of the valuation uncertainty.

Sensitivity of fair value measurements to changes in unobservable input assumptions[1]

	30.6.25		31.3.25		31.12.24	
USD m	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Loans at fair value (held for trading and not held for trading) and guarantees[2]	141	(112)	147	(115)	185	(143)
Securities financing transactions	25	(14)	25	(20)	30	(24)
Auction rate securities	8	(4)	8	(6)	8	(6)
Asset-backed securities	19	(17)	23	(18)	32	(28)
Equity instruments	387	(370)	348	(314)	333	(308)
Investment fund units	178	(180)	176	(178)	179	(181)
Loan commitments measured at FVTPL	13	(41)	15	(47)	38	(42)
Interest rate derivatives, net	68	(58)	77	(65)	115	(70)
Credit derivatives, net	78	(108)	88	(108)	112	(117)
Foreign exchange derivatives, net	6	(5)	4	(3)	3	(2)
Equity / index derivatives, net	690	(577)	619	(503)	732	(617)
Other	216	(115)	256	(152)	289	(161)
Total	1,830	(1,601)	1,785	(1,528)	2,056	(1,700)

1 Sensitivity of issued and over-the-counter debt instruments is reported with the equivalent derivative or Other. 2 Sensitivity of funded derivatives is reported under equivalent derivatives.

e) Level 3 instruments: movements during the period

The table below presents additional information about material Level 3 assets and liabilities measured at fair value on a recurring basis. Level 3 assets and liabilities may be hedged with instruments classified as Level 1 or Level 2 in the fair value hierarchy and, as a result, realized and unrealized gains and losses included in the table may not include the effect of related hedging activity. Furthermore, the realized and unrealized gains and losses presented in the table are not limited solely to those arising from Level 3 inputs, as valuations are generally derived from both observable and unobservable parameters.

Assets and liabilities transferred into or out of Level 3 are presented as if those assets or liabilities had been transferred on 1 January 2025.

Note 9 Fair value measurement (continued)

Movements of Level 3 instruments

USD bn	Balance at the beginning of the period	Net gains / losses included in compre-hensive income[1]	*of which: related to instruments held at the end of the period*	Purchases	Sales	Issuances	Settlements	Transfers into Level 3	Transfers out of Level 3	Foreign currency translation	Balance at the end of the period

1 Net gains / losses included in comprehensive income are recognized in Net interest income and Other net income from financial instruments measured at fair value through profit or loss in the Income statement, and also in Gains / (losses) from own credit on financial liabilities designated at fair value, before tax in the Statement of comprehensive income. 2 Total Level 3 assets as of 30 June 2025 were USD 15.9bn (31 December 2024: USD 14.7bn). Total Level 3 liabilities as of 30 June 2025 were USD 19.4bn (31 December 2024: USD 20.4bn).

f) Financial instruments not measured at fair value

The table below reflects the estimated fair values of financial instruments not measured at fair value. Valuation principles applied when determining fair value estimates for financial instruments not measured at fair value are consistent with those described in "Note 21 Fair value measurement" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024.

Financial instruments not measured at fair value

	30.6.25		31.3.25		31.12.24	
USD bn	Carrying amount	Fair value	Carrying amount	Fair value	Carrying amount	Fair value
Assets						
Cash and balances at central banks	236.2	236.2	231.4	231.4	223.3	223.3
Amounts due from banks	21.5	21.5	21.1	21.1	18.9	18.9
Receivables from securities financing transactions measured at amortized cost	110.2	110.2	101.8	101.8	118.3	118.3
Cash collateral receivables on derivative instruments	45.5	45.5	39.0	39.0	44.0	44.0
Loans and advances to customers	646.0	646.5	594.1	592.2	580.0	579.7
Other financial assets measured at amortized cost	72.2	71.0	66.5	65.1	58.8	57.0
Liabilities						
Amounts due to banks	31.9	32.0	27.8	27.8	23.3	23.4
Payables from securities financing transactions measured at amortized cost	16.3	16.3	15.0	15.0	14.8	14.8
Cash collateral payables on derivative instruments	33.0	33.0	31.5	31.5	35.5	35.5
Customer deposits	800.0	800.8	744.9	745.6	745.8	746.6
Debt issued measured at amortized cost	224.7	229.7	213.9	218.5	214.2	220.6
Other financial liabilities measured at amortized cost[1]	13.9	13.9	14.6	14.6	16.4	16.4

1 Excludes lease liabilities.

Note 10 Derivative instruments

a) Derivative instruments

As of 30.6.25, USD bn	Derivative financial assets	Derivative financial liabilities	Notional values related to derivative financial assets and liabilities[1]	Other notional values[2]
Derivative financial instruments				
Interest rate	38.0	33.6	3,680	18,031
Credit derivatives	3.2	3.4	132	
Foreign exchange	78.5	88.8	8,214	372
Equity / index	45.4	53.8	1,579	98
Commodities	4.3	3.5	174	19
Other[3]	0.6	0.7	168	
Total derivative financial instruments, based on netting under IFRS Accounting Standards[4]	170.0	183.8	13,947	18,519
Further netting potential not recognized on the balance sheet[5]	(152.9)	(161.9)		
of which: netting of recognized financial liabilities / assets	*(130.4)*	*(130.4)*		
of which: netting with collateral received / pledged	*(22.5)*	*(31.5)*		
Total derivative financial instruments, after consideration of further netting potential	17.1	21.9		

As of 31.3.25, USD bn				
Derivative financial instruments				
Interest rate	38.5	34.2	3,716	18,048
Credit derivatives	3.2	3.6	173	
Foreign exchange	49.5	51.1	7,248	294
Equity / index	40.9	48.0	1,419	104
Commodities	5.0	4.2	180	19
Other[3]	0.9	1.1	178	
Total derivative financial instruments, based on netting under IFRS Accounting Standards[4]	138.0	142.1	12,913	18,465
Further netting potential not recognized on the balance sheet[5]	(122.6)	(127.8)		
of which: netting of recognized financial liabilities / assets	*(100.8)*	*(100.8)*		
of which: netting with collateral received / pledged	*(21.8)*	*(27.0)*		
Total derivative financial instruments, after consideration of further netting potential	15.5	14.3		

As of 31.12.24, USD bn				
Derivative financial instruments

of which: netting with collateral received / pledged	*(26.2)*	*(30.8)*		
Total derivative financial instruments, after consideration of further netting potential	23.9	14.3		

1 In cases where derivative financial instruments are presented on a net basis on the balance sheet, the respective notional values of the netted derivative financial instruments are still presented on a gross basis. Notional amounts of client-cleared ETD and OTC transactions through central clearing counterparties are not disclosed, as they have a significantly different risk profile. 2 Other notional values relate to derivatives that are cleared through either a central counterparty or an exchange and settled on a daily basis. The fair value of these derivatives is presented on the balance sheet within Cash collateral receivables on derivative instruments and Cash collateral payables on derivative instruments. 3 Includes Loan commitments measured at FVTPL, as well as unsettled purchases and sales of non-derivative financial instruments for which the changes in the fair value between trade date and settlement date are recognized as derivative financial instruments. 4 Financial assets and liabilities are presented net on the balance sheet if UBS has the unconditional and legally enforceable right to offset the recognized amounts, both in the normal course of business and in the event of default, bankruptcy or insolvency of UBS or its counterparties, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information. 5 Reflects the netting potential in accordance with enforceable master netting and similar arrangements where not all criteria for a net presentation on the balance sheet have been met. Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024 for more information.

b) Cash collateral on derivative instruments

USD bn	Receivables 30.6.25	Payables 30.6.25	Receivables 31.3.25	Payables 31.3.25	Receivables 31.12.24	Payables 31.12.24

of which: debt that contributes to total loss-absorbing capacity	*5,751*	*5,263*	*4,934*
Total debt issued designated at fair value[2]	113,522	112,092	107,909
of which: issued by UBS AG standalone with original maturity greater than one year[3]	*89,883*	*85,588*	*82,491*
of which: issued by Credit Suisse International standalone with original maturity greater than one year[3]	*2*	*110*	*96*

1 Includes investment fund unit-linked instruments issued. 2 As of 30 June 2025, 100% of Total debt issued designated at fair value was unsecured (31 March 2025: 100% and 31 December 2024: 100%). 3 Based on original contractual maturity without considering any early redemption features.

Note 13 Debt issued measured at amortized cost

Debt issued measured at amortized cost

USD m	30.6.25	31.3.25	31.12.24
Short-term debt[1]	35,299	30,572	30,509
Senior unsecured debt	131,022	130,323	133,159
of which: contributes to total loss-absorbing capacity	*93,503*	*93,863*	*92,515*
of which: issued by UBS AG standalone with original maturity greater than one year	*29,407*	*30,112*	*32,664*
Covered bonds	11,432	9,044	8,762
Subordinated debt	17,291	17,038	15,030
of which: eligible as high-trigger loss-absorbing additional tier 1 capital instruments[2]	*16,608*	*16,352*	*13,084*
of which: eligible as low-trigger loss-absorbing additional tier 1 capital instruments			*1,245*
of which: eligible as non-Basel III-compliant tier 2 capital instruments	*196*	*205*	*207*
Debt issued through the Swiss central mortgage institutions	29,190	26,474	26,335
Other long-term debt	476	429	424
Long-term debt[3]	189,411	183,308	183,709
Total debt issued measured at amortized cost[4,5]	224,709	213,880	214,219

1 Debt with an original contractual maturity of less than one year, includes mainly certificates of deposit and commercial paper. 2 For 30 June 2025, includes USD 10.2bn (31 March 2025: USD 10.1bn and 31 December 2024: USD 6.9bn) that are, upon the occurrence of a trigger event or a viability event, subject to conversion into ordinary UBS shares. 3 Debt with an original contractual maturity greater than or equal to one year. The classification of debt issued into short-term and long-term does not consider any early redemption features. 4 Net of bifurcated embedded derivatives, the fair value of which was not material for the periods presented. 5 Except for Covered bonds (100% secured), Debt issued through the Swiss central mortgage institutions (100% secured) and Other long-term debt (93% secured), 100% of the balance was unsecured as of 30 June 2025.

Note 14 Provisions and contingent liabilities

a) Provisions and contingent liabilities

The table below presents an overview of total provisions and contingent liabilities.

Overview of total provisions and contingent liabilities

USD m	30.6.25	31.3.25	31.12.24
Provisions related to expected credit losses (IFRS 9, *Financial Instruments*)[1]	406	337	320
Provisions related to Credit Suisse loan commitments (IFRS 3, *Business Combinations*)	638	809	997
Provisions related to litigation, regulatory and similar matters (IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*)	3,450	3,852	3,602
Acquisition-related contingent liabilities relating to litigation, regulatory and similar matters (IFRS 3, *Business Combinations*)	1,479	2,031	2,122
Restructuring, real-estate and other provisions (IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*)	1,493	1,489	1,368
Total provisions and contingent liabilities	7,466	8,517	8,409

1 Consists of provisions for losses resulting from legal, liability and compliance risks. 2 Includes USD 278m of provisions for onerous contracts related to real estate as of 30 June 2025 (31 March 2025: USD 374m; 31 December 2024: USD 383m), USD 518m of personnel-related restructuring provisions as of 30 June 2025 (31 March 2025: USD 439m; 31 December 2024: USD 334m) and USD 93m of provisions for onerous contracts related to technology as of 30 June 2025 (31 March 2025: USD 108m; 31 December 2024: USD 96m). 3 Mainly includes provisions for reinstatement costs with respect to leased properties. 4 Mainly includes provisions related to employee benefits, VAT and operational risks. 5 Includes a new provision for the estimated costs associated with UBS's ongoing obligations as described in item 1 of section b) of this Note. 6 Mainly includes provisions used for the resolution reached with the US Department of Justice in the second quarter of 2025 as described in item 1 of section b) of this Note. 7 Includes reclassifications from IFRS 3 contingent liabilities to IAS 37 provisions.

Information about provisions and contingent liabilities in respect of litigation, regulatory and similar matters, as a class, is included in Note 14b. There are no material contingent liabilities associated with the other classes of provisions.

b) Litigation, regulatory and similar matters

The Group operates in a legal and regulatory environment that exposes it to significant litigation and similar risks arising from disputes and regulatory proceedings. As a result, UBS (which for purposes of this Note may refer to UBS Group AG and/or one or more of its subsidiaries, as applicable) is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations.

Such matters are subject to many uncertainties, and the outcome and the timing of resolution are often difficult to predict, particularly in the earlier stages of a case. There are also situations where the Group may enter into a settlement agreement. This may occur in order to avoid the expense, management distraction or reputational implications of continuing to contest liability, even for those matters for which the Group believes it should be exonerated. The uncertainties inherent in all such matters affect the amount and timing of any potential outflows for both matters with respect to which provisions have been established and other contingent liabilities. The Group makes provisions for such matters brought against it when, in the opinion of management after seeking legal advice, it is more likely than not that the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required, and the amount can be reliably estimated. Where these factors are otherwise satisfied, a provision may be established for claims that have not yet been asserted against the Group, but are nevertheless expected to be, based on the Group's experience with similar asserted claims. If any of those conditions is not met, such matters result in contingent liabilities. If the amount of an obligation cannot be reliably estimated, a liability exists that is not recognized even if an outflow of resources is probable. Accordingly, no provision is established even if the potential outflow of resources with respect to such matters could be significant. Developments relating to a matter that occur after the relevant reporting period, but prior to the issuance of financial statements, which affect management's assessment of the provision for such matter (because, for example, the developments provide evidence of conditions that existed at the end of the reporting period), are adjusting events after the reporting period under IAS 10 and must be recognized in the financial statements for the reporting period.

Specific litigation, regulatory and other matters are described below, including all such matters that management considers to be material and others that management believes to be of significance to the Group due to potential financial, reputational and other effects. The amount of damages claimed, the size of a transaction or other information is provided where available and appropriate in order to assist users in considering the magnitude of potential exposures.

In the case of certain matters below, we state that we have established a provision, and for the other matters, we make no such statement. When we make this statement and we expect disclosure of the amount of a provision to prejudice seriously our position with other parties in the matter because it would reveal what UBS believes to be the probable and reliably estimable outflow, we do not disclose that amount. In some cases we are subject to confidentiality obligations that preclude such disclosure. With respect to the matters for which we do not state whether we have established a provision, either: (a) we have not established a provision; or (b) we have established a provision but expect disclosure of that fact to prejudice seriously our position with other parties in the matter because it would reveal the fact that UBS believes an outflow of resources to be probable and reliably estimable.

With respect to certain litigation, regulatory and similar matters for which we have established provisions, we are able to estimate the expected timing of outflows. However, the aggregate amount of the expected outflows for those matters for which we are able to estimate expected timing is immaterial relative to our current and expected levels of liquidity over the relevant time periods.

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in the "Provisions" table in Note 14 a) above. UBS provides below an estimate of the aggregate liability for its litigation, regulatory and similar matters as a class of contingent liabilities. Estimates of contingent liabilities are inherently imprecise and uncertain as these estimates require UBS to make speculative legal assessments as to claims and proceedings that involve unique fact patterns or novel legal theories, that have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Taking into account these uncertainties and the other factors described herein, UBS estimates the future losses that could arise from litigation, regulatory and similar matters disclosed below for which an estimate is possible, that are not covered by existing provisions (including acquisition-related contingent liabilities established under IFRS 3 in connection with the acquisition of Credit Suisse), are in the range of USD 0bn to USD 1.9bn.

Litigation, regulatory and similar matters may also result in non-monetary penalties and consequences. A guilty plea to, or conviction of, a crime could have material consequences for UBS. Resolution of regulatory proceedings may require UBS to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations, and may permit financial market utilities to limit, suspend or terminate UBS's participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations, could have material consequences for UBS.

The amounts shown in the table below reflect the provisions recorded under IFRS Accounting Standards. In connection with the acquisition of Credit Suisse, UBS Group AG additionally has reflected in its purchase accounting under IFRS 3 a valuation adjustment reflecting an estimate of outflows relating to contingent liabilities for all present obligations included in the scope of the acquisition at fair value upon closing, even if it is not probable that the contingent liability will result in an outflow of resources, significantly decreasing the recognition threshold for litigation liabilities beyond those that generally apply under IFRS Accounting Standards. The IFRS 3 acquisition-related contingent liabilities of USD 1.5bn at 30 June 2025 reflect a decrease of USD 0.6bn from 31 March 2025 as a result of releases upon resolution of the relevant matter and reclassifications to provisions under IAS 37.

Provisions for litigation, regulatory and similar matters, by business division and in Group Items[1]

USD m	Global Wealth Management	Personal & Corporate Banking	Asset Management	Investment Bank	Non-core and Legacy	Group Items	UBS Group
Balance as of 31 December 2024	1,271	147	1	266	1,779	139	3,602

1 Provisions, if any, for the matters described in items 2 and 9 of this Note are recorded in Global Wealth Management. Provisions, if any, for the matters described in items 4, 5, 6, 7, 8, 11 and 12 of this Note are recorded in Non-core and Legacy. Provisions, if any, for the matters described in item 1 of this Note are allocated between Global Wealth Management, Personal & Corporate Banking and Non-core and Legacy. Provisions, if any, for the matters described in item 3 of this Note are allocated between the Investment Bank, Non-core and Legacy and Group Items. Provisions, if any, for the matters described in item 10 of this Note are allocated between the Investment Bank and Non-core and Legacy. 2 Includes a new provision for the estimated costs of UBS's ongoing obligations with the US Department of Justice as described in item 1 of this Note. 3 Mainly includes provisions used for the resolution reached with the US Department of Justice in the second quarter of 2025 as described in item 1 of this Note. 4 Includes reclassifications from IFRS 3 contingent liabilities to IAS 37 provisions.

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. Credit Suisse offices in various locations, including the UK, the Netherlands, France and Belgium, have been contacted by regulatory and law enforcement authorities seeking records and information concerning investigations into Credit Suisse's historical private banking services on a cross-border basis and in part through its local branches and banks. The UK and French aspects of these issues have been closed. UBS is continuing to cooperate with the authorities.

Since 2013, UBS (France) S.A., UBS AG and certain former employees have been under investigation in France in relation to UBS's cross-border business with French clients. In connection with this investigation, the investigating judges ordered UBS AG to provide bail ("*caution*") of EUR 1.1bn.

In 2019, the court of first instance returned a verdict finding UBS AG guilty of unlawful solicitation of clients on French territory and aggravated laundering of the proceeds of tax fraud, and UBS (France) S.A. guilty of aiding and abetting unlawful solicitation and of laundering the proceeds of tax fraud. The court imposed fines aggregating EUR 3.7bn on UBS AG and UBS (France) S.A. and awarded EUR 800m of civil damages to the French state. A trial in the Paris Court of Appeal took place in March 2021. In December 2021, the Court of Appeal found UBS AG guilty of unlawful solicitation and aggravated laundering of the proceeds of tax fraud. The court ordered a fine of EUR 3.75m, the confiscation of EUR 1bn, and awarded civil damages to the French state of EUR 800m. UBS appealed the decision to the French Supreme Court. The Supreme Court rendered its judgment on 15 November 2023. It upheld the Court of Appeal's decision regarding unlawful solicitation and aggravated laundering of the proceeds of tax fraud, but overturned the confiscation of EUR 1bn, the penalty of EUR 3.75m and the EUR 800m of civil damages awarded to the French state. The case has been remanded to the Court of Appeal for a retrial regarding these overturned elements. The French state has reimbursed the EUR 800m of civil damages to UBS AG.

In May 2014, Credit Suisse AG entered into settlement agreements with the SEC, the Federal Reserve and the New York Department of Financial Services and agreed with the US Department of Justice (the DOJ) to plead guilty to conspiring to aid and assist US taxpayers in filing false tax returns (the 2014 Plea Agreement). Credit Suisse continued to report to and cooperate with US authorities in accordance with its obligations under the 2014 Plea Agreement, including by conducting a review of cross-border services provided by Credit Suisse. In this connection, Credit Suisse provided information to US authorities regarding potentially undeclared US assets held by clients at Credit Suisse since the 2014 Plea Agreement. In May 2025, Credit Suisse Services AG entered into a plea agreement (the 2025 Plea Agreement) with the DOJ under which it agreed to plead guilty to one count of conspiracy to aid and assist in the preparation of false income tax returns relating to legacy Credit Suisse accounts booked in Credit Suisse's Swiss booking center, thereby settling the investigation into Credit Suisse's implementation of the 2014 Plea Agreement. In addition, Credit Suisse Services AG entered into a non-prosecution agreement with the DOJ (the 2025 NPA) relating to legacy Credit Suisse accounts booked in Credit Suisse's Singapore booking center. The 2025 Plea Agreement and the 2025 NPA provide for penalties, restitution and forfeiture of USD 511m in the aggregate. The 2025 Plea Agreement and the 2025 NPA include ongoing obligations of UBS to furnish information and cooperate with DOJ's investigations of legacy Credit Suisse accounts held by US persons in its Switzerland and Singapore booking centers and related accounts in other booking centers. In the second quarter of 2025, we recorded in our Non-core and Legacy division a net release of USD 427m of provisions and contingent liabilities, which included a new provision for the estimated costs of UBS's ongoing obligations with the DOJ.

Our balance sheet at 30 June 2025 reflected provisions in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

2. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC (BMIS) investment fraud, UBS AG, UBS (Luxembourg) S.A. (now UBS Europe SE, Luxembourg branch) and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the Swiss Financial Market Supervisory Authority (FINMA) and the Luxembourg Commission de Surveillance du Secteur Financier. Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds faced severe losses, and the Luxembourg funds are in liquidation. The documentation establishing both funds identifies UBS entities in various roles, including custodian, administrator, manager, distributor and promoter, and indicates that UBS employees serve as board members.

In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims against UBS entities, non-UBS entities and certain individuals, including current and former UBS employees, seeking amounts totaling approximately EUR 2.1bn, which includes amounts that the funds may be held liable to pay the trustee for the liquidation of BMIS (BMIS Trustee).

A large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff fraud. The majority of these cases have been filed in Luxembourg, where decisions that the claims in eight test cases were inadmissible have been affirmed by the Luxembourg Court of Appeal, and the Luxembourg Supreme Court has dismissed a further appeal in one of the test cases.

In the US, the BMIS Trustee filed claims against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2bn. In 2014, the US Supreme Court rejected the BMIS Trustee's motion for leave to appeal decisions, dismissing all claims against UBS defendants except those for the recovery of approximately USD 125m of payments alleged to be fraudulent conveyances and preference payments. Similar claims have been filed against Credit Suisse entities seeking to recover redemption payments. In 2016, the bankruptcy court dismissed these claims against the UBS entities and most of the Credit Suisse entities. In 2019, the Court of Appeals reversed the dismissal of the BMIS Trustee's remaining claims. The cases were remanded to the Bankruptcy Court for further proceedings.

3. Foreign exchange, LIBOR and benchmark rates, and other trading practices

Foreign-exchange-related regulatory matters: Beginning in 2013, numerous authorities commenced investigations concerning possible manipulation of foreign exchange markets and precious metals prices. As a result of these investigations, UBS entered into resolutions with Swiss, US and UK regulators and the European Commission. UBS was granted conditional immunity by the Antitrust Division of the DOJ and by authorities in other jurisdictions in connection with potential competition law violations relating to foreign exchange and precious metals businesses. In December 2021, the European Commission issued a decision imposing a fine of EUR 83.3m on Credit Suisse entities based on findings of anticompetitive practices in the foreign exchange market. Credit Suisse appealed the decision to the European General Court and, in July 2025, the court issued a judgment reducing the fine to EUR 28.9m. The European Commission is permitted to appeal the decision. UBS received leniency and accordingly no fine was assessed.

Foreign-exchange-related civil litigation: Putative class actions have been filed since 2013 in US federal courts and in other jurisdictions against UBS, Credit Suisse and other banks on behalf of persons who engaged in foreign currency transactions with any of the defendant banks. UBS and Credit Suisse have resolved US federal court class actions relating to foreign currency transactions with the defendant banks and persons who transacted in foreign exchange futures contracts and options on such futures. Certain class members have excluded themselves from that settlement and filed individual actions in US and English courts against UBS, Credit Suisse and other banks, alleging violations of US and European competition laws and unjust enrichment. UBS, Credit Suisse and the other banks have resolved those individual matters. In addition, Credit Suisse and UBS, together with other financial institutions, were named in a consolidated putative class action in Israel, which made allegations similar to those made in the actions pursued in other jurisdictions. Credit Suisse and UBS entered into agreements to settle all claims in this action in April 2022 and February 2024, respectively. Credit Suisse's settlement received court approval and became final in May 2025. UBS's settlement remains subject to court approval.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies conducted investigations regarding potential improper attempts by UBS, among others, to manipulate LIBOR and other benchmark rates at certain times. UBS and Credit Suisse reached settlements or otherwise concluded investigations relating to benchmark interest rates with the investigating authorities. UBS was granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Antitrust Division of the DOJ and the Swiss Competition Commission (WEKO), in connection with potential antitrust or competition law violations related to certain rates. However, UBS has not reached a final settlement with WEKO, as the Secretariat of WEKO has asserted that UBS does not qualify for full immunity.

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives. Also pending in the US and in other jurisdictions are a number of other actions asserting losses related to various products whose interest rates were linked to LIBOR and other benchmarks, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. The complaints allege manipulation, through various means, of certain benchmark interest rates, including USD LIBOR, Yen LIBOR, EURIBOR, CHF LIBOR, and GBP LIBOR and seek unspecified compensatory and other damages under various legal theories.

USD LIBOR class and individual actions in the US: Beginning in 2013, putative class actions were filed in US federal district courts (and subsequently consolidated in the US District Court for the Southern District of New York (SDNY)) by plaintiffs who engaged in over-the-counter instruments, exchange-traded Eurodollar futures and options, bonds or loans that referenced USD LIBOR. The complaints allege violations of antitrust law and the Commodities Exchange Act, as well breach of contract and unjust enrichment. Following various rulings by the SDNY and the Second Circuit dismissing certain of the causes of action and allowing others to proceed, one class action with respect to transactions in over-the-counter instruments and several actions brought by individual plaintiffs are proceeding in the district court. UBS and Credit Suisse have entered into settlement agreements in respect of the class actions relating to exchange-traded instruments, bonds and loans. These settlements have received final court approval and the actions have been dismissed as to UBS and Credit Suisse. In addition, an individual action was filed in federal court in California against UBS, Credit Suisse and numerous other banks alleging that the defendants conspired to fix the interest rate used as the basis for loans to consumers by jointly setting the USD ICE LIBOR rate and monopolized the market for LIBOR-based consumer loans and credit cards. The court dismissed the initial complaint and subsequently dismissed an amended complaint with prejudice; the US Court of Appeals for the Ninth Circuit affirmed the dismissal. In June 2025, the US Supreme Court denied plaintiffs' petition to challenge the decisions of the lower courts.

Other benchmark class actions in the US: The Yen LIBOR/Euroyen TIBOR, EURIBOR and GBP LIBOR actions have been dismissed. Plaintiffs have appealed the dismissals.

In January 2023, defendants moved to dismiss the complaint in the CHF LIBOR action. In 2023, the court approved a settlement by Credit Suisse of the claims against it in this matter.

Government bonds: In 2021, the European Commission issued a decision finding that UBS and six other banks breached European Union antitrust rules between 2007 and 2011 relating to European government bonds. The European Commission fined UBS EUR 172m, which amount was confirmed on appeal in March 2025. UBS has appealed to the European Court of Justice.

Credit default swap auction litigation – In June 2021, Credit Suisse, along with other banks and entities, was named in a putative class action filed in federal court in New Mexico alleging manipulation of credit default swap (CDS) final auction prices. Defendants filed a motion to enforce a previous CDS class action settlement in the SDNY. In January 2024, the SDNY ruled that, to the extent claims in the New Mexico action arise from conduct prior to 30 June 2014, those claims are barred by the SDNY settlement. The plaintiffs appealed and, in May 2025, the Second Circuit affirmed the SDNY decision.

With respect to additional matters and jurisdictions not encompassed by the settlements and orders referred to above, UBS's balance sheet at 30 June 2025 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

4. Mortgage-related matters

Government and regulatory related matters: *DOJ RMBS settlement* – In January 2017, Credit Suisse Securities (USA) LLC (CSS LLC) and its current and former US subsidiaries and US affiliates reached a settlement with the DOJ related to its legacy Residential Mortgage-Backed Securities (RMBS) business, a business conducted through 2007. The settlement resolved potential civil claims by the DOJ related to certain of those Credit Suisse entities' packaging, marketing, structuring, arrangement, underwriting, issuance and sale of RMBS. Pursuant to the terms of the settlement a civil monetary penalty was paid to the DOJ in January 2017. The settlement also required the Credit Suisse entities to provide certain levels of consumer relief measures, including affordable housing payments and loan forgiveness, and the DOJ and Credit Suisse agreed to the appointment of an independent monitor to oversee the completion of the consumer relief requirements of the settlement. UBS continues to evaluate its approach toward satisfying the remaining consumer relief obligations. The aggregate amount of the consumer relief obligation increased after 2021 by 5% per annum of the outstanding amount due until these obligations are settled. The monitor publishes reports periodically on these consumer relief matters.

Civil litigation: Repurchase litigations – Credit Suisse affiliates are defendants in various civil litigation matters related to their roles as issuer, sponsor, depositor, underwriter and/or servicer of RMBS transactions. These cases currently include repurchase actions by RMBS trusts and/or trustees, in which plaintiffs generally allege breached representations and warranties in respect of mortgage loans and failure to repurchase such mortgage loans as required under the applicable agreements. The amounts disclosed below do not reflect actual realized plaintiff losses to date. Unless otherwise stated, these amounts reflect the original unpaid principal balance amounts as alleged in these actions.

DLJ Mortgage Capital, Inc. (DLJ) is a defendant in New York State court in five actions: An action brought by Asset Backed Securities Corporation Home Equity Loan Trust, Series 2006-HE7 alleges damages of not less than USD 374m. In December 2023, the court granted in part DLJ's motion to dismiss, dismissing with prejudice all notice-based claims; the parties have appealed. An action by Home Equity Asset Trust, Series 2006-8, alleges damages of not less than USD 436m. An action by Home Equity Asset Trust 2007-1 alleges damages of not less than USD 420m. Following a non-jury trial, the court issued a decision in December 2024 that the plaintiff established liability relating to certain of the loans at issue, and in May 2025, the court awarded damages of approximately USD 66m plus interest and costs. The parties have appealed the decision on liability. An action by Home Equity Asset Trust 2007-2 alleges damages of not less than USD 495m. An action by CSMC Asset-Backed Trust 2007-NC1 does not allege a damages amount.

5. ATA litigation

Since November 2014, a series of lawsuits have been filed against a number of banks, including Credit Suisse, in the US District Court for the Eastern District of New York (EDNY) and the SDNY alleging claims under the United States Anti-Terrorism Act (ATA) and the Justice Against Sponsors of Terrorism Act. The plaintiffs in each of these lawsuits are, or are relatives of, victims of various terrorist attacks in Iraq and allege a conspiracy and/or aiding and abetting based on allegations that various international financial institutions, including the defendants, agreed to alter, falsify or omit information from payment messages that involved Iranian parties for the express purpose of concealing the Iranian parties' financial activities and transactions from detection by US authorities. The lawsuits allege that this conduct has made it possible for Iran to transfer funds to Hezbollah and other terrorist organizations actively engaged in harming US military personnel and civilians. In January 2023, the Second Circuit affirmed a September 2019 ruling by the EDNY granting defendants' motion to dismiss the first filed lawsuit. In October 2023, the US Supreme Court denied plaintiffs' petition for a writ of certiorari. In February 2024, plaintiffs filed a motion to vacate the judgment in the first filed lawsuit. Of the other seven cases, four are stayed, including one that was dismissed as to Credit Suisse and most of the bank defendants prior to entry of the stay, and in three cases defendants moved to dismiss plaintiffs' amended complaints.

6. Customer account matters

Several clients have claimed that a former relationship manager in Switzerland had exceeded his investment authority in the management of their portfolios, resulting in excessive concentrations of certain exposures and investment losses. Credit Suisse AG has investigated the claims, as well as transactions among the clients. Credit Suisse AG filed a criminal complaint against the former relationship manager with the Geneva Prosecutor's Office upon which the prosecutor initiated a criminal investigation. Several clients of the former relationship manager also filed criminal complaints with the Geneva Prosecutor's Office. In February 2018, the former relationship manager was sentenced to five years in prison by the Geneva criminal court for fraud, forgery and criminal mismanagement and ordered to pay damages of approximately USD 130m. On appeal, the Criminal Court of Appeals of Geneva and, subsequently, the Swiss Federal Supreme Court upheld the main findings of the Geneva criminal court.

Civil lawsuits have been initiated against Credit Suisse AG and / or certain affiliates in various jurisdictions, based on the findings established in the criminal proceedings against the former relationship manager.

In Singapore, in a now-concluded civil lawsuit, Credit Suisse Trust Limited was ordered to pay USD 461m, including interest and costs.

In Bermuda, in the civil lawsuit brought against Credit Suisse Life (Bermuda) Ltd., the Supreme Court of Bermuda issued a judgment awarding damages of USD 607.35m to the plaintiff. Credit Suisse Life (Bermuda) Ltd. appealed the decision. In June 2023, the Bermuda Court of Appeal confirmed the award and the Supreme Court of Bermuda's finding that Credit Suisse Life (Bermuda) Ltd. breached its contractual and fiduciary duties, but overturned the finding that Credit Suisse Life (Bermuda) Ltd. made fraudulent misrepresentations. In March 2024, Credit Suisse Life (Bermuda) Ltd. was granted leave to appeal the judgment to the Judicial Committee of the Privy Council and a hearing on the appeal was held in June 2025. The Bermuda Court of Appeal also ordered that the current stay continue pending determination of the appeal on the condition that the damages awarded, plus interest calculated at the Bermuda statutory rate of 3.5%, remain in the escrow account.

In Switzerland, certain civil lawsuits have been commenced against Credit Suisse AG in the Court of First Instance of Geneva since March 2023.

7. Mozambique matter

Credit Suisse was subject to investigations by regulatory and enforcement authorities, as well as civil litigation, regarding certain Credit Suisse entities' arrangement of loan financing to Mozambique state enterprises, Proindicus S.A. and Empresa Moçambicana de Atum S.A. (EMATUM), a distribution to private investors of loan participation notes (LPN) related to the EMATUM financing in September 2013, and certain Credit Suisse entities' subsequent role in arranging the exchange of those LPNs for Eurobonds issued by the Republic of Mozambique. In 2019, three former Credit Suisse employees pleaded guilty in the EDNY to accepting improper personal benefits in connection with financing transactions carried out with two Mozambique state enterprises.

In October 2021, Credit Suisse reached settlements with the DOJ, the US Securities and Exchange Commission (SEC), the UK Financial Conduct Authority (FCA) and FINMA to resolve inquiries by these agencies, including findings that Credit Suisse failed to appropriately organize and conduct its business with due skill and care, and manage risks. Credit Suisse Group AG entered into a three-year Deferred Prosecution Agreement (DPA) with the DOJ in connection with the criminal information charging Credit Suisse Group AG with conspiracy to commit wire fraud and Credit Suisse Securities (Europe) Limited (CSSEL) entered into a Plea Agreement and pleaded guilty to one count of conspiracy to violate the US federal wire fraud statute. Under the terms of the DPA, UBS Group AG (as successor to Credit Suisse Group AG) continued compliance enhancement and remediation efforts agreed by Credit Suisse, and undertake additional measures as outlined in the DPA. In January 2025, as permitted under the terms of the DPA, the DOJ elected to extend the term of the DPA by one year.

8. ETN-related litigation

XIV litigation: Since March 2018, three class action complaints were filed in the SDNY on behalf of a putative class of purchasers of VelocityShares Daily Inverse VIX Short-Term Exchange Traded Notes linked to the S&P 500 VIX Short-Term Futures Index (XIV ETNs). The complaints have been consolidated and asserts claims against Credit Suisse for violations of various anti-fraud and anti-manipulation provisions of US securities laws arising from a decline in the value of XIV ETNs in February 2018. On appeal from an order of the SDNY dismissing all claims, the Second Circuit issued an order that reinstated a portion of the claims. In decisions in March 2023 and February 2025, the court granted class certification for two of the three classes proposed by plaintiffs and denied class certification of the third proposed class.

9. Bulgarian former clients matter

In December 2020, the Swiss Office of the Attorney General brought charges against Credit Suisse AG and other parties concerning the diligence and controls applied to a historical relationship with Bulgarian former clients who are alleged to have laundered funds through Credit Suisse AG accounts. In June 2022, following a trial, Credit Suisse AG was convicted in the Swiss Federal Criminal Court of certain historical organizational inadequacies in its anti-money-laundering framework and ordered to pay a fine of CHF 2m. In addition, the court seized certain client assets in the amount of approximately CHF 12m and ordered Credit Suisse AG to pay a compensatory claim in the amount of approximately CHF 19m. Credit Suisse AG appealed the decision to the Swiss Federal Court of Appeals. Following the merger of UBS AG and Credit Suisse AG, UBS AG confirmed the appeal. In November 2024, the court issued a judgment that acquitted UBS AG and annulled the fine and compensatory claim ordered by the first instance court. In February 2025, the court affirmed the acquittal of UBS AG, and the Office of the Attorney General has appealed the judgment to the Swiss Federal Supreme Court. UBS has also appealed, limited to the issue whether a successor entity by merger can be criminally liable for acts of the predecessor entity.

10. Archegos

Credit Suisse and UBS have received requests for documents and information in connection with inquiries, investigations and/or actions relating to their relationships with Archegos Capital Management (Archegos), including from FINMA (assisted by a third party appointed by FINMA), the DOJ, the SEC, the US Federal Reserve, the US Commodity Futures Trading Commission (CFTC), the US Senate Banking Committee, the Prudential Regulation Authority (PRA), the FCA, the WEKO, the Hong Kong Competition Commission and other regulatory and governmental agencies. UBS is cooperating with the authorities in these matters. In July 2023, CSI and CSSEL entered into a settlement agreement with the PRA providing for the resolution of the PRA's investigation. Also in July 2023, FINMA issued a decree ordering remedial measures and the Federal Reserve Board issued an Order to Cease and Desist. Under the terms of the order, Credit Suisse paid a civil money penalty and agreed to undertake certain remedial measures relating to counterparty credit risk management, liquidity risk management and non-financial risk management, as well as enhancements to board oversight and governance. UBS Group, as the legal successor to Credit Suisse Group AG, is a party to the FINMA decree and Federal Reserve Board Cease and Desist Order.

Civil actions relating to Credit Suisse's relationship with Archegos have been filed against Credit Suisse and/or certain officers and directors, including claims for breaches of fiduciary duties.

11. Credit Suisse financial disclosures

Credit Suisse Group AG and certain directors, officers and executives have been named in securities class action complaints pending in the SDNY and New Jersey federal court. These complaints, filed on behalf of purchasers of Credit Suisse shares, additional tier 1 capital notes, and other securities in 2023 and 2024, allege that defendants made misleading statements regarding: (i) customer outflows in late 2022 and early 2023; (ii) the adequacy of Credit Suisse's financial reporting controls; and (iii) the adequacy of Credit Suisse's risk management processes, and include allegations relating to Credit Suisse Group AG's merger with UBS Group AG. In July 2025, the SDNY certified the class in one case, and, in another case, brought on behalf of a second class, granted in part and denied in part a motion to dismiss.

Credit Suisse has received requests for documents and information from regulatory and governmental agencies in connection with inquiries, investigations and/or actions relating to these matters, as well as for other statements regarding Credit Suisse's financial condition, including from the SEC, the DOJ and FINMA. UBS is cooperating with the authorities in these matters.

12. Merger-related litigation

Certain Credit Suisse Group AG affiliates and certain directors, officers and executives have been named in class action complaints pending in the SDNY. One complaint, brought on behalf of Credit Suisse shareholders, alleges breaches of fiduciary duty under Swiss law and civil RICO claims under US federal law. In February 2024, the court granted defendants' motions to dismiss the civil RICO claims and conditionally dismissed the Swiss law claims pending defendants' acceptance of jurisdiction in Switzerland. In March 2024, having received consents to Swiss jurisdiction from all defendants served with the complaint, the court dismissed the Swiss law claims against those defendants. Additional complaints, brought on behalf of holders of Credit Suisse additional tier 1 capital notes (AT1 noteholders) allege breaches of fiduciary duty under Swiss law, arising from a series of scandals and misconduct, which led to Credit Suisse Group AG's merger with UBS Group AG, causing losses to shareholders and AT1 noteholders. Motions to dismiss these complaints were granted in March 2024 and September 2024 on the basis that Switzerland is the most appropriate forum for litigation. Plaintiffs in two of these cases have appealed the dismissal.

Appendix

Alternative performance measures

An alternative performance measure (an APM) is a financial measure of historical or future financial performance, financial position or cash flows other than a financial measure defined or specified in the applicable recognized accounting standards or in other applicable regulations. A number of APMs are reported in the discussion of the financial and operating performance of the external reports (annual, quarterly and other reports). APMs are used to provide a more complete picture of operating performance and to reflect management's view of the fundamental drivers of the business results. A definition of each APM, the method used to calculate it and the information content are presented in alphabetical order in the table below. These APMs may qualify as non-GAAP measures as defined by US Securities and Exchange Commission (SEC) regulations.

APM label	Calculation	Information content
Cost / income ratio (%)	Calculated as operating expenses divided by total revenues.	This measure provides information about the efficiency of the business by comparing operating expenses with total revenues.
Cost of credit risk (bps)	Calculated as total credit loss expense / (release) (annualized for reporting periods shorter than 12 months) divided by the average balance of lending assets for the reporting period, expressed in basis points. Lending assets include the gross amounts of Amounts due from banks and Loans and advances to customers.	This measure provides information about the total credit loss expense / (release) incurred in relation to the average balance of gross lending assets for the period.
Credit-impaired lending assets as a percentage of total lending assets, gross (%)	Calculated as credit-impaired lending assets divided by total lending assets. Lending assets includes the gross amounts of Amounts due from banks and Loans and advances to customers. Credit-impaired lending assets refers to the sum of stage 3 and purchased credit-impaired positions.	This measure provides information about the proportion of credit-impaired lending assets in the overall portfolio of gross lending assets.
Fee-generating assets (USD) – Global Wealth Management	Calculated as the sum of discretionary and nondiscretionary wealth management portfolios (mandate volume) and assets where generated revenues are predominantly of a recurring nature, i.e. mainly investment, mutual, hedge and private-market funds where we have a distribution agreement, including client commitments into closed-ended private-market funds from the date that recurring fees are charged. Assets related to our Global Financial Intermediaries business are excluded, as are assets of sanctioned clients.	This measure provides information about the volume of invested assets that create a revenue stream, whether as a result of the nature of the contractual relationship with clients or through the fee structure of the asset. An increase in the level of fee-generating assets results in an increase in the associated revenue stream. Assets of sanctioned clients are excluded from fee-generating assets.
Gross margin on invested assets (bps) – Asset Management	Calculated as total revenues (annualized for reporting periods shorter than 12 months) divided by average invested assets.	This measure provides information about the total revenues of the business in relation to invested assets.
Impaired loan portfolio as a percentage of total loan portfolio, gross (%) – Global Wealth Management, Personal & Corporate Banking	Calculated as impaired loan portfolio divided by total gross loan portfolio.	This measure provides information about the proportion of impaired loan portfolio in the total gross loan portfolio.
Integration-related expenses (USD)	Generally include costs of internal staff and contractors substantially dedicated to integration activities, retention awards, redundancy costs, incremental expenses from the shortening of useful lives of property, equipment and software, and impairment charges relating to these assets. Classification as integration-related expenses does not affect the timing of recognition and measurement of those expenses or the presentation thereof in the income statement. Integration-related expenses incurred by Credit Suisse also included expenses associated with restructuring programs that existed prior to the acquisition.	This measure provides information about expenses that are temporary, incremental and directly related to the integration of Credit Suisse into UBS.

APM label	Calculation	Information content
Invested assets (USD and CHF) – Global Wealth Management, Personal & Corporate Banking, Asset Management	Calculated as the sum of managed fund assets, managed institutional assets, discretionary and advisory wealth management portfolios, fiduciary deposits, time deposits, savings accounts, and wealth management securities or brokerage accounts.	This measure provides information about the volume of client assets managed by or deposited with UBS for investment purposes.
Net interest margin (bps) – Personal & Corporate Banking	Calculated as net interest income (annualized for reporting periods shorter than 12 months) divided by average loans.	This measure provides information about the profitability of the business by calculating the difference between the price charged for lending and the cost of funding, relative to loan value.
Net new assets (USD) – Global Wealth Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period, plus interest and dividends. Excluded from the calculation are movements due to market performance, foreign exchange translation, fees, and the effects on invested assets of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of invested assets during a specific period as a result of net new asset flows, plus the effect of interest and dividends.
Net new assets growth rate (%) – Global Wealth Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period (annualized for reporting periods shorter than 12 months), plus interest and dividends, divided by total invested assets at the beginning of the period.	This measure provides information about the growth of invested assets during a specific period as a result of net new asset flows.
Net new deposits (USD) – Global Wealth Management	Calculated as the net amount of inflows and outflows of deposits recorded during a specific period. Deposits include customer deposits and customer brokerage payables. Excluded from the calculation are movements due to fair value measurement, foreign exchange translation, accrued interest and fees, as well as the effects on customer deposits of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of deposits during a specific period as a result of net new deposit flows.
Net new fee-generating assets (USD) – Global Wealth Management	Calculated as the net amount of fee-generating asset inflows and outflows, including dividend and interest inflows into mandates and outflows from mandate fees paid by clients during a specific period. Excluded from the calculation are the effects on fee-generating assets of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of fee-generating assets during a specific period as a result of net flows, excluding movements due to market performance and foreign exchange translation, as well as the effects on fee-generating assets of strategic decisions by UBS to exit markets or services.
Net new loans (USD) – Global Wealth Management	Calculated as the net amount of originations, drawdowns and repayments of loans recorded during a specific period. Loans include loans and advances to customers and customer brokerage receivables. Excluded from the calculation are allowances, movements due to fair value measurement and foreign exchange translation, as well as the effects on loans and advances to customers of strategic decisions by UBS to exit markets or services.	This measure provides information about the development of loans during a specific period as a result of net new loan flows.
Net new money (USD) – Global Wealth Management, Asset Management	Calculated as the net amount of inflows and outflows of invested assets (as defined in UBS policy) recorded during a specific period. Excluded from the calculation are movements due to market performance, foreign exchange translation, dividends, interest and fees, as well as the effects on invested assets of strategic decisions by UBS to exit markets or services. Net new money is not measured for Personal & Corporate Banking.	This measure provides information about the development of invested assets during a specific period as a result of net new money flows.
Net profit growth (%)	Calculated as the change in net profit attributable to shareholders from continuing operations between current and comparison periods divided by net profit attributable to shareholders from continuing operations of the comparison period.	This measure provides information about profit growth since the comparison period.
Operating expenses (underlying) (USD)	Calculated by adjusting operating expenses as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses. › **Refer to the "Group performance" section of this report for more information**	This measure provides information about the amount of operating expenses, while excluding items that management believes are not representative of the underlying performance of the businesses.

APM label	Calculation	Information content
Operating profit / (loss) before tax (underlying) (USD)	Calculated by adjusting operating profit / (loss) before tax as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses. › **Refer to the "Group performance" section of this report for more information**	This measure provides information about the amount of operating profit / (loss) before tax, while excluding items that management believes are not representative of the underlying performance of the businesses.
Pre-tax profit growth (%) – Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank	Calculated as the change in net profit before tax attributable to shareholders from continuing operations between current and comparison periods divided by net profit before tax attributable to shareholders from continuing operations of the comparison period.	This measure provides information about pre-tax profit growth since the comparison period.
Pre-tax profit growth (underlying) (%) – Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank	Calculated as the change in net profit before tax attributable to shareholders from continuing operations between current and comparison periods divided by net profit before tax attributable to shareholders from continuing operations of the comparison period. Net profit before tax attributable to shareholders from continuing operations excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about pre-tax profit growth since the comparison period, while excluding items that management believes are not representative of the underlying performance of the businesses.
Recurring net fee income (USD and CHF) – Global Wealth Management, Personal & Corporate Banking	Calculated as the total of fees for services provided on an ongoing basis, such as portfolio management fees, asset-based investment fund fees and custody fees, which are generated on client assets, and administrative fees for accounts.	This measure provides information about the amount of recurring net fee income.
Return on attributed equity (%)	Calculated as business division operating profit before tax (annualized for reporting periods shorter than 12 months) divided by average attributed equity.	This measure provides information about the profitability of the business divisions in relation to attributed equity.
Return on common equity tier 1 capital (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average common equity tier 1 capital.	This measure provides information about the profitability of the business in relation to common equity tier 1 capital.
Return on equity (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders.	This measure provides information about the profitability of the business in relation to equity.
Return on tangible equity (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders less average goodwill and intangible assets.	This measure provides information about the profitability of the business in relation to tangible equity.
Revenues over leverage ratio denominator, gross (%)	Calculated as total revenues (annualized for reporting periods shorter than 12 months) divided by the average leverage ratio denominator.	This measure provides information about the revenues of the business in relation to the leverage ratio denominator.
Tangible book value per share (USD)	Calculated as equity attributable to shareholders less goodwill and intangible assets divided by the number of shares outstanding.	This measure provides information about tangible net assets on a per-share basis.
Total book value per share (USD)	Calculated as equity attributable to shareholders divided by the number of shares outstanding.	This measure provides information about net assets on a per-share basis.
Total revenues (underlying) (USD)	Calculated by adjusting total revenues as reported in accordance with IFRS Accounting Standards for items that management believes are not representative of the underlying performance of the businesses. › **Refer to the "Group performance" section of this report for more information**	This measure provides information about the amount of total revenues, while excluding items that management believes are not representative of the underlying performance of the businesses.
Transaction-based income (USD and CHF) – Global Wealth Management, Personal & Corporate Banking	Calculated as the total of the non-recurring portion of net fee and commission income, mainly composed of brokerage and transaction-based investment fund fees, and credit card fees, as well as fees for payment and foreign-exchange transactions, together with other net income from financial instruments measured at fair value through profit or loss.	This measure provides information about the amount of the non-recurring portion of net fee and commission income, together with other net income from financial instruments measured at fair value through profit or loss.
Underlying cost / income ratio (%)	Calculated as underlying operating expenses (as defined above) divided by underlying total revenues (as defined above).	This measure provides information about the efficiency of the business by comparing operating expenses with total revenues, while excluding items that management believes are not representative of the underlying performance of the businesses.

APM label	Calculation	Information content
Underlying net profit growth (%)	Calculated as the change in net profit attributable to shareholders from continuing operations between current and comparison periods divided by net profit attributable to shareholders from continuing operations of the comparison period. Net profit attributable to shareholders from continuing operations excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about profit growth since the comparison period, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on attributed equity (%)	Calculated as underlying business division operating profit before tax (annualized for reporting periods shorter than 12 months) (as defined above) divided by average attributed equity.	This measure provides information about the profitability of the business divisions in relation to attributed equity, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on common equity tier 1 capital (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average common equity tier 1 capital. Net profit attributable to shareholders excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about the profitability of the business in relation to common equity tier 1 capital, while excluding items that management believes are not representative of the underlying performance of the businesses.
Underlying return on tangible equity (%)	Calculated as net profit attributable to shareholders (annualized for reporting periods shorter than 12 months) divided by average equity attributable to shareholders less average goodwill and intangible assets. Net profit attributable to shareholders excludes items that management believes are not representative of the underlying performance of the businesses and also excludes related tax impact.	This measure provides information about the profitability of the business in relation to tangible equity, while excluding items that management believes are not representative of the underlying performance of the businesses.

This is a general list of the APMs used in our financial reporting. Not all of the APMs listed above may appear in this particular report.

Information related to underlying return on common equity tier 1 capital (RoCET1) and underlying return on tangible equity (%)

This is a general list of the abbreviations frequently used in our financial reporting. Not all of the listed abbreviations may appear in this particular report.

Information sources

Reporting publications

Annual publications

UBS Group Annual Report: Published in English, this report provides descriptions of: the Group strategy and performance; the strategy and performance of the business divisions and Group functions; risk, treasury and capital management; corporate governance; the compensation framework, including information about compensation for the Board of Directors and the Group Executive Board members; and financial information, including the financial statements.

"Auszug aus dem Geschäftsbericht": This publication provides a German translation of selected sections of the UBS Group Annual Report.

Compensation Report: This report discusses the compensation framework and provides information about compensation for the Board of Directors and the Group Executive Board members. It is available in English and German (*"Vergütungsbericht"*) and represents a component of the UBS Group Annual Report.

Sustainability Report: Published in English, the Sustainability Report provides disclosures on environmental, social and governance topics related to the UBS Group. It also provides certain disclosures related to diversity, equity and inclusion.

Quarterly publications

Quarterly financial report: This report provides an update on performance and strategy (where applicable) for the respective quarter. It is available in English.

The annual and quarterly publications are available in .pdf and online formats at *ubs.com/investors*, under "Financial information". Printed copies, in any language, of the aforementioned annual publications are no longer provided.

Other information

Website

The "Investor Relations" website at *ubs.com/investors* provides the following information about UBS: results-related news releases; financial information, including results-related filings with the US Securities and Exchange Commission (the SEC); information for shareholders, including UBS dividend and share repurchase program information, and for bondholders, including rating agencies reports; the corporate calendar; and presentations by management for investors and financial analysts. Information is available online in English, with some information also available in German.

Results presentations

Quarterly results presentations are webcast live. Recordings of most presentations can be downloaded from *ubs.com/presentations*.

Messaging service

Email alerts to news about UBS can be subscribed for under "UBS News Alert" at *ubs.com/global/en/investor-relations/contact/investor-services.html*. Messages are sent in English, German, French or Italian, with an option to select theme preferences for such alerts.

Form 20-F and other submissions to the US Securities and Exchange Commission

UBS files periodic reports with and submits other information to the SEC. Principal among these filings is the annual report on Form 20-F, filed pursuant to the US Securities Exchange Act of 1934. The filing of Form 20-F is structured as a wraparound document. Most sections of the filing can be satisfied by referring to the UBS Group AG Annual Report. However, there is a small amount of additional information in Form 20-F that is not presented elsewhere and is particularly targeted at readers in the US. Readers are encouraged to refer to this additional disclosure. Any document that is filed with the SEC is available on the SEC's website: *sec.gov*. Refer to *ubs.com/investors* for more information.

Cautionary statement regarding forward-looking statements | This report contains statements that constitute "forward-looking statements", including but not limited to management's outlook for UBS's financial performance, statements relating to the anticipated effect of transactions and strategic initiatives on UBS's business and future development and goals or intentions to achieve climate, sustainability and other social objectives. While these forward-looking statements represent UBS's judgments, expectations and objectives concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS's expectations. In particular, the global economy may suffer significant adverse effects from increasing political tensions between world powers, changes to international trade policies, including those related to tariffs and trade barriers, and ongoing conflicts in the Middle East, as well as the continuing Russia–Ukraine war. UBS's acquisition of the Credit Suisse Group has materially changed its outlook and strategic direction and introduced new operational challenges. The integration of the Credit Suisse entities into the UBS structure is expected to continue through 2026 and presents significant operational and execution risk, including the risks that UBS may be unable to achieve the cost reductions and business benefits contemplated by the transaction, that it may incur higher costs to execute the integration of Credit Suisse and that the acquired business may have greater risks or liabilities than expected. Following the failure of Credit Suisse, Switzerland is considering significant changes to its capital, resolution and regulatory regime, which, if adopted, would significantly increase our capital requirements or impose other costs on UBS. These factors create greater uncertainty about forward-looking statements. Other factors that may affect UBS's performance and ability to achieve its plans, outlook and other objectives also include, but are not limited to: (i) the degree to which UBS is successful in the execution of its strategic plans, including its cost reduction and efficiency initiatives and its ability to manage its levels of risk-weighted assets (RWA) and leverage ratio denominator (LRD), liquidity coverage ratio and other financial resources, including changes in RWA assets and liabilities arising from higher market volatility and the size of the combined Group; (ii) the degree to which UBS is successful in implementing changes to its businesses to meet changing market, regulatory and other conditions; (iii) inflation and interest rate volatility in major markets; (iv) developments in the macroeconomic climate and in the markets in which UBS operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, currency exchange rates, residential and commercial real estate markets, general economic conditions, and changes to national trade policies on the financial position or creditworthiness of UBS's clients and counterparties, as well as on client sentiment and levels of activity; (v) changes in the availability of capital and funding, including any adverse changes in UBS's credit spreads and credit ratings of UBS, as well as availability and cost of funding to meet requirements for debt eligible for total loss-absorbing capacity (TLAC); (vi) changes in central bank policies or the implementation of financial legislation and regulation in Switzerland, the US, the UK, the EU and other financial centers that have imposed, or resulted in, or may do so in the future, more stringent or entity-specific capital, TLAC, leverage ratio, net stable funding ratio, liquidity and funding requirements, heightened operational resilience requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration, constraints on transfers of capital and liquidity and sharing of operational costs across the Group or other measures, and the effect these will or would have on UBS's business activities; (vii) UBS's ability to successfully implement resolvability and related regulatory requirements and the potential need to make further changes to the legal structure or booking model of UBS in response to legal and regulatory requirements including heightened requirements and expectations due to its acquisition of the Credit Suisse Group; (viii) UBS's ability to maintain and improve its systems and controls for complying with sanctions in a timely manner and for the detection and prevention of money laundering to meet evolving regulatory requirements and expectations, in particular in the current geopolitical turmoil; (ix) the uncertainty arising from domestic stresses in certain major economies; (x) changes in UBS's competitive position, including whether differences in regulatory capital and other requirements among the major financial centers adversely affect UBS's ability to compete in certain lines of business; (xi) changes in the standards of conduct applicable to its businesses that may result from new regulations or new enforcement of existing standards, including measures to impose new and enhanced duties when interacting with customers and in the execution and handling of customer transactions; (xii) the liability to which UBS may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS, due to litigation, contractual claims and regulatory investigations, including the potential for disqualification from certain businesses, potentially large fines or monetary penalties, or the loss of licenses or privileges as a result of regulatory or other governmental sanctions, as well as the effect that litigation, regulatory and similar matters have on the operational risk component of its RWA; (xiii) UBS's ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors; (xiv) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xv) UBS's ability to implement new technologies and business methods, including digital services, artificial intelligence and other technologies, and ability to successfully compete with both existing and new financial service providers, some of which may not be regulated to the same extent; (xvi) limitations on the effectiveness of UBS's internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xvii) the occurrence of operational failures, such as fraud, misconduct, unauthorized trading, financial crime, cyberattacks, data leakage and systems failures, the risk of which is increased with persistently high levels of cyberattack threats; (xviii) restrictions on the ability of UBS Group AG, UBS AG and regulated subsidiaries of UBS AG to make payments or distributions, including due to restrictions on the ability of its subsidiaries to make loans or distributions, directly or indirectly, or, in the case of financial difficulties, due to the exercise by FINMA or the regulators of UBS's operations in other countries of their broad statutory powers in relation to protective measures, restructuring and liquidation proceedings; (xix) the degree to which changes in regulation, capital or legal structure, financial results or other factors may affect UBS's ability to maintain its stated capital return objective; (xx) uncertainty over the scope of actions that may be required by UBS, governments and others for UBS to achieve goals relating to climate, environmental and social matters, as well as the evolving nature of underlying science and industry and the increasing divergence among regulatory regimes; (xxi) the ability of UBS to access capital markets; (xxii) the ability of UBS to successfully recover from a disaster or other business continuity problem due to a hurricane, flood, earthquake, terrorist attack, war, conflict, pandemic, security breach, cyberattack, power loss, telecommunications failure or other natural or man-made event; and (xxiii) the effect that these or other factors or unanticipated events, including media reports and speculations, may have on its reputation and the additional consequences that this may have on its business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. UBS's business and financial performance could be affected by other factors identified in its past and future filings and reports, including those filed with the US Securities and Exchange Commission (the SEC). More detailed information about those factors is set forth in documents furnished by UBS and filings made by UBS with the SEC, including the UBS Group AG and UBS AG Annual Reports on Form 20-F for the year ended 31 December 2024. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages and percent changes disclosed in text and tables are calculated on the basis of unrounded figures. Absolute changes between reporting periods disclosed in the text, which can be derived from numbers presented in related tables, are calculated on a rounded basis.

Tables | Within tables, blank fields generally indicate non-applicability or that presentation of any content would not be meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis. Values that are zero on a rounded basis can be either negative or positive on an actual basis.

Websites | In this report, any website addresses are provided solely for information and are not intended to be active links. UBS is not incorporating the contents of any such websites into this report.

To the General Meeting of
UBS Group AG, Zurich

Basel, 14 March 2025

Report of the statutory auditor

Report on the audit of the financial statements

Opinion

We have audited the financial statements of UBS Group AG (the Company), which comprise the balance sheet as at 31 December 2024, the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements comply with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the "Auditor's responsibilities for the audit of the financial statements" section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the financial statements.

Shape the future with confidence

Valuation of investments in subsidiaries

Area of focus	As of 31 December 2024, the carrying amount of UBS Group AG's investments in subsidiaries is USD 73.3 billion. Investments in subsidiaries are equity interests that are held to carry on the business of UBS Group AG or for other strategic purposes. They include primarily investment in UBS AG, but also other significant subsidiaries directly held by UBS Group AG through which UBS Group AG conducts its business. The investments are generally measured individually and carried at cost less impairment. The carrying amount is tested for impairment annually, with the recoverable amount being determined using a net asset value. Due to the inherent uncertainties in valuing investments in subsidiaries, including forecasting and management's judgments, and considering the significance of the account we identified this area as a key audit matter.
Our audit response	Our audit procedures included the review of management's process over the valuation of investments in subsidiaries, including the impairment test. We obtained an understanding and evaluated the relevant controls addressing the identified risks and tested the design and operating effectiveness of these controls. Our focus was on controls over the review of the valuation models and the estimation of future cashflows as well as governance and oversight over management's valuation process. We assessed the appropriateness of the valuation methodology, taking into account the nature of the investment and the underlying business. We assessed the assumptions and methodologies used by management, to determine the recoverable amount of the investments in subsidiaries. We also assessed the relevant disclosures regarding investments in subsidiaries (within note 13 to the financial statements).

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Shape the future
with confidence

Board of Directors' responsibilities for the financial statements
The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTsuisse's website at: https://www.expertsuisse.ch/en/audit-report. This description forms an integral part of our report.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Based on our audit in accordance with Art. 728a para. 1 item 2 CO, we confirm that the proposals of the Board of Directors comply with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

Notes to the UBS Group AG standalone financial statements

Note 1 Corporate information

UBS Group AG is incorporated and domiciled in Switzerland, and its registered office is at Bahnhofstrasse 45, CH-8001 Zurich, Switzerland. UBS Group AG operates under Art. 620 et seq. of the Swiss Code of Obligations as an *Aktiengesellschaft* (a corporation limited by shares).

The UBS Group AG standalone financial statements are prepared in accordance with the principles of the Swiss law on accounting and financial reporting (32nd title of the Swiss Code of Obligations).

The significant accounting and valuation principles applied are described in Note 2.

UBS Group AG is the ultimate holding company of the UBS Group, the grantor of certain deferred compensation plans of UBS Group and the issuer of loss-absorbing capital notes, which qualify as Basel III additional tier 1 (AT1) capital on a consolidated UBS Group basis, and senior unsecured debt, which contributes to the total loss-absorbing capacity (TLAC) of the Group.

The proceeds from the issuances of loss-absorbing AT1 capital notes and TLAC-eligible senior unsecured debt instruments are on lent to UBS AG or were on lent to either UBS AG or Credit Suisse AG until the two entities merged on 31 May 2024.

› **Refer to Notes 15 and 17 for more information about the main terms and conditions of the loss-absorbing AT1 capital notes and TLAC-eligible senior unsecured debt instruments issued**

In addition, UBS Group AG grants Deferred Contingent Capital Plan (DCCP) awards to UBS Group employees. These DCCP awards also qualify as Basel III AT1 capital of the Group.

As of 31 December 2024, UBS Group AG's distributable items for the purpose of AT1 capital instruments were USD 64bn (CHF 58.1bn) (31 December 2023: USD 65.1bn (CHF 54.7bn)). For this purpose, distributable items are defined in the terms and conditions of the relevant instruments as the aggregate of (i) net profits carried forward and (ii) freely distributable reserves, in each case less any amounts that must be contributed to legal reserves under applicable law.

Note 2 Accounting policies

Foreign currency translation

Transactions denominated in foreign currency are translated into US dollars at the spot exchange rate on the date of the transaction. At the balance sheet date, all current assets and short-term liabilities, as well as *Financial assets* measured at fair value that are denominated in a foreign currency, are translated into US dollars using the closing exchange rate. For *Other non-current assets* and long-term liabilities, where the asset mirrors the terms of a corresponding liability or the asset and liability otherwise form an economic hedge relationship, the asset and liability are treated as one unit of account for foreign currency translation purposes, with offsetting unrealized foreign currency translation gains and losses based on the closing exchange rate presented net in the income statement. *Investments in subsidiaries* measured at historic cost are translated at the spot exchange rate on the date of a contribution. Currency translation effects from dividends paid in Swiss francs are recognized in equity. All other currency translation effects are recognized in the income statement.

The main currency translation rates used by UBS Group AG are provided in Note 32 in the "Consolidated financial statements" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*.

Presentation currencies

The primary presentation currency of the standalone financial statements of UBS Group AG is the US dollar, in line with its functional currency. Amounts in Swiss francs are also presented for each component of the financial statements. UBS Group AG applies the modified closing rate method for converting US dollar amounts into Swiss francs: assets and liabilities are translated at the closing rate, equity positions at historic rates, and income and expense items at the weighted average rate for the period. All resulting currency translation effects are recognized separately in *Voluntary earnings reserve*, amounting to a cumulative negative currency translation effect of CHF 2,137m as of 31 December 2024 (31 December 2023: negative CHF 6,397m).

Marketable securities

Marketable securities includes investments in alternative investment vehicles (AIVs) with a short-term holding period. The holding period is deemed short term if the vesting of the awards hedged by the AIV is within 12 months after the balance sheet date. These are equity instruments and are measured at fair value based on quoted market prices or other observable market prices as of the balance sheet date. Gains and losses resulting from fair value changes are recognized in *Financial income* and *Financial expenses,* respectively.

Financial assets

Financial assets includes investments in AIVs with a long-term holding period. The holding period is deemed long term if the vesting of the awards hedged by the AIV is more than 12 months after the balance sheet date. These are equity instruments and are measured at fair value based on their quoted market prices or other observable market prices as of the balance sheet date. Gains and losses resulting from fair value changes are recognized in *Financial income* and *Financial expenses,* respectively.

Financial assets also includes loans to and fixed-term deposits with UBS AG, as well as debt securities of UBS AG (initially issued by Credit Suisse AG), all with a remaining maturity of more than 12 months. The loans granted to UBS AG substantially mirror the terms of the perpetual AT1 capital notes and the TLAC-eligible senior unsecured debt instruments issued. The debt securities represent downstream funding that substantially mirrors the terms of TLAC-eligible senior unsecured debt instruments issued. These instruments are measured at cost value.

› **Refer to Note 14 for more information**

Derivative instruments

UBS Group AG uses derivative instruments to manage exposures to foreign currency risks from investments in foreign subsidiaries and exposures to interest rate risk from certain fixed-rate debt instruments. The derivative instruments are entered into with UBS AG, mirroring the conditions of the transactions that they enter into with third parties.

Derivative instruments are measured at fair value based on quoted market prices or other observable market prices as of the balance sheet date. Unrealized gains and losses are recognized on the balance sheet as *Accrued income and prepaid expenses* and *Accrued expenses and deferred income*, respectively. Corresponding gains and losses resulting from fair value changes are recognized in *Financial income* and *Financial expenses,* respectively.

Hedge accounting

UBS Group AG applies the following hedge accounting policies where requirements on risk management, documentation and effectiveness are met.

Fair value hedges of interest rate risk related to debt instruments
UBS Group AG designates certain fixed-rate issued debt instruments and fixed-to-floating interest rate derivatives as hedged items and hedging instruments, respectively, in fair value hedge accounting relationships. The hedged risk is determined as the change in the fair value of the issued debt instruments attributable to changes in the designated benchmark interest rates. The effective portion of gains and losses of the hedging instruments is deferred on the balance sheet as *Accrued income and prepaid expenses* or *Accrued expenses and deferred income*.

Hedge accounting for Investments in subsidiaries
UBS Group AG applies hedge accounting for certain investments in subsidiaries denominated in currencies other than the US dollar, which are designated as hedged items. For this purpose, foreign exchange (FX) derivatives, mainly FX forwards and FX swaps, are used and designated as hedging instruments. The hedged risk is determined as the change in the fair value of the hedged item arising solely from changes in spot FX rates. Consequently, UBS Group AG designates the spot element of the FX derivatives as hedging instruments. Changes in the fair value of the hedging instruments attributable to changes in forward points are not part of a hedge accounting designation and are recognized in *Financial income* or *Financial expenses* in the income statement. The effective portion of gains and losses of these FX derivatives is deferred on the balance sheet as *Accrued income and prepaid expenses* or *Accrued expenses and deferred income* to the extent no change is recognized in the carrying amount of the hedged item arising from changes in spot FX rates. Otherwise, the effective portion of gains and losses of these FX derivatives is matched with the corresponding valuation adjustments of the hedged item recorded in the income statement and recognized either as a reduction of *Impairment of investments in subsidiaries* or as *Extraordinary income*.

Investments in subsidiaries

Investments in subsidiaries are equity interests that are held to carry on the business of the UBS Group or for other strategic purposes. They include all subsidiaries directly held by UBS Group AG through which UBS conducts its business on a global basis. The investments are carried at cost less impairment and generally measured individually. As of 31 December 2023, the investments in UBS AG and Credit Suisse AG were combined as a valuation unit as these investments were economically closely interlinked and given the then-contemplated merger which became effective on 31 May 2024.

The carrying amount of an investment is tested for impairment when indicators of a potential decrease in value exist, which include significant operating losses incurred or a severe depreciation of the currency in which the investment is denominated. If an investment in a subsidiary is impaired, its value is generally written down to the recoverable amount. Subsequent recoveries in value can be recognized up to the original cost value if forecasts of future cash flows provide sufficient evidence that an increased recoverable amount is supported. Management may exercise its discretion as to what extent, and in which period, a recovery in value is recognized.

- **Refer to Note 3 and Note 13 for more information**
- **Refer to "Note 3a Segment reporting" in the "Consolidated financial statements" section of the UBS Group Annual Report 2024, available under "Annual reporting" at *ubs.com/investors*, for a description of businesses of the UBS Group**

Long-term interest-bearing liabilities

Long-term interest-bearing liabilities include perpetual loss-absorbing capital notes that qualify as Basel III AT1 capital and TLAC-eligible senior unsecured debt instruments at Group level. They are presented at nominal value. Any difference to nominal value, e.g. premium, discount or external costs that are directly related to the issue, is deferred as *Other non-current assets* or *Other long-term liabilities* and amortized to *Financial expenses* or *Financial income* over the maturity of the instrument or until the first call date or optional redemption date, where applicable.

- **Refer to Note 17 for more information**

Treasury shares

Treasury shares acquired by UBS Group AG are recognized at acquisition cost and are presented as a deduction from shareholders' equity.

Upon disposal of treasury shares or settlement of related share-based awards, any realized gain or loss is recognized in *Voluntary earnings reserve*. Realized gains and losses from settlement of share-based awards represent the difference between the acquisition cost of the UBS Group AG shares and the grant date fair value of the share-based awards. For the year ended 31 December 2024, a net loss of USD 322m (CHF 291m) from settlement of share-based awards was recognized in *Voluntary earnings reserve* (2023 comparative period: net loss of USD 207m (CHF 191m)).

For UBS Group AG shares acquired by a direct or indirect subsidiary, a *Reserve for treasury shares held by subsidiaries* is created in UBS Group AG's equity.

- **Refer to Note 20 for more information**

Share-based and other deferred compensation plans

Share-based compensation plans

The grant date fair value of equity-settled share-based compensation awards granted to employees is generally recognized over the vesting period of the awards. Awards granted by UBS Group AG in the form of UBS Group AG shares and notional shares are settled by delivering UBS Group AG shares at vesting, except in jurisdictions where this is not permitted for legal or tax reasons. They are recognized as *Compensation-related long-term liabilities* if vesting is more than 12 months after the balance sheet date, or as *Accrued expenses and deferred income* if vesting is within 12 months of the balance sheet date. The amount recognized is adjusted for forfeiture assumptions, such that the amount ultimately recognized is based on the number of awards that meet the related service conditions at the vesting date. The grant date fair value is based on the UBS Group AG share price on the date of grant, taking into consideration post-vesting sale and hedge restrictions, dividend rights, non-vesting conditions, and market conditions, where applicable.

Upon settlement of the share-based awards, any realized gain or loss on the treasury shares is recognized in *Voluntary earnings reserve*. Realized gains and losses from settlement of share-based awards represent the difference between the acquisition cost of the UBS Group AG shares and the grant date fair value of the share-based awards.

Note 2 Accounting policies (continued)

Other deferred compensation plans

Deferred compensation plans that are not share-based, including DCCP awards and awards in the form of AIVs, are accounted for as cash-settled awards. The present value or fair value of the amount payable to employees that is settled in cash is recognized as a liability generally over the vesting period, as *Compensation-related long-term liabilities* if vesting is more than 12 months after the balance sheet date, and as *Accrued expenses and deferred income* if vesting is within 12 months from the balance sheet date. The liabilities are remeasured at each balance sheet date at the present value of the corresponding DCCP award and the fair value of investments in AIVs. Gains and losses resulting from remeasurement of the liabilities are recognized in *Other operating income* and *Other operating expenses*, respectively.

Recharge of compensation expenses

Expenses related to deferred compensation plans are recharged by UBS Group AG to its subsidiaries employing the personnel. Upon recharge, UBS Group AG recognizes a receivable from its subsidiaries corresponding to a liability representing its obligation toward the employees.

Dispensations in the standalone financial statements

As UBS Group AG prepares consolidated financial statements in accordance with IFRS, UBS Group AG is exempt from various disclosures in the standalone financial statements. The dispensations include the management report and the statement of cash flows, as well as certain note disclosures.

Note 3 Acquisition of Credit Suisse Group AG

Acquisition of Credit Suisse Group AG

On 12 June 2023, UBS Group AG formally acquired Credit Suisse Group AG through merger by absorption. In the standalone financial statements of UBS Group AG, the acquisition has been applied retroactively as of 1 January 2023, whereby assets of USD 108,029m (CHF 99,850m), liabilities of USD 83,512m (CHF 77,189m) and equity of USD 24,517m (CHF 22,661m) were recognized. In exchange, the transferring shareholders obtained 176m shares of UBS Group AG previously held as treasury shares. In addition, contingent liabilities of USD 879m (CHF 812m) were assumed.

As part of acquisition accounting, UBS Group AG recorded an impairment of its investment in Credit Suisse AG of USD 21,855m (CHF 19,648m) for the difference between the book value of the assets and liabilities acquired (through merger by absorption of Credit Suisse Group AG as of 19 March 2023) and the fair value of UBS shares provided to the Credit Suisse Group AG shareholders as of 12 June 2023.

Investments in, and merger of UBS AG and Credit Suisse AG

On 31 May 2024, UBS AG completed the merger by absorption of Credit Suisse AG, and the historic cost value and the assigned book value of the two participations were merged.

As of 31 December 2023, the investments of UBS Group AG in both UBS AG and Credit Suisse AG were aggregated for impairment (reversal) testing purposes. Such an aggregation (i.e. "valuation unit") was permitted under the accounting rules applicable to UBS Group AG given that at this time UBS AG and Credit Suisse AG were closely interlinked due to the contemplated merger of these two entities. The applicable accounting rules also permitted the historic cost value for the investment in Credit Suisse AG, as per the former Credit Suisse Group AG standalone financial statements, to be combined with the cost value for the investment in UBS AG. The book value assigned to the investment in the combined entity (UBS AG and Credit Suisse AG) of USD 72,567m (CHF 61,079m) was below the cost value under these rules and below the recoverable amount determined as of 31 December 2023 by using a discounted cash flow model based on the business plan for the combined entity.

Write-off of additional tier 1 (AT1) instruments formerly issued by Credit Suisse Group AG

On 19 March 2023, as ordered by the Swiss Financial Market Supervisory Authority (FINMA), additional tier 1 (AT1) instruments formerly issued by Credit Suisse Group AG in a total amount of USD 17,317m (CHF 15,771m) were written off together with the corresponding internal AT1 instruments issued by Credit Suisse AG in a total amount of USD 16,319m (CHF 14,861m). These amounts are included in the income statement in *Extraordinary income* and *Extraordinary expenses*, respectively.

Note 7 Personnel expenses

Personnel expenses of USD 25m (CHF 22m) for the year ended 31 December 2024 included recharges from UBS AG and UBS Business solutions AG for personnel-related costs for activities performed by the personnel of those companies for the benefit of UBS Group AG.

Personnel expenses of USD 40m (CHF 36m) for the year ended 31 December 2023 included recharges from UBS AG and UBS Business Solutions AG of USD 20m (CHF 18m) for personnel-related costs for activities performed by the personnel of those companies for the benefit of UBS Group AG and personnel expenses of USD 20m (CHF 18m) for employees of the former Credit Suisse Group AG for the period from 1 January to 31 May 2023. The average number of employees (full-time equivalents) for this period was more than 50 but did not exceed 250.

UBS Group AG had no employees throughout 2024 and 2023. All employees of the UBS Group, including the members of the Group Executive Board (the GEB) of UBS Group AG, were employed by subsidiaries of UBS Group AG. As of 31 December 2024, the UBS Group employed 108,648 personnel (31 December 2023: 112,842) on a full-time equivalent basis.

Note 13 Investments in subsidiaries

Unless otherwise stated, the subsidiaries listed below have share capital consisting solely of ordinary shares, which are held by UBS Group AG or UBS AG. The proportion of ownership interest held is equal to the voting rights held by UBS Group AG or UBS AG. The country where the respective registered office is located is also the principal place of business. UBS AG operates through a global network of branches and a significant proportion of their business activity is conducted outside Switzerland, in the UK, the US, Singapore, the Hong Kong SAR and other countries. UBS Europe SE has branches and offices in a number of EU Member States, including Germany, France, Italy, Luxembourg and Spain. Share capital is provided in the currency of the legally registered office.

Individually significant subsidiaries of UBS Group AG as of 31 December 2024

1 Includes 2,709,430 shares held by Credit Suisse Group AG and its subsidiaries as of 1 January 2023, the date of the acquisition of Credit Suisse Group AG. Refer to Note 3 for more information. 2 In 2023, as approved by the Annual General Meeting held on 5 April 2023, the cancellation of 62,548,000 shares, each with a nominal value of CHF 0.10, purchased under the 2022 share repurchase program was executed. 3 In May 2023, 178,031,769 shares purchased under the 2022 share repurchase program and originally intended for cancellation purposes were repurposed for the acquisition of the Credit Suisse Group and 175,649,481 shares were transferred to the Credit Suisse Group shareholders in an exchange of shares as consideration for the acquisition of the Credit Suisse Group on 12 June 2023 (1 UBS Group AG share for 22.48 Credit Suisse AG shares). 4 Treasury shares held by UBS Group AG had a carrying value of USD 6,517m (CHF 6,141m) as of 31 December 2024 (31 December 2023: USD 5,013m (CHF 4,830m)).

Note 21 Assets pledged to secure own liabilities and assets subject to retention of title

As of 31 December 2024, total pledged assets of UBS Group AG amounted to USD 6,446m (CHF 5,854m). These assets consisted of certain liquid assets, marketable securities and financial assets and were pledged to UBS AG. As of 31 December 2023, total pledged assets of UBS Group AG amounted to USD 6,637m (CHF 5,586m). The associated liabilities secured by these pledged assets were USD 2,177m (CHF 1,977m) and USD 3,833m (CHF 3,226m) as of 31 December 2024 and 31 December 2023, respectively.

As of 31 December 2024, liquid assets in the amount of USD 5m were held in an escrow account.

Note 22 Contingent liabilities

As of 31 December 2024, total contingent liabilities of UBS Group AG amounted to USD 1,466m (CHF 1,331m). The contingent liabilities include indemnities, guarantees, letters of responsibility and letters of comfort issued for the benefit of subsidiaries and creditors of subsidiaries. In some instances the amount of exposure of UBS Group AG is not specified but relates to specific circumstances such as the solvency of subsidiaries, and therefore no related amount is included in the aforementioned figure. As of 31 December 2023, total contingent liabilities of UBS Group AG amounted to USD 1,470m (CHF 1,237m).

Joint and several liability – value-added tax

UBS Group AG is jointly and severally liable for the combined value-added tax (VAT) liability of UBS entities that belong to the VAT group of UBS in Switzerland.

Note 23 Share ownership of the members of the Board of Directors, the Group Executive Board and other employees

Shares awarded

	For the year ended 31.12.24			For the year ended 31.12.23		
	Number of shares	Value of shares in USD m[1]	Value of shares in CHF m[1]	Number of shares	Value of shares in USD m[1]	Value of shares in CHF m[1]
Awarded to members of the BoD	283,348	8	7	325,516	8	7
Awarded to members of the GEB	4,816,249	65	59	3,128,457	46	39
Awarded to other UBS Group employees	60,616,953	1,328	1,208	60,779,366	1,213	1,021
Total	65,716,549	1,401	1,274	64,233,339	1,267	1,067

1 Shares awarded to members of the BoD during 2024 for the period from the 2023 AGM to the 2024 AGM were valued at CHF 24.435 and shares awarded during 2023 for the period from the 2022 AGM to the 2023 AGM were valued at CHF 20.092 (average closing price of UBS shares over the last 10 trading days leading up to and including the grant date). Shares (including notional shares) awarded to members of the GEB in office during disclosed periods and other UBS Group employees were valued at weighted average grant date fair value (USD 25.93 for the year ended 31 December 2024 and USD 19.96 for the year ended 31 December 2023). Shares awarded under the Long Term Incentive Plan (LTIP) are shown at a value of 50% of the maximum opportunity for 2024 grants, as communicated to the participants. For comparability, the 2023 value shown in the table has been revised to reflect 71% of the maximum opportunity. For illustrative purposes, the value of the shares was converted at the closing exchange rates as of 31 December 2024 (CHF / USD 1.10) and 31 December 2023 (CHF / USD 1.19), accordingly.

Statement of proposed appropriation of total profit and dividend distribution out of total profit and capital contribution reserve

The Board of Directors (the BoD) proposes that the Annual General Meeting of Shareholders on 10 April 2025 approve the appropriation of total profit and an ordinary dividend distribution of USD 0.90 (gross) in cash per share of USD 0.10 nominal value under the terms set out below:

Appropriation of and distribution out of total profit

	USD m	CHF m
	For the year ended	For the year ended
	31.12.24	31.12.24
Net profit for the period	2,994	2,762
Profit / (loss) carried forward	0	0
Total profit available for appropriation	2,994	2,762
Appropriation to voluntary earnings reserve	(1,436)	(1,345)
Dividend distribution: USD 0.90 (gross) per dividend-bearing share, USD 0.45 of which out of total profit[1]	(1,558)	(1,416)[2]
Profit / (loss) carried forward	0	0

1 Dividend-bearing shares are all shares issued except for treasury shares held by UBS Group AG as of the record date. The amount of USD 1,558m presented is based on the total number of shares issued as of 31 December 2024. If the final total amount of the dividend is higher or lower, the difference will be balanced through the appropriation to the voluntary earnings reserve. 2 For illustrative purposes, converted at the closing exchange rate as of 31 December 2024 (CHF / USD 1.10).

Distribution out of capital contribution reserve

	USD m	CHF m
	For the year ended	For the year ended
	31.12.24	31.12.24
Statutory capital reserve, of which capital contribution reserve before proposed distribution	31,603	32,621
Dividend distribution: USD 0.90 (gross) per dividend-bearing share, USD 0.45 of which out of capital contribution reserve[1]	(1,558)	(1,416)[2]
Statutory capital reserve, of which capital contribution reserve after proposed distribution	30,045	31,204

1 Dividend-bearing shares are all shares issued except for treasury shares held by UBS Group AG as of the record date. The amount of USD 1,558m presented is based on the total number of shares issued as of 31 December 2024. 2 For illustrative purposes, converted at the closing exchange rate as of 31 December 2024 (CHF / USD 1.10).

As set out above, half of the ordinary dividend distribution of USD 0.90 (gross) in cash per share is payable out of total profit, and the other half is payable out of the capital contribution reserve. The portion of the dividend paid out of total profit will be subject to a 35% Swiss withholding tax.

The ordinary dividend distribution is declared in US dollars. Shareholders whose shares are held through SIX SIS AG will receive dividends in Swiss francs, based on a published exchange rate calculated up to five decimal places on the day prior to the ex-dividend date. Shareholders holding shares through DTC or directly registered in the US share register with Computershare will be paid dividends in US dollars.

In May 2024, the US changed its settlement practice from t+2, as common in Europe, to t+1, to reduce the risk between the execution and settlement of a trade. To align the two different settlement practices regarding the corporate event key dates, UBS decided to set the ex-dividend date on the NYSE one day later than on the SIX Swiss Exchange. Provided that the proposed dividend distribution out of the total profit and the capital contribution reserve is approved, the payment of USD 0.90 (or the Swiss franc equivalent) per share will be made on 17 April 2025 to holders of shares on the record date 16 April 2025 on the SIX Swiss Exchange and the NYSE. However, on the SIX Swiss Exchange, the shares will be traded ex-dividend as of 15 April 2025 and, accordingly, the last day on which the shares may be traded with entitlement to receive the dividend will be 14 April 2025. On the NYSE, the shares will be traded ex-dividend as of 16 April 2025, and the last day on which the shares may be traded with entitlement to receive the dividend will be 15 April 2025.

Cautionary statement | This report and the information contained herein are provided solely for information purposes, and are not to be construed as solicitation of an offer to buy or sell any securities or other financial instruments in Switzerland, the United States or any other jurisdiction. No investment decision relating to securities of or relating to UBS Group AG, UBS AG or their affiliates should be made on the basis of this report. Refer to UBS's most recent annual report on Form 20-F, quarterly reports and other information furnished to or filed with the US Securities and Exchange Commission (the SEC) on Form 6-K, available at *ubs.com/investors*, for additional information.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages and percent changes disclosed in text and tables are calculated on the basis of unrounded figures. Absolute changes between reporting periods disclosed in the text, which can be derived from numbers presented in related tables, are calculated on a rounded basis.

Tables | Within tables, blank fields generally indicate non-applicability or that presentation of any content would not be meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis. Values that are zero on a rounded basis can be either negative or positive on an actual basis.

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Outstanding.**

An institution in this group has an outstanding record of helping to meet the credit needs of its assessment area, including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

UBS Bank USA (BUSA) operated under one FDIC-approved Community Reinvestment Act (CRA) Strategic Plan (Plan) during the three-year evaluation period. The evaluation covers Plan years 2021, 2022, and 2023, from January 1, 2021 to December 31, 2023. Examiners did not identify any evidence of discriminatory or other illegal credit practices. Also, BUSA did not receive any complaints relating to its CRA performance. The following supports the overall CRA rating.

- BUSA exceeded the outstanding threshold for its new community development loans and investments goals in each of the three years evaluated.
- BUSA exceeded the outstanding threshold for its community development service hour goals in each of the three years evaluated.

DESCRIPTION OF INSTITUTION

BUSA is an industrial bank, established in 2003, with a single location in Salt Lake City, Utah. UBS Group AG is the ultimate parent company of BUSA. UBS Group AG is a global banking company headquartered in Zurich, Switzerland. UBS AG is a direct subsidiary of UBS Group AG. UBS AG is the parent company of UBS Americas Holding LLC and UBS Americas Inc. BUSA, UBS Financial Services Inc. (FSI), and UBS Securities LLC are direct subsidiaries of UBS Americas Inc. BUSA is a specialized entity that offers products and services to the client base of its affiliate, FSI, which are both owned by UBS Americas Inc.

In addition, certain operations of the bank are also conducted out of offices located in Weehawken, New Jersey; New York City, New York; Plano, Texas; and Jacksonville, Florida. The bank's customer base is sourced from the affiliate broker-dealer, FSI, which has offices located throughout the country. BUSA does not offer lending products to the general public.

In January 2022, the BUSA's main office location changed from 299 South Main Street, Suite 2275 to 95 State Street, Suite 2200 in Salt Lake City, Utah. This new location is less than one mile away from the previous location.

BUSA received an "Outstanding" CRA Rating based on Interagency Strategic Plan Examination Procedures at the previous FDIC CRA Performance Evaluation dated January 11, 2021.

The bank's primary lending product is securities-backed loans (SBLs), which are typically demand and/or uncommitted lines of credit, secured by the client's equity securities, fixed-income instruments, and other investments. BUSA also offers mortgage loans, credit cards, and commercial real estate loans to FSI's client base. While the bank's primary funding source is sweep accounts in the form of money market deposit accounts, the bank also offers certificates of deposit.

However, these deposits are considered brokered deposits. The bank has not opened or closed any branches and there have been no mergers or acquisitions since the previous CRA evaluation.

As of the September 30, 2023, Consolidated Reports of Condition and Income (Call Report), assets totaled $114.4 billion, with total loans of $85.6 billion, and total deposits of $91.0 billion. Since the previous evaluation, total assets, loans, and deposits increased by 31.0, 43.9, and 14.7 percent respectively.

The table below illustrates BUSA's loan product distribution as of September 30, 2023.

Loan Portfolio Distribution as of 9/30/2023		
Loan Category	**$(000s)**	**%**
Construction, Land Development, and Other Land Loans	1,192	0.0
Secured by Farmland	0	0.0
Secured by 1-4 Family Residential Properties	28,762,674	33.6
Secured by Multi-family (5 or more) Residential Properties	633,621	0.7
Secured by Nonfarm Non-Residential Properties	1,594,460	1.9
Total Real Estate Loans	**30,991,947**	**36.2**
Commercial and Industrial Loans	6,962,781	8.1
Agricultural Production and Other Loans to Farmers	3,431	0.0
Consumer Loans	36,551,895	42.7
Obligations of State and Political Subdivisions in the U.S.	0	0.0
Other Loans	11,106,801	13.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	**85,616,855**	**100.0**
Source: Reports of Condition and Income. Due to rounding totals may not equal 100.0 percent.		

Examiners did not identify any financial, legal, or other impediments that affect the bank's ability to meet the assessment area's credit needs.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more assessment areas in which its CRA performance will be evaluated. BUSA designated one assessment area in Utah, which includes the entirety of Salt Lake County, which is part of the larger Salt Lake City, UT MSA #41620. The assessment area has not changed since the previous evaluation.

Economic and Demographic Data

During the previous evaluation, the assessment area was composed of 212 census tracts (CTs) according to 2015 ACS data. Following the demographic changes implemented by the 2020 U.S Census, the assessment area is now composed of 251 CTs. The CTs reflect the following income

designations: 5 low-income tracts, 56 moderate-income tracts, 115 middle-income tracts, 71 upper-income tracts, and 4 tracts without an income designation.

The following table illustrates relevant demographic information of the assessment area.

Demographic Information of the Assessment Area						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**NA* % of #**
Geographies (Census Tracts)	251	2.0	22.3	45.8	28.3	1.6
Population by Geography	1,185,238	2.0	22.4	46.4	28.6	0.6
Housing Units by Geography	404,550	1.8	24.2	46.3	27.7	0.1
Owner-Occupied Units by Geography	258,905	0.7	17.9	47.6	33.9	0.0
Occupied Rental Units by Geography	124,419	4.0	36.4	44.6	14.7	0.2
Vacant Units by Geography	21,226	3.4	29.1	39.8	27.7	0.0
Businesses by Geography	210,543	2.1	16.2	44.6	36.2	0.9
Farms by Geography	3,231	1.5	18.4	44.0	35.7	0.3
Family Distribution by Income Level	265,385	17.8	19.1	23.4	39.7	0.0
Household Distribution by Income Level	383,324	21.1	17.3	20.4	41.2	0.0
Median Family Income MSA - 41620 Salt Lake City, UT MSA		$90,360	Median Housing Value			$347,355
			Median Gross Rent			$1,178
			Families Below Poverty Level			5.6%

Source: 2020 U.S. Census and 2023 D&B Data
Due to rounding, totals may not equal 100.0%
(*) The NA category consists of geographies that have not been assigned an income classification.

According to 2023 D&B demographic data, there are 210,543 non-farm businesses and 3,231 farm businesses in the assessment area. The D&B data reports that 33.6 percent of non-farm businesses are service-related entities, 30.5 percent are non-classifiable establishments, 14.2 percent are involved in finance, insurance, & real estate, and 7.5 percent are retail trade. The demographic data further reports that approximately 95.1 percent of businesses in the assessment area operate from a single location and that 60.0 percent of businesses employ between one to four workers.

Data from Moody's Data Analytics, Precis U.S. Metro (August 2023), details that the Salt Lake City metropolitan area labor market has cooled with net hiring slowing and strong gains only being made in the public sector. Moody's Data Analytics further reports that growth in average hourly earnings is above the national pace and near its all-time high. Moody's notes that the top employers in the area, in terms of number of employees, are the University of Utah, Intermountain Healthcare Inc., Walmart Inc., Zions Bancorp., and Delta Airlines.

The economy in the assessment area has recovered since the recession caused by the COVID-19 pandemic. According to the Bureau of Labor Statistics, the unemployment rate in Salt Lake County has remained generally consistent throughout the evaluation period. As demonstrated in the

following table, the unemployment rates in Salt Lake County were generally consistent with the State of Utah and below the national average during the evaluation period.

Unemployment Rates			
Area	**November 2021**	**November 2022**	**November 2023**
	%	**%**	**%**
Salt Lake County	2.0	2.1	2.6
State of Utah	2.0	2.2	2.6
National Average	3.9	3.4	3.5
Source: Bureau of Labor Statistics			

Competition

The assessment area is highly competitive for financial services. Salt Lake County contains several industrial banks and financial institutions. According to the FDIC Deposit Market Share data as of June 30, 2023, there are 47 financial institutions that operate 200 offices in the assessment area. Of these institutions, BUSA ranked 5th with a deposit market share of 10.5 percent. Morgan Stanley Bank, National Association, was the market share leader holding approximately 19.6 percent of the deposits.

Community Contact

As part of the examination process, examiners reviewed a community contact interview with a representative from an economic development organization that serves Salt Lake County. The organization focuses on creating prosperity and economic opportunity for county residents. The contact stated that while the local economy is doing very well, housing costs and the cost of living have both increased significantly. The contact further indicated that there is a housing shortage and particularly a shortage of affordable, multi-family housing units. While the contact indicated that local financial institutions were generally responsive to community credit needs, they also indicated that there are opportunities related to financing multi-family affordable housing projects and to provide technical support for small businesses.

Credit and Community Development Needs and Opportunities

Considering the information from the community contact, bank management, and demographic and economic data, examiners determined that affordable housing, economic development, and community services for LMI individuals are the primary needs of the community.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated January 11, 2021 through the current evaluation dated January 8, 2024. Examiners used Interagency Strategic Plan Examination Procedures to evaluate BUSA's CRA performance.

BUSA operated under one FDIC-approved strategic Plan during the evaluation period. The Plan was effective January 1, 2021 through December 31, 2023. This evaluation compares the bank's performance in 2021, 2022, and 2023 to the Plan's measurable goals.

Activities Reviewed

This evaluation reflects BUSA's CRA performance from January 1, 2021 through December 31, 2023. The following bank activities were reviewed under the three Plan years:

- New community development loans and investments
- Community development services

Examiners relied upon records provided by BUSA. Examiners evaluated the bank's performance with consideration of the following factors:

- Current economic environment
- Demographic characteristics of the assessment area
- Community development needs and opportunities for lending, investments, and services
- BUSA's products, services, markets, and business strategy
- BUSA's financial resources and constraints

For purposes of evaluating the Plan's measurable goals, management provided data on community development loans, qualified investments, grants and donations, and community development services during the evaluation period.

CONCLUSIONS ON PERFORMANCE CRITERIA

BUSA's performance under the approved Plan reflects outstanding performance in helping meet the credit needs in its assessment area in a manner consistent with the established goals in the Plan. The bank fully met the outstanding threshold for the goals established in the Plan. The following information summarizes the goals delineated in the Plan compared to the bank's actual performance from January 1, 2021, to December 31, 2023.

Community Development Lending and Investments

The bank established measurable goals for satisfactory and outstanding performance for new community development loans and qualified investments to include qualified grant and donations. The measurable goal is for new community development loans and investments divided by the average assets for the four quarters within the current Plan year. The bank's average assets is calculated by using line 9 of Schedule RC-K (Quarterly Averages) for the four quarters in that Plan year. The following table shows BUSA's actual performance compared to each measureable goal.

New Community Development Loans and Investments, Grants and Donations					
Plan Year	Bank Established Goals		Bank Performance		
	Satisfactory (%)	*Outstanding (%)*	Loans and Investments Total (000s)	Average Assets* (000s)	Actual Performance (%)
2021	0.30	0.40	$571,253	$98,924,593	0.58
2022	0.30	0.40	$503,223	$120,170,895	0.42
2023	0.30	0.40	$512,786	$114,510,618	0.45
Source: Call Reports, Bank Data, and Plan. **Quarterly Average Assets RC-K for the current Plan year.*					

As shown in the table above, BUSA exceeded its outstanding goal for all three years. In addition, BUSA met the community development needs within the assessment area, therefore, the nationwide community development activities were qualified since the bank is a wholesale institution for CRA purposes. The following are notable examples of community development loans and investments during the review period.

- BUSA renewed a $305.0 million line of credit each year during the evaluation period to a non-profit organization that provides financing to LMI first-time homebuyers. This organization focuses on Salt Lake County, but also serves the broader statewide area in Utah.
- BUSA renewed a commitment to a community development organization each year during the evaluation period for $35.0 million. In addition, the commitment was increased in 2021 from $30.0 million to the current $35.0 million. This organization facilitates the development and preservation of affordable housing and communities that serve LMI individuals and families in Salt Lake County and the broader statewide area of Utah.
- BUSA invested $25.0 million in Small Business Investment Companies (SBICs) in 2023. This is a new investment type for BUSA since the previous evaluation.
- BUSA purchased $20.4 million in 2021, $129.5 million in 2022, and $124.8 million in 2023 of mortgage backed securities secured by home purchased by LMI borrowers located in the regional area.
- BUSA also provided grants to community development organizations and initiatives in Salt Lake County totaling $2,257,261 in 2021, $768,699 in 2022, and $2,295,714 in 2023.

Community Development Services

BUSA's approved Plan established measurable goals for satisfactory and outstanding performance during the review period for community development services. The following table shows BUSA's actual performance compared to the Plan's goals.

Community Development Service Hours			
Plan Year	Bank Established Goals		Bank Performance
	Satisfactory	Outstanding	Service Hours
2021	310	434	559
2022	455	585	880
2023	585	650	832
Source: Bank Data and Plan.			

As shown in the table above, BUSA exceeded its outstanding goal in all three years. Employees participated in a number of activities in order to reach the Plan goals. Notable activities include financial literacy events at schools where the majority of students receive free- or reduced-lunches and board and committee roles for community development organizations operating in the assessment area.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners did not identify any discriminatory or other illegal credit practices during the evaluation period.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

(1) Support affordable housing for low- and moderate-income individuals;
(2) Target community services toward low- and moderate-income individuals;
(3) Promote economic development by financing small businesses or farms; or
(4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and

(ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

(1) Has as its primary purpose community development;

(2) Is related to the provision of financial services; and

(3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

(1) An unemployment rate of at least 1.5 times the national average;
(2) A poverty rate of 20 percent or more; or
(3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA):** All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Public Exhibit 8

Draft Form of Organization Certificate

Organization Certificate

We, the undersigned, a majority of the directors of UBS Bank USA, Salt Lake City, Utah, having been authorized by the affirmative vote of shareholders owning not less than 51 percent of its capital stock, or a greater amount if required by applicable federal or state law, to change and convert this institution to a national banking association, and to execute the necessary Organization Certificate and Articles of Association, under the provisions of the statutes of the United States, do sign and execute the following Organization Certificate:

FIRST. The title of the association shall be UBS Bank USA, National Association.

SECOND. The main office of the association shall be located in Salt Lake City, county of Salt Lake County, and state of Utah, where it shall conduct the general business of banking.

THIRD. The authorized amount of capital stock of this association shall be 1,000 shares of common stock of the par value of $1.00 each and 9,000 shares of perpetual preferred stock of the par value of $1.00 each.

FOURTH. The name and residence of each shareholder of the converting institution as listed on its records are:

Name	Residence (town or city and state)
UBS Americas, Inc.	New York City, New York

FIFTH. This certificate is made so that UBS Bank USA and its shareholders may avail ourselves of the advantages of the aforesaid provisions of the United States Code, as amended and that the converting institution may be changed and converted into a national banking association under the foregoing title. As witnesses, we have signed this document this [•] day of [•], [•].

☑ **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the fiscal year ended December 31, 2024

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

OR

☐ **SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

UBS Group AG

Commission file number: 1-36764

(Exact name of registrant as specified in its charter)

Switzerland

(Jurisdiction of incorporation or organization)

Bahnhofstrasse 45, CH-8001 Zurich, Switzerland

(Address of principal executive office)

Patrick T. Shilling, Esq.
11 Madison Ave.
New York, New York 10010
Telephone: 212-713-3685
(Name, Telephone, E-mail and/or Facsimile number and Address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol(s)	Name of each exchange on which registered
Ordinary Shares (par value of USD 0.10 each)	UBS	New York Stock Exchange

Securities registered or to be registered pursuant to Section 12(g) of the Act:
None.

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:
None.

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of 31 December 2024:

UBS Group AG
Ordinary shares, par value USD 0.10 per share:
3,462,087,722 ordinary shares
(including 287,262,471 treasury shares)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes ☐ No ☑

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes ☐ No ☑

Note — Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes ☑ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☑ Accelerated filer ☐ Non-accelerated filer ☐
Emerging growth company ☐

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards† provided pursuant to Section 13(a) of the Exchange Act. ☐

† The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☑

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP	International Financial Reporting Standards as issued by the International Accounting Standards Board	Other
☐	☑	☐

If “Other” has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 ☐ Item 18 ☐

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)

Yes ☐ No ☑

Cautionary Statement: Refer to the *Cautionary statement regarding forward-looking statements* section in the Annual Report 2024 (page 387).

Cross-reference table

Set forth below are the respective items of SEC Form 20-F, and the locations in this document where the corresponding information can be found.

- **Annual Report** refers to the Annual Report 2024 of UBS Group AG annexed hereto, which forms an integral part hereof.
- **Supplement** refers to certain supplemental information contained in this forepart of the Form 20-F, starting on page 11 following the cross-reference table.
- **Financial Statements** refers to the consolidated financial statements of UBS Group AG, contained in the Annual Report.

In the cross-reference table below, page numbers refer either to the Annual Report or the Supplement, as noted.

Please see page 9 of the Annual Report for definitions of terms used in this Form 20-F relating to UBS.

Form 20-F item	Response or location in this filing
Item 1. Identity of Directors, Senior Management and Advisors.	Not applicable.
Item 2. Offer Statistics and Expected Timetable.	Not applicable.
Item 3. Key Information	
B – Capitalization and Indebtedness.	Not applicable.
C – Reasons for the Offer and Use of Proceeds.	Not applicable.
D – Risk Factors.	Annual Report, *Risk factors* (50-63).
Item 4. Information on the Company.	
A – History and Development of the Company	1-3: Annual Report, *Corporate information* and *Contacts* (6). The registrants' agent is Patrick T. Shilling, 11 Madison Avenue, New York, New York 10010. 4: Annual Report, *Our evolution* (14); *Integration of Credit Suisse* (15-16); *Our strategy* (17-18); *Our businesses* (20-29); Note 29 to the Financial Statements (*Changes in organization and acquisitions and disposals of subsidiaries and businesses*) (362-363). 5-6: Annual Report, *Our businesses* (20-29), as applicable, Note 2 to the Financial Statements (*Accounting for the acquisition of the Credit Suisse Group*) (280-284), Note 12 to the Financial Statements (*Property, equipment and software)* (300), and Note 29 to the Financial Statements (*Changes in organization and acquisitions and disposals of subsidiaries and businesses*) (362-363). 7: Annual Report, *Integration of Credit Suisse* (15-16). Below item 10.C. 8: Annual Report, *Information sources* (386).
B – Business Overview.	1, 2 and 5: Annual Report, *Our strategy, business model and environment* (15-63), and Note 3a to the Financial Statements (*Segment reporting)* (284-286) and Note 3b to the Financial Statements (*Segment reporting by geographic location)* (287). See also Supplement (11). 3: Annual Report, *Seasonal characteristics* (71). 4: Not applicable. 6: None. 7: Information as to the basis for these statements normally accompanies the statements, except where marked in the report as a statement based upon publicly available information or internal estimates, as applicable. Annual Report, *Our businesses* (20-29), as applicable. 8: Annual Report, *Regulation and supervision* (41-46) and *Regulatory and legal developments* (46-49). Supplement (12).
C – Organizational Structure.	Annual Report, *Our evolution* (14) and Note 28 to the Financial Statements (*Interests in subsidiaries and other entities*) (359-362).

D – Property, Plant and Equipment.	Annual Report, *Property, plant and equipment* (373), Note 1a, 8) to the Financial Statements (*Summary of material accounting policies: Property, equipment and software*) (277), Note 12 to the Financial Statements (*Property, equipment and software)* (300).
Information required by SEC Regulation S-K Part 1400	Annual Report, *Information required by Subpart 1400 of Regulation S-K* (374-379), *Loss history statistics* (111-112), and Note 10 to the Financial Statements (*Financial assets at amortized cost and other positions in scope of expected credit loss measurement)* (294-298).
Item 4A. Unresolved Staff Comments.	None.
Item 5. Operating and Financial Review and Prospects.	
A – Operating Results.	1: Annual Report, *Our key figures* (8), *Targets, capital guidance and ambitions* (19), *Our businesses* (20-29), *Financial and operating performance* (64-86), *Income statement* (254), Note 1b to the Financial Statements (*Changes in accounting policies, comparability and other adjustments*) (279), Note 3a to the Financial Statements (*Segment reporting)* (284-286), and *Selected financial data* (272-273). The supporting disclosure notes to the Financial Statements provide further details around the components of revenue and expenses. 2: Not applicable 3: Annual Report, *Risk factors* (50-63), *Capital management* (137-146), *Currency Management* (157) and Note 25 to the Financial Statements (*Hedge Accounting)* (347-349). 4: Annual Report, *Our environment* (29-33), *Regulation and supervision* (41-46) and *Regulatory and legal developments* (46-49), *Accounting and financial reporting* (64), Note 1b to the Financial Statements (*Changes in accounting policies, comparability and other adjustments*) (279). A discussion on the results for the year 2023 compared with 2022 can be found on UBS annual report 2023 filed with the SEC in Form 20-F on March 28, 2024, under *Financial and operating performance* and under *Financial statements* of UBS Group AG.
B – Liquidity and Capital Resources.	1: Annual Report, *Risk factors* (50-63), *Financial and operating performance* (64-86), *Seasonal characteristics* (71), *Interest rate risk in the banking book* (117-119), *Capital, liquidity and funding, and balance sheet* (136-159), *Asset encumbrance* (152), Note 23 to the Financial Statements (*Restricted and transferred financial assets)* (341-344), Note 24 to the Financial Statements (*Maturity analysis of assets and liabilities*) (344-346) and Note 28 to the Financial Statements (*Interests in subsidiaries and other entities*) (359-362). Liquidity and capital management is undertaken at UBS as an integrated asset and liability management function. While we believe our 'working capital' is sufficient for the company's present requirements, it is our opinion that, as a bank, our liquidity coverage ratio (LCR) is the more relevant measure. For more information see, Annual Report, *Liquidity coverage ratio* (150). 2: Annual Report, *Capital, liquidity and funding, and balance sheet* (136-159), *Currency Management* (157), Note 11 to the Financial Statements (*Derivative instruments)* (298-300), Note 16 to the Financial Statements (*Debt issued designated at fair value)* (303), Note 17 to the Financial Statements (*Debt issued measured at amortized cost*) (304), Note 19 to the Financial Statements (*Other liabilities*) (313), and Note 25 to the Financial Statements (*Hedge Accounting*) (347-349). 3: Annual Report, *Material cash requirements* (156), *Liquidity and funding management* (148-151), Note 24 to the Financial Statements (*Maturity analysis of assets and liabilities*) (344-346), and Note 12 to the Financial Statements (*Property, equipment and software)* (300).
C—Research and Development, Patents and Licenses, etc.	Not applicable.
D—Trend Information.	Annual Report, *Our businesses* (20-29), *Our environment* (29-33), *Regulatory and legal developments* (46-49), *Risk factors* (50-63), *Financial and operating performance* (64-86), *Top and emerging risks* (89-90) and Note 2 to the Financial Statements (*Accounting for the acquisition of the Credit Suisse Group*) (280-284).
E—Critical Accounting Estimates	Not applicable.

Item 6. Directors, Senior Management and Employees.

A – Directors and Senior Management.	1, 2 and 3: Annual Report, *Board of Directors* (170-185) and *Group Executive Board* (186-194). 4, 5: None.
B – Compensation.	1: Annual Report, *Compensation* (199-242), Note 1a, 4) to the Financial Statements (*Share-based and other deferred compensation plans*) (275-276), Note 27 to the Financial Statements (*Employee benefits: variable compensation)* (355-358) and Note 30 to the Financial Statements (*Related parties)* (363-364). 2: Annual Report, *Compensation* (199-242), Note 26 to the Financial Statements (*Post-employment benefit plans)* (349-354).
C – Board practices.	1: Annual Report, *Board of Directors* (170-185). The term of office for members of the Board of Directors and its Chairman expires after completion of the next Annual General Meeting. The next UBS Group AG Annual General Meeting is scheduled on 10 April 2025. 2: Annual Report, *Board of Directors* (170-185), *Compensation* (199-242), *Clauses on change of control* (195), and Note 30 to the Financial Statements (*Related parties*) (363-364). 3: Annual Report, *Audit Committee* (179), *Compensation Committee* (180) and *Auditors* (195-197).
D—Employees.	Annual Report, *Employees* (36-38). In addition to seeking out employee feedback, we maintain an open dialogue with our formal employee representation groups. Our Human Rights Statement and our Code of Conduct and Ethics (the Code) outline our responsibility to respect the rights of our workers. The UBS European Employee Forum and the European Works Council, Credit Suisse Group AG include representatives from all European Union Member States where the UBS Group has a presence. They consider topics related to our performance and operations. Local works councils consider benefits, workplace conditions and redundancies, among other topics. Collectively, these groups represent approximately 52.0% (2023: 51.5%) of our global workforce. Where applicable, our operations are subject to collective bargaining agreements. Benefits are aligned with local markets and often go beyond legal requirements or market practice. UBS Group AG (consolidated) personnel by business division and Group functions:

	As of		
Full-time equivalents	**31.12.24**	**31.12.23**	**31.12.22**
Personnel (full-time equivalents)	108,648	112,842	72,597
Global Wealth Management	30,093	31,367	24,351
Personal & Corporate Banking	10,709	10,385	5,725
Asset Management	3,412	3,753	2,848
Investment Bank	11,235	11,305	9,177
Non-Core and Legacy	2,470	3,684	-
Group functions	50,728	52,348	30,497

Business divisions and Group functions information as of 31.12.23 has been restated to reflect changes in business division perimeters undertaken in the first quarter 2024.

Non-core and Legacy includes positions and businesses not aligned with our long-term strategy and risk appetite. It consists of selected assets and liabilities from the former Credit Suisse business divisions, as well as residual assets and liabilities from UBS's former Non-core and Legacy Portfolio that preceded the acquisition of the Credit Suisse Group and smaller amounts of assets and liabilities of UBS's business divisions that have been assessed as not strategic in light of the acquisition.

E—Share Ownership.	1 and 2: Annual Report, *Compensation* (199-242), Note 27 to the Financial Statements (*Employee benefits: variable compensation*) (355-358) and Note 30b to the Financial Statements (*Equity holdings of key management personnel*) (364).
F—Disclosure of a registrant's action to recover erroneously awarded compensation.	Not applicable.

C—Material Contracts.	The Terms & Conditions of the several series of capital instruments issued to date, and to be issued pursuant to Deferred Capital Contingent Plans, are exhibits 4.1 through 4.23 to this Form 20-F. These notes are described under *Swiss SRB total loss-absorbing capacity framework* on pages 138-140 of the Annual Report and *Our deferred compensation plans* on pages 220-221 of the Annual Report. The Asset Transfer Agreement by which certain assets and liabilities of UBS AG were transferred to UBS Switzerland AG is filed as Exhibit 4.24, and is described under *Joint liability of UBS AG and UBS Switzerland AG* on page 143 of the Annual Report. On 12 June 2023, UBS Group AG acquired Credit Suisse Group AG, succeeding by operation of Swiss law to all assets and liabilities of Credit Suisse Group AG, and became the direct or indirect shareholder of all of the former direct and indirect subsidiaries of Credit Suisse Group AG. The acquisition followed a request from the Swiss Federal Department of Finance, the Swiss National Bank and the Swiss Financial Market Supervisory Authority (FINMA) to both firms to duly consider this transaction in order to restore necessary confidence in the stability of the Swiss economy and banking system and to serve the best interests of the shareholders and stakeholders of UBS and Credit Suisse. As a result of further negotiations and supported by distinct government guarantees and measures, the firms subsequently entered into a merger agreement on 19 March 2023. Upon the completion of the acquisition, each outstanding registered Credit Suisse Group AG share converted to the right to receive, subject to the payment of certain fees to the Credit Suisse Depositary in the case of Credit Suisse American depositary shares (ADS), a merger consideration consisting of 1/22.48 UBS Group AG shares. In aggregate, Credit Suisse Group AG shareholders received 5.1% of the outstanding UBS Group AG shares on the acquisition date, with a purchase price of USD 3.7bn. UBS AG entered into a definitive merger agreement with Credit Suisse AG on 7 December 2023, which was filed as Exhibit 4.22 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023. Also, UBS Switzerland AG and Credit Suisse (Schweiz) AG entered into a merger agreement on 9 February 2024, which was filed as Exhibit 4.23 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023. The mergers described in these agreements were carried out with some procedural simplifications and without any consideration given that both companies were, at the time of merger, wholly-owned by the same parent entity. Upon completion on 31 May 2024 for UBS AG and on 1 July 2024 for UBS Switzerland AG, all assets and liabilities of Credit Suisse AG and Credit Suisse (Schweiz) AG, respectively, were transferred automatically to UBS AG and UBS Switzerland AG, respectively.

D—Exchange Controls.	Other than in relation to economic sanctions, there are no restrictions under the Articles of Association of UBS Group AG, nor under Swiss law, as presently in force, that limit the right of non-resident or foreign owners to hold UBS's securities freely. There are currently no Swiss foreign exchange controls or other Swiss laws restricting the import or export of capital by UBS or its subsidiaries, nor restrictions affecting the remittance of dividends, interest or other payments to non-resident holders of UBS securities. The Swiss federal government may impose sanctions on particular countries, regimes, organizations or persons which may create restrictions on exchange of control. A current list, in German, French and Italian, of such sanctions can be found at www.seco-admin.ch. UBS may also be subject to sanctions regulations from other jurisdictions where it operates imposing further restrictions.
E—Taxation.	Supplement (17-19).
F—Dividends and Paying Agents.	Not applicable.
G—Statement by Experts.	Not applicable.
H—Documents on Display.	UBS files periodic reports and other information with the Securities and Exchange Commission. You may read and copy any document that we file with the SEC on the SEC's website, *www.sec.gov*. Much of this information may also be found on the UBS website at *www.ubs.com/investors*.
I—Subsidiary Information.	Not applicable.
J—Annual Report to Security Holders	Not applicable
Item 11. Quantitative and Qualitative Disclosures About Market Risk.	
(a) Quantitative Information About Market Risk.	Annual Report, *Market risk* (112-121), *Total loss-absorbing capacity* (140-143), and *Currency management* (157).
(b) Qualitative Information About Market Risk.	Annual Report, *Market risk* (112-121), *Total loss-absorbing capacity* (140-143), and *Currency management* (157).
(c) Interim Periods.	Not applicable.
Item 12. Description of Securities Other than Equity Securities.	
A – Debt Securities	Not applicable.
B – Warrants and Rights	Not applicable.
C – Other Securities	Not applicable.
D – American Depositary Shares	Not applicable.
Item 13. Defaults, Dividend Arrearages and Delinquencies.	There has been no material default in respect of any indebtedness of UBS or any of its significant subsidiaries or any arrearages of dividends or any other material delinquency not cured within 30 days relating to any preferred stock of UBS Group AG or any of its significant subsidiaries.
Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.	None.
Item 15. Controls and Procedures.	
(a) Disclosure Controls and Procedures	Annual Report, *US disclosure requirements* (198), and Exhibit 12 to this Form 20-F.
(b) Management's Annual Report on Internal Control over Financial Reporting	Annual Report, *Management's report on internal control over financial reporting* (244).
(c) Attestation Report of the Registered Public Accounting Firm	Annual Report, *Reports of Independent Registered Public Accounting Firm* (245-253).
(d) Changes in Internal Control over Financial Reporting	None.
Item 16A. Audit Committee Financial Expert.	Annual Report, *Audit Committee* (179) and *Differences from corporate governance standards relevant to US-listed companies* (162). All Audit Committee members have accounting or related financial management expertise and, in compliance with the rules established pursuant to the US Sarbanes-Oxley Act of 2002, at least one member, the Chairperson Jeremy Anderson, qualifies as a financial expert.
Item 16B. Code of Ethics.	Annual Report, *Our Code of Conduct and Ethics* (41) UBS's Code of Conduct and Ethics (the Code) is published on our website under https://www.ubs.com/code.The Code does not include a waiver option, and no waiver from any provision of the Code was granted to any employee in 2024.

Item 16C. Principal Accountant Fees and Services.	Annual Report, *Auditors* (195-197). None of the non-audit services so disclosed were approved by the Audit Committee pursuant to paragraph (c) (7)(i)(C) of Rule 2-01 of Regulation S-X.
Item 16D. Exemptions from the Listing Standards for Audit Committees.	Not applicable.
Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers.	Annual Report, *Holding of UBS Group AG shares* (158-159), *Letter to Shareholders* (2-5).
Item 16F. Changes in Registrant's Certifying Accountant.	Not applicable.
Item 16G. Corporate Governance.	Annual Report, *Differences from corporate governance standards relevant to US-listed companies* (162), *Governance and Nominating Committee* (181).
Item 16H. Mine Safety Disclosure.	Not applicable.
Item 16I. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections	Not applicable.
Item 16J. Insider trading policies.	UBS has adopted the following policies governing the purchase, sale and other dispositions of its securities by its employees and senior management, implementing procedures designed to promote compliance with relevant insider trading rules and regulations: *UBS Group Global Policy on Personal Investment*, *UBS Group Pre-Clearance and Disclosure Requirements for Group Senior Management*, and *UBS Group Dealing in UBS Shares and UBS Long Term Debt Securities by UBS*. These are filed as Exhibits 11.1, 11.2 and 11.3 hereto.
Item 16K. Cybersecurity.	Annual Report, *Operational risks affect our business* (53-54), *Risk management and control* (89-135), *Board of Directors* (170-185), *Cybersecurity governance* (183), and *Group Executive Board* (186-194).
Item 17. Financial Statements.	Not applicable.
Item 18. Financial Statements.	Annual Report, *Financial statements* (243-368), *Significant regulated subsidiary and sub-group information* (369-370) and *Additional regulatory information* (371-379).
Item 19. Exhibits	Supplement (20-21).

Supplemental information

Item 4. Information on the Company
B – Business Overview

Item 4.B.2. Geographic breakdown of total revenues of UBS Group AG consolidated

UBS Group AG's Financial Statements are prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board and are stated in USD. The operating regions shown in the table below correspond to the regional management structure of UBS. The allocation of total revenues to these regions reflects, and is consistent with, the basis on which the business is managed and its performance is evaluated. These allocations involve assumptions and judgments that management considers to be reasonable and may be refined to reflect changes in estimates or management structure. The main principles of the allocation methodology are that client revenues are attributed to the domicile of the given client, and trading and portfolio management revenues are attributed to the country where the risk is managed. This revenue attribution is consistent with the mandate of the regional Presidents. Certain revenues, such as those related to Non-core and Legacy and Group Items, are included in the *Global* column.

For 2023, the allocation of total revenues by geographical region for Credit Suisse is not available on the same allocation basis as for the UBS Group and the cost to develop this information would have been excessive. Therefore, as permitted under IFRS 8, the respective information is not disclosed. UBS AG and Credit Suisse AG disclosed total revenues by geographical region in their 2023 annual reports according to their respective allocation methodologies.

[1] Predominantly related to the US. [2] Includes certain revenues in Asset Management and Global Wealth Management, that were not allocated to geographical regions. [3] For 2023, the allocation of total revenues by geographical region for Credit Suisse is not available on the same allocation basis as for the UBS Group and the cost to develop this information would have been excessive. Therefore, as permitted under IFRS 8, the respective information is not disclosed.

Disclosure Pursuant To Section 219 of the Iran Threat Reduction And Syrian Human Rights Act

Section 219 of the US Iran Threat Reduction and Syria Human Rights Act of 2012 (“ITRA”) added Section 13(r) to the US Securities Exchange Act of 1934, as amended (the “Exchange Act”) requiring each SEC reporting issuer to disclose in its annual and, if applicable, quarterly reports whether it or any of its affiliates have knowingly engaged in certain activities, transactions or dealings relating to Iran or with the Government of Iran or certain designated natural persons or entities involved in terrorism or the proliferation of weapons of mass destruction during the period covered by the report. The required disclosure may include reporting of activities not prohibited by US or other law, even if conducted outside the US by non-US affiliates in compliance with local law. Pursuant to Section 13(r) of the Exchange Act, we note the following for the period covered by this annual report:

UBS has a Group Sanctions Policy that prohibits transactions involving sanctioned countries, including Iran, and sanctioned individuals and entities. However, UBS Switzerland AG maintains one account involving the Iranian government under the auspices of the United Nations in Geneva after agreeing with the Swiss government that it would do so only under certain conditions. These conditions include that payments involving the account must: (1) be made within Switzerland; (2) be consistent with paying rent, salaries, telephone and other expenses necessary for its operations in Geneva; and (3) not involve any Specially Designated Nationals (SDNs) blocked or otherwise restricted under US or Swiss law. The corrected gross revenues for this UN-related account in 2023 were approximately USD 79,646 (CHF 67,022) and in 2022 approximately USD 24,540 (CHF 22,702). In 2024, the gross revenues for this UN-related account were approximately USD 87,553 (CHF 79,481). We do not allocate expenses to specific client accounts in a way that enables us to calculate net profits with respect to any individual account. UBS AG intends to continue maintaining this account pursuant to the conditions it has established with the Swiss Government and consistent with its Group Sanctions Policy.

As previously reported, UBS had certain outstanding legacy trade finance arrangements issued on behalf of Swiss client exporters in favor of their Iranian counterparties. In February 2012 UBS ceased accepting payments on these outstanding export trade finance arrangements and worked with the Swiss government who insured these contracts (Swiss Export Risk Insurance "SERV"). On December 21, 2012, UBS and the SERV entered into certain Transfer and Assignment Agreements under which SERV purchased all of UBS's remaining receivables under or in connection with Iran-related export finance transactions. Hence, the SERV is the sole beneficiary of said receivables. There was no financial activity involving Iran in connection with these trade finance arrangements in 2024, and no gross revenue or net profit.

In connection with these trade finance arrangements, UBS Switzerland AG has maintained one existing account relationship with an Iranian bank. This account was established prior to the US designation of this bank and maintained due to the existing trade finance arrangements. In 2007, following the designation of the bank pursuant to sanctions issued by the US, UN and Switzerland, the account was blocked under Swiss law and remained subject to blocking requirements until January 2016. Client assets as of 31 December 2024 were CHF 3,097.40. Gross revenues were USD 15 equivalent (CHF 14).

In addition to the above, during 2024, up until the merger with UBS AG, Credit Suisse AG processed a small number of de minimis payments related to the operation of Iranian diplomatic missions in Switzerland and related to fees for ministerial government functions such as issuing passports and visas. After the merger, UBS continued to process these payments originally associated with Credit Suisse. Processing these payments is permitted under Swiss law. Revenues and profits from these activities are not calculated but would be negligible.

Item 10. Additional Information.
B—Memorandum and Articles of Association.

Please see the Articles of Association of UBS Group AG (Exhibit 1.1 to this Form 20-F) and the Organization Regulations of UBS Group AG (Exhibit 1.2 to this Form 20-F).

Set forth below is a summary of the material provisions of the Articles of Association of UBS Group AG (the "Articles"), Organization Regulations of UBS Group AG (the "Organization Regulations") and relevant Swiss laws, in particular the Swiss Code of Obligations, relating to the ordinary shares of UBS Group AG (the "shares"). This description does not purport to be complete and is qualified in its entirety by references to Swiss law, including Swiss company law, and to the Articles and Organization Regulations.

The principal legislation under which UBS Group AG operates, and under which the shares are issued, is the Swiss Code of Obligations.

Shares and Shareholders
Shares

The shares are registered shares *(Namenaktien)* with a nominal value of USD 0.10 per share and are issued as uncertificated securities (*einfache Wertrechte*) (in the sense of the Swiss Code of Obligations). The shares are fully paid up, and there is no liability of shareholders to further capital calls by UBS Group AG. The shares rank *pari passu* in all respects with each other, including voting rights, entitlement to dividends, share of the liquidation proceeds in case of the liquidation of UBS Group AG, preemptive rights in the event of a share issue (*Bezugsrechte*) and advance subscription rights in the event of the issuance of equity-linked securities (*Vorwegzeichnungsrechte*).

The Articles provide that we may elect to print and deliver certificates for shares at any time. However, shareholders have no right to request the printing and delivery of certificates for shares or the conversion of the shares into another form.

Share Register

Swiss law distinguishes between registration with and without voting rights. Shareholders must be registered in our share register as shareholders with voting rights in order to vote (and assert or exercise other rights relating to voting rights) and participate in shareholders' meetings.

Swiss law and the Articles require UBS Group AG to keep a share register in which the name, address and nationality (or registered office in the case of legal entities) of the owners of the shares are recorded. The main function of the share register is to register shareholders entitled to vote (and assert or exercise other rights relating to voting rights) and participate in shareholders' meetings.

A shareholder will be registered in our share register with voting rights upon disclosure of its name, address and nationality (or registered office in the case of legal entities). However, we may decline a registration with voting rights if the shareholder does not declare that it has acquired the shares in its own name and for its own account. If the shareholder refuses to make such declaration, it will be registered in our share register as a shareholder without voting rights.

In order to register shares in our share register, a shareholder must file a share registration form with the share register. Failing such registration, a shareholder may not vote at or participate in shareholders' meetings, but will be entitled to receive dividends and other rights with financial value, such as preemptive rights in the event of a share issue (*Bezugsrechte*) and advance subscription rights in the event of the issuance of equity-linked securities (*Vorwegzeichnungsrechte*), and its share of liquidation proceeds. Shareholders registered in our share register may at any time request from us a confirmation of the shares that they hold according to our share register.

UBS Group AG's share register is kept by UBS Shareholder Services, P.O. Box, 8098 Zurich, Switzerland. UBS Shareholder Services is responsible for the registration of the shares. The share register is split into two parts – a Swiss register, which is maintained by UBS Group AG, acting as Swiss share registrar, and a US register, which is maintained by Computershare Trust Company NA, c/o Computershare Investor Services, P.O. Box 505000, Louisville, KY 40233-5000, United States, acting as US transfer agent.

Transfer of Shares

The transfer of shares constituting intermediated securities (*Bucheffekten*) (within the meaning of the Swiss Federal Intermediated Securities Act) is effected by entries in securities accounts in accordance with applicable law. The transfer of shares that do not constitute intermediated securities is effected by way of a written declaration of assignment and may require notice to UBS Group AG.

Shareholders' Meetings

A shareholders' meeting is convened by the Board of Directors (the "BoD") or, if necessary, by the company's statutory auditors upon notification of the shareholders at least 20 days prior to such meeting. An invitation to any shareholders' meeting will be published in the Swiss Official Gazette of Commerce. The Articles do not require a minimum number of shareholders to be present in order to hold a shareholders' meeting.

Unless otherwise provided by Swiss law or the Articles (as indicated below), resolutions require the approval of a majority of the votes represented, excluding blank and invalid ballots, at a shareholders' meeting in order to be passed.

Under Swiss corporate law (or Swiss banking law, as the case may be), a resolution passed at a shareholders' meeting with the approval of at least two-thirds of the votes, and a majority of the aggregate nominal value of shares, in each case represented at such meeting is required in order to approve:

- A change in the corporation's stated purpose in its articles of association;
- The consolidation of shares, unless the consent of all the shareholders concerned is required;
- The restriction or exclusion of preemptive rights in the event of a share issue (*Bezugsrechte*);
- The conversion of participation certificates into shares;
- The introduction of shares with preferential voting rights;
- Any restriction on the transferability of registered shares;
- Any change in the currency of the share capital;
- The introduction of a casting vote for the person chairing the shareholders' meeting;
- A provision of the articles of association on holding the shareholders' meeting abroad;
- The delisting of the equity securities of the corporation;
- The creation of conditional capital, the introduction of a capital band or, in accordance with Swiss banking law, the introduction of reserve capital;
- An increase in share capital in consideration of contributions in kind, or by off-set of a claim, or involving the granting of special privileges, or from the transformation of reserves into share capital;
- A change of domicile of the corporation;
- The introduction of an arbitration clause in the articles of association;
- Dissolution of the corporation.

Under the Articles, a resolution passed at a shareholders' meeting with the approval of at least two-thirds of the votes represented at such meeting is required in order to approve:

- A change to the provisions in the Articles regarding the number of members of the BoD;
- Removal of one-quarter or more of the members of the BoD; or
- The deletion or modification of the provision of the Articles establishing these supermajority requirements.

At shareholders' meetings, a shareholder can be represented by a legal representative or under a written power of attorney by a proxy who does not need to be a shareholder or, under a written or electronic power of attorney, by the independent proxy. Votes and elections are generally conducted electronically to ascertain the exact number of votes cast. Voting by a show of hands is possible if a clear majority is predictable. Shareholders representing at least 3% of the votes represented may always request that a vote or election take place electronically or by a written ballot.

Net Profits and Dividends

Swiss law requires that at least 5% of the annual net profits of a corporation must be retained and booked as statutory retained earnings until these retained earnings equal, together with the corporation's statutory capital reserve, no less than 50% of the corporation's share capital registered in the commercial register. Holding companies, such as UBS Group AG, must increase their statutory retained earnings until these equal, together with their statutory capital reserve, no less than 20% of the holding company's share capital registered in the commercial register. Any remaining net profit of the corporation may be allocated, subject to the provisions of the Swiss Code of Obligations and of the Swiss Banking Act, by the shareholders represented at the applicable shareholders' meeting.

Under Swiss law, dividends may be paid by a corporation only if, based on its audited standalone statements prepared in accordance with Swiss law, the corporation has sufficient distributable profits from the previous financial years or if the reserves of the corporation are sufficient to allow distribution of a dividend. In either event, dividends may be paid by the corporation only after approval by the shareholders' meeting. The BoD may propose to the shareholders that a dividend be paid, but cannot itself set the dividend. The corporation's statutory auditors must confirm that any dividend proposal of the BoD is in accordance with Swiss law and the corporation's articles of association.

Dividends are usually due and payable after the shareholders' resolution relating to the allocation of profits has been passed. Under Swiss law, the statute of limitations in respect of dividend payments is five years.

Preemptive and Advance Subscription Rights

Under Swiss law, any share issue, whether for cash or non-cash consideration or for no consideration, is subject to the prior approval of the shareholders' meeting. Existing shareholders of a Swiss corporation have certain preemptive rights in the event of a share issue (*Bezugsrechte*) and advance subscription rights in the event of the issuance of equity-linked securities (*Vorwegzeichnungsrechte*) to subscribe for the new shares or equity-linked securities, as the case may be, in proportion to the nominal amount of shares held. However, the articles of association of the corporation or a resolution approved at a shareholders' meeting by at least two-thirds of the votes and a majority of the aggregate nominal value of the shares, in each case represented at the meeting, may limit or exclude such preemptive or advance subscription rights in certain limited circumstances.

Notices

Notices to shareholders are made by publication in the Swiss Official Gazette of Commerce. The BoD may designate further means of communication for publishing notices to shareholders.

Mandatory Tender Offer

Under the applicable provisions of the Swiss Financial Market Infrastructure Act, anyone who directly or indirectly or acting in concert with third parties acquires more than 33 1/3% of the voting rights (whether exercisable or not) of a Swiss-listed company will have to submit a takeover bid to acquire all other listed equity securities of such company. A waiver from the mandatory bid rule may be granted by the Swiss Takeover Board or the Swiss Financial Market Supervisory Authority FINMA. If no waiver is granted, the mandatory takeover bid must be made pursuant to the procedural rules set forth in the Swiss Financial Market Infrastructure Act and its implementing ordinances.

Board of Directors

Borrowing Power

Neither Swiss law nor the Articles restrict in any way our power to borrow and raise funds, provided that any such borrowing is entered into on arms' length terms.

UBS Group AG, as a listed company, may grant loans to members of its BoD based on the Articles. The Articles restrict UBS Group AG's ability to grant loans to BoD members as follows: First, loans to the independent members of the BoD shall be made in accordance with the customary business and market conditions. Second, loans to the non-independent members of the BoD shall be made in the ordinary course of business on substantially the same terms as those granted to UBS employees. Third, the total amount of such loans shall not exceed CHF 20m per member.

Conflicts of Interests

Swiss law requires directors and members of senior management to inform the BoD immediately and comprehensively of any conflicts of interest affecting them. The BoD then has to take the measures required to safeguard the interests of the corporation. Directors and officers are personally liable to the corporation for any breach of these provisions. In addition, Swiss law contains a provision under which payments made to a shareholder, a director, a person involved in the corporation's management activities and a member of the advisory board or any person associated therewith, other than at arm's length, must be repaid to the corporation if they were unduly taken.

In addition, the Organization Regulations provide that the member of the BoD or senior management with a conflict of interest shall participate in discussions and a double vote (meaning a vote with and a vote without the conflicted individual) shall take place. A binding decision on the matter requires the same outcome in both votes. This is subject to exceptional circumstances in which the best interests of UBS dictate that the member of the BoD or senior management with a conflict of interest shall not participate in the discussions and decision-making involving the interest at stake.

Retirement of Board Members

There is no age-limit requirement for retirement of the members of the BoD. The term of office for each BoD member is until the next annual general meeting of shareholders, and no BoD member may serve for more than 10 consecutive terms of office. In exceptional circumstances the BoD can extend this limit.

The Company
Repurchase of Shares

Swiss law limits a corporation's ability to hold or repurchase its own shares. We and our subsidiaries may repurchase shares only if and to the extent that (i) we have freely distributable reserves in the amount of the purchase price and (ii) the aggregate nominal value of all shares held by us and our subsidiaries does not exceed 10% of our nominal share capital (or 20% of our nominal share capital in specific circumstances). Repurchases for cancellation purposes approved by the shareholders' meeting are not subject to the 10% threshold for own shares within the meaning of article 659 paragraph 2 of the Swiss Code of Obligations. We must create a special reserve in our standalone financial statements prepared in accordance with Swiss law in the amount of the purchase price of any repurchased shares. Furthermore, in our consolidated financial statements, own shares are recorded at cost and reported as treasury shares, resulting in a reduction in total shareholders' equity. Shares held by us or any of our subsidiaries do not carry any rights to vote at shareholders' meetings.

Sinking Fund Provisions

There are no provisions in Swiss law or in the Articles requiring us to put resources aside for the exclusive purpose of redeeming bonds or repurchasing shares.

Registration and Business Purpose

UBS Group AG was incorporated and registered as a corporation limited by shares (*Aktiengesellschaft*) under the laws of Switzerland. UBS Group AG was entered into the commercial register of Canton Zurich on June 10, 2014 under the registration number CHE-395.345.924 and has its registered domicile in Zurich, Switzerland. The business purpose of UBS Group AG, as set forth in article 2 of the Articles, is the acquisition, holding, management and sale of direct and indirect participations in enterprises of any kind, in particular in the area of banking, financial, advisory, trading and service activities in Switzerland and abroad. UBS Group AG may establish enterprises of any kind in Switzerland and abroad, hold equity interests in these companies, and conduct their management. UBS Group AG is authorized to acquire, mortgage and sell real estate and building rights in Switzerland and abroad. UBS Group AG may provide loans, guarantees and other types of financing and security for group companies and borrow and invest capital on the money and capital markets.

Duration and Liquidation

UBS Group AG has an unlimited duration.

Under Swiss law, we may be dissolved at any time by way of liquidation or in the case of a merger in accordance with the Swiss Federal Act on Merger, Demerger, Transformation of Assets of October 3, 2003, as amended, based on a resolution passed at a shareholders' meeting with the approval of at least two-thirds of the votes, and a majority of the aggregate nominal value of shares, in each case represented at such meeting. As UBS Group AG is the Swiss parent of a financial group, the Swiss Financial Market Supervisory Authority FINMA is the only competent authority to open restructuring or liquidation (bankruptcy) proceedings with respect to UBS Group AG.

Under Swiss law, any surplus arising out of a liquidation (after the settlement of all claims of all creditors) must be used first to repay the nominal share capital of UBS Group AG. Thereafter, any balance must be distributed to shareholders in proportion to the paid-up nominal value of shares held.

Other

Ernst & Young Ltd, Aeschengraben 27, 4051 Basel, Switzerland, PCAOB number 1460, have been appointed as statutory auditors and as auditors of the consolidated accounts of UBS Group AG. The auditors are subject to election each year by the shareholders at the annual general meeting.

E—Taxation.

This section outlines the material Swiss tax and US federal income tax consequences of the ownership of UBS Group AG's ordinary shares (defined as "UBS ordinary shares " in this section) by a US holder (as defined below) who holds UBS ordinary shares as capital assets. This discussion addresses only US federal income taxation and Swiss income and capital taxation and does not discuss all of the tax consequences that may be relevant to holders in light of their individual circumstances, including other foreign tax consequences, state or local tax consequences, estate and gift tax consequences, and tax consequences arising under the Medicare contribution tax on net investment income or the alternative minimum tax. It is designed to explain the major interactions between Swiss and US taxation for US persons who hold UBS ordinary shares.

The discussion does not address the tax consequences to persons who hold UBS ordinary shares in particular circumstances, such as tax-exempt entities, banks, financial institutions, life insurance companies, broker-dealers, traders in securities that elect to use a mark-to-market method of accounting for securities holdings, holders that actually or constructively own 10% or more of the total combined voting power of the voting stock of UBS Group AG or of the total value of stock of UBS Group AG, holders that hold UBS ordinary shares as part of a straddle or a hedging or conversion transaction, holders that purchase or sell UBS ordinary shares as part of a wash sale for tax purposes or holders whose functional currency for US tax purposes is not the US dollar. This discussion also does not apply to holders who acquired their UBS ordinary shares through a tax-qualified retirement plan, nor generally to unvested UBS ordinary shares held under deferred compensation arrangements.

If a partnership (or other entity treated as a partnership for US federal income tax purposes) holds UBS ordinary shares, the US federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the UBS ordinary shares should consult its tax advisor with regard to the US federal income tax treatment of an investment in the ordinary shares.

The discussion is based on the tax laws of Switzerland and the United States, including the US Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, as in effect on the date of this document, as well as the Convention between the United States of America and the Swiss Confederation for the Avoidance of Double Taxation with Respect to Taxes on Income (the “Treaty”), all of which may be subject to change or change in interpretation, possibly with retroactive effect.

For purposes of this discussion, a “US holder” is any beneficial owner of UBS ordinary shares that is for US federal income tax purposes:

- A citizen or resident of the United States;
- A domestic corporation or other entity taxable as a corporation;
- An estate, the income of which is subject to US federal income tax without regard to its source; or
- A trust, if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more US persons have the authority to control all substantial decisions of the trust.

Holders of UBS ordinary shares are urged to consult their tax advisors regarding the US federal, state and local and the Swiss and other tax consequences of owning and disposing of these shares in their particular circumstances.

(a) Ownership of UBS Ordinary Shares - Swiss Taxation

Dividends and Distributions
Dividends paid by UBS Group AG to a holder of UBS ordinary shares (including dividends on liquidation proceeds and stock dividends) are in principle subject to a Swiss federal withholding tax at a rate of 35%.

Under the Capital Contribution Principle, the repayment of capital contributions, including share premiums made by the shareholders after December 31, 1996 is in principle not subject to Swiss withholding tax if certain requirements regarding the booking of these capital contributions are met.

Swiss companies listed on a Swiss stock exchange such as UBS Group AG can repay reserves from capital contributions to their shareholders without deduction of Swiss withholding tax only if they distribute at least the same amount of taxable dividends. For this reason UBS Group AG pays half of the dividend from capital contribution reserves and half of the dividend from taxable dividends which is subject to 35% Swiss withholding tax.

A US holder resident in the US that qualifies for Treaty benefits may apply for a refund of the withholding tax withheld in excess of the 15% Treaty rate (or for a full refund in case of qualifying retirement arrangements). The claim for refund must be filed with the Swiss Federal Tax Administration, Eigerstrasse 65, CH-3003 Berne, Switzerland no later than December 31 of the third year following the end of the calendar year in which the income subject to withholding was due. The form used for obtaining a refund is one of the Swiss Tax Forms 82 (82 C for US companies; 82 E for other US entities; 82 I for individuals; 82 R for regulated investment companies), which may be obtained from the Swiss Federal Tax Administration at the address above or downloaded from the web page of the Swiss Federal tax Administration. The form must be filled out in triplicate with each copy duly completed and signed before a notary public in the United States. The form must be accompanied by evidence of the deduction of withholding tax withheld at the source.

A US holder resident outside the US may be eligible for a withholding tax reclaim. If the US holder is resident in Switzerland, a full reclaim based on the Swiss withholding tax Act is possible provided all necessary conditions are met. A US holder resident neither in the US nor in Switzerland may be eligible for a partial reclaim provided that a Treaty between Switzerland and the country of residence is applicable and that all necessary conditions are met.

Transfers of UBS Ordinary Shares
The purchase or sale of UBS ordinary shares, whether by Swiss resident or non-resident holders (including US holders), may be subject to a Swiss securities transfer stamp duty of up to 0.15% calculated on the purchase price or sale proceeds if it occurs through or with a bank or other securities dealer as defined in the Swiss Federal Stamp Tax Act in Switzerland or the Principality of Liechtenstein. In addition to the stamp duty, the sale of UBS ordinary shares by or through a member of a recognized stock exchange may be subject to a stock exchange levy.

Capital gains realized by a US holder upon the sale of UBS ordinary shares are not subject to Swiss income or gains taxes, unless such US holder holds such shares as business assets of a Swiss business operation qualifying as a permanent establishment. In the latter case, gains are taxed at ordinary Swiss individual or corporate income tax rates, as the case may be, and losses are deductible for purposes of Swiss income taxes. Furthermore, a US holder who is an individual resident in Switzerland and holds such shares as business assets (as he qualifies as a professional trader of securities as per Swiss tax law) may be liable to Swiss income taxes on gains.

(b) Ownership of UBS Ordinary Shares - US Federal Income Taxation

The tax treatment of the UBS ordinary shares will depend in part on whether or not UBS Group AG is classified as a passive foreign investment company, or PFIC, for US federal income tax purposes. Except as discussed below under "—Passive Foreign Investment Company (PFIC) Rules", this discussion assumes that UBS Group AG is not classified as a PFIC for United States federal income tax purposes.

Dividends and Distributions
A US holder will include in gross income and treat as a dividend the gross amount of any distribution paid, before reduction for Swiss withholding taxes, by UBS Group AG out of its current or accumulated earnings and profits (as determined for US federal income tax purposes), other than certain pro-rata distributions of UBS ordinary shares, when the distribution is actually or constructively received by the US holder. Distributions in excess of current and accumulated earnings and profits (as determined for US federal income tax purposes) will be treated as a return of capital to the extent of the US holder's basis in its UBS ordinary shares and thereafter as capital gain. However, UBS Group AG does not expect to calculate earnings and profits in accordance with US federal income tax principles. Accordingly, a US holder should expect to generally treat distributions made on UBS ordinary shares as dividends.

Dividends paid to a noncorporate US holder that constitute qualified dividend income will be taxable to the holder at preferential rates, provided that the holder has a holding period in the shares of more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meets other holding period requirements. Dividends paid by UBS Group AG with respect to the ordinary shares will generally be qualified dividend income provided that, in the year that the US holder receives the dividend, the UBS ordinary shares are readily tradable on an established securities market in the United States. The UBS ordinary shares are listed on the New York Stock Exchange, and UBS Group AG therefore expects that dividends will be qualified dividend income.

For US federal income tax purposes, a dividend will include a distribution characterized under Swiss law as a repayment of capital contributions if the distribution is made out of current or accumulated earnings and profits, as described above.

Dividends will generally be income from sources outside the United States for foreign tax credit limitation purposes, and will generally be "passive" income for purposes of computing the foreign tax credit allowable to the holder. However, if (a) we are 50% or more owned, by vote or value, by US persons and (b) at least 10% of our earnings and profits are attributable to sources within the United States, then for foreign tax credit purposes, a portion of our dividends would be treated as derived from sources within the United States. With respect to any dividend paid for any taxable year, the US source ratio of our dividends for foreign tax credit purposes would be equal to the portion of our earnings and profits from sources within the United States for such taxable year, divided by the total amount of our earnings and profits for such taxable year. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to preferential rates. The dividend will not be eligible for the dividends-received deduction generally allowed to US corporations in respect of dividends received from other US corporations.

Dividends on the UBS ordinary shares are taxable to a US holder when the US holder receives the dividends, actually or constructively. In the case of dividends that are paid in Swiss francs, the amount of the dividend distribution included in income of a US holder will be the US dollar value of the Swiss franc payments made, determined at the spot Swiss franc/US dollar rate on the date such dividend distribution is includible in the income of the US holder, regardless of whether the payment is in fact converted into US dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is included in income to the date such dividend payment is converted into US dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. Such gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes.

Subject to US foreign tax credit limitations, the nonrefundable Swiss tax withheld and paid over to Switzerland will generally be creditable or deductible against the US holder's US federal income tax liability. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the preferential tax rates. To the extent a reduction or refund of the tax withheld is available to a US holder under the laws of Switzerland or under the Treaty, the amount of tax withheld that is refundable will not be eligible for credit against the US holder's US federal income tax liability, whether or not the refund is actually obtained. See "(a) Ownership of UBS Ordinary Shares – Swiss Taxation" above, for the procedures for obtaining a tax refund.

Transfers of UBS Ordinary Shares
A US holder that sells or otherwise disposes of UBS ordinary shares generally will recognize capital gain or loss for US federal income tax purposes equal to the difference between the US dollar value of the amount realized and its tax basis, determined in US dollars, in such UBS ordinary shares. Capital gain of a non-corporate US holder is generally taxed at preferential rates if the UBS ordinary shares were held for more than one year. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes. A US holder will not be allowed a foreign tax credit in respect of any stamp duty or stock exchange levy that is imposed upon a transfer of UBS ordinary shares.

Passive Foreign Investment Company (PFIC) Rules
UBS Group AG believes that it should not currently be classified as a PFIC for US federal income tax purposes, and it does not expect to become a PFIC in the foreseeable future. However, this conclusion is a factual determination made annually and thus may be subject to change. In addition, UBS Group AG's current position that it is not currently, and it does not expect to become, a PFIC is based on the position that UBS Group AG qualifies for a special rule that treats income recognized by a bank in the active conduct of a banking business as active income for PFIC purposes (the "active bank exception"). It is possible, however, that UBS Group AG may not satisfy the requirements of the active bank exception in the current or a future taxable year, or that the U.S. Internal Revenue Service may issue guidance in the future under which UBS Group AG would not satisfy the requirements of the active bank exception. It is therefore possible that UBS Group AG could become a PFIC in a future taxable year. In general, UBS Group AG will be a PFIC with respect to a US holder if, for any taxable year in which the US holder held UBS ordinary shares, either (i) at least 75% of the gross income of UBS Group AG for the taxable year is passive income or (ii) at least 50% of the value, determined on the basis of a quarterly average, of UBS Group AG's assets is attributable to assets that produce or are held for the production of passive income (including cash). "Passive income" generally includes dividends, interest, gains from the sale or exchange of investment property rents and royalties and certain other specified categories of income. If a foreign corporation owns at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.
If UBS Group AG were to be treated as a PFIC, special rules apply with respect to (i) any gain a US holder realizes on the sale or other disposition of UBS ordinary shares, and (ii) any excess distribution that UBS Group AG makes to a US holder (generally, any distributions to the US holder during a single taxable year, other than the taxable year in which the US holder's holding period in the UBS ordinary shares begins, that are greater than 125% of the average annual distributions received by the US holder in respect of the UBS ordinary shares during the three preceding taxable years or, if shorter, the US holder's holding period for the UBS ordinary shares that preceded the taxable year in which the US holder receives the distribution). Under these rules: (i) the gain or excess distribution will be allocated ratably over the US holder's holding period for the UBS ordinary shares, (ii) the amount allocated to the taxable year in which the US holder realized the gain or excess distribution or to prior years before the first year in which UBS Group AG is a PFIC with respect to the US holder will be taxed as ordinary income, (iii) the amount allocated to each other prior year will be taxed at the highest tax rate in effect for that year, and (iv) the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year.

Special rules apply for calculating the amount of the foreign tax credit with respect to excess distributions by a PFIC. With certain exceptions, a US holder's UBS ordinary shares will be treated as stock in a PFIC if UBS Group AG was a PFIC at any time during the holder's holding period in the UBS ordinary shares. In addition, dividends received from UBS Group AG would not be eligible for the preferential tax rate applicable to qualified dividend income if UBS Group AG were to be treated as a PFIC either in the taxable year of the distribution or the preceding taxable year, but would instead be taxable at rates applicable to ordinary income. If a US holder owns UBS ordinary shares during any year that UBS Group AG is PFIC with respect to the US holder, the US holder may be required to file Internal Revenue Service Form 8621.

Item 19. Exhibits.

Exhibit number	Description
1.1	Articles of Association of UBS Group AG dated 24 April 2024. (Incorporated by reference to Form 6-K of UBS Group AG filed on May 13, 2024)
1.2	Organization Regulations of UBS Group AG dated 1 July 2024.
2(b)	Instruments defining the rights of the holders of long-term debt issued by UBS Group AG and its subsidiaries. We agree to furnish to the SEC upon request, copies of the instruments, including indentures, defining the rights of the holders of our long-term debt and of our subsidiaries' long-term debt.
2(d)	Description of securities registered under Section 12 of the Securities Exchange Act of 1934. (Incorporated by reference to Exhibit 2(d) to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.1	Terms and Conditions of USD 1.25 billion 7% Tier 1 Subordinated Notes issued by UBS Group AG on 19 February 2015. (Incorporated by reference to Exhibit 4.4 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2014)
4.2	Terms and Conditions of USD 1.575 billion Tier 1 Subordinated Notes issued by UBS Group AG on 7 August 2015. (Incorporated by reference to Exhibit 4.8 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2015)
4.3	Terms and Conditions of AUD 700 million 4.375% Tier 1 Subordinated Notes issued on 27 August 2019 by UBS Group AG. (Incorporated by reference to Exhibit 4.17 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2019)
4.4	Terms and Conditions of SGD 750 million 4.85% Tier 1 Subordinated Notes issued on 04 September 2019 by UBS Group AG. (Incorporated by reference to Exhibit 4.18 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2019)
4.5	Terms and Conditions of CHF 275 million 3.00% Tier 1 Subordinated Notes issued on 13 November 2019 by UBS Group AG. (Incorporated by reference to Exhibit 4.19 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2019)
4.6	Terms and Conditions of USD 750 million 5.125% Tier 1 Subordinated Notes issued on 29 July 2020 by UBS Group AG. (Incorporated by reference to Exhibit 4.20 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2020)
4.7	Terms and Conditions of USD 1.5 billion 4.375% Tier 1 Subordinated Notes issued on 10 February 2021 by UBS Group AG. (Incorporated by reference to Exhibit 4.21 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2020)
4.8	Terms and Conditions of additional Tier 1 capital instruments issued pursuant to the Deferred Contingent Capital Plan 2020/21. (Incorporated by reference to Exhibit 4.22 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2020)
4.9	Terms and Conditions of USD 750 million 3.875% Tier 1 Subordinated Notes issued on 02 June 2021 by UBS Group AG. (Incorporated by reference to Exhibit 4.18 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2021)
4.10	Terms and Conditions of USD 1.5 billion 4.875% Tier 1 Subordinated Notes issued on 12 January 2022 by UBS Group AG. (Incorporated by reference to Exhibit 4.19 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2021)
4.11	Terms and Conditions of CHF 265 million 3.375% Tier 1 Subordinated Notes issued on 16 February 2022 by UBS Group AG. (Incorporated by reference to Exhibit 4.20 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2021)
4.12	Terms and Conditions of additional Tier 1 capital instruments issued pursuant to the Deferred Contingent Capital Plan 2021/22. (Incorporated by reference to Exhibit 4.21 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2021)
4.13	Terms and Conditions of additional Tier 1 capital instruments issued pursuant to the Deferred Contingent Capital Plan 2022/23. (Incorporated by reference to Exhibit 4.19 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2022)

4.14	Terms and Conditions of USD 1.75 billion 9.250% Tier 1 Subordinated Notes issued on 13 November 2023 by UBS Group AG, first call date 13 November 2028. (Incorporated by reference to Exhibit 4.16 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.15	Terms and Conditions of USD 1.75 billion 9.250% Tier 1 Subordinated Notes issued on 13 November 2023 by UBS Group AG, first call date 13 November 2033. (Incorporated by reference to Exhibit 4.17 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.16	Terms and Conditions of additional Tier 1 capital instruments issued pursuant to the Deferred Contingent Capital Plan 2023/24. (Incorporated by reference to Exhibit 4.18 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.17	Terms and Conditions of USD 1 billion 7.750% Tier 1 Subordinated Notes issued on 12 February 2024 by UBS Group AG, first call date 12 April 2031. (Incorporated by reference to Exhibit 4.19 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.18	Terms and Conditions of SGD 650 million 5.750% Tier 1 Subordinated Notes issued on 21 February 2024 by UBS Group AG, first call date 21 August 2029. (Incorporated by reference to Exhibit 4.20 to UBS's Annual Report on Form 20-F for the fiscal year ended December 31, 2023)
4.19	Terms and Conditions of additional Tier 1 capital instruments issued pursuant to the Deferred Contingent Capital Plan 2024/25.
4.20	Terms and Conditions of SGD 675 million 5.6% Tier 1 Subordinated Notes issued on 24 June 2024 by UBS Group AG, first call date 21 December 2029.
4.21	Terms and Conditions of USD 1.5 billion 6.850% Tier 1 Subordinated Notes issued on 10 September 2024 by UBS Group AG, first call date 10 September 2029.
4.22	Terms and Conditions of USD 1.5 billion 7% Tier 1 Subordinated Notes issued on 10 February 2025 by UBS Group AG, first call date 10 February 2030.
4.23	Terms and Conditions of USD 1.5 billion 7.125% Tier 1 Subordinated Notes issued on 10 February 2025 by UBS Group AG, first call date 10 August 2034.
4.24	Asset Transfer Agreement between UBS AG and UBS Switzerland AG dated 12 June 2015. (Incorporated by reference to Form 6-K of UBS AG filed on June 17, 2015)

Annual Report 2024

UBS Group

Our external reporting approach

The scope and content of our external reports are determined by Swiss legal and regulatory requirements, accounting standards, relevant stock and debt listing rules, including regulations promulgated by the Swiss Financial Market Supervisory Authority (FINMA), the SIX Swiss Exchange, the US Securities and Exchange Commission (the SEC) and other regulatory requirements, as well as by our financial reporting policies.

At the center of our external reporting approach is the annual report of the UBS Group, which consists of disclosures for UBS Group AG and its consolidated subsidiaries. We also provide a separate annual report for UBS AG on a sub-consolidated basis. Both of the aforementioned annual reports are the basis for the corresponding 2024 SEC Form 20-F filings for UBS Group AG and UBS AG. For filing purposes in the European Union, the UBS AG Annual Report also includes disclosures required by the EU Non-financial Reporting Directive (the NFRD) and the EU Taxonomy Regulation.

Annual Reports

The UBS Group Annual Report 2024 and the UBS AG Annual Report 2024 include the consolidated financial statements of UBS Group AG and UBS AG, respectively, and together provide comprehensive information about our Group, including strategy, businesses, financial and operating performance, and other key information.

The consolidated financial statements of UBS Group AG and UBS AG have been prepared in accordance with IFRS Accounting Standards. The sections within "Risk, capital, liquidity and funding, and balance sheet" include certain audited financial information, which forms part of the consolidated financial statements. The UBS Group and UBS AG reports are presented in US dollars.

The UBS Group Annual Report 2024 is partly translated into German.

Sustainability Report

The UBS Group Sustainability Report 2024 provides disclosures on environmental, social and governance (ESG) topics for the UBS Group, UBS AG and UBS Switzerland AG. Selected ESG information is also included in the annual reports.

Standalone reports of UBS Group AG and significant regulated entities

We publish separate 2024 statutory financial statements for UBS Group AG, which are the basis for our appropriation of profit and the proposed distribution of dividends, subject to shareholder approval at the Annual General Meeting. We also publish standalone reports for UBS AG and UBS Switzerland AG. Selected financial and regulatory key figures for our significant regulated subsidiaries and sub-groups are included in the UBS Group Annual Report.

Pillar 3 Report of UBS Group AG including significant regulated entities and sub-groups

The Pillar 3 Report as of 31 December 2024 provides detailed quantitative and qualitative information about risk, capital, leverage, and liquidity and funding for the UBS Group and prudential key figures and regulatory information for our significant regulated subsidiaries and sub-groups. Scopes subject to disclosure are UBS Group AG consolidated, UBS AG consolidated and standalone, UBS Switzerland AG standalone, UBS Europe SE consolidated, UBS Americas Holding LLC consolidated and Credit Suisse International standalone.

Dear shareholders,

The year 2024 marked another 12 months of change for UBS and the world we live in. In the first full year since our acquisition of Credit Suisse, we transitioned from stabilizing a precarious situation to making significant strides toward integration. We achieved all our key acquisition-related milestones on or ahead of schedule and accelerated the transition to growth. UBS is now stronger, more diversified and better positioned strategically to benefit both our clients and our shareholders in a rapidly changing world.

Our tested Group strategy, with around 60% of our revenues derived from asset-gathering activities, and our diversified balance sheet make UBS unique among the world's systemically important banks. At its core, our strategy focuses on delivering outstanding client services, sustainable profitability, financial strength, innovation and sound risk management. Our priority continues to be serving our growing base of clients. Last year, despite the substantial cost of restructuring Credit Suisse, our shareholders benefitted from nearly USD 4 billion in total capital returns in the form of dividends and share repurchases. We did this while maintaining our balance sheet for all seasons with a common equity tier 1 (CET1) capital ratio of 14.3% and a going concern capital ratio of 17.6%, making us one of the best-capitalized major banks in the world.

Reaching key milestones in our integration

Through the integration of Credit Suisse, we have strengthened our position as the largest truly global wealth manager and the leading bank in Switzerland. We have broadened our geographical footprint and enhanced our range of products and services including in our Asset Management and Investment Bank divisions. This diversification has made us even stronger than before the acquisition. Our strength and stability set us apart in times of uncertainty around global trade, geopolitics, inflation and central bank policies.

The integration has progressed well, and even picked up speed in many areas, significantly reducing the execution risk of the acquisition and making us confident that we will accomplish its most significant aspects by the end of 2026. We delivered on all our key milestones in 2024, including all major legal entity mergers and the successful completion of client account migrations in Luxembourg, Hong Kong, Singapore and Japan.

In Switzerland, the migration of former Credit Suisse client accounts to the UBS platform will start in the second quarter of 2025, marking the most complex part of the entire integration. Preparations are well under way, and we remain focused on ensuring the client experience is as smooth as possible throughout the integration.

Our Non-core and Legacy division, charged with winding down non-essential and non-strategic assets stemming from the acquisition, has cut risk-weighted assets by more than half compared with the post-acquisition starting point and released over USD 6 billion of capital to the Group.

Delivering on our capital return commitments

We achieved these integration objectives while delivering a strong financial performance in 2024. Our full-year net profit reached USD 5.1 billion, with an underlying return on CET1 capital of 8.7%, ahead of our plan but still below our pre-acquisition levels of profitability.

We also delivered on our efficiency ambitions by achieving a cumulative 58% of our total gross cost-save target of around USD 13 billion. These savings enable us to drive growth by continuing to invest in talent, technology, products and services.

Our financial performance, coupled with our progress on the integration, enables us to fulfill our commitment to you, our shareholders, to provide sustainably higher returns. For 2024, in addition to the repurchase of USD 1 billion of shares, we have proposed a dividend of USD 0.90 per share, an increase of 29% year-over-year.

In 2025, we plan to accrue for an increase in our per-share dividend of around 10%. In addition, we plan to repurchase USD 1 billion of shares in the first half of 2025 and aim to repurchase up to an additional USD 2 billion of shares in the second half of the year. We also maintain our ambition for 2026 share repurchases to exceed full-year 2022 levels. Our share repurchases will be consistent with delivering on our financial plans, maintaining our CET1 capital ratio target of around 14% and the absence of material, immediate changes to the current capital regime.

Switzerland and UBS: strong partners

Even as our global reach expands, we remain steadfast in our commitment to act as an engine of growth and prosperity in Switzerland, our home market. As a leading provider of credit to Swiss households and corporate clients, we granted or renewed over CHF 70 billion of loans in Switzerland last year out of a total book of around CHF 350 billion, helping our communities to prosper in ways that benefit both households and businesses and our shareholders.

In 2024, we took note of the Swiss Federal Council report on banking stability as well as the report of the Swiss Parliamentary Investigation Committee (the PUK). Both confirmed that the collapse of Credit Suisse was primarily caused by years of strategic errors, mismanagement and a reliance on substantial regulatory concessions. These problems were unique to Credit Suisse.

UBS was asked to be a part of the solution: our strength enabled us to answer an emergency call in March 2023 to rescue Credit Suisse with the backing of the Swiss government, regulatory authorities and the Swiss National Bank. Both before and after, we have consistently implemented measures with no undue regulatory concessions and in ways that ensure our firm poses no risk to Switzerland but instead benefits the country and our collective prosperity.

We support most of the recommendations made by the Swiss Federal Council to strengthen the resilience of the financial center, including the introduction of a Senior Manager Regime and a Public Liquidity Backstop. We share the Federal Council's strong commitment to a global Swiss financial center. We also take note of the Federal Council's commitment to reflect the lessons learned from the Credit Suisse collapse with measures that are targeted, proportionate and internationally aligned. As Switzerland's leading financial institution, the continued success of UBS and Switzerland's position as a global financial center are inextricably linked for mutual prosperity. Balance sheet strength is at the center of our strategy, and we are already providing for almost USD 20 billion of additional capital resulting from the acquisition of Credit Suisse. Of that, around USD 9 billion stems from the removal of regulatory concessions granted to Credit Suisse. Around USD 10 billion arises from the existing too-big-to-fail capital rules, which require more capital to be held as a result of the larger size of our balance sheet and greater market share. That means that UBS is already subject to, and is fulfilling, risk-weighted capital requirements that are among the highest for any global systemically important bank.

At the same time, the often ill-informed public debate in Switzerland about potential risks emerging from our business activities or our size in relation to the Swiss economy, coupled with intensified demands for future capital requirements, has created uncertainties as we enter 2025. Yet the current discussion often overlooks important differences between today's UBS and the former Credit Suisse, namely that our low-risk business model and high asset quality make UBS a far safer and more secure financial firm than Credit Suisse ever was.

It is important to remember that UBS has consistently implemented the too-big-to-fail framework since its introduction and has taken significant measures to ensure the resolvability of the firm. Our balance sheet today amounts to less than half the size of the combined UBS and Credit Suisse before the Global Financial Crisis of 2008, with total loss absorbing capacity of USD 185 billion at the end of 2024, or almost four times the write-downs UBS incurred in the years following the crisis. Indeed, it was the safe, sustainable and successful business model we have pursued since then, based on a strong capital position and disciplined risk management, that enabled us to respond to the Swiss authorities' request and restore financial stability in a matter of days following the rescue weekend.

Despite the challenges, we remain committed to a constructive dialogue and will continue to contribute our facts and arguments so that a reasonable solution can be found, aligned with the Federal Council's commitment to a strong and internationally competitive financial center. We are advocating for a vibrant Swiss financial center – with a competitive UBS at its center – that supports our clients, communities and the wider economy.

Excessive capital requirements or other undue limitations on our international business would penalize our diversified global presence, run counter to the government's financial sector strategy and damage the competitiveness of Switzerland's economy, raising the cost of capital for homeowners and businesses. Any such requirements would also be out of step with the many measures to strengthen the competitive environment adopted by other leading financial centers. All this would hamper our ability to contribute to our national economy, where we are Switzerland's third-largest private employer. Our 34,000 colleagues, together with UBS, pay more than CHF 2 billion in taxes annually.

Our commitment made to the Swiss public at the legal close of the acquisition on 12 June 2023 remains unchanged "We will stay focused on what really matters: the safety and security of our clients' assets and helping them achieve their goals. We will work together as we combine our strengths and capabilities. We will make decisions based on facts and with the bigger picture top of mind. We will never compromise on UBS's strong culture, conservative risk approach or quality service."

Positioned for growth

As we advance toward our long-term ambitions, we are focused on sustainable and strategic growth, with a particular focus on the Americas and Asia Pacific regions in our core asset-gathering activities, while maintaining capital discipline. In the region Europe, Middle East and Africa (EMEA), we plan to maintain our leading positions while expanding market share in areas of strategic focus, seizing opportunities through systematic cross-collaboration.

In our wealth management business in the Americas, we are making targeted investments to deepen relationships with our ultra-high net worth clients, to accelerate growth in the high net worth and core affluent segments, and to expand our loan and deposit offering. We are also investing in our technology and banking capabilities to enhance our offering while working toward obtaining a national bank charter in a region that represents the world's largest wealth pool and is where we already have USD 2.1 trillion in invested assets served by nearly 6,000 financial advisors. These initiatives will also help to enhance our profitability in this important business.

Colm Kelleher
Chairman of the Board of Directors

Sergio P. Ermotti
Group Chief Executive Officer

Similarly, in our wealth management businesses in Switzerland and EMEA, we are the number one player, each with around USD 0.7 trillion of invested assets.

With the client account migrations finalized in the Asia Pacific region, we are even better placed to leverage our number-one position in the region to drive market-leading growth. In Asia Pacific, where we have USD 0.7 trillion of invested assets in Global Wealth Management, we are twice as large as our nearest competitor. Integration there has progressed well, setting us up for success in the world's fastest-growing wealth market.

In Personal & Corporate Banking in Switzerland, we are uniquely positioned to offer exceptional value throughout the client lifecycle by delivering a comprehensive suite of services spanning wealth management, asset management and investment banking.

We are committed to investing in and remaining a pillar of the Swiss economy while continuing to offer the highest-quality services and capabilities available in our home market. Our primary focus will be on reinforcing our standing as the go-to bank for large corporates, entrepreneurs and emerging affluent clients with leading financing, asset servicing and wealth advice capabilities.

In Asset Management, we remain focused on continuing to capture opportunities where we have a differentiated and scalable offering. And in the Investment Bank, we are encouraged by the progress our fully integrated teams are making to deliver for our clients as we seize market share gains in our areas of strategic importance. All our businesses are fully aligned with our asset-gathering-focused strategy and our risk-aware culture.

In terms of profitability and efficiency, we remain well positioned to build toward our 2026 exit rate targets of around a 15% underlying return on CET1 capital and an underlying cost / income ratio of less than 70% as we continue to execute our integration plans and capture the benefits of enhanced scale across our core businesses.

Harnessing the power of AI

UBS has long been a pioneer in adopting new technology, including artificial intelligence, to better serve our clients and promote business efficiency. In 2024, we continued making targeted investments and expect AI adoption to drive transformation where our clients, employees, and shareholders all benefit from the latest innovations. We are, for example, on track to roll out some 50,000 Microsoft 365 Copilot licenses to our employees, the largest deployment within the global financial services sector to date.

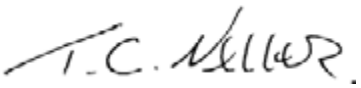
We have also rolled out Red, our cutting-edge internal chatbot that builds on state-of-the-art generative AI capabilities, to around 30,000 of our employees. By granting them intelligent access to insights, UBS products, research and Chief Investment Officer reports, it saves time and helps us deliver even more value for our clients. It makes interactions with clients more efficient and more personal.

Supporting the transition to a low-carbon world and positive social outcomes

We support our clients in the transition to a low-carbon world and consider climate change risks and opportunities across our bank for the benefit of our clients, our shareholders and all our stakeholders. In 2024, we set a revised target to reduce the firm's net greenhouse emissions (scope 1 and 2 emissions) to net zero by 2035, reflecting both the integrated organization and the latest regulatory guidance. We made progress on these key components of our climate action plan, reducing our net greenhouse gas scope 1 and 2 emissions and energy consumption. For scope 3 emissions, we remain committed to our lending sector decarbonization targets to address our financed emissions in specified sectors and have made progress on these.

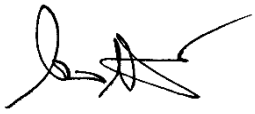
In our first fully consolidated ESG ratings following the acquisition of Credit Suisse, MSCI reaffirmed our AA ESG rating in 2024, and we increased our S&P Global Corporate Sustainability Assessment score.

We also celebrated 25 years of the UBS Optimus Foundation, the grant-making organization that offers our clients a platform to drive positive social and environmental outcomes. Optimus has grown into an influential network of foundations in nine locations working at a global and local level to drive transformative change for marginalized communities. In the past 10 years alone, together with our clients and employees, Optimus has raised over USD 1.5 billion in donations, and our programs have helped nearly 35 million people.



The 2025 Annual General Meeting

At the upcoming AGM, we are proposing Renata Jungo Brüngger and Lila Tretikov for election to the Board of Directors. Claudia Böckstiegel and Nathalie Rachou will not stand for re-election. We thank them both for their dedicated service and significant contributions over the last years. Renata is a highly respected professional with extensive experience in legal affairs, governance, and sustainability, serving as a member of the Board of Management of Mercedes-Benz Group AG since 2016. Lila is a well-known expert in AI and technology-driven business transformation. Currently, she leads AI strategy at New Enterprise Associates, a Silicon Valley-based venture capital firm. Most recently, she served as Deputy Chief Technology Officer at Microsoft, where she led substantial transformation initiatives. Also at the AGM, you will be asked to vote on the proposed increase in dividends, the 2025 share repurchase program and the UBS Group Sustainability Report.



We are confident about the future and the value we deliver. With our clear strategy and progress on our integration, we are well positioned to offer outstanding client experiences and to grow sustainably, enabling us to generate higher returns on capital and provide you, our valued shareholders, with attractive returns.

Thank you for your ongoing support. We look forward to welcoming you to the 2025 AGM, which will take place on 10 April in Lucerne, Switzerland.

Yours sincerely,

Colm Kelleher
Chairman of the Board of Directors

Sergio P. Ermotti
Group Chief Executive Officer

Corporate information

UBS Group AG is incorporated and domiciled in Switzerland and operates under Art. 620ff. of the Swiss Code of Obligations as an Aktiengesellschaft, a corporation limited by shares. Its registered office is at Bahnhofstrasse 45, CH-8001 Zurich, Switzerland, telephone +41-44-234 11 11, and its corporate identification number is CHE-395.345.924. UBS Group AG was incorporated on 10 June 2014 and was established in 2014 as the holding company of the UBS Group. UBS Group AG shares are listed on the SIX Swiss Exchange and on the New York Stock Exchange (ISIN CH0244767585; CUSIP H42097107). UBS Group AG owns 100% of the outstanding shares in UBS AG and Credit Suisse AG.

1 Comparative-period information has been revised. Refer to "Note 2 Accounting for the acquisition of the Credit Suisse Group" in the "Consolidated financial statements" section of this report for more information about the relevant adjustments. 2 Refer to the "Share information and earnings per share" in the "Consolidated financial statements" section of this report for more information. 3 Refer to the "Targets, capital guidance and ambitions" section of this report for more information about our performance targets. 4 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 5 Refer to the "Group performance" section of this report for more information about underlying results. 6 Negative goodwill is not used in the calculation as it is presented in a separate reporting line and is not part of total revenues. 7 Based on the Swiss systemically relevant bank framework as of 1 January 2020. Refer to the "Capital, liquidity and funding, and balance sheet" section of this report for more information. 8 The disclosed ratios represent averages for the fourth quarter of each year presented, which were calculated based on an average of 64 data points in the fourth quarter of 2024, 63 data points in the fourth quarter of 2023 and 63 data points in the fourth quarter of 2022. Refer to the "Capital, liquidity and funding, and balance sheet" section of this report for more information. 9 Consists of invested assets for Global Wealth Management, Asset Management (including invested assets from associates) and Personal & Corporate Banking. Refer to "Note 31 Invested assets and net new money" in the "Consolidated financial statements" section of this report for more information. 10 Refer to "UBS shares" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information. 11 The calculation of market capitalization reflects total shares issued multiplied by the share price at the end of the period. 12 We started to report these metrics from the fourth quarter of 2024 onward, presenting comparative information in line with the UBS Group fourth quarter 2024 report, available under "Quarterly reporting" at ubs.com/investors.

Alternative performance measures

An alternative performance measure (an APM) is a financial measure of historical or future financial performance, financial position or cash flows other than a financial measure defined or specified in the applicable recognized accounting standards or in other applicable regulations. We report a number of APMs in the discussion of the financial and operating performance of the Group, our business divisions and Group Items. We use APMs to provide a more complete picture of our operating performance and to reflect management's view of the fundamental drivers of our business results. A definition of each APM, the method used to calculate it and the information content are presented under "Alternative performance measures" in the appendix to this report. Our APMs may qualify as non-GAAP measures as defined by US Securities and Exchange Commission (SEC) regulations. Our underlying results are APMs and are non-GAAP financial measures.

› **Refer to the "Group performance" section of this report and to "Alternative performance measures" in the appendix to this report for additional information about underlying results**

    Member of the Audit Committee / member of the Corporate Culture and Responsibility Committee

The Board of Directors of UBS Group AG (the BoD), led by the Chairman, consists of between 6 and 12 members, as per our Articles of Association. The BoD decides on the strategy of the Group, upon recommendation by the Group Chief Executive Officer (the Group CEO), and is responsible for the overall direction, supervision and control of the Group and its management. It is also responsible for supervising compliance with applicable laws, rules and regulations. The BoD exercises oversight over UBS Group AG and its subsidiaries and is responsible for establishing a clear Group governance framework to provide effective steering and supervision of the Group, taking into account the material risks, opportunities and impacts to which UBS Group AG and its subsidiaries are exposed and may affect its performance, value creation and reputation. The BoD has ultimate responsibility for the success of the Group and for delivering sustainable shareholder value within a framework of prudent and effective controls. It approves all financial statements and appoints and removes all Group Executive Board (GEB) members.

Our Group Executive Board

UBS Group AG operates under a strict dual-board structure, as mandated by Swiss banking law, and therefore the BoD delegates the management of the business to the GEB. As of 31 December 2024, the GEB, under the leadership of the Group CEO, consisted of 15 members. It has executive management responsibility for the steering of the Group and its business, develops the strategies of the Group, business divisions and Group functions, and implements the BoD-approved strategies.

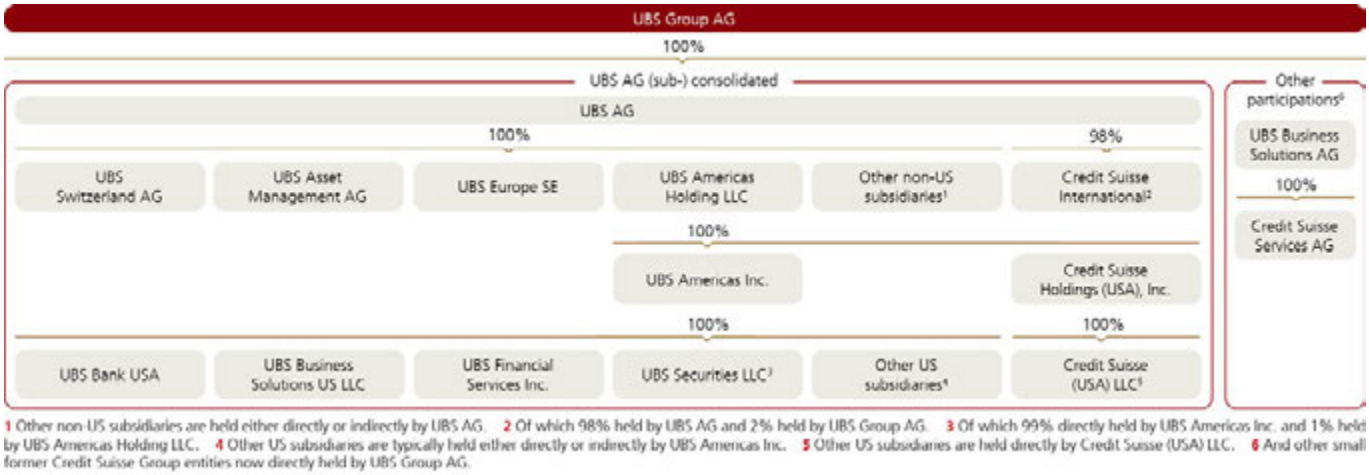
15. **Markus Ronner**
    Group Chief Compliance and Governance Officer

Our evolution

Since our origins in the mid-19th century, more than 500 different firms have become part of the history of our firm and helped shape our development. 1998 was a major turning point: two of the three largest Swiss banks, Union Bank of Switzerland and Swiss Bank Corporation (SBC), merged to form UBS. Both banks were well established and successful in their own right. Union Bank of Switzerland had grown organically to become the largest Swiss bank. In contrast, SBC had grown mainly through strategic partnerships and acquisitions, including S.G. Warburg in 1995.

In 2000, we acquired PaineWebber, a US brokerage and asset management firm with roots going back to 1879, establishing us as a significant player in the US. Since 1964, we have been building our strong presence in the Asia Pacific region, where we are by far the largest wealth manager,[1] with asset management and investment banking capabilities.

After incurring significant losses in the 2008 financial crisis, we sought to return to our roots, emphasizing a client-centric model that requires less risk-taking and capital. In 2011, we started a strategic transformation of our business model to focus on our traditional businesses: wealth management globally, and personal and corporate banking in Switzerland.



In 2014, we began adapting our legal entity structure in response to too-big-to-fail requirements (TBTF) and other regulatory initiatives. First, we established UBS Group AG as the ultimate parent holding company for the Group. In 2015, we transferred personal and corporate banking and Swiss-booked wealth management businesses from UBS AG to the newly established UBS Switzerland AG. That same year, we set up UBS Business Solutions AG as the Group's service company. In 2016, UBS Americas Holding LLC became the intermediate holding company for our US subsidiaries and our wealth management subsidiaries across Europe were merged into UBS Europe SE, our Germany-headquartered European subsidiary. In 2019, we merged UBS Limited, our UK-headquartered subsidiary, into UBS Europe SE.

2023 was another defining moment in our 162-year history, as we acquired the Credit Suisse Group, a global systemically important financial institution and a major wealth manager headquartered in Switzerland that was founded in 1856. The acquisition followed a request from the Swiss Federal Department of Finance, the Swiss National Bank and the Swiss Financial Market Supervisory Authority (FINMA), with support from other supervisors, to UBS Group AG and Credit Suisse Group AG to duly consider the acquisition in order to restore necessary confidence in the stability of the Swiss economy and banking system and to serve the best interests of the shareholders and stakeholders of UBS and Credit Suisse. The acquisition strengthened our position today as the largest truly global wealth manager, the leading bank in Switzerland, a global, large-scale and diversified asset manager, and a focused investment bank.

In 2024, several legal entity mergers took place as the process of integrating Credit Suisse progressed. The mergers included those of UBS AG and Credit Suisse AG, and UBS Switzerland AG and Credit Suisse (Schweiz) AG. In addition, the transition to a single US intermediate holding company was completed. The chart below gives an overview of our principal legal entities and our legal entity structure as of 31 December 2024.

- **Refer to *ubs.com/history* for more information**
- **Refer to the "Integration of Credit Suisse" section of this report for more information**

The legal structure of the UBS Group

1 Asian Private Banker, 23 January 2024.

Our strategy, business model and environment

Management report

Integration of Credit Suisse

On 12 June 2023, UBS Group AG acquired Credit Suisse Group AG, succeeding by operation of Swiss law to all assets and liabilities of Credit Suisse Group AG. Since the acquisition, we have successfully executed our integration plans, and we have won back, retained and grown client assets. Throughout 2024, we continued to make significant progress with respect to the integration of Credit Suisse, and we are on track to substantially complete the integration by the end of 2026.

The merger of UBS AG and Credit Suisse AG was completed on 31 May 2024. UBS AG succeeded to all rights and obligations of Credit Suisse AG, including all outstanding Credit Suisse AG debt instruments. On 7 June 2024, we completed the transition to a single US intermediate holding company, and, on 1 July 2024, we completed the merger of UBS Switzerland AG and Credit Suisse (Schweiz) AG. UBS Switzerland AG succeeded to all rights and obligations of Credit Suisse (Schweiz) AG.

The significant-legal-entity mergers were key for the start of large-scale client account migrations and facilitated the ongoing decommissioning of legacy Credit Suisse platforms in the second half of 2024. In the fourth quarter of 2024, we completed the migration of our Global Wealth Management client accounts in Luxembourg, Hong Kong, Singapore and Japan to UBS platforms. We remain focused on client account migrations and infrastructure decommissioning. We expect the first wave of Swiss business migrations to commence in the second quarter of 2025.

In 2024, we realized a total of USD 3.4bn in gross cost savings. Cumulative gross cost savings at the end of 2024 amounted to USD 7.5bn compared with the 2022 combined cost base of UBS and Credit Suisse. This represents around 58% of our ambition of around USD 13bn in annualized exit rate gross cost savings by the end of 2026.

Our Non-core and Legacy business division continued to actively exit positions and reduce its exposures. At 31 December 2024, it had achieved a 52% reduction in risk-weighted assets (RWA) since the end of the second quarter 2023, well ahead of our original plan. As a result, we have updated our ambition and now aim to reduce Non-core and Legacy RWA to around USD 29bn by the end of 2025 and around USD 22bn by the end of 2026.

We reduced to zero the amount of funding outstanding under the Emergency Liquidity Assistance (ELA) facility in the second quarter of 2024, with Credit Suisse (Schweiz) AG fully repaying the remainder of the funding.

We completed the accounting for the acquisition of the Credit Suisse Group under IFRS 3, *Business Combinations*, in the second quarter of 2024 with the measurement period adjustments and the finalization of the amount of negative goodwill.

› **Refer to "Note 2 Accounting for the acquisition of the Credit Suisse Group" in the "Consolidated financial statements" section of this report for more information about the accounting for the acquisition of the Credit Suisse Group and the finalization of the purchase price allocation**

Other developments

During the first quarter of 2024, UBS and entities associated with Apollo Global Management (Apollo) and Atlas SP Partners (Atlas) entered into agreements to conclude an investment management agreement and a transition services agreement with Atlas SP. As part of these agreements, Apollo also purchased USD 8bn of senior secured financing facilities. We recognized a net gain of USD 0.3bn from these transactions. The difference primarily reflects adjustments that UBS Group made under IFRS Accounting Standards as part of the purchase price allocation at the closing of the acquisition of the Credit Suisse Group.

In June 2024, the Credit Suisse supply chain finance funds (the SCFFs) made a voluntary offer to the SCFFs' investors to redeem all outstanding fund units. The offer expired on 31 July 2024, and fund units representing around 92% of the SCFFs' net asset value were tendered in the offer and accepted. Fund units accepted in the offer were redeemed at 90% of the net asset value determined on 25 February 2021, net of any payments made by the relevant fund to the fund investors since that time. Investors whose units were redeemed released any claims they may have had against the SCFFs, Credit Suisse or UBS. The offer aimed to provide fund investors with an accelerated exit from their positions and a high level of financial recovery and was funded by the acquisition of a new class of fund units by UBS. The offer did not have a material effect on the financial results or common equity tier 1 capital of UBS Group AG, given provisions recorded in connection with the acquisition of the Credit Suisse Group. On a subsidiary level, UBS AG on a consolidated basis recorded in the second quarter of 2024 a provision of around USD 0.9bn in connection with the offer. The offer did not have a material effect on UBS AG on a standalone basis. The investment in the SCFFs is managed in the Non-core and Legacy division.

On 13 August 2024, UBS entered into an agreement to sell Select Portfolio Servicing, the US mortgage servicing business of Credit Suisse, managed in the Non-core and Legacy business division. Completion of the transaction is subject to regulatory approvals and other customary closing conditions. UBS Group does not expect to recognize a material profit or loss upon completion of the transaction. Based on balances as of 31 December 2024, the completion of the transaction would reduce the Group's risk-weighted assets by around USD 1.3bn and the Group's leverage ratio denominator by around USD 1.7bn.

In October 2024, UBS entered into an agreement to sell to American Express Swiss Holdings GmbH (American Express) its 50% interest in Swisscard AECS GmbH (Swisscard), a joint venture in Switzerland between UBS and American Express, subject to certain closing conditions. Also in October 2024, UBS entered into an agreement with Swisscard to transition the Credit Suisse-branded card portfolios to UBS. In January 2025, UBS completed the purchase of the card portfolios, with the actual client migration expected to take place over the following quarters. The two transactions will result in similar profit and loss effects over the course of 2025 and, therefore, on a net basis are not expected to have a material impact for UBS. In 2024, UBS recorded an expense of USD 41m in connection with the termination of the Swisscard joint venture.

Material weakness in internal control over financial reporting

As a registrant with the US Security and Exchange Commission (the SEC), UBS Group is subject to requirements under the Sarbanes–Oxley Act of 2002 with respect to financial reporting. This requires us to perform system and process evaluation and testing of internal control over financial reporting to enable management to assess the effectiveness of our internal controls. A material weakness is a deficiency or a combination of deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a registrant's financial statements will not be prevented or detected on a timely basis.

Following the acquisition and merger of Credit Suisse Group AG into UBS Group AG in June 2023, Credit Suisse AG concluded that as of 31 December 2023 its internal control over financial reporting continued to be ineffective. As permitted by SEC guidance in the year of an acquisition, UBS Group AG excluded Credit Suisse AG from its assessment of internal control over financial reporting for the year ended 31 December 2023 and concluded that its internal control over financial reporting was effective as of such date.

In 2024, in light of the increased complexity of the internal accounting and control environment, the remaining migration efforts still underway and limited time to demonstrate operating effectiveness and sustainability of the post-merger integrated control environment, management has concluded that additional evidence of effective operation of the remediated controls is required to conclude that the risk assessment processes are operating effectively on a sustainable basis. In light of the above, management has concluded that there is a material weakness in internal control over financial reporting at 31 December 2024.

› **Refer to the "Risk factors" section and to "Management's report on internal control over financial reporting" in the "Consolidated financial statements" section of this report for more information about management's assessment of internal control over financial reporting as of 31 December 2024 and the remediation of Credit Suisse material weaknesses**

Our strategy

UBS – who we are

UBS is the largest truly global wealth manager and the leading bank in Switzerland. These key pillars of our strategy are enhanced by focused and competitive investment bank and asset management capabilities. Staying close to our clients, whether they are individuals, institutions or businesses, and providing financial advice and solutions to help them to achieve their goals is of the upmost importance to us. We have a capital-generative and well-diversified business model with strong competitive positions in our target markets. Our business model, our strong and risk-aware culture and our superior client service, as well as our respected brand with over 160 years of history and our capital prudence, have made it possible to consistently and sustainably both grow profits and deliver a high return on equity over the long term. The acquisition of the Credit Suisse Group has further accelerated our growth strategy by providing our client franchises with additional scale, complementary capabilities and talent in line with our ambition to position UBS for sustainable, high-quality returns and long-term growth.

We are focused on driving sustainable long-term growth while maintaining risk and cost discipline

Our objective is to generate value for our shareholders and clients by driving sustainable long-term structural growth and attractive capital returns. To accomplish this, we are building on our scale, content and solutions, while remaining disciplined on capital, risk and costs. Maintaining a balance sheet for all seasons remains the foundation of our success. This gives us the capacity to invest strategically and will enable us to deliver against our financial targets and ambitions, which are outlined in the "Targets, capital guidance and ambitions" section of this report.

Our growth plans are rooted in an attractive business mix that is also a source of our competitive strength. Our asset-gathering businesses are characterized by being structurally attractive from a capital consumption perspective and generate more than half of our revenues[1], while representing around 40% of our risk-weighted assets (RWA)[1]. Roughly another third of our RWA[1] are in Personal & Corporate Banking in Switzerland, our home market and an attractive, stable and well-diversified economy, with low historic credit losses. Furthermore, we operate a capital-light Investment Bank, which is limited to 25% of Group RWA.[1]

Moreover, our aim is to maximize our impact and that of our clients to create long-term sustainable value. We also have a responsibility toward the communities we serve and our employees. We have outlined selected environmental, social and governance (ESG) aspirations, which we expect to support our financial targets and ambitions.

We have a global, diversified business model

Our invested assets of more than USD 6trn are regionally diversified across the globe. We give our clients access to a broad, relevant and customizable range of solutions, which, together with our thought leadership and capabilities, position us well to become their partner of choice. Our strategic ambitions reflect the long-term outlook on demographic and social trends affecting wealth distribution, product demand and client experience.

Half of our wealth management clients' invested assets are in the Americas, where we are among the top players in the world's largest wealth pool, with solid wealth generation prospects. The Investment Bank has invested in growing its Global Banking, Global Markets and Research capabilities in the region, and it is focused on cross-regional and cross-divisional collaboration to drive growth.

In Asia Pacific, which is the fastest-growing wealth market, we are by far the largest wealth manager,[2] and we are building on that scale to drive growth. We are further developing our businesses in the region to deliver our leading capabilities, leveraging our expanded and diversified footprint, strengths in cross-divisional collaboration and global connectivity.

In EMEA we are focused on improving profitability and driving focused growth by optimizing our domestic footprint and providing a comprehensive offering for entrepreneurs.

Finally, in Switzerland we have a highly integrated business and aim to reinforce our position as the leading bank. We are driving our digital transformation, enhancing the client experience and improving efficiency, while focusing on capturing selected growth opportunities. We are also delivering on our commitments to our home market, as we continue to provide around CHF 350bn of credit to Swiss companies and the economy.

We collaborate as one UBS to deliver integrated coverage for clients

We strive to serve our clients as one firm, with collaboration across our business divisions being a cornerstone of our strategy and a key differentiator, as we deliver the best of UBS. For example, our asset-gathering franchises work in synergy to offer clients a comprehensive product suite paired with exclusive, premium personalized services. The Investment Bank complements these by delivering insights, execution capabilities and risk management expertise to both our wealth and Swiss corporate clients. We regularly enhance this integrated approach to support our growth, as demonstrated by recent initiatives, such as the establishing of the division-agnostic Unified Global Alternatives and the creation of Global Wealth Management Solutions.

Supporting sustainability

We help our clients achieve their sustainability and impact objectives while navigating the evolving macroeconomic and complex regulatory landscape. To help us realize this ambition, our sustainability and impact strategy is based on three strategic pillars: (i) Protect – manage our business in alignment with our sustainable, long-term Group strategy and evolving standards; (ii) Grow – embed an innovative sustainability and impact offering across all our business divisions; and (iii) Attract – be the bank of choice for clients and employees. We support our clients in the transition to a low-carbon world and consider climate change risks and opportunities across our bank for the benefit of our clients, shareholders and all our stakeholders.

We are investing in our technology to drive business outcomes

We have a proven technology strategy in place to focus on delivery and experience for our clients and employees, while we are preparing for the future. We are constantly modernizing our technology to support an already strong foundation; we have a robust infrastructure, 70% of which is in the public and private Cloud, that maintained over 99.999% availability over the last year and maintains high security standards.

This foundation facilitates our integration and enables us to embrace and implement innovation, such as generative artificial intelligence (AI), to bring technology products and solutions to the next level.

We are evolving into an AI-driven institution, using generative AI to drive growth, improve client service, and increase productivity. In the fourth quarter of 2024, we announced the deployment of 50,000 Microsoft Copilot licenses, the largest in the global financial services industry at the time. This initiative is already showing increased usage of generative AI tools, with 1.75 million prompts across all tools in 2024, and it is expected to substantially expand in 2025. We will continue delivering AI initiatives across our businesses, including re-inventing how we do software engineering.

We invest in partnerships with leading academic institutions worldwide and other key players to develop ideas, drive outcomes across the firm and foster pioneering AI research.

We are committed to driving innovation and excellence, ensuring that our technology advancements meet the expectations of our clients, employees, and stakeholders.

Our efforts are supported by our governance and controls that are designed to safeguard the interests of our clients, employees and other stakeholders.

1 Excluding Non-core and Legacy.
2 Asian Private Banker, 23 January 2024.

Targets, capital guidance and ambitions

We reiterate the financial targets and long-term ambitions that we announced in 2024. We remain well positioned to deliver on those targets and ambitions, and we believe that our scale and client franchises, as well as the completed integration, will position us to sustainably drive higher returns.

The graphic below shows our financial targets, capital guidance and long-term ambitions.

1 Common equity tier 1.

Our targets and ambitions are based on the Group's target of a common equity tier 1 (CET1) capital ratio of around 14% and the existing Swiss capital regime.

After reaching 58% of our planned cumulative gross cost savings at the end of 2024, we maintain our aim of delivering exit rate gross cost savings of around USD 13bn by the end of 2026, compared with the full year 2022 cost base for the combined organizations. Gross cost savings will provide necessary capacity for reinvestment to further reinforce the resilience of our infrastructure and to drive sustainable growth by investing in talent, products and services.

In the Non-core and Legacy business division, as at 31 December 2024 we had reduced risk-weighted assets (RWA) by 52% since the second quarter of 2023, well ahead of our original plan. As a result, we have updated our ambition and now aim to reduce Non-core and Legacy RWA to around USD 29bn by the end of 2025 and around USD 22bn by the end of 2026.

Additionally, we expect up to USD 1bn of funding cost savings by 2026 compared with 2023 levels.

Our business division ambitions are the following.
- Global Wealth Management: surpass USD 5trn of invested assets by 2028, with around USD 100bn of net new assets in 2025, building to around USD 200bn annually by 2028, and an underlying cost / income ratio of less than 70% by the end of 2026 (exit rate).
- Personal & Corporate Banking: an underlying cost / income ratio of less than 50% by the end of 2026 (exit rate) and an underlying return on attributed equity of around 19% in the medium term.
- Asset Management: an underlying cost / income ratio of less than 70% by the end of 2026 (exit rate).
- The Investment Bank: an underlying return on attributed equity of around 15% through the cycle, while operating with no more than 25% of the Group's RWA (excluding Non-core and Legacy).
- Non-core and Legacy: an underlying loss before tax of less than USD 1bn and underlying operating expenses of around USD 0.8bn, both excluding litigation and by the end of 2026 (exit rate), and around USD 22bn RWA by the end of 2026.

Our aspirations on environmental, social and governance (ESG) matters are set out in the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*.

Performance against targets, capital guidance and ambitions is taken into account when determining variable compensation.

› **Refer to "Society" and "Our focus on sustainability" in the "How we create value for our stakeholders" section and to the "Corporate governance" section of this report for more information about ESG**
› **Refer to the "Compensation" section of this report for more information about variable compensation**
› **Refer to "Alternative performance measures" in the appendix to this report for definitions of and further information about our performance measures**

Our businesses

We operate through five business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management, the Investment Bank and Non-core and Legacy. Our global reach and the breadth of our expertise are the major assets setting us apart from our competitors. Our Group functions are support and control functions that provide services to the Group. Virtually all costs incurred by the Group functions are allocated to the business divisions, leaving a residual amount that we refer to as Group Items in our segment reporting. We see collaboration, both within and between business divisions, as key to our growth.

› **Refer to the "Our strategy" section of this report for more information about the collaboration between our business divisions**

Global Wealth Management

We are the largest truly global wealth manager and are focused on serving the needs of ultra high and high net worth individuals through trusted relationships with our advisors. Our global reach, our advisory approach led by the Chief Investment Office (the CIO) and access to our comprehensive platform with its broad array of solutions, supported by our premium brand, are key differentiators.

Global Wealth Management is organized into five regional business units covering the US, Switzerland, Asia Pacific, EMEA and Latin America, as well as capability-related and support units. Capability business units, such as the Chief Investment Office and the newly created GWM Solutions, help to efficiently deliver integrated solutions tied into the CIO-led value proposition. For regional reporting purposes, we disclose selected information about the Americas, Switzerland, Asia Pacific, EMEA and Global regions.

Integration of Credit Suisse and organizational changes

The acquisition of the Credit Suisse Group in 2023 enhanced our leading global position, increased our scale and has expanded our capabilities. Since then, we have made substantial progress with the integration of our wealth management businesses. Our client migration is underway, with more than 90% of all assets outside of Switzerland migrated onto UBS platforms by year-end 2024. In the fourth quarter of 2024, we completed the migration of our Global Wealth Management client accounts in Luxembourg, Hong Kong, Singapore and Japan, followed by accounts in Italy in January 2025, and are currently focused on Swiss client account and platform migrations.

› **Refer to the "Integration of Credit Suisse" section of this report for more information**

Since 1 July 2024, Global Wealth Management has been jointly managed by two Co-Presidents. On that date, Iqbal Khan became Co-President Global Wealth Management and Robert Karofsky became Co-President Global Wealth Management and President UBS Americas. On 1 September 2024, Mr. Khan also became President UBS Asia Pacific.

In recognition of the increased size and potential of our wealth management business in Latin America following the acquisition of the Credit Suisse Group, Global Wealth Management Latin America became a new business unit in 2024. Also in 2024, we introduced GWM Solutions, which is aimed at combining all client solutions across UBS into a single unit in order to more effectively, efficiently and consistently deliver products and capabilities to our clients.

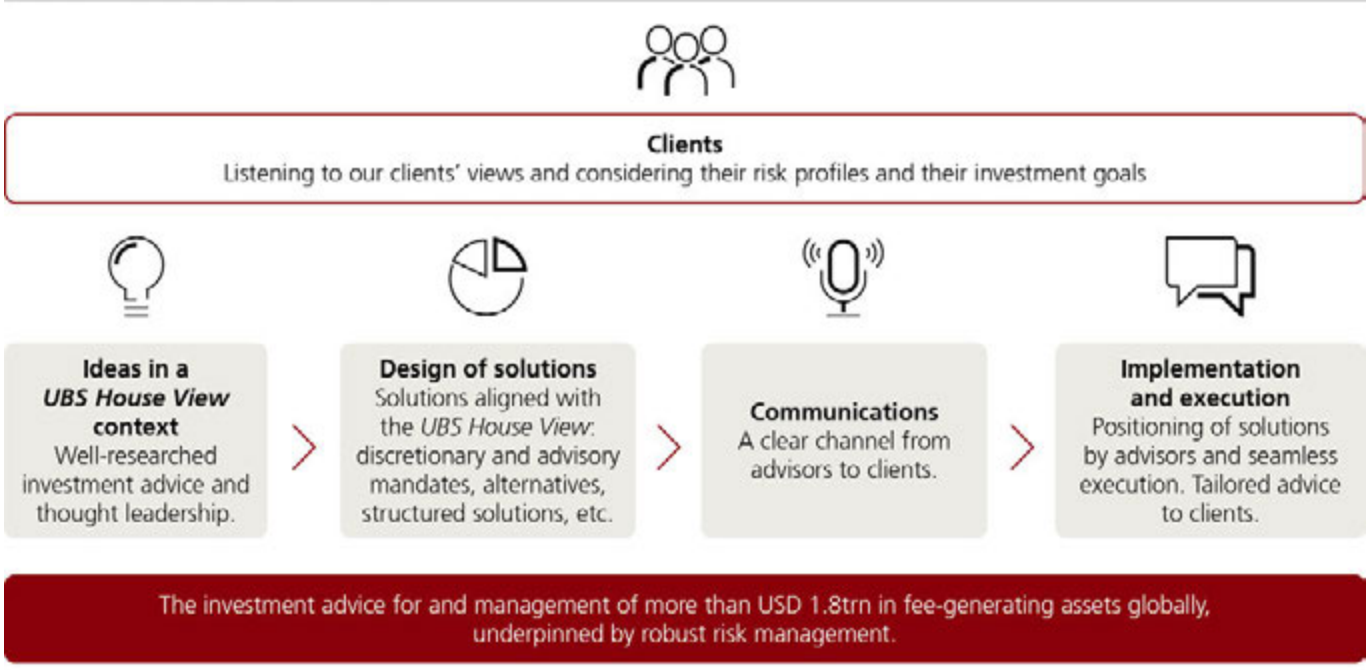
An integral part of our growth plans is to improve profitability across our Americas wealth business, which manages USD 2.1trn in invested assets and is a key pillar of our strategy and value proposition to clients. We are executing on our targeted investments to enhance and build out our multi-disciplinary coverage model of the ultra high net worth client segment and increase penetration of the high net worth and core affluent segments to further drive scale. These growth initiatives will be supported by investments in our banking capabilities and technology, as well as increased cost discipline.

How we do business

With our distinctive approach to wealth management, and by offering advice, expertise and solutions, we help our clients pursue what matters most to them. Our alignment of our core offering across UBS and Credit Suisse platforms is near completion, and clients across our entire franchise can benefit from the best UBS has to offer regardless of the platform they are on.

Our investment advice to clients is led by our global CIO, which produces the *UBS House View*, identifying investment opportunities designed to protect and increase our clients' wealth over the long term. CIO views drive investment recommendations for advisory clients and investment decisions for discretionary clients, representing USD 1.8trn in fee-generating assets globally.

Through our platforms, we offer to our clients a broad range of securities and investment products. In addition to traditional equity and fixed-income securities, our investment specialists source and craft a range of investment products, including separately managed accounts (SMAs), structured products, sustainable- and impact-investing products, and alternative investments. Our alternatives offering gives clients access to private markets, hedge funds and real assets. We offer our own private equity multi-manager investments and enable clients to access selected single-manager funds and open-ended programs.



To complement this offering, we provide clients with advice on wealth planning, sustainability-focused and impact investing, and corporate and banking services. Our specialist teams also advise on art and collecting, family strategy and governance, philanthropy, next generation, and wealth transition.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about sustainability matters**

In addition to our investment management products and solutions, we also offer extensive mortgage, securities-based and structured lending expertise, catering to clients' sophisticated lending needs.

The newly created GWM Solutions brings all client solutions into a single unit in order to more efficiently and consistently deliver integrated solutions tied into the CIO-led value proposition. GWM Solutions presents an opportunity to leverage cross-divisional capabilities to serve every aspect of our clients' financial needs. We are now extending the breadth and depth of our offering into the areas of alternative investment and corporate finance solutions. In 2024, we combined our private market and hedge fund manager selection franchises from Global Wealth Management and Asset Management to create a new business unit, called Unified Global Alternatives, which sits operationally within the Asset Management business division and additionally reports to Global Wealth Management. We also formed Unified Global Banking, combining Global Wealth Management's corporate finance capabilities with Global Banking to service the traditional corporate finance needs of our Global Wealth Management clients and their companies.

Chief Investment Office-led value chain

Note: The Chief Investment Office develops a clear, concise and consistent investment assessment, the UBS House View, consisting of strategic asset allocation and tactical asset allocation.

We are investing in our operating platforms and tools to better serve our clients' needs, improve their experience, enhance overall advisor productivity and improve operational resilience. We aim to make our service delivery faster, more responsive, and more convenient for our clients. Our platform for discretionary mandates provides significant flexibility and solutions. For example, *UBS My Way*, which is now also available on the Credit Suisse platform, enables clients to personalize their portfolios beyond traditional mandates, providing transparency and performance insights. As of 31 December 2024, it has reached over USD 15bn in invested assets.

In Asia Pacific and Switzerland, the Direct Investment Insights function on our online banking platform enables clients to trade directly based on CIO insights via their smartphones and other digital devices. *UBS Advice Compass* enables advisors in one-to-one meetings with their clients to review in depth all important portfolio aspects enhanced with actionable next steps and investment opportunities. Clients are thus offered an enhanced ability to monitor their portfolios and to put their investment strategy into action in line with CIO research.

For the benefit of our clients and to further empower our advisors, we are also leveraging investments in the artificial intelligence (AI) space. We are using AI-powered tools to enhance our capabilities and platforms, for example Red, our internal chatbot that builds on generative AI capabilities, was rolled out to around 7,000 employees in the fourth quarter of 2024. In the US, 13 million AI-generated insights were delivered to US advisors in 2024. Additionally, we are connecting our clients with leaders in the AI space and providing them with thought leadership, content and solutions regarding AI investment opportunities.

In addition, we are continuing to broaden our offering across asset classes and themes, collaborating with best-in-class managers across the most relevant strategies.

Competition

Our main competitors fall into two categories: competitors with a strong position in the Americas but with more limited global footprints, such as Morgan Stanley, JPMorgan Chase, Wells Fargo and Bank of America; and competitors with international footprints but with a smaller presence than UBS in the US, such as Julius Baer, BNP Paribas, Deutsche Bank and HSBC. We also compete with fintech firms in some regions and products. We have strong positions in the largest wealth region (the US) and the fastest-growing wealth regions (Asia Pacific and the Middle East). The size of our global franchise, our bespoke cross-divisional solutions and our premium brand and reputation differentiate us from our competitors and would be difficult to replicate.

2024 selected highlights

As of or for the year ended 31 December 2024

1 Up 3 percentage points compared with 2023. 2 Excludes clients of Credit Suisse entities which will be integrated into UBS.

Personal & Corporate Banking

As the leading bank in Switzerland, our home market, we provide a comprehensive range of financial products and services to private, corporate and institutional clients. With Personal & Corporate Banking at its core, Switzerland is the only region where we operate in all of our business areas. We are fully committed to maintaining our leadership in our home market. Swiss clients and the Swiss economy benefit from UBS's unparallelled global reach and capabilities. We are a go-to bank for entrepreneurs in Switzerland, providing comprehensive support at every stage of the entrepreneurial journey. Drawing on an extensive branch network and highly qualified client advisors, complemented by modern digital banking services and customer service centers, we are able to serve more than one-third of Swiss households and more than 90% of large Swiss companies. In 2024, UBS was named "Best Bank in Switzerland" by Euromoney for the tenth time since 2012.

Personal & Corporate Banking is organized into 10 regions, covering distinct Swiss economic areas. We operate a multi-channel approach, and we are constantly developing our digital and remote channels.

Integration of Credit Suisse and organizational changes

We continue to make progress related to the integration of Credit Suisse, and we are on track to substantially complete the integration by the end of 2026. We are currently focused on client account and platform migrations and decommissioning applications and infrastructure. We expect the first wave of Swiss business migrations to commence in the second quarter of 2025.

On 1 July 2024, the merger of UBS Switzerland AG and Credit Suisse (Schweiz) AG was completed and was a critical step on our integration journey. For the time being, the Credit Suisse brand will remain in use in Switzerland, and consumer finance services will continue to be provided through the BANK-now subsidiary.

› **Refer to the "Integration of Credit Suisse" section of this report for more information**

How we do business

We provide our personal banking clients with access to a comprehensive, life-cycle-based offering. This includes a broad range of basic banking products, from payments to deposits, cards and convenient online and mobile banking, as well as lending (predominantly mortgages), investments and retirement planning services. Personal & Corporate Banking works closely with Global Wealth Management to provide our clients with access to leading wealth management services.

Our corporate and institutional clients benefit from our banking, financing and investment solutions, in particular access to equity and debt capital markets, syndicated and structured credit, private placements, leasing, and traditional financing. We offer transaction banking solutions for payment and cash management services, trade and export finance, and global custody solutions for institutional clients.

We work closely with the Investment Bank to offer capital market and foreign exchange products, hedging strategies, and trading capabilities, as well as corporate finance advice. In cooperation with Asset Management, we also provide fund and portfolio management solutions.

In our corporate business, we take a holistic approach to client dialogue. We seek to provide practical, tailored solutions with a deep understanding of our clients' business operations and collaborate with partners to offer a comprehensive range of products and services. We also launched sustainability-linked loans for commodity trade finance and corporate clients.

In 2024, we continued to focus on helping our clients to achieve their sustainability goals, as companies and individuals consider the best ways to transition to a lower-carbon economy.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about sustainability matters**

We see a strong partner network as essential for UBS's success in Switzerland. To meet the increasing expectations of our clients, we have established strong partnerships that create significant value, for example, for homeowners, where protecting property value is crucial. Through our new partnership with NORM, we offer a digital, user-friendly energy analysis and a specific roadmap for sustainable renovations. Additionally, we have introduced *UBS Loan Green* to support sustainability in investment and commercial properties.

Through our collaboration with Fasoon and Startups.ch we actively support clients in founding their businesses and getting started financially from the very beginning. Our *UBS Marketplace* offers relevant partner solutions to support corporate clients throughout their life cycle.

We are building stronger relationships with our mortgage clients throughout the entire property ownership lifecycle with comprehensive services, including property acquisition, renovation, maintenance, and sale. Our exclusive partnership with SMG Swiss Marketplace Group enables us to expand our ecosystem to Switzerland's largest real estate portals, such as Homegate and Immoscout24. Through our partner *Brixel* we provide services related to property transactions and promotion financing. Our collaboration with *Houzy*, Switzerland's leading homeowner platform, connects our clients with a nationwide network of qualified craftsmen.

Competition

In Personal Banking, our main competitors are the cantonal banks, Raiffeisen, PostFinance and other regional and local Swiss banks; we also face competition from international neobanks and other national digital market participants. Areas of competition are basic banking services, mortgages and foreign exchange, as well as investment mandates and funds.

In the corporate and institutional business, the cantonal banks and foreign banks are our main competitors. We compete in basic banking services, cash management, trade and export finance, asset servicing, investment advice for institutional clients, corporate finance and lending, and cash and securities transactions for banks. We also support the international business activities of our Swiss corporate clients through local hubs in New York, Frankfurt, Singapore and the Hong Kong SAR, where we compete with other foreign banks that have global operations. No other Swiss bank offers its corporate clients local banking capabilities abroad.

2024 selected highlights

As of or for the year ended 31 December 2024

1 Loans to private clients, companies and public institutions in Personal & Corporate Banking and Global Wealth Management Switzerland. 2 Based on approximately 200 largest Swiss companies. 3 Number of Swiss households served by UBS divided by the total number of Swiss households according to the Swiss Federal Statistics Office.

Asset Management

We are a global, large-scale and diversified asset manager offering investment capabilities and strategies, across all major traditional and alternative asset classes, to institutions, wholesale intermediaries and Global Wealth Management clients.

Following the acquisition of the Credit Suisse Group, we have become one of the leading Europe-based asset managers, with total invested assets of USD 1.8trn. We are focused on meeting the evolving needs of our clients by capitalizing on the products and areas where we have a differentiated and scalable offering and by expanding our strong partnerships with the other business divisions across the Group.

Asset Management is organized into five areas: Client Coverage; Global Real Assets; Investments; Unified Global Alternatives; and the Chief Operating Officer (COO) area. We cover the main asset management markets globally and have a local presence in 24 locations across four regions: the Americas; Asia Pacific; EMEA; and Switzerland. We have nine main hubs: Chicago; the Hong Kong SAR; London; New York; Shanghai; Singapore; Sydney; Tokyo; and Zurich.

Integration of Credit Suisse and organizational changes

We continued to move at pace with the integration of Credit Suisse. This included the completion of a number of legal entity transactions that enabled us to combine our core operating entities and teams in each region. Alongside that, we made significant strides toward bringing together our fund offerings and also commenced the technical migration of clients' investment portfolios onto the UBS platform.

During 2024, we completed a number of non-core divestments, including the sales of our Brazilian real estate fund management business (Credit Suisse Hedging-Griffo Real Estate), Credit Suisse Insurance Linked Strategies Ltd and our 62% majority stake in Credit Suisse Investment Partners. We also transferred the management of our Quantitative Investment Strategies business to a systematic investment manager.

› **Refer to the "Integration of Credit Suisse" section of this report for more information**

On 1 March 2024, Aleksandar Ivanovic became President Asset Management.

We also took a number of steps to increase our operational efficiency and simplify our organization. This included the reorganization and integration of our former Products functions into the Client Coverage and COO areas.

To capture the growing client demand for alternatives, at the end of 2024 we combined our manager selection franchises from Global Wealth Management and Asset Management to create a new business unit called Unified Global Alternatives (UGA). UGA sits operationally within the Asset Management business division, and additionally reports to Global Wealth Management.

With a combined USD 286bn in invested assets across Asset Management and Global Wealth Management, UGA is one of the leading global alternative players. By bringing together the breadth of our capabilities, we can better leverage and scale our deep expertise in sourcing, monitoring and managing investments. Given our ability to work flexibly alongside third-party alternatives managers across products, we believe we can strengthen our strategic partnerships with best-in-class general partners, and together deliver new and innovative solutions for clients.

Following the shift of our Real Estate & Private Markets (REPM) multi-manager capabilities to UGA, the remaining REPM business area has been renamed as Global Real Assets.

How we do business

We are committed to delivering investment excellence and to creating value for our clients that endures through cycles. We offer a range of investment products and services across all major traditional and alternative asset classes and investing styles, and we also draw on the breadth of our capabilities to offer asset allocation and currency investment strategies across the risk–return spectrum, customized multi-asset solutions, and advisory and fiduciary services. In order to support our clients' sustainability objectives, we offer a comprehensive range of products and solutions which incorporates a variety of approaches, including active ownership, as well as impact- and transition-focused strategies.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about sustainability matters**

To serve our clients' alternative investment needs, our UGA business maintains, manages and curates one of the world's premier open architecture platforms across hedge funds, private equity, private credit, real estate, infrastructure and multi-alternative investment products. We are also able to provide access to exclusive co-investments and secondary market opportunities for our more sophisticated clients. In addition, we offer access to a comprehensive range of direct investment capabilities across hedge funds and real assets, as well as our leading non-investment-grade fixed-income capabilities managed through our Credit Investment Group.

We continue to expand our index and exchange-traded funds capabilities, building on our position as the largest Europe-based manager of indexed investments. We are able to leverage our specialist teams, proprietary technology and expertise in customization to provide our clients with a compelling range of solutions across asset classes.

We also collaborate across business divisions to deliver our best capabilities to clients. For example, our SMA initiative with Global Wealth Management in the US continues to gain momentum, with USD 195bn in invested assets. Building on the success of this platform, we are also extending our offering to meet the needs of wholesale clients in this attractive market.

Our Partnerships Solutions business draws on our value chain across the Group to provide customized full-service fiduciary, investments and technology solutions for clients. Those include curated access to best-in-class third-party traditional and alternative investment managers, as well as a comprehensive suite of proprietary technology solutions and research services.

We are building on our extensive and long-standing presence in the Asia Pacific region, particularly in China, where we have enhanced our onshore presence through our joint ventures.

To better serve our clients' needs, enable further scalability and growth across our business, and position us to seize the opportunities presented by generative artificial intelligence, we are transforming our front-to-back business, our operating model and our technology platform. This includes our *UBS Advantage* initiative, which will enable us to streamline trading and portfolio implementation across our active and index capabilities through an integrated technology architecture. We also remain focused on capturing structural efficiencies to support our profitable growth. This includes refining our strategic product offering, further streamlining our organization, and realizing integration-related synergies.

Competition

Our main competitors are global firms with wide-ranging capabilities and distribution channels, such as AllianceBernstein, Allianz Asset Management, Amundi, BlackRock, DWS, Franklin Templeton, Invesco, J.P. Morgan Asset Management, Morgan Stanley Investment Management, Schroders, State Street Global Advisors and T. Rowe Price, as well as firms with a specific market or asset-class focus.

2024 selected highlights

As of or for the year ended 31 December 2024

1 Includes invested assets across Asset Management and Global Wealth Management. 2 Separately managed accounts. 3 SimFund data is used to estimate index share for peers that do not disclose index invested assets.

Investment Bank

The Investment Bank provides services to institutional, corporate and wealth management clients, helping them raise capital, invest and manage risks, while targeting attractive and sustainable risk-adjusted returns for the Group's shareholders. Our traditional strengths are in equities, foreign exchange, research, advisory services and capital markets, complemented by a focused rates and credit platform. We use our data-driven research and technology capabilities to help clients adapt to evolving market structures and changes in regulatory, technological, economic and competitive landscapes.

Aiming to deliver market-leading solutions by using our intellectual capital and electronic platforms, we work closely with Global Wealth Management, Personal & Corporate Banking and Asset Management to bring the best of the Group's capabilities to our clients. We do so while being disciplined about balance sheet deployment and costs.

Our two business areas, Global Banking and Global Markets, are organized globally by product. Our business is regionally diversified, with a presence in more than 30 countries. We cover the main investment banking markets globally and have major financial hubs across four regions: the Americas; Asia Pacific; EMEA; and Switzerland.

Our priority is providing high-quality execution and seamless client service, through an integrated, solutions-led approach, with disciplined growth in the advisory and execution businesses, while accelerating our digital transformation. In Global Banking, we position ourselves as trusted advisors via our client coverage and ability to provide access to the wider suite of UBS's capabilities. In Global Markets, we enable clients to buy, sell and finance securities on capital markets worldwide and to manage their risks and liquidity.

Integration of Credit Suisse and organizational changes

The acquisition of the Credit Suisse Group in 2023 accelerated the Investment Bank's existing growth strategy, reinforcing and strengthening our coverage and presenting a powerful opportunity to enhance capabilities and client relevance in key products and regions.

The Investment Bank has benefited significantly from the integration of Credit Suisse, in terms of clients, talent and capabilities. And the integration has also helped us to build a more sustainable market share in a range of products and markets. The transfer of Credit Suisse positions onto UBS infrastructure is now complete, and all in-scope clients have been onboarded.

› **Refer to the "Integration of Credit Suisse" section of this report for more information**

On 1 July 2024, George Athanasopoulos and Marco Valla joined the Group Executive Board as Co-Presidents Investment Bank. They replaced Robert Karofsky, who on that date became Co-President Global Wealth Management and President UBS Americas.

In 2024, GWM Solutions was introduced and is aimed at combining all client solutions across UBS into a single construct so as to more effectively, efficiently and consistently deliver products and capabilities to our clients. As part of GWM Solutions, we announced the formation of Unified Global Banking, combining Global Wealth Management's corporate finance capabilities with Global Banking to service the traditional corporate finance needs of our Global Wealth Management clients and their companies.

How we do business

The Investment Bank consists of two areas: Global Markets, which is supported by Investment Bank Research; and Global Banking. Our global coverage model utilizes our international industry expertise and product capabilities to meet clients' emerging needs.

Our Global Banking business offers a broad range of investment banking products and services to our clients. We work with our clients to understand their business needs and provide ideas that support growth and help them achieve their objectives. Global Banking advises clients on strategic business opportunities, such as mergers, acquisitions and related strategic matters, and helps them raise capital, in both public and private markets, to fund their activities. With teams located across the Americas, EMEA and Asia Pacific regions, our banking coverage offers clients local market expertise coupled with access to a global network.

Our Global Markets business helps clients engage with local markets globally, providing nimble, innovative and bespoke access to solutions, from market and insight tools to trade strategies and execution. Global Markets enables clients to buy, sell and finance securities on capital markets worldwide and to manage their risks and liquidity. We distribute, trade, finance and clear cash equities and equity-linked products, as well as structuring, originating and distributing new equity and equity-linked issues. From origination and distribution to managing risk and providing liquidity in foreign exchange, rates, credit and precious metals, we help clients to realize their financial goals. We provide flexible, innovative and bespoke access to solutions, from market and insight tools to trading strategies and execution.

Our Investment Bank Research business continues to publish research based on primary data to concentrate on data-driven outcomes and offers clients differentiated content about major financial markets and securities around the globe, with analysts based in more than 20 countries and with coverage of more than 3,700 stocks in 49 different countries. *HOLT*, a framework that helps investors to make better decisions, was successfully transferred from Credit Suisse to UBS in October 2024 and is an addition to our data capabilities, which include *Quant Research* and *UBS Evidence Lab*. *HOLT* provides investors with a robust framework to analyze, value and compare 20,000 companies globally.

Our capabilities, core products and services have been enhanced by the integration, which has enabled us to deliver these products and services to an expanded institutional and corporate client base. In addition, we are now better positioned to serve Global Wealth Management, offering investment banking capabilities, and to further enhance our connections with wealth management clients. The integration of Credit Suisse is expected to drive further changes in our future revenue footprint. Our increased scale will enhance our competitive positioning within each region and product set and rebalance our footprint.

We seek to develop new products and solutions consistent with our capital-efficient business model, typically related to new technologies or changing market standards.

The Investment Bank offers clients global advice and access to the world's primary, secondary and private capital markets, including through an array of sustainability-focused advice, products, research and events. We help meet clients' needs with respect to environmental, social and governance (ESG) considerations and sustainable finance, helping to reshape business models and investment opportunities and to develop sustainable finance products and solutions.

In Global Markets, we develop products and solutions designed to meet clients' specific and increasingly detailed ESG objectives. In Global Banking, the ESG Advisory Group supports UBS's clients globally in assessing their ESG / sustainability profile and linking such profiles to investor demand and valuation. The ESG research team delivers thematic reports on ESG and sustainability-related topics. More generally, through our research, we address ways in which ESG factors connect to individual markets, sectors and companies in our coverage.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about sustainability matters**

The Investment Bank strives to be the digital investment bank of the future, focused on delivering innovation-led solutions and efficiencies for our clients. Our digital strategy harnesses technology to provide access to sources of unique, global liquidity, personalized advice and differentiated content. As the world around us changes, our digital capabilities harness emerging technologies and create new products and solutions, which help our clients to adapt to evolving market structures and achieve their investment goals.

Our ambition to be the most client-focused, efficient and data-driven investment bank is being realized through the simplification of technology architecture, increased speed and quality of delivery and the attraction of best-in-class talent. As we look forward to the continued evolution of our digital capabilities, we will see increased adoption of technologies, such as generative artificial intelligence, the consistent re-use of platforms and products, and the continued drive to make progress in our overall strategic imperatives, with regard to a new, combined Investment Bank.

Joint efforts between the Investment Bank and the other business divisions (for example, our work with Global Wealth Management through GWM Solutions coverage) and, externally, strategic partnerships (for example, UBS BB jointly with Banco do Brasil, focused on Latin America) continue to be key strategic priorities. Partnerships with Global Wealth Management and Asset Management enable us to provide clients with broad access to financing, global capital markets and portfolio solutions. We expect these initiatives to continue to lead to growth by delivering global products to each region, leveraging our global connectivity across borders and sharing and strengthening our best client relationships.

Competition

Our global reach presents attractive options for growth. In the Americas, the largest investment banking fee pool globally, we continue to focus on increasing market share in our core Global Banking and Global Markets businesses. In Asia Pacific, we plan to capture opportunities arising from expected market internationalization and growth in China and other markets, and to strengthen our presence in the region. In EMEA, we plan to leverage our strong base and brand recognition to further gain market share.

Competing firms operate in many of our markets, but our strategy differentiates us, with our focus on selective leadership in the areas where we have chosen to compete and a business model that leverages talent and technology rather than balance sheet. Our main competitors are the major global investment banks (e.g. Morgan Stanley and Goldman Sachs) and corporate investment banks (e.g. Bank of America, Barclays, Citigroup, BNP Paribas, Deutsche Bank and JPMorgan Chase). In certain products and regions, we also compete with boutique investment banks and fintech firms.

2024 selected highlights

As of or for the year ended 31 December 2024

1 Globally since 2013. 2 UBS was also named Structured Products house of the year and Currency Derivatives house of the year. 3 Investment Bank globally.

Non-core and Legacy

Non-core and Legacy includes positions and businesses not aligned with our long-term strategy and risk appetite. It consists of selected assets and liabilities from the former Credit Suisse business divisions, as well as residual assets and liabilities from UBS's former Non-core and Legacy Portfolio that preceded the acquisition of the Credit Suisse Group and smaller amounts of assets and liabilities of UBS's business divisions that have been assessed as not strategic in light of the acquisition.

We have made strong progress in actively reducing Non-core and Legacy's assets and liabilities. Most notably, as of the end of 2024, we reported risk-weighted assets (RWA) of USD 41.4bn and leverage ratio denominator (LRD) of USD 53.5bn, which equates to a year-on-year RWA reduction of USD 32.6bn, or 44%, and an LRD reduction of USD 115.0bn, or 68%.

› **Refer to the "Integration of Credit Suisse" section of this report for more information**

Our key priorities and operations

We will continue to actively wind down Non-core and Legacy's positions in order to reduce operating costs and financial resource consumption, with a focus on economic profitability, and to enable us to simplify infrastructure. Incremental costs or losses may arise in connection with the reduction of such assets and liabilities.

Our key priorities continue to be as follows.

– Reduce RWA and LRD, freeing up capital for the UBS Group. We aim to achieve a share of below 5% of Group RWA by the end of 2026. We will continue to actively pursue the acceleration of the natural roll-off through active unwinds.
– Reduce operating costs and financial resource consumption by integrating onto the core platform, simplifying and decommissioning infrastructure, and minimize the number of legal entities. We aim to exit 2026 with around USD 0.8bn in underlying operating expenses (excluding litigation).
– Execute the de-risking strategy in an orderly manner to protect the client franchise, working in partnership with other business divisions.

Non-core and Legacy includes financial and non-financial assets, operating expenses and funding costs related to the following legacy Credit Suisse businesses: loans primarily related to corporate clients and emerging markets, the residual securitized products businesses, the macro trading business, including rates and foreign exchange, the legacy life-finance business, the equities portfolio, including the remaining equity swaps, share back-lending positions and legacy structured renewables-linked positions, and the residual credit business. It also includes residual trades from businesses exited by the pre-integration UBS Investment Bank, mainly in 2012. The portfolio additionally encompasses positions relating to legal matters transferred to it at the time of its formation in 2023.

Group functions

Our Group functions are support and control functions that provide services to the Group, focusing on effectiveness, risk mitigation and efficiency.

How we are organized

Our Group functions include the following major areas: Group Services (which consists of the Group Operations and Technology Office, Group Compliance, Regulatory & Governance, Group Finance, Group Risk Control, Group Human Resources and Corporate Services, Communications & Branding, Group Legal, the Group Integration Office, Group Sustainability and Impact and the Chief Strategy Office) and Group Treasury.

Virtually all costs incurred by the Group functions are allocated to the business divisions, leaving a residual amount that we refer to as Group Items in our segment reporting in accordance with IFRS Accounting Standards. Certain activities are retained centrally, where not directly related to the businesses, such as group hedging and own debt activities in Group Treasury and certain other costs that are mainly related to deferred tax assets and costs relating to our legal entity transformation program.

Most of our employees in the Group functions are employed by UBS Business Solutions AG or another of our service company subsidiaries of UBS Group AG. The costs of the Group functions employees in UBS Business Solutions AG are reflected as compensation expense in UBS Group AG reporting and as general and administrative expense in UBS AG reporting.

Group Services

The vast majority of the support and control functions are fully aligned or shared among the business divisions. The activities of the businesses and support and control functions are closely aligned to improve efficiency and create a working environment built on accountability and collaboration.

Group Treasury

Group Treasury manages balance sheet structural risk (e.g. interest rate, structural foreign exchange and collateral risks), as well as the risks associated with our liquidity, capital and funding portfolios. Group Treasury serves all five business divisions, and its risk management is integrated into the Group risk governance framework.

Our environment

Market environment

Global economic developments in 2024[1]

Although global economic growth slowed slightly in 2024, to 3.2% from 3.4% in 2023, there was more growth than had been expected, helped by the strength of the US economy, slowing inflation, and central bank rate cuts.

The resilience of the US economy was the main surprise relative to projections coming into 2024. Robust consumer spending and greater business investment in artificial intelligence (AI) helped US GDP to grow by 2.8%, close to the 2.9% increase registered in 2023.

Growth in other developed economies was more muted. The Eurozone's GDP expanded by 0.7%, which was marginally better than the 0.5% registered in 2023. Germany was the main drag, with the region's largest economy held back by weak consumer demand, high energy prices and challenges in major export markets, including intensifying competition to its important automotive industry. In contrast, Swiss GDP growth accelerated to 1.4%, up from 0.7% in 2023, with improving consumer demand offsetting weakness in the manufacturing sector.

China's post-pandemic rebound continued to be disappointing, with GDP growth at 4.8%, compared with 5.2% in 2023. Consumers were cautious about spending against a backdrop of job insecurity and falling property prices. Stimulus from the government came late in the year and has yet to revive consumer confidence.

Inflation continued its trend toward normalization after the multi-decade highs experienced in the wake of the COVID-19 pandemic. Lower inflation in the Eurozone and the UK led the European Central Bank and the Bank of England to cut rates by 100 basis points and 50 basis points, respectively. Meanwhile, low inflation in Switzerland (1.1% in 2024) led the Swiss National Bank (the SNB) to cut interest rates by 125 basis points. The US Federal Reserve cut interest rates by 100 basis points, less than had been expected earlier in 2024. The consumer price index in the US rose 2.9% in the year to December 2024, compared with 3.4% in 2023.

Strong US earnings growth, lower interest rates, and optimism about AI helped the S&P 500 deliver a 25% return, contributing to a 20.7% return for the MSCI All Country World Index. The MSCI Europe index gained 10.3%, with the MSCI Switzerland returning 6.6%. Emerging market equities returned 8.1% in US dollar terms, with the MSCI China returning 19.8%, helped by government pledges of more forceful stimulus.

It was a volatile year for bond markets, amid shifting expectations over the timing, pace and magnitude of interest rate cuts from central banks. The yield on 10-year US Treasuries rose from 3.9% at the start of 2024 to 4.6%, boosted by stronger US economic data and the anticipation of higher inflation under the new US administration. The yield on 10-year German bunds also rose, despite concerns over weak growth in Germany and the Eurozone.

Economic and market outlook for 2025[1]

We expect economic uncertainty to remain high in 2025, with the potential for significant policy developments from the new US administration and with geopolitical risks still elevated. However, our base case is for 2025 to be another resilient year for the global economy, and our projections show only a slight slowing of global GDP growth, to 3.0% in 2025.

In the US, we expect healthy consumption, further easing of fiscal policy and interest rate cuts from the Federal Reserve. This should help mitigate the potential drag from higher trade tariffs. Our base case is for US GDP to grow by around 2%. The prospect of higher tariffs on exports to the US could prove a headwind to growth in Europe and Asia. Although China could counter with further stimulus, we expect growth there to slow further, to 4.0% in 2025, due to the continued weakness in the property market and consumer demand. For the Eurozone, we expect growth to stabilize, with GDP increasing by 0.9% in 2025, as falling interest rates and higher levels of savings support both consumer spending and corporate investments. For Switzerland, we expect GDP growth of 1.3%, supported by stronger external demand from the Eurozone.

Regarding interest rates, we still see Federal Reserve rates as restrictive and expect further cuts in 2025, despite the resilience of the US economy. Our view is that subdued growth and slowing inflation in the Eurozone will prompt the European Central Bank to continue cutting interest rates in 2025. We also expect the SNB to further cut rates amid low inflation.

We expect a combination of continued economic growth, monetary easing, and advances in AI to contribute to another positive year for the S&P 500. Although a relaxation of regulations on businesses by the incoming US administration could further support stocks, international markets could face pressure from US tariffs.

We see only a modest downside to government bond yields, as resilient US growth and above-target US inflation partially offset the likely impact of lower central bank interest rates. We believe that the threat of tariffs and geopolitical uncertainty are likely to maintain the strength of the US dollar for at least the first half of 2025.

1 Based on the following sources: Haver Analytics, CEIC, National Statistics and UBS.

Industry trends

Although our industry has been significantly affected by various regulatory developments in recent years, technological transformation and changing client expectations continue to emerge as key drivers of change today, increasingly affecting the competitive landscape, as well as our products, service models and operations. In parallel, our industry continues to be materially driven by changes in financial markets, macroeconomic conditions and geopolitical conditions.

Emerging Technologies

The pace of innovation and emerging technology adoption continues to accelerate in our industry. Artificial intelligence (AI) in particular is creating an opportunity to significantly enhance client service and employee efficiency and transform business operations. Financial institutions are finding ways to accelerate the adoption of AI in a risk- and regulatory-compliant manner and with ethical and sustainability considerations in place. Meanwhile, the shift from digitalizing and automating existing processes to digital-as-default solutions is already well underway.

Staying abreast with emerging technologies is key, while also taking into consideration the need for continued human interaction, a component that continues to be an important competitive factor. Generative AI has enabled organizations to utilize AI well beyond data scientists, broadening the scope for its application and its associated benefits. Agentic AI, now in its infancy, offers potential to significantly enhance both quality and productivity across sectors. As technology evolves, so does the associated risk landscape, but the focus remains on safeguarding our clients and their data, with the evolution of AI governance as an area of strategic importance. The widespread implementation of AI introduces the need for evolutionary change relating to the workforce. Organizations must invest in their people and upskilling and / or reskilling employees in the field of AI will be key for all aspects of this journey from ideation through development and then adoption.

Digital communication, with clients and employees alike, has established new remote ways of working, enabling financial services providers to attract an even wider array of talent than before. The digitalization of the financial services sector has led to a structural shift in the workforce as more and better engineers are required to keep banks at the forefront of technology.

Continuous investment in technology is driving automation and simplification of labor-intensive processes, improving banks' operational efficiency, and freeing up resources to focus on client needs. Decision-making is becoming increasingly data-driven, with advanced analytics and AI enabling banks to address client needs in an even more targeted manner. In a consistently connected, open, and location-independent financial services ecosystem, the focus lies on adopting open-source technology, including cloud-native and modular architecture, to drive innovation and open exchange.

Distributed ledger technology (DLT), such as blockchain, is reshaping finance by improving efficiency, security and accessibility. As both regulation and technology evolve, the banking industry is gradually embracing DLT and its applications, e.g. tokenized assets and digital currencies. This shift will not only enhance efficiency but also open new opportunities, such as broader market access for alternative and private equity investments, instant 24/7 settlement, improved traceability, and real-time data. Moreover, DLT is paving the way for innovation within such concepts as privacy and identity management and could unlock new business models and products which offer a seamless user experience.

Generative AI in wealth management

Generative AI has a transformative impact on the entire wealth management value chain and is already starting to shape the future of our industry. The most promising opportunities are expected from innovation in client acquisition, onboarding and servicing, as well as internal support.[1]

For the benefit of our clients and to further empower our advisors, we are also leveraging investments in the AI space. We are using AI-powered tools to enhance our capabilities and platforms, for example Red, our internal chatbot that builds on generative AI capabilities, was rolled out to around 7,000 employees in the fourth quarter of 2024. In the US, 13 million AI-generated insights were delivered to US advisors in 2024. We are also connecting our clients with leaders in the AI space and providing them with thought leadership, content and solutions regarding AI investment opportunities.[2]

Sustainability

Sustainable finance continued to be high on the policy agenda but with implementation of prescriptive legislation diverging across jurisdictions.

- **Refer to "Regulatory trends" in the "Regulation and supervision" section of this report for more information about regulatory policy trends in sustainable finance**
- **Refer to the "Regulatory and legal developments" section of this report for more information about developments related to environmental, social and governance matters**

In 2024, sustainability-oriented public market investment funds recorded a new high of USD 3.2trn.[3] While the level of inflows decreased compared with previous years, investors continued to allocate to sustainability-oriented funds and ETFs. Investments into alternative asset classes, including hedge funds, real estate and infrastructure, continued throughout 2024. The share of sustainable-investing private-market fundraising in total reached an all-time high.[4] In sustainable financing markets, global thematic sustainable bond markets (including green, social, sustainable and sustainability-linked bonds, referred to as labeled bonds) saw issuance increase 16% year on year,[5] nearly reaching the record issuance achieved in 2021, which benefited significantly from COVID-19-related supply factors.

Finance has an important role to play as companies and individuals consider how best to approach the global economy's transition to a more sustainable, lower-carbon world. Banks and investment managers can support this transition by effectively and efficiently allocating capital and helping to mobilize the vast amounts of investment and financing required. We continue to build on our offering and develop the innovative products and solutions that our institutional and private clients need both to manage the risks and capture the opportunities presented by the transition to a low-carbon economy.

- **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about sustainability matters**

Client expectations

As technology progresses, so do clients' ways of living, working and interacting with others. This is reshaping clients' expectations toward financial services firms, as their reference points are increasingly influenced by experiences with companies outside the sector, where technology-supported and data-driven solutions progressively facilitate a more tailored client experience, which is delivered on time and seamlessly. These services often focus on convenience, flexibility, transparency and personalization, and drive toward holistically addressing clients' needs and facilitating community building. We expect the adoption of generative AI to accelerate these expectations. Our industry needs to continue evolving, as clients measure us against new standards.

Recent geopolitical, macroeconomic and societal shifts, including the focus on digitalization, have re-emphasized values such as security, trust and stability, as well as the need to have a credible plan toward a sustainable future, leading to an increased focus on investment, financing and advisory products and services that fit clients' own sustainability preferences and ambitions.

Consolidation

Many regions and businesses in the financial services sector are still highly fragmented. We expect further consolidation, with the key drivers being ongoing margin pressure, a push for cost efficiencies and increasing scale advantages resulting from fixed technology costs and regulatory requirements. Many stakeholders in the financial services sector continue to seek increased exposure and access to regions with attractive growth profiles, such as Asia and other emerging markets, through local acquisitions or partnerships, as well as acquiring new capabilities addressing changes in market dynamics and overall client demands. The increased focus on core capabilities and geographical footprint, as well as the ongoing simplification of business models to reduce operational and compliance risks, is likely to drive further disposals of non-core businesses and assets. While banks already face increasing challenges from digitalization needs and intensified competition, uncertain macroeconomic and geopolitical conditions across major economies might create further pressure.

New competitors

Our competitive environment is evolving. In addition to traditional competitors in the asset-gathering businesses, new entrants are targeting selected parts of the value chain. We continue to observe a growing supply of private credit from private-debt funds, facilitating an industry shift in lending volumes for high-yield lending products. However, we have not yet seen a fundamental unbundling of the value chain and client relationships, which might ultimately result in the further disintermediation of banks by new competitors. Over the long term, we believe large platform companies also pose a threat to incumbent financial services firms, given their strong client franchises and access to client data, if they decide to broaden the scope of their services. While fintech firms continue to gain momentum, we do not expect a material disruption to our asset-gathering businesses, as their long-term success will inevitably depend on their ability to navigate our regulatory landscape, build customer trust and maintain innovation. The trend for forging partnerships between new entrants and incumbent banks will therefore continue, as technology and innovation help banks overcome new challenges and create new opportunities.

Wealth development

General overview of wealth development

After a decline in 2022, global financial wealth grew by around 7% in 2023 to an estimated USD 275trn at year-end. The recovery was mainly driven by the robust performance of public equity markets. Gains were especially strong in North America, where financial assets grew by USD 10trn (9% growth), accounting for more than half of the new global financial wealth in 2023. The recovery was less strong in Western Europe and Asia Pacific, where financial assets in 2023 grew by USD 2trn (4% growth) and USD 3trn (5% growth), respectively. China recently experienced a slowdown in wealth creation, but together with India, is expected to see further increases in wealth in the coming years. On average, global financial wealth is expected to grow at 6% per year until 2028.[1]

Almost half of the world's financial wealth was concentrated in the Americas (49%), followed by Asia Pacific (27%), Europe (21%) and the Middle East and Africa (3%).[1]

Looking at our invested assets, half were concentrated in the Americas (50%), while the remaining half was split between Europe, the Middle East and Africa (34%) and Asia Pacific (16%).

Wealth segment view[6]

While growth in 2023 was seen across all high net worth individual (HNWI) wealth bands, the segment with individuals holding wealth between USD 1m and USD 5m experienced the strongest percentage increase, both in terms of population and wealth (i.e. both growing by 5.2%, respectively). This segment (with USD 1m to USD 5m in wealth) represents 90% of all HNWIs and accounts for 43% of total HNWI wealth. Individuals holding wealth between USD 5m and USD 30m currently represent 9% of the HNWI population and hold 23% of HNWI wealth.

The ultra high net worth individual (UHNWI) segment (individuals with wealth in excess of USD 30m) experienced the highest absolute growth in wealth, while remaining the most concentrated wealth band accounting for 1% of the HNWI population and representing 34% of total HNWI wealth.

Wealth transfer

About USD 84trn of collective wealth is expected to be transferred in the next 20 to 25 years, and the majority of these asset transfers are likely to occur within the next 10 years. An aggregate of more than USD 50trn in wealth transfers is expected to occur in the Americas, followed by roughly USD 20trn in EMEA, and USD 10trn in Asia Pacific.[7] As over 70% of heirs are inclined to change financial advisors upon inheriting, it is crucial for wealth managers to introduce advisors early to the next generation and start working to meet evolving clients' needs on both sides of the intergenerational transfer.[8] UBS has a comprehensive global offering from family advisory through business succession and wealth planning to philanthropy, addressing all aspects of the client situation and catering for a wide range of client and family needs related to succession. Moreover, our global flagship programs provide a great opportunity to engage with the next generation early on, and also give them exclusive access to the Young Investors Organization, the industry's first and largest community of UHNW peers (1,800+ members).

Female investors

It is predicted that by 2025 35% of total private investible wealth will be in women's hands.[9] The share has been steadily increasing due to factors such as higher workforce participation, a rise in the number of businesses owned by women, cultural attitudes and intergenerational wealth transfers. Between 2015 and 2024, the number of female billionaires grew to 344 from 190, a rise of 81%, mainly driven by self-made billionaires. From a wealth perspective, female billionaires' assets have increased 153% to USD 1.7trn.[10]

UBS has had a dedicated advisory approach tailored to the needs and goals of female investors since 2017. For the second year running, UBS was highly commended in the Best Private Bank for Wealthy Women category at the *PWM / The Banker* awards in 2024.

Entrepreneurs

There is a significant shift in the composition of the wealthy population, as self-made UHNWIs are outpacing those that inherit their wealth. The proportion of self-made UHNWIs has risen in the last six years to over 70%, driven in part by an increasing number of younger entrepreneurs.[6] We offer access to community platforms tailored to entrepreneurial needs and, through strategic collaborations, we have created an entrepreneurial ecosystem that provides access to the right partners and resources. Starting in 2025, we are further empowering entrepreneurs with flagship reports for better-informed business decision-making.

Diverging regional and industry trends present investment opportunities

In 2024, US stocks outperformed other regional markets by a significant margin, and the topic of AI still dominated sector returns. US economic growth held up well, and investor expectations were further boosted by the outcome of the US elections, while growth in Europe and China was constrained by domestic and geopolitical headwinds. Inflation slowed, enabling central banks around the world to start easing monetary policy. The correlation between equities and government bonds returned to negative territory for the first time since 2022, which contributed to investor appetite for fixed income. Credit spreads tightened to the lowest level since 2007, also supporting fixed-income portfolio returns. Alongside this, the long-term trend of investors shifting toward low-cost indexed capabilities and diversification into alternatives continued to play out.

While the sharp rise in global bond yields in recent months has created volatility across various asset classes, we believe fixed-income valuations have improved significantly. Returns on equities and fixed income should be closer than they have been in the last two years, with higher valuations in equities contributing to lower but still positive returns, with fixed income offering more attractive yields. Regional disparities will depend greatly on the degree of severity of tariffs imposed by the new US administration.

The breadth of our investment expertise and capabilities across asset classes and investment styles enables us to find the right solutions for clients as the environment evolves.

How we create value for our stakeholders

Clients

Our clients are at the heart of our business. We are committed to building and sustaining long-term relationships based on mutual trust, integrity and respect. Understanding our clients' needs and expectations enables us to best serve their interests and to create value for them.

A combined firm with expanded reach and capabilities for clients

The combination of the wealth management businesses of UBS AG and Credit Suisse AG, with their complementary footprints across locations and client segments, supports one of the core pillars of our client value proposition in Global Wealth Management: with our distinctive approach to wealth management and by offering advice, expertise and solutions, we help our clients pursue what matters most to them. All our Global Wealth Management clients now have access to the *UBS House View* by our Chief Investment Office, and we continue to align our wealth management product, service and solution offerings, helping clients to grow, protect and transfer their wealth.

We are the leading bank in Switzerland, leveraging the strength of the newly merged Swiss businesses to broaden our services and to promote innovation to our clients. The legal merger of two entities, UBS Switzerland AG and Credit Suisse (Schweiz) AG, was completed on 1 July 2024. We are taking on the integration with the utmost care and intend to spend the time needed to achieve the best possible outcome for our clients, our employees and the Swiss financial center.

The acquisition of the Credit Suisse Group brought together our highly complementary asset management businesses and enhanced the value that we provide to clients through expanded capabilities across key asset classes and growth markets. This included greater scale in customized indexing, an enhanced offering in alternatives (including a leading credit franchise) and an increased presence in the US and Asia.

The acquisition of the Credit Suisse Group strengthened the Investment Bank's competitive positioning. It deepened our capabilities in core products and services, enabling us to deliver services to a broader institutional and corporate client base, while bringing us critical mass in key markets. The Investment Bank is also better positioned to serve Global Wealth Management clients, offering investment banking capabilities and further enhancing connectivity with our wealth management clients.

Engaging with our clients

Our clients' needs and their preferred communication channels continually evolve. Our objective is to engage with clients in the ways most convenient for them. We use a variety of channels, in particular digital channels and regular client relationship and service meetings, as well as various corporate roadshows and dedicated events, with a mix of hybrid and in-person events.

Global Wealth Management interacted with its clients through a broad range of forums and channels in 2024, from personalized private briefings with subject matter experts to segment-specific virtual and in-person events and large-scale initiatives. Through marketing and media campaigns, events, advertising, publications and digital-only solutions, we helped drive greater awareness of UBS among prospective clients and reinforced trust-based relationships between advisors and clients. We proactively engaged with clients to reassure them about the acquisition of the Credit Suisse Group and highlighted the benefits of the combined organization for them. This was done through individual meetings and calls and by opening up certain flagship events and conferences to clients of the combined firm. Our global footprint means that we were well positioned to take advantage of the opportunities in every region. We have continued to deliver capabilities to clients, for example through digitally enabled e-banking and sales tools, while also setting up new units, such as Global Wealth Management Solutions, Unified Global Banking and Unified Global Alternatives, adding even greater connectivity across all our businesses. We have also continued to roll out artificial intelligence (AI) to positively impact our business and serve our clients better. We expect generative AI will continue to help us generate more personalized advice and solutions more quickly and in a sustainable and responsible way, ensuring a more efficient experience for our clients around the globe.

Personal & Corporate Banking holds regular client events (leveraging a number of formats, such as webcasts and in-person, virtual or hybrid events), covering a wide range of topics. In 2024, we further enhanced our digital engagement strategies to reach more clients and strengthen relationships with existing ones. We utilize various channels, including social media, online displays, search engines and helplines, as well as our branch network.

In Asset Management, we continue to host our global program of client events and engagement activities. These include our annual *The Red Thread* market outlook roadshow, which we host in key locations across the world, as well as our flagship *UBS Reserve Management Seminar*, which marked its 30th year of operation in 2024. The event brings together institutional investors to debate relevant topics and share best practices, and the accompanying survey provides one of the most authoritative depictions of central banks' investment views. Alongside this, our teams continued the high level of interaction with clients globally, supported by digital tools and our publication of macro and thematic insights. We also hosted a broad range of hybrid events, including our investment series, to help our clients better understand market challenges and opportunities, and we continued to engage with clients through our social media and online channels.

The Investment Bank hosted more than 240 conferences and educational seminars globally in 2024, providing clients with access to corporations, experts, research and capital introductions. The events covered a diverse range of topics, including macroeconomic, geopolitical and sector- and region-specific themes, in addition to regulatory, product and market trends. More than 50,000 clients took part in such events over the year. We leverage our intellectual capital and relationships and use our execution capabilities, differentiated research content, bespoke solutions, client franchise model and global platform to expand coverage across a broad set of clients. *UBS Live Desk,* built within the *UBS Neo* platform, provides clients with a stream of fast-paced commentary from UBS traders. The *UBS Analytical Research Community (UBS-ARC)* is a proprietary, interconnected research network of industry leaders, subject matter specialists, executives, academics and analysts in the Americas region.

Investors

We aim to drive sustainable, long-term value creation for our investors by executing our strategy and growth and integration plans, while maintaining risk and cost discipline, and delivering attractive shareholder returns through the cycle.

Investor base

Our investor base is well diversified. A substantial proportion of our institutional shareholders are based in the US, the UK and Switzerland.

› **Refer to the "Corporate governance" section of this report for more information about disclosed shareholdings**

Alignment of interests

Our compensation philosophy and practices are aimed at aligning the interests of our employees with those of our equity and debt investors.

› **Refer to "Our compensation philosophy" in the "Compensation" section of this report for more information**

We are focused on driving sustainable long-term growth while maintaining risk and cost discipline

Our objective is generating value for all of our stakeholders by delivering sustainable growth over the cycle. In the short term, our main priorities are making further progress with the integration of Credit Suisse, rightsizing the cost base, optimizing the balance sheet and continuing to invest strategically in our people, technology, products and capabilities, as we position the firm for long-term growth. We expect that by the end of 2026 and beyond, this will enable us to deliver significant value for all our stakeholders and remain a reliable economic partner, employer and taxpayer in the communities where we operate. Moreover, we are aiming to maximize our social and environmental impact and that of our clients to create long-term sustainable value.

Our primary measurement of the Group's financial performance is underlying return on common equity tier 1 (CET1), as regulatory capital is our binding constraint and drives our ability to return capital to shareholders.

› **Refer to the "Targets, capital guidance and ambitions" section of this report for more information**
› **Refer to "Our focus on sustainability" in this section for more information about our sustainability and impact strategy**

Balancing resilience, growth and attractive capital returns

Capital strength is a key pillar of our strategy, and we are committed to maintaining a balance sheet for all seasons. This is also reflected in our intention to maintain a Group consolidated CET1 capital ratio of around 14%, a Group consolidated CET1 leverage ratio above 4.0% and a UBS AG standalone CET1 capital ratio between 12.5% and 13.0%.

At the same time, we remain committed to investing in organic growth opportunities and delivering attractive returns to investors.

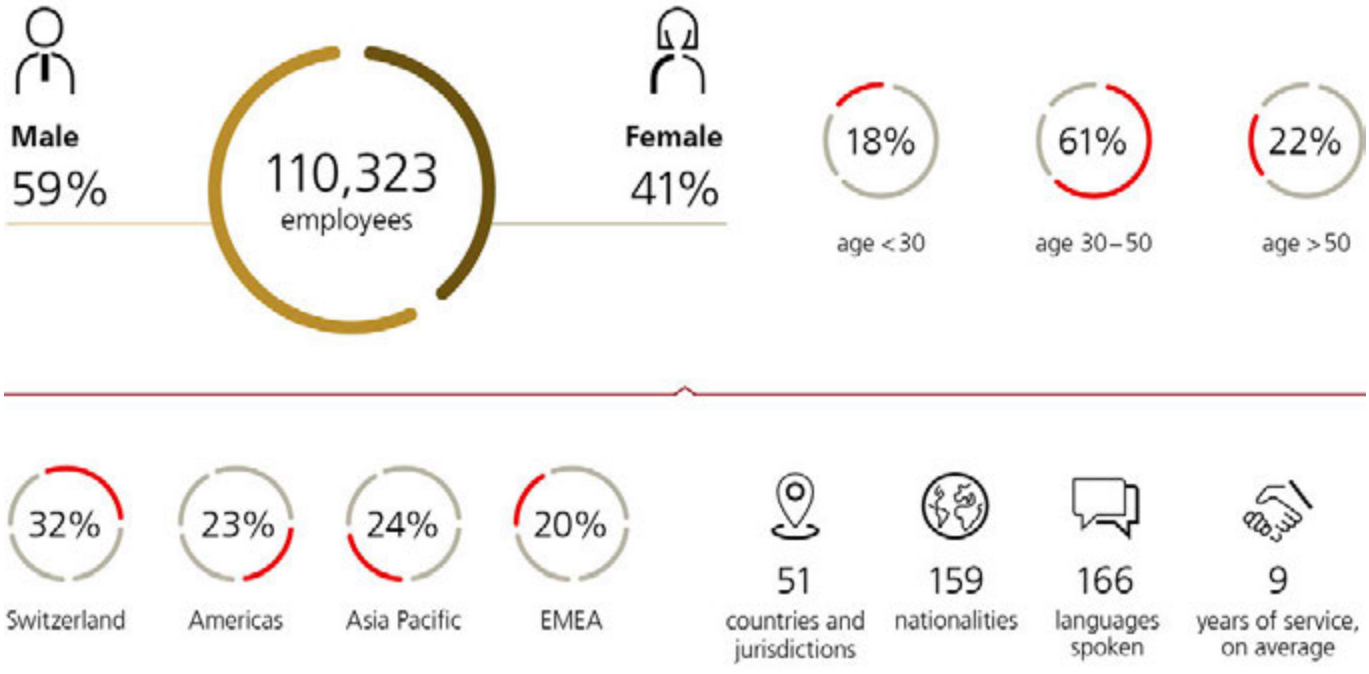
We remain committed to distributing excess capital to shareholders, in the form of dividend and share buybacks. For the 2024 financial year, the Board of Directors plans to propose a dividend to UBS Group AG shareholders of USD 0.90 per share, a 29% increase year on year. We remain committed to progressive dividends and are accruing for an increase of around 10% in the ordinary dividend per share for the 2025 financial year.

We plan to repurchase USD 1bn of shares in the first half of 2025. We aim to repurchase up to an additional USD 2bn of shares in the second half of 2025, and we are maintaining our ambition for share repurchases in 2026 to exceed full-year 2022 levels of USD 5.6bn. Our share repurchases will be consistent with maintaining our CET1 capital ratio target of around 14%, achieving our financial targets and the absence of material and immediate changes to the current capital regime in Switzerland.

› **Refer to "UBS shares" in the "Risk, capital, liquidity and funding, and balance sheet" section of this report for more information**

Communications

Our Investor Relations (IR) function is the primary point of contact between UBS and our shareholders. Our senior management and IR regularly interact with institutional investors, financial analysts and other market participants, such as credit rating agencies. Clear, transparent and relevant disclosures, and regular direct interactions with existing and prospective shareholders, form the basis for our communications. The IR team relays the views and feedback on UBS from institutional investors and other market participants to our senior management.



IR and our Corporate Responsibility function work together and interact with investors interested in sustainability topics relevant to UBS and the wider society.

› **Refer to the first part of the "Corporate governance" section of this report and "Information policy" in that section for more information**
› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Employees

Our employees drive our success. We therefore invest in measures to attract, develop and retain a highly skilled and diverse range of talent, and we aim to ensure a workplace culture that engages and supports our employees, enabling them to unlock their full potential.

Our workforce in a nutshell[1,2]

1 Calculated as of 31 December 2024 on a headcount basis of 110,323 internal employees only (108,648 FTE). The number of external staff as of 31 December 2024 was approximately 20,335 (workforce count). 2 Gender data is self-reported in HR systems and does not include those who have chosen not to disclose as a male or female employee.

The three keys and our corporate culture

Our culture is grounded in our three keys to success: our *Pillars, Principles and Behaviors*. These keys support our business decisions and our approach to people management. Bringing together two global systemically important banks and building a unified culture across our combined organization continued to be top priorities in 2024, overseen by a dedicated culture integration forum. In addition, the Corporate Culture and Responsibility Committee of the Board of Directors monitors and reviews the activities related to the development of the Group's corporate culture.

We support culture building through a number of Group-wide, divisional and regional initiatives. Examples include a global initiative called *Crafting our future*, which uses interactive in-person sessions to ensure leaders at all levels are aligned with our strategic priorities and our culture. The *Group Franchise Awards* program recognizes employees for cross-divisional collaboration and for suggesting innovation or simplification ideas. Similarly, our global *Kudos* peer-to-peer appreciation program encourages employees to recognize their colleagues' exemplary behavior. All these initiatives serve to promote excellence, foster belonging and increase engagement and employee satisfaction.

- **Refer to *ubs.com/global/en/our-firm/our-culture.html* for details about our three keys to success**
- **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Hiring, developing and retaining talent

We hired a total of 8,525 external candidates across the Group in 2024 and developed 2,168 graduates and other trainees, apprentices and interns through our junior talent programs. We actively promote multi-year apprenticeship programs in Switzerland and the UK, along with summer internship programs in the US, EMEA, Asia Pacific and Switzerland.

In 2024, most employees were eligible to work partially from home, depending on their role, regulatory restrictions and location, as well as divisional or functional requirements. Such arrangements, along with options including part-time working, job sharing and partial retirement, support employee engagement and retention and help us attract a wider range of candidates.

Talent management and development

We want our employees to be able to build long and successful careers with us. Our talent management approach includes structured talent and succession reviews to help us identify future leaders, ensure business continuity and proactively manage employee development. Our Group-wide talent offering is supplemented by specific programs in the business divisions, functions and regions. These programs cater to a broad audience, ranging from senior leaders to emerging junior talent.

Internal mobility is a key component of our approach, with line managers expected to support individual development and job mobility. In 2024, 52.6% of all roles were filled by internal candidates. Employees are encouraged to explore career paths, search for jobs and short-term rotations, and connect with mentors on our *Career Navigator* platform.

Internal training is delivered via our *UBS University* platform. Our offering includes client advisor certification and regulatory, business, and line manager training, along with modules on culture, sustainable finance, artificial intelligence, data literacy, well-being and other topics. We invested approximately USD 0.1bn in training in 2024, with employees completing more than 3.0 million learning activities (including mandatory training) for an average of 24.8 training hours per employee. In addition to internal training, we partnered with a leading external provider in 2024 to offer thousands of additional learning opportunities to all staff.

Performance management

Our performance management approach (*MyImpact*) reflects our strategy and supports our high-performance culture. Performance and behavior objectives help the firm assess both what an employee accomplishes and how our *Behaviors* (accountability with integrity, collaboration and innovation) are demonstrated. Regular check-ins, along with an embedded feedback app, enable employees to give and receive feedback throughout the year, supporting continuous improvement.

Fair and equitable pay

Fair and consistent pay practices are designed to ensure employees are appropriately rewarded for their contribution. We pay for performance, and we take pay equity seriously. We have embedded clear commitments in our compensation policies and practices and apply the same standards across all locations. We annually review our approach and policies, in line with established equal pay methodologies, to support our continuous improvement.

As part of our commitment to equal pay, we regularly conduct internal reviews on pay equity, and our statistical analyses show a differential between male and female employees in similar roles across our core financial hubs of less than 1%. If we find any gaps not explained by business or by appropriate employee factors, such as role, responsibility, experience, performance or location, we look at the root causes and address them.

We also aim to ensure that all employees are paid at least a living wage. We regularly assess employees' salaries against local living wages, using benchmarks defined by the Fair Wage Network. Our analysis in 2024 showed that employees' salaries were at or above the respective benchmarks.

› **Refer to the "Compensation" section of this report for more information**

Workforce inclusion

We are committed to being a diverse and inclusive workplace based on meritocracy, and we aim to build a culture of belonging, where all employees are recognized and valued, and where everyone can be successful and thrive. We aim to hire and retain the best people for the right roles, to deliver for our clients, our businesses, our shareholders and the communities we serve. In order to achieve this, we have a diverse workforce with a variety of skills, experiences and backgrounds that reflects the diversity of our clients to serve them at our best. It is also critically important to us that we respect an environment where all our employees are treated fairly and able to reach their potential. In every location in which we operate, we continue to act in accordance with the current law and regulations and will monitor any changes to ensure we remain consistent.

Our workforce inclusion strategy is built on four pillars: transparency, hiring, developing and belonging. We leverage these four pillars to help support our entire workforce across a variety of personal characteristics, including, but not limited to, gender, culture, race, ethnicity, sexual orientation and identity, disability, family, veteran status, and generations, to create an inclusive culture for everyone.

Transparency is the foundation framework through which we enable leaders to deliver the strategy, and everyone is held responsible. We leverage various communications channels and line manager objectives to drive awareness, benchmarking, thought leadership and feedback to inform the strategy, and data monitoring with respective characteristics, including management dashboards and toolkits, to support our entire workforce.

Furthermore, our strategy is reinforced by our public commitments to support all employees, including, but not limited to, the UN Women's Empowerment Principles, the Valuable 500 and the Race at Work Charter (UK). A sense of belonging helps drive engagement and is important for overall well-being. Inclusive leadership and fair and transparent policies and practices provide organizational support for belonging, and vital to these efforts are our various employee network chapters across the firm that connect employees on a variety of employee-led topics. Our networks, which are open to all employees, also supplement members' awareness, development, and support through mentoring, reverse mentoring and allyship programs.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, and to *ubs.com/inclusion* for more information about workforce inclusion at UBS**

Employee engagement and support

Our multi-faceted listening strategy is adaptable and captures feedback in a timely way. We conduct employee life-cycle surveys, short "pulse" surveys to understand what is on top of employees' minds and in-depth analyses, such as virtual focus group sessions. In 2024, those conversations allowed participants from every business division and function to share their perspectives and insights on the integration and provided employee sentiment data points to track progress. Group-wide surveys measure cultural indicators such as line manager effectiveness and employee engagement. Our 2024 Group-wide survey, which featured a 77% employee response rate, assessed indicators such as line manager effectiveness, engagement, culture and pride. An engagement score of 83% in that same survey confirmed that our employees recommend us as an employer. All of these scores were above the financial services benchmark.[1] We continue to strive to be an employer of choice in the financial sector.

We are committed to being a responsible employer and that includes supporting our employees' overall health and well-being. Social, physical, mental and financial well-being elements are woven into our HR policies and practices, as well as into employee education initiatives. Employee support includes a dedicated well-being portal that consolidates our global offering and promotes regional networks, initiatives and resources. Furthermore, employee assistance programs and internal teams help employees and their family members manage personal or work-related issues that may affect their well-being. Our *#WorkingWithCancer* commitment includes a mentorship program and informational sessions.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about our workforce, our people management approach and relevant data**

1 Benchmarks provided by Ipsos Karian and Box as of the third quarter of 2024.

Society

We aim to support the transition to an economy that considers the well-being of people and planet. Through the UBS Optimus network of foundations (the UBS Optimus Foundation), which is an independent network, and in partnership with philanthropists, employees, implementation organizations and institutional partners, we want to find innovative ways to drive systemic and catalytic impact for marginalized communities at scale, both globally and locally, especially for children and young people. In 2021, we set a goal of mobilizing USD 1bn in philanthropic capital (which was reached in 2024) and reaching more than 26.5 million people by the end of 2025 (cumulative total since 2021).

We know working together is key to achieving this impact and systemic change. That is why, in addition to providing insights, advice and execution services to clients and prospective clients, we have increased our efforts in the areas of blended finance, collaborative philanthropy and impact transparency.[1] In blended finance, we have facilitated opportunities and partnerships in innovative financing structures leveraging public and private capital. In collaborative philanthropy, we have brought together clients and partners on joint initiatives addressing global issues, such as improving the quality of primary school education in Ghana and Colombia. Additionally, our new impact rating tool, introduced in 2024, simplifies assessment of impact across projects, sectors and solutions, aligning with established methodologies, such as the Impact Management Project's dimensions of impact.

Our clients and partners are invited to be part of our impact ecosystem by supporting various initiatives and approaches.

Blended finance

The UBS Optimus Foundation partners with clients, governments, development finance institutions and our business divisions to promote and launch blended finance initiatives that use catalytic capital from public and philanthropic sources to increase private-sector investment in sustainable development.

UBS Collectives

Our three *UBS Collectives* bring philanthropists together to co-fund programs, share knowledge and join a unique learning journey. This includes insight trips, where the philanthropists work and exchange knowledge with experts and experience the impact on the ground.

The *UBS Collectives* were launched in 2020 and focus on issues central to our strategy: innovative financing of education and health outcomes (the *UBS Accelerate Collective*), catalyzing the blue-carbon market (the *UBS Climate Collective*), and promoting and implementing family-based care (the *UBS Transform Collective*). The first cohorts concluded their journey at the end of 2024, contributing their time and expertise to support 23 UBS partners across eight countries.

› **Refer to the UBS Optimus Foundation Annual Review 2023, available at *ubs.com/optimus-foundation/annual-review*, for more information**

UBS Global Visionaries

Through our UBS Global Visionaries program, we aim to accelerate the impact of social entrepreneurs by: (i) creating opportunities for the entrepreneurs to connect with our clients, prospective clients and employees; (ii) increasing the entrepreneurs' abilities through learning and coaching programs; and (iii) raising awareness of the entrepreneurs' endeavors by leveraging our brand and platforms. Since the program started in 2016, we have onboarded and supported 90 entrepreneurs to accelerate their impact.

Helping our clients structure their philanthropy: donor-advised funds

Donor-advised funds offer clients an alternative charitable-giving vehicle to set up their own foundations, offering greater choice and personalization, and are managed in line with their usual investment approach. UBS offers these services in Switzerland, Singapore, the UK and, since 2023, the Hong Kong SAR. In 2024, USD 329m in donations was received into these UBS charitable entities.[2]

The UBS Optimus Foundation

In 2024, the UBS Optimus Foundation raised USD 366m in donations, including UBS matching contributions, and committed USD 310m in grants from the foundations.[2,3]

In 2024, the UBS Optimus Foundation celebrated its 25th anniversary by launching four initiatives[4] that build on our achieved impact and strategic partnerships. These initiatives will be supported by a USD 25m gift from UBS that will be used to provide matching contributions of up to 100%[5] and seed capital to launch them.

In addition to mobilizing our clients' resources to advance the missions of our portfolio of partners, we also seek to ensure both the firm and employees are engaged in our Social Impact strategy. We do this mainly through charitable contributions and employee volunteering.

Charitable contributions

We have provided direct cash contributions through our affiliated foundations in Switzerland, through partnerships in the communities where we operate and through contributions to the UBS Optimus Foundation. The combined value of these contributions in 2024 was USD 74m.

Employee volunteering

We have global targets for employee engagement through volunteering, which are built from the bottom up and on a best-efforts basis. In 2024, we successfully engaged 32% of our global workforce in volunteering, and 39% of the 230,258 volunteer hours were skills based.

1 Currently, our impact transparency focus is on ensuring that all grants and investments supported by the UBS Optimus Foundation undergo consistent and transparent diligence, approval, management and reporting processes, in line with industry standards.
2 Figures provided for the UBS Optimus Foundation and donor-advised funds are based on unaudited management accounts and information available as of January 2025. Audited financial statements for the UBS Optimus Foundation and donor-advised foundation entities are produced and available per local market regulatory guideline.
3 The UBS Optimus Foundation receives donations from all of the business divisions, with the majority coming from Global Wealth Management.
4 Blue economy, innovative financing in tertiary education, scaling primary education and reaching the last mile for quality health care.
5 100% up to USD 10,000 and 25% thereafter.

Our focus on sustainability

We are guided by our ambition to be a leader in sustainability. This is reflected in our vision to be the bank for the next generation. To help us realize that vision, our sustainability and impact strategy is based on three overarching strategic pillars: Protect, Grow and Attract.

Sustainability and impact vision: the bank for the next generation		
Protect	**Grow**	**Attract**
Manage our business in alignment with our sustainable, long-term Group strategy and evolving standards	Embed an innovative sustainability and impact offering across all our business divisions	Be the bank of choice for clients and employees

Our sustainability and impact strategy

Protect

As part of our continued commitment to protect our clients' assets and those of our firm, we are focused on managing our business by aligning to the sustainable long-term Group strategy and evolving standards. We maintain a strong control and risk framework, as well as a robust sustainability data strategy, to support our risk management processes, regulatory requirements and product offerings.

Grow

We continue to expand our sustainability and impact offerings across all business divisions to meet our clients' evolving needs. For example, we identify and offer innovative sustainable financing and investment solutions, with the aim to support our clients through the world's transition to a low-carbon economy. To facilitate this, we established a dedicated Group Sustainability and Impact Business Development & Client Forum under the authority of the Group Executive Board (the GEB) Lead for Sustainability and Impact, focused on client, product and impact approaches.

Attract

We aspire to be the bank of choice for clients and employees alike, maintaining top quartile sustainability ratings and positioning UBS as the go-to employer through our engagement and education programs. In 2024, our MSCI AA rating was reaffirmed,[1] and we increased our S&P Global Corporate Sustainability Assessment (CSA) score to 72,[2] compared with 69 in 2023.

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for detailed information about UBS's sustainability strategy and activities**

Our sustainability and impact governance

Sustainability activities are overseen at the highest level of UBS, by the Board of Directors (the BoD) and the GEB, and are grounded in our Code of Conduct and Ethics (the Code).

› **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about UBS's sustainability and impact governance**

Our Code of Conduct and Ethics

In our Code, the BoD and the GEB set out the principles and practices that define our ethical standards, and the way we do business, which apply to all aspects of our business. All employees must affirm annually that they have read and will adhere to the Code and other key policies, supporting a culture where ethical and responsible behavior is part of our everyday operations. In our Code, we make a commitment to acting with the long term in mind and creating value for clients, employees, communities and investors. We aspire to play our part in creating a fairer and more prosperous society, championing a healthier environment and addressing inequalities. Every year, the BoD and the GEB conduct a review of our Code to ensure that developments key to our clients, employees and other stakeholders are reflected. Adjustments made in our 2024 review mainly focused on strengthening the language on accountability. As we continue to make progress with the integration of Credit Suisse, we will continue to carefully review our Code to ensure that it reflects matters of key relevance to the culture of the combined firm.

- **Refer to the Code of Conduct and Ethics of UBS, available at *ubs.com/code*, for more information**

Reporting to our stakeholders on our sustainability strategy and activities

Further information about our sustainability efforts and commitments is provided in the UBS Group Sustainability Report 2024. The content of that report has been prepared in accordance with the Swiss Code of Obligations (Art. 964a et seq).

- **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for an overview of non-financial disclosures in accordance with the Swiss Code of Obligations (Art. 964a et seq)**
- **Refer to "Sustainability and climate risk" in the "Risk management and control" section of this report, for UBS's sustainability and climate risk metrics disclosures as required by Annex 5 to FINMA Circular 2016/1 "Disclosure – banks"**

---

1 Source: MSCI ESG Ratings & Climate Search Tool, UBS Group AG ESG Rating 2024.

Regulation and supervision

As a financial services provider based in Switzerland, the UBS Group is subject to consolidated supervision by the Swiss Financial Market Supervisory Authority (FINMA). Our entities are also regulated and supervised by authorities in each country where we conduct business. Through UBS AG and UBS Switzerland AG, which are licensed as banks in Switzerland, UBS may engage in a full range of financial services activities in Switzerland and abroad, including personal banking, commercial banking, investment banking and asset management.

As a global systemically important bank, as designated by the Financial Stability Board, and a systemically relevant bank (an SRB) in Switzerland, we are subject to stricter regulatory requirements and supervision than most other Swiss banks.

- **Refer to the "Our evolution" section of this report for more information**
- **Refer to the "Integration of Credit Suisse" section of this report for more information**
- **Refer to the "Regulatory and legal developments" and "Risk factors" sections of this report for more information**

Regulation and supervision in Switzerland

Supervision

UBS Group AG and its subsidiaries are subject to consolidated supervision by FINMA under the Swiss Banking Act and related ordinances, which impose standards for matters such as capital adequacy and risk diversification rules, liquidity, internal control systems, business conduct, and corporate governance. FINMA meets its statutory supervisory responsibilities through licensing, regulation, supervision, and enforcement. It is responsible for prudential supervision and mandates audit firms to perform regulatory audits and other supervisory tasks on its behalf.

Capital adequacy and liquidity regulation

As an internationally active Swiss systemically important bank (an SIB), we are subject to capital and total loss-absorbing capacity (TLAC) requirements that are based on both risk-weighted assets and the leverage ratio denominator, and are among the most stringent in the world. We are also subject to liquidity requirements and to minimum long-term funding requirements for Swiss SIBs.

- **Refer to the "Risk, capital, liquidity and funding, and balance sheet" section of this report for more information about the Swiss SRB framework and the Swiss too-big-to-fail (TBTF) requirements**
- **Refer to "Liquidity and funding management" in the "Risk, capital, liquidity and funding, and balance sheet" section of this report for more information about liquidity coverage ratio and net stable funding ratio requirements**

Regulation and supervision outside Switzerland

Regulation and supervision in the US

In the US, UBS is subject to regulation and supervision by the Board of Governors of the Federal Reserve System (the Federal Reserve Board) under a number of laws. UBS Group AG and UBS AG are subject to the Bank Holding Company Act, pursuant to which the Federal Reserve Board has supervisory authority over our US operations.

In addition to being a financial holding company under the Bank Holding Company Act, UBS AG has US branches, which are authorized and supervised by the Office of the Comptroller of the Currency (the OCC). UBS AG and Credit Suisse International are registered as swap dealers with the Commodity Futures Trading Commission (the CFTC) and registered as securities-based swap dealers with the Securities and Exchange Commission (the SEC).

UBS Americas Holding LLC is the intermediate holding company for our operations in the US outside of the UBS AG branch network, as required under the Dodd–Frank Act, and is subject to requirements established by the Federal Reserve Board related to risk-based capital, liquidity, the Comprehensive Capital Analysis and Review (CCAR) stress testing and capital planning process, and resolution planning and governance.

UBS Bank USA, a Federal Deposit Insurance Corporation (FDIC)-insured depository institution subsidiary, is licensed and regulated by state regulators in Utah and is also supervised by the FDIC.

UBS Financial Services Inc., UBS Securities LLC, Credit Suisse Securities (USA) LLC and several other US subsidiaries of UBS are subject to regulation by a number of different government agencies and self-regulatory organizations, including the SEC, the Financial Industry Regulatory Authority, the CFTC, the Municipal Securities Rulemaking Board and national securities exchanges, depending on the nature of their business. Certain of our activities in the US are subject to regulation by the Consumer Financial Protection Bureau.

Regulation and supervision in the UK

Our regulated UK operations are mainly subject to the authority of the Prudential Regulation Authority (the PRA), which is part of the Bank of England (the BoE), and the Financial Conduct Authority (the FCA). We are also subject to the rules of the London Stock Exchange and other securities and commodities exchanges of which UBS AG is a member.

UBS AG has a UK-registered branch, UBS AG London Branch, which serves as a global booking center for our Investment Bank, with regulated subsidiaries that provide asset management services. Credit Suisse International, Credit Suisse Securities (Europe) Limited and Credit Suisse (UK) Limited are authorized and regulated by the FCA and subject to the authority of the PRA.

Regulation and supervision in Europe

UBS Europe SE, headquartered in Germany, is subject to the direct supervision of the European Central Bank (the ECB), as well as to continued conduct, consumer protection and anti-money-laundering-related supervision by the German Federal Financial Supervisory Authority (BaFin) and supervisory support by the German Bundesbank. The entity is subject to EU and German laws and regulations. UBS Europe SE maintains branches in Denmark, France, Ireland, Italy, Luxembourg, the Netherlands, Poland, Portugal, Spain, Sweden and Switzerland, and is subject to conduct supervision by authorities in all those countries.

In Italy, Credit Suisse (Italy) SpA is supervised by the Bank of Italy and the Commissione Nazionale per le Società e la Borsa. In Spain, Credit Suisse Bank (Europe) SA is supervised by the Bank of Spain, the Comisión Nacional del Mercado de Valores and the Servicio Ejecutivo de la Comisión de Prevención del Blanqueo de Capitales e Infracciones Monetarias. Credit Suisse Bank (Europe) SA operates a branch in the Netherlands, which is subject to conduct supervision by the De Nederlandsche Bank and De Autoriteit Financiële Markten. We expect to wind down or consolidate Credit Suisse (Italy) SpA and Credit Suisse Bank (Europe) SA into UBS Europe SE in accordance with the intermediate EU parent undertaking requirement, which in agreement with the ECB is to be implemented by June 2025.

Regulation and supervision in Asia Pacific

We operate in numerous locations in Asia Pacific, including Singapore, the Hong Kong SAR, mainland China, Australia and Japan. The operations in these locations are subject to regulation and supervision by local financial regulators. Our Asia Pacific regional hubs are in Singapore and the Hong Kong SAR.

In Singapore, UBS AG Singapore Branch, UBS Securities Pte Ltd, UBS Asset Management (Singapore) Ltd and Credit Suisse Securities (Singapore) Pte Limited are supervised by the Monetary Authority of Singapore and the Singapore Exchange. Credit Suisse (Singapore) Limited is supervised by the Monetary Authority of Singapore.

In the Hong Kong SAR, UBS AG Hong Kong Branch is supervised by the Hong Kong Monetary Authority. UBS Securities Hong Kong Limited, UBS Securities Asia Limited, UBS Asset Management (Hong Kong) Limited, Credit Suisse (Hong Kong) Limited and Credit Suisse Securities (Hong Kong) Limited are supervised by the Hong Kong Securities and Futures Commission. In addition, UBS Securities Hong Kong Limited and Credit Suisse (Hong Kong) Limited are supervised by Hong Kong Exchanges and Clearing Limited.

In mainland China, we have multiple licenses to operate the respective business lines of UBS AG and Credit Suisse AG, and the various entities are subject to regulation by a number of different government agencies. The People's Bank of China oversees China's macro capital markets policies and ensures coordinated supervisory approaches by the National Administration of Financial Regulation (the China Banking and Insurance Regulatory Commission until May 2023), the China Securities Regulatory Commission and a number of exchanges.

In Australia, UBS AG Australia Branch is supervised by the Australian Prudential Regulation Authority, the Australian Securities and Investments Commission, the Australian Transaction Reports and Analysis Centre, the Reserve Bank of Australia, and the Australian Securities Exchange. UBS Securities Australia Ltd, UBS Asset Management Limited and Credit Suisse Equities (Australia) Limited are supervised by the Australian Securities and Investments Commission, the Australian Transaction Reports and Analysis Centre and the Australian Securities Exchange.

In Japan, UBS Securities Japan Co., Ltd. and Credit Suisse Securities (Japan) Limited are supervised by the Financial Services Agency and the Japan Exchange Group. UBS AG Tokyo Branch is supervised by the Financial Services Agency and the Bank of Japan. UBS SuMi TRUST Wealth Management Co., Ltd. is supervised by the Financial Services Agency and the Japanese Ministry of Finance. UBS Asset Management (Japan) Ltd and UBS Japan Advisors Inc. are supervised by the Financial Services Agency.

Financial crime prevention

Combating money laundering and terrorist financing has been a major focus of many governments in recent years. Laws and regulations, including the Swiss Banking Act and the US Bank Secrecy Act, require effective policies, procedures and controls to detect, prevent and report money laundering and terrorist financing, and the verification of client identities. Failure to introduce and maintain adequate programs to prevent money laundering and terrorist financing can result in significant legal and reputational risk and fines.

We are also subject to laws and regulations prohibiting corrupt or illegal payments to government officials and other persons, including the US Foreign Corrupt Practices Act and the UK Bribery Act. We maintain policies, procedures and internal controls intended to comply with those regulations.

› **Refer to "Non-financial risk" in the "Risk management and control" section of this report for more information**

Data protection

We are subject to regulations concerning the use and protection of customer, employee and other personal and confidential information. This includes provisions under Swiss law, the EU General Data Protection Regulation (the GDPR) and laws of other jurisdictions.

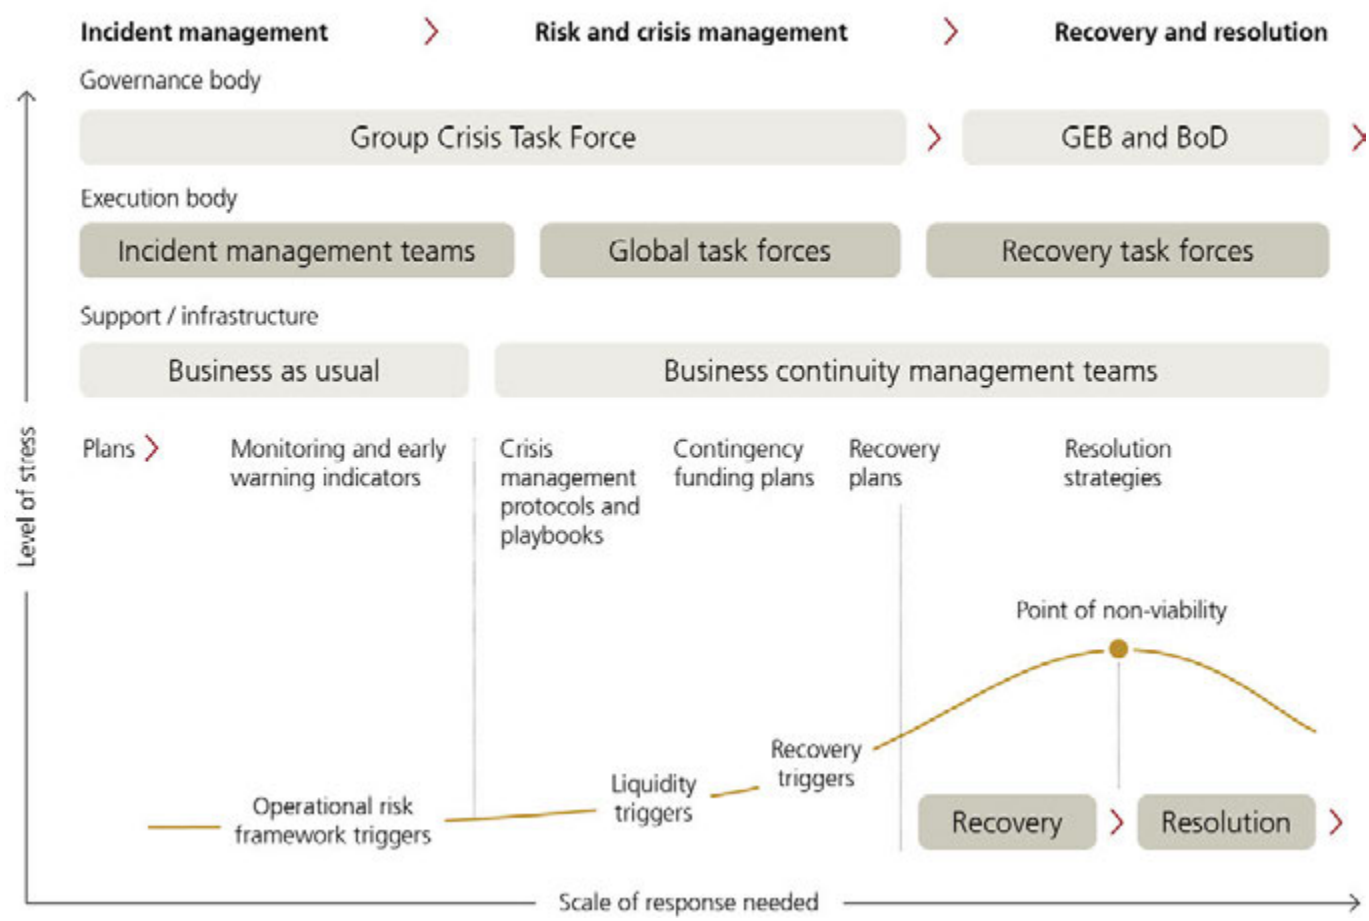
› **Refer to the "Risk factors" section of this report for more information about regulatory change**

Recovery and resolution

Swiss TBTF legislation requires each Swiss SRB to establish an emergency plan to maintain systemic functions in case of impending insolvency. In response to these Swiss requirements and similar ones in other jurisdictions, UBS has developed recovery plans and resolution strategies, as well as plans for restructuring or winding down businesses if the firm could not otherwise be stabilized.

In 2013, FINMA stated its preference for a single point of entry (an SPE) strategy for globally active SRBs, such as UBS, with a bail in at the group holding company level. UBS has made structural, financial and operational changes to facilitate an SPE strategy and is confident that a resolution of the bank is operationally executable and legally enforceable. In 2023, UBS acquired the Credit Suisse Group and merged Credit Suisse Group AG into UBS Group AG. UBS Group AG subsumed all the capital and loss-absorbing instruments of Credit Suisse Group AG with the acquisition. A bail in remains operationally executable for the combined UBS Group and an SPE resolution strategy remains the preferred strategy for UBS.

FINMA evaluates the recovery and resolution plans of Swiss SRBs on a regular basis. In October 2024, FINMA announced that it had suspended the annual approval of UBS's recovery and emergency plans and determined that the integration of Credit Suisse required adjustments by UBS to ensure continued resolvability. While FINMA recognized that UBS remains resolvable under its existing preferred resolution strategy, it noted that UBS's resolution planning must be further developed to increase the available options for FINMA in case of resolution. The preferred resolution strategy involves the recapitalization via a bail in at the group holding company level and a restructuring of the business into a viable business model. As additional optionality, an alternative resolution strategy based on an orderly market exit (either via disposal or wind-down or a combination of both) is expected by FINMA, and initial concepts are under discussion. This is in line with the TBTF report of the Swiss Federal Council, issued in April 2024, which will also require amendments to legislation to provide authorities with more options to increase flexibility in case of a crisis and increase legal certainty for executing these alternative resolution options.



Crisis management framework

The UBS Group's crisis management framework assigns responsibility and actions depending on the nature of the stress incident and the scale of the response needed.

- For incident, risk and crisis management, the Group Crisis Task Force works with incident management teams that provide monitoring and early warning indicators at the local / regional level, without needing to activate protocols at the Group level. If a local response is insufficient, global task forces and crisis management teams provide decision-making guidance and coordination, including crisis management plans, protocols and playbooks, and contingency funding plans.
- The Group Executive Board (the GEB) and the Board of Directors (the BoD) would evaluate and decide upon the need to activate the Global Recovery Plan (the GRP) if a stress event reached a severity requiring activation based on the GRP's recovery risk indicators.

– FINMA has the authority to determine whether the point of non-viability, as defined by Swiss law, has been reached and, as part of the resolution plan, has the power to order the bail in of creditors to recapitalize and stabilize the Group, limit payments of dividends and interest, alter our legal structure, take actions to reduce business risk, and order a restructuring of the bank.

UBS crisis management framework

Global Recovery Plan

The GRP provides a tool to restore financial strength if UBS comes under severe capital or liquidity stress. Quantitative and qualitative triggers are monitored daily and are subject to predefined governance and escalation processes. Recovery options are linked to owners and checklists, with the objectives of preserving capital, raising capital or liquidity, or disposing of or winding down businesses.

Global Resolution Strategy

FINMA is required to produce a global resolution plan for UBS. The plan includes setting out measures that FINMA can take to resolve UBS in an orderly manner if the Group enters resolution. The SPE bail-in strategy would involve writing down the Group's remaining equity and additional tier 1 and tier 2 instruments, as well as the bailing in of the TLAC-eligible senior unsecured bonds at the UBS Group AG level. An internal recapitalization of undercapitalized subsidiaries would be executed simultaneously with losses transmitted to UBS AG and, ultimately, UBS Group AG. Post-resolution restructuring measures could include disposals or wind-down of businesses and assets.

Local recovery and resolution plans

The Swiss emergency plan demonstrates how UBS's systemically important functions and critical operations in Switzerland can continue if the UBS Group cannot be restructured. This is achieved mainly by operating the Swiss-booked business in a separate legal entity, UBS Switzerland AG, and by ensuring its financial and operational self-sufficiency to enable its continued operation throughout a crisis.

The US resolution plan sets out the steps that could be taken to resolve the US intermediate holding company, UBS Americas Holding LLC, and its subsidiaries if it suffered material financial distress and UBS Group was unable or unwilling to provide financial support. As required by US regulations, our US plan contemplates that UBS Americas Holding LLC will commence US bankruptcy proceedings. Prior to this, the plan envisages UBS Americas Holding LLC downstreaming financial resources to its respective subsidiaries to facilitate an orderly wind-down or disposal of businesses. The next updated plan has to be submitted by October 2025.

UBS Europe SE updates a local recovery plan annually based on ECB requirements and resolution planning information and capabilities based on Single Resolution Board requirements. On the basis of such information, the Internal Resolution Team, composed of members of the Single Resolution Board, produces a resolution plan for UBS Europe SE.

UBS operates a UK banking subsidiary with Credit Suisse International, which is in the process of being wound down as part of Non-core and Legacy. Credit Suisse International is subject to the UK Resolvability Assessment Framework, under which it is required to assess its recovery planning and resolvability planning capabilities against the standards defined in the UK Resolvability Assessment Framework on an annual basis and confirm its compliance to the BoE and PRA. The UK authorities have confirmed that as of January 2025 Credit Suisse International is no longer subject to the UK internal minimum requirements for own funds and eligible liabilities.

Other local recovery and resolution plans exist for various Group entities and jurisdictions.

Regulatory trends

Regulatory policy discussions resulting from the March 2023 banking turmoil continued throughout 2024. At the supranational level, the focus was on liquidity and interest rate risks, supervision, and the impact of technology and social media on depositor behavior, but there have been no specific policy proposals to date. Discussions in Switzerland focused on a thorough analysis of the Credit Suisse crisis and proposals aimed at strengthening the financial stability of Swiss financial institutions and the financial sector going forward. Now that the parliamentary investigation committee has released its report, the official analysis of the Credit Suisse crisis has been concluded.

The final Basel III implementation was a key theme across jurisdictions with further divergence emerging. While the final Basel III regulations have been implemented in Switzerland as of 1 January 2025, implementation timelines are increasingly varying across other major jurisdictions.

The trend of further digitalization in the banking industry has triggered regulatory policy responses across jurisdictions. In particular, the field of artificial intelligence (AI) has seen rapid technical and market developments. In response to this, various international organizations have advanced work to define global high-level principles, applicable across industries. At the same time, and in parallel with global efforts, jurisdictional approaches differ. Notably, the EU is implementing an expansive AI Act, which came into force on 1 August 2024. Other jurisdictions, including the US and Switzerland, are taking a more measured approach, emphasizing and clarifying the applicability of existing laws and building capacity and understanding of the technology, before taking targeted regulatory action. Separately, applications of distributed ledger technology and market adoption of digital assets continue to grow, while the maturity of the regulatory landscape has increased. 2024 saw the introduction of the EU Markets in Crypto-Assets Act, which seeks to harmonize stablecoin and crypto asset regulation in the EU. In the US, the change in administration has resulted in a more accommodative regulatory sentiment toward digital assets, driving a shift in the regulatory approach across responsible agencies. Meanwhile, various central banks are experimenting with central bank digital currencies to understand the benefits and risk, but often without any commitment toward implementation.

Operational resilience and banks' management of third-party risk has continued to receive a heightened regulatory and supervisory focus, including the management of cyber risks related to third-party vendors and how banks ensure compliance with minimum standards. This has been caused, in part, by high-profile incidents. Many jurisdictions are working on expanding incident reporting, including for cybersecurity incidents. Separately, the interconnectedness with, and dependence on, third-party providers has been in focus, including via the Basel Committee on Banking Supervision reviewing principles for the sound management of third-party risk in the banking industry and the UK implementing a critical third-party regime. Finally, regulators such as the Monetary Authority in Singapore have started to consider risks to banks related to quantum computing.

Sustainable finance stayed high on the policy agenda but with implementation of prescriptive legislation diverging across jurisdictions, and the EU proposing recently to simplify its sustainability reporting and due diligence requirements. Notable activity was observed related to sustainability reporting disclosures, with ongoing implementation and alignment efforts. In addition, there was increased policy attention regarding transition plans as a strategic tool for decarbonization and adaptation to a low-carbon future and, in some jurisdictions, also as a climate risk management tool. Policymakers also advanced developments on prudential disclosure standards for the supervision of climate-related financial risks. Finally, additional regulation was focused on voluntary carbon markets, including on market integrity and credit quality.

Policymakers maintained focus on financial stability risks in the non-bank financial intermediation (the NBFI) sector. At the global level, work focused on banks' counterparty credit risk management, as well as risks within the NBFI sector, including preparedness for margin and collateral calls, liquidity management in funds, and proposals to manage excessive leverage. The EU reviewed the adequacy of macroprudential tools for NBFI firms, and the Bank of England completed a first-of-its-kind, system-wide stress test to understand the role that NBFI firms play during an economic shock.

Anti-money-laundering was prominent on policymakers' agendas, with increased due diligence requirements for the financial industry in Switzerland, while sanctions remained a crucial component of western countries' strategies to counter Russian aggression in Ukraine.

Finally, while market structure reforms have been largely implemented in the US, similar issues are under discussion across jurisdictions in Europe, notably the element of the reforms related to the shortening of the standard settlement cycle for security transactions from two business days to one business day.

In 2025, various jurisdictions, including the EU, UK, and US, are shifting their stated policy and regulatory approaches toward promoting a growth- and competitiveness-focused agenda, with related measures to simplify and boost the framework conditions, while other jurisdictions, including Switzerland, remain focused on strengthening their regulatory environment as a consequence of the events in March 2023. This adds to the ongoing trend of regulatory fragmentation. However, we believe the continued adaptations made to our business model and our proactive management of regulatory change put us in a strong position to absorb upcoming challenges in the regulatory environment. We trust that our strengthened standing as a combined organization with a strong capital position and a balance sheet for all seasons will enable us to cope with any potential challenges.

Regulatory and legal developments

Developments related to the acquisition of the Credit Suisse Group

In April 2024, the Swiss Federal Council released its report on banking stability that evaluates the regulation of systemically important banks (SIBs). The report includes a comprehensive review of the acquisition of the Credit Suisse Group and concludes that the existing Swiss too-big-to-fail (TBTF) regime must be further developed and strengthened. The Swiss Federal Council proposes to introduce measures focused on three areas: strengthening prevention, strengthening liquidity and expanding the crisis toolkit.

Measures include proposals to strengthen the capital base, to improve resolvability and tighten capital requirements for global systemically important banks (G-SIBs), including the introduction of forward-looking elements for institution-specific Pillar 2 capital surcharges and more stringent capital adequacy requirements for the parent bank regarding foreign participations. The Swiss Federal Council also recommended measures related to corporate governance, such as a senior management regime and regulations regarding variable compensation. To strengthen liquidity, the Swiss Federal Council intends to significantly expand the potential for the Swiss National Bank (the SNB) to provide more liquidity in a crisis, as well as an obligation for SIBs to prepare collateral for that purpose. Furthermore, the Swiss Federal Council reiterated its support for the introduction of a public liquidity backstop. To expand the crisis toolkit, the Swiss Federal Council proposed measures that aim to minimize legal risks associated with the execution of resolution measures.

In October 2024, the Swiss Financial Market Supervisory Authority (FINMA) published its 2024 resolution reporting for UBS.

› **Refer to "Recovery and resolution" in the "Regulation and supervision" section of this report for more information**

In December 2024, the Swiss parliamentary investigation committee (*Parlamentarische Untersuchungskommission*, the PUK) published its report that examined the authorities' role and actions in the context of the Credit Suisse crisis. The PUK identified a need for improvement and action at both the enforcement and legislative levels and made recommendations regarding potential improvements to the crisis toolkit. The Swiss Federal Council stated that the PUK's proposals will be covered in the implementation of the Federal Council's proposed measures.

In February 2025, the Economic Affairs and Taxation Committee agreed to extend the suspension of its discussion on the introduction of a public liquidity backstop until the end of 2026. The Committee stated that the design of a public liquidity backstop can only be defined in the overall context of Switzerland's TBTF regulation. The discussion was initially suspended in August 2024 in order to take into account the PUK's report.

Based on its report on banking stability from April 2024, the Swiss Federal Council is expected to launch a public consultation in May 2025 on the implementation of the proposed measures. The measures will include changes at the ordinance level, which can be adopted by the Swiss Federal Council, and legislative amendments, which will be submitted to the Parliament. In February 2025, the Swiss Federal Department of Finance indicated that the capital adequacy requirements for foreign participations will be regulated at the legislative level, rather than at the ordinance level. Due to the broad range of possible outcomes, the impact of the proposals on UBS can be assessed only when the implementation details become clearer.

Developments related to the implementation of the final Basel III standards

In Switzerland, the amendments to the Capital Adequacy Ordinance (the CAO) that incorporate the final Basel III standards into Swiss law, including the five new ordinances that contain the implementing provisions for the revised CAO, entered into force on 1 January 2025. The adoption of the final Basel III standards led to a USD 1bn increase in the UBS Group's RWA, resulting in a minimal impact on the CET1 capital ratio. The USD 1bn increase was primarily driven by a USD 7bn increase in market risk RWA and a USD 3bn increase in credit valuation adjustment-related RWA resulting from the implementation of the Fundamental Review of the Trading Book (the FRTB) framework, largely offset by a USD 7bn reduction in operational risk RWA and a USD 1bn reduction in credit risk RWA. We will provide in our first quarter 2025 report an update on further improvements from mitigating actions and our dialogue with FINMA regarding various aspects of the final Basel III rules. These changes do not take into account the impact of the output floor. The output floor, which is being phased in until 2028, is currently not binding for the UBS Group.

In the EU, the final Basel III requirements became applicable as of 1 January 2025, except for the market risk capital requirements, the implementation of which has been delayed until at least 1 January 2026, as confirmed by the European Commission in June 2024. The overall impact on UBS is limited.

In September 2024, the UK Prudential Regulatory Authority (the PRA) published its final rules covering the implementation of the final Basel III standards. As part of the package, the PRA announced the pushing back of the implementation date, from 1 July 2025 to 1 January 2026, with full phase-in of the output floor by 1 January 2030. In January 2025, the PRA announced that it has further postponed the implementation of the final Basel III standards until 1 January 2027, citing the need for greater clarity on US plans. In its announcement, the PRA left open the possibility of further postponement. The date for the full phase-in of the output floor continues to be 1 January 2030. The overall impact on UBS is expected to be limited.

In the US, the banking agencies, including the Federal Reserve Board, have been discussing amendments to their original proposals regarding the implementation of the final Basel III standards. The timing and the content of a re-proposal of the July 2023 version of the final Basel III rules remain uncertain as the change in principals at the US banking agencies has yet to be completed.

Other developments related to prudential regulation

In April 2024, the SNB announced that it will raise the minimum reserve requirement for domestic banks from 2.5% to 4%, and it will therefore amend the National Bank Ordinance as of 1 July 2024. The SNB also announced that liabilities arising from cancelable customer deposits (excluding tied pension provisions) will be included in full in the calculation of the minimum reserve requirement, as is the case with the other relevant liabilities. This revokes the previous exception under which only 20% of these liabilities counted toward the calculation. Based on the latest internal assessments, UBS expects a negative impact of around USD 35m per annum on net interest income to result from these changes.

In June 2024, EU legislators published the final banking rules that include amendments to the Capital Requirements Regulation and the Capital Requirements Directive. The rules entered into force on 9 July 2024. The amendments include, alongside measures to implement the final elements of the Basel III standards, a requirement for non-EU firms to establish a physical presence within the EU when providing certain banking services, including deposit-taking and commercial lending, to EU-domiciled clients and counterparties, unless an exemption is obtained. The changes will affect the cross-border provision of lending services and will require UBS to adapt its approaches to providing such services to clients and counterparties in the EU. The requirement will become effective in January 2027, with grandfathering provisions for contracts entered into before 11 July 2026.

In August 2024, the Federal Reserve Board assigned UBS Americas Holding LLC a stress capital buffer (an SCB) of 9.3% as of 1 October 2024 (previously 9.1%) under the Federal Reserve Board's SCB rule, resulting in a total CET1 capital requirement of 13.8%. The SCB for our US-based intermediate holding company is based on the previously released results of the Federal Reserve Board's 2024 Dodd–Frank Act Stress Test (DFAST), where UBS Americas Holding LLC exceeded the minimum capital requirements under the severely adverse scenario.

Developments in the regulation of financial markets

In September 2024, the Swiss Federal Council submitted for parliamentary approval a mutual recognition agreement (an MRA) with the UK regarding financial services. The agreement facilitates cross-border financial activities based on a new model for regulatory cooperation and an outcomes-based mutual recognition of domestic rules. The MRA is supplemented by an enhanced and closer supervisory process and additional supervisory arrangements where new market access is granted. It is expected that the Parliaments in Switzerland and the UK will grant approval for the MRA in 2025.

In November 2024, the EU finalized changes to the existing European Market Infrastructure Regulation (the EMIR), with the changes entering into force in December 2024. The revised EMIR rules require relevant EU market participants to hold active accounts at EU Central Counterparties and to clear a representative portion of certain derivative contracts within the EU, effective June 2025. Other changes include enhanced transparency on clearing services to clients, new clearing threshold calculation methodology, and new rules on initial margin model validation. The impact of the revised EMIR on UBS and its in-scope clients will depend on the final design of the technical implementation standards, which are expected to be published later in 2025.

In January 2025, the Swiss Securities Post-Trade Council recommended that the transition to a shortened settlement cycle for securities transactions for the domestic markets in Switzerland and Liechtenstein from two business days (T+2) to one business day (T+1) should occur in October 2027, in alignment with the EU and the UK.

In February 2025, the European Commission published a legislative proposal to shorten the settlement cycle in the EU to T+1, setting 11 October 2027 as the appropriate date for the transition. The proposal is in alignment with the recommendations from the European Securities and Markets Authority from November 2024.

In February 2025, the UK announced that the transition to a T+1 settlement cycle will occur on 11 October 2027, in line with the recommendations included in the UK Accelerated Settlement Taskforce's report from March 2024 and its implementation plan from February 2025.

In the US, a shortened T+1 settlement cycle has applied to securities transactions since May 2024.

UBS implemented the required enhancements based on the US rules and will prepare for further implementation according to the evolving rules and market practice in other jurisdictions.

Developments related to environmental, social and governance matters

In June 2024, the Swiss Federal Council launched a consultation on a proposed extension of the application scope and substance of the existing sustainability reporting requirements under the Swiss Code of Obligations. Under the proposed rules, a wider scope of companies would have to report on the risks of their business activities in the areas of the environment, human rights and corruption, as well as on measures taken against such risks. Affected companies would have the choice of reporting according to either the EU sustainability reporting requirements or another equivalent standard for sustainability reporting. The consultation closed in October 2024. The impact of the proposals on UBS can be assessed only when the implementation details become clearer. If the changes are adopted as proposed, UBS will be subject to the extended requirements.

In November 2024, the Swiss Federal Council adopted the Climate Protection Ordinance to the Climate and Innovation Act. The ordinance entered into force on 1 January 2025, and it introduces, among other matters, measures to support financial flows contributing to achieving the Swiss climate targets. The main instrument to measure progress made by the financial sector toward this goal will continue to be the voluntary climate tests conducted by the Swiss Federal Office for the Environment. UBS participates in the bi-annual climate tests conducted by the Swiss authorities.

In December 2024, the Swiss Federal Council launched a consultation on amending the Ordinance on Climate Disclosures to adapt it to the latest international developments. As the recommendations of the Task Force on Climate-related Financial Disclosures (the TCFD) have been incorporated into international standards, the Federal Council proposes that companies meet the obligation to report on climate-related matters by applying an internationally recognized standard or the sustainability reporting standard used in the EU. The draft proposal also establishes minimum requirements for transition plans for financial flows that describe the planned path to a net-zero target by 2050. The consultation will last until March 2025, and the amended Ordinance on Climate Disclosures is expected to enter into force on 1 January 2026. UBS is within the scope of the new requirements, with the impact on UBS dependent on the final ordinance.

In December 2024, FINMA published a new circular, applicable to banks and insurers, on the management of climate- and other nature-related financial risks. The circular sets out provisions for governance and institution-wide risk management, as well as provisions for risk identification, materiality assessment and scenario analysis regarding climate- and nature-related financial risks. Implementation will be guided by international frameworks and standards, including the Basel Committee on Banking Supervision Principles for the effective management and supervision of climate-related financial risks. The circular will enter into force on 1 January 2026 and will initially apply exclusively to climate-related financial risks. From 1 January 2028, the circular will apply to all nature-related financial risks. UBS is assessing the impact of the requirements, which will be addressed in a multi-year implementation plan.

In May 2024, the European Council approved the new Corporate Sustainability Due Diligence Directive (the CSDDD), which entered into force on 25 July 2024. The CSDDD requires in-scope companies to identify and address potential and actual adverse human rights and environmental impacts in their own operations, their subsidiaries and, where related to their value chain(s), those of their business partners. In addition, the CSDDD requires large companies to adopt a transition plan for climate change mitigation aligned with the 2050 climate neutrality objective of the Paris Agreement, as well as intermediate targets under the European Climate Law. The July 2026 deadline provided for the transposition of the CSDDD into Member States' national laws and the July 2027 start date of the first phase of the CSDDD application may be postponed by one year in light of the changes to the CSDDD proposed by the European Commission in February 2025 as part of its recent initiative to simplify sustainability regulations. UBS expects its EU entities will be required to implement the CSDDD rules. The full scope of application will depend on the implementation guidelines, which are expected to be developed by the European Commission by July 2026 (instead of July 2027) according to the newly proposed timeline, and on the changes to the CSDDD to be agreed by EU legislators in light of the European Commission's legislative proposal from February 2025.

In November 2024, the European Commission announced an intention to streamline and simplify sustainability regulations, including the Taxonomy Regulation, the Corporate Sustainability Reporting Directive and the CSDDD. Concrete proposals to that effect were unveiled in February 2025 and will now be subject to the EU legislative process involving the European Parliament and Council. The impact on UBS can be assessed only when the proposed changes and their details have been agreed by EU legislators later in 2025.

In February 2025, the US Securities and Exchange Commission (the SEC) stated its intention to withdraw its regulation mandating climate disclosures by SEC reporting companies, which would have included UBS. Effectiveness of the regulation had previously been stayed by the SEC pending resolution of litigation challenging it.

Developments related to tax matters

In August 2024, the Swiss Federal Council launched a consultation related to the existing withholding tax exemption that applies to TBTF instruments issued by no later than 31 December 2026. The Federal Council had recommended an unlimited extension of the exemption as part of a broader reform package in its April 2024 report on banking stability. As these reforms are not expected to enter into force before the expiry of the existing special rules, the Swiss Federal Council proposes to extend the current exemption, from 31 December 2026 to 31 December 2031, to ensure that banks can continue to issue capital instruments on competitive terms.

In September 2024, the Swiss Federal Council introduced the Income Inclusion Rule (the IIR), a measure developed by the Organisation for Economic Co-operation and Development (the OECD) as part of the minimum corporate taxation rules applicable to corporate groups with a worldwide turnover of at least EUR 750m. Under the IIR, the profits of foreign subsidiaries and branches of Swiss corporate groups will be taxed at a minimum rate of 15% on the OECD global minimum tax base with respect to each jurisdiction in which the corporate groups operate. The IIR complements the Swiss supplementary tax that was introduced in January 2024. The IIR became effective on 1 January 2025. UBS's overall tax impact from the IIR is limited, given that UBS is subject to a corporate tax burden of more than 15% in the vast majority of countries in which it operates.

Other regulatory and legal developments

In April 2024, the US Department of Labor (the DOL) adopted a new Retirement Security Rule, related amendments to existing rules governing transactions between covered plans and parties in interest, and amendments to the "qualified professional asset manager" transaction exemption. The effective date of the Retirement Security Rule, and the related amendments to PTE 2020-02 have been stayed by a court pending resolution of litigation challenging the regulations. The Retirement Security Rule, if it becomes effective, would expand the scope of transactions subject to requirements of the Employment Retirement Income Security Act by expanding the relationships and advice that create a fiduciary relationship between an investment professional and a plan or beneficiary, particularly in relation to individual retirement accounts (IRAs). The amendments to existing transaction exemptions generally limit or prohibit the use of those exemptions for transactions involving IRAs, with the intention of requiring transactions involving IRAs to rely upon an exemption (PTE 2020-2) imposing specific impartiality, conflict-of-interest and compliance requirements. Global Wealth Management US treats established IRA accounts as fiduciary relationships in accordance with PTE 2020-2.

In connection with the adoption of the Retirement Security Rule, the DOL also amended PTE 2020-2. These amendments would, if they become effective, expand the scope of affiliated persons for which a criminal conviction or determinations of misconduct disqualify an investment professional from using the exemption and add a one-year transition period for a newly disqualified investment professional to transition the related business. The amendments to the qualified professional asset manager exemption would also expand the scope of events that may trigger disqualification and add a similar one-year transition provision. In each case, the DOL would retain the ability to grant an individual exemption from the disqualification.

In May 2024, the Swiss Federal Council adopted a dispatch on strengthening its anti-money-laundering framework. Key elements include a non-publicly accessible federal register of beneficial owners, due diligence for particularly risky activities in legal professions, measures to prevent the circumvention of applicable sanctions under the Embargo Act, and due diligence obligations for cash payments in the real estate business and in precious metals trading. The measures are subject to parliamentary approval and, therefore, entry into force is not expected before 2026. Although the final assessment will only be concluded once the final law has been published, UBS expects that additional operational controls will be required to implement the amended framework.

In July 2024, the EU published the Artificial Intelligence Act (the EU AI Act). Among other matters, the EU AI Act classifies AI according to its risk, with the majority of obligations being placed on providers of high-risk AI systems and with some obligations for users who deploy an AI system in a professional capacity. The EU AI Act entered into force in August 2024, and it will be phased in over the next 36 months. UBS is assessing the potential impact of the uses of AI and the EU AI Act.

In November 2024, the PRA and the Financial Conduct Authority published a consultation on changes to remuneration rules for senior management functions and material risk takers. The consultation covers changes to several aspects of the PRA remuneration rulebook, including the reduction of the seven-year minimum deferral period to five years for senior managers and allowing deferred remuneration awards to vest on a pro rata basis from the time of award. UBS is reviewing the proposals.

Risk factors

Certain risks, including those described below, may affect our ability to execute our strategy or our business activities, financial condition, results of operations and prospects. We are inherently exposed to multiple risks, many of which may become apparent only with the benefit of hindsight. As a result, risks that we do not consider to be material, or of which we are not currently aware, could also adversely affect us. Within each category, the risks that we consider to be most material are presented first.

Strategy, management and operational risks

UBS's acquisition of Credit Suisse Group AG exposes UBS to heightened litigation risk and regulatory scrutiny and entails significant additional costs, liabilities and business integration risks

UBS acquired Credit Suisse Group AG under exceptional circumstances and the continued outflows and deteriorating overall financial position of Credit Suisse, in order to avert a failure of Credit Suisse and thus damage to the Swiss financial center and to global financial stability. The acquisition was effected through a merger of Credit Suisse Group AG with and into UBS Group AG, with UBS Group AG succeeding to all assets and all liabilities of Credit Suisse Group AG, becoming the direct or indirect shareholder of the former Credit Suisse Group AG's direct and indirect subsidiaries. Therefore, on a consolidated basis, all assets, risks and liabilities of the Credit Suisse Group became a part of UBS. This includes all ongoing and future litigation, regulatory and similar matters arising out of the business of the Credit Suisse Group, thereby materially increasing UBS's exposure to litigation and investigation risks.

We have incurred and will continue to incur, substantial integration and restructuring costs as we combine the operations of UBS and Credit Suisse. In addition, we may not realize all of the expected cost reductions and other benefits of the transaction. We may not be able to successfully execute our strategic plans or to achieve the expected benefits of the acquisition of the Credit Suisse Group. The success of the transaction, including anticipated benefits and cost savings, will depend, in part, on the ability to successfully complete the integration of the operations of both firms rapidly and effectively, while maintaining stability of operations and high levels of service to customers of the combined franchise.

Our ability to complete the integration of Credit Suisse will depend on a number of factors, some of which are outside of our control, including our ability to:

- combine the operations of the two firms in a manner that preserves client service, simplifies infrastructure and results in operating cost savings, including the successful transfer of clients from legacy Credit Suisse platforms to UBS platforms in Switzerland, our largest booking center;
- maintain deposits and client invested assets in our Global Wealth Management division and in Switzerland, and to attract additional deposits and invested assets to the combined firm;
- achieve cost reductions at the levels and in the timeframe we plan;
- enhance, integrate and, where necessary, remediate risk management and financial control and other systems and frameworks, including to remediate the material weakness in Credit Suisse's internal controls over financial reporting;
- complete the simplification of the legal structure of the combined firm in an expedited manner, including obtaining regulatory approvals and licenses required to implement the changes;
- retain staff and reverse attrition of staff in certain of Credit Suisse's business areas;
- successfully execute the wind-down of the assets and liabilities in our Non-core and Legacy division and release capital and resources for other purposes;
- decommission the information technology and other legacy Credit Suisse operational infrastructure to simplify our infrastructure, reduce operational complexity and lower our operating expenses; and
- resolve outstanding litigation, regulatory and similar matters, including matters relating to Credit Suisse, on terms that are not significantly adverse to us, as well as to successfully remediate outstanding regulatory and supervisory matters and meet other regulatory commitments.

The level of success in the absorption of Credit Suisse, in the integration of the two groups and their businesses, particularly in the area of the Swiss domestic bank, as well as the domestic and international wealth management businesses, the execution of the planned strategy regarding cost reductions and divestment of any non-core assets, and the level of resulting impairments and write-downs, may impact the operational results, share price and the credit rating of UBS entities. In addition, the financial effects of management decisions and transactions will likely differ between UBS Group and UBS AG as a result of the application of the acquisition method of accounting under the IFRS Accounting Standards by UBS Group, including valuation adjustments recorded by UBS Group. The combined Group will be required to devote significant management attention and resources to integrating its business practices and support functions. The diversion of management's attention and any delays or difficulties encountered in connection with the transaction and the coordination of the two companies' operations could have an adverse effect on the business, financial results, financial condition or the share price of the combined Group following the transaction. The coordination process may also result in additional and unforeseen expenses.

Substantial changes in regulation may adversely affect our businesses and our ability to execute our strategic plans

Since the financial crisis of 2008, we have been subject to significant regulatory requirements, including recovery and resolution planning, changes in capital and prudential standards, changes in taxation regimes as a result of changes in governmental administrations, new and revised market standards and fiduciary duties, as well as new and developing environmental, social and governance (ESG) standards and requirements. Notwithstanding attempts by regulators to align their efforts, the measures adopted or proposed for banking regulation differ significantly across the major jurisdictions, making it increasingly difficult to manage a global institution. Regulatory reviews of the events leading to the failures of US banks and our acquisition of Credit Suisse in 2023, as well as regulatory measures to complete the implementation of the Basel 3 standards, may increase capital, liquidity and other requirements applicable to banks, including UBS. Swiss regulatory changes with regard to such matters as capital and liquidity have often proceeded more quickly than those in other major jurisdictions, and Switzerland's requirements for major international banks are among the strictest of the major financial centers. Switzerland has implemented the final Basel 3 requirements effective 1 January 2025, at least a year ahead of the EU and the UK and likely several years ahead of the United States. In addition, Switzerland is expected to introduce in 2025 proposals for changes in regulation following the failure of Credit Suisse that will likely include changes to capital and liquidity requirements for UBS, the remaining Swiss G-SIB, as well as changes to the supervisory regime. Increased capital or liquidity requirements would put us at a disadvantage when competing with peer financial institutions subject to lower capital or liquidity requirements or more lenient regulation and increase our competitive disadvantage in some areas with unregulated non-bank competitors.

Our implementation of additional regulatory requirements and changes in supervisory standards, as well as our compliance with existing laws and regulations, continue to receive heightened scrutiny from supervisors. If we do not meet supervisory expectations in relation to these or other matters, or if additional supervisory or regulatory issues arise, we would likely be subject to further regulatory scrutiny, as well as measures that may further constrain our strategic flexibility.

Resolvability and resolution and recovery planning: We have moved significant operations into subsidiaries to improve resolvability and meet other regulatory requirements, and this has resulted in substantial implementation costs, increased our capital and funding costs and reduced operational flexibility. For example, we have transferred all of our US subsidiaries under a US intermediate holding company to meet US regulatory requirements and have transferred substantially all the operations of Personal & Corporate Banking and Global Wealth Management booked in Switzerland to UBS Switzerland AG to improve resolvability.

These changes create operational, capital, liquidity, funding and tax inefficiencies. Our operations in subsidiaries are subject to local capital, liquidity, stable funding, capital planning and stress testing requirements. These requirements have resulted in increased capital and liquidity requirements in affected subsidiaries, which limit our operational flexibility and negatively affect our ability to benefit from synergies between business units and to distribute earnings to the Group.

Under the Swiss too-big-to-fail (TBTF) framework, we are required to put in place viable emergency plans to preserve the operation of systemically important functions in the event of a failure. Moreover, under this framework and similar regulations in the US, the UK, the EU and other jurisdictions in which we operate, we are required to prepare credible recovery and resolution plans detailing the measures that would be taken to recover in a significant adverse event or in the event of winding down the Group or the operations in a host country through resolution or insolvency proceedings. If a recovery or resolution plan that we produce is determined by the relevant authority to be inadequate or not credible, relevant regulation may permit the authority to place limitations on the scope or size of our business in that jurisdiction, or oblige us to hold higher amounts of capital or liquidity or to change our legal structure or business in order to remove the relevant impediments to resolution.

The authorities in Switzerland and internationally have published lessons learned from the Credit Suisse and the US regional bank failures, which are expected to result in additional requirements regarding resolution planning and early intervention tools for authorities. In connection with these reviews, FINMA has announced that it would not provide an assessment of the UBS resolution plans in 2024 as it expects to make adjustments to resolution plan requirements based on lessons learned reviews as well as potential changes in its recovery and resolution authority under amendments that are expected to be proposed to Swiss law. We expect to make adjustments to our resolution plans to reflect additional guidance from FINMA and may be required to make further adjustment to reflect any changes to law that are enacted.

Capital and prudential standards: As an internationally active Swiss systemically relevant bank, we are subject to capital and total loss-absorbing capacity (TLAC) requirements that are among the most stringent in the world. Moreover, many of our subsidiaries must comply with minimum capital, liquidity and similar requirements and, as a result, UBS Group AG and UBS AG have contributed a significant portion of their capital and provide substantial liquidity to these subsidiaries. These funds are available to meet funding and collateral needs in the relevant entities, but are generally not readily available for use by the Group as a whole.

Our risk-weighted assets (RWA) and leverage ratio denominator (LRD) are affected as Switzerland has implemented the final standards promulgated by the Basel Committee on Banking Supervision (the BCBS) and may be further affected as provisions of the standards are phased in. Although these final Basel 3 standards have now been implemented in Switzerland, other major banking centers have delayed implementation or have not yet enacted the final standards into regulation. Extended delay in implementation by other jurisdictions may lead to higher capital requirements for UBS relative to peers.

In connection with the acquisition of the Credit Suisse Group, FINMA has permitted Credit Suisse entities to continue to apply certain prior interpretations and has provided supervisory rulings on the treatment of certain items for RWA or capital purposes. In general, these interpretations require that UBS phase out the treatment over the next several years. In addition, FINMA has agreed that the additional capital requirement applicable to Swiss systemically relevant banks, which is based on market share in Switzerland and leverage ratio denominator (LRD), will not increase as a result of the acquisition of the Credit Suisse Group before the end of 2025. The phase-out or end of these periods will likely increase our overall capital requirements.

The report of the Swiss Federal Council on the failure of Credit Suisse recommends changes to Swiss capital regulation that, if adopted, may have the effect of substantially increasing UBS's capital requirements. The Swiss Federal Council has indicated that it will publish proposed amendments to law and revisions to banking ordinances to implement the recommendations for public comment in May 2025. Certain of the measures recommended in the Federal Council report could require additional capital at UBS AG and have the effect of requiring a higher capital ratio at UBS Group.

Increases in capital and changes in liquidity requirements may, in the aggregate require us to maintain significantly higher levels of capital, which may have an affect on our ability to meet our ambitions for return on capital and for capital returns to shareholders. Higher capital or liquidity requirements applied to UBS Group or UBS AG relative to competitors in Switzerland or abroad may affect UBS's ability to compete with firms subject to less stringent capital requirements and increase UBS's costs to serve customers.

Market regulation and fiduciary standards: Our wealth and asset management businesses operate in an environment of increasing regulatory scrutiny and changing standards with respect to fiduciary and other standards of care and the focus on mitigating or eliminating conflicts of interest between a manager or advisor and the client, which require effective implementation across the global systems and processes of investment managers and other industry participants. For example, we have made material changes to our business processes, policies and the terms on which we interact with these clients in order to comply with US Securities and Exchange Commission (SEC) Regulation Best Interest, which is intended to enhance and clarify the duties of brokers and investment advisers to retail customers, and the Volcker Rule, which limits our ability to engage in proprietary trading, as well as changes in European and Swiss market conduct regulation. Future changes in the regulation of our duties to customers may require us to make further changes to our businesses, which would result in additional expense and may adversely affect our business. We may also become subject to other similar regulations substantively limiting the types of activities in which we may engage or the way we conduct our operations.

In many instances, we provide services on a cross-border basis, and we are therefore sensitive to barriers restricting market access for third-country firms. In particular, efforts in the EU to harmonize the regime for third-country firms to access the European market may have the effect of creating new barriers that adversely affect our ability to conduct business in these jurisdictions from Switzerland. In addition, a number of jurisdictions are increasingly regulating cross-border activities based on determinations of equivalence of home country regulation, substituted compliance or similar principles of comity. A negative determination with respect to Swiss equivalence could limit our access to the market in those jurisdictions and may negatively influence our ability to act as a global firm. For example, the EU declined to extend its equivalence determination for Swiss exchanges, which lapsed as of 30 June 2019.

UBS has experienced cross-border outflows over a number of years as a result of heightened focus by fiscal authorities on cross-border investment and fiscal amnesty programs, in anticipation of the implementation in Switzerland of the global automatic exchange of tax information, and as a result of the measures UBS has implemented in response to these changes. Further changes in local tax laws or regulations and their enforcement, additional cross-border tax information exchange regimes, national tax amnesty or enforcement programs or similar actions may affect our clients' ability or willingness to do business with us and could result in additional cross-border outflows.

Our reputation is critical to our success

Our reputation is critical to the success of our strategic plans, business and prospects. Reputational damage is difficult to reverse, and improvements tend to be slow and difficult to measure. In the past, our reputation has been adversely affected by our losses during the 2008 financial crisis, investigations into our cross-border private banking services, criminal resolutions of London Interbank Offered Rates (LIBOR)-related and foreign exchange matters, as well as other matters. We believe that reputational damage as a result of these events was an important factor in our loss of clients and client assets across our asset-gathering businesses. The Credit Suisse Group was more recently subject to significant litigation and regulatory matters and to financial losses that adversely affected its reputation and the confidence of clients, which played a significant role in the events leading to the acquisition of the Credit Suisse Group in March 2023. These events, or new events that cause reputational damage, could have a material adverse effect on our results of operation and financial condition, as well as our ability to achieve our strategic goals and financial targets.

Operational risks affect our business

Our businesses depend on our ability to process a large number of transactions, many of which are complex, across multiple and diverse markets in different currencies, to comply with requirements of many different legal and regulatory regimes to which we are subject and to prevent, or promptly detect and stop, unauthorized, fictitious or fraudulent transactions. We also rely on access to, and on the functioning of, systems maintained by third parties, including clearing systems, exchanges, information processors and central counterparties. Any failure of our or third-party systems could have an adverse effect on us. These risks may be greater as we deploy newer technologies, such as blockchain, or processes, platforms or products that rely on these technologies. Our operational risk management and control systems and processes are designed to help ensure that the risks associated with our activities – including those arising from process error, failed execution, misconduct, unauthorized trading, fraud, system failures, financial crime, cyberattacks, breaches of information security, inadequate or ineffective access controls and failure of security and physical protection – are appropriately controlled. If our internal controls fail or prove ineffective in identifying and remedying these risks, we could suffer operational failures that might result in material losses. The acquisition of the Credit Suisse Group may elevate these risks, particularly during the first phases of integration, as the firms have historically operated under different procedures, IT systems, risk policies and structures of governance.

As a meaningful proportion of our staff have been and will continue working from outside the office, we have faced, and will continue to face, new challenges and operational risks, including maintenance of supervisory and surveillance controls, as well as increased fraud and data security risks. While we have taken measures to manage these risks, these measures could prove not to be effective.

We use automation as part of our efforts to improve efficiency, reduce the risk of error and improve our client experience. We intend to expand the use of robotic processing, machine learning and artificial intelligence (AI) to further these goals. Use of these tools presents their own risks, including the need for effective design and testing; the quality of the data used for development and operation of machine learning and AI tools may adversely affect their functioning and result in errors and other operational risks.

Financial services firms have increasingly been subject to breaches of security and to cyber- and other forms of attack, some of which are sophisticated and targeted attacks intended to gain access to confidential information or systems, disrupt service or steal or destroy data, which may result in business disruption or the corruption or loss of data at UBS's locations or those of third parties. Cyberattacks by hackers, terrorists, criminal organizations, nation states and extremists have also increased in frequency and sophistication. Current geopolitical tensions have also led to increased risk of cyberattack from foreign state actors. In particular, the Russia–Ukraine war and the imposition of significant sanctions on Russia by Switzerland, the US, the EU, the UK and others has resulted and may continue to result in an increase in the risk of cyberattacks. Such attacks may occur on our own systems or on the systems that are operated by external service providers, may be attempted through the introduction of ransomware, viruses or malware, phishing and other forms of social engineering, distributed denial of service attacks and other means. These attempts may occur directly or using equipment or security passwords of our employees, third-party service providers or other users. Cybersecurity risks also have increased due to the widespread use of digital technologies, cloud computing and mobile devices to conduct financial business and transactions, as well as due to generative AI, which increases the capabilities of adversaries to mount sophisticated phishing attacks, for example, through the use of deepfake technologies, and presents new challenges to the protection of our systems and networks and the confidentiality and integrity of our data. During the first quarter of 2023, a third-party vendor, ION XTP, suffered a ransomware attack, which resulted in some disruption to our exchange-traded derivatives clearing activities, although we restored our services within 36 hours, using an available alternative solution. In addition to external attacks, we have experienced loss of client data from failure by employees and others to follow internal policies and procedures and from misappropriation of our data by employees and others.

We may not be able to anticipate, detect or recognize threats to our systems or data and our preventative measures may not be effective to prevent an attack or a security breach. In the event of a security breach, notwithstanding our preventative measures, we may not immediately detect a particular breach or attack. The acquisition of the Credit Suisse Group may elevate and intensify these risks, as would-be attackers have a larger potential target in the combined bank and differences in systems, policies, and platforms could make threat detection more difficult. In addition, the implementation of the large-scale technological change program that is necessary to integrate the combined bank's systems at pace may also result in increased risks. Once a particular attack is detected, time may be required to investigate and assess the nature and extent of the attack, and to restore and test systems and data. If a successful attack occurs at a service provider, as we have recently experienced, we may be dependent on the service provider's ability to detect the attack, investigate and assess the attack and successfully restore the relevant systems and data. A successful breach or circumvention of security of our or a service provider's systems or data could have significant negative consequences for us, including disruption of our operations, misappropriation of confidential information concerning us or our clients, damage to our systems, financial losses for us or our clients, violations of data privacy and similar laws, litigation exposure, and damage to our reputation. We may be subject to enforcement actions as regulatory focus on cybersecurity increases and regulators have announced new rules, guidance and initiatives on ransomware and other cybersecurity-related issues.

We are subject to complex and frequently changing laws and regulations governing the protection of client and personal data, such as the EU General Data Protection Regulation. Ensuring that we comply with applicable laws and regulations when we collect, use and transfer personal information requires substantial resources and may affect the ways in which we conduct our business. In the event that we fail to comply with applicable laws, we may be exposed to regulatory fines and penalties and other sanctions. We may also incur such penalties if our vendors or other service providers or clients or counterparties fail to comply with these laws or to maintain appropriate controls over protected data. In addition, any loss or exposure of client or other data may adversely damage our reputation and adversely affect our business.

A major focus of US and other countries' governmental policies relating to financial institutions in recent years has been on fighting money laundering and terrorist financing. We are required to maintain effective policies, procedures and controls to detect, prevent and report money laundering and terrorist financing, and to verify the identity of our clients under the laws of many of the countries in which we operate. We are also subject to laws and regulations related to corrupt and illegal payments to government officials by others, such as the US Foreign Corrupt Practices Act and the UK Bribery Act. We have implemented policies, procedures and internal controls that are designed to comply with such laws and regulations. Notwithstanding this, regulators have found deficiencies in the design and operation of anti-money-laundering programs in our US operations. We have undertaken a significant program to address these regulatory findings with the objective of fully meeting regulatory expectations for our programs. Failure to maintain and implement adequate programs to combat money laundering, terrorist financing or corruption, or any failure of our programs in these areas, could have serious consequences both from legal enforcement action and from damage to our reputation. Frequent changes in sanctions imposed and increasingly complex sanctions imposed on countries, entities and individuals, as exemplified by the breadth and scope of the sanctions imposed in relation to the war in Ukraine, increase our cost of monitoring and complying with sanctions requirements and increase the risk that we will not identify in a timely manner client activity that is subject to a sanction.

As a result of new and changed regulatory requirements and the changes we have made in our legal structure, the volume, frequency and complexity of our regulatory and other reporting has remained elevated. Regulators have also significantly increased expectations regarding our internal reporting and data aggregation, as well as management reporting. We have incurred, and continue to incur, significant costs to implement infrastructure to meet these requirements. Failure to meet external reporting requirements accurately and in a timely manner or failure to meet regulatory expectations of internal reporting, data aggregation and management reporting could result in enforcement action or other adverse consequences for us.

In addition, despite the contingency plans that we have in place, our ability to conduct business may be adversely affected by a disruption in the infrastructure that supports our businesses and the communities in which we operate. This may include a disruption due to natural disasters, pandemics, civil unrest, war or terrorism and involve electrical, communications, transportation or other services that we use or that are used by third parties with whom we conduct business.

We depend on our risk management and control processes to avoid or limit potential losses in our businesses

Controlled risk-taking is a major part of the business of a financial services firm. Some losses from risk-taking activities are inevitable, but, to be successful over time, we must balance the risks we take against the returns generated. Therefore, we must diligently identify, assess, manage and control our risks, not only in normal market conditions but also as they might develop under more extreme, stressed conditions, when concentrations of exposures can lead to severe losses.

We have not always been able to prevent serious losses arising from risk management failures and extreme or sudden market events. We recorded substantial losses on fixed-income trading positions in the 2008 financial crisis, in the unauthorized trading incident in 2011 and, more recently, positions resulting from the default of a US prime brokerage client. Credit Suisse has suffered very significant losses from the default of the US prime brokerage client and losses in supply chain finance funds managed by it, as well as other matters. As a result of these, Credit Suisse is subject to significant regulatory remediation obligations to address deficiencies in its risk management and control systems, that continue following the merger.

We regularly revise and strengthen our risk management and control frameworks to seek to address identified shortcomings. Nonetheless, we could suffer further losses in the future if, for example:
- we do not fully identify the risks in our portfolio, in particular risk concentrations and correlated risks;
- our assessment of the risks identified, or our response to negative trends, proves to be untimely, inadequate, insufficient or incorrect;
- our risk models prove insufficient to predict the scale of financial risks the bank faces;
- markets move in ways that we do not expect – in terms of their speed, direction, severity or correlation – and our ability to manage risks in the resulting environment is, therefore, affected;
- third parties to whom we have credit exposure or whose securities we hold are severely affected by events and we suffer defaults and impairments beyond the level implied by our risk assessment; or
- collateral or other security provided by our counterparties and clients proves inadequate to cover their obligations at the time of default.

We also hold legacy risk positions, primarily in Non-core and Legacy, that, in many cases, are illiquid and may deteriorate in value. The acquisition of the Credit Suisse Group has increased, materially, the portfolio of business that is outside of our risk appetite and subject to exit that will be managed in the Non-core and Legacy segment.

We also manage risk on behalf of our clients. The performance of assets we hold for our clients may be adversely affected by the same aforementioned factors. If clients suffer losses or the performance of their assets held with us is not in line with relevant benchmarks against which clients assess investment performance, we may suffer reduced fee income and a decline in assets under management, or withdrawal of mandates.

Investment positions, such as equity investments made as part of strategic initiatives and seed investments made at the inception of funds that we manage, may also be affected by market risk factors. These investments are often not liquid and generally are intended or required to be held beyond a normal trading horizon. Deteriorations in the fair value of these positions would have a negative effect on our earnings.

We may be unable to identify or capture revenue or competitive opportunities, or retain and attract qualified employees

The financial services industry is characterized by intense competition, continuous innovation, restrictive, detailed and sometimes fragmented regulation and ongoing consolidation. We face competition at the level of local markets and individual business lines and from global financial institutions that are comparable to us in their size and breadth, as well as competition from new technology-based market entrants, which may not be subject to the same level of regulation. Barriers to entry in individual markets and pricing levels are being eroded by new technology. We expect these trends to continue and competition to increase. Our competitive strength and market position could be eroded if we are unable to identify market trends and developments, do not respond to such trends and developments by devising and implementing adequate business strategies, do not adequately develop or update our technology, including our digital channels and tools, or are unable to attract or retain the qualified people needed.

The amount and structure of our employee compensation is affected not only by our business results but also by competitive factors and regulatory considerations.

In response to the demands of various stakeholders, including regulatory authorities and shareholders, and in order to better align the interests of our staff with other stakeholders, we have increased average deferral periods for stock awards, expanded forfeiture provisions and, to a more limited extent, introduced clawback provisions for certain awards linked to business performance. We have also introduced individual caps on the proportion of fixed to variable pay for the members of the Group Executive Board (GEB), as well as certain other employees. UBS is also required to maintain and enforce provisions requiring UBS to recover from GEB members and certain other executives a portion of performance-based incentive compensation in the event that the UBS Group, or another entity with securities listed on a US national securities exchange, is required to restate its financial statements as a result of a material error.

Constraints on the amount or structure of employee compensation, higher levels of deferral, performance conditions and other circumstances triggering the forfeiture of unvested awards may adversely affect our ability to retain and attract key employees, particularly where we compete with companies that are not subject to these constraints. The loss of key staff and the inability to attract qualified replacements could seriously compromise our ability to execute our strategy and to successfully improve our operating and control environment, and could affect our business performance. This risk is intensified by elevated levels of attrition among Credit Suisse employees. Swiss law requires that shareholders approve the compensation of the Board of Directors (the BoD) and the GEB each year. If our shareholders fail to approve the compensation for the GEB or the BoD, this could have an adverse effect on our ability to retain experienced directors and our senior management.

As UBS Group AG is a holding company, its operating results, financial condition and ability to pay dividends and other distributions or to pay its obligations in the future depend on funding, dividends and other distributions received directly or indirectly from its subsidiaries, which may be subject to restrictions

UBS Group AG's ability to pay dividends and other distributions and to pay its obligations in the future will depend on the level of funding, dividends and other distributions, if any, received from UBS AG and other subsidiaries. The ability of such subsidiaries to make loans or distributions, directly or indirectly, to UBS Group AG may be restricted as a result of several factors, including restrictions in financing agreements and the requirements of applicable law and regulatory, fiscal or other restrictions. In particular, UBS Group AG's direct and indirect subsidiaries, including UBS AG, UBS Switzerland AG, UBS Americas Holding LLC, Credit Suisse Holdings (USA) Inc., UBS Europe SE and Credit Suisse International, are subject to laws and regulations that require the entities to maintain minimum levels of capital and liquidity, that restrict dividend payments, that authorize regulatory bodies to block or reduce the flow of funds from those subsidiaries to UBS Group AG or that could affect their ability to repay any loans made to, or other investments in, such subsidiary by UBS Group AG or another member of the Group. For example, in the early stages of the COVID-19 pandemic, the European Central Bank ordered all banks under its supervision to cease dividend distributions, and the Board of Governors of the Federal Reserve System limited capital distributions by bank holding companies and intermediate holding companies. Restrictions and regulatory actions could impede access to funds that UBS Group AG may need to meet its obligations or to pay dividends to shareholders. In addition, UBS Group AG's right to participate in a distribution of assets upon a subsidiary's liquidation or reorganization is subject to all prior claims of the subsidiary's creditors.

Our capital instruments may contractually prevent us from proposing the distribution of dividends to shareholders, other than in the form of shares, and from engaging in repurchases of shares, if we do not pay interest on these instruments.

Furthermore, UBS Group AG may guarantee some of the payment obligations of certain of the Group's subsidiaries from time to time. These guarantees may require UBS Group AG to provide substantial funds or assets to subsidiaries or their creditors or counterparties at a time when UBS Group AG is in need of liquidity to fund its own obligations.

The credit ratings of UBS Group AG or its subsidiaries used for funding purposes could be lower than the ratings of the Group's operating subsidiaries, which may adversely affect the market value of the securities and other obligations of UBS Group AG or those subsidiaries on a standalone basis.

Market, credit and macroeconomic risks

Performance in the financial services industry is affected by market conditions and the macroeconomic climate

Our businesses are materially affected by market and macroeconomic conditions. A market downturn and weak macroeconomic conditions can be precipitated by a number of factors, including geopolitical events, such as international armed conflicts, war, or acts of terrorism, the imposition of sanctions, global trade or global supply chain disruptions, including energy shortages and food insecurity, changes in monetary or fiscal policy, changes in trade policies or international trade disputes, significant inflationary or deflationary price changes, disruptions in one or more concentrated economic sectors, natural disasters, pandemics or local and regional civil unrest. Such developments can have unpredictable and destabilizing effects.

Adverse changes in interest rates, credit spreads, securities prices, market volatility and liquidity, foreign exchange rates, commodity prices, and other market fluctuations, as well as changes in investor sentiment, can affect our earnings and ultimately our financial and capital positions. As financial markets are global and highly interconnected, local and regional events can have widespread effects well beyond the countries in which they occur. Any of these developments may adversely affect our business or financial results.

As a result of significant volatility in the market, our businesses may experience a decrease in client activity levels and market volumes, which would adversely affect our ability to generate transaction fees, commissions and margins, particularly in Global Wealth Management and the Investment Bank. A market downturn would likely reduce the volume and valuation of assets that we manage on behalf of clients, which would reduce recurring fee income that is charged based on invested assets, primarily in Global Wealth Management and Asset Management, and performance-based fees in Asset Management. Such a downturn could also cause a decline in the value of assets that we own and account for as investments or trading positions. In addition, reduced market liquidity or volatility may limit trading opportunities and therefore may reduce transaction-based income and may also impede our ability to manage risks.

Health emergencies, including pandemics and measures taken by governmental authorities to manage them, may have effects such as labor market displacements, supply chain disruptions, and inflationary pressures, and adversely affect global and regional economic conditions, resulting in contraction in the global economy, substantial volatility in the financial markets, crises in markets for goods and services, disruptions in real estate markets, increased unemployment, increased credit and counterparty risk, and operational challenges, as we saw with the COVID-19 pandemic. Such economic or market disruptions, including inflationary pressures, may lead to reduced levels of client activity and demand for our products and services, increased utilization of lending commitments, significantly increased client defaults, continued and increasing credit and valuation losses in our loan portfolios, loan commitments and other assets, and impairments of other financial assets. A fall in equity markets and a consequent decline in invested assets would also reduce recurring fee income in our Global Wealth Management and Asset Management businesses, as we experienced in the second quarter of 2022. These factors and other consequences of a health emergency may negatively affect our financial condition, including possible constraints on capital and liquidity, as well as resulting in a higher cost of capital, and possible downgrades to our credit ratings.

Geopolitical events: Terrorist activity and armed conflict in the Middle East, as well as the continuing Russia–Ukraine war, may have significant impacts on global markets, exacerbate global inflationary pressures and slow global growth. In addition, the ongoing conflicts may continue to cause significant population displacement, and lead to shortages of vital commodities, including energy shortages and food insecurity outside the areas immediately involved in armed conflict. Governmental responses to the armed conflicts, including, with respect to the Russia–Ukraine war, coordinated successive sets of sanctions on Russia and Belarus, and Russian and Belarusian entities and nationals, and the uncertainty as to whether the ongoing conflicts will widen and intensify, may continue to have significant adverse effects on the market and macroeconomic conditions, including in ways that cannot be anticipated. If individual countries impose restrictions on cross-border payments or trade, or other exchange or capital controls, or change their currency (for example, if one or more countries should leave the Eurozone, as a result of the imposition of sanctions on individuals, entities or countries, or escalation of trade restrictions and other actions between the US, or other countries, and China), we could suffer adverse effects on our business, losses from enforced default by counterparties, be unable to access our own assets or be unable to effectively manage our risks.

We could be materially affected if a crisis develops, regionally or globally, as a result of disruptions in markets due to macroeconomic or political developments, trade restrictions, or the failure of a major market participant. Over time, our strategic plans have become more heavily dependent on our ability to generate growth and revenue in emerging markets, including China, causing us to be more exposed to the risks associated with such markets.

Global Wealth Management derives revenues from all the principal regions but has a greater concentration in Asia than many peers and a substantial presence in the US, unlike many European peers. The Investment Bank's business is more heavily weighted to Europe and Asia than our peers, while its derivatives business is more heavily weighted to structured products for wealth management clients, in particular with European and Asian underlyings. Our performance may therefore be more affected by political, economic and market developments in these regions and businesses than some other financial service providers.

The extent to which ongoing conflicts, current inflationary pressures and related adverse economic conditions affect our businesses, results of operations and financial condition, as well as our regulatory capital and liquidity ratios, will depend on future developments, including the effects of the current conditions on our clients, counterparties, employees and third-party service providers.

Our credit risk exposure to clients, trading counterparties and other financial institutions would increase under adverse or other economic conditions

Credit risk is an integral part of many of our activities, including lending, underwriting and derivatives activities. Adverse economic or market conditions, or the imposition of sanctions or other restrictions on clients, counterparties or financial institutions, may lead to impairments and defaults on these credit exposures. Losses may be exacerbated by declines in the value of collateral securing loans and other exposures. In our prime brokerage, securities finance and Lombard lending businesses, we extend substantial amounts of credit against securities collateral the value or liquidity of which may decline rapidly. Market closures and the imposition of exchange controls, sanctions or other measures may limit our ability to settle existing transactions or to realize on collateral, which may result in unexpected increases in exposures. Our Swiss mortgage and corporate lending portfolios, which have increased substantially as a result of the Credit Suisse acquisition, are a large part of our overall lending. We are therefore exposed to the risk of adverse economic developments in Switzerland, including property valuations in the housing market, the strength of the Swiss franc and its effect on Swiss exports, a return to negative interest rates applied by the Swiss National Bank, economic conditions within the Eurozone or the EU, and the evolution of agreements between Switzerland and the EU or European Economic Area, which represent Switzerland's largest export market. We have exposures related to real estate in various countries, including a substantial Swiss mortgage portfolio. Although we believe this portfolio is prudently managed, we could nevertheless be exposed to losses if a substantial deterioration in the Swiss real estate market were to occur.

As we experienced in 2020, under the IFRS 9 expected credit loss (ECL) regime, credit loss expenses may increase rapidly at the onset of an economic downturn as a result of higher levels of credit impairments (stage 3), as well as higher ECL from stages 1 and 2. Substantial increases in ECL could exceed expected loss for regulatory capital purposes and adversely affect our common equity tier 1 (CET1) capital and regulatory capital ratios.

Interest rate trends and changes could negatively affect our financial results

UBS's businesses are sensitive to changes in interest rate trends. A prolonged period of low or negative interest rates, particularly in Switzerland and the Eurozone, adversely affected the net interest income generated by UBS's Personal & Corporate Banking and Global Wealth Management businesses prior to 2022. Actions that UBS took to mitigate adverse effects on income, such as the introduction of selective deposit fees or minimum lending rates, contributed to outflows of customer deposits (a key source of funding for UBS), net new money outflows and a declining market share in its Swiss lending business.

During 2022, interest rates increased sharply in the US and most other markets, including a shift from negative to positive central bank policy rates in the Eurozone and Switzerland, as central banks responded to higher inflation. Higher interest rates generally benefit UBS's net interest income. However, as returns on alternatives to deposits increase with rising interest rates, such as returns on money market funds, UBS experienced outflows from customer deposits and shifts of deposits from lower-interest account types to accounts bearing higher interest rates, such as savings and certificates of deposit, starting with effects in the US, where rates had rapidly increased. In addition, higher-for-longer interest rates, such as those experienced in 2023, have led to similar shifts in euro and Swiss franc deposits. Sustained higher interest rates also may adversely affect our credit counterparties. Customer deposit outflows could require UBS to obtain alternative funding, which would likely be more costly than customer deposits.

Our shareholders' equity and capital are also affected by changes in interest rates.

Currency fluctuation may have an adverse effect on our profits, balance sheet and regulatory capital

We are subject to currency fluctuation risks as a substantial portion of our assets and liabilities are denominated in currencies other than our Group presentation currency, the US dollar. In order to hedge our CET1 capital ratio, our CET1 capital must have foreign currency exposure, which leads to currency sensitivity. As a consequence, it is not possible to simultaneously fully hedge both CET1 capital and the CET1 capital ratio. Accordingly, changes in foreign exchange rates may adversely affect our profits, balance sheet, and capital, leverage and liquidity coverage ratios.

Regulatory and legal risks

Material legal and regulatory risks arise in the conduct of our business

As a global financial services firm operating in more than 50 countries, we are subject to many different legal, tax and regulatory regimes, including extensive regulatory oversight, and are exposed to significant liability risk. We are subject to a large number of claims, disputes, legal proceedings and government investigations, and we expect that our ongoing business activities will continue to give rise to such matters in the future. In addition, UBS inherited claims against Credit Suisse entities as part of the acquisition, including matters that may be material to the operating results of the combined Group. The extent of our financial exposure to these and other matters is material and could substantially exceed the level of provisions that we have established. We are not able to predict the financial and non-financial consequences these matters may have when resolved.

We may be subject to adverse preliminary determinations or court decisions that may negatively affect public perception and our reputation, result in prudential actions from regulators, and cause us to record additional provisions for such matters even when we believe we have substantial defenses and expect to ultimately achieve a more favorable outcome. This risk is illustrated by the award of aggregate penalties and damages of EUR 4.5bn by the court of first instance in France. This award was reduced to an aggregate of EUR 1.8bn against by the Court of Appeal, and, in a further appeal, the French Supreme Court referred the case back to the Paris Court of Appeal to reconsider the amount after a new trial.

Litigation, regulatory and similar matters may also result in non-monetary penalties and consequences. Among other things, a guilty plea to, or conviction of, a crime (including as a result of termination of the Deferred Prosecution Agreement Credit Suisse entered into with the US Department of Justice in 2021 to resolve its Mozambique matter) could have material consequences for UBS.

Resolution of regulatory proceedings has required us to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations, and may permit financial market utilities to limit, suspend or terminate our participation in them. UBS and Credit Suisse have each required waivers or exemptions in order to continue to act as investment manager to pension plans and registered investment companies in the US, among other things; failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations arising from a disqualifying event, could have material adverse consequences for us.

Our settlements with governmental authorities in connection with foreign exchange, LIBOR and other benchmark interest rates starkly illustrate the significantly increased level of financial and reputational risk now associated with regulatory matters in major jurisdictions. In connection with investigations related to LIBOR and other benchmark rates, and to foreign exchange and precious metals, very large fines and disgorgement amounts were assessed against us, and we were required to enter guilty pleas despite our full cooperation with the authorities in the investigations and despite our receipt of conditional leniency or conditional immunity from anti-trust authorities in a number of jurisdictions, including the US and Switzerland.

For a number of years, we have been, and we continue to be, subject to a very high level of regulatory scrutiny and to certain regulatory measures that constrain our strategic flexibility. We believe we have remediated the deficiencies that led to significant losses in the past and made substantial changes in our controls and conduct risk frameworks to address the issues highlighted by past regulatory resolutions. We have also undertaken extensive efforts to implement new regulatory requirements and meet heightened supervisory expectations. Prior to its acquisition by UBS, Credit Suisse was also subject to a high level of regulatory scrutiny and had significant regulatory and other remediation programs to address identified issues, including as a result of the Archegos, Mozambique, supply chain finance and cross-border tax matters. As part of the integration of Credit Suisse, UBS is addressing these matters and will likely remain under additional regulatory scrutiny until the integration is substantially completed.

Credit Suisse and UBS have become the target of lawsuits, and may become the target of further litigation, in connection with the merger transaction or the regulatory and other actions taken in connection with the merger transaction, all of which could result in substantial costs. Since the close of the acquisition, various litigation claims have been lodged against UBS under Swiss merger law alleging that Credit Suisse Group AG shareholders received disadvantaged treatment in the acquisition. In addition, numerous cases have been lodged against the Swiss Financial Market Supervisory Authority (FINMA) in respect of the write-down of the Credit Suisse Group's additional tier 1 (AT1) bonds ordered by FINMA. UBS Group AG, as the successor to Credit Suisse Group AG, is participating in proceedings as an aggrieved party. The cumulative effects of the litigations to which UBS has succeeded and the claims related to the acquisition and the circumstances surrounding it, may have material adverse consequences for the combined Group.

We continue to be in active dialogue with regulators concerning the actions we are taking to improve our operational risk management, risk control, anti-money-laundering, data management and other frameworks, and otherwise seek to meet supervisory expectations, but there can be no assurance that our efforts will have the desired effects. As a result of this history, our level of risk with respect to regulatory enforcement may be greater than that of some of our peers.

If we experience financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on our shareholders and creditors

Under the Swiss Banking Act, FINMA is able to exercise broad statutory powers with respect to Swiss banks and Swiss parent companies of financial groups, such as UBS Group AG, UBS AG and UBS Switzerland AG, if there is justified concern that an entity is over-indebted, has serious liquidity problems or, after the expiration of any relevant deadline, no longer fulfills capital adequacy requirements. Such powers include ordering protective measures, instituting restructuring proceedings (and exercising any Swiss resolution powers in connection therewith), and instituting liquidation proceedings, all of which may have a material adverse effect on shareholders and creditors or may prevent UBS Group AG, UBS AG or UBS Switzerland AG from paying dividends or making payments on debt obligations.

UBS would have limited ability to challenge any such protective measures, and creditors and shareholders would also have limited ability under Swiss law or in Swiss courts to reject them, seek their suspension, or challenge their imposition, including measures that require or result in the deferment of payments.

If restructuring proceedings are opened with respect to UBS Group AG, UBS AG or UBS Switzerland AG the resolution powers that FINMA may exercise include the power to: (i) transfer all or some of the assets, debt and other liabilities, and contracts of the entity subject to proceedings to another entity; (ii) stay for a maximum of two business days (a) the termination of, or the exercise of rights to terminate, netting rights, (b) rights to enforce or dispose of certain types of collateral or (c) rights to transfer claims, liabilities or certain collateral, under contracts to which the entity subject to proceedings is a party; and (iii) partially or fully write down the equity capital and regulatory capital instruments and, if such regulatory capital is fully written down, write down or convert into equity the other debt instruments of the entity subject to proceedings. Shareholders and creditors would have no right to reject, or to seek the suspension of, any restructuring plan pursuant to which such resolution powers are exercised. They would have only limited rights to challenge any decision to exercise resolution powers or to have that decision reviewed by a judicial or administrative process or otherwise.

Upon full or partial write-down of the equity and regulatory capital instruments of the entity subject to restructuring proceedings, the relevant shareholders and creditors would receive no payment in respect of the equity and debt that is written down, the write-down would be permanent, and the investors would likely not, at such time or at any time thereafter, receive any shares or other participation rights, or be entitled to any write-up or any other compensation in the event of a potential subsequent recovery of the debtor. If FINMA orders the conversion of debt of the entity subject to restructuring proceedings into equity, the securities received by the investors may be worth significantly less than the original debt and may have a significantly different risk profile. In addition, creditors receiving equity would be effectively subordinated to all creditors of the restructured entity in the event of a subsequent winding up, liquidation or dissolution of the restructured entity, which would increase the risk that investors would lose all or some of their investment.

FINMA has significant discretion in the exercise of its powers in connection with restructuring proceedings. Furthermore, certain categories of debt obligations, such as certain types of deposits, are subject to preferential treatment. As a result, holders of obligations of an entity subject to a Swiss restructuring proceeding may have their obligations written down or converted into equity even though obligations ranking on par with such obligations are not written down or converted.

Developments in sustainability, climate, environmental and social standards and regulations may affect our business and impact our ability to fully realize our goals

We are subject to separate, and sometimes conflicting, ESG regulations and regulator expectations in the various jurisdictions in which UBS operates. For example, in certain jurisdictions, we are required to set diversity targets or other ESG-related goals that are considered illegal or contrary to regulatory expectations in other jurisdictions. In addition, with respect to decarbonization mandates, there is substantial uncertainty as to the scope of actions that may be required of us, governments and others to achieve the goals we have set, and many of our goals and objectives are only achievable with a combination of government and private action. National and international standards and expectations, industry and scientific practices, regulatory taxonomies, and disclosure obligations addressing these matters are relatively immature and are rapidly evolving. In addition, there are significant limitations in the data available to measure our climate and other goals. Although we have defined and disclosed our goals based on the standards existing at the time of disclosure, there can be no assurance (i) that the various ESG regulatory and disclosure regimes under which we operate will not come into further conflict with one another, (ii) that the current standards will not be interpreted differently than our understanding or change in a manner that substantially increases the cost or effort for us to achieve such goals or (iii) that additional data or methods, whether voluntary or required by regulation, may substantially change our calculation of our goals and ambitions. It is possible that such goals may prove to be considerably more difficult or even impossible to achieve. The evolving standards may also require us to substantially change the stated goals and ambitions. If we are not able to achieve the goals we have set, or can only do so at significant expense to our business, we may fail to meet regulatory expectations, incur damage to our reputation or be exposed to an increased risk of litigation or other adverse action.

While ESG regulatory regimes and international standards are being developed, including to require consideration of ESG risks in investment decisions, some jurisdictions, notably in the US, have developed rules restricting the consideration of ESG factors in investment and business decisions. Under these anti-ESG rules, companies that are perceived as boycotting or discriminating against certain industries may be restricted from doing business with certain governmental entities. Our businesses may be adversely affected if we are considered as discriminating against companies based on ESG considerations, or if further anti-ESG rules are developed or broadened.

Material weaknesses of Credit Suisse controls over financial reporting

In March 2023, prior to the acquisition by UBS Group AG, the Credit Suisse Group and Credit Suisse AG disclosed that their management had identified material weaknesses in internal control over financial reporting as a result of which, the Credit Suisse Group and Credit Suisse AG had concluded that, as of 31 December 2022, their internal controls over financial reporting were not effective, and for the same reasons, reached the same conclusion regarding 31 December 2021. A material weakness is a deficiency or a combination of deficiencies in internal controls over financial reporting such that there is a reasonable possibility that a material misstatement of a registrant's financial statements will not be prevented or detected on a timely basis. The material weaknesses result in a risk that a material error may not be detected by internal controls that could result in a material misstatement to the company's reported financial results. Following the acquisition and merger of Credit Suisse Group AG into UBS Group AG in June 2023, Credit Suisse AG concluded that as of 31 December 2023 its internal control over financial reporting continued to be ineffective. As permitted by SEC guidance in the year of an acquisition, UBS Group AG excluded Credit Suisse AG from its assessment of internal control over financial reporting for the year ended 31 December 2023 and concluded that its internal control over financial reporting was effective as of such date.

In June 2024 Credit Suisse AG and UBS AG merged with UBS AG as the surviving entity. Although Credit Suisse is no longer a separate legal entity, numerous of its booking, accounting and risk management systems remain in use for activities that have not yet been exited or migrated to UBS systems.

The material weaknesses that were identified by Credit Suisse related to the failure to design and maintain an effective risk assessment process to identify and analyze the risk of material misstatements in its financial statements and the failure to design and maintain effective monitoring activities relating to (i) providing sufficient management oversight over the internal control evaluation process to support Credit Suisse internal control objectives; (ii) involving appropriate and sufficient management resources to support the risk assessment and monitoring objectives; and (iii) assessing and communicating the severity of deficiencies in a timely manner to those parties responsible for taking corrective action. These material weaknesses contributed to an additional material weakness, as the Credit Suisse Group management did not design and maintain effective controls over the classification and presentation of the consolidated statement of cash flows under US GAAP.

Since the Credit Suisse acquisition, we have executed a remediation program to address the identified material weaknesses and have implemented additional controls and procedures. As of 31 December 2024, management has assessed that the changes to internal controls made to address the material weakness relating to the classification and presentation of the consolidated statement of cash flows as well as assessment and communication of the severity of deficiencies are designed and operating effectively.

The remaining material weakness relates to the risk assessment of internal controls. We have implemented an enhanced severity assessment framework and additional management oversight of severity assessments and have integrated the Credit Suisse control frameworks into the UBS internal control framework and risk assessment and evaluation processes in 2024. In addition, UBS has reviewed the processes, systems and internal control processes in connection with the integration of the financial accounting and controls environment of Credit Suisse into UBS, and implementation of updated or additional processes and controls to reflect the increase in complexity of the accounting and financial control environment following the acquisition.

Management has assessed that the risk assessment process was designed effectively. However, in light of the increased complexity of the internal accounting and control environment, the remaining migration efforts still underway and limited time to demonstrate operating effectiveness and sustainability of the post-merger integrated control environment, management has concluded that additional evidence of effective operation of the remediated controls is required to conclude that the risk assessment processes is operating effectively on a sustainable basis. In light of the above, management has concluded that there is a material weakness in internal control over financial reporting at 31 December 2024 and as a result, that our disclosure controls and procedures were also not effective as of that date.

Our financial results may be negatively affected by changes to assumptions and valuations, as well as changes to accounting standards

We prepare our consolidated financial statements in accordance with IFRS Accounting Standards. The application of these accounting standards requires the use of judgment based on estimates and assumptions that may involve significant uncertainty at the time they are made. This is the case, for example, with respect to the measurement of fair value of financial instruments, the recognition of deferred tax assets (DTAs), the assessment of the impairment of goodwill, expected credit losses and estimation of provisions for litigation, regulatory and similar matters. Such judgments, including the underlying estimates and assumptions, which encompass historical experience, expectations of the future and other factors, are regularly evaluated to determine their continuing relevance based on current conditions. Using different assumptions could cause the reported results to differ. Changes in assumptions, or failure to make the changes necessary to reflect evolving market conditions, may have a significant effect on the financial statements in the periods when changes occur. Estimates of provisions may be subject to a wide range of potential outcomes and significant uncertainty. For example, the broad range of potential outcomes in our legal proceedings in France and in a number of Credit Suisse's legal proceedings increase the uncertainty associated with assessing the appropriate provision. If the estimates and assumptions in future periods deviate from the current outlook, our financial results may also be negatively affected.

Changes to IFRS Accounting Standards or interpretations thereof may cause future reported results and financial positions to differ from current expectations, or historical results to differ from those previously reported due to the adoption of accounting standards on a retrospective basis. Such changes may also affect our regulatory capital and ratios. For example, the introduction of the ECL regime under IFRS 9 in 2018 fundamentally changed how credit risk arising from loans, loan commitments, guarantees and certain revocable facilities is accounted for. Under the ECL regime, credit loss expenses may increase rapidly at the onset of an economic downturn as a result of higher levels of credit impairments (stage 3), as well as higher ECL from stages 1 and 2, only gradually diminishing once the economic outlook improves. As we observed in 2020, this effect may be more pronounced in a deteriorating economic environment. Substantial increases in ECL could exceed expected loss for regulatory capital purposes and adversely affect our CET1 capital and regulatory capital ratios.

We may be unable to maintain our capital strength

Capital strength enables us to grow our businesses and absorb increases in regulatory and capital requirements. Our ability to maintain our capital ratios is subject to numerous risks, including the financial results of our businesses, the effect of changes to capital standards, methodologies and interpretations that may adversely affect the calculation of our capital ratios, the imposition of risk add-ons or capital buffers, and the application of additional capital, liquidity and similar requirements to subsidiaries. Our capital and leverage ratios are driven primarily by RWA, LRD and eligible capital, all of which may fluctuate based on a number of factors, some of which are outside of our control. The results of our businesses may be adversely affected by events arising from other risk factors described herein. In some cases, such as litigation and regulatory risk and operational risk events, losses may be sudden and large. These risks could reduce the amount of capital available for return to shareholders and hinder our ability to achieve our capital returns target of a progressive cash dividend coupled with a share repurchase program.

Our eligible capital may be reduced by losses recognized within net profit or other comprehensive income. Eligible capital may also be reduced for other reasons, including acquisitions that change the level of goodwill, changes in temporary differences related to DTAs included in capital, adverse currency movements affecting the value of equity, prudential adjustments that may be required due to the valuation uncertainty associated with certain types of positions, changes in regulatory interpretations on the inclusion or exclusion of items contributing to our shareholders' equity in regulatory capital, and changes in the value of certain pension fund assets and liabilities or in the interest rate and other assumptions used to calculate the changes in our net defined benefit obligation recognized in other comprehensive income.

RWA are driven by our business activities, by changes in the risk profile of our exposures, by changes in our foreign currency exposures and foreign exchange rates, and by regulation. For instance, substantial market volatility, a widening of credit spreads, adverse currency movements, increased counterparty risk, deterioration in the economic environment or increased operational risk could result in an increase in RWA. Changes in the calculation of RWA, the imposition of additional supplemental RWA charges or multipliers applied to certain exposures and other methodology changes, as well as the finalization of the Basel III framework and Fundamental Review of the Trading Book promulgated by the BCBS, which are expected to affect our RWA.

The leverage ratio is a balance sheet-driven measure and therefore limits balance sheet-intensive activities, such as lending, more than activities that are less balance sheet intensive, and it may constrain our business even if we satisfy other risk-based capital requirements. Our LRD is driven by, among other things, the level of client activity, including deposits and loans, foreign exchange rates, interest rates, other market factors and changes in required liquidity. Many of these factors are wholly or partly outside of our control.

The effect of taxes on our financial results is significantly influenced by tax law changes and reassessments of our deferred tax assets and, also, operating losses of certain entities with no associated tax benefit

Our effective tax rate is highly sensitive to our performance, our expectation of future profitability and any potential increases or decreases in statutory tax rates, such as any potential increase or decrease in the US federal corporate tax rate. Furthermore, based on prior years' tax losses and deductible temporary differences, we have recognized DTAs reflecting the probable recoverable level based on future taxable profit as informed by our business plans. If our performance is expected to produce diminished taxable profit in future years, particularly in the US, we may be required to write down all or a portion of the currently recognized DTAs through the income statement in excess of anticipated amortization. This would have the effect of increasing our effective tax rate in the year in which any write-downs are taken. Conversely, if we expect the performance of entities in which we have unrecognized tax losses to improve, particularly in the US or the UK, we could potentially recognize additional DTAs. The effect of doing so would be to reduce our effective tax rate in years in which additional DTAs are recognized and to increase our effective tax rate in future years. Our effective tax rate is also sensitive to any future reductions in statutory tax rates, particularly in the US, which would cause the expected future tax benefit from items such as tax loss carry-forwards in the affected locations to diminish in value. This, in turn, would cause a write-down of the associated DTAs. Conversely, an increase in US corporate tax rates would result in an increase in the Group's DTAs.

We generally revalue our DTAs in the fourth quarter of the financial year based on a reassessment of future profitability taking into account our updated business plans. We consider the performance of our businesses and the accuracy of historical forecasts, tax rates and other factors in evaluating the recoverability of our DTAs, including the remaining tax loss carry-forward period and our assessment of expected future taxable profits over the life of DTAs. Estimating future profitability is inherently subjective and is particularly sensitive to future economic, market and other conditions, which are difficult to predict.

Our results in past years have demonstrated that changes in the recognition of DTAs can have a very significant effect on our reported results. Any future change in the manner in which UBS remeasures DTAs could affect UBS's effective tax rate, particularly in the year in which the change is made.

Our full-year effective tax rate would be impacted if aggregate tax expenses in respect of profits from branches and subsidiaries without loss coverage differ from what is expected or if certain branches and subsidiaries incur operating losses that we cannot benefit from through the income statement. In particular, operating losses at entities or branches that cannot offset for tax purposes taxable profits in other Group entities, and which do not result in additional DTA recognition, would increase our effective tax rate. In addition, tax laws or the tax authorities in countries where we have undertaken legal structure changes may cause entities to be subject to taxation as permanent establishments or may prevent the transfer of tax losses incurred in one legal entity to newly organized or reorganized subsidiaries or affiliates, or may impose limitations on the utilization of tax losses that relate to businesses formerly conducted by the transferor. Were this to occur in situations where there were also limited planning opportunities to utilize the tax losses in the originating entity, the DTAs associated with such tax losses may be required to be written down through the income statement.

Changes in tax law may materially affect our effective tax rate and, in some cases, may substantially affect the profitability of certain activities. In addition, statutory and regulatory changes, as well as changes to the way in which courts and tax authorities interpret tax laws, including assertions that we are required to pay taxes in a jurisdiction as a result of activities connected to that jurisdiction constituting a permanent establishment or similar theory, and changes in our assessment of uncertain tax positions, could cause the amount of taxes we ultimately pay to materially differ from the amount accrued.

We may incur material future tax liabilities in connection with the acquisition of the Credit Suisse Group

In the past, the Credit Suisse Group has recorded significant impairments of the tax value of its participations in subsidiaries below their tax acquisition costs. As a result of the acquisition of the Credit Suisse Group, tax acquisition costs of participations held by Credit Suisse Group AG and its subsidiaries have been transferred to the UBS Group. UBS Group AG and its subsidiaries may become subject to additional Swiss tax on future reversals of such impairments for Swiss tax purposes. Reversals of prior impairments may occur to the extent that the net asset value of the previously impaired subsidiary increases, e.g., as a result of an increase in retained earnings. Although it is difficult to quantify this additional future tax exposure, as various potential mitigants (e.g., transfers of assets and liabilities, business activities, subsidiary investments, as well as other restructuring measures within the combined Group in the course of the integration) exist, it may be material.

Liquidity and funding risk

Liquidity and funding management are critical to UBS's ongoing performance

The viability of our business depends on the availability of funding sources, and our success depends on our ability to obtain funding at times, in amounts, for tenors and at rates that enable us to efficiently support our asset base in all market conditions. Our funding sources have generally been stable, but could change in the future because of, among other things, general market disruptions or widening credit spreads, which could also influence the cost of funding. A substantial part of our liquidity and funding requirements are met using short-term unsecured funding sources, including retail and wholesale deposits and the regular issuance of money market securities. A change in the availability of short-term funding could occur quickly.

The addition of loss-absorbing debt as a component of capital requirements, the regulatory requirements to maintain minimum TLAC at UBS's holding company and at certain of its subsidiaries, as well as the power of resolution authorities to bail in TLAC instruments and other debt obligations, and uncertainty as to how such powers will be exercised, caused and may still cause a further increase in UBS's cost of funding, and could potentially increase the total amount of funding required, in the absence of other changes in its business.

Reductions in our credit ratings may adversely affect the market value of the securities and other obligations and increase our funding costs, in particular with regard to funding from wholesale unsecured sources, and could affect the availability of certain kinds of funding. In addition, as experienced in connection with the Moody's Investors Service Ltd. downgrade of UBS AG's long-term debt rating in June 2012, rating downgrades can require us to post additional collateral or make additional cash payments under trading agreements. Our credit ratings, together with our capital strength and reputation, also contribute to maintaining client and counterparty confidence, and it is possible that rating changes could influence the performance of some of our businesses. The acquisition of the Credit Suisse Group has elevated these risks and may cause these risks to intensify. Upon the close of the acquisition in June 2023, Fitch Ratings Ireland Limited downgraded the Long-Term Issuer Default Ratings (IDRs) of UBS Group AG to "A" from "A+" and of UBS AG to "A+" from "AA–". Fitch Ratings Ltd. also upgraded Credit Suisse AG's Long-Term IDR to "A+" from "BBB+".

The requirement to maintain a liquidity coverage ratio of high-quality liquid assets to estimated stressed short-term net cash outflows, and other similar liquidity and funding requirements, oblige us to maintain high levels of overall liquidity, limit our ability to optimize interest income and expense, make certain lines of business less attractive and reduce our overall ability to generate profits. The liquidity coverage ratio and net stable funding ratio requirements are intended to ensure that we are not overly reliant on short-term funding and that we have sufficient long-term funding for illiquid assets. The relevant calculations make assumptions about the relative likelihood and amount of outflows of funding and available sources of additional funding in market-wide and firm-specific stress situations. In an actual stress situation, however, our funding outflows could exceed the assumed amounts. Further, UBS is subject to increased liquidity requirements related to too-big-to-fail (TBTF) measures under the direction of FINMA, which became effective on 1 January 2024.

Financial and operating performance

Management report

Accounting and financial reporting

Critical accounting estimates and judgments

In preparing our financial statements in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board (the IASB), we apply judgment and make estimates and assumptions that may involve significant uncertainty at the time they are made. We regularly reassess those estimates and assumptions, which encompass historical experience, expectations of the future and other pertinent factors, to determine their continuing relevance based on current conditions, and update them as necessary. Changes in estimates and assumptions may have significant effects on the financial statements. Furthermore, actual results may differ significantly from our estimates, which could result in significant losses to the Group, beyond what we expected or provided for.

Key areas involving a high degree of judgment and areas where estimates and assumptions are significant to the consolidated financial statements include the following (note references below are found in the "Consolidated financial statements" section of this report):

- provisional amounts of identifiable assets acquired and liabilities assumed with the acquisition of the Credit Suisse Group (refer to "Note 2 Accounting for the acquisition of Credit Suisse Group");
- expected credit loss measurement (refer to "Note 20 Expected credit loss measurement");
- fair value measurement (refer to "Note 21 Fair value measurement");
- income taxes (refer to "Note 9 Income taxes");
- provisions and contingent liabilities (refer to "Note 18 Provisions and contingent liabilities");
- post-employment benefit plans (refer to "Note 26 Post-employment benefit plans");
- goodwill (refer to "Note 13 Goodwill and intangible assets"); and
- consolidation of structured entities (refer to "Note 28 Interests in subsidiaries and other entities").

Accounting and financial reporting changes after 2024

IFRS 18, *Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued a new standard, IFRS 18, *Presentation and Disclosure in Financial Statements*, which replaces IAS 1, *Presentation of Financial Statements*, and is effective from 1 January 2027. The main changes introduced by IFRS 18 relate to the structure of income statements, new disclosure requirements for management performance measures and enhanced guidance on aggregation and disaggregation of information. UBS is assessing the impact of the new requirements on its reporting but expects it to be limited.

Amendments to IFRS 9, *Financial Instruments*, and IFRS 7, *Financial Instruments: Disclosures*

In May 2024, the IASB issued *Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7* (the Amendments). The Amendments relate to derecognition of financial liabilities settled through electronic transfer systems and classification of financial assets, and they introduce new disclosure requirements. The Amendments are effective from 1 January 2026, with early application permitted either for the entire set of amendments or for only those that relate to classification of financial instruments. UBS is currently assessing the impact of the new requirements on its financial statements.

Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section of this report for more information about the relevant changes.

Underlying results

In addition to reporting our results in accordance with IFRS Accounting Standards, we report underlying results that exclude items of profit or loss that management believes are not representative of the underlying performance.

In 2024, underlying revenues exclude purchase price allocation (PPA) effects and other integration items. PPA effects mainly consist of PPA adjustments on financial instruments measured at amortized cost, including off-balance sheet positions, arising from the acquisition of the Credit Suisse Group. Accretion of PPA adjustments on financial instruments is accelerated when the related financial instrument is derecognized before its contractual maturity. No adjustment is made for accretion of PPA on financial instruments within Non-core and Legacy, due to the nature of its business model. Underlying revenues also exclude losses related to an investment in an associate.

In 2024, underlying expenses exclude integration-related expenses that are temporary, incremental and directly related to the integration of Credit Suisse into UBS, including costs of internal staff and contractors substantially dedicated to integration activities, retention awards, redundancy costs, incremental expenses from the shortening of useful lives of property, equipment and software, and impairment charges relating to these assets. Classification as integration-related expenses does not affect the timing of recognition and measurement of those expenses or the presentation thereof in the income statement. Underlying operating expenses also exclude items related to the Swisscard transactions.

Results 2024 vs 2023

In 2024, reported net profit attributable to shareholders decreased by USD 22,281m to USD 5,085m, largely due to 2023 including negative goodwill of USD 27,264m relating to the acquisition of the Credit Suisse Group. There was a net tax expense of USD 1,675m in 2024.

Operating profit before tax decreased by USD 21,434m to USD 6,821m, primarily due to 2023 including negative goodwill and higher operating expenses in 2024, partly offset by an increase in total revenues and lower net credit loss expenses. Total revenues increased by USD 7,777m, or 19%, to USD 48,611m, driven by the consolidation of Credit Suisse revenues for the full period, and included an increase of USD 597m in accretion impacts resulting from PPA adjustments on financial instruments and other PPA effects. Net fee and commission income increased by USD 4,568m, total combined net interest income and other net income from financial instruments measured at fair value through profit or loss increased by USD 2,918m and other income increased by USD 291m. Operating expenses increased by USD 2,433m, or 6%, to USD 41,239m, largely due to the consolidation of Credit Suisse expenses for the full period, and included a USD 223m increase in integration-related expenses and PPA effects. This was mainly driven by a USD 2,419m increase in personnel expenses, as well as a USD 48m increase in depreciation, amortization and impairment of non-financial assets, partly offset by a USD 32m decrease in general and administrative expenses. Net credit loss expenses were USD 551m, compared with USD 1,037m in 2023.

Underlying results 2024 vs 2023

Underlying total revenues for 2024 excluded PPA effects and other integration items of USD 2,877m, as well as USD 80m of losses related to an investment in an associate. Underlying operating expenses excluded integration-related expenses and PPA effects of USD 4,766m, as well as a USD 41m expense related to the Swisscard transactions.

On an underlying basis, profit before tax increased by USD 4,868m to USD 8,831m, reflecting a USD 6,752m increase in underlying total revenues and a USD 486m decrease in net credit loss expenses, partly offset by a USD 2,371m increase in underlying operating expenses.

Total revenues

Net interest income and other net income from financial instruments measured at fair value through profit or loss

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss increased by USD 2,918m to USD 21,798m, largely as a result of the consolidation of Credit Suisse revenues for the full period, and included an increase of USD 363m in accretion impacts resulting from PPA adjustments on financial instruments and other PPA effects.

Global Wealth Management revenues increased by USD 547m to USD 9,031m, largely as a result of the consolidation of Credit Suisse revenues for the full period, and included a USD 37m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding the aforementioned effects, net interest income decreased, reflecting lower deposit and loan revenues and higher liquidity and funding costs, and transaction-based income increased, mainly driven by higher levels of client activity, particularly in the Asia Pacific and Americas regions.

Personal & Corporate Banking revenues increased by USD 940m to USD 6,479m, largely as a result of the consolidation of Credit Suisse revenues for the full period, and included a USD 266m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding the aforementioned effects, net interest income decreased, mainly due to lower deposit revenues, including the effect from shifts to lower-margin deposit products, and higher liquidity and funding costs.

Revenues in the Investment Bank increased by USD 1,109m to USD 6,164m, and included a USD 71m increase of accretion of PPA adjustments on financial instruments and other PPA effects. The overall increase was mainly attributable to the Derivatives & Solutions business, mostly driven by growth in Equity Derivatives and Foreign Exchange revenues. In addition, Financing revenues increased, particularly in the Capital Markets Financing business. There was also an increase in Global Banking, mainly from higher revenues across Public Capital Markets, primarily driven by Leveraged Capital Markets.

Non-core and Legacy revenues increased by USD 842m to USD 1,163m, mainly due to the consolidation of Credit Suisse revenues for the full period. Revenues included net gains from position exits, along with net interest income from securitized products and credit products. Total revenues also included a net gain of USD 272m, after accounting for the PPA adjustments recorded at the closing of the acquisition of the Credit Suisse Group, from the sale of assets from the former Credit Suisse securitized products group to Apollo Management Holdings and certain other entities.

Group Items revenues were negative USD 1,054m, compared with negative USD 513m in 2023. This included the income from Group hedging and own debt, including hedge accounting ineffectiveness, within Group Treasury. Revenues in 2024 were driven by mark-to-market effects on portfolio-level economic hedges, mainly due to cross-currency-basis widening.

Group Items	**(1,054)**	(513)	(767)	105

1 Comparative-period information has been restated for changes in business division perimeters, Group Treasury allocations and Non-core and Legacy cost allocations. Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section of this report for more information about the relevant changes. 2 Mainly includes spread-related income in connection with client-driven transactions, foreign currency translation effects and income and expenses from precious metals, which are included in the income statement line Other net income from financial instruments measured at fair value through profit or loss. The amounts reported on this line are one component of Transaction-based income in the management discussion and analysis of Global Wealth Management and Personal & Corporate Banking in the "Global Wealth Management" and "Personal & Corporate Banking" sections of this report, respectively.

Net fee and commission income

Net fee and commission income increased by USD 4,568m to USD 26,138m, largely as a result of the consolidation of Credit Suisse revenues for the full period, and included an increase of USD 257m in accretion of PPA adjustments on financial instruments and other PPA effects, predominantly in the Investment Bank.

Fees for portfolio management and related services increased by USD 1,650m to USD 12,323m and investment fund fees increased by USD 930m to USD 5,767m, predominantly in Global Wealth Management and Asset Management, respectively, both largely as a result of the consolidation of Credit Suisse revenues for the full period. Global Wealth Management also benefited from positive market performance. The increase in Asset Management was also due to positive market performance and foreign currency effects, as well as the revaluation of a real estate fund co-investment, partly offset by effects of continued margin compression and the impact of exits from non-strategic businesses.

Net brokerage fees increased by USD 1,009m to USD 4,224m, reflecting an increase across all regions in Cash Equities in Execution Services in the Investment Bank, as well as an increase in Global Wealth Management that was due to higher levels of client activity, particularly in the Asia Pacific and Americas regions.

Underwriting fee income increased by USD 218m to USD 786m, mainly due to an increase in debt underwriting revenues from public offerings in Global Banking in the Investment Bank, reflecting higher levels of client activity.

› **Refer to "Note 5 Net fee and commission income" in the "Consolidated financial statements" section of this report for more information**

Other income

Other income was USD 675m compared with USD 384m in 2023, mainly due to a USD 492m increase in the share of net profits from associates and joint ventures. In addition, there was a USD 135m gain related to the sale of our investment in an associate, with half of the gain being recognized within the Investment Bank and the other half in Non-core and Legacy, and USD 113m net gains in Asset Management from the sale of non-strategic businesses. These increases were partly offset by a USD 139m reduction in gains recognized on repurchases of UBS's own debt instruments. 2024 also included losses of USD 75m relating to insurance and similar contracts, compared with gains of USD 41m in 2023. The insurance and similar contracts are hedged with derivative instruments, with offsetting gains and losses in the income statement within *Other net income from financial instruments measured at fair value through profit or loss*.

› **Refer to "Note 29 Changes in organization and acquisitions and disposals of subsidiaries and businesses" in the "Consolidated financial statements" section of this report for more information about disposals of subsidiaries and businesses**

Credit loss expense / release

Total net credit loss expenses in 2024 were USD 551m, reflecting net releases of USD 99m related to performing positions and net expenses of USD 651m on credit-impaired positions. Net credit loss expenses were USD 1,037m in 2023.

- **Refer to "Note 10 Financial assets at amortized cost and other positions in scope of expected credit loss measurement" and "Note 20 Expected credit loss measurement" in the "Consolidated financial statements" section of this report for more information about credit loss expenses / releases**
- **Refer to the "Risk factors" section of this report for more information**

Operating expenses

Personnel expenses

Personnel expenses increased by USD 2,419m to USD 27,318m, largely due to the consolidation of Credit Suisse expenses for the full period, partly offset by the impact of a smaller workforce. Salaries and variable compensation increased by USD 2,205m, including a USD 744m increase in financial advisor compensation as a result of higher compensable revenues. Personnel expenses included a USD 349m increase in integration-related expenses largely related to higher salaries, partly offset by lower costs related to post-employment benefit plans and variable compensation.

- **Refer to the "Compensation" section of this report for more information**
- **Refer to "Note 7 Personnel expenses", "Note 26 Post-employment benefit plans" and "Note 27 Employee benefits: variable compensation" in the "Consolidated financial statements" section of this report for more information**

General and administrative expenses

General and administrative expenses decreased by USD 32m to USD 10,124m, primarily due to a USD 937m decrease in expenses for litigation, regulatory and similar matters, mainly reflecting USD 665m higher expenses in 2023 related to the US residential mortgage-backed securities litigation matter, as well as a USD 300m release in 2024 of IFRS 3 acquisition-related contingent liabilities following settlements. These decreases were largely offset by a USD 505m increase in technology costs, mainly reflecting higher cloud computing usage and the consolidation of Credit Suisse expenses for the full period, as well as a USD 245m increase in integration-related expenses, mainly driven by increases in outsourcing and marketing costs.

- **Refer to "Note 8 General and administrative expenses" and "Note 18 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information**

Depreciation, amortization and impairment of non-financial assets

Depreciation, amortization and impairment of non-financial assets increased by USD 48m to USD 3,798m, mainly due to an increase in underlying expenses of USD 468m reflecting higher amortization of internally generated capitalized software, as a result of the consolidation of Credit Suisse expenses for the full period and a higher cost basis of software assets. These expenses were partly offset by a USD 420m decrease in integration-related expenses, primarily due to a USD 206m impairment of a software project in progress in 2023, resulting from a reprioritization of software development activity, as well as a USD 171m decrease associated with real estate leases, reflecting higher levels of impairment and accelerated depreciation in 2023.

Operating expenses

	For the year ended			% change from

Depreciation, amortization and impairment of non-financial assets	**3,798**	3,750	2,061	1
Total operating expenses	**41,239**	38,806	24,930	6

1 Financial advisor compensation consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. 2 Consists of expenses related to contractors, social security, post-employment benefit plans, and other personnel expenses. Refer to "Note 7 Personnel expenses" in the "Consolidated financial statements" section of this report for more information.

Tax

Income tax expenses of USD 1,675m were recognized for the Group in 2024, representing an effective tax rate of 24.6%, compared with USD 873m for 2023, which represented an effective tax rate of 3.1%. The income tax expenses for 2024 included a net Swiss tax expense of USD 968m and a net non-Swiss tax expense of USD 707m.

The net Swiss tax expense included current tax expenses of USD 672m in respect of taxable profits of UBS Switzerland AG and other Swiss entities and deferred tax expenses of USD 361m that primarily related to the amortization of deferred tax assets (DTAs) previously recognized in relation to deductible temporary differences, partly offset by a benefit of USD 65m in respect of a net upward revaluation of DTAs.

The net non-Swiss tax expense included current tax expenses of USD 831m that mainly related to US corporate alternative minimum tax with an equivalent deferred tax benefit for DTAs recognized in respect of tax credits carried forward and USD 667m in respect of other taxable profits of non-Swiss subsidiaries and branches. These current tax expenses were partly offset by a net non-Swiss deferred tax benefit, which reflected benefits of USD 831m related to the aforementioned deferred tax benefit and USD 417m in respect of a net upward revaluation of DTAs, partly offset by an expense of USD 457m that primarily related to the amortization of DTAs previously recognized in relation to tax losses carried forward and deductible temporary differences.

The Group's effective tax rate for the year would have been 31.6% without the aforementioned deferred tax benefits from DTA revaluations. This is higher than the Group's structural rate of 23% mainly because its net profit includes operating losses of certain entities, mostly reflecting expenses related to the integration of the legacy operations of Credit Suisse into the UBS Group, which include restructuring costs and other expenses resulting from the ongoing integration activities that did not result in any tax benefits, because they cannot be offset with profits of other entities in the Group, and did not result in any DTA recognition. We expect that the 2025 full year effective tax rate for the UBS Group will be materially less than the structural rate of 23% due to projected reorganization-related tax benefits.

- **Refer to "Note 9 Income taxes" in the "Consolidated financial statements" section of this report for more information**
- **Refer to the "Risk factors" section of this report for more information**

Total comprehensive income attributable to shareholders

In 2024, total comprehensive income attributable to shareholders was USD 3,388m, reflecting net profit of USD 5,085m and negative other comprehensive income (OCI), net of tax, of USD 1,698m.

Foreign currency translation OCI was negative USD 1,754m, mainly due to the strengthening of the US dollar against the Swiss franc and the euro.

Defined benefit plan OCI, net of tax, was negative USD 261m. Total pre-tax OCI related to the Swiss pension plans was negative USD 184m, reflecting losses of USD 4,017m from a remeasurement of the defined benefit obligation (DBO), largely offset by an increase in the plan assets of USD 2,596m and a decrease in the effect of the asset ceiling under IFRS Accounting Standards of USD 1,237m. The DBO remeasurement loss of USD 4,017m was mainly driven by losses due to changes in financial assumptions of USD 2,723m and an experience loss of USD 1,269m, reflecting the effects of differences between the previous actuarial assumptions and what actually occurred.

Total pre-tax OCI related to our non-Swiss pension plans was negative USD 123m, mostly driven by the Credit Suisse UK plan following a buy-in insurance transaction to mitigate inherent risks.

OCI related to cost of hedging was negative USD 146m, mainly driven by a widening of the US dollar / euro cross-currency basis that decreased the fair value of the cross-currency swaps.

OCI related to cash flow hedges was USD 481m, mainly reflecting net losses on hedging instruments that were reclassified from OCI to the income statement, partly offset by net unrealized losses on US dollar hedging derivatives resulting from increases in the relevant US dollar long-term interest rates.

- **Refer to "Statement of comprehensive income" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Note 25 Hedge accounting" in the "Consolidated financial statements" section of this report for more information about cash flow hedges of forecast transactions**
- **Refer to "Note 26 Post-employment benefit plans" in the "Consolidated financial statements" section of this report for more information about OCI related to defined benefit plans**

Sensitivity to interest rate movements

As of 31 December 2024, it is estimated that a parallel shift in yield curves by +100 basis points could lead to a combined increase in annual net interest income from our banking book of approximately USD 1.2bn in the first year after such a shift. Of this increase, approximately USD 0.7bn, USD 0.3bn and USD 0.1bn would result from changes in Swiss franc, US dollar and euro interest rates, respectively.

A parallel shift in yield curves by –100 basis points could lead to a combined increase in annual net interest income of approximately USD 0.6bn. Of this increase, approximately USD 1.1bn would result from changes in Swiss franc interest rates, driven by both contractual and assumed flooring benefits under negative interest rates. US dollar and euro interest rates would lead to an offsetting decrease of USD 0.4bn and USD 0.1bn, respectively.

These estimates are based on a hypothetical scenario of an immediate change in interest rates, equal across all currencies and relative to implied forward rates as of 31 December 2024 applied to our banking book. These estimates further assume no change to balance sheet size and product mix, stable foreign exchange rates, and no specific management action. These estimates do not represent net interest income forecasts.

Seasonal characteristics

Our revenues may show seasonal patterns, notably in the Investment Bank and transaction-based revenues for Global Wealth Management, and typically reflect the highest client activity levels in the first quarter, with lower levels throughout the rest of the year, especially during the summer months and the end-of-year holiday season.

Key figures

Below we provide an overview of selected key figures of the Group. For further information about key figures related to capital management, refer to the "Capital, liquidity and funding, and balance sheet" section of this report.

Cost / income ratio

The cost / income ratio was 84.8%, compared with 95.0%, and on an underlying basis the cost / income ratio was 79.5%, compared with 87.2%. Both of these decreases were as a result of higher total revenues, partly offset by higher operating expenses.

Return on common equity tier 1 capital

The return on common equity tier 1 (CET1) capital was 6.7%, compared with 41.8%, reflecting a USD 22,281m decrease in net profit attributable to shareholders, predominantly due to the recognition of negative goodwill in 2023, as well as a USD 10.2bn increase in average CET1 capital. On an underlying basis, the return on CET1 capital was 8.7%, compared with 4.2%. This increase was as a result of an increase in net profit attributable to shareholders, partly offset by an increase in average CET1 capital.

CET1 capital

CET1 capital decreased by USD 6.6bn to USD 71.4bn as of 31 December 2024, mainly as operating profit before tax of USD 6.8bn was more than offset by regular and voluntary amortization of the remaining transitional CET1 capital PPA adjustments of USD 4.3bn (net of tax), dividend accruals of USD 2.8bn, current tax expenses of USD 2.2bn, foreign currency translation losses of USD 1.8bn, a negative effect from compensation- and own-share-related capital components of USD 1.4bn, and share repurchases of USD 1.0bn under our 2024 share repurchase program.

Risk-weighted assets

During 2024, RWA decreased by USD 48.0bn to USD 498.5bn, driven by a USD 32.9bn decrease resulting from asset size and other movements, a USD 14.6bn decrease from currency effects, and a decrease of USD 0.4bn resulting from model updates and methodology changes.

CET1 capital ratio

Our CET1 capital ratio remained broadly unchanged at 14.3%, as a USD 48.0bn decrease in RWA was offset by the aforementioned decrease in CET1 capital.

Leverage ratio denominator

During 2024, the leverage ratio denominator (LRD) decreased by USD 175.9bn to USD 1,519.5bn, mainly due to asset size and other movements of USD 102.3bn, as well as currency effects of USD 73.6bn.

CET1 leverage ratio

Our CET1 leverage ratio increased to 4.7% from 4.6%, due to the USD 175.9bn decrease in the LRD, partly offset by the aforementioned decrease in CET1 capital.

Personnel

The number of internal and external personnel employed was approximately 128,983 (workforce count) as of 31 December 2024, a net decrease of 9,479 compared with 31 December 2023. The number of internal personnel employed as of 31 December 2024 was 108,648 (full-time equivalents), a net decrease of 4,194 compared with 31 December 2023. The number of external staff was approximately 20,335 (workforce count), a net decrease of 5,284 compared with 31 December 2023.

Equity, CET1 capital and returns

1 Comparatives may differ due to adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. 2 Comparative figures have been restated for changes in business division perimeters, Group Treasury allocations and Non-core and Legacy cost allocations, as well as changes in the equity attribution framework. Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section and "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information. 3 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 4 Includes accretion of PPA adjustments on financial instruments and other PPA effects, as well as temporary and incremental items directly related to the integration. 5 Includes temporary, incremental operating expenses directly related to the integration, as well as amortization of newly recognized intangibles resulting from the acquisition of the Credit Suisse Group. 6 Refer to "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the equity attribution framework. 7 Relates to licensed professionals with the ability to provide investment advice to clients in the Americas. Consists of cash compensation, determined using a formulaic approach based on production, and deferred awards. Also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. Recruitment loans to financial advisors were USD 1,683m as of 31 December 2024. 8 Loans and Customer deposits in this table include customer brokerage receivables and payables, respectively, which are presented in separate reporting lines on the balance sheet. 9 Refer to the "Risk management and control" section of this report for more information about (credit-)impaired exposures. Excludes loans to financial advisors.

2024 compared with 2023

Results

Profit before tax increased by USD 479m, or 14%, to USD 3,924m, mainly due to the acquisition of the Credit Suisse Group and also due to higher total revenues, partly offset by higher operating expenses. Underlying profit before tax was USD 4,860m, an increase of 30%, after excluding from operating expenses USD 1,807m of integration-related expenses and purchase price allocation (PPA) effects, and also excluding from total revenues USD 891m of PPA effects and other integration items and a loss of USD 21m related to an investment in an associate.

Total revenues

Total revenues increased by USD 2,960m, or 14%, to USD 24,516m, largely driven by the consolidation of Credit Suisse revenues for the full period, as well as higher recurring net fee income and transaction-based income. Total revenues included a USD 32m decrease in PPA effects and other integration items. It also included a loss of USD 21m related to an investment in an associate. Excluding PPA effects and other integration items of USD 891m and the aforementioned loss, underlying total revenues were USD 23,646m, an increase of 14%.

Net interest income increased by USD 276m, or 4%, to USD 7,358m, largely attributable to the consolidation of Credit Suisse net interest income for the full period, and included a USD 37m increase in accretion of PPA adjustments on financial instruments and other PPA effects. The remaining variance was largely driven by lower deposit revenues, mainly as a result of lower margins, and included the effects of shifts to lower-margin deposit products. The change was also due to higher liquidity and funding costs, as well as lower loan revenues, reflecting lower average volumes. Excluding accretion and other effects of USD 910m, underlying net interest income was USD 6,448m, an increase of 4%.

Recurring net fee income increased by USD 1,637m, or 15%, to USD 12,625m, mainly driven by positive market performance and the consolidation of Credit Suisse recurring net fee income for the full period.

Transaction-based income increased by USD 880m, or 24%, to USD 4,503m, mainly driven by higher levels of client activity, particularly in the Asia Pacific and Americas regions, and the consolidation of Credit Suisse transaction-based income for the full period. Transaction-based income included USD 29m of accretion of PPA adjustments on financial instruments and other PPA effects, compared with USD 49m in 2023. 2024 also included negative USD 48m of temporary and incremental items directly related to the integration of Credit Suisse. Excluding negative USD 19m resulting from the aforementioned accretion and other effects and temporary and incremental items, underlying transaction-based income was USD 4,521m, an increase of 27%.

Other income was positive USD 31m, compared with negative USD 137m. Other income in 2024 included a loss of USD 21m related to an investment in an associate, compared with a loss of USD 190m related to an investment in an associate recognized in 2023. Excluding the aforementioned loss, underlying other income was positive USD 52m.

Credit loss expense / release

Net credit loss releases were USD 16m, compared with net credit loss expenses of USD 166m in 2023. Prior-year net credit loss expenses were largely driven by the initial recognition of expected credit loss allowances and provisions with respect to Credit-Suisse-related positions.

Operating expenses

Operating expenses increased by USD 2,663m, or 15%, to USD 20,608m, and included a USD 785m increase in integration-related expenses. The remaining variance was due to the consolidation of Credit Suisse expenses for the full period and higher personnel expenses, primarily reflecting an increase in financial advisor compensation as a result of higher compensable revenues. This was offset by 2023 including a charge of USD 60m for the special assessment by the US Federal Deposit Insurance Corporation (the FDIC). Excluding integration-related expenses and PPA effects of USD 1,807m, underlying operating expenses were USD 18,802m, an increase of 11%.

Cost / income ratio

The cost / income ratio increased to 84.1% from 83.2%, as the relative increase in operating expenses was higher than the relative increase in total revenues. The underlying cost / income ratio decreased to 79.5% from 81.3%, as an increase in underlying total revenues more than offset an increase in underlying operating expenses.

Invested assets

Invested assets increased by USD 260bn to USD 4,182bn, mainly driven by positive market performance of USD 291.9bn and net new asset inflows of USD 96.7bn, partly offset by negative foreign currency effects of USD 77.0bn and by the reclassification of USD 49.0bn of certain Credit Suisse client assets from invested assets to custody-only assets.

Loans

Loans decreased by USD 21.6bn to USD 300.5bn, driven by negative net new loans of USD 11.8bn and negative foreign currency effects.

› **Refer to the "Risk management and control" section of this report for more information**

Customer deposits

Customer deposits decreased by USD 14.9bn to USD 470.1bn, mainly driven by negative foreign currency effects, partly offset by net new deposit inflows of USD 0.9bn.

1 Including the following business units: United States and Canada; and Latin America. 2 Includes minor functions, which are not included in the four regions individually presented in this table, and also includes impacts from accretion of PPA adjustments on financial instruments and other PPA effects and integration-related expenses. 3 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 4 Loans include customer brokerage receivables, which are presented in a separate reporting line on the balance sheet.

Regional comments: 2024 compared with 2023

Americas

Profit before tax increased by USD 12m to USD 1,044m and included an increase in provisions for litigation, regulatory and similar matters. In addition, 2023 included the aforementioned charge of USD 60m for the special assessment by the FDIC. Total revenues increased by USD 892m, or 9%, to USD 11,263m, mainly driven by higher recurring net fee income, higher transaction-based income and the consolidation of Credit Suisse revenues for the full period, partly offset by lower net interest income. The cost / income ratio increased to 90.5% from 89.9%. Loans were broadly stable compared with 2023, at USD 97.6bn. Net new asset inflows were USD 41.7bn.

Asia Pacific

Profit before tax increased by USD 591m to USD 1,182m. Total revenues increased by USD 659m, or 22%, to USD 3,612m, mainly driven by the consolidation of Credit Suisse revenues for the full period. The remaining variance was due to increases in transaction-based income and recurring net fee income, offset by lower net interest income. The cost / income ratio decreased to 67.5% from 79.5%. Loans decreased 10% compared with 2023, to USD 41.5bn, mainly driven by negative net new loans and negative foreign currency effects. Net new asset inflows were USD 20.7bn.

EMEA

Profit before tax increased by USD 157m to USD 1,234m. Total revenues increased by USD 337m, or 8%, to USD 4,677m, mainly driven by the consolidation of Credit Suisse revenues for the full period. The remaining variance was due to lower net interest income and lower recurring net fee income. The cost / income ratio decreased to 74.0% from 74.8%. Loans decreased 8% compared with 2023, to USD 57.4bn, mainly driven by USD 4.6bn of negative net new loans. Net new asset inflows were USD 3.0bn.

Switzerland

Profit before tax increased by USD 329m to USD 1,442m. Total revenues increased by USD 944m, or 30%, to USD 4,083m, mostly driven by the consolidation of Credit Suisse revenues for the full period. The remaining variance was due to higher recurring net fee income and higher transaction-based income. The cost / income ratio increased to 65.2% from 63.9%. Loans decreased 11% compared with 2023, to USD 102.9bn, mainly reflecting negative foreign currency effects and USD 4.9bn of negative net new loans. Net new asset inflows were USD 33.5bn.

Global

Operating loss before tax was USD 978m, mainly including USD 1,807m of the aforementioned integration-related expenses and PPA effects in operating expenses, partly offset by the aforementioned USD 891m related to PPA effects and other integration items and a loss of USD 21m related to an investment in an associate in total revenues.

2024 compared with 2023

Results

Profit before tax increased by CHF 286m, or 11%, to CHF 2,814m, mainly due to the acquisition of the Credit Suisse Group. Underlying profit before tax was CHF 2,651m, an increase of 8%, after excluding from total revenues CHF 915m of purchase price allocation (PPA) effects and other integration items and a loss of CHF 54m related to an investment in an associate, and also excluding from operating expenses integration-related expenses and PPA effects of CHF 662m and a CHF 37m expense related to the Swisscard transactions.

Total revenues

Total revenues increased by CHF 1,361m, or 20%, to CHF 8,241m, mainly due to the consolidation of Credit Suisse revenues for the full period, and included a CHF 223m increase in PPA effects and other integration items. 2024 also included a loss of CHF 54m related to an investment in an associate. Excluding PPA effects and other integration items of CHF 915m and the aforementioned loss, underlying total revenues were CHF 7,379m, an increase of 14%.

Net interest income increased by CHF 637m, or 15%, to CHF 4,987m, largely as a result of the consolidation of Credit Suisse net interest income for the full period, and included a CHF 232m increase in accretion of PPA adjustments on financial instruments and other PPA effects. This was partly offset by lower deposit revenues, including the effect from shifts to lower-margin deposit products, and higher liquidity and funding costs. Excluding PPA effects of CHF 841m, underlying net interest income was CHF 4,146m, an increase of 11%.

Recurring net fee income increased by CHF 288m, or 25%, to CHF 1,425m, mainly due to the consolidation of Credit Suisse recurring net fee income for the full period, as well as an increase in revenues due to higher investment product levels, reflecting positive market performance and net new inflows.

Transaction-based income increased by CHF 230m, or 14%, to CHF 1,821m, largely as a result of the consolidation of Credit Suisse transaction-based income for the full period. Excluding PPA effects and other integration items of CHF 74m, underlying transaction-based income was CHF 1,747m, an increase of 16%.

Other income was positive CHF 7m, compared with negative CHF 198m. Other income in 2024 included a loss of CHF 54m related to an investment in an associate, compared with a loss of CHF 267m recognized in 2023. Excluding the aforementioned loss, underlying other income was CHF 61m, a decrease of 12%.

Credit loss expense / release

Net credit loss expenses were CHF 357m and reflected net expenses on credit-impaired positions, primarily in the legacy Credit Suisse corporate loan book, partly offset by net credit loss releases related to performing positions. Net credit loss expenses in 2023 were CHF 433m and were largely driven by the initial recognition of expected credit loss allowances and provisions with respect to Credit-Suisse-related positions.

Operating expenses

Operating expenses increased by CHF 1,151m, or 29%, to CHF 5,070m, largely due to the consolidation of Credit Suisse expenses for the full period, and included a CHF 273m increase in integration-related expenses and a CHF 37m expense related to the Swisscard transactions in 2024. Excluding integration-related expenses and PPA effects of CHF 662m, as well as the aforementioned expense of CHF 37m, underlying operating expenses were CHF 4,371m, an increase of 22%.

Cost / income ratio

The cost / income ratio increased to 61.5% from 57.0%, with an increase on an underlying basis to 59.2% from 55.3%, as the relative increases in operating expenses and underlying operating expenses, respectively, were higher than the relative increases in total revenues and underlying total revenues, respectively.

2024 compared with 2023

Results

Profit before tax increased by USD 188m, or 56%, to USD 520m, mainly due to higher net gains from the sale of non-strategic businesses and the acquisition of the Credit Suisse Group. Underlying profit before tax was USD 871m, an increase of 62%, after excluding integration-related expenses of USD 351m.

Total revenues

Total revenues increased by USD 496m, or 18%, to USD 3,182m, primarily reflecting the consolidation of Credit Suisse revenues for the full period. Total revenues in 2024 included USD 113m of net gains from the aforementioned sales, compared with net gains on sales of USD 27m in 2023.

Net management fees increased by USD 367m, or 14%, to USD 2,921m, largely attributable to the consolidation of Credit Suisse net management fees for the full period, positive market performance and foreign currency effects, and the revaluation of a real estate fund co-investment, partly offset by continued margin compression and the impact of exits from non-strategic businesses. In addition, 2023 included negative pass-through fees, with the corresponding offset in performance fees.

Performance fees increased by USD 45m, or 43%, to USD 149m, mostly due to increases in Hedge Fund Businesses and Fixed Income, as well as the consolidation of Credit Suisse performance fees for the full period. These increases were partly offset by lower performance fees due to 2023 including both the aforementioned pass-through fees and the final distribution of fees from a legacy fund.

Operating expenses

Operating expenses increased by USD 310m, or 13%, to USD 2,663m, mainly reflecting the consolidation of Credit Suisse expenses for the full period. Operating expenses included integration-related expenses of USD 351m, which represented a USD 146m increase compared with the USD 205m of integration-related expenses recorded in 2023. Excluding the aforementioned integration-related expenses, underlying operating expenses were USD 2,312m, an increase of 8%.

Cost / income ratio

The cost / income ratio decreased to 83.7% from 87.6%, with a decrease on an underlying basis to 72.7% from 80.0%, as an increase in total revenues more than offset increases in operating expenses and underlying operating expenses, respectively.

Invested assets

Invested assets increased by USD 124bn to USD 1,773bn, reflecting positive market performance of USD 157bn, positive net new money of USD 45bn, partly offset by adverse foreign currency effects of USD 68bn. There was also a USD 10bn decrease in invested assets related to the impact of exits from non-strategic businesses. Excluding money market flows and associates, net new money was USD 15bn.

Investment performance

As of year-end 2024, Morningstar assigned a four- or five-star rating to 65% of our traditional retail and institutional funds assets under management (AuM) (both actively managed and passive), on an AuM-weighted basis. Furthermore, 57% of our actively managed traditional open-ended retail and institutional funds AuM are ranked, on an AuM-weighted basis over a three-year investment period, above their respective peer median.

Investment performance as of 31 December 2024

In %	Total traditional investments	Equities	Fixed Income	Multi-asset
Percentage of UBS Asset Management fund assets rated as 4- or 5-star[1,2]	65	76	51	42
Percentage of UBS Asset Management fund assets above peer median over a 3-year investment period[1,3]	57	69	70	22

1 Comparatives may differ due to adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. 2 Comparative figures have been restated for changes in business division perimeters, Group Treasury allocations and Non-core and Legacy cost allocations, as well as changes in the equity attribution framework. Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section and "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information. 3 Comparative figures for the year ended 31 December 2023 have been restated as a result of the shift of the foreign exchange products that are traded over electronic platforms from Execution Services to Derivatives & Solutions. The restatement had no effect on total Global Markets revenues. 4 Includes accretion of PPA adjustments on financial instruments and other PPA effects. 5 Refer to "Alternative performance measures" in the appendix to this report for the definition and calculation method. 6 Refer to "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the equity attribution framework.

2024 compared with 2023

Results

Profit before tax was USD 1,917m, compared with a loss before tax of USD 72m, mainly due to higher total revenues, partly offset by higher operating expenses. Underlying profit before tax was USD 1,644m, after excluding USD 989m of purchase price allocation (PPA) effects and USD 717m of integration-related expenses.

Total revenues

Total revenues increased by USD 2,245m, or 26%, to USD 10,948m, with higher revenues for both Global Markets and Global Banking, and included a USD 406m increase in PPA effects. Excluding these effects, underlying total revenues were USD 9,958m, an increase of 23%.

Global Banking

Global Banking revenues increased by USD 1,036m, or 43%, to USD 3,454m, and included a USD 392m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Global Banking revenues were USD 2,482m, an increase of 35%.

Advisory revenues increased by USD 156m, or 21%, to USD 907m, mainly due to higher merger and acquisition transaction revenues.

Capital Markets revenues increased by USD 879m, or 53%, to USD 2,547m, and included a USD 392m increase in accretion of PPA adjustments on financial instruments and other PPA effects. Excluding such accretion and other effects, underlying Capital Markets revenues increased by USD 487m, or 45%, with increases across all products, led by Leveraged Capital Markets.

Global Markets

Global Markets revenues increased by USD 1,209m, or 19%, to USD 7,494m, driven by higher Derivatives & Solutions, Execution Services and Financing revenues.

Execution Services revenues increased by USD 365m, or 27%, to USD 1,719m, mainly driven by increases in Cash Equities across all regions.

Derivatives & Solutions revenues increased by USD 527m, or 18%, to USD 3,478m, with increases largely in Equity Derivatives and Foreign Exchange.

Financing revenues increased by USD 317m, or 16%, to USD 2,297m, mainly from Capital Markets Financing, and included a USD 67m gain from the sale of our investment in an associate.

Equities

Global Markets Equities revenues increased by USD 1,038m, or 23%, to USD 5,588m, mainly driven by increases in Cash Equities, Equity Derivatives and Financing, as well as by the aforementioned gain from sale.

Foreign Exchange, Rates and Credit

Global Markets Foreign Exchange, Rates and Credit revenues increased by USD 171m, or 10%, to USD 1,906m, mainly driven by increases in Foreign Exchange.

Credit loss expense / release

Net credit loss expenses were USD 97m, reflecting net credit loss expenses on performing and credit-impaired positions, including the impact of model updates. This compared with net credit loss expenses of USD 190m in 2023, largely driven by the initial recognition of expected credit loss allowances and provisions with respect to Credit-Suisse-related positions.

Operating expenses

Operating expenses increased by USD 349m, or 4%, to USD 8,934m, and included a USD 20m increase in integration-related expenses. Excluding integration-related expenses, underlying operating expenses were USD 8,217m, an increase of 4%, mainly due to higher variable compensation and higher technology expenses.

Return on attributed equity

Return on attributed equity was 11.2%, compared with negative 0.5% in 2023. The underlying return on attributed equity was 9.6%, compared with 0.3% in 2023.

Cost / income ratio

The cost / income ratio decreased to 81.6% from 98.6%, with a decrease on an underlying basis to 82.5% from 97.1%, as increases in total revenues and underlying total revenues, respectively, more than offset increases in operating expenses and underlying operating expenses.

2024 compared with 2023

Results

Loss before tax was USD 1,976m, compared with a loss before tax of USD 4,587m. Underlying loss before tax was USD 822m, after excluding integration-related expenses of USD 1,154m.

Total revenues

Total revenues were USD 1,605m, which was USD 908m higher than the total revenues recorded in 2023, and included the impact of the consolidation of Credit Suisse revenues for the full period. Total revenues reflected net gains from position exits, along with net interest income from securitized products and credit products. Total revenues also included a net gain of USD 272m, after accounting for the purchase price allocation adjustments recorded at the closing of the acquisition of the Credit Suisse Group, from the sale of assets from the former Credit Suisse securitized products group to Apollo Management Holdings and certain other entities (collectively, Apollo). In addition, total revenues included a USD 67m gain from the sale of our investment in an associate.

› **Refer to "Note 2 Accounting for the acquisition of the Credit Suisse Group" in the "Consolidated financial statements" section of this report for information about the conclusion of an investment management agreement with Apollo and the transfer of senior secured asset-based financing**

Credit loss expense / release

Net credit loss expenses were USD 69m, mainly reflecting net credit loss expenses on credit-impaired positions with a small number of corporate counterparties, partly offset by net credit loss releases related to performing positions. These compared with net credit loss expenses of USD 193m in 2023, largely driven by the initial recognition of expected credit loss allowances and provisions with respect to Credit-Suisse-related positions.

Operating expenses

Operating expenses were USD 3,512m, which was USD 1,579m lower than the amount recorded for 2023, mainly due to a USD 621m decrease in integration-related expenses, lower litigation expenses and lower outsourcing expenses. In addition, operating expenses in 2024 included releases of USD 300m of IFRS 3 acquisition-related contingent liabilities following settlements reached in 2024. 2023 included USD 665m of expenses related to the US residential mortgage-backed securities litigation matter, which was settled in the third quarter of 2023. Excluding integration-related expenses of USD 1,154m, underlying operating expenses in 2024 were USD 2,359m, a decrease of 29%.

Risk-weighted assets and leverage ratio denominator

Risk-weighted assets (RWA) decreased by USD 32.6bn to USD 41.4bn, and the leverage ratio denominator (the LRD) decreased by USD 115.0bn to USD 53.5bn. The active unwinding of Non-core and Legacy assets resulted in a decrease in RWA, mainly related to the securitized product, loan and macro portfolios, and a decrease in the LRD, mainly driven by reductions in the high-quality liquid asset, securitized product, macro and loan portfolios.

2024 compared with 2023

Results

Loss before tax decreased by USD 186m, or 20%, to USD 752m. Underlying loss before tax was USD 723m, after excluding from total revenues negative USD 41m of purchase price allocation (PPA) effects and other integration items and also excluding from operating expenses negative USD 12m of integration-related expenses. This compared with an underlying loss before tax of USD 277m in 2023, after excluding from operating expenses USD 451m of integration-related expenses and USD 202m of acquisition-related costs and also excluding from total revenues negative USD 9m of PPA effects and other integration items.

Income from Group hedging and own debt, including hedge accounting ineffectiveness, was net negative USD 175m, compared with net positive income of USD 247m. The losses in 2024 were driven by mark-to-market effects on portfolio-level economic hedges, mainly due to cross-currency-basis widening.

Risk, capital, liquidity and funding, and balance sheet

Management report

Audited information according to IFRS 7 and IAS 1

Risk and capital disclosures provided in line with the requirements of IFRS 7, *Financial Instruments: Disclosures,* and IAS 1, *Presentation of Financial Statements,* form part of the financial statements included in the "Consolidated financial statements" section of this report and are audited by the independent registered public accounting firm Ernst & Young Ltd, Basel. This information is marked as "Audited" within this section of the report.

Signposts

The **Audited** I signpost that is displayed at the beginning of a section, table or chart indicates that those items have been audited. A triangle symbol – ▲ – indicates the end of the audited section, table or chart.

Risk management and control

With regard to the ongoing integration of Credit Suisse, we have substantially completed the initial phases of the integration, focusing on the alignment of governance structures and frameworks (aligning Credit Suisse policies to UBS standards) and the merger or reparenting of key legal entities, including the merger of Credit Suisse AG with UBS AG, the merger of Credit Suisse (Schweiz) AG with UBS Switzerland AG and the reparenting of Credit Suisse Holdings (USA), Inc. in connection with the transition to a single US intermediate holding company. These steps set the stage for the next critical phase of client account and data migrations. In 2024, we completed client account migrations in Hong Kong, Singapore and Japan, and in some locations in Europe. Our goal is to ensure a smooth and seamless transition for our clients, minimizing any disruption. We are also working toward a fully integrated risk framework, which is expected to be achieved by the end of 2025, and a single-model risk management framework by retiring and / or integrating legacy Credit Suisse models into the UBS risk management framework.

Top and emerging risks

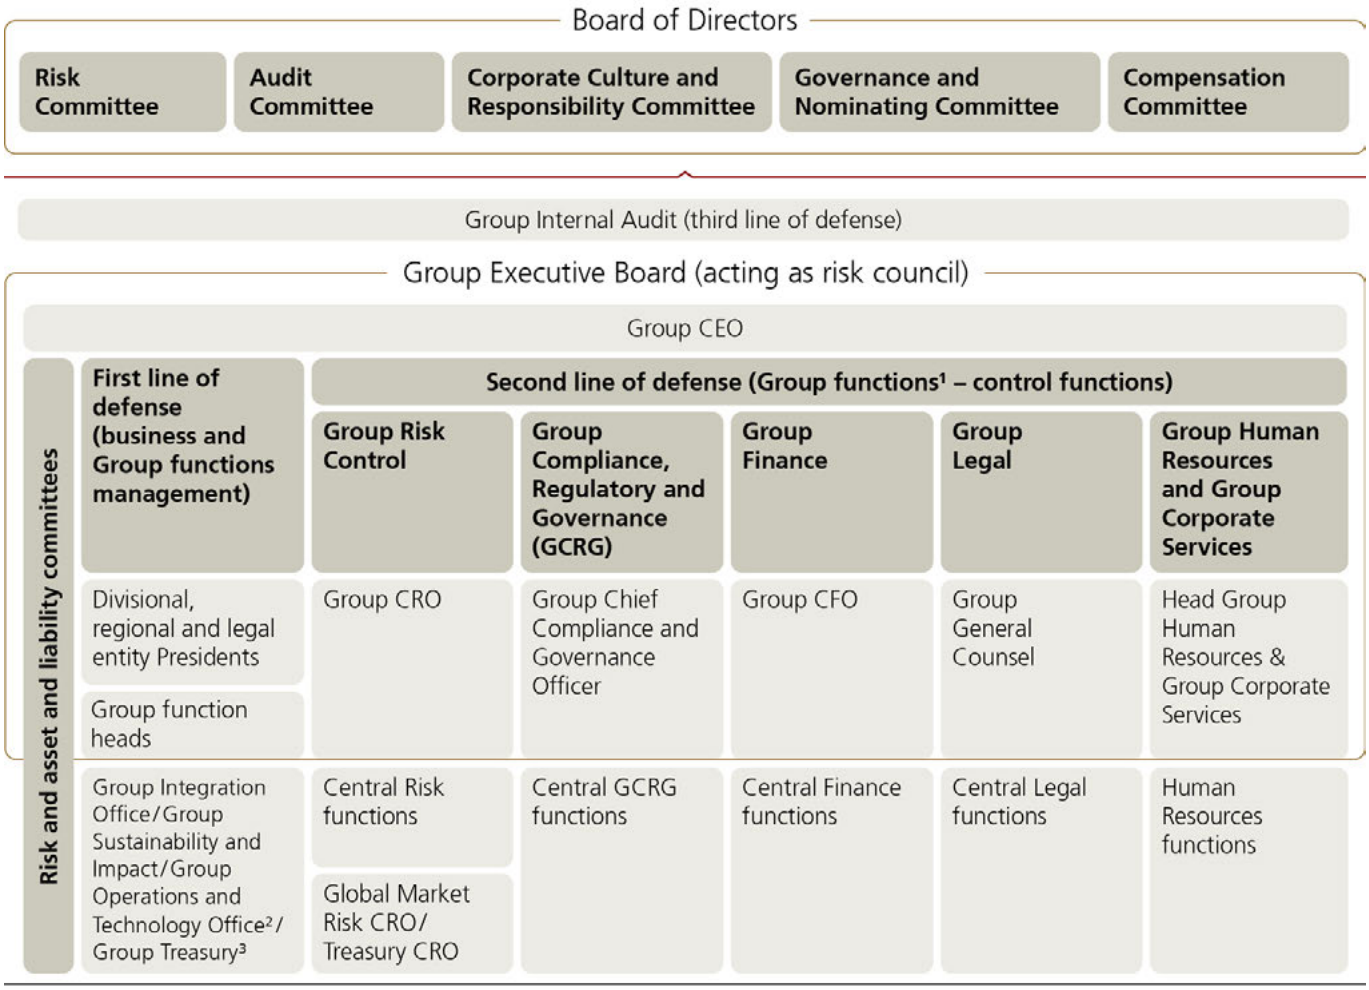
An overview of our top and emerging risks, from a risk management perspective, is disclosed below. Investors should also carefully review all information set out in the "Risk factors" section of this report, where we discuss these and other material risks that could have an effect on our ability to execute our strategy and may affect our business activities, financial condition, results of operations and business prospects.

Top and emerging risk	Description
Geopolitical uncertainty 	We remain watchful of a range of geopolitical developments and political changes in a number of countries, as well as international tensions arising from the Russia–Ukraine war and global trade relations, and we continue to monitor conflicts in the Middle East. Geopolitical tensions will continue to create uncertainty and complicate the energy price outlook.
Macroeconomic risks 	We are exposed to a number of macroeconomic risks, as well as general market conditions. As noted in "Market, credit and macroeconomic risks" in the "Risk factors" section of this report, these external pressures may have a significant adverse effect on our business activities and related financial results, primarily through reduced margins and revenues, asset impairments and other valuation adjustments, and exit prices for our Non-core and Legacy portfolio. Accordingly, these macroeconomic factors are considered in the development of stress-testing scenarios for our ongoing risk management activities. Inflation has abated to some extent in major Western economies, though there are still concerns that inflation could return, including upward pressure on interest rates. Central banks' monetary policy remains in the spotlight. In China, stress in the property sector and strained local government finances continue to have an adverse impact on economic growth, raising the risk of financial instability. This combination of factors translates into a more uncertain and volatile environment, which increases the risk of financial market disruption. The commercial real estate sector continues to be a source of concerns, especially the office sector in the US, given structural changes (higher interest rates and the shift to remote working). We remain focused on non-bank financial intermediation and growth in private markets, given their significance and interconnectivity across the financial sector, with the potential to create spillover effects into the broader financial system. Across our business divisions we undertake a broad range of private-markets-related activities, including financing, advisory services, investment facilitation and asset management.
Regulatory and legal risks 	We are exposed to substantial changes in the regulation of our businesses that could have a material adverse effect on our business, as discussed in the "Regulatory and legal developments" section of this report and in "Regulatory and legal risks" in the "Risk factors" section of this report. As a global financial services firm, we are subject to many different legal, tax and regulatory regimes and extensive regulatory oversight. We are exposed to significant liability risk, and we are subject to various claims, disputes, legal proceedings and government investigations, as noted in "Regulatory and legal risks" in the "Risk factors" section of this report. Information about litigation, regulatory and similar matters we consider significant is disclosed in "Note 18 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report.
Cyber risks 	Global geopolitical trends increase the likelihood of external state-driven cyber activity. Alongside a general trend toward more sophisticated forms of ransomware and other cyber threats, there is a risk of operational disruption to business activities at our locations and those of third-party suppliers or corruption or loss of data. Additionally, as a result of the dynamic and material nature of recent geopolitical and environmental events and the operational complexity of all our businesses, we are continually exposed to operational resilience scenarios such as process error, failed execution, system failures, loss of third-party service and fraud. › **Refer to "Non-financial risk" and "Cybersecurity and information security" in this section for more information**
Conduct risks 	Conduct risks are inherent in our businesses. Achieving fair outcomes for our clients, upholding market integrity and cultivating the highest standards of employee conduct are of critical importance to us. Management of conduct risks is an integral part of our risk management framework. › **Refer to "Non-financial risk" in this section and "Strategy, management and operational risks" in the "Risk factors" section of this report for more information**

Top and emerging risk	Description
Financial crime risks 	Financial crime (including money laundering, terrorist financing, sanctions violations, fraud, bribery, and corruption) presents significant risk and is subject to heightened regulatory expectations and attention. This requires investment in people and systems, while emerging technologies and changing geopolitical risks further increase the complexity of identifying and preventing financial crime, in particular managing the continuously evolving sanctions environment. › **Refer to "Non-financial risk" in this section for more information**
Sustainability and climate risks 	Sustainability and climate risks continue to be in focus for UBS, for regulators and for stakeholders. To address these emerging risks, UBS has further enhanced its transition and physical risk methodologies and updated its guidelines on sustainable finance and on carbon and environmental markets. › **Refer to "Sustainability and climate risk" in this section for more information** › **Refer to "Appendix 1 – Governance" to the UBS Group Sustainability Report 2024, available under "Annual reporting" *at ubs.com/investors*, for a full description of our sustainability and climate risk policy framework** Regulatory requirements and industry guidelines are emerging simultaneously in various jurisdictions, leading to an increased risk of divergence, which in turn increases the risk that UBS may not comply with all relevant regulations.
New technologies 	New risks related to client demand for distributed ledger technology, blockchain-based assets and virtual currencies continue to emerge. Our exposure to these risks is currently limited, and relevant control frameworks are continuously being enhanced and implemented. Furthermore, technological developments in the areas of artificial intelligence (AI) and digitization will have a significant impact and create not only opportunities but also heightened operational risks. As the digitalization of our business and the marketplace results in the adoption of new technologies, the responsible use of AI and the increasing regulatory and client expectations on ensuring ethical data usage are becoming more important. With rapidly advancing technology and changing communication preferences, there is heightened focus on electronic communications, including the use of approved communication channels and appropriate recordkeeping. › **Refer to "Non-financial risk" in this section for more information**

Risk oversight

Risk governance



Our risk governance framework operates along three lines of defense.

Our first line of defense, business and Group functions management, owns its risks and is accountable for maintaining effective processes and systems to manage them in compliance with applicable laws, rules and regulations, as well as internal standards, including identifying control weaknesses and inadequate processes.

Our second line of defense, control functions, is separate from the business and reports directly to the Group Chief Executive Officer (the Group CEO). Control functions provide independent oversight, challenge financial and non-financial risks arising from the firm's business activities, and establish independent frameworks for risk assessment, measurement, aggregation, control and reporting, protecting against non-compliance with applicable laws, rules and regulations.

Our third line of defense, Group Internal Audit (GIA), reports to the Chairman and to the Audit Committee. This function assesses the design and operating effectiveness and sustainability of processes to define risk appetite, governance, risk management, internal controls, remediation activities and processes to comply with legal and regulatory requirements and internal governance standards.

The key roles and responsibilities for risk management and control are shown in the chart below and described further below.

1 Our Group functions are support and control functions that provide services for the business divisions and include the following major areas: Group Services (which consists of the Group Operations and Technology Office (GOTO), Corporate Services, Compliance, Regulatory and Governance, Finance, Risk Control, Human Resources, Communications & Branding, Legal, the Group Integration Office, Group Sustainability and Impact, and Chief Strategy Office) and Group Treasury. 2 Including the Cyber Information Security Office. 3 Group Treasury reports to the Group CFO. ▲

Audited | The Board of Directors (the BoD) approves the risk management and control framework of the Group, including the Group and business division overall risk appetite. The BoD is supported by its Risk Committee, which monitors and oversees the Group's risk profile and the implementation of the risk framework approved by the BoD and approves the Group's risk appetite methodology.

› **Refer to the "Corporate governance" section of this report for more information about the responsibilities of the Risk Committee and other BoD committees**

The Group Executive Board (the GEB) has overall responsibility for establishing and implementing a risk management and control framework in the Group, managing the risk profile of the Group as a whole.

The Group CEO has responsibility and accountability for the management and performance of the Group, has risk authority over transactions, positions and exposures, and allocates risk authority delegated by the BoD to the business divisions and Group functions.

The business division Presidents and Group function heads are responsible for the operation and management of their business divisions and Group functions, including controlling the risk appetite of the business divisions.

The regional Presidents ensure cross-divisional collaboration in their regions and are mandated to inform the GEB about any regional activities and issues that may give rise to actual or potentially material regulatory or reputational concerns.

The Group Chief Risk Officer (the Group CRO) is responsible for developing the Group's risk management and control framework (including risk principles and risk appetite) for credit, market, country, treasury, model and sustainability and climate risks. This includes risk measurement and aggregation, portfolio controls, risk reporting, and taking decisions on transactions, positions, exposures, portfolio limits, and allowances in accordance with the risk control authorities delegated to the Group CRO.

The Group Chief Compliance and Governance Officer is responsible for developing the Group's risk management and control framework (including taxonomies and risk appetite) for non-financial risks. This includes implementing independent control frameworks for compliance and conduct, financial crime, and operational risks. The Group Chief Compliance and Governance Officer is also responsible for managing governmental and regulatory affairs, investigations, and interactions with governments, regulators and international standard setters.

The Group Chief Financial Officer (the Group CFO) is responsible for transparency in assessing the financial performance of the Group and the business divisions and for managing the Group's financial accounting, controlling, forecasting, planning and reporting.

The Group Chief Operations and Technology Officer is responsible for driving digitalization, delivering technology services, infrastructure and operations, including cybersecurity and information security, and providing Group-wide data governance.

The Group General Counsel manages the Group's legal affairs, including effective and timely assessment of legal matters impacting the Group or its businesses, and managing and reporting all litigation matters.

The Head Group Human Resources & Group Corporate Services defines and executes a human resources strategy aligned to UBS's objectives, supplies real estate infrastructure and controls supply and demand management activities.

The Group Integration Officer develops UBS's integration strategy with regard to Credit Suisse within agreed design principles and in accordance with UBS's strategy.

Some of these roles and responsibilities are replicated on the level of the business divisions, regions and / or significant entities of the Group. Designated entity risk officers oversee and control financial and non-financial risks for significant entities of UBS as part of the entity control framework, which complements the Group's risk management and control framework. ▲

Risk identification

Risk identification at UBS is the process of systematically identifying, assessing and cataloguing risks across all business activity and risk categories. It is a fundamental component of our risk management approach, ensuring that the firm maintains a comprehensive understanding of its risk exposure. Our structured risk identification framework integrates both bottom-up and top-down risk identification approaches and enhances our ability to capture, measure, monitor and control risks, in alignment with global regulatory expectations. The process involves subject matter experts from both the first and second lines of defense, including senior management across the organization, and is conducted periodically, complementing day-to-day risk identification and risk management frameworks. By anchoring to a common risk taxonomy and risk materiality approach, we ensure consistent categorization and prioritization of risks across business divisions and significant Group entities. Additionally, documenting root-cause drivers and early warning signs strengthens our ability to monitor emerging risks.

Various review and approval steps are embedded throughout the process to maximize risk transparency, including presentation at senior governance bodies for each business division, applicable significant Group entities and at the Group level. The output of the process helps ensure that UBS stress-testing exercises take into account the firm's key vulnerabilities, while also supporting broader risk management activity.

Internal risk reporting

Comprehensive and transparent reporting of risks is central to our risk governance framework's control and oversight responsibilities and required by our risk management and control principles. Accordingly, risks are reported at a frequency and level of detail commensurate with the extent and variability of the risk and the needs of the various governance bodies, regulators and risk authority holders. Data used to produce risk reports is generally aligned with that used by both the business divisions and control functions for managing and monitoring risks. This alignment ensures consistency in risk assessment and decision-making across the organization.

The Group Risk Report provides a detailed qualitative and quantitative monthly overview of developments in financial and non-financial risks at the firm-wide level, including the status of our risk appetite objectives and the results of firm-wide stress testing. The Group Risk Report is distributed internally to the BoD, the GEB and senior members of Risk Control, GIA, Finance and Legal. Risk reports are also produced covering significant Group entities and branches (i.e. entities and branches subject to enhanced standards of corporate governance).

Monthly divisional risk reports are supplemented with daily or weekly reports, at various levels of granularity, covering market and credit risks of the business divisions to enable risk officers and senior management to monitor and control the Group's risk profile.

Our internal risk reporting covers financial and non-financial risks and is supported by risk data and measurement systems that are used for risk management and monitoring purposes and also for external disclosure and regulatory reporting. Dedicated units within Risk Control assume responsibility for measurement, analysis and reporting of risk and for overseeing the quality and integrity of risk-related data. Our risk data and measurement systems are subject to periodic review by GIA, which applies a risk-based audit approach.

Risk categories

We categorize our risk exposures as outlined in the table below. Our risk appetite framework is designed to capture all risk categories.

› **Refer to "Risk appetite framework" in this section for more information**

	Risk managed by	Independent oversight by
Financial risks		
Audited I **Credit risk:** the risk of loss resulting from the failure of a client or counterparty (including an issuer) to meet its contractual obligations toward UBS. This includes loan underwriting risk and settlement risk. ***Loan underwriting risk:*** the risk of loss arising during the holding period of financing transactions that are intended for further distribution. ***Settlement risk:*** the short-term form of credit risk arising when UBS delivers its side of an agreed-upon transaction but does not receive an expected value in return from the counterparty. ▲ › **Refer to "Credit risk" in this section for more information**	Business divisions	Risk Control
Audited I **Market risk:** the risk of loss resulting from adverse movements in market variables. Market risks are actively taken as part of trading activities but can also arise from non-trading activities. Market variables include observable variables, such as interest rates, foreign exchange rates, equity prices, credit spreads and commodity (including precious metal) prices, as well as variables that may be unobservable or only indirectly observable, such as volatilities and correlations. Market risk includes issuer risk and investment risk. ***Issuer risk:*** the risk of loss that would occur if an issuer to which we are exposed through tradable securities or derivatives referencing the issuer was subject to a credit-related event. ***Investment risk:*** the risk associated with positions held as financial investments. ▲ › **Refer to "Market risk" in this section for more information**	Business divisions and Group Treasury	Risk Control
Treasury risk: the risks associated with asset and liability management and our liquidity and funding positions, as well as structural exposures, including pension risks. Audited I ***Liquidity risk:*** the risk that UBS is unable to meet business-as-usual or stress cash / collateral flows. ▲ Audited I ***Funding risk:*** the risk that UBS is unable to borrow funds to support its current business and desired strategy. ▲ › **Refer to "Liquidity and funding management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information** ***Interest rate risk in the banking book:*** the risk to the firm's capital and earnings arising from the adverse effects of interest rate movements on the firm's banking book positions. The risk is transferred from the originating business divisions, i.e. Global Wealth Management and Personal & Corporate Banking, to Group Treasury to risk manage this centrally and benefit from Group-wide netting while leaving the business divisions with margin management. › **Refer to "Market risk" in this section for more information** ***Structural foreign exchange risk:*** the risk of decreases in our capital due to changes in foreign exchange rates with an adverse translation effect on capital held in currencies other than the US dollar.	Group Treasury	Risk Control
Pension risk: the risk of a negative impact on our capital as a result of deteriorating funded status from decreases in the fair value of assets held in defined benefit pension funds and / or changes in the value of defined benefit pension obligations due to changes in actuarial assumptions (e.g. discount rate, life expectancy and rate of pension increase) and / or changes to plan designs.	Group Treasury and Human Resources	Risk Control and Finance
Country risk: the risk of loss resulting from country-specific events. This includes the risk of sovereign default and also transfer risk, which involves a country's authorities preventing or restricting the payment of an obligation, as well as systemic risk events arising from country-specific political or macroeconomic developments. › **Refer to "Country risk" in this section for more information**	Business divisions	Risk Control
Sustainability and climate risk: the risk that UBS negatively impacts, or is impacted by, climate change, natural capital, human rights, and other environmental and social matters. Sustainability and climate risks may manifest as credit, market, liquidity, business and non-financial risks for UBS resulting in potential adverse financial, liability and reputational impacts. These risks extend to the value of investments and may also affect the value of collateral (e.g. real estate). Sustainability and climate risk includes transition risk and physical risk. ***Transition risk:*** climate-driven transition risks arise from global efforts to mitigate the effects of climate change. They cover the financial impact on our clients or on UBS itself as reflected in the creditworthiness of UBS's counterparties or the value of collateral held by UBS. ***Physical risk:*** climate-driven physical risks arise from acute hazards, which are increasing in severity and frequency, and from chronic climate risks, which arise from an incrementally changing climate. These effects may include increased temperature and sea-level rise, and the gradual changes may affect productivity and property values and increase the severity and frequency of acute hazards. › **Refer to "Sustainability and climate risk" in this section for more information**	Business divisions	Risk Control

	Risk managed by	Independent oversight by
Financial risks (continued)		
Capital risk: the risk that UBS does not maintain adequate capital to support its activities and maintain the minimum capital requirements. › **Refer to "Capital management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information**	Group Treasury	Risk Control and Finance
Business risk: the potential negative impact on earnings from lower-than-expected business volumes and / or margins, to the extent they are not offset by a decrease in expenses. For example, changes in the competitive landscape, client behavior or market conditions can have a negative impact.	Business divisions	Risk Control and Finance
Strategic risk: the idiosyncratic risk arising from the impact of strategic decisions on UBS, which can be driven by exogenous factors, such as changes in the industry environment, or by endogenous factors, such as constraints related to or execution of strategic decisions. › **Refer to "Strategy, management and operational risks" in the "Risk factors" section of this report for more information**	Business divisions and Group functions	Finance, Chief Strategy Office and Risk Control
Non-financial risks		
Compliance risk: the risk of failure to comply with laws, rules and regulations, internal policies and procedures, and the firm's Code of Conduct and Ethics. › **Refer to "Non-financial risk" in this section for more information**	Business divisions	GCRG
Employment risk: the risk arising from acts inconsistent with laws, rules and regulations or the firm's human resources policies governing employment practices, discrimination, compensation and employee-related taxes and benefits.		Human Resources
Conduct risk: the risk that the conduct of the firm or its individuals unfairly impacts clients or counterparties, undermines the integrity of the financial system or impairs effective competition to the detriment of consumers.		GCRG
Market conduct risk: the risk of failure to maintain appropriate standards to ensure fair and effective markets and meet legal / regulatory requirements and expectations governing activities undertaken on or through a market or in pricing- / transaction-related bilateral interactions between counterparties.		GCRG
Client suitability risk: the risk arising from an inability to demonstrate adherence to applicable investment suitability standards, laws, rules and regulations.		GCRG
Financial crime risk: the risk of failure to prevent financial crime (including money laundering, terrorist financing, sanctions or embargo violations, internal and external fraud, bribery, and corruption). › **Refer to "Non-financial risk" in this section for more information**	Business divisions and Financial Crime Prevention	GCRG
Operational risk: the risk resulting from inadequate or failed internal processes, people or systems, or from external causes (deliberate, accidental or natural). › **Refer to "Non-financial risk" in this section for more information**	Business divisions	GCRG
Cybersecurity and information-security risk: the risk of a malicious internal or external act, or a failure of IT hardware or software, or human error, leading to a material impact on confidentiality, integrity or availability of UBS's data or information systems. › **Refer to "Non-financial risk" in this section for more information**	Business divisions and GOTO	GCRG
Model risk: the risk of adverse consequences (e.g. financial loss, due to legal matters, operational loss, biased business decisions, or reputational damage) resulting from decisions based on incorrect / inadequate or misused model outputs and reports. › **Refer to "Model risk" in this section for more information**	Business divisions and Group functions	Risk Control
Legal risk: the risk of: (i) being held liable for a breach of applicable laws, rules or regulations; (ii) being held liable for a breach of contractual or other legal obligations; (iii) an inability or failure to enforce or protect contractual rights or non-contractual rights sufficiently to protect UBS's interests; and (iv) being party to a claim or investigated by a regulator or public authority in respect of any of the above (and the risk of loss of attorney–client privilege in the context of any such claim).	Business divisions	Legal
Reputational risk: the risk of an unfavorable perception of UBS or a decline in the firm's reputation from the point of view of clients, shareholders, regulators, employees or society, which may lead to potential financial loss and / or loss of market share. › **Refer to "Non-financial risk" in this section for more information**	All business divisions and Group functions	All control functions

Overview of risks arising from our business activities

Key risks by business division and Group functions

Business divisions and Group functions	Key financial risks arising from business activities
Global Wealth Management	**Credit risk** from collateralized lending primarily against securities, residential and commercial real estate, other real assets (such as ships and aircraft), private equity and hedge fund interest, and investors' uncalled capital commitments, as well as from collateralized clients' derivatives trading. Also includes unsecured lending, i.e. cash-flow-based corporate lending to entities owned and controlled by our Global Wealth Management clients, and recourse-based lending. Limited contribution to **market risk** from municipal securities and taxable fixed-income securities. Interest rate risk in the banking book related to Global Wealth Management is transferred to and managed by Group Treasury.
Personal & Corporate Banking	**Credit risk** from mortgages (owner-occupied and income-producing), secured and unsecured corporate lending, commodity trade finance, trade and export finance, consumer finance, and lending to banks and other regulated clients, as well as a small amount of derivatives trading activity. Minimal contribution to **market risk**. Interest rate risk in the banking book related to Personal & Corporate Banking is transferred to and managed by Group Treasury.
Asset Management	Limited exposure to **credit risk** and **market risk** from on-balance sheet positions such as seed capital and co-investments in funds managed by Asset Management. Indirect exposure to credit risk and market risk from client assets invested in Asset Management funds, which can adversely impact management and performance fees and cause heightened fund outflows and liquidity risk.
Investment Bank	**Credit risk** from lending (take-and-hold, as well as temporary loan underwriting activities), derivatives trading and securities financing. **Market risk** from primary underwriting activities and secondary trading.
Non-core and Legacy	**Credit risk** arising from large, less-liquid structured financing transactions, including some with residential and commercial real estate collateral, a material corporate loan portfolio and a counterparty credit trading portfolio with lending against securities collateral and derivatives. **Market risk** from structured trades, large portfolios of loans and securitized products, and both complex and simple credit, interest rate and equity derivative transactions.
Group functions	**Credit risk**, **market risk** and **treasury risk** arising from Group Treasury's management of the Group's balance sheet (asset and liability management), capital, profit or loss, and liquidity and funding.
All business divisions and the Group functions are exposed to **country risk**, **sustainability and climate risk** and **non-financial risk**. Non-financial risk is an inevitable consequence of being an operating firm and can arise as a result of our past and current business activities.	

Risk appetite framework

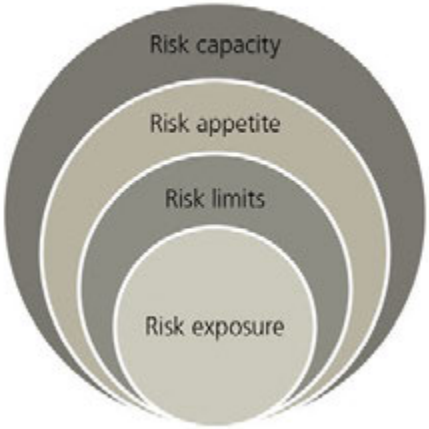
Our risk appetite is defined at the aggregate Group level and reflects the risk that we are willing to accept or wish to avoid. It is set via complementary qualitative and quantitative risk appetite statements defined at a firm-wide level and is embedded throughout our business divisions and legal entities by Group, business division and legal entity policies, limits and authorities. Our risk appetite is reviewed and recalibrated annually, with the aim of ensuring that risk-taking at every level of the organization is in line with our strategic priorities, our capital and liquidity plans, our *Pillars, Principles and Behaviors*, and minimum regulatory requirements. It is governed by a single overarching policy and conforms to the Financial Stability Board's Principles for an Effective Risk Appetite Framework. The "Risk appetite framework" chart below shows the key elements of the framework, which is described in detail in this section.

Risk appetite framework

Risk principles and risk culture

Qualitative risk appetite statements aim to ensure we maintain the desired risk culture. Maintaining a strong risk culture is a prerequisite for success in today's highly complex operating environment and a source of sustainable competitive advantage.

Our risk appetite framework combines all the important elements of our risk culture, expressed in our *Pillars, Principles and Behaviors*, our risk management and control principles, our Code of Conduct and Ethics, and our Total Reward Principles. They help to create a solid foundation for promoting risk awareness, leading to appropriate risk-taking and the establishing of robust risk management and control processes.



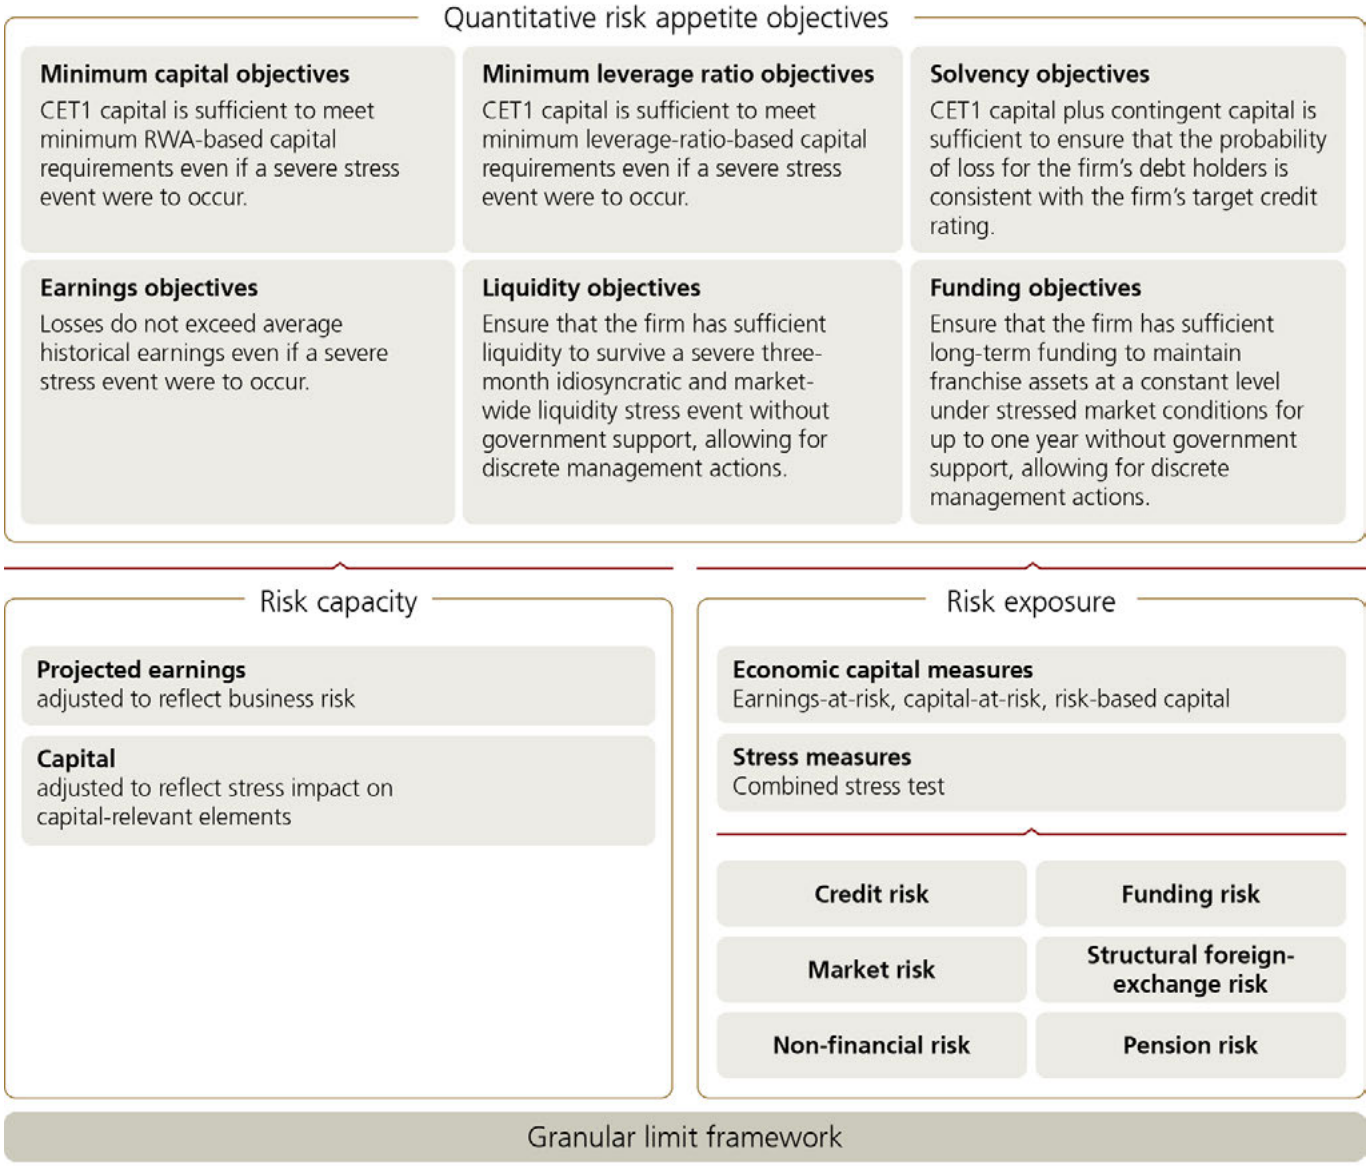
- **Refer to "Employees" in the "How we create value for our stakeholders" section of this report for more information about our Pillars, Principles and Behaviors**
- **Refer to the Code of Conduct and Ethics of UBS, available at *ubs.com/code*, for more information**

Risk management and control principles

Protection of financial strength	Protecting our financial strength by controlling our risk exposure and avoiding potential risk concentrations at individual exposure levels, at specific portfolio levels and at an aggregate firm-wide level across all risk types.
Protection of reputation	Protecting our reputation through a sound risk culture characterized by a holistic and integrated view of risk, performance and reward, and through full compliance with our standards and principles, particularly our Code of Conduct and Ethics.
Business management accountability	Maintaining management accountability, whereby business management owns all risks assumed throughout the Group and is responsible for the continuous and active management of all risk exposures to provide for balanced risk and return.
Independent controls	Independent control functions that monitor the effectiveness of the businesses' risk management and oversee risk-taking activities.
Risk disclosure	Disclosure of risks to senior management, the BoD, investors, regulators, credit rating agencies and other stakeholders with an appropriate level of comprehensiveness and transparency.

Quantitative risk appetite objectives

Risk appetite objective framework



Our quantitative **risk appetite** objectives aim to ensure that our aggregate **risk exposure** remains within the desired **risk capacity**, based on capital and business plans. The specific definition of risk capacity for each objective is aimed at ensuring we have sufficient capital, earnings, funding and liquidity to protect our businesses and exceed minimum regulatory requirements under a severe stress event. The risk appetite objectives are evaluated during the annual business planning process and approved by the Board of Directors. The quantitative risk appetite objectives are supported by a comprehensive suite of **risk limits**.

We use both scenario-based stress tests and economic capital risk measurement techniques to stress test our business activities. The quantitative risk appetite objectives are supported by a comprehensive suite of risk limits set at a portfolio level to monitor specific portfolios and to identify potential risk concentrations. The portfolio limits and associated approval authorities are subject to periodic reviews and changes, particularly in the context of our annual business planning process. The status of our quantitative risk appetite objectives and portfolio limits is evaluated each month and reported to the BoD and the GEB.

- **Refer to "Risk measurement" in this section for more information about our stress testing and economic capital measures**

Quantitative risk appetite objectives

These objectives are complemented by a standardized set of quantitative firm-wide non-financial risk appetite objectives established at the Group and business-division levels. Non-financial risk events exceeding predetermined risk tolerances, expressed as percentages of UBS's total revenue and operational risk regulatory capital, trigger a review of key loss drivers and required mitigation measures, and are reported in the Group Risk Report.

Risk appetite statements at the business-division level are derived from the firm-wide risk appetite. They may also include business-division-specific strategic goals related to that business division's activities and risks. Risk appetite statements are also set for certain legal entities, which must be consistent with the firm-wide risk appetite framework and approved in accordance with Group and legal entity regulations. Differences may exist that reflect the specific nature, size, complexity and regulations applicable to the relevant legal entity.

Portfolio and position limits

We maintain a comprehensive set of risk limits across our major risk portfolios. These portfolio limits are set based on our risk appetite and periodically reviewed and adjusted as part of the business planning process.

Firm-wide stress and statistical metrics are complemented by more granular portfolio and position limits, triggers and targets. Combining these measures provides a comprehensive framework for control of the key risks of our business divisions, as well as significant legal entities.

We apply limits to a variety of exposures at the portfolio level, using statistical and stress-based measures, such as value-at-risk, liquidity-adjusted stress, loan underwriting limits, economic value sensitivity and portfolio default simulations for loan books. These are complemented with a set of controls for net interest income sensitivity, mark-to-market losses on available-for-sale portfolios, and the effect of foreign exchange movements on capital and capital ratios.

Portfolio measures are supplemented with counterparty- and position-level controls. Risk measures for position controls are based on market risk sensitivities and counterparty-level credit risk exposures. Market risk sensitivities include sensitivities to changes in general market risk factors (e.g. equity indices, foreign exchange rates and interest rates) and sensitivities to issuer-specific factors (e.g. changes in an issuer's credit spread or default risk). We monitor numerous market and treasury risk controls on a daily basis. Counterparty measures capture the current and potential future exposure to an individual counterparty, considering collateral and legally enforceable netting agreements.

Since the merger of UBS AG and Credit Suisse AG on 31 May 2024, UBS has significantly extended its set of combined portfolio limits applied to the UBS Group to oversee the aggregate risk profile. Only certain market risk limits continue to be separately monitored on the legacy Credit Suisse infrastructure until these positions are migrated to UBS infrastructure.

› **Refer to "Credit risk" in this section for more information about counterparty limits**

Risk measurement

Audited | We apply a variety of methodologies and measurements to quantify the risks of our portfolios and potential risk concentrations. Risks that are not fully reflected within standard measures are subject to additional controls, which may include preapproval of specific transactions and the application of specific restrictions. Models to quantify risk are generally developed by dedicated units within control functions and are subject to independent validation. ▲

› **Refer to "Credit risk", "Market risk" and "Non-financial risk" in this section for more information about model confirmation procedures**

Stress testing

We perform stress testing to estimate losses that could result from extreme yet plausible macroeconomic and geopolitical stress events to identify, better understand and manage our potential vulnerabilities and risk concentrations. Stress testing has a key role in our limits framework at the firm-wide, business division, legal entity and portfolio levels. Stress test results are regularly reported to the BoD and the GEB. We also provide detailed stress loss analyses to the Swiss Financial Market Supervisory Authority (FINMA) and regulators of our legal entities in accordance with their requirements. As described in "Risk appetite framework", stress testing, along with economic capital measures, has a central role in our risk appetite and business planning processes.

Our stress-testing framework has three pillars: (i) combined stress tests; (ii) an extensive set of portfolio- and risk-type-specific stress tests; and (iii) reverse stress testing.

The combined stress-testing (CST) framework is scenario based and aims to quantify overall firm-wide losses that could result from various potential global systemic events. The framework captures all material risks, as covered in "Risk categories".

Scenarios are forward looking and encompass macroeconomic and geopolitical stress events calibrated to different levels of severity. In each scenario we assume changes in a wide range of macroeconomic and market variables to stress the key risk drivers of our portfolios. We also capture the business risk resulting from lower fee, interest and trading income net of lower expenses. These effects are measured for all businesses and material risk types to calculate the aggregate estimated effect of the given scenario on profit or loss, other comprehensive income, risk-weighted assets, the leverage ratio denominator and, ultimately, capital and leverage ratios. The assumed changes in macroeconomic and market variables are updated periodically to account for changes in the current and possible future market environment.

At least once a year, the Risk Committee approves the most relevant scenario, known as the binding scenario, for use as the main scenario for regular CST reporting and for monitoring risk exposure against our minimum capital, earnings and leverage ratio objectives in our risk appetite framework. In 2024, the binding scenario for CST was the internal stagflationary geopolitical crisis scenario. This scenario assumes that a geopolitical event leads to economic regionalization and fears of prolonged stagflation. Central banks signal a firm commitment to price stability and continue to tighten monetary policy, triggering a broad rise in interest rates and impacting economic activity and asset values.

As part of the CST framework, we routinely monitored the following three additional stress scenarios throughout 2024:
- The *global crisis* scenario assumes a fall in global trade, which particularly hits China and leads to a hard landing. Combined with political, solvency and liquidity concerns, this results in a sharp sell-off of emerging markets sovereign debt and some emerging markets default. The macroeconomic and market impacts amplify concerns about peripheral European sovereign debt, causing Greece and Cyprus to default.
- The *global depression* scenario explores a global risk-off market with a combination of political, solvency and liquidity concerns around emerging markets sovereign debt, causing several large emerging markets to default. Several European economies also default, and some leave the Eurozone. A negative feedback loop between collapsing demand, declining asset values and commodity prices, and disruption in the banking system leads to a deep and prolonged recession across the globe.
- The *US monetary crisis* scenario explores a loss of confidence in the US, which leads to a sell-off of US dollar-denominated assets, sparking an abrupt and substantial depreciation of the US dollar. The US economy is hit hard, financial markets enter a period of high volatility and other industrialized countries replicate the cyclical pattern of the US. Regional inflation trends diverge as the US experiences significant inflationary pressures while other developed markets experience deflation.

Portfolio-specific stress tests are measures tailored to the risks of specific portfolios. Our portfolio stress loss measures are derived from data on past events, but also include forward-looking elements (e.g. we derive the expected market movements in our liquidity-adjusted stress metric using a combination of historical market behavior, based on an analysis of historical events, and forward-looking analysis, including consideration of defined scenarios that have never occurred). Results of portfolio-specific stress tests may be subject to limits to explicitly control risk-taking or may be monitored without limits to identify vulnerabilities.

Reverse stress testing starts from a defined stress outcome (e.g. a specified loss amount, reputational damage, a liquidity shortfall or a breach of minimum capital ratios) and works backward to identify macroeconomic scenarios and / or idiosyncratic events that could result in such an outcome. As such, reverse stress testing is intended to complement scenario-based stress tests by assuming "what if" outcomes that could extend beyond the range normally considered, and thereby potentially challenge assumptions regarding severity and plausibility.

With regard to treasury risk, we routinely analyze the effect of movements in interest rates and changes in the structure of yield curves. We also perform stress testing to determine the optimal asset and liability structure, enabling us to maintain an appropriately balanced liquidity and funding position under various scenarios. These scenarios differ from those outlined above, because they focus on specific situations that could generate liquidity and funding stress, as opposed to the scenarios used in the CST framework, which focus on the effect on profit or loss and capital.

- **Refer to "Credit risk" and "Market risk" in this section for more information about stress loss measures**
- **Refer to the "Capital, liquidity and funding, and balance sheet" section of this report for more information about stress testing**
- **Refer to "Note 20 Expected credit loss measurement" in the "Consolidated financial statements" section of this report for more information about scenarios used for expected credit loss measurement**

Economic capital measures

We complement the scenario-based CST measures with economic capital stress measures to calculate and aggregate risks using statistical techniques to derive stress events at chosen confidence levels.

This framework is used to derive a loss distribution, considering effects on both income and expenses, based on the simulation of historically observed financial and economic risk factors in combination with the firm's actual earnings and relevant risk exposures. From that, we determine earnings-at-risk (EaR), measuring the potential shortfall in earnings (i.e. the deviation from forecast earnings) at a 95% confidence level and evaluated over a one-year horizon. EaR is used for the assessment of the earnings objectives in our risk appetite framework.

We extend the EaR measure, incorporating the effects of gains and losses recognized through other comprehensive income, to derive a distribution of potential effects of stress events on common equity tier 1 capital. From this distribution, we derive our capital-at-risk (CaR) buffer measure at a 95% confidence level to assess our capital and leverage ratio risk appetite objectives, and we derive our CaR solvency measure at a 99.9% confidence level to assess our solvency risk appetite objective.

We use the CaR solvency measure as a basis for deriving the contributions of the business divisions to risk-based capital (RBC). RBC measures the potential capital impairment from an extreme stress event at a 99.9% confidence level.

Risk concentrations

Audited | Risk concentrations may exist where one or several positions within or across different risk categories could result in significant losses relative to UBS's financial strength. Identifying such risk concentrations and assessing their potential impact is a critical component of our risk management and control process.

For financial risks, we consider a number of elements, such as shared characteristics of positions, the size of the portfolio and the sensitivity of positions to changes in the underlying risk factors. Also important in our assessment is the liquidity of the markets where the positions are traded, as well as the availability and effectiveness of hedges or other potential risk-mitigating factors. Particular attention is given to identification of wrong-way risk and risk on risk. Wrong-way risk is defined as a positive correlation between the size of the exposure and the likelihood of a loss. Risk on risk refers to a situation where a position and its risk mitigation can be impacted by the same event.

For non-financial risks, risk concentrations may result from, for example, a single operational risk issue that is large on its own (i.e. it has the potential to produce a single high-impact loss or a number of losses that together are high impact) or related risk issues that may link together to create a high impact.

Risk concentrations are subject to increased oversight by Group Risk Control and Group Compliance, Regulatory & Governance, and assessed to determine whether they should be reduced or mitigated, depending on the available means to do so. It is possible that material losses could occur on financial or non-financial risks, particularly if the correlations that emerge in a stressed environment differ markedly from those envisaged by risk models. ▲

- **Refer to "Credit risk" and "Market risk" in this section for more information about the composition of our portfolios and how risk concentrations are monitored and mitigated**
- **Refer to the "Risk factors" section of this report for more information**

Credit risk

Audited | Main sources of credit risk

- In Global Wealth Management, credit risk arises from collateralized lending, primarily against securities, residential and commercial real estate, other real assets (such as ships and aircraft), private equity and hedge fund interest, and investors' uncalled capital commitments, as well as from collateralized clients' derivatives trading. In addition, credit risk also arises from unsecured lending, i.e. cash-flow-based corporate lending to entities owned and controlled by our Global Wealth Management clients, and recourse-based lending.
- A substantial portion of our credit risk arises from Personal & Corporate Banking's lending exposure, including mortgage loans, secured mainly by owner-occupied properties and income-producing real estate, as well as corporate loans, that depends on the performance of the Swiss economy and real estate market.
- The Investment Bank's credit risk arises mainly from lending, derivatives trading and securities financing. Derivatives trading and securities financing are mainly investment grade. Loan underwriting activity can be lower rated and gives rise to temporary concentrated exposure.
- Credit risk in Non-core and Legacy relates to large, less-liquid structured financing transactions, including some with residential and commercial real estate collateral, a corporate loan portfolio and a counterparty credit trading portfolio with lending against securities collateral and derivatives. ▲

Audited | Overview of measurement, monitoring and management techniques

- Credit risk from transactions with individual counterparties is based on our estimates of probability of default (PD), exposure at default (EAD) and loss given default (LGD). Limits are established for individual counterparties and groups of related counterparties covering banking and traded products, and for settlement amounts. Risk authorities are approved by the Board of Directors and are delegated to the Group CEO, the Group Chief Risk Officer (the Group CRO) and divisional CROs, based on risk exposure amounts, internal credit rating and potential for losses.
- Limits apply not only to the current outstanding amount but also to contingent commitments and the potential future exposure of traded products.
- The Investment Bank monitoring, measurement and limit framework distinguishes between exposures intended to be held to maturity (take-and-hold exposures) and those intended for distribution or risk transfer (temporary exposures).
- We use models to derive portfolio credit risk measures of expected loss, statistical loss and stress loss at Group-wide and business division levels, and to establish portfolio limits.
- Credit risk concentrations can arise if clients are engaged in similar activities, located in the same geographical region or have comparable economic characteristics, e.g. if their ability to meet contractual obligations would be similarly affected by changes in economic, political or other conditions. To avoid credit risk concentrations, we establish limits and operational controls that constrain risk concentrations at portfolio, sub-portfolio or counterparty levels for sector exposure, country risk exposure and specific product exposures. ▲

Credit risk profile of the Group

The exposures detailed in this section are based on management's view of credit risk, which differs in certain respects from the expected credit loss (ECL) measurement requirements of IFRS Accounting Standards.

Internally, we classify credit risk exposures into two broad categories: banking products and traded products. Banking products include drawn loans, guarantees and loan commitments, amounts due from banks, balances at central banks, and other financial assets at amortized cost. Traded products include over-the-counter (OTC) derivatives, exchange-traded derivatives (ETD) and securities financing transactions (SFTs), consisting of securities borrowing and lending, and repurchase and reverse repurchase agreements.

1 IFRS 9 gross exposure for banking products includes the following financial instruments in scope of expected credit loss measurement: balances at central banks, amounts due from banks, loans and advances to customers, other financial assets at amortized cost, guarantees and irrevocable loan commitments. 2 Internal management view of credit risk, which differs in certain respects from IFRS Accounting Standards. 3 Commitments that can be canceled by UBS at any time but expose UBS to credit risk if the client has the ability to draw the facility before UBS can take action. These commitments are subject to expected credit loss requirements. 4 As counterparty risk for traded products is managed at counterparty level, no further split between exposures in the Investment Bank, Non-core and Legacy, and Group Items is provided. 5 Comparative-period information has been restated for changes in business division perimeters and Group Treasury allocations. Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section of this report for more information. 6 Comparative-period information has been revised. Refer to "Note 2 Accounting of the integration of the Credit Suisse Group" in the "Consolidated financial statements" section of this report for more information. 7 Credit Suisse traded products are presented before reflection of the impact of the purchase price allocation performed under IFRS 3, Business Combinations, following the acquisition of the Credit Suisse Group by UBS. The acquisition date adjustment is less than USD 1bn and, if applied, would lead to a reduction in our reported traded products exposure.

1 Excluding balances at central banks and Group Treasury reallocations. 2 The ratings of the major credit rating agencies, and their mapping to our internal rating scale, are shown in the "Internal UBS rating scale and mapping of external ratings" table in this section. 3 Comparative-period information has not been restated for business perimeter changes. For the Investment Bank and Personal & Corporate Banking, legacy Credit Suisse exposure includes only loans and advances to customers and guarantees and loan commitments, before reflection of the impact of the purchase price allocation adjustments.

Global Wealth Management

Gross banking products exposure decreased by USD 44bn to USD 452bn as of 31 December 2024, due to a decrease in balances at central banks, currency effects and negative net new loans.

Our Global Wealth Management loan portfolio is mainly secured by securities (Lombard loans) and by residential real estate. As of 31 December 2024, most of our USD 179bn of Lombard loans, including traded products collateralized by securities, were of high quality, with 92% rated as investment grade based on our internal ratings. Moreover, Lombard loans are typically uncommitted, short-term in nature and can be canceled immediately if the collateral quality deteriorates and margin calls are not met. Lending values in the Lombard book are derived by applying discounts (haircuts) to the pledged collateral's market value in line with a possible adverse change in market value over a given close-out period and confidence level. Less-liquid or more volatile collateral will typically have larger haircuts. In 2024, the Lombard book, including traded products, remained stable, with an overall decrease of approximately 3%.

The residential real estate portfolio decreased by approximately 7% in 2024, mainly driven by our Swiss mortgage book, in line with a 7% strengthening of the US dollar over the year.

Specialized financings as of 31 December 2024 accounted for approximately 13% of the total banking products exposure. This portfolio mainly consists of commercial real estate loans, financing for ships, yachts and aircraft, unsecured lending, and loans collateralized with uncalled capital commitments. These financings decreased by approximately 12% in 2024, mainly driven by a decrease in unsecured loans originated by legacy Credit Suisse entities and the termination of our municipal bond issuer program in the US.

- **Refer to "Lending secured by real estate" and "Lombard lending" in this section for further information about these types of lending**

1 Collateral arrangements generally incorporate a range of collateral, including cash, equity and debt instruments, real estate and other collateral. For the purpose of this disclosure, UBS applies a risk-based approach that generally prioritizes collateral according to its liquidity profile. In the case of loan facilities with funded and unfunded elements, the collateral is first allocated to the funded element. For legacy Credit Suisse a risk-based approach is applied that generally prioritizes real estate collateral and prioritizes other collateral according to its liquidity profile. In the case of loan facilities with funded and unfunded elements, the collateral is proportionately allocated. 2 Comparative-period information has been restated for changes in business division parameters. Refer to "Note 3 Segment reporting" in the "Consolidated financial statements" section of this report for more information. 3 Includes but is not limited to life insurance contracts, rights in respect of subscription or capital commitments from fund partners, inventory, gold and other commodities.

Personal & Corporate Banking

Gross banking products exposure decreased by USD 58bn to USD 425bn as of 31 December 2024, predominantly due to strengthening of the US dollar versus the Swiss franc and negative net new loans.

The exposure is mainly driven by our Swiss mortgage portfolio, our Swiss corporate banking portfolio and, to a lesser extent, our commodity trade finance portfolio. As of 31 December 2024, the majority of the banking products exposure was rated investment grade, and 87% of loans and advances to customers were secured by collateral, mainly residential and commercial property. The total unsecured amount mainly consists of cash-flow-based lending to corporate counterparties.

Our Swiss corporate banking products take-and-hold portfolio exposure was USD 73bn (CHF 66bn) as of 31 December 2024 and decreased by USD 20bn compared with 31 December 2023, due to strengthening of the US dollar versus the Swiss franc and negative net new loans. The portfolio consists of loans, guarantees and loan commitments to multi-national and domestic counterparties. The small and medium-sized entity portfolio, in particular, is well diversified across industries. However, such companies are reliant on the domestic economy and the economies to which they export, in particular the EU and the US.

Our commodity trade finance portfolio focuses on energy and base-metal trading companies, where the related commodity price risk is hedged to a large extent by the commodity trader. The majority of limits in this business are uncommitted, transactional and short-term in nature. Our portfolio size was USD 9bn (CHF 8bn) as of 31 December 2024, compared with USD 11bn (CHF 9bn) as of 31 December 2023, primarily driven by lower market activity. A considerable part of the exposure correlates with commodity prices.

Swiss mortgage loan portfolio

Our Swiss mortgage loan portfolio secured by residential and commercial real estate in Switzerland continued to be our largest loan portfolio. These mortgage loans (including loans on owner-occupied commercial real estate), totaling USD 313bn (CHF 284bn) as of 31 December 2024, mainly originated from Personal & Corporate Banking, with contributions also from Global Wealth Management Region Switzerland.

Of the aggregate amount of Swiss residential mortgages, 99.9% would continue to be covered by the real estate collateral even if the collateral value were to decrease 20%, and more than 99% would remain covered by the real estate collateral if the collateral value were to decrease 30%.

Swiss mortgages: exposure by exposure segments and loan-to-value (LTV) buckets[1]

USD bn, except where indicated		31.12.24								31.12.23
		LTV buckets								
Exposure segment		≤30%	31–50%	51–60%	61–70%	71–80%	81–100%	>100%	Total	Total
Residential mortgages	Exposure	154.4	61.8	14.1	5.5	1.5	0.3	0.1	237.6	261.6
Income-producing real estate	Exposure	39.4	14.3	2.7	1.0	0.2	0.1	0.1	57.7	70.0
Corporates	Exposure	10.7	3.4	0.7	0.4	0.2	0.1	0.2	15.7	19.8
Other segments	Exposure	1.4	0.5	0.1	0.1	0.0	0.0	0.0	2.2	1.1
Mortgage-covered exposure	Exposure	206.0	80.0	17.7	6.9	1.9	0.5	0.3	313.2	352.3
	as a percentage of total	66	26	6	2	1	0	0	100	100
Mortgage-covered exposure 31.12.23	Exposure	220.4	93.4	24.5	10.7	2.5	0.4	0.5	352.3	
	as a percentage of total	63	27	7	3	1	0	0	100	

1 The amount of each mortgage loan is allocated across the LTV buckets to indicate the portion at risk at the various value levels shown; for example, a loan of 75 with an LTV ratio of 75% (i.e. a collateral value of 100) would result in allocations of 30 in the less-than-or-equal-to-30% LTV bucket, 20 in the 31–50% bucket, 10 in the 51–60% bucket, 10 in the 61–70% bucket and 5 in the 71–80% bucket.

Investment Bank

The Investment Bank's lending activities are largely associated with corporate and non-bank financial institutions. The business is broadly diversified across industry sectors but concentrated in North America.

Gross banking products exposure decreased by USD 42bn to USD 73bn as of 31 December 2024, due to a decrease in balances at central banks. The banking products exposure is almost equally distributed between investment grade and sub-investment grade rating, with a slight predominance of the latter.

Mandated loan underwriting commitments on a notional basis were USD 4.6bn as of 31 December 2024 (31 December 2023: USD 2.1bn), reflecting new mandates during the year. As of 31 December 2024, USD 0.2bn of these commitments had not yet been distributed as originally planned. The loan underwriting commitments reported as of the end of 2023 were fully syndicated or canceled in 2024.

Loan underwriting exposures are classified as held for trading, with fair values reflecting the market conditions at the end of 2024. Credit hedges are in place to help protect against fair value movements in the portfolio.

› **Refer to "Credit risk models" in this section for more information about rating grades and rating agency mappings**

1 Excluding balances at central banks and Group Treasury reallocations. 2 Legacy Credit Suisse exposure includes only loans and advances to customers and guarantees and loan commitments presented before reflection of the impact of the purchase price allocation adjustments.

Non-core and Legacy

Gross banking products exposure decreased by USD 40bn to USD 33bn as of 31 December 2024, mainly due to a decrease in balances at central banks and also due to reductions in all other banking product exposures, reflecting portfolio de-risking.

As of 31 December 2024, Non-core and Legacy had no mandated loan underwriting commitments, compared with commitments of USD 1.0bn on a notional basis as of 31 December 2023.

- **Refer to the "Our businesses" section of this report for more information**
- **Refer to the "Non-core and Legacy" section of this report for more information**

Group Items

Gross banking products exposure, which arises primarily in connection with treasury activities, increased by USD 7bn to USD 17bn as of 31 December 2024, due to an increase in balances at central banks, partly offset by a decrease in other financial assets at amortized cost.

- **Refer to "Balance sheet assets" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information**
- **Refer to the "Group Items" section of this report for more information**

Traded products

Audited | Counterparty credit risk (CCR) arising from traded products, which include OTC derivatives, ETD exposures and SFTs originating in the Investment Bank, Non-core and Legacy, and Group Treasury, is generally managed on a close-out basis. This takes into account possible effects of market movements on the exposure and any associated collateral over the time it would take to close out our positions. Limits are applied to the potential future exposure per counterparty, with the size of the limit dependent on the counterparty's creditworthiness (as determined by Risk Control). Limit frameworks are also used to control overall exposure to specific sectors. Such portfolio limits are monitored and reported to senior management.

Trading in OTC derivatives is conducted through central counterparties where practicable. Where central counterparties are not used, we have clearly defined policies and processes for trading on a bilateral basis. Trading is typically conducted under bilateral International Swaps and Derivatives Association agreements or similar master netting agreements, which generally permit close-out and netting of transactions in case of default, subject to applicable law. For certain counterparties, initial margin is taken to cover some or all of the calculated close-out exposure. This is in addition to the variation margin taken to settle changes in market value of transactions. For most major market participant counterparties, we use two-way collateral agreements under which either party can be required to provide collateral in the form of cash or marketable securities when the exposure exceeds specified levels. Non-cash collateral typically consists of well-rated government debt or other collateral acceptable to Risk Control and permitted by applicable regulations. ▲

In the tables below, OTC derivatives exposures are generally presented as net positive replacement values after the application of legally enforceable netting agreements and the deduction of cash and marketable securities held as collateral. SFT exposures are reported taking into account collateral received, and ETD exposures take into account collateral margin calls.

- **Refer to "Note 11 Derivative instruments" in the "Consolidated financial statements" section of this report for more information about OTC derivatives settled through central counterparties**
- **Refer to "Note 22 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of this report for more information about the effect of netting and collateral arrangements on derivative exposures**

Credit risk mitigation

Audited | We actively manage credit risk in our portfolios by taking collateral against exposures and by utilizing credit hedging. ▲

Lending secured by real estate

Audited | We use a scoring model as part of a standardized front-to-back process for credit decisions on originating or modifying Swiss mortgage loans. The model's two key factors are the LTV ratio and an affordability calculation. ▲

The calculation of affordability takes into account interest payments, minimum amortization requirements and potential property maintenance costs in relation to gross income or rental income for rental properties. The imputed interest rate is set at 5% per annum, independently of the current interest rate environment.

For residential properties occupied by the borrower, the maximum LTV for the standard approval process is 80%. For income-producing real estate (IPRE), the maximum LTV allowed within the standard approval process ranges from 30% to 75%, depending on the type and age of the property, and the amount of renovation work needed.

Audited | The value we assign to each property is based on the lowest value determined from model-derived valuations, the purchase price, an asset value for IPRE and, in some cases, an additional external valuation. ▲

To take market developments into account for external valuation models, an external vendor regularly updates the parameters and / or refines the architecture for each model. Model changes and parameter updates are subject to the same validation procedures as our internally developed models.

Audited | We similarly apply underwriting guidelines for our Global Wealth Management Region Americas mortgage loan portfolio, taking into account loan affordability and collateral sufficiency. LTV standards are defined for the various mortgage types, such as residential mortgages or investment properties, based on associated risk factors, such as property type and loan size and purpose. The maximum LTV allowed within the standard approval process ranges from 45% to 80%. In addition to LTV, other credit risk metrics, such as debt-to-income ratios, credit scores and required client reserves, are also part of our underwriting guidelines.

A risk limit framework is applied to the Global Wealth Management Region Americas mortgage loan portfolio. Limits are set to govern exposures within LTV categories, geographic concentrations, portfolio growth and high-risk mortgage segments, such as interest-only loans. These limits are monitored by a specialized credit risk monitoring team and reported to senior management. Supplementing this limit framework is a real estate lending policy and procedures framework, set up to govern real estate lending activities. Quality assurance and quality control programs monitor compliance with mortgage underwriting and documentation requirements.

For our mortgage loan portfolio in the Global Wealth Management regions of EMEA and Asia Pacific, we apply global underwriting guidelines with regional variations to allow for regulatory and market differentials. As in other regions, the underwriting guidelines take into account affordability and collateral sufficiency. Affordability is assessed at a stressed interest rate using, for residential real estate, the borrowers' sustainable income and declared liabilities, and for commercial real estate the quality and sustainability of rental income. For interest-only loans, a declared and evidenced repayment strategy must be in place. The applicable LTV for each mortgage is based on the quality and liquidity of the property and assessed against valuations from bank-appointed third-party valuers. Maximum LTV varies from 30% to 70%, depending on the type and location of the property, as well as other factors. Serviceability may be further supported by personal guarantees from related third parties. The overall portfolio is centrally assessed against a number of stress scenarios to ensure that exposures remain within predefined stress limits. ▲

› **Refer to "Swiss mortgage loan portfolio" in this section for more information about LTV in our Swiss mortgage portfolio**

Lombard lending

Audited | Lombard loans are secured by pledges of marketable securities, guarantees and other forms of collateral. Eligible financial securities are primarily liquid and actively traded transferable securities (such as bonds, equities and certain hybrid securities), and other transferable securities, such as approved structured products for which regular prices are available and the issuer of the security provides a market. To a lesser degree, less-liquid collateral is also used.

We derive lending values by applying discounts (haircuts) to the pledged collateral's market value. Haircuts for marketable securities are calculated to cover a possible adverse change in market value over a given close-out period and confidence level. Less-liquid or more volatile collateral will typically have larger haircuts.

We assess concentration and correlation risks across collateral posted at a counterparty level, and at a divisional level across counterparties. We also perform targeted Group-wide reviews of concentration. Concentration of collateral in single securities, issuers or issuer groups, industry sectors, countries, regions or currencies may result in higher risk and reduced liquidity. In such cases, the lending value of the collateral, margin call and close-out levels are adjusted accordingly. ▲

Exposures and collateral market values are monitored daily, with the aim of ensuring that the credit exposure always remains within the established risk tolerance. A shortfall occurs when the lending value drops below the exposure; if it exceeds a defined trigger level, a margin call is initiated, requiring the client to provide additional collateral, reduce the exposure or take other action to bring exposure in line with the agreed lending value of the collateral. If a shortfall is not corrected within the required period, a close-out is initiated, through which collateral is liquidated, open derivative positions are closed and guarantees are called.

We conduct stress testing of collateralized exposures to simulate market events that reduce collateral market value, increase exposure of traded products, or do both. For certain classes of counterparties, limits on such calculated stress exposures are applied and controlled at a counterparty level. Also, portfolio limits are applied across certain businesses or collateral types.

› **Refer to "Stress loss" in this section for more information about our stress testing**

Credit hedging

Audited | We use single-name credit default swaps (CDSs), credit-index CDSs, structured portfolio hedges (SPHs), bespoke protection and other instruments to actively manage credit risk. The aim is to reduce concentrations of risk from specific counterparties, sectors or portfolios and, for CCR, the profit or loss effect arising from changes in credit valuation adjustments.

We have strict guidelines with regard to taking credit hedges into account for credit risk mitigation purposes. For example, when monitoring exposures against counterparty limits, we do not usually apply certain credit risk mitigants, such as proxy hedges (credit protection on a correlated but different name) or credit-index CDSs, to reduce counterparty exposures. SPHs are structured to achieve true risk transfer by providing explicit protection against events that could cause a loss in the referenced hedged positions, with the hedge payoff matched to the actual loss incurred on those positions (i.e. no basis risk). Buying credit protection, if unfunded, also creates credit exposure with regard to the protection provider. We monitor and limit exposures to credit protection providers and also monitor the effectiveness of credit hedges. ▲

› **Refer to "Note 11 Derivative instruments" in the "Consolidated financial statements" section of this report for more information**
› **Refer to the 31 December 2024 Pillar 3 Report, available under "Pillar 3 disclosures" at *ubs.com/investors,* for more information about risk transfer through synthetic securitizations**

Mitigation of settlement risk

To mitigate settlement risk, we reduce actual settlement volumes by using multi-lateral and bilateral agreements with counterparties, including payment netting. In relation to the exchange of cash or securities, transactions can be settled on a delivery-versus-payment basis.

Foreign exchange transactions are our most significant source of settlement risk. We are a member of CLSSettlement (operated by CLS, formerly known as Continuous Linked Settlement), an industry utility that provides a multi-lateral framework to settle transactions on a payment-versus-payment basis, thus reducing foreign-exchange-related settlement risk relative to the volume of business. However, mitigation of settlement risk through CLS and other means does not fully eliminate credit risk in foreign exchange transactions resulting from changes in exchange rates prior to settlement, which is managed as part of our overall credit risk management of OTC derivatives.

Credit risk models

Basel III – A-IRB credit risk models

Audited | We have developed tools and models to estimate future credit losses that may be implicit in our current portfolio.

Exposures to individual counterparties are measured using three generally accepted parameters: PD, EAD and LGD. For a given credit facility, the product of these three parameters results in the expected loss (the EL). These parameters are the basis for the majority of our internal measures of credit risk, and key inputs for regulatory capital calculation under the advanced internal ratings-based (A-IRB) approach of the Basel III framework. We also use models to derive the portfolio credit risk measures of EL, statistical loss and stress loss. ▲

› **Refer to the 31 December 2024 Pillar 3 Report, available under "Pillar 3 disclosures" at *ubs.com/investors,* for more information about the regulatory capital calculation under the A-IRB approach and our key credit risk models**

▲

Probability of default
PD estimates the likelihood of a counterparty defaulting on its contractual obligations over the next 12 months and is assessed using rating tools tailored to the various categories of counterparties.

The ratings of major credit rating agencies, and their mapping to the UBS masterscale and internal PD bands, are shown in the "Internal UBS rating scale and mapping of external ratings" table above. For Moody's and S&P, the mapping is based on the long-term average of one-year default rates available from these rating agencies, with Fitch ratings being mapped to the equivalent S&P ratings. For each external rating category, the average default rate is compared with our internal PD bands to derive a periodically reviewed mapping to our internal rating scale.

Exposure at default
EAD is the amount we expect to be owed by a counterparty at the time of possible default. We derive EAD from current exposure to the counterparty and possible future exposure development.

The EAD of an on-balance sheet loan is its notional amount, while for off-balance sheet commitments that are not drawn, credit conversion factors (CCFs) are used in order to obtain an expected on-balance sheet amount.

For traded products under the internal model method for derivatives and the repo value-at-risk approach for SFTs, we derive EAD by modeling the range of possible exposure outcomes at various points in time using a simulation based on a scenario-consistent technique. We assess the net amount that may be owed to us or that we may owe to others, taking into account the effect of market movements over the potential time it would take to close out positions.

We assess exposures where there is a material correlation between the factors driving the credit quality of the counterparty and those driving the potential future value of our traded products exposure (wrong-way risk), and we have established specific controls to mitigate such risks.

Loss given default
LGD is the magnitude of the likely loss if there is a default. Our LGD estimates, which consider downturn conditions, include loss of principal, interest and other amounts less recovered amounts. We determine LGD based on the likely recovery rate of claims against defaulted counterparties, which depends on the type of counterparty and any credit mitigation due to collateral or guarantees. Our estimates are supported by internal loss data and external information, where available. If we hold collateral, such as marketable securities or a mortgage on a property, LTV ratios are typically a key parameter in determining LGD. For risk-weighted asset (RWA) calculation, floors are applied to LGD in line with regulation.

Expected loss
We use the concept of EL to quantify future credit losses that may be implicit in our current portfolio. The EL for a given credit facility is the product of the three components described above, i.e. PD, EAD and LGD. We aggregate the EL for individual counterparties to derive expected portfolio credit losses.

IFRS 9 – ECL credit risk models

Expected credit loss
ECL is defined as the difference between contractual cash flows and those UBS expects to receive, discounted at the effective interest rate (EIR) or contractual interest rate. For loan commitments and other credit facilities in scope of ECL requirements, expected cash shortfalls are determined by considering expected future drawdowns. Rather than focusing on an average through-the-cycle (TTC) expected annual loss, the purpose of ECL is to estimate the amount of losses inherent in a portfolio based on current conditions and future outlook (a point-in-time (PIT) measure), whereby such a forecast has to be unbiased (i.e. exclude conservative adjustments) and include all information available without undue cost and effort, and address multiple scenarios where there is perceived non-linearity between changes in economic conditions and their effect on credit losses. From a credit risk modeling perspective, ECL parameters are generally derivations of the factors assessed for regulatory Basel III EL.

Comparison of Basel III EL and IFRS 9 ECL credit risk models
The IFRS 9 ECL concept has a number of key differences from our Basel III credit risk models, both in the loss estimation process and the result thereof. Most notably, regulatory Basel III EL parameters are TTC / downturn estimates, which might include a margin of conservatism, while IFRS 9 ECL parameters are typically PIT, reflecting current economic conditions and future outlook. The table below summarizes the main differences. Stage 1 and 2 ECL releases in 2024 were USD 99m, and the respective allowances and provisions as of 31 December 2024 were USD 946m. This included ECL allowances and provisions of USD 838m related to positions under the Basel III A-IRB approach. Basel III EL for non-defaulted positions was USD 1,406m.

› **Refer to "Note 1 Summary of material accounting policies" in the "Consolidated financial statements" section of this report for more information about our accounting policy for allowances and provisions for ECL including key definitions relevant for the ECL calculation under IFRS 9**

The table below shows the main differences between the two expected loss measures.

	Basel III EL (A-IRB approach)	IFRS 9 ECL
Scope	The Basel III A-IRB approach applies to most credit risk exposures. It includes transactions measured at amortized cost, at fair value through profit or loss and at fair value through OCI, including loan commitments and financial guarantees.	The IFRS 9 ECL calculation mainly applies to financial assets measured at amortized cost and debt instruments measured at fair value through OCI, as well as loan commitments and financial guarantees not at fair value through profit or loss.
12-month versus lifetime expected loss	The Basel III A-IRB approach takes into account expected losses resulting from expected default events occurring within the next 12 months.	In the absence of a significant increase in credit risk (an SICR), a maximum 12-month ECL is recognized. Once an SICR event has occurred, a lifetime ECL is recognized considering expected default events over the life of the transaction.
Exposure at default (EAD)	EAD is the amount we expect a counterparty to owe us at the time of a possible default. For banking products, EAD equals the book value as of the reporting date; for traded products, the vast majority of EAD is modeled. For lending, EAD is expected to remain constant over a 12-month period. For loan commitments, a credit conversion factor is applied to model expected future drawdowns.	EAD is generally calculated on the basis of the cash flows that are expected to be outstanding at the individual points in time during the life of the transaction. For loan commitments, a credit conversion factor is applied to model expected future drawdowns.
Probability of default (PD)	PD estimates are determined on a through-the-cycle (TTC) basis. They represent historical average PDs, taking into account observed losses over a prolonged historical period, and therefore are less sensitive to movements in the underlying economy.	PD estimates are determined on a point-in-time (PIT) basis, based on current conditions and incorporating forecasts for future economic conditions at the reporting date.
Loss given default (LGD)	LGD includes prudential adjustments, such as downturn LGD assumptions and floors. Similar to PD, LGD is determined on a TTC basis.	LGD should reflect the losses that are reasonably expected and prudential adjustments should therefore not be applied. Similar to PD, LGD is determined on the basis of a PIT approach.
Use of scenarios	No use of scenarios.	Multiple forward-looking scenarios have to be taken into account to determine a probability-weighted ECL.

Further key aspects of credit risk models

Stress loss

We complement our statistical modeling approach with scenario-based stress loss measures. Stress tests are run regularly to monitor potential effects of extreme, but nevertheless plausible, events on our portfolios, under which key credit risk parameters are assumed to deteriorate substantially. Where we consider it appropriate we apply limits on this basis.

Stress scenarios and methodologies are tailored to portfolios' natures, ranging from regionally focused to global systemic events and varying in time horizon.

› **Refer to "Stress testing" in this section for more information about our stress-testing framework**

Credit risk model confirmation

Our approach to model confirmation involves both quantitative methods, such as monitoring compositional changes in portfolios and results of backtesting, and qualitative assessments, such as feedback from users on model output as a practical indicator of a model's performance and reliability. In addition, changes in market, regulatory and business practices are assessed.

Material changes in portfolio composition may invalidate the conceptual soundness of a model. We therefore perform regular analyses of the evolution of portfolios to identify such changes in the structure and credit quality of portfolios.

› **Refer to "Model risk" in this section for more information**

Backtesting

We monitor the performance of models by backtesting and benchmarking them, with model outcomes compared with actual results, based on our internal experience and externally observed results. To assess the predictive power of credit exposure models for traded products, such as OTC derivatives and ETD products, we statistically compare predicted future exposure distributions at different forecast horizons with realized values.

For PD, we derive a predicted distribution of the number of defaults. The observed number of defaults is compared with the upper tail of the predicted distribution. If the observed number of defaults is higher than a given upper tail quantile, we conclude there is evidence that the model may underpredict the number of defaults. Based on historical long-run average default rates and, if required, additional margin of conservatism, we also derive PD calibration targets and a lower boundary. As a general rule, follow-up actions, such as a recalibration of the rating tool, are defined if the portfolio average PD lies below the derived lower boundary.

For LGD, backtesting statistically tests whether the mean difference between the observed and predicted LGD is zero. If the test fails, there is evidence that our predicted LGD is too low. In such cases, and where these differences are outside expectations, follow-up actions, such as a recalibration of the models, are taken.

CCFs, used for the calculation of EAD for undrawn facilities, are dependent on several credit facility contractual dimensions. We compare the predicted amount drawn with observed historical use of such facilities by defaulted counterparties. If any statistically significant deviation is observed, follow-up actions, such as an update of the relevant CCFs, are performed.

Changes to models and model parameters during the period

As part of our continuous efforts to enhance models to reflect market developments and newly available data, we updated several models in 2024.

In Personal & Corporate Banking and Global Wealth Management, we implemented a new Swiss corporate PD model and updated the retail and corporate LGD parameters of the Swiss LGD model. In addition, we implemented an RWA add-on for IPRE mortgages to private clients in Switzerland as an alternative to recalibrating the PD model. In Global Wealth Management, the conservative fixed RWA add-on for concentrated equity lending and lending against concentrated hedge fund and private equity collateral was replaced by a dynamic RWA buffer calculation based on a detailed transactional risk assessment that will be in place until the expected go-live of dedicated models in the second half of 2025.

In the Investment Bank, new PD models for broker-dealers and mortgage originators went live, and PD models for banks and hedge funds were recalibrated. In addition, certain RWA multipliers were adjusted as a result of improvements to models, and the majority of the mortgage originators portfolio has been switched from the A-IRB approach to the securitization standardized approach framework. Furthermore, we deployed a new US commercial real estate LGD model across the Investment Bank and Global Wealth Management, and in Global Wealth Management we implemented a supervisory slotting model for the commercial real estate portfolio outside the US and Switzerland.

For the sovereign portfolio on the legacy Credit Suisse infrastructure, we rolled out the UBS sovereign PD model, replacing the previous Credit Suisse model. In addition, the Credit Suisse PD model for fund-linked products and the equity REIT supervisory slotting model were decommissioned, as there was no remaining exposure on the legacy Credit Suisse infrastructure. The Credit Suisse models for hedge funds and broker-dealers were also decommissioned, due to the reduced remaining materiality of the respective portfolios on the legacy Credit Suisse infrastructure, with the remaining exposure now subject to the standardized approach for the calculation of risk-weighted assets. For positions that have migrated from Credit Suisse to UBS infrastructure, UBS models have been adopted accordingly.

Where required, changes to models and model parameters were approved by the Swiss Financial Market Supervisory Authority (FINMA) before implementation.

- **Refer to "Risk-weighted assets" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the effect of the changes to models and model parameters on credit risk RWA**

Credit-risk-model-related regulatory capital developments

In Switzerland, the amendments to the Capital Adequacy Ordinance that incorporate the final Basel III standards into Swiss law entered into force on 1 January 2025, together with implementing ordinances issued by FINMA in 2024. The adoption of the final Basel III standards led to a number of revisions to the internal ratings-based (IRB) approaches, namely: (i) removing the option of using the A-IRB approach for certain asset classes (including general corporates with consolidated annual revenues greater than EUR 500m, and banks and other financial institutions); (ii) placing floors on certain model inputs under the IRB approach, e.g. PD and LGD; and (iii) introducing various requirements to reduce RWA variability (e.g. for LGD). In addition, the removal of the internal model approach for credit valuation adjustment became effective on 1 January 2025. The aforementioned revisions have been adopted for all FINMA-regulated entities, including the UBS Group.

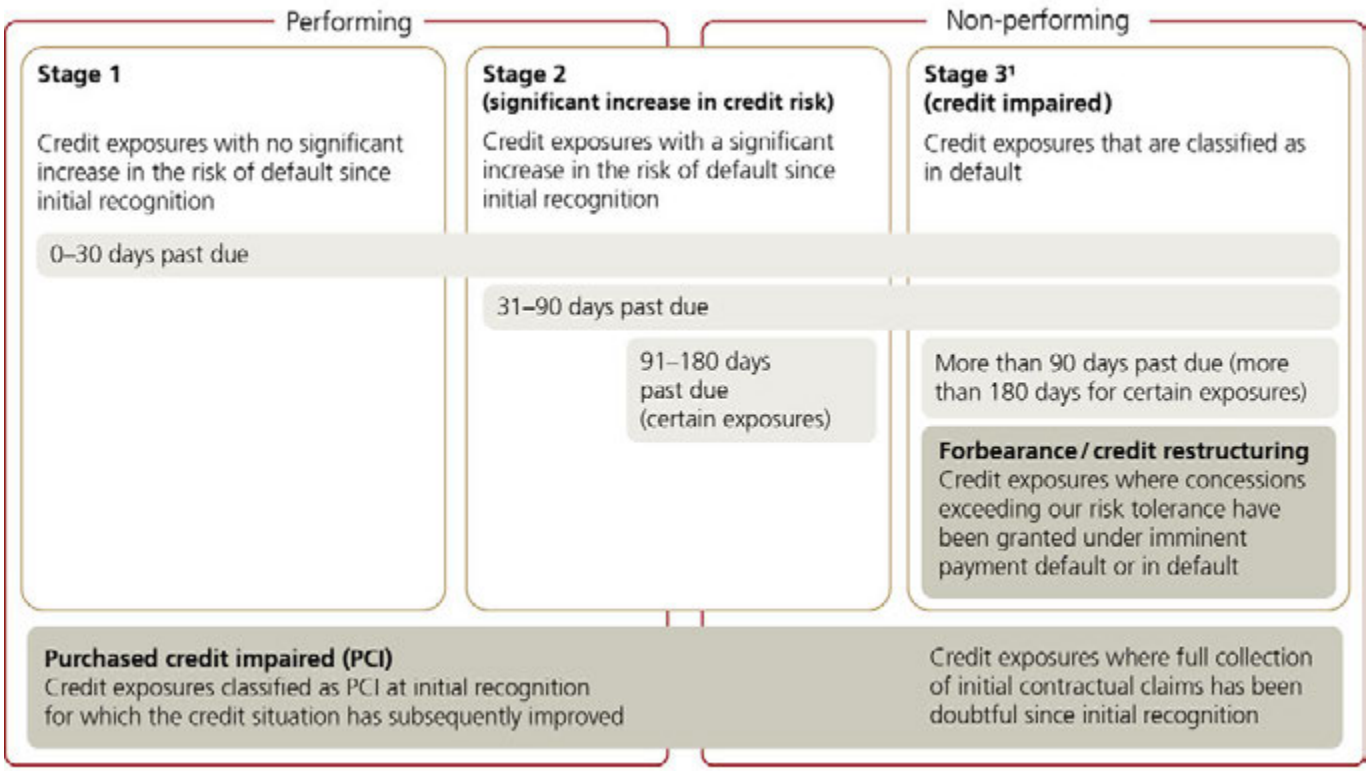
Credit policies for distressed assets

Non-performing

Audited I In line with the regulatory definition, we report a claim as non-performing when: (i) it is more than 90 days past due; (ii) it is subject to restructuring proceedings, where preferential conditions concerning interest rates, subordination, tenor, etc. have been granted in order to avoid default of the counterparty (forbearance); (iii) the counterparty is subject to bankruptcy / enforced liquidation proceedings in any form, even if there is sufficient collateral to cover the due payment; or (iv) there is other evidence that payment obligations will not be fully met without recourse to collateral.

Default and credit impaired

UBS uses a single definition of default for classifying assets and determining the PD of its obligors for risk modeling purposes. The definition of default is based on quantitative and qualitative criteria. A counterparty is classified as defaulted when material payments of interest, principal or fees are overdue for more than 90 days, or more than 180 days for certain exposures in relation to loans to private and commercial clients in Personal & Corporate Banking and to private clients of Global Wealth Management Region Switzerland. UBS does not consider the general 90-day presumption for default recognition appropriate for those portfolios, given the cure rates, which show that strict application of the 90-day criterion would not accurately reflect the inherent credit risk. Counterparties are also classified as defaulted when: bankruptcy, insolvency proceedings or enforced liquidation have commenced; obligations have been restructured on preferential terms (forbearance); or there is other evidence that payment obligations will not be fully met without recourse to collateral. The latter may be the case even if, to date, all contractual payments have been made when due. If one claim against a counterparty is defaulted on, generally all claims against the counterparty are treated as defaulted.



An instrument is classified as credit impaired if the counterparty is classified as defaulted and / or the instrument is identified as purchased credit impaired (PCI). An instrument is PCI if it has been purchased at a deep discount to its carrying amount following a risk event of the issuer or originated with a defaulted counterparty. Once a financial asset is classified as defaulted / credit impaired (except PCI), it is reported as a stage 3 instrument and remains as such unless all past due amounts have been rectified, additional payments have been made on time, the position is not classified as credit-restructured, and there is general evidence of credit recovery. A three-month probation period is applied before a transfer back to stages 1 or 2 can be triggered. However, most instruments remain in stage 3 for a longer period of time. ▲

Forbearance (credit restructuring)

Audited | If payment default is imminent or default has already occurred, we may grant concessions to borrowers in financial difficulties that we would otherwise not consider in the normal course of business, such as offering preferential interest rates, extending maturity, modifying the schedule of repayments, debt / equity swap, subordination, etc. When a forbearance measure takes place, each case is considered individually, and the exposure is generally classified as defaulted. Forbearance classification remains until the loan is repaid or written off, non-preferential conditions are granted that supersede the preferential conditions or the counterparty has recovered, and the preferential conditions no longer exceed our risk tolerance.

Contractual adjustments when there is no evidence of imminent payment default, or where changes to terms and conditions are within our usual risk tolerance, are not considered to be forborne. ▲

Exposure categorization

1 Excluding purchased credit-impaired instruments.

Loss history statistics

An instrument is classified as credit impaired if the counterparty has defaulted. This also includes credit-impaired exposures for which no loss has occurred or for which no allowance has been recognized (e.g. where we expect to fully recover the exposures via collateral held).

Coverage ratios are calculated for the core loan portfolio by taking ECL allowances and provisions divided by the gross carrying amount of the exposures. Core loan exposure is defined as the sum of Loans and advances to customers and Loans to financial advisors.

The total combined on- and off-balance sheet coverage ratio was 27 basis points as of 31 December 2024, 5 basis points higher than the ratio as of 31 December 2023. The combined stage 1 and 2 ratio of 10 basis points, 1 basis point lower than the ratio as of 31 December 2023; the stage 3 ratio was 22%, 1 percentage point higher than the ratio as of 31 December 2023, and the PCI ratio was 21%.

ECL allowances for lending assets as a percentage of total lending assets, gross (%)[5]	0.3	0.3	0.2
Write-offs as a percentage of average gross lending assets outstanding during the period (%)[5]	0.1	0.0	0.0

1 Comparative-period information has been revised. Refer to "Note 2 Accounting for the acquisition of the Credit Suisse Group" in the "Consolidated financial statements" section of this report for more information. 2 Includes amounts due from banks, core loan exposure (Loans and advances to customers and Loans to financial advisors) and off-balance sheet items defined as guarantees and loan commitments. 3 Includes provisions for ECL of guarantees and loan commitments and allowances for securities financing transactions. 4 Includes credit loss expense / (release) for other financial assets at amortized cost, guarantees, loan commitments, and securities financing transactions. 5 Lending assets include amounts due from banks and loans and advances to customers.

Market risk

Audited | Main sources of market risk

Market risks arise from both trading and non-trading business activities.

- Trading market risks arise primarily in the Investment Bank, Non-core and Legacy and, to a lesser extent, Global Wealth Management. In the Investment Bank these risks are mainly connected with primary debt and equity underwriting, as well as securities and derivatives trading for market-making and client facilitation. In Non-core and Legacy, market risks arise mainly from structured trades, portfolios of loans and securitized products, and both complex and simple credit, interest rate and equity derivative transactions. A limited contribution to market risk in Global Wealth Management comes from municipal securities and taxable fixed-income securities.
- Non-trading market risks arise predominantly in the form of interest rate and foreign exchange risks connected with personal banking and lending in our wealth management businesses, the Swiss business of our Personal & Corporate Banking business division, the Investment Bank's lending business, and treasury activities.
- Group Treasury assumes market risks in the process of managing interest rate risk, structural foreign exchange risk and the Group's liquidity and funding profile, including high-quality liquid assets (HQLA).
- Equity and debt investments can also give rise to market risks, as can some aspects of employee benefits, such as defined benefit pension schemes. ▲

Audited | Overview of measurement, monitoring and management techniques

- Market risk limits are set for the Group, the business divisions and Group Treasury at granular levels in the various business lines, reflecting the nature and magnitude of the market risks.
- Management value-at-risk (VaR) measures exposures under the market risk framework, including trading market risks and some non-trading market risks. Non-trading market risks not included in VaR are covered in the risks controlled by the Market and Treasury Risk Control functions.
- Our primary portfolio measures of market risk are liquidity-adjusted stress loss and VaR. Both are subject to limits that are approved by the Board of Directors (the BoD). Market risk measurement for certain legacy Credit Suisse components can differ from the UBS Group excluding the aforementioned legacy Credit Suisse components, as set out below. These positions continue to be managed on legacy Credit Suisse infrastructure until full migration of these positions to UBS infrastructure or the liquidation of the positions.
- These measures are complemented by concentration and granular limits for general and specific market risk factors. Our trading businesses are subject to multiple market risk limits, which take into account the extent of market liquidity and volatility, business outlook and growth, and, for our single-name exposures, issuer credit quality.
- Trading market risks are managed at portfolio level. As risk factor sensitivities change due to new transactions, transaction expiries or changes in market levels, risk factors are dynamically rehedged to remain within limits. We do not generally seek to distinguish in the trading portfolio between specific positions and associated hedges.
- Issuer risk for credit products is controlled by limits applied at the business division level based on jump-to-zero measures, which estimate maximum default exposure (the default event loss assuming zero recovery).
- Non-trading foreign exchange risks are managed under market risk limits, with the exception of Group Treasury management of consolidated capital activity.

Our CRO Treasury function applies a holistic risk framework, setting the appetite for treasury-related risk-taking activities across the Group. Key elements of the framework include an overarching regulatory (interest rate risk in the banking book (IRRBB)) delta economic value of equity (EVE) target, set by the BoD. Limits are also set by the BoD to balance the effect of foreign exchange movements on our common equity tier 1 (CET1) capital and CET1 capital ratio. Non-trading interest rate and foreign exchange risks are included in Group-wide statistical and stress-testing metrics, which flow into our risk appetite framework.

Equity and debt investments are subject to a range of risk controls, including preapproval of new investments for commercial purposes by business management and Risk Control and regular monitoring and reporting by Group Finance. They are also included in Group-wide statistical and stress-testing metrics. ▲

- **Refer to "Currency management" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about Group Treasury's management of foreign exchange risks**
- **Refer to the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the sensitivity of our CET1 capital and CET1 capital ratio to currency movements**

Market risk stress loss

The measurement and management of market risks include an extensive set of stress tests and scenario analyses, continuously evaluated to ensure that losses resulting from an extreme yet plausible event do not exceed our risk appetite.

Liquidity-adjusted stress

Liquidity-adjusted stress is our primary stress loss measure for Group-wide market risk. The framework captures the economic losses that could arise under specified stress scenarios. Shocks are applied to positions based on expected market movements in the liquidity-adjusted holding periods resulting from the specified scenario.

The holding periods used for liquidity-adjusted stress are calibrated to reflect the time needed to reduce or hedge the risk of positions in each major risk factor in a stressed environment. We apply minimum holding periods, regardless of observed liquidity levels, as identification of and reaction to a crisis may not always be immediate.

The expected market movements are derived using historical market behavior (based on analysis of historical events) and forward-looking analysis including consideration of defined scenarios that have not occurred in the past.

Stress-based limits apply at several levels of the organizational hierarchy. Liquidity-adjusted stress is also the core market risk component of our combined stress test framework and therefore integral to our overall risk appetite framework.

- **Refer to "Risk appetite framework" in this section for more information**
- **Refer to "Stress testing" in this section for more information about our stress-testing framework**

Value-at-risk

VaR definition

Audited | VaR is a statistical measure of market risk, quantifying the potential market risk losses over a set time horizon (holding period) at an established level of confidence. VaR assumes no change in the Group's trading positions over the set time horizon.

We calculate VaR daily. The profit or loss distribution from which VaR is estimated is derived from our internally developed VaR model, which simulates returns over the holding period for risk factors our trading positions are sensitive to, and subsequently quantifies the profit / loss effect of these risk factor returns on our trading positions. Systematic commodity, credit, equity, foreign exchange rate and interest rate risk factor returns are based on a pure historical simulation approach. An unweighted five-year look-back window is used for the UBS Group excluding certain legacy Credit Suisse components and an exponentially weighted two-year window for the aforementioned legacy Credit Suisse components. Modeling idiosyncratic and specific risks for equity and credit risk factors using historical simulation is challenging, due to the limited availability of continuous good-quality historical data. Wherever possible, historical simulation to model-specific risk is used for the legacy Credit Suisse components; however, both traded market risk portfolios rely upon factor models to distinguish systematic and idiosyncratic returns. For the UBS Group excluding certain legacy Credit Suisse components, idiosyncratic returns are simulated through a Monte Carlo model, aggregating the sum of systematic and residual returns in such a way that systematic and residual risk are consistently captured. For the legacy Credit Suisse components, the available distribution of idiosyncratic returns is used to determine an extreme scenario for a given risk factor's specific risk; the resultant VaR and extreme scenario loss for a given risk factor are aggregated using a zero-correlation assumption.

For both the UBS Group excluding certain legacy Credit Suisse components and the aforementioned legacy Credit Suisse components, VaR models are used for internal management purposes and for determining market risk risk-weighted assets (RWA), although the two use cases consider different confidence levels and time horizons. For internal management purposes, risk limits are established and exposures measured using VaR at a 95% confidence level for the UBS Group excluding certain legacy Credit Suisse components and 98% for the aforementioned legacy Credit Suisse components, with a 1-day holding period, aligned to the way we consider the risks associated with our trading activities. The regulatory measure of market risk used to underpin the market risk capital requirements under Basel III involves a measure equivalent to a 99% confidence level using a 10-day holding period. To calculate a 10-day holding period VaR, we use 10-day risk factor returns.

The portfolio populations for management and regulatory VaR are slightly different. The one for regulatory VaR meets regulatory requirements for inclusion in regulatory VaR. Management VaR includes a broader range of positions. For example, regulatory VaR excludes credit spread risks from the securitization portfolio, which are treated instead under the securitization approach for regulatory purposes.

We also use stressed VaR (SVaR) for the calculation of market risk RWA. SVaR uses broadly the same methodology as regulatory VaR and is calculated using the same population, holding period (10-day) and confidence level (99%). For SVaR, both for the UBS Group excluding certain legacy Credit Suisse components and the aforementioned legacy Credit Suisse components, the most significant one-year period of financial stress from a historical dataset covering the period from 1 January 2007 to the present is identified. ▲

› **Refer to the 31 December 2024 Pillar 3 Report, available under "Pillar 3 disclosures" at *ubs.com/investors,* for more information about the regulatory capital calculation under the advanced internal ratings-based approach**

Management VaR for the period

The UBS Group excluding certain legacy Credit Suisse components continued to maintain generally low levels of management VaR. Average management VaR (1-day, 95% confidence level) decreased to USD 12m from USD 15m in 2024, mainly driven by the Investment Bank's Global Markets business.

Average management VaR (1-day, 98% confidence level) of the legacy Credit Suisse components decreased to USD 12m from USD 29m in 2024, driven by continued strategic migration of positions to UBS and exposure reduction in Non-core and Legacy.

1 The legacy Credit Suisse components not included in the UBS Group management VaR predominantly reflect the portfolio in Non-core and Legacy. These positions continue to be managed on legacy Credit Suisse infrastructure based on legacy Credit Suisse management VaR methodology until full migration of these positions to UBS infrastructure or the liquidation of the positions. This process is ongoing, and the management VaR of the legacy Credit Suisse components is expected to continue decreasing over time. 2 Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The minima and maxima for each level may occur on different days, and, likewise, the VaR for each business line or risk type, being driven by the extreme loss tail of the corresponding distribution of simulated profits and losses for that business line or risk type, may well be driven by different days in the historical time series, rendering invalid the simple summation of figures to arrive at the aggregate total. 3 The difference between the sum of the standalone VaR for the business divisions and Group Items and the total VaR. 4 As the minima and maxima for different business divisions and Group Items occur on different days, it is not meaningful to calculate a portfolio diversification effect.

Management value-at-risk (1-day, 98% confidence level, 2 years of historical data) of certain legacy Credit Suisse components of the business divisions and Group Items, by general market risk type[1,2]

1 The legacy Credit Suisse components not included in the UBS Group management VaR predominantly reflect the portfolio in Non-core and Legacy. These positions continue to be managed on legacy Credit Suisse infrastructure based on legacy Credit Suisse management VaR methodology until full migration of these positions to UBS infrastructure or the liquidation of the positions. This process is ongoing, and the management VaR of the legacy Credit Suisse components is expected to continue decreasing over time. 2 Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The minima and maxima for each level may occur on different days, and, likewise, the VaR for each business line or risk type, being driven by the extreme loss tail of the corresponding distribution of simulated profits and losses for that business line or risk type, may well be driven by different days in the historical time series, rendering invalid the simple summation of figures to arrive at the aggregate total. 3 The difference between the sum of the standalone VaR for the business divisions and Group Items and the total VaR. 4 As the minima and maxima for different business divisions and Group Items occur on different days, it is not meaningful to calculate a portfolio diversification effect. 5 Divisional comparative-period information has been restated for changes in business division perimeters. The Investment Bank management VaR consists of positions that we plan to retain and which were previously reported in Non-core and Legacy.

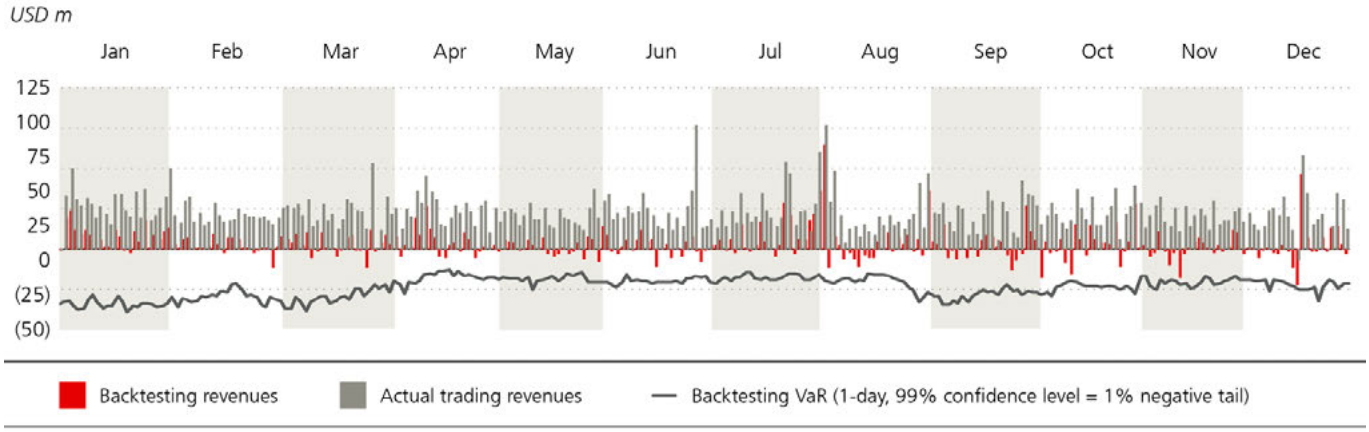
▲

VaR limitations

Audited | Actual realized market risk losses may differ from those implied by VaR for a variety of reasons.

- VaR is calibrated to a specified level of confidence and may not indicate potential losses beyond this confidence level.
- The 1-day time horizon used for VaR for internal management purposes (a 10-day horizon for regulatory VaR) may not fully capture market risk of positions that cannot be closed out or hedged within the specified period.
- In some cases, VaR calculations approximate the effect of changes in risk factors on the values of positions and portfolios.
- Effects of extreme market movements are subject to estimation errors, which may result from non-linear risk sensitivities, and the potential for actual volatility and correlation levels to differ from assumptions implicit in VaR calculations.
- The choice of a longer historical window means sudden increases in market volatility will tend not to increase VaR as quickly as the use of shorter historical observation periods, but such increases will affect VaR for a longer period of time. Similarly, after periods of increased volatility, as markets stabilize, VaR predictions will remain more conservative for a period of time, influenced by the length of the historical observation period.

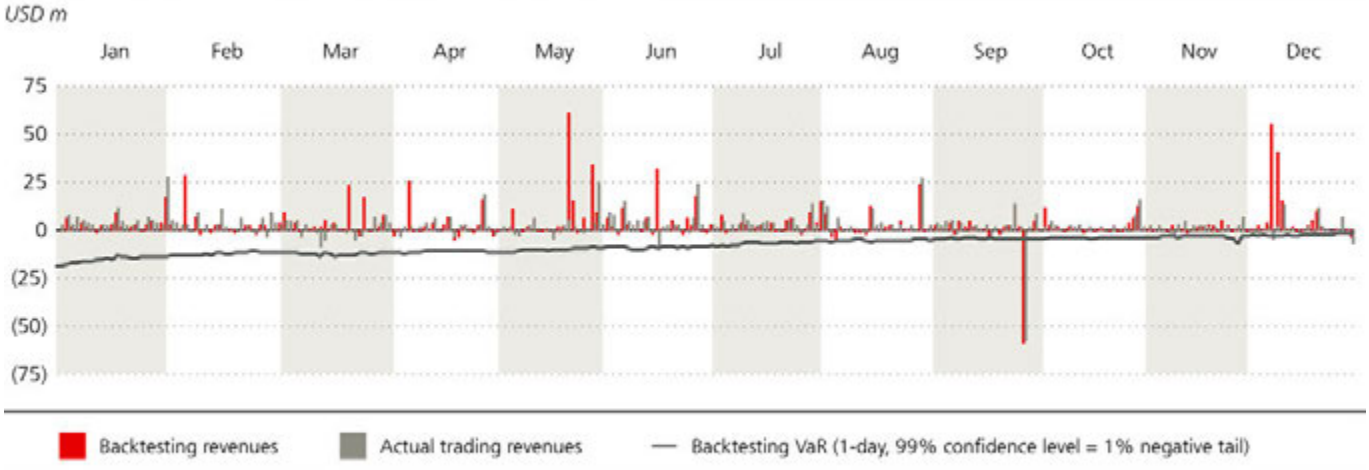
SVaR is subject to the limitations noted for VaR above, but the use of one-year datasets avoids the smoothing effect of longer datasets used for VaR. In addition, the ability to select a one-year period outside of recent market history allows for a wider variety of potential loss events. Therefore, although the significant period of stress during the 2007–2009 financial crisis is no longer contained in the look-back window used for management and regulatory VaR, SVaR continues to use that data. This approach aims to reduce the procyclicality of the regulatory capital requirements for market risks.



We recognize that no single measure can encompass all risks associated with a position or portfolio. We use a set of metrics with both overlapping and complementary characteristics to create a holistic framework that aims to ensure material completeness of risk identification and measurement. As a statistical aggregate risk measure, VaR supplements our comprehensive stress-testing framework.

We also have a framework to identify and quantify potential risks not fully captured by our VaR model and refer to such risks as risks not in VaR. The framework underpins these potential risks with additional regulatory capital. ▲

Backtesting of VaR



VaR backtesting is a performance measurement process in which a 1-day VaR prediction is compared with the realized 1-day profit or loss. We compute backtesting VaR using a 99% confidence level and 1-day holding period for the regulatory VaR population. Since 99% VaR at UBS is defined as a risk measure that operates on the lower tail of the profit or loss distribution, 99% backtesting VaR is a negative number. Backtesting revenues exclude non-trading revenues, such as valuation reserves, fees and commissions, and revenues from intraday trading, so as to provide a like-for-like comparison. A backtesting exception occurs when backtesting revenues are lower than the previous day's backtesting VaR.

The UBS Group excluding certain legacy Credit Suisse components: development of regulatory backtesting revenues[1] and actual trading revenues[2] against backtesting VaR[3] (1-day, 99% confidence level)

1 Excludes non-trading revenues, such as valuation reserves, commissions and fees, and revenues from intraday trading. 2 Includes backtesting revenues and revenues from intraday trading. 3 Based on Basel III regulatory VaR; excludes CVA positions and their eligible hedges, which are subject to the standalone CVA charge.

Legacy Credit Suisse components: development of regulatory backtesting revenues[1] and actual trading revenues[2] against backtesting VaR[3,4] (1-day, 99% confidence level)

1 Excludes non-trading revenues, such as valuation reserves, commissions and fees, and revenues from intraday trading. 2 Includes backtesting revenues and revenues from intraday trading. 3 Based on Basel III regulatory VaR; excludes CVA positions and their eligible hedges, which are subject to the standalone CVA charge. 4 One negative VaR backtesting exception was recorded for the legacy Credit Suisse components in September 2024, driven by valuation adjustments related to exit cost reserves, which does not count toward the total exceptions relevant for the capital multiplier.

Statistically, given the 99% confidence level, two or three backtesting exceptions a year can be expected. More than four exceptions could indicate that the VaR model is not performing appropriately, as could too few exceptions over a long period. However, as noted for VaR limitations above, a sudden increase (or decrease) in market volatility relative to the volatility observed in the look-back window could lead to a higher (or lower) number of exceptions. Therefore, Group-level backtesting exceptions are investigated, as are exceptional positive backtesting revenues, with the results reported to senior business management and regulators.

The UBS Group excluding certain legacy Credit Suisse components had no new negative backtesting exceptions in 2024. The number of negative backtesting exceptions within the most recent 250-business-day window remained at zero at the end of 2024.

For legacy Credit Suisse components, the number of negative backtesting exceptions within the most recent 250-business-day window remained at three at the end of 2024. This reflected three new exceptions driven by Non-core and Legacy that counted toward the total number of exceptions relevant for the capital multiplier and the roll-off of three 2023 exceptions from the 250-business-day window.

As the number of negative backtesting exceptions for both the UBS Group excluding certain legacy Credit Suisse components and the aforementioned legacy Credit Suisse components remained below five, the Swiss Financial Market Supervisory Authority (FINMA) VaR multiplier derived from negative backtesting exceptions for market risk RWA was unchanged compared with 2023, at 3.0.

VaR model confirmation

In addition to the for-regulatory-purposes backtesting described above, we conduct extended backtesting for internal model confirmation purposes. This includes observing model performance across the entire profit or loss distribution (not just the tails) and at multiple levels within the business division hierarchies.

› **Refer to "Risk measurement" in this section for more information about our approach to model confirmation procedures**

VaR model developments in 2024

Audited | In January 2024 we made two material VaR model changes to the VaR model of the UBS Group excluding certain legacy Credit Suisse components: (i) the integration of time decay into regulatory VaR and stressed VaR for derivatives with optionality; and (ii) an improvement in the profit or loss representation of derivatives with multiple underlyings. As reported in the UBS Group first quarter 2024 report, the two changes resulted in a significant increase in market risk RWA.

In the second quarter of 2024, certain components of the legacy Credit Suisse VaR model were upgraded: (i) the full-revaluation framework was extended to include interest rate and interest rate volatility risk factors; (ii) empirical correlations in the aggregation of specific risk for the price risk of fund-linked products were added; and (iii) a two-factor regression model for traded loans was introduced. These changes did not have a material impact on market risk RWA. ▲

Market-risk-related regulatory capital developments

The Basel Committee on Banking Supervision (the BCBS) final Basel III standards on the minimum capital requirements for market risk, known as the Fundamental Review of the Trading Book (the FRTB), entered into force on 1 January 2025. FINMA issued implementing ordinances to support these changes. These ordinances are effective from 1 January 2025 and provide technical details for the revised Capital Adequacy Ordinance, ensuring alignment with international standards. Key elements of the revised market risk framework include: (i) changes to the internal model-based approach, including changes to the model approval and performance measurement process; (ii) changes to the standardized approach with the aim of providing a credible fallback method for an internal model-based approach; and (iii) a revised boundary between the trading book and the banking book.

As part of going live with the FRTB, UBS has adopted the standardized approach for all FINMA-regulated legal entities, including the UBS Group.

› **Refer to "Risk-weighted assets" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the development of RWA, including the regulatory add-on**

Interest rate risk in the banking book

Sources of interest rate risk in the banking book

Audited | IRRBB arises from balance sheet positions such as Amounts due from banks, Loans and advances to customers, Financial assets at fair value not held for trading, Financial assets measured at amortized cost, Customer deposits, Debt issued measured at amortized cost, and Derivative financial instruments, including those subject to hedge accounting. Fair value changes to these positions may affect other comprehensive income (OCI) or the income statement, depending on their accounting treatment.

Our largest banking book interest rate exposures arise from customer deposits and lending products in Global Wealth Management and Personal & Corporate Banking, as well as from debt issuance, liquidity buffers and interest rate hedges in Group Treasury. The inherent interest rate risks stemming from Global Wealth Management and Personal & Corporate Banking are generally transferred to Group Treasury, to manage them centrally together with our modeled interest rate duration assigned to equity, goodwill and real estate. This makes the netting of interest rate risks across different sources possible, while leaving the originating businesses with commercial margin and volume management. The residual interest rate risk is mainly hedged with interest rate swaps, to the vast majority of which we apply hedge accounting. Short-term exposures and HQLA classified as Financial assets at fair value not held for trading are hedged with derivatives accounted for on a mark-to-market basis. Long-term fixed-rate debt issued and HQLA hedged with external interest rate swaps are designated in fair value hedge accounting relationships.

Risk management and governance

IRRBB is measured using several metrics, the most relevant of which are the following.

– EVE sensitivity to yield curve moves is calculated as changes in the present value of future cash flows irrespective of accounting treatment. These yield curve moves are also the key risk factors for statistical and stress-based measures, e.g. VaR and stress scenarios, as well as the regulatory interest rate scenarios. These are measured and reported daily. The regulatory IRRBB EVE exposure is the most adverse regulatory interest rate scenario that is netted across currencies. It excludes the sensitivity from additional tier 1 (AT1) capital instruments (as per specific FINMA requirements) and the modeled interest rate duration assigned to equity, goodwill and real estate. UBS also applies granular internal interest rate shock scenarios to its banking book positions to monitor its specific risk profile.
– Net interest income (NII) sensitivities to yield curve moves are calculated as changes of baseline NII over a set time horizon, which we internally compute by assuming interest rates in all currencies develop according to their market-implied forward rates and assuming constant business volumes and product mix and no specific management actions. The sensitivities are measured and reported monthly.

We actively manage IRRBB, with the aim of reducing the volatility of NII subject to limits and triggers for EVE and NII exposure at consolidated and significant legal entity levels.

The Group Asset and Liability Committee (the Group ALCO) and, where relevant, ALCOs at a legal entity level perform independent oversight over the management of IRRBB, which is also subject to Group Internal Audit and model governance.

› **Refer to "Group Internal Audit" in the "Corporate governance" section of this report and to "Risk measurement" in this section for more information**

Key modeling assumptions

The cash flows from customer deposits and lending products used in calculation of EVE sensitivity exclude commercial margins and other spread components, are aggregated by daily time buckets and are discounted using risk-free rates. Our external issuances are discounted using UBS's senior debt curve, and capital instruments are modeled to the first call date. NII sensitivity, which includes commercial margins, is calculated over a one-year time horizon, assuming constant balance sheet structure and volumes, and considers embedded interest rate options.

The average repricing maturity of non-maturing deposits and loans is determined via target replication portfolios designed to protect product margins. Optimal replicating portfolios are determined at granular currency- and product-specific levels by simulating and applying a real-world market rate model to historically calibrated client rate and volume models.

We use an econometric prepayment model to forecast prepayment rates on US mortgage loans in UBS Bank USA and agency mortgage-backed securities (MBSs) held in various liquidity portfolios of UBS Americas Holding LLC consolidated. These prepayment rates are used to forecast both mortgage loan and MBS balances under various macroeconomic scenarios. The prepayment model is used for a variety of purposes, including risk management and regulatory stress testing. Swiss mortgages and fixed-term deposits generally do not carry similar optionality, due to prepayment and early redemption penalties. ▲

Effect of interest rate changes on shareholders' equity and CET1 capital

The "Accounting and capital effect of changes in interest rates" table below shows the effects on shareholders' equity and CET1 capital of gains and losses from changes in interest rates in the main banking book positions. We use derivatives to hedge interest rate risks in the banking book and these reflect changes in interest rates as an immediate fair value gain or loss, recognized either in the income statement or through OCI. Where hedged items are accrual accounted, we aim to minimize accounting asymmetries by applying hedge accounting to reflect the economic hedge relationship.

In a rising rate scenario, we would have an initial decrease in shareholders' equity as a result of fair value losses on our derivatives recognized in OCI, while we would expect higher NII over time as rates increase. The effect on CET1 capital would be much lower, as gains and losses on interest rate swaps designated as cash flow hedges are not recognized for regulatory capital purposes.

Accounting and capital effect of changes in interest rates[1]

	Recognition		Shareholders' equity		CET1 capital	
	Timing	Income statement / OCI	Gains	Losses	Gains	Losses
Loans and deposits at amortized cost[2,3]	Gradual	Income statement	●	●	●	●

1 Refer to the "Reconciliation of equity under IFRS Accounting Standards to Swiss SRB common equity tier 1 capital" table in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the differences between shareholders' equity and CET1 capital. 2 For fixed-rate financial instruments, changes in interest rates affect the income statement when these instruments roll over and reprice. 3 For hedge-accounted items, a fair value adjustment is applied in line with the treatment of the hedging derivatives. 4 Excluding hedge ineffectiveness that is recognized in the income statement in accordance with IFRS Accounting Standards. 5 The fair value of the derivatives is offset by the fair value adjustment of the hedged items. Under the fair value hedge program applied to cross-currency swaps and foreign currency debt, the foreign currency basis spread is excluded from the hedge designation and accounted for through OCI, which is included in CET1.

Economic value of equity sensitivity

Audited | The EVE sensitivity in the UBS Group banking book to a +1-basis-point parallel shift in yield curves was negative USD 37.3m as of 31 December 2024, compared with negative USD 30.1m as of 31 December 2023. This excluded the sensitivity of USD 5.5m from AT1 capital instruments (as per specific FINMA requirements) in contrast to general BCBS guidance. The exposure in the banking book of the UBS Group increased in 2024, driven by net interest income stabilization initiatives.

The majority of our IRRBB is a reflection of the net asset duration that we ran to offset our modeled sensitivity of net USD 29.4m (31 December 2023: USD 24.3m) assigned to our equity, goodwill and real estate, with the aim of generating a stable NII contribution. Of this, USD 17.1m and USD 10.6m were attributable to the US dollar and the Swiss franc portfolios, respectively, (31 December 2023: USD 17.6m and USD 5.6m, respectively).

In addition to the aforementioned sensitivity, we calculate the six interest rate shock scenarios prescribed by FINMA. The "Parallel up" scenario, assuming all positions were measured at fair value, was the most severe and would have resulted in a change in EVE of negative USD 6.7bn, or 7.6%, of our tier 1 capital (31 December 2023: negative USD 5.7bn, or 6.2%), which is well below the 15% threshold as per the BCBS supervisory outlier test for high levels of IRRBB.

The immediate effect on our tier 1 capital in the "Parallel up" scenario as of 31 December 2024 would have been a decrease of approximately USD 0.9bn, or 1.0% (31 December 2023: USD 0.9bn, or 0.9%), reflecting the fact that the vast majority of our banking book is accrual accounted or subject to hedge accounting. The "Parallel up" scenario would subsequently have a positive effect on NII, assuming a constant balance sheet.

As the overall interest rate risk sensitivity shows a greater impact from slower asset repricing compared with faster liabilities repricing, the "Parallel down" scenario was the most beneficial and would have resulted in a change in EVE of positive USD 7.2bn (31 December 2023: positive USD 5.9bn) and a small positive immediate effect on our tier 1 capital.

Net interest income sensitivity

The main NII sensitivity in the banking book resides in Global Wealth Management and Personal & Corporate Banking. We assign a target duration to our investment of equity portfolio, and Group Treasury actively manages the residual IRRBB. This sensitivity is assessed using a number of scenarios assuming parallel and non-parallel shifts in yield curves, with various degrees of severity, and we have set and monitor thresholds for the NII sensitivity to immediate parallel shocks of –200 and +200 basis points under the assumption of no change to balance sheet size and product mix, stable foreign exchange rates, and no specific management action. ▲

› **Refer to the "Group performance" section of this report for more information about sensitivity to interest rate movements**

▲

Other market risk exposures

Own credit

We are exposed to changes in our own credit reflected in the valuation of financial liabilities designated at fair value when our own credit risk would be considered by market participants, except for fully collateralized liabilities or other obligations for which it is established market practice to not include an own-credit component.

- **Refer to "Note 21 Fair value measurement" in the "Consolidated financial statements" section of this report for more information about own credit**

Structural foreign exchange risk

Upon consolidation, assets and liabilities held in foreign operations are translated into US dollars at the closing foreign exchange rate on the balance sheet date. Value changes (in US dollars) of non-US-dollar assets or liabilities due to foreign exchange movements are recognized in OCI and therefore affect shareholders' equity and CET1 capital.

Group Treasury uses strategies to manage this foreign currency exposure, including matched funding of assets and liabilities and net investment hedging.

- **Refer to the "Capital, liquidity and funding, and balance sheet" section of this report for more information about our exposure to and management of structural foreign exchange risk**
- **Refer to "Note 11 Derivative instruments" in the "Consolidated financial statements" section of this report for more information about our hedges of net investments in foreign operations**

Equity investments and investment fund units

Audited | We make direct investments in a variety of entities and buy equity holdings in both listed and unlisted companies, with the aim of supporting our business activities and delivering strategic value to the firm. This includes investments in exchange and clearing house memberships, as well as minority investments in early-stage fintechs and technology companies via UBS Next. We may also make investments in funds that we manage in order to fund or seed them at inception or to demonstrate that our interests align with those of investors. We also buy, and are sometimes required by agreement or regulation to buy, securities and units from investment vehicles that we have sold to clients.

The fair value of equity investments tends to be influenced by factors specific to the individual investments. Equity investments are generally intended to be held for the medium or long term and may be subject to lock-up agreements. For these reasons, we generally do not control these exposures by using market risk measures applied to trading activities. However, such equity investments are subject to a different range of controls, including preapproval of new investments for commercial purposes by business management and Risk Control, portfolio and concentration limits, and regular monitoring and reporting to senior management. They are also included in our Group-wide statistical and stress-testing metrics, which flow into our risk appetite framework.

As of 31 December 2024, we held equity investments and investment fund units totaling USD 6.8bn (31 December 2023: USD 7.2bn), of which USD 4.5bn (31 December 2023: USD 4.8bn) was classified as Financial assets at fair value not held for trading and USD 2.3bn (31 December 2023: USD 2.4bn) as Investments in associates. ▲

- **Refer to "Note 21 Fair value measurement" and "Note 28 Interests in subsidiaries and other entities" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Note 1 Summary of material accounting policies" in the "Consolidated financial statements" section of this report for more information about the classification of financial instruments**

Debt investments

Audited | Debt investments classified as Financial assets measured at fair value through other comprehensive income as of 31 December 2024 can broadly be categorized as money market instruments and debt securities primarily held for statutory, regulatory or liquidity reasons.

The risk control framework applied to debt instruments classified as Financial assets measured at fair value through other comprehensive income depends on the nature of the instruments and the purpose for which we hold them. Our exposures may be included in market risk limits or be subject to specific monitoring and interest rate sensitivity analysis. They are also included in our Group-wide statistical and stress-testing metrics, which flow into our risk appetite framework.

Debt instruments classified as Financial assets measured at fair value through other comprehensive income had a fair value of USD 2.2bn as of 31 December 2024 (31 December 2023: USD 2.2bn). ▲

- **Refer to "Note 21 Fair value measurement" in the "Consolidated financial statements" section of this report for more information**
- **Refer to "Economic value of equity sensitivity" in this section for more information**
- **Refer to "Note 1 Summary of material accounting policies" in the "Consolidated financial statements" section of this report for more information about the classification of financial instruments**

Pension risk

We provide a number of pension plans for past and current employees, some classified as defined benefit pension plans under IFRS Accounting Standards, which can have a material effect on our equity under IFRS Accounting Standards and CET1 capital.

Pension risk is the risk that defined benefit plans' funded status might decrease, negatively affecting our capital. This can result from falls in the value of a plan's assets or in the investment returns, increases in defined benefit obligations, or combinations of the above.

Important risk factors affecting the fair value of pension plans' assets include equity market returns, interest rates, bond yields, and real estate prices. Important risk factors affecting the present value of expected future benefit payments include high-grade bond yields, interest rates, inflation rates, and life expectancy.

Pension risk is included in our Group-wide statistical and stress-testing metrics, which flow into our risk appetite framework. The potential effects are thus captured in the post-stress capital ratio calculations.

› **Refer to "Note 1 Summary of material accounting policies" and "Note 26 Post-employment benefit plans" in the "Consolidated financial statements" section of this report for more information about defined benefit plans**

UBS own share exposure

Group Treasury holds UBS Group AG shares to hedge future share delivery obligations related to employee share-based compensation awards and also holds shares purchased under the share repurchase program. In addition, the Investment Bank holds a limited number of UBS Group AG shares, primarily in its capacity as a market-maker with regard to UBS Group AG shares and related derivatives, and to hedge certain issued structured debt instruments.

› **Refer to "UBS shares" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information**

Country risk

Country risk framework

Country risk includes all country-specific events occurring in a sovereign jurisdiction that may lead to impairment of UBS's exposures. It may take the form of: (i) sovereign risk, which is the ability and willingness of a government to honor its financial commitments; (ii) transfer risk, which arises if a counterparty or issuer cannot acquire foreign currencies following a moratorium by a central bank on foreign exchange transfers; or (iii) "other" country risk. "Other" country risk may manifest itself through increased and multiple counterparty and issuer default risk (systemic risk) or through events that may affect a country's standing, such as adverse shocks affecting political stability or institutional and / or legal frameworks.

We assign a country rating to each country, which reflects our view of its creditworthiness and of the probability of a country risk event occurring. Country ratings are mapped to statistically derived default probabilities, described under "Probability of default" in this section. We use this internal analysis to set the credit ratings of governments and central banks, estimate the probability of a transfer event occurring, and establish rules on how aspects of country risk should be incorporated in counterparty ratings of non-sovereign entities domiciled in the respective country.

Country ratings are also used to define our risk appetite regarding foreign countries. A country risk limit (i.e. maximum aggregate exposure) applies to exposures to counterparties or issuers of securities and financial investments in the given foreign country. We may limit the extension of credit, transactions in traded products or positions in securities based on a country risk ceiling even if our exposure to a counterparty is otherwise acceptable.

Our country risk framework differs across the UBS Group, and alignment of approaches is part of the ongoing integration of Credit Suisse.

For internal measurement and control of country risk, we also consider the financial effect of market disruptions arising prior to, during and after a country crisis. These may take the form of a severe deterioration in a country's debt, equity or other asset markets, or a sharp depreciation of its currency. We use stress testing to assess potential financial effects of severe country or sovereign crises. This involves the developing of plausible stress scenarios for combined stress testing and the identification of countries that may potentially be subject to a crisis event, determining potential losses and making assumptions about recovery rates depending on the types of credit transactions involved and their economic importance to the affected countries.

Country risk exposure

Country risk exposure measure

The presentation of country risk follows our internal risk view, where the basis for measuring exposures depends on the product category in which we classify the exposures. In addition to the classification of exposures into banking products and traded products, covered in "Credit risk profile of the Group" in this section, for the UBS Group excluding certain legacy Credit Suisse components the trading inventory is also shown. Issuer risk on securities (such as bonds and equities) and risk relating to underlying reference assets for derivative positions are classified under trading inventory. The trading inventory is managed on a net basis, and the value of long positions is netted against that of short positions with the same underlying issuer. Net exposures are floored at zero per issuer. As a result, potentially offsetting benefits of certain hedges and short positions across issuers are not recognized.

We do not recognize any expected recovery values when reporting country exposures as exposure before hedges, except for risk-reducing effects of master netting agreements and collateral held in either cash or portfolios of diversified marketable securities, which we deduct from the potential exposure values. Within banking products and traded products, risk-reducing effects of credit protection are generally taken into account on a notional basis when determining the net of hedge exposures.

Country risk exposure allocation

In general, exposures are shown against the country of domicile of the contractual counterparty or the issuer of the security. For some counterparties whose economic substance in terms of assets or source of revenues is primarily located in a different country, the exposure is allocated to the risk domicile of those assets or revenues.

In the case of derivatives, we show the counterparty's risk potential exposure against the counterparty's country of risk (presented within traded products). In addition, risk associated with an instantaneous fall in value of underlying reference assets to zero (assuming no recovery) is shown against the country of risk of the issuer of the reference asset (presented within the trading inventory for the UBS Group excluding certain legacy Credit Suisse components only). This approach enables us to capture both counterparty and, where applicable, issuer elements of risk arising from derivatives and applies comprehensively for all derivatives, including single-name credit default swaps and other credit derivatives.

Top 20 country risk exposures

The table below shows our 20 largest country exposures by product type, excluding our home country, as of 31 December 2024 compared with 31 December 2023.

Compared with 2023, our net exposure decreased, due to an overall reduction in country risk exposures and the alignment of our country risk framework. The list of our top 20 countries remained broadly unchanged, with three new entries (Norway, Belgium and Finland) at the bottom of the list and the exposure to each of those three not exceeding USD 2.0bn. Based on the sovereign rating categories, as of 31 December 2024, 85% of our emerging market country exposure was rated investment grade, compared with 83% as of 31 December 2023.

Israel and Middle East

As of 31 December 2024, our direct country risk exposure to Israel was USD 284m, mainly from lending and collateralized over-the-counter derivatives exposure within the Investment Bank. Our direct exposure to Gulf Cooperation Council countries was USD 4.0bn. As of 31 December 2024, our direct exposure to Egypt, Jordan and Lebanon was limited, and we had no direct exposure to Iran, Iraq or Syria.

Russia

Our direct country risk exposure to Russia contributed USD 365m to our total emerging market exposure of USD 27.3bn as of 31 December 2024. This included cash account balances, loans and trade finance exposures in Non-core and Legacy and Personal & Corporate Banking. We had no material direct country risk exposure to Belarus or to Ukraine as of 31 December 2024. Potential second-order impacts, such as European energy security, continue to be monitored.

Top 20 country risk net exposures, by product type

1 Before deduction of IFRS 9 ECL allowances and provisions. 2 Trading inventory exposures are for UBS Group excluding legacy Credit Suisse components only. 3 Excluding Switzerland, supranationals, global funds and legacy Credit Suisse shipping finance exposures.

Emerging markets[1] net exposure[2], by internal UBS country rating category

USD m	31.12.24	31.12.23
Investment grade	23,170	36,851
Sub-investment grade	4,155	7,654
Total	27,325	44,505

1 We classify countries as emerging markets based on per capita GDP, historical real GDP growth, alignment with international institutions (such as the BIS, the World Bank, the IMF and the MSCI) and other factors.
2 Net of credit hedges (for banking products and for traded products); net long per issuer (for trading inventory) for the UBS Group excluding legacy Credit Suisse components only. Before deduction of IFRS 9 ECL allowances and provisions.

Sustainability and climate risk

Managing sustainability and climate risk is a key component of our corporate responsibility. We define sustainability and climate risk as the risk that we negatively impact, or are impacted by, climate change, natural capital, human rights, and other environmental and social matters. Sustainability and climate risks may manifest as credit, market, liquidity, business and non-financial risks for UBS, resulting in potential adverse financial, liability and reputational impacts.

Group Risk Control is responsible for our firm-wide sustainability and climate risk framework and the management of exposure to sustainability and climate (financial) risks on an ongoing basis as a second line of defense, while our Group Compliance, Regulatory & Governance monitors the adequacy of our control environment for non-financial risks, applying independent control and oversight. We manage sustainability and climate risk within a dedicated risk management framework.

Our sustainability and climate risk framework continues to evolve through our multi-year initiative focused on meeting regulatory requirements and enhancing core processes, such as reporting and disclosure. Overseen by senior management, the framework applies to the balance sheet, our own operations and our supply chain. It consists of four different phases: (i) risk identification and measurement; (ii) monitoring and risk appetite setting; (iii) risk management and control; and (iv) risk reporting and disclosure.

- **Refer to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information about our sustainability and climate risk framework and our investment approach**
- **Refer to "Sustainability and climate risk policy framework" in the Supplement to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Risk identification and measurement

We assess the materiality of our sustainability- and climate-driven risks and impacts on an annual basis. That is underpinned by an assessment of how these risk drivers may impact us through financial and non-financial risks (e.g. credit losses or reputational incidences resulting in lost revenues) and assessing the proximity of our activities to potential negative impacts on the environment (including climate) and human rights.

We aim to identify sustainability and climate risks at divisional and cross-divisional levels, both through the sustainability and climate risk materiality assessment mentioned above and, increasingly, by integrating them into the firm-wide traditional risk identification and measurement process.

Our risk identification methodologies collectively define our focus areas and key risk drivers. The results of these efforts contribute to our sustainability and climate risk management strategy by:

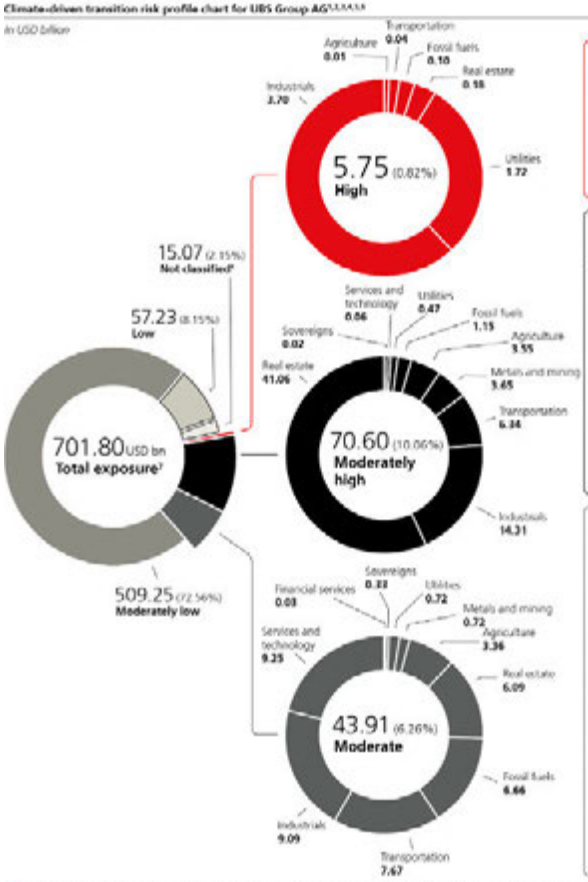
- identifying concentrations of climate-sensitive exposure that may make us vulnerable to financial and non-financial risks, facilitating resource prioritization to enhance risk quantification and subsequent management actions; and
- supporting the implementation of a client-centric business strategy, in which we support clients with their sustainability transition and identify clients who can benefit from sustainability-focused UBS products and services.

The outputs of the above processes support senior management in taking informed decisions about sustainability and climate-related risks and provides stakeholders with key information through our external disclosures.

- **Refer to "Managing sustainability and climate risks" in the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Transition risk

Climate-driven transition risks, which arise from the efforts to mitigate the effects of climate change, may contribute to a structural change across economies and consequently affect banks and the stability of the broader financial sector. These risks extend to the value of investments and may also affect the value of collateral (e.g. real estate).



In 2024, UBS developed a transition risk rating model (the TR RM), which is aligned with the transition risk heatmap (the TR H) and designed to provide a company-level rating of transition risk, where input data is available. The TR RM mainly relies on two inputs: (i) the output of the TR H and (ii) the corporate transition assessment scorecard (the CTAS), an internal UBS tool that systematically categorizes listed companies based on publicly available data from external third-party data sources into climate transition readiness categories. Whenever the CTAS does not provide an assessment for a company, the model falls back to an existing TR H.

The climate transition risk profile chart shows that, at the end of 2024, the exposure of the UBS Group to climate-sensitive sectors and related business activities has decreased due to an accelerated wind-down of Non-core and Legacy corporate exposures. Climate-driven transition-risk-sensitive exposure accounted for 17.1% of the total gross lending exposure, down from 19.2% in 2023. The key sectors contributing to sensitive exposure were the same as for 2023, i.e. real estate, industrials and transportation. Compared with 2023, our sensitive exposure to the Services and technology sector increased, in line with a methodology change where certain business activities that were previously rated non-sensitive are now rated sensitive due to increased reliance on artificial intelligence (AI) and data center operations requiring higher use of power.

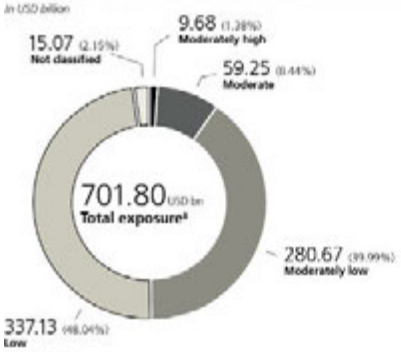
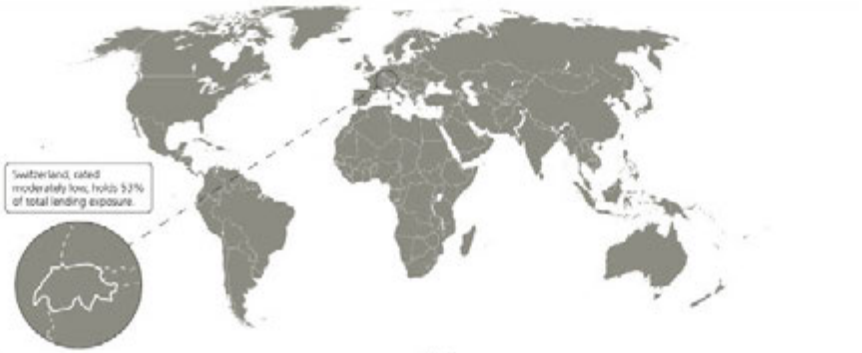
1 Gross lending exposure consists of total on-balance sheet loans and advances to customers and off-balance sheet guarantees and irrevocable loan commitments (within the scope of expected credit loss) and is based on consolidated IFRS numbers (inclusive of purchase price allocation adjustments recorded in the UBS Group as a result of the acquisition of Credit Suisse in compliance with IFRS 3, Business Combinations). 2 UBS continues to collaborate to resolve methodological and data challenges, and seeks to integrate both impacts to and dependency on a changing natural and climate environment in how it evaluates risks and opportunities. 3 Climate risks are scored between 0 and 1, based on sustainability and climate risk transmission channels. Risk ratings represent a range of scores across five rating categories: low, moderately low, moderate, moderately high, and high. The climate-sensitive exposure metrics are determined based upon the top three of the five rated categories (i.e. moderate to high). 4 Methodologies for assessing climate-related risks are emerging and may change over time. As the methodologies, tools and data availability improve, we will further develop our risk identification and measurement approaches. The Lombard lending rating is assigned based on the average riskiness of collateral. 5 Over the last year, the UBS Group continued its efforts to integrate Credit Suisse systems and data. As a result, the metric calculation process benefits from data enhancements even when the methodology remains the same year on year. At the same time, integration work is ongoing and expected to bring in further data alignment in future which may require restatements of reported metrics. 6 As transition and physical risk rating models and Physical Risk Heatmap Model are embedded further into the risk management framework, we may identify new use cases that could trigger validation of the model for identified use cases and associated enhancements. 7 Not classified represents the portion of UBS's business activities where methodologies and data are not yet able to provide a rating.

Physical risk

Climate-driven physical risks arise from acute hazards, which are increasing in severity and frequency, and chronic climate risks arise from an incrementally changing climate. Climate-driven physical risks may contribute to a structural change across economies and consequently affect banks and the stability of the broader financial sector. These risks extend to the value of investments and may also affect the value of collateral (e.g. real estate).



In 2024, UBS developed a physical risk rating model (the PR RM), which is aligned with the physical risk heatmap model (the PR HM). The PR RM is designed to provide a company-level indication of physical risk while both models are designed to provide the UBS Group's exposure to climate-driven physical risks. The PR RM and PR HM measure how four acute physical risk hazards (i.e. wildfires, heatwaves, floods and tropical cyclones) may drive physical risk of companies.



The climate physical risk profile chart shows that, at the end of 2024, the exposure of the UBS Group to climate-sensitive sectors and related business activities decreased, due to the accelerated wind-down of Non-core and Legacy corporate exposures. Climate-driven physical-risk-sensitive exposure accounted for 9.8% of the total gross lending exposure, down from 11.7% in 2023. Geographically, the majority of the sensitive exposure is from the Americas region, followed by Switzerland and other geographical locations. Most of the year-on-year reduction in sensitive exposure is due to the wind-down of Non-core and Legacy exposure in the Americas region. At the Group level, most of the climate-sensitive physical risk exposure is located in countries that have a relatively high adaptive capacity to manage physical risk hazards, resulting in a moderately low risk profile at the regional level.

1 Gross lending exposure consists of total on-balance sheet loans and advances to customers and off-balance sheet guarantees and irrevocable loan commitments (within the scope of expected credit loss) and is based on consolidated IFRS numbers (inclusive of purchase price allocation adjustments recorded in the UBS Group as a result of the acquisition of Credit Suisse in compliance with IFRS 3, Business Combinations). 2 UBS continues to collaborate to resolve methodological and data challenges and seeks to integrate both impacts to and dependency on a changing natural and climate environment, in how it evaluates risks and opportunities. 3 Climate risks are scored between 0 and 1, based on sustainability and climate risk transmission channels. Risk ratings represent a range of scores across five rating categories: low, moderately low, moderate, moderately high, and high. The climate-sensitive exposure metrics are determined based upon the top three of the five rated categories i.e. moderate to high. 4 Methodologies for assessing climate-related risks are emerging and may change over time. As the methodologies, tools and data availability improve, we will further develop our risk identification and measurement approaches. The Lombard lending rating is assigned based on the average riskiness of collateral. 5 The world map is colour-coded to reflect the exposure-weighted average physical risk rating of a given region. Countries are grouped into regions according to the UBS Country and Region Data Standard. 6 Over the last year, the UBS Group continued its efforts to integrate Credit Suisse systems and data. As a result, the metric calculation process benefits from data enhancement even when the methodology remains the same year on year. At the same time, integration work is ongoing and expected to bring in further data alignment in future which may require restatement of reported metrics. 7 As Transition and Physical Risk Rating Models and Physical Risk Heatmap Model are embedded further into the risk management framework, we may identify new use cases that could trigger validation of the model for identified use cases and associated enhancements. 8 Not classified represents the portion of UBS's business activities where methodologies and data are not yet able to provide a rating. 9 The Switzerland region includes a trivial exposure (<1%) booked in Liechtenstein. 10 "Others" region includes exposure to countries not available, global funds and multilateral institutions.

Climate scenario analysis

We use scenario-based approaches to assess our exposure to physical and transition risks stemming from climate change. We have introduced several in-house assessments, facilitated by industry collaboration, to tailor approaches for addressing methodological and data challenges. We have utilized dedicated risk models incorporating systematic and idiosyncratic effects to carry out stress-testing exercises covering short-, medium- and long-term time horizons.

The work performed includes regulatory scenario analysis and stress-testing exercises such as the Bank of England's 2021 Climate Biennial Exploratory Scenario and the 2022 Climate Risk Stress Test of the European Central Bank, which assess banks' preparedness for dealing with financial and economic shocks stemming from climate risk; and the 2024 Swiss Financial Market Supervisory Authority (FINMA) / Swiss National Bank climate scenario analysis exercise. These exercises facilitated the identification of financial risks from climate change and enabled UBS to assess management actions in response to different scenario results and to perform a counterparty-level analysis. While these exercises showed mild losses and low exposure to climate risk for the in-scope entities, given the limited impact on the macroeconomic financial environment, the analysis enabled UBS to enhance climate risk scenario analysis and stress testing, further developing its capabilities for assessing risks and vulnerabilities from climate change.

In 2024, we further advanced our capabilities surrounding internal climate risk scenario analysis and stress testing for the UBS Group. We refined and expanded our internal climate risk scenarios, with a focus on both transition and physical risk projections across 30 years. In addition, we developed additional climate risk methodologies to enhance and broaden portfolio coverage.

Over the last few years, we have also leveraged industry-wide initiatives, such as the Paris Agreement Capital Transition Assessment exercise launched by the Swiss Federal Office for the Environment in 2020, 2022 and 2024. Through this exercise, we assessed the climate alignment of our listed investments (including equities and bonds), mortgages and direct real estate portfolios. The assessment enabled us to compare our results with the aggregated performance of the portfolios of all participating banks, showing the progress made over time and the efforts still needed.

› **Refer to "Managing sustainability and climate risks" in the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

Monitoring and risk appetite setting

Our sustainability and climate risk policy framework defines the qualitative and quantitative risk appetite for sustainability and climate risk and is subject to periodic updates and enhancements.

› **Refer to "Sustainability and Climate Risk Management Framework" in the supplement to the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

As a part of the sustainability and climate risk monitoring process, we have developed methodologies and metrics to assess our continued exposure to carbon-related assets and climate-related risk-sensitive sectors. When developing our metrics, we consider the inputs and guidance provided by standard-setting organizations, as well as new or enhanced regulatory requirements for climate disclosures. In 2024, we continued working on methodologies covering climate-driven transition physical risks.

› **Refer to "Climate-related materiality assessment" in the UBS Group Sustainability Report 2024, available under "Annual reporting" at *ubs.com/investors*, for more information**

The table below includes climate-related risk metrics for UBS Group, UBS AG on a standalone basis, as well as for UBS Switzerland AG and UBS Europe SE, both on a standalone basis. The trend analysis of exposure is available, starting from 2023, as UBS Group exposures were reported on a consolidated basis after the integration of Credit Suisse.

The proportion of the UBS Group's total gross lending exposure accounted for by carbon-related assets decreased to 10.9% in 2024 compared with 12.1% in 2023. The UBS Group metrics were reported on a consolidated basis, including Credit Suisse exposures starting in 2023.

Following the mergers of UBS AG and Credit Suisse AG in May 2024 and of UBS Switzerland AG and Credit Suisse (Schweiz) AG in July 2024, the total gross lending exposures of UBS AG standalone and UBS Switzerland AG have increased due to the inclusion of legacy Credit Suisse exposure. Consequently, the climate-driven transition risk, physical-risk-sensitive exposure and carbon-related assets have increased on an absolute basis, as expected.

Risk management – Climate-related metrics

	For the year ended		% change from
	31.12.24	31.12.23	31.12.23
Climate-related metrics (USD bn)[1, 2, 3, 4]			
Carbon-related assets: UBS Group AG consolidated[1, 2, 3, 4, 5, 6]	76.5	93.9	(18.5)
Carbon-related assets proportion of total gross lending exposure, UBS Group AG consolidated (%)[1, 2, 3, 4, 5, 6]	*10.9*	*12.1*	
Carbon-related assets: UBS AG (standalone)[1, 2, 3, 4, 5, 6]	*30.3*	*9.2*	*228.3*
Carbon-related assets: UBS Switzerland AG (standalone)[1, 2, 3, 4, 5, 6]	*46.6*	*27.4*	*69.8*
Carbon-related assets: UBS Europe SE (standalone)[1, 2, 3, 4, 5, 6]	*0.0*	*0.0*	*0.0*
Total exposure to climate-sensitive sectors, transition risk, UBS Group AG consolidated[1, 2, 3, 4, 6, 7, 8]	120.3	149.0	(19.3)
Climate-sensitive sectors, transition risk, proportion of total gross lending exposure, UBS Group AG consolidated (%)[1, 2, 3, 4, 6, 7, 8]	*17.1*	*19.2*	
Total exposure to climate-sensitive sectors, transition risk, UBS AG (standalone)[1, 2, 3, 4, 6, 7, 8]	*36.6*	*12.8*	*186.4*
Total exposure to climate-sensitive sectors, transition risk, UBS Switzerland AG (standalone)[1, 2, 3, 4, 6, 7, 8]	*83.0*	*49.8*	*66.6*
Total exposure to climate-sensitive sectors, transition risk, UBS Europe SE (standalone)[1, 2, 3, 4, 6, 7, 8]	*0.0*	*0.0*	*0.0*
Exposure to climate-sensitive sectors, transition risk, Traded products, UBS Group AG consolidated[1, 2, 3, 4, 7, 8, 9]	2.1		
Exposure to climate-sensitive sectors, transition risk, Issuer risk, UBS Group AG consolidated[1, 2, 3, 4, 7, 8, 10]	6.8		
Total exposure to climate-sensitive sectors, physical risk, UBS Group AG consolidated[1, 2, 3, 4, 6,7,8]	68.9	90.7	(24.0)
Climate-sensitive sectors, physical risk, proportion of total gross lending exposure, UBS Group AG consolidated (%)[1, 2, 3, 4, 6, 7, 8]	*9.8*	*11.7*	
Total exposure to climate-sensitive sectors, physical risk, UBS AG (standalone)[1, 2, 3, 4, 6, 7, 8]	*65.7*	*52.5*	*25.2*
Total exposure to climate-sensitive sectors, physical risk, UBS Switzerland AG (standalone)[1, 2, 3, 4, 6, 7, 8]	*22.6*	*15.1*	*50.0*
Total exposure to climate-sensitive sectors, physical risk, UBS Europe SE (standalone)[1, 2, 3, 4, 6, 7, 8]	*0.0*	*0.0*	*0.0*
Exposure to climate-sensitive sectors, physical risk, Traded products, UBS Group AG consolidated[1, 2, 3, 4, 7, 8, 9]	3.3		
Exposure to climate-sensitive sectors, physical risk, Issuer risk, UBS Group AG consolidated[1, 2, 3, 4, 7, 8, 10]	12.6		

1 Methodologies for assessing climate-related risks are emerging and may change over time. As the methodologies, tools and data availability improve, we will further develop our risk identification and measurement approaches. Lombard lending rating is assigned based on the average riskiness of collateral. **2** Metrics for 2023 are recalculated and restated based on the 2024 methodology for comparison purpose. Percentage change is calculated based on the full underlying exposure, which may result in small deviations when calculated using reported figures that are rounded to one decimal. **3** Over the last year, the UBS Group continued its effort to integrate Credit Suisse systems and data. As a result, the metric calculation process benefits from data enhancement even when the methodology remains the same year on year. At the same time, integration work is ongoing and expected to bring in further data alignment in future, which may require restatement of reported metrics. **4** UBS continues to collaborate to resolve methodological and industry data challenges, and seeks to integrate both impacts to and dependencies on a changing natural and climatic environment, into how UBS evaluates its risks and opportunities. **5** As defined by the Task Force on Climate-related Financial Disclosures (the TCFD), in its expanded definition published in 2021, UBS defines carbon-related assets through industry-identifying attributes of the firm's banking book. UBS further includes the four non-financial sectors addressed by the TCFD, including, but not limited to, fossil fuel extraction, carbon-based power generation, transportation (air, sea, rail, and auto manufacture), metals production and mining, manufacturing industries, real estate development, chemicals, petrochemicals, and pharmaceuticals, building and construction materials and activities, forestry, agriculture, fishing, food and beverage production, including trading companies that may trade any of the above (e.g. oil trading or agricultural commodity trading companies). This metric is agnostic of risk rating, and therefore may include exposures of companies that may be already transitioning or adapting their business models to climate risks, unlike UBS climate-sensitive sectors methodology, which takes a risk-based approach to defining material exposure to climate impacts. **6** Gross lending exposure consists of total on balance sheet loans and advances to customers and off-balance sheet guarantees and irrevocable loan commitments (within the scope of expected credit loss) and is based on consolidated IFRS numbers (inclusive of purchase price allocation adjustments recorded in UBS Group as a result of the acquisition of Credit Suisse in compliance with IFRS 3, Business Combinations). **7** Climate-related risks are scored between 0 and 1, based on sustainability and climate risk transmission channels. Risk ratings represent a range of scores across five rating categories: low, moderately low, moderate, moderately high, and high. The climate-sensitive exposure metrics are determined based upon the top three of the five rated categories, i.e. moderate to high. **8** As the transition and physical risk rating models and physical risk heatmap model are embedded further into the risk management framework, we may identify new use cases that could trigger validation of the model for identified use cases and associated enhancements. As a consequence, restatement of reported metrics may be required. **9** For traded products, the metric is calculated using over-the-counter (OTC) derivatives, exchange-traded derivatives (ETDs) and securities financing transactions (SFTs), consisting of securities borrowing and lending, and repurchase and reverse repurchase agreements. **10** For issuer risk, the metric is calculated upon HQLA assets, debt securities, bonds, liquidity buffer securities. After the parent bank merger, the issuer risk in legacy Credit Suisse entities is less than 4% of overall UBS Group and considered non-material and excluded from reported metrics.

Non-financial risk

Compliance risk, financial crime risk and operational risk are independently overseen by Group Compliance, Regulatory & Governance (GCRG) and are covered in this section. Legal risk is overseen by Group Legal. Reputational risk is managed by the business divisions and Group functions and overseen by control functions.

› **Refer to "Top and emerging risks" in this section for more information about legal risk**

Compliance risk

Achieving fair outcomes for our clients, upholding market integrity and cultivating the highest standards of employee conduct are of critical importance to us. Therefore, we maintain a conduct risk framework across our activities, which is designed to align our standards and conduct with these objectives and to retain momentum on fostering a strong culture.

Suitability risk, product selection, cross-divisional service offerings, quality of advice and price transparency continue to be areas of heightened focus for UBS and for the industry as a whole. Cross-border risk (including the risk of unintended permanent establishment) remains an area of regulatory attention for global financial institutions, including a focus on market access, such as third-country market access into the European Economic Area. We maintain a series of controls designed to address these risks, and we are increasing the number of automated controls, thereby increasing overall control coverage.

Reputational risk, regulatory fragmentation related to environmental, social and governance topics, and the elevated risk of greenwashing arising from our service offering, disclosures and commitments remain key risks for 2025.

› **Refer to "Top and emerging risks" in this section for more information**

Financial crime risk

Financial crime, including money laundering, terrorist financing, sanctions violations, fraud, bribery and corruption, presents a major risk, as technological innovation and geopolitical developments increase the complexity of doing business and heightened regulatory attention continues.

An effective financial crime prevention program therefore remains essential, and we continue to focus on strategic enhancements to our global anti-money-laundering, know-your-client and sanctions programs. Money laundering and financial fraud techniques are becoming increasingly sophisticated, and geopolitical volatility makes the sanctions landscape more complex. The extensive and continuously evolving sanctions arising from the Russia–Ukraine war require constant attention to manage circumvention risks, while conflicts in the Middle East may further increase terrorist-financing risks.

› **Refer to "Top and emerging risks" in this section for more information**

Operational risk

There is an increased risk of cyber-related operational disruption to business activities at our locations and / or those of third-party suppliers due to operating a more complex set of legal entities since the acquisition of Credit Suisse and the increasingly dynamic threat environment, which is intensified by current geopolitical factors and evidenced by continuing high volumes of, and the increasing sophistication of, cyberattacks against financial institutions globally and on third-party service providers.

We remain on heightened alert to respond to and mitigate elevated cyber- and information-security threats, and continue to invest in improving our technology infrastructure and information-security governance to improve our defense, detection and response capabilities against attacks. In addition, we are implementing a global framework designed to drive enhancements in operational resilience across all business divisions and relevant jurisdictions, as well as working with the third-party service providers that are of critical importance to our operations to assess their operational resilience against our standards.

The increasing interest in data-driven advisory processes and the use of artificial intelligence (AI) and machine learning are opening up new questions related to the fairness of AI algorithms, data life-cycle management, data ethics, data privacy and security, and records management.

Legal entity integration, including that of existing Credit Suisse businesses, and the closing of legacy businesses introduce operational complexity and the risk that businesses in wind-down are not effectively managed. These risks continue to be carefully monitored in addition to the delivery of consolidated financial and regulatory reporting submissions.

› **Refer to "Top and emerging risks" in this section for more information**

Non-financial risk framework

We follow a Group-wide non-financial risk framework that establishes requirements for identifying, controlling, managing, assessing and mitigating compliance risk, financial crime risk and operational risk to maintain the safety and soundness of the firm and to protect its financial position and reputation. The framework is built on the following pillars:
– classifying inherent risks through 19 non-financial risk taxonomies, which define the universe of non-financial risks that can arise as a consequence of our business activities and external factors;
– performing control assurance activities, including self-assessing the design and operating effectiveness of controls, first- and second-line-of-defense control reviews, and independent control testing;
– defining the non-financial risk appetite (including relevant indicators for each non-financial risk taxonomy) and assessing risk exposure against appetite;
– assessing inherent and residual risk through risk assessment processes and determining whether additional remediation plans are required to address identified deficiencies; and
– proactively and sustainably remediating identified control deficiencies.

Reputational risk is an integral part of the non-financial risk framework. It is one of the key impacts of non-financial risk, alongside regulatory and financial risks.

Divisional Presidents are accountable for the effectiveness of non-financial risk management and for the robustness of the front-to-back control environment within their business divisions, and legal-entity-responsible executives are in charge of non-financial risk management within their legal entities. Group function heads are accountable for supporting the divisional Presidents and legal-entity-responsible executives of our legal entities in the discharge of this responsibility, by confirming completeness and effectiveness of the control environment and non-financial risk management within their Group functions. Collectively, divisional Presidents, central Group function heads and legal-entity-responsible executives are in charge of implementing the non-financial risk framework.

GCRG owns the firm's non-financial risk framework, and it is responsible for providing an independent and objective view of the adequacy of non-financial risk management across the Group and ensuring that compliance risk, financial crime risk and operational risk are understood, owned and managed in accordance with our risk appetite. Compliance & Operational Risk Control (C&ORC) business- or function-aligned teams are embedded within the GCRG function, reporting to the Group Chief Compliance and Governance Officer, who is a member of the Group Executive Board (the GEB).

The non-financial risk framework forms the common basis for managing and assessing compliance risk, financial crime risk and operational risk, and there are additional C&ORC activities intended to ensure we are able to demonstrate compliance with applicable laws, rules and regulations.

All functions within UBS are required to periodically assess the design and operating effectiveness of key internal non-financial risk controls.

Key control deficiencies identified during the internal control and risk assessment processes must be reported in the non-financial risk inventory, and sustainable remediation must be defined and executed. These control deficiencies are assigned to owners at senior management level and the remediation progress is reflected in the respective managers' annual performance measurement and objectives. To assist with prioritizing the most material control deficiencies and measuring aggregated risk exposure, irrespective of origin, a common rating methodology is applied across all three lines of defense, as well as by external audit.

In 2024, we focused on finalizing the rollout of the framework to the combined organization and ensuring adherence to the framework standards. We continue to improve effectiveness by simplifying and automating non-financial risk framework-related processes.

Reputational risk management

Our reputation is ultimately defined by our ability to adhere to the three keys: our *Pillars*, *Principles* and *Behaviors*. In accordance with our Code of Conduct and Ethics, it is the responsibility of the Board of Directors (the BoD) and each employee to refrain from any conduct which may pose a risk to our reputation.

All employees are responsible for carefully evaluating the reputational risks involved in all business activities. Reputational risk is considered as part of standard risk identification and assessment processes governed by relevant frameworks relating to new and existing clients, transactions, products and services. The business divisions and Group functions have primary responsibility for identifying, assessing and managing reputational risk. The control functions are responsible for providing independent oversight and challenge and must raise their concerns if they disagree with the assessment of the business divisions or Group functions of any reputational risk. For instances where the inherent reputational risk is determined to be high, these cases must be escalated to the relevant divisional management team for review and decision. At the discretion of those teams, cases may also be presented to the GEB for further evaluation and decision through the respective divisional President.

Cybersecurity and information security

Risk management and strategy

Cybersecurity and information-security (CIS) risk is the risk that a malicious internal or external act, or a failure of IT hardware or software, or human error may have a material impact on confidentiality, integrity, or availability of UBS's data or information systems.

CIS risk is a key operational risk facing UBS, and we devote considerable resources to establishing and maintaining processes for assessing, identifying and managing CIS risk through our global workforce and cyber-operations centers around the world.

› **Refer to "Risk governance" in this section for information about our risk governance framework**

Governance

In line with our overall non-financial risk management framework, we take a cross-functional approach to addressing CIS risk, with the Group Operations and Technology Office (GOTO), business divisions, GCRG, Group Risk Control, Group Legal, and Group Internal Audit all playing key roles. Our risk control framework follows the three-lines-of-defense model. GOTO establishes the policies and procedures designed to safeguard our information systems and the information those systems collect and process. The business divisions, together with GOTO, are then responsible for implementing those policies and procedures as part of the first line of defense. GCRG leads the second line of defense, by convening and consulting with additional control functions to provide independent oversight, and challenges the first line's CIS framework and implementation. As the third line of defense, Group Internal Audit conducts independent reviews and validates the first-line and second-line processes and functions.

The Cyber and Information Security Committee (the CIS-C) is the primary decision-making body with oversight of and accountability for the Group-wide CIS program. The committee is jointly chaired by the Group Chief Operations and Technology Officer and the Group Chief Compliance and Governance Officer. The Head Group Internal Audit is a permanent guest. The committee meets on a monthly basis and serves as a platform for interaction across the three lines of defense for the identification and effective governance of CIS strategy, risks and regulatory obligations. The CIS-C governance structure is intended to streamline decision-making and, where necessary, escalation to the BoD and the GEB.

Following the merger of UBS AG and Credit Suisse AG on 31 May 2024, UBS established a unified governance structure and consolidated CIS leadership under a single Group Chief Information Security Officer (Group CISO) function. This unified governance ensures that consistent and robust security measures are embedded across the entire organization. Consequently, the role of the Credit Suisse Chief Information Security Officer has been dissolved, and all CIS responsibilities are now managed centrally by the Group CISO. We have raised the profile and highlighted the role of our regional CISOs to better position our ability to engage with regulators and other key stakeholders. All regional CISOs now report directly to the Group CISO.

› **Refer to "Cybersecurity governance" in "Board of Directors" in the "Corporate governance" section of this report for more information**

CIS program

Our CIS program is led by the Group CISO, who reports both to the Group Chief Operations and Technology Officer and the Group Chief Compliance and Governance Officer. The CIS program is designed to identify, prevent, detect and respond to CIS events, with the goal of maintaining the integrity and availability of our technology infrastructure and the confidentiality and integrity of our information. Our Group CISO, senior management within GOTO and management personnel overseeing the CIS program all have substantial relevant expertise in the areas of cybersecurity and information security. Our CIS program includes the following elements:

- *Threat intelligence:* We systematically gather threat information and monitor threat alerts from external sources. Our cyber-threat intelligence team analyzes such information and uses it to enhance existing defense capabilities, to respond to identified threats and to adjust our CIS strategy where needed. In 2024, the team's remit was expanded to include providing research, analysis and advice on CIS risks associated with emerging technologies, including AI.
- *Preventative and detection controls:* We use layered firm-wide controls to prevent and detect cyberattacks. Defenses include system hardening, firewalls, intrusion prevention and detection systems, and other controls. External network connections are identified and recorded in an inventory. Access rights are defined for information assets, and IT systems and applications enforce authentication. We maintain access controls and approval processes designed to prevent unauthorized access.
- *Cyber-defense and incident response capabilities*: The Cybersecurity Operations Center is responsible for providing 24/7/365 real-time monitoring, detection and response capabilities for cyberattacks and acting as the primary interface for cybersecurity events. Incidents assessed as having the potential to adversely affect our critical operations are subject to mandatory management notification. If assessed as potentially significant, cybersecurity and data incidents are managed under our crisis management framework.
- *Education and training:* All UBS staff, including the external workforce, receive appropriate CIS awareness training, commensurate with their roles and responsibilities.

– *Third-party risk:* Vulnerabilities in the cyber-risk environment of third parties represent a particular threat to our CIS and our ability to maintain our business services. We follow a risk-based approach to assess and mitigate CIS risks related to third parties. Third-party services and processes are monitored and checked on an ongoing basis, with appropriate supervision from the CIS-C. This is a key component of our third-party risk management program, notwithstanding the challenges we face in imposing the same levels of protection to the systems and data of third parties that we rely on ourselves.
– *Monitoring and testing:* Effective incident response and problem management processes are complemented by vulnerability assessments, penetration and testing engagements based on specific threat scenarios that simulate tactics, techniques and procedures that might be used against our systems, as mandated by our policy regulations. This includes testing by internal and external red teams (simulating attacks by potential adversaries). Actual security-related events are directly correlated with threat scenarios to monitor and detect potential threats, such as network-intrusion and malware-driven events. Our deployed security measures are designed with the objective of isolating and containing threats that are detected to allow for effective incident response and analysis.

CIS assessment framework

Our CIS assessment framework includes internal and external cybersecurity risk assessments for applications and bank processes alongside a structured risk assessment process of third-party service providers. These processes are designed, along with our security capabilities, to support business objectives and priorities.

We conduct assessments to evaluate and test our CIS program and provide guidance on operating and improving the program, including the design and operational effectiveness of the security and resiliency of our information systems. Our assessments, along with our threat intelligence capabilities, are used to assess and prioritize programs to improve our security, our incident response capabilities and our operational resilience. As the cyber-threat landscape evolves at an increasing pace, we seek to enhance our CIS controls to meet developing threats. We have ongoing programs that are intended to increase our CIS maturity across various dimensions, including governance, identification, protection and detection, as well as cyberattack response and recovery, and risk from third-party service providers.

We recognize that we will never be able to completely eliminate the risk of a future cyberattack, but, by using a risk-based approach, we work toward reducing the likelihood of a successful attack and toward mitigation of the potential business impact of such an attack.

The BoD, its Risk Committee and the GEB receive regular presentations and reports throughout the year from our Group Chief Operations and Technology Officer and our Group CISO on internal and external CIS developments, threats and risks. In addition, on a quarterly basis, the BoD receives reports on the performance of CIS risk appetite metrics, including metrics on vulnerabilities and third-party CIS risks and incidents, and is notified promptly if a Board-level CIS risk limit is breached. The Risk Committee of the BoD and the GEB also receive regular updates on CIS strategy, risks and alignment with regulatory requirements.

Operational resilience and incident response

Our business continuity and resilience framework is designed to limit the disruption CIS events cause to our business activities. In accordance with the firm's cyber-incident response framework, the CIS-C, including the incident response team, tracks, documents, responds to and analyzes CIS threats and incidents, including those experienced by the firm's third-party service providers that may impact the firm. Additionally, we maintain established procedures for responding to, and escalating, CIS and other system availability incidents. These are regularly practiced, including tabletop exercises up to and including the Group Crisis Task Force.

Our CIS and data confidentiality contingency plans include event playbooks and escalation procedures designed to support a structured assessment of potential incidents and timely escalation and reporting of incidents based on the assessed potential impact. Incidents assessed to have the potential to adversely affect our critical operations are subject to mandatory management notification. If assessed as potentially significant, cybersecurity and data incidents are managed under our crisis management framework, which provides pre-established cross-functional task forces to manage the incident, ensure appropriate and timely regulatory, market and client communications and robust oversight by management, with escalation frameworks to inform and ensure oversight by the GEB and the BoD.

› **Refer to "Crisis management framework" in the "Regulation and supervision" section of this report for more information about our crisis management framework**

Non-financial risk capital measurement

The non-financial risk framework underpins the calculation of regulatory capital for operational risk, which enables us to quantify operational risk and define effective risk-mitigating management incentives as part of the related operational risk capital allocation approach to the business divisions.

In 2024, we measured non-financial risk exposure and calculated operational risk regulatory capital using the advanced measurement approach (AMA) in accordance with Swiss Financial Market Supervisory Authority (FINMA) and international requirements. As reported in the UBS Group Annual Report 2023, total operational-risk-related risk-weighted assets (RWA) are derived by an aggregation of the respective AMA models of UBS and legacy Credit Suisse, taking into account a related diversification effect as agreed with FINMA.

An entity-specific AMA model has been applied for UBS Switzerland AG, which has included a similar relative diversification benefit since the merger with Credit Suisse (Schweiz) AG. For other regulated entities, the basic indicators or standardized approaches are adopted for regulatory capital in agreement with local regulators. The UBS AMA model methodology continues to be leveraged for internal capital adequacy assessment processes and further supports risk identification and related assessments for non-financial risks.

The AMA models are reviewed regularly to maintain risk sensitivity and recalibrated at least annually. Furthermore, the models are subject to an independent validation performed by Model Risk Management & Control in line with our model risk management framework.

For model calibration purposes, and in line with regulatory expectations, the AMA capital model methodology utilizes both historical internal losses and external losses suffered by the broader industry. Initial model outputs driven by the loss history are reviewed and adjusted to reflect fast-changing external developments, such as new regulations, geopolitical change, volatile market and economic conditions, and internal factors (e.g. changes in business strategy and control framework enhancements). The resulting baseline data-driven frequency and severity distributions are reviewed by subject matter experts and where necessary adjusted based on a review of qualitative information about the business environment and internal control factors, as well as expert judgment, with the aim of forecasting losses. Any changes to regulatory capital as a result of a recalibration or methodology changes are subject to FINMA approval.

The AMA was replaced by the standardized approach for determining regulatory capital on 1 January 2025, in line with the final Basel Committee on Banking Supervision (BCBS) Basel III standards. The adoption of the standardized approach is expected to lead to a USD 7bn decrease in operational risk RWA to USD 138bn from USD 145bn under the AMA. We will report RWA under the revised framework for the first time in the first quarter of 2025, and we will provide an update in our first quarter 2025 report on further improvements from mitigating actions and our dialogue with FINMA regarding various aspects of the final Basel III rules.

› **Refer to "Risk-weighted assets" in the "Capital, liquidity and funding, and balance sheet" section of this report for more information about the capital impacts from the adoption of the final Basel III standards on 1 January 2025**

Although the AMA capital model is being replaced for regulatory capital reporting activities, we will continue to maintain a non-financial risk measurement model, closely aligned with the historical UBS AMA calibration and governance practices. The related model has been refined and enhanced to reflect the full risk exposures after the acquisition of the Credit Suisse Group and to support broader internal usage as referenced.

Model risk

Main sources of model risk

We rely on models to inform risk management and control decisions, to measure risks or exposures, to value instruments or positions, to conduct stress testing, to assess adequacy of capital, and to manage clients' assets and our own assets. Models may also be used to measure and monitor compliance with rules and regulations, for surveillance activities, and to meet financial or regulatory reporting requirements. Our artificial intelligence (AI)-based solutions may rely on models, and models may include functionalities defined as AI.

Model risk is defined as the risk of adverse consequences (e.g. financial losses or reputational damage) resulting from incorrect or misused models. AI-specific risks are managed in conjunction with other relevant risk frameworks, and specific guidelines for the recognition of those risks apply.

Overview of measurement, monitoring and management techniques

Our model governance framework establishes requirements for identifying, measuring, monitoring, reporting, controlling and mitigating model risk. All the models that we use are subject to governance and controls throughout their life cycles, with rigor, depth and frequency determined by the model's materiality and complexity. This is designed to ensure that risks arising from model use are identified, understood, managed, monitored, controlled and reported on both a model-specific and an aggregated level. Before approval for use is granted, all our models are independently validated.

Once approved for use, a model is subject to ongoing model monitoring, regular model confirmation and periodic revalidation, ensuring that the model is only used if it continues to be fit for purpose.

Our model risk governance framework follows our overarching risk governance framework along the three lines of defense, with: (i) the business divisions and Group functions (including Risk Control, Finance and Compliance) responsible for the development, maintenance and appropriate use of the models; (ii) the Model Risk Management & Control function, headed by the Chief Model Risk Officer, responsible for independent review, oversight and challenge of the models; and (iii) Group Internal Audit, responsible for the assessment of the design and operating effectiveness and the sustainability of the related processes.

Model risk is included in the Group-wide risk appetite framework.

Model oversight committees and forums ensure that model risk is overseen at different levels of the organization, appropriate model risk management and control actions are taken and, where necessary, escalated to the next level. The Group Model Governance Committee is our most senior oversight and escalation body for all models in scope of our model governance framework. It is co-chaired by the Group Chief Risk Officer and the Group CFO and is responsible for: (i) reviewing and approving changes to the framework; (ii) approving the model risk appetite statement; (iii) overseeing adherence to the UBS model risk governance framework; and (iv) monitoring model risk at a Group-wide level.

The migration of client accounts and positions to UBS infrastructure impacts models to some extent. Respective model integration plans are defined and overseen by the Group Model Governance Committee. The legacy Credit Suisse model inventory has been reduced by more than 50% since June 2023, with certain legacy Credit Suisse models still being used until they are retired or integrated into the UBS risk management framework.

Capital management

Capital management objectives, planning and activities

Capital management objectives

Audited | An adequate level of common equity tier 1 (CET1) capital and total loss-absorbing capacity (TLAC) meeting both internal assessment and regulatory requirements is a prerequisite for conducting our business activities. ▲

We are therefore committed to maintaining a strong CET1 capital and TLAC position at all times, in order to meet regulatory capital requirements and our target capital ratios, and to support the growth of our businesses.

As of 31 December 2024, our CET1 capital ratio was 14.3% and our CET1 leverage ratio 4.7%, each above the requirements for Swiss systemically relevant banks (SRBs) and Basel Committee on Banking Supervision (BCBS) requirements, and also above our capital guidance. We believe that our capital strength, consistent with our capital guidance, is a source of confidence for our stakeholders, contributes to our sound credit ratings and is one of the foundations of our success.

In Switzerland, the amendments to the Capital Adequacy Ordinance (the CAO) that incorporate the final Basel III standards into Swiss law, including the five new ordinances that contain the implementing provisions for the revised CAO, entered into force on 1 January 2025.
