Today's Post contains a story about the FDA's recent assertion of jurisdiction over medical practices at fertility clinics. Apparently, the FDA will require physicians at such clinics to fill out "Investigational New Drug applications" in order to perform certain fertility procedures. Whatever one might think about some of these procedures, it seems, at first blush, a huge stretch FDA's regulatory authority over drugs and devices to sweep in these practices, which do not involve the use of any new or experimental drugs, at least according to the story.

Having been sensitized to agency overreaching at the FCC, I wonder if this is something that we should look into. I have a feeling that the FDA is on very thin legal ice in terms of its statutory authority, not unlike its recent attempt to regulate tobacco.

President Bush Pushes for a Strong Patients' Bill of Rights

Today's Presidential Action:

- President Bush will meet today with patients and doctors at the White House to urge the House of Representatives to pass a strong patients' bill of rights. The President will highlight the need for patients to have access to specialists when they need specialized care, and the importance of a strong, independent medical review process that lets patients and doctors – rather than HMO bureaucrats and trial lawyers – make medical decisions.

- The President is pleased that health associations representing over 450,000 physicians and health professionals have endorsed the compromise Fletcher-Peterson-Johnson legislation in the House. The President was joined today by representatives from leading medical organizations, including:

  - ✓ American Academy of Dermatology (14,000 members)
  - ✓ American Academy of Orthopaedic Surgeons (18,000 members)
  - ✓ American Association of Neurological Surgeons - Congress of Neurological Surgeons (4,500 members)
  - ✓ American College of Cardiology (26,000 members)
  - ✓ American College of Emergency Physicians (22,000 members)
  - ✓ American College of Surgeons (62,000 members)
  - ✓ American Gastroenterological Association (11,400 members)
  - ✓ American Society of Anesthesiologists (36,000 members)
  - ✓ American Society of Cataract and Refractive Surgery (8,000 members)
  - ✓ American Society of Clinical Pathologists (75,000 members)
  - ✓ American Urological Association (13,000 members)
  - ✓ Society of Thoracic Surgeons (2,000 members)

President Bush Supports a Strong Patients' Bill of Rights

- **President Bush is committed to signing a responsible Patients' Bill of Rights this year.** Since early days of his Administration, the President has worked with Members of Congress from both parties to forge a bipartisan consensus that puts patients and their families first.

- **President Bush believes the bipartisan legislation introduced by Representatives Ernie Fletcher, Collin Peterson, and Nancy Johnson represents a sensible compromise.** It will allow patients to hold HMOs accountable while also protecting patients and their families from paying the costs of unnecessary and expensive litigation that will increase their health care premiums and jeopardize their health insurance coverage.

- **The President is pleased that the compromise House bill meets the principles for a Patients' Bill of Rights that he announced earlier this year**:

  - ✓ Patient protections should apply to all Americans.
  - ✓ Patient protections should be comprehensive.
  - ✓ Patients should have a rapid medical review process for denials of care.
  - ✓ The patient review process should ensure that doctors are allowed to make medical decisions and patients receive care in a timely manner.
  - ✓ Federal remedies should be expanded to hold health plans accountable.
  - ✓ Patient protection legislation should encourage, not discourage, employers to offer health care.

A Strong Patients' Bill of Rights Guarantees Access to Specialty Care

- The President believes a federal Patients' Bill of Rights should provide patient protections such as:

  - ✓ Access to emergency room and specialty care.
  - ✓ Direct access to obstetricians, gynecologists and pediatricians.
  - ✓ Access to needed prescription drugs and approved clinical trials
  - ✓ Access to health plan information.
  - ✓ Prohibition of HMO "gag clauses" that prevent doctors from discussing certain health care options with their patients.
  - ✓ Consumer choice provisions that give patients more choice of doctors.
  - ✓ Continuity of care protections that allow patients to continue to see their doctor if they are terminally ill, pregnant or awaiting scheduled surgery – even if their doctor leaves the HMO.

- Patients who urgently need specialized medical care should not have their care needlessly delayed because of an HMO bureaucrat. The President is pleased that there is bipartisan consensus in Congress on the need to ensure direct access to specialty care.

A Strong Patient Bills' of Rights Guarantees Access to Independent Medical Review:

- There is considerable agreement on the core patient protections that should be part of the Patients' Bill of Rights. The key remaining question is -- Should doctors and patients make important medical decisions, or should trial lawyers and HMO bureaucrats?

- The Ganske-Dingell bill in the House of Representatives encourages litigation and allows trial lawyers to make medical decisions. Americans want medical decisions in an examination room – not a court room. The unlimited litigation under the Ganske-Dingell bill will only serve to drive up health care costs for every American family. As a result, it could cause as many as 4-6 million Americans to lose their health care coverage altogether.

- The bipartisan Fletcher-Peterson-Johnson compromise ensures patients get the care they need through a speedy medical review process and allows an independent panel of doctors to make medical decisions. If patients have been injured by a wrongful denial or delay in their care, they will have new rights to sue their HMO in federal court. Under this approach, priority is given to ensuring that patients get their medical cases reviewed by doctors. The Fletcher-Peterson-Johnson bill provides meaningful remedies for patients while protecting the health care coverage for millions of families whose employers might drop their health insurance plans if subjected to costly and needless lawsuits.

President Bush Pushes for a Strong Patients' Bill of Rights

Today's Presidential Action:

- President Bush will meet today with patients and doctors at the White House to urge the House of Representatives to pass a strong patients' bill of rights. The President will highlight the need for patients to have access to specialists when they need specialized care, and the importance of a strong, independent medical review process that lets patients and doctors – rather than HMO bureaucrats and trial lawyers – make medical decisions.

- The President is pleased that health associations representing over 450,000 physicians and health professionals have endorsed the compromise Fletcher-Peterson-Johnson legislation in the House. The President was joined today by representatives from leading medical organizations, including:

  - ✓ American Academy of Dermatology (14,000 members)
  - ✓ American Academy of Orthopaedic Surgeons (18,000 members)
  - ✓ American Association of Neurological Surgeons - Congress of Neurological Surgeons (4,500 members)
  - ✓ American College of Cardiology (26,000 members)
  - ✓ American College of Emergency Physicians (22,000 members)
  - ✓ American College of Surgeons (62,000 members)
  - ✓ American Gastroenterological Association (11,400 members)
  - ✓ American Society of Anesthesiologists (36,000 members)
  - ✓ American Society of Cataract and Refractive Surgery (8,000 members)
  - ✓ American Society of Clinical Pathologists (75,000 members)
  - ✓ American Urological Association (13,000 members)
  - ✓ Society of Thoracic Surgeons (2,000 members)

President Bush Supports a Strong Patients' Bill of Rights

- **President Bush is committed to signing a responsible Patients' Bill of Rights this year.** Since early days of his Administration, the President has worked with Members of Congress from both parties to forge a bipartisan consensus that puts patients and their families first.

- **President Bush believes the bipartisan legislation introduced by Representatives Ernie Fletcher, Collin Peterson, and Nancy Johnson represents a sensible compromise.** It will allow patients to hold HMOs accountable while also protecting patients and their families from paying the costs of unnecessary and expensive litigation that will increase their health care premiums and jeopardize their health insurance coverage.

- **The President is pleased that the compromise House bill meets the principles for a Patients' Bill of Rights that he announced earlier this year**:

  - ✓ Patient protections should apply to all Americans.
  - ✓ Patient protections should be comprehensive.
  - ✓ Patients should have a rapid medical review process for denials of care.
  - ✓ The patient review process should ensure that doctors are allowed to make medical decisions and patients receive care in a timely manner.
  - ✓ Federal remedies should be expanded to hold health plans accountable.
  - ✓ Patient protection legislation should encourage, not discourage, employers to offer health care.

A Strong Patients' Bill of Rights Guarantees Access to Specialty Care

- The President believes a federal Patients' Bill of Rights should provide patient protections such as:

  - ✓ Access to emergency room and specialty care.
  - ✓ Direct access to obstetricians, gynecologists and pediatricians.
  - ✓ Access to needed prescription drugs and approved clinical trials
  - ✓ Access to health plan information.
  - ✓ Prohibition of HMO "gag clauses" that prevent doctors from discussing certain health care options with their patients.
  - ✓ Consumer choice provisions that give patients more choice of doctors.
  - ✓ Continuity of care protections that allow patients to continue to see their doctor if they are terminally ill, pregnant or awaiting scheduled surgery – even if their doctor leaves the HMO.

- Patients who urgently need specialized medical care should not have their care needlessly delayed because of an HMO bureaucrat. The President is pleased that there is bipartisan consensus in Congress on the need to ensure direct access to specialty care.

A Strong Patient Bills' of Rights Guarantees Access to Independent Medical Review:

- There is considerable agreement on the core patient protections that should be part of the Patients' Bill of Rights. The key remaining question is -- Should doctors and patients make important medical decisions, or should trial lawyers and HMO bureaucrats?

- The Ganske-Dingell bill in the House of Representatives encourages litigation and allows trial lawyers to make medical decisions. Americans want medical decisions in an examination room – not a court room. The unlimited litigation under the Ganske-Dingell bill will only serve to drive up health care costs for every American family. As a result, it could cause as many as 4-6 million Americans to lose their health care coverage altogether.

- The bipartisan Fletcher-Peterson-Johnson compromise ensures patients get the care they need through a speedy medical review process and allows an independent panel of doctors to make medical decisions. If patients have been injured by a wrongful denial or delay in their care, they will have new rights to sue their HMO in federal court. Under this approach, priority is given to ensuring that patients get their medical cases reviewed by doctors. The Fletcher-Peterson-Johnson bill provides meaningful remedies for patients while protecting the health care coverage for millions of families whose employers might drop their health insurance plans if subjected to costly and needless lawsuits.

President Bush Pushes for a Strong Patients' Bill of Rights

Today's Presidential Action:

- President Bush will meet today with patients and doctors at the White House to urge the House of Representatives to pass a strong patients' bill of rights. The President will highlight the need for patients to have access to specialists when they need specialized care, and the importance of a strong, independent medical review process that lets patients and doctors – rather than HMO bureaucrats and trial lawyers – make medical decisions.

- The President is pleased that health associations representing over 450,000 physicians and health professionals have endorsed the compromise Fletcher-Peterson-Johnson legislation in the House. The President was joined today by representatives from leading medical organizations, including:

  - ✓ American Academy of Dermatology (14,000 members)
  - ✓ American Academy of Orthopaedic Surgeons (18,000 members)
  - ✓ American Association of Neurological Surgeons - Congress of Neurological Surgeons (4,500 members)
  - ✓ American College of Cardiology (26,000 members)
  - ✓ American College of Emergency Physicians (22,000 members)
  - ✓ American College of Surgeons (62,000 members)
  - ✓ American Gastroenterological Association (11,400 members)
  - ✓ American Society of Anesthesiologists (36,000 members)
  - ✓ American Society of Cataract and Refractive Surgery (8,000 members)
  - ✓ American Society of Clinical Pathologists (75,000 members)
  - ✓ American Urological Association (13,000 members)
  - ✓ Society of Thoracic Surgeons (2,000 members)

President Bush Supports a Strong Patients' Bill of Rights

- **President Bush is committed to signing a responsible Patients' Bill of Rights this year.** Since early days of his Administration, the President has worked with Members of Congress from both parties to forge a bipartisan consensus that puts patients and their families first.

- **President Bush believes the bipartisan legislation introduced by Representatives Ernie Fletcher, Collin Peterson, and Nancy Johnson represents a sensible compromise.** It will allow patients to hold HMOs accountable while also protecting patients and their families from paying the costs of unnecessary and expensive litigation that will increase their health care premiums and jeopardize their health insurance coverage.

- **The President is pleased that the compromise House bill meets the principles for a Patients' Bill of Rights that he announced earlier this year**:

  - ✓ Patient protections should apply to all Americans.
  - ✓ Patient protections should be comprehensive.
  - ✓ Patients should have a rapid medical review process for denials of care.
  - ✓ The patient review process should ensure that doctors are allowed to make medical decisions and patients receive care in a timely manner.
  - ✓ Federal remedies should be expanded to hold health plans accountable.
  - ✓ Patient protection legislation should encourage, not discourage, employers to offer health care.

A Strong Patients' Bill of Rights Guarantees Access to Specialty Care

- The President believes a federal Patients' Bill of Rights should provide patient protections such as:

  - ✓ Access to emergency room and specialty care.
  - ✓ Direct access to obstetricians, gynecologists and pediatricians.
  - ✓ Access to needed prescription drugs and approved clinical trials
  - ✓ Access to health plan information.
  - ✓ Prohibition of HMO "gag clauses" that prevent doctors from discussing certain health care options with their patients.
  - ✓ Consumer choice provisions that give patients more choice of doctors.
  - ✓ Continuity of care protections that allow patients to continue to see their doctor if they are terminally ill, pregnant or awaiting scheduled surgery – even if their doctor leaves the HMO.

- Patients who urgently need specialized medical care should not have their care needlessly delayed because of an HMO bureaucrat. The President is pleased that there is bipartisan consensus in Congress on the need to ensure direct access to specialty care.

A Strong Patient Bills' of Rights Guarantees Access to Independent Medical Review:

- There is considerable agreement on the core patient protections that should be part of the Patients' Bill of Rights. The key remaining question is -- Should doctors and patients make important medical decisions, or should trial lawyers and HMO bureaucrats?

- The Ganske-Dingell bill in the House of Representatives encourages litigation and allows trial lawyers to make medical decisions. Americans want medical decisions in an examination room – not a court room. The unlimited litigation under the Ganske-Dingell bill will only serve to drive up health care costs for every American family. As a result, it could cause as many as 4-6 million Americans to lose their health care coverage altogether.

- The bipartisan Fletcher-Peterson-Johnson compromise ensures patients get the care they need through a speedy medical review process and allows an independent panel of doctors to make medical decisions. If patients have been injured by a wrongful denial or delay in their care, they will have new rights to sue their HMO in federal court. Under this approach, priority is given to ensuring that patients get their medical cases reviewed by doctors. The Fletcher-Peterson-Johnson bill provides meaningful remedies for patients while protecting the health care coverage for millions of families whose employers might drop their health insurance plans if subjected to costly and needless lawsuits.

For more information please contact White House Communications at (202) 456-2777

President Bush Pushes for a Strong Patients' Bill of Rights

Today's Presidential Action:

- President Bush will meet today with patients and doctors at the White House to urge the House of Representatives to pass a strong patients' bill of rights. The President will highlight the need for patients to have access to specialists when they need specialized care, and the importance of a strong, independent medical review process that lets patients and doctors – rather than HMO bureaucrats and trial lawyers – make medical decisions.

- The President is pleased that health associations representing over 450,000 physicians and health professionals have endorsed the compromise Fletcher-Peterson-Johnson legislation in the House. The President was joined today by representatives from leading medical organizations, including:

  - ✓ American Academy of Dermatology (14,000 members)
  - ✓ American Academy of Orthopaedic Surgeons (18,000 members)
  - ✓ American Association of Neurological Surgeons - Congress of Neurological Surgeons (4,500 members)
  - ✓ American College of Cardiology (26,000 members)
  - ✓ American College of Emergency Physicians (22,000 members)
  - ✓ American College of Surgeons (62,000 members)
  - ✓ American Gastroenterological Association (11,400 members)
  - ✓ American Society of Anesthesiologists (36,000 members)
  - ✓ American Society of Cataract and Refractive Surgery (8,000 members)
  - ✓ American Society of Clinical Pathologists (75,000 members)
  - ✓ American Urological Association (13,000 members)
  - ✓ Society of Thoracic Surgeons (2,000 members)

President Bush Supports a Strong Patients' Bill of Rights

- **President Bush is committed to signing a responsible Patients' Bill of Rights this year.** Since early days of his Administration, the President has worked with Members of Congress from both parties to forge a bipartisan consensus that puts patients and their families first.

- **President Bush believes the bipartisan legislation introduced by Representatives Ernie Fletcher, Collin Peterson, and Nancy Johnson represents a sensible compromise.** It will allow patients to hold HMOs accountable while also protecting patients and their families from paying the costs of unnecessary and expensive litigation that will increase their health care premiums and jeopardize their health insurance coverage.

- **The President is pleased that the compromise House bill meets the principles for a Patients' Bill of Rights that he announced earlier this year**:

  - ✓ Patient protections should apply to all Americans.
  - ✓ Patient protections should be comprehensive.
  - ✓ Patients should have a rapid medical review process for denials of care.
  - ✓ The patient review process should ensure that doctors are allowed to make medical decisions and patients receive care in a timely manner.
  - ✓ Federal remedies should be expanded to hold health plans accountable.
  - ✓ Patient protection legislation should encourage, not discourage, employers to offer health care.

A Strong Patients' Bill of Rights Guarantees Access to Specialty Care

- The President believes a federal Patients' Bill of Rights should provide patient protections such as:

  - ✓ Access to emergency room and specialty care.
  - ✓ Direct access to obstetricians, gynecologists and pediatricians.
  - ✓ Access to needed prescription drugs and approved clinical trials
  - ✓ Access to health plan information.
  - ✓ Prohibition of HMO "gag clauses" that prevent doctors from discussing certain health care options with their patients.
  - ✓ Consumer choice provisions that give patients more choice of doctors.
  - ✓ Continuity of care protections that allow patients to continue to see their doctor if they are terminally ill, pregnant or awaiting scheduled surgery – even if their doctor leaves the HMO.

- Patients who urgently need specialized medical care should not have their care needlessly delayed because of an HMO bureaucrat. The President is pleased that there is bipartisan consensus in Congress on the need to ensure direct access to specialty care.

A Strong Patient Bills' of Rights Guarantees Access to Independent Medical Review:

- There is considerable agreement on the core patient protections that should be part of the Patients' Bill of Rights. The key remaining question is -- Should doctors and patients make important medical decisions, or should trial lawyers and HMO bureaucrats?

- The Ganske-Dingell bill in the House of Representatives encourages litigation and allows trial lawyers to make medical decisions. Americans want medical decisions in an examination room – not a court room. The unlimited litigation under the Ganske-Dingell bill will only serve to drive up health care costs for every American family. As a result, it could cause as many as 4-6 million Americans to lose their health care coverage altogether.

- The bipartisan Fletcher-Peterson-Johnson compromise ensures patients get the care they need through a speedy medical review process and allows an independent panel of doctors to make medical decisions. If patients have been injured by a wrongful denial or delay in their care, they will have new rights to sue their HMO in federal court. Under this approach, priority is given to ensuring that patients get their medical cases reviewed by doctors. The Fletcher-Peterson-Johnson bill provides meaningful remedies for patients while protecting the health care coverage for millions of families whose employers might drop their health insurance plans if subjected to costly and needless lawsuits.

For more information please contact White House Communications at (202) 456-2777

Tim is unable to do this, so DoL was wondering if one of the Associate
Counsels would like to be their guest next Thursday in his place. It
would be at noon on Thursday the 19th. You would just need to give a
brief talk about the Office of Counsel to the President.

Subject: Brown Bag Lunch at DOL

Per our conversation, the White House Liaison Office at the Department of
Labor would like to invite Tim Flanigan to be the speaker at our next Brown
Bag Lunch. These lunches are held every couple of weeks for our political
appointees, and we usually have about 20 attendees.

You indicated that he might be available next Thursday, July 19th at noon.
Please let me know if that does fit his schedule. Otherwise maybe he could
```

join us the day before.

I look forward to hearing from you soon.

Subject: Sec. Card

Libby,

Could you please ask one of the attorneys to call back Paul White for Sec.
Card. Mr. White is an Associate VP at Boston College and served w/Sec.
Card in the MA legislative. His issue: there is a BC alumnus names
Pierre Prosper who is a State Department nominee and Mr. Prosper is
scheduled to do a public service announcement for BC and The State
Department has said NO he can not do the Public Service Announcement.
Sec. Card would like someone to call Mr. White back on his behalf. Sec.
Card feels that there is nothing he can do about it but wanted someone to
hear Mr. White out on the issue. This calls needs to be made today.

Mr. White's numbers are:
617-697-1999 or 508-432-9137

Thanks.
Melissa

P.S. Can you please let me know when this is completed so I can take it
off Sec. Card's list? Thanks.

Questions & Answers on the Surplus

Q: Why are surplus estimates down?

- **Surplus estimates are lower because our economic growth began declining almost a year ago.** The President's tax relief will give our economy a boost when it needs it most and will ensure future surpluses. Professional economists agree that tax relief is exactly what our economy needs to get moving again.

- The FY 2001 surplus is still the 2nd largest surplus in America's history.

Q: Will the President's tax relief force the government to dip into the Social Security and Medicare surplus?

- The President is protecting the Social Security surplus and reserving every penny of Medicare for Medicare -- and Medicare alone. The President is protecting these important programs for seniors who depend on them.

- The President's budget significantly increased Medicare.

- **The biggest threat to Medicare and Social Security is out of control spending.** In fact, discretionary government spending in the past 3 years has increased at more than twice the rate of inflation.

- **Medicare is currently in deficit, not surplus.** Medicare this year will spend at least $50 billion more than it takes in through premiums and payroll taxes. Economist Bob Samuelson has said "…[T]he image of raids on the Medicare and Social Security trust funds is false. The trust funds simply aren't being raided. Indeed, Medicare spending now exceeds Medicare taxes….]" (Newsweek July 16, 2001)

Q: Given declining surpluses, is there room in the budget for all the President has proposed?

- Even though surplus estimates are lower, there is still room in the budget to fund priorities like education, defense, Medicare, Social Security and the environment. And under the President's budget we will achieve historic levels of debt reduction, retiring the maximum amount of debt possible over 10 years. This year alone, over $100 billion of debt will be retired.

Q: Will the tax cut benefit our economy?

- Professional economists think that the President's tax relief is exactly the right medicine at exactly the right time for our lagging economy. (See attachment for specific quotes from analysts and economists)

- The President's tax cut was exactly what our slumping economy needed. Returning a part of the surplus to the American people will help stimulate our economy, increase consumer spending and grow consumer confidence. The President's tax cut will give our economy a much-needed jumpstart.

Q: Democrats have advocated tax increases or scaling back the new tax relief. Will these steps help the economy?

- **It's hard to imagine anything worse for the economy right now than tax increases.** The President agrees with economists that tax increases are the last thing our slumping economy needs. Taking more money from the hands of consumers will only depress our economy further and will send consumer and investor confidence plummeting.

What Economic Professionals Are Saying About the President's Tax Relief & the Economy

"The tax cuts just passed by Congress add about 1.2 percentage points to GDP growth at an annual rate over the second half of this year and about 0.4 percentage points to real GDP growth over the 4 quarters of next year. … The President of Macroeconomic Advisers, Chris Varvares, described the tax package as 'a remarkably well-timed application of counter-cyclical fiscal policy.'"
-Macroeconomic Advisers, LLP

"The tax bill awaiting President Bush's signature delivers fiscal stimulus sooner than we've been expecting, and it packs a punch: We estimate that it will boost second-half growth by about 1 ¼ percentage points."
-Morgan Stanley Dean Witter (May 29, 2001)

"For once, Congress managed to implement a contra-cyclical fiscal policy that should boost economic growth exactly when the economy needs it. The tax cut will pump about $40 billion into the economy during the third quarter and about $70 billion in fiscal 2002, which begins October 1. The tax cut will boost GDP growth by around ¾ of a percentage point during the second half of 2001 and about ½ of a percentage point in 2002."
-Bruce Steinberg, Merrill Lynch (June 1, 2001)

"The tax cut comes at a good time and could be an important catalyst in the long-awaited recovery."
Jeffrey Feiner, Lehman Brothers (Washington Times, June 22, 2001)

"Recent developments in fiscal policy may keep the consumer in a buying mood. The combination of tax rebates, and reduced tax rates, that are included in the Administration's recently approved tax plan should boost consumption, beginning in the third quarter of this year…. Historical evidence with tax rebates suggests that consumers will spend about half, and either save or pay off debt with the rest. If the split is 50/50, this would add between one-half and three-fourths percentage point to GDP growth."
-Cathy Minehan, Boston Federal Reserve Bank President (June 18, 2001)

New York Federal Reserve Bank president William McDonough believes that "the federal tax cut may also help by increasing gross domestic product (GDP) by 0.4 percent this calendar year, and 0.7 percent in 2002."
-"Rate Cuts to help US recover in 2nd Half of Year" (AFX.com, June 13, 2001)

"We expect it to add roughly 1 percentage point to consumer spending growth from what it otherwise would have been and 0.75 percent to GDP growth over the next 18 months."
-Neal Soss, Credit Suisse First Boston Corporation (June 15, 2001)

"We estimate that the tax cuts will boost growth by nearly 1 percentage point in the second half of this year."
-Robert DiClemente, Salomon Smith Barney, Inc. (Washington Post, June 2, 2001)

"I think one point I'd like to get across as well, I think it's [the tax plan is] very positive for the long-run economy."
-Mickey Levy, Bank of America (CBS News, June 8, 2001)

Subject: Re: Didn't take long -- the incoming from Conyers

I have met with Dilulio's crew and the Judge, and we have mapped
out a preliminary strategy, but we should all meet, perhaps tomorrow at
9:30?

I haven't seen it. If it's on faith-based, Brett is walking point, but
since there are a lot of cross-cutting issues, I'll be happy to
participate in any discussions.

have you seen this?

Let's discuss

ATT CREATION TIME/DATE: 0 00:00:00.00
File attachment <P_DLRR2004_WHO.TXT_1>

July 10, 2001

Dr. John J. DiIulio, Jr.
Director, White House Office of
Faith Based and Community Initiatives
The White House
Washington, D.C. 20502

Dear Dr. DiIulio:

We are deeply concerned about today's press reports that the Bush Administration may have agreed to issue an administrative legal action cutting back on the employment rights of minorities, including gays and lesbians, in exchange for obtaining the Salvation Army's political support for H.R. 7.

As a result, we request the White House provide us with the following information:

1. An itemization of all groups and persons that representatives of the Bush Administration have met with regarding charitable choice legislation, including representatives of the Salvation Army, along with the dates and a description of the substance and discussions of each meeting. Please include the names and titles of the Bush Administration representatives who participated in these meetings.

2. A description of any actual or potential promises or commitments the Administration or any representative within the Administration may have made to any groups or person in exchange for their support of charitable choice legislation or provisions permitting discrimination in employment.

3. A copy of any and all drafts of a reported administrative legal action or other regulation which would protect charities from state and local efforts to prevent discrimination against gays and lesbians in hiring and domestic-partner benefits, along with any legal memorandum or other material concerning such a possible action.

In addition, we would also like a copy of any and all communications within the White House or Executive Office of the President concerning charitable choice legislation or in connection with the

above-listed meetings, promises or commitments and administrative legal action, including notes, e-mails, documents, memoranda, phone records and any other types of written, audio or electronic communication.

We also request that the White House urge the House Leadership to defer floor consideration of charitable choice legislation until we are in full receipt of the above information.

We recognize how important charitable choice legislation is to you personally and to the Administration. We also believe that religious organizations can and should have a strong and active role in dealing with our nation's social ills. However, we have long been concerned that proposals such as H.R. 7 are merely tools to permit increased discrimination and which would inappropriately entangle religion in our political affairs. This is why H.R. 7 is so strongly opposed by civil rights groups such as the NAACP and the Leadership Conference on Civil Rights.

As Members with a long time interest in civil rights matters, we would never want to see a bill purportedly designed to strengthen religion be used as an excuse to weaken our civil rights laws. It would be more objectionable yet if as part of the process of pushing this legislation, additional civil rights safeguards were forfeited in a "back room deal" outside of public scrutiny.

We are sure that the White House is as interested as we are in providing a prompt and full accounting and response to today's press accounts of a potential quid pro quo. As a result, we look forward to hearing from you by the end of this week so that we can discuss the best means of disseminating the information. If you have any questions regarding this letter, please contact Mr. Conyers' Judiciary Committee staff at 225-6906.

Sincerely,

John Conyers, Jr. Ranking Member Judiciary Committee	Jerrold Nadler Ranking Member Subcommittee on the Constitution

cc: Hon. J. Dennis Hastert, Speaker of the House
Hon. Richard A. Gephardt, Minority Leader
Hon. F. James Sensenbrenner, Jr.
Chairman, House Committee on the Judiciary

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

Let's discuss

ATT CREATION TIME/DATE: 0 00:00:00.00
File attachment <P_ZMTR2004_WHO.TXT_1>

July 10, 2001

Dr. John J. DiIulio, Jr.
Director, White House Office of
Faith Based and Community Initiatives
The White House
Washington, D.C. 20502

Dear Dr. DiIulio:

We are deeply concerned about today's press reports that the Bush Administration may have agreed to issue an administrative legal action cutting back on the employment rights of minorities, including gays and lesbians, in exchange for obtaining the Salvation Army's political support for H.R. 7.

As a result, we request the White House provide us with the following information:

1. An itemization of all groups and persons that representatives of the Bush Administration have met with regarding charitable choice legislation, including representatives of the Salvation Army, along with the dates and a description of the substance and discussions of each meeting. Please include the names and titles of the Bush Administration representatives who participated in these meetings.

2. A description of any actual or potential promises or commitments the Administration or any representative within the Administration may have made to any groups or person in exchange for their support of charitable choice legislation or provisions permitting discrimination in employment.

3. A copy of any and all drafts of a reported administrative legal action or other regulation which would protect charities from state and local efforts to prevent discrimination against gays and lesbians in hiring and domestic-partner benefits, along with any legal memorandum or other material concerning such a possible action.

In addition, we would also like a copy of any and all communications within the White House or Executive Office of the President concerning charitable choice legislation or in connection with the

above-listed meetings, promises or commitments and administrative legal action, including notes, e-mails, documents, memoranda, phone records and any other types of written, audio or electronic communication.

We also request that the White House urge the House Leadership to defer floor consideration of charitable choice legislation until we are in full receipt of the above information.

We recognize how important charitable choice legislation is to you personally and to the Administration. We also believe that religious organizations can and should have a strong and active role in dealing with our nation's social ills. However, we have long been concerned that proposals such as H.R. 7 are merely tools to permit increased discrimination and which would inappropriately entangle religion in our political affairs. This is why H.R. 7 is so strongly opposed by civil rights groups such as the NAACP and the Leadership Conference on Civil Rights.

As Members with a long time interest in civil rights matters, we would never want to see a bill purportedly designed to strengthen religion be used as an excuse to weaken our civil rights laws. It would be more objectionable yet if as part of the process of pushing this legislation, additional civil rights safeguards were forfeited in a "back room deal" outside of public scrutiny.

We are sure that the White House is as interested as we are in providing a prompt and full accounting and response to today's press accounts of a potential quid pro quo. As a result, we look forward to hearing from you by the end of this week so that we can discuss the best means of disseminating the information. If you have any questions regarding this letter, please contact Mr. Conyers' Judiciary Committee staff at 225-6906.

Sincerely,

John Conyers, Jr. Ranking Member Judiciary Committee	Jerrold Nadler Ranking Member Subcommittee on the Constitution

Questions & Answers on the Surplus

Q: Why are surplus estimates down?

- **Surplus estimates are lower because our economic growth began declining almost a year ago.** The President's tax relief will give our economy a boost when it needs it most and will ensure future surpluses. Professional economists agree that tax relief is exactly what our economy needs to get moving again.

- The FY 2001 surplus is still the 2nd largest surplus in America's history.

Q: Will the President's tax relief force the government to dip into the Social Security and Medicare surplus?

- The President is protecting the Social Security surplus and reserving every penny of Medicare for Medicare -- and Medicare alone. The President is protecting these important programs for seniors who depend on them.

- The President's budget significantly increased Medicare.

- **The biggest threat to Medicare and Social Security is out of control spending.** In fact, discretionary government spending in the past 3 years has increased at more than twice the rate of inflation.

- **Medicare is currently in deficit, not surplus.** Medicare this year will spend at least $50 billion more than it takes in through premiums and payroll taxes. Economist Bob Samuelson has said "…[T]he image of raids on the Medicare and Social Security trust funds is false. The trust funds simply aren't being raided. Indeed, Medicare spending now exceeds Medicare taxes….]" (Newsweek July 16, 2001)

Q: Given declining surpluses, is there room in the budget for all the President has proposed?

- Even though surplus estimates are lower, there is still room in the budget to fund priorities like education, defense, Medicare, Social Security and the environment. And under the President's budget we will achieve historic levels of debt reduction, retiring the maximum amount of debt possible over 10 years. This year alone, over $100 billion of debt will be retired.

Q: Will the tax cut benefit our economy?

- Professional economists think that the President's tax relief is exactly the right medicine at exactly the right time for our lagging economy. (See attachment for specific quotes from analysts and economists)

- The President's tax cut was exactly what our slumping economy needed. Returning a part of the surplus to the American people will help stimulate our economy, increase consumer spending and grow consumer confidence. The President's tax cut will give our economy a much-needed jumpstart.

Q: Democrats have advocated tax increases or scaling back the new tax relief. Will these steps help the economy?

- **It's hard to imagine anything worse for the economy right now than tax increases.** The President agrees with economists that tax increases are the last thing our slumping economy needs. Taking more money from the hands of consumers will only depress our economy further and will send consumer and investor confidence plummeting.

What Economic Professionals Are Saying About the President's Tax Relief & the Economy

"The tax cuts just passed by Congress add about 1.2 percentage points to GDP growth at an annual rate over the second half of this year and about 0.4 percentage points to real GDP growth over the 4 quarters of next year. … The President of Macroeconomic Advisers, Chris Varvares, described the tax package as 'a remarkably well-timed application of counter-cyclical fiscal policy.'"
-Macroeconomic Advisers, LLP

"The tax bill awaiting President Bush's signature delivers fiscal stimulus sooner than we've been expecting, and it packs a punch: We estimate that it will boost second-half growth by about 1 ¼ percentage points."
-Morgan Stanley Dean Witter (May 29, 2001)

"For once, Congress managed to implement a contra-cyclical fiscal policy that should boost economic growth exactly when the economy needs it. The tax cut will pump about $40 billion into the economy during the third quarter and about $70 billion in fiscal 2002, which begins October 1. The tax cut will boost GDP growth by around ¾ of a percentage point during the second half of 2001 and about ½ of a percentage point in 2002."
-Bruce Steinberg, Merrill Lynch (June 1, 2001)

"The tax cut comes at a good time and could be an important catalyst in the long-awaited recovery."
Jeffrey Feiner, Lehman Brothers (Washington Times, June 22, 2001)

"Recent developments in fiscal policy may keep the consumer in a buying mood. The combination of tax rebates, and reduced tax rates, that are included in the Administration's recently approved tax plan should boost consumption, beginning in the third quarter of this year…. Historical evidence with tax rebates suggests that consumers will spend about half, and either save or pay off debt with the rest. If the split is 50/50, this would add between one-half and three-fourths percentage point to GDP growth."
-Cathy Minehan, Boston Federal Reserve Bank President (June 18, 2001)

New York Federal Reserve Bank president William McDonough believes that "the federal tax cut may also help by increasing gross domestic product (GDP) by 0.4 percent this calendar year, and 0.7 percent in 2002."
-"Rate Cuts to help US recover in 2nd Half of Year" (AFX.com, June 13, 2001)

"We expect it to add roughly 1 percentage point to consumer spending growth from what it otherwise would have been and 0.75 percent to GDP growth over the next 18 months."
-Neal Soss, Credit Suisse First Boston Corporation (June 15, 2001)

"We estimate that the tax cuts will boost growth by nearly 1 percentage point in the second half of this year."
-Robert DiClemente, Salomon Smith Barney, Inc. (Washington Post, June 2, 2001)

"I think one point I'd like to get across as well, I think it's [the tax plan is] very positive for the long-run economy."
-Mickey Levy, Bank of America (CBS News, June 8, 2001)

Questions & Answers on the Surplus

Q: Why are surplus estimates down?

- **Surplus estimates are lower because our economic growth began declining almost a year ago.** The President's tax relief will give our economy a boost when it needs it most and will ensure future surpluses. Professional economists agree that tax relief is exactly what our economy needs to get moving again.

- The FY 2001 surplus is still the 2nd largest surplus in America's history.

Q: Will the President's tax relief force the government to dip into the Social Security and Medicare surplus?

- The President is protecting the Social Security surplus and reserving every penny of Medicare for Medicare -- and Medicare alone. The President is protecting these important programs for seniors who depend on them.

- The President's budget significantly increased Medicare.

- **The biggest threat to Medicare and Social Security is out of control spending.** In fact, discretionary government spending in the past 3 years has increased at more than twice the rate of inflation.

- **Medicare is currently in deficit, not surplus.** Medicare this year will spend at least $50 billion more than it takes in through premiums and payroll taxes. Economist Bob Samuelson has said "…[T]he image of raids on the Medicare and Social Security trust funds is false. The trust funds simply aren't being raided. Indeed, Medicare spending now exceeds Medicare taxes….]" (Newsweek July 16, 2001)

Q: Given declining surpluses, is there room in the budget for all the President has proposed?

- Even though surplus estimates are lower, there is still room in the budget to fund priorities like education, defense, Medicare, Social Security and the environment. And under the President's budget we will achieve historic levels of debt reduction, retiring the maximum amount of debt possible over 10 years. This year alone, over $100 billion of debt will be retired.

Q: Will the tax cut benefit our economy?

- Professional economists think that the President's tax relief is exactly the right medicine at exactly the right time for our lagging economy. (See attachment for specific quotes from analysts and economists)

- The President's tax cut was exactly what our slumping economy needed. Returning a part of the surplus to the American people will help stimulate our economy, increase consumer spending and grow consumer confidence. The President's tax cut will give our economy a much-needed jumpstart.

Q: Democrats have advocated tax increases or scaling back the new tax relief. Will these steps help the economy?

- **It's hard to imagine anything worse for the economy right now than tax increases.** The President agrees with economists that tax increases are the last thing our slumping economy needs. Taking more money from the hands of consumers will only depress our economy further and will send consumer and investor confidence plummeting.

What Economic Professionals Are Saying About the President's Tax Relief & the Economy

"The tax cuts just passed by Congress add about 1.2 percentage points to GDP growth at an annual rate over the second half of this year and about 0.4 percentage points to real GDP growth over the 4 quarters of next year. … The President of Macroeconomic Advisers, Chris Varvares, described the tax package as 'a remarkably well-timed application of counter-cyclical fiscal policy.'"
-Macroeconomic Advisers, LLP

"The tax bill awaiting President Bush's signature delivers fiscal stimulus sooner than we've been expecting, and it packs a punch: We estimate that it will boost second-half growth by about 1 ¼ percentage points."
-Morgan Stanley Dean Witter (May 29, 2001)

"For once, Congress managed to implement a contra-cyclical fiscal policy that should boost economic growth exactly when the economy needs it. The tax cut will pump about $40 billion into the economy during the third quarter and about $70 billion in fiscal 2002, which begins October 1. The tax cut will boost GDP growth by around ¾ of a percentage point during the second half of 2001 and about ½ of a percentage point in 2002."
-Bruce Steinberg, Merrill Lynch (June 1, 2001)

"The tax cut comes at a good time and could be an important catalyst in the long-awaited recovery."
Jeffrey Feiner, Lehman Brothers (Washington Times, June 22, 2001)

"Recent developments in fiscal policy may keep the consumer in a buying mood. The combination of tax rebates, and reduced tax rates, that are included in the Administration's recently approved tax plan should boost consumption, beginning in the third quarter of this year…. Historical evidence with tax rebates suggests that consumers will spend about half, and either save or pay off debt with the rest. If the split is 50/50, this would add between one-half and three-fourths percentage point to GDP growth."
-Cathy Minehan, Boston Federal Reserve Bank President (June 18, 2001)

New York Federal Reserve Bank president William McDonough believes that "the federal tax cut may also help by increasing gross domestic product (GDP) by 0.4 percent this calendar year, and 0.7 percent in 2002."
-"Rate Cuts to help US recover in 2nd Half of Year" (AFX.com, June 13, 2001)

"We expect it to add roughly 1 percentage point to consumer spending growth from what it otherwise would have been and 0.75 percent to GDP growth over the next 18 months."
-Neal Soss, Credit Suisse First Boston Corporation (June 15, 2001)

"We estimate that the tax cuts will boost growth by nearly 1 percentage point in the second half of this year."
-Robert DiClemente, Salomon Smith Barney, Inc. (Washington Post, June 2, 2001)

"I think one point I'd like to get across as well, I think it's [the tax plan is] very positive for the long-run economy."
-Mickey Levy, Bank of America (CBS News, June 8, 2001)

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

    - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

    - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

    - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

    - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

    - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

    - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

    - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

    - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

End Original ARMS Header

Tomorrow the President will announce his principles for improving Medicare and will unveil a new prescription drug discount card for seniors. Attached are communications materials to help you with these issues. Tomorrow morning we will also send around an internal Q&A document. Presidential Medicare pocket cards are also available in the office of Communications for anyone who is interested.

Also tomorrow, Communications will deliver to every Member of Congress a mock-up of the actual color discount card the President will use at his press conference tomorrow morning. Members of Congress will also receive a pocket card to use to communicate the President's message.

Finally, tomorrow we will release the full Medicare booklet outlining every little detail of the President's Medicare initiative.

On this email, we are attaching one page of themes if that is all you need, and 1 pagers on each component of the plan if you need more information. If you need even more policy details you will need to consult the booklet tomorrow. If you need still more information, my advice to you is to find a good graduate school.

The following products are attached below. Please launch to your various constituencies ASAP:

1. 1-page themes for the President's announcement tomorrow.
2. The President's principles for improving Medicare.
3. 1-page details on the new discount card.
4. More extensive details on the new discount card.
5. The importance of covering prescription drugs for seniors.
6. The pocket card on the President's themes.
7. The importance of preventive care for seniors.
8. Medicare 101 (explains the basics of Medicare and why it needs improving).
9. 1-page on the upcoming Medicare deficit.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Principles for Medicare Reform

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

The President's Commitment to Improving Medicare

- The President's wants to improve Medicare to:
  - **Give seniors a new prescription drug benefit.**
  - **Give seniors access to new preventative treatments and benefits that Medicare doesn't cover.**
  - **Strengthen Medicare solvency to reverse the Medicare deficit facing the 77 million Baby Boomers about to retire.**
- Today the President will send Congress his principles for improving Medicare and he will unveil a new prescription drug discount card for seniors that will allow many seniors to cut their prescription drug bills by 10-15%.
- Medicare has provided this security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs that seniors need to live enjoyable lives. The President supports a new prescription drug benefit for seniors.
- **More Preventative Care for Seniors.** While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example, Mammograms were first shown to save lives by permitting breast cancer to be treated at a curable stage in the early 1980s – yet Medicare did not cover annual mammograms until 1998. The President wants to improve Medicare by making it more responsive to seniors who want to get the latest in preventative care.
- **Bipartisan Solutions to the Looming Medicare Deficit.** The President wants to forge a bipartisan consensus to solve the looming Medicare deficit crisis. Over 77 million Americans will reach age 65 between 2010 and 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits for the Baby Boomers. The President wants to strengthen Medicare's long term solvency to ensure that Medicare is there for current and future seniors.

The President's Principles for Medicare Reform:

- ✓ All beneficiaries should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- ✓ Medicare should provide better health insurance options, like those available to all Federal employees.
- ✓ Modernized Medicare should provide better benefits for preventive care and serious illnesses.
- ✓ Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- ✓ Medicare legislation should strengthen the program's long-term financial security.
- ✓ The management of the traditional Medicare plan should be strengthened, so that it can provide better care for seniors.
- ✓ Medicare's regulations and administrative procedures should be updated and streamlined, while continuing to reduce fraud and abuse.
- ✓ Medicare should encourage high-quality health care for all beneficiaries.

The President's Medicare Prescription Drug Discount Program

- The President intends to work with the Congress in a bipartisan fashion to strengthen Medicare, including prescription drug coverage, based on his legislative framework.

- Even if enacted soon, all of the proposals in Congress will take several years to provide meaningful prescription drug coverage for the America's seniors. Almost all of these proposals, from both Democrats and Republicans, rely on the approaches used by private insurance plans to reduce the prices paid by Medicare beneficiaries and to help them use prescription drugs more effectively.

- The President believes that seniors need assistance now, and that we need to take steps toward providing a meaningful prescription drug benefit as soon as possible. To provide immediate and ongoing relief to millions of seniors currently forced to pay full retail prices for prescription drugs, the President is announcing the following initiatives. The initiatives can be implemented immediately under existing authority:

  - ✓ Medicare will endorse and promote a number of qualified privately-administered prescription drug discount cards, to be made available either free of charge or at a nominal, one-time enrollment charge (no more than $25/enrollment) to seniors.

  - ✓ Medicare will require the approved card sponsors to publish the discounted prices for most prescription drugs purchased by seniors, to encourage price competition and simplifying the prescription drug buying decisions of seniors. Well-informed seniors will drive the market to competitive pricing.

Seniors and other Medicare Beneficiaries Benefit:

- Many seniors pay full retail for prescription drugs, or do not have easy access to significant discounts. The President's program will provide these seniors significant discounts on their drug purchases, for insured and non-insured individuals.

- Seniors will get far more information on drug prices and services, allowing for more informed purchasing decisions, better patient-physician decisions, and more appropriate Rx dispensing and use.

Program Features:

- The card will provide access to discounts on prescription drugs for Medicare beneficiaries.
- Card sponsors can charge ***no more*** than a *one-time* $25/enrollment fee for the card, and are encouraged to compete by offering lower-fee or no-fee cards.
- Senior can enroll in one and only one Medicare-endorsed card program at a time, and can change enrollment on a semi-annual basis.
- All Medicare-endorsed plans will agree to participate in a joint computer system to track enrollment to avoid duplicate card issuance – to give real purchasing power to each discount card sponsor.
- Medicare will launch a $35 million education campaign this fall to publicize and educate seniors about their options in Medicare, including the options among the endorsed prescription cards.
- Card sponsors are encouraged to offer a combined retail - mail-order card. To assure seniors access to retail-based discounts, a mail-order-only option will not be considered.

- Card sponsors can market additional services to cardholders, but must allow seniors to decline to participate in the additional services when they enroll.
- Card sponsors can adopt the quality-enhancement and cost-containment strategies common in private plans, including but not limited to: formularies; preferred networks; patient and physician education programs; and disease management.

Opportunities for Prescription Drug Savings for Seniors from President's Proposal:

- One study of 22,000 retirees, with an average age of 76.4 years, indicates a **24 percent reduction** in costs per person, relative to retail 'usual and customary' (U&C) prices.

- One PBM reports that for the top-four brand drugs used by seniors (Prilosec, Zocor, Norvasc, Lipitor), their card would save, relative to retail U&C, an average of **23%** at a pharmacy -- or **32%** through a mail-order program. Another PBM reports that for the top-seven brand drugs (Lipitor, Premarin, Claritin, Prevacid, Glucophage, Celebrex, and Norvasc) used by seniors, their card would save, relative to retail U&C, an average of **20%** at a pharmacy or **26%** through mail-order.

- For seniors using medications with generic equivalents, the savings are even greater: measured against retail U&C, a card could save **up to 40%** at a pharmacy and over **50%** through mail-order.

- Assuming very conservative card savings of only 10%, a senior spending just $25 per month on prescription drugs would recoup the maximum-permitted enrollment fee of $25 in less than a year.

Administration/Financing:

- The selected card sponsors will be required to participate in and help to finance a Consortium to handle all enrollment and eligibility functions, as well as publicize comparative information on the different discounted drug prices and quality enhancements available from the various card sponsors.

- The Administration expects that the formulary/network/education attributes of the program, coupled with positive, exclusive enrollment, will provide card sponsors the necessary market leverage to negotiate significant and competitive rebates from drug manufacturers. Many of the sponsors who are likely to participate already have a proven track record of negotiating substantial discounts.

- To attract high-utilizing seniors, who are likely to use the cards most heavily, the discount card sponsors will have a strong incentive to offer services they value, such as advice on medications and prescription interactions.

- Medicare oversight will be limited to annual certification based on easily-verified criteria - membership thresholds, pharmacy network thresholds, and the inclusion of all drug classes in the discount program. Review of marketing materials will take place within the Consortium.

- Card sponsors must comply with HIPPA and all related privacy rules and regulations.

- The Consortium will be required to develop and implement, by 10/1/01, a system to permit seniors to compare card programs using basic information on formulary content, networks, and discounts.

- By 10/1/02, the Consortium will enhance the ability of seniors to comparison shop by providing consumers the actual discounted drug prices associated with various endorsed card programs, including information on generic and formulary alternatives consistent with the cards' programs.

Why the President Thinks It's Important to Provide Seniors With a Medicare Prescription Drug Benefit

- **<u>One of the most glaring omissions in Medicare's benefits is the lack of prescription drug coverage.</u>**

- Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while over 98 percent of employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- Prescription drugs are important because they relieve pain, enhance the lives of millions of Americans, and reduce health care costs by avoiding more costly treatments, hospitalizations, and complications:

  - ✓ Over 98 percent of employer-sponsored health plans have long recognized the value of medicines in keeping people healthy, and therefore provide drug coverage as part of their benefit package.

  - ✓ Even though private plans began covering prescription drugs by the mid-1960s, Medicare's benefit package has yet to have been updated to include prescription drugs.

  - ✓ Nine out of ten Medicare beneficiaries will use at least one prescription drug this year. And the proportion of seniors who incur very high drug spending is growing.

- In the past decade alone, almost 400 new drugs have been developed to fight cancer, heart disease, stroke, diabetes, Parkinson's disease, depression and arthritis. Consider:

  - ✓ A year's worth of blood thinning drugs known as anticoagulants, which reduce strokes in patients with a common heart problem called atrial fibrillation, cost less than $1,000 per year. In contrast, lifetime medical costs related to a serious stroke exceed $100,000.

  - ✓ Drugs called statins can reduce heart attacks in older persons at risk for them, and may reduce the risk of stroke and possibly other conditions, avoiding costly hospitalizations and many complications and deaths from cardiovascular disease.

  - ✓ Drugs that promote calcium absorption into bones have been shown to significantly reduce serious complications of osteoporosis in older women, including the risk of hip fractures. Hip fractures often lead to long and costly hospitalizations, nursing home admissions, and even death.

- Still more effective prescription drugs are expected to reach seniors in the years ahead to help treat breast and prostate cancer, Alzheimer's disease, and diabetes.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Baby Boomers who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million new Baby Boomer retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The Importance of Preventive Care for Seniors

- **The President wants to help seniors get access to more preventive care.**
- **The President wants to make preventative care cost-free for seniors.**
- While science has proven the value of preventative medicine, Medicare coverage of preventative care stands in stark contrast to the generous benefits provided by private insurance plans. For example:
  - ✓ Mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage. Medicare did not cover annual mammograms until 1998.
  - ✓ Prostate cancer screening tests were widely available in private health plans by the late 1980s. Medicare coverage did not begin until 2000.
  - ✓ Flu vaccinations have been known to avoid serious complications from respiratory illnesses since the 1970s. Medicare did not begin coverage until 1993.
  - ✓ Medicare usually imposes significant copayments of 20 percent on the cost of preventive care. In addition, Medicare's coverage of many preventive services does not begin until beneficiaries have exceeded Medicare's $100 Part B deductible. As a result, Medicare beneficiaries who are healthy frequently face costs in the hundreds of dollars each year, just to keep up with recommended preventive treatments. Medicare's coverage of preventive care stands in contrast to the best private health insurance plans. Private plans have moved to a stronger emphasis on disease prevention by reducing beneficiary payments for preventive care, or even by making very cost-effective preventive services free.

Medicare 101

Medicare today provides health insurance to nearly 40 million people aged 65 and over as well as to people with long-term disabilities. For 36 years, Medicare has been immensely successful in fulfilling President Johnson's vision of helping seniors achieve the promise of a secure, vigorous retirement. Medicare has given over 90 million seniors access to many of the advances of modern medicine, which have helped them live longer and healthier lives. Medicare has also helped protect seniors from the higher costs of advanced care. But as we enter the 21st century, Medicare's promise is threatened by:

- outdated benefits that do not cover many valuable new technologies, including prescription drugs;
- limited financial protection for Medicare's covered services, forcing seniors to choose between increasingly costly supplemental insurance or the risk of impoverishment;
- a Medicare+Choice system that has not delivered the reliable health insurance options that have long been available to all Federal employees and most Americans under 65;
- a traditional government plan that often does not provide innovative care and that under current law cannot manage its benefits in an efficient way;
- a bureaucracy that often fails to deliver responsive services to beneficiaries and imposes unnecessary burdens on providers, because of excessively complex regulations and misdirected resources; and
- a Medicare program that often is not able to help seniors get the high-quality, error-free care they need or help health care providers deliver better care.

If we do not take steps to improve Medicare now, it may be unable to deliver on its promise of a secure and healthy retirement for today's and tomorrow's seniors:

- Based on its past record, Medicare's current benefits will have even more difficulty keeping up with the accelerating pace of medical innovation, including: individualized cures based on an understanding of each person's genetic and biochemical causes of a disease, microscopic devices that eliminate the need for unpleasant invasive treatments, and Internet-based and robotic therapies. All these innovations represent new classes of "medical services."
- Even Medicare's current benefits are not secure. Medicare's Part A (Hospital Insurance) costs will exceed its tax revenue after 2016, and Medicare's Part B (Supplementary Medical Insurance) Trust Fund is set up in a way that discourages planning ahead.

Failing to act to meet these unavoidable challenges may lead to more extreme changes later, including government controls on prescription drugs and stricter coverage limits in Medicare. These changes would reduce access to needed treatments and slow the development of new technologies, such as promising new drugs for Alzheimer's disease and common cancers. We must come together now to take the sound, careful, and deliberate steps needed to improve the Medicare program for today's and tomorrow's seniors. Thirty-six years from now, we should still have a Medicare program that fulfills President Johnson's promise of a secure and vibrant retirement.

The Looming Medicare Shortfall

The President wants to forge a bipartisan consensus to address the Medicare deficit crisis. Over 77 million Americans will reach age 65 by 2030, and they are counting on Medicare's promised benefits. Yet Medicare's hospital fund will face cash flow deficits beginning in 2016 and Medicare will not be able to pay for its promised hospital insurance benefits after 2029. The President wants to strengthen Medicare's long term financial status to ensure that Medicare is there for current and future seniors.

Since 1965, Medicare has provided a guarantee of health care coverage for more than 90 million seniors and people with long-term disabilities. Medicare has made the same promise to millions of Americans who are contributing their hard-earned dollars through payroll and income taxes. These Americans are counting on the financial stability and integrity of the Medicare program.

Despite the importance of Medicare's promised benefits to all Americans, Medicare's bifurcated trust fund system does not provide a clear picture of Medicare's financial status. The best-known measure of Medicare's solvency looks at only half of the program – the Hospital Insurance Trust Fund (HI) or Part A. This trust fund finances hospital services and "post-acute" services after hospitalization, but does not account for spending on physician and outpatient services. These services represent nearly half of all spending and are growing at a faster rate than inpatient services. Even when using this narrow approach, by 2016 Medicare is projected to have Part A expenses that exceed its new revenues (excluding interest income), and then to head rapidly toward bankruptcy by 2029.

Medicare's trust fund for the other half of the program, the Part B or Supplementary Medical Insurance Trust Fund, is financed mainly from income taxes and partly from beneficiary premiums. Part B's expenses are projected to rise even more rapidly than Part A expenses. However, because income tax contributions and beneficiary premiums are increased automatically as Part B costs rise, the Part B Trust Fund will not become insolvent. This does not mean that Part B benefits are secure from a budget standpoint – as the income tax contributions keep rising, it will be more and more difficult for taxpayers to sustain the total cost of the Medicare program and other important national priorities.

Between now and 2030 the number of persons age 65 and older is expected to increase rapidly from 40 million to 77 million. Since Medicare relies primarily on payroll and income taxes to finance its benefits, this increase means that the payroll taxes of fewer workers will be available to support the benefits of more retirees. Expenses will also rise because health care costs are expected to increase.

The importance of meeting Medicare's benefit guarantee despite the rising costs facing the program means that careful financial planning is essential. Careful planning requires viewing Medicare's finances in their entirety, including both Part A and Part B benefits, to have an accurate and straightforward picture of the program's overall financial outlook. A comparison of Medicare's dedicated revenues and premiums to total spending reveals an imbalance -- spending far outpaces dedicated dollars coming into Medicare from payroll taxes and premiums. Medicare is kept solvent by an increasing claim on general fund revenues. This revenue requirement is projected to more than double over the next 10 years. And even with this large infusion of revenues, Medicare will still go bankrupt in 2029. In addition, total Medicare expenditures are expected to consume an ever growing portion of the US economy, rising from 2 percent of GDP today to almost 9 percent in 2075, or about half the size of the entire Federal government now. This amount also exceeds what the Federal government spends now on all discretionary Federal programs – education, defense, crime, and others.

Only by planning ahead can drastic, undesirable changes in Medicare or other Federal programs be avoided.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Framework to Improve Medicare

- **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
- **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
- **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
- **Give seniors better options for access to the health care they need.**
- **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**

❖ Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

❖ **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

❖ **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illness. He also wants seniors to have more access to the promising treatments of 21st Century medicine.

❖ **Bipartisan Solutions to Medicare's Growing Shortfall. Medicare expense will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million retirees will be counting on Medicare's promised benefits.** The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status.

The President's Comprehensive Energy Plan

- **Modernize & Increase Conservation.** Expand conservation by increasing funding for energy efficiency programs, encouraging the development of fuel-efficient vehicles, creating tax credits to encourage consumer conservation, and expanding DOE conservation programs.

- **Modernize and Expand Our Energy Infrastructure.** Outdated regulations have frozen America into an antiquated energy supply network designed for 1950 – not 2050. The President's plan will help create a new, high-tech energy delivery network by expediting permitting for infrastructure improvements, expanding research on reliable energy transmission, and tearing down regulatory barriers that hurt consumers by preventing them from having lower energy bills and more dependable energy.

- **Diversify Energy Supplies.** Deploy latest technologies to increase environmentally-friendly exploration and production of domestic energy resources to diversify our supply. The President's plan invests in new energy technology; expands the use of alternative and renewable energy such as wind, solar, biomass and geothermal energy; and provides for the safe expansion of nuclear energy.

- **Improve & Accelerate Environmental Protection.** New anti-pollution technologies now allow us to increase our energy production while protecting our environment. The President's strategy will cut harmful emissions from electric power plants and increase funding for clean coal research. An integrated approach can yield a cleaner environment, a stronger economy and a sufficient supply of energy for the future.

- **Strengthen America's Energy Security.** The President wants to protect Americans – especially low-income Americans -- from wild fluctuations in energy prices and supply by helping low-income families with heating and cooling assistance, reducing America's dependence on foreign oil and building strong relationships with energy producing nations in our own hemisphere.

The President's Commitment to Improving Medicare

- The President wants to improve Medicare to:
  - **Give all seniors the option of a new prescription drug benefit, with additional help for low-income seniors.**
  - **Give seniors better coverage of preventive treatments and better protection against serious illnesses.**
  - **Increase and improve Medicare benefits today while keeping Medicare benefits secure for the 77 million Americans who are about to retire.**
  - **Give seniors better options for access to the health care they need**
  - **Make sure seniors can continue to get the coverage they have now if they are satisfied with it.**
- Medicare has provided health care security to millions of Americans since 1965. However, Medicare has not kept up with rapid advances in medical care. America has a moral obligation to fulfill Medicare's promise of health and security for America's seniors and people with disabilities.

The President's Medicare Improvement Plan

- **A New Prescription Drug Benefit.** Almost 400 new drugs have been developed in the last decade alone to fight diseases like cancer, heart disease, diabetes and arthritis. Yet, while virtually all employer-sponsored health plans pay for prescription drugs, Medicare still doesn't cover prescription drugs. The President supports a new prescription drug benefit for seniors to help them live more enjoyable and healthy lives.

- **Better Health Care for Seniors.** Medicare coverage of preventive care often lags far behind private insurance plans. For example, mammograms were first shown to save lives in the early 1980s by permitting breast cancer to be treated at a curable stage – yet Medicare did not cover annual mammograms until 1998. The President wants to eliminate co-pays on all preventive procedures and give seniors better protection against serious illnesses. He also wants seniors to have more access to the promising treatments of 21st century medicine.

- **Bipartisan Solutions to Medicare's Growing Shortfall.** Medicare expenses will exceed Medicare taxes and premiums by hundreds of billions of dollars by 2030, when over 77 million Americans will be counting on Medicare's promised benefits. The President wants to forge a bipartisan consensus to strengthen Medicare's long-term financial status to ensure that Medicare is there for current and future seniors.

The President's Principles for Strengthening Medicare:

The President believes that modernized Medicare should provide an improved government fee-for-service plan and better private plan options.

- All seniors should have the option of a subsidized prescription drug benefit as part of modernized Medicare.
- Modernized Medicare should provide better coverage for preventive care and serious illnesses.
- Today's beneficiaries and those approaching retirement should have the option of keeping the traditional plan with no changes.
- Medicare should provide better health insurance options, like those available to all Federal employees.
- Medicare legislation should strengthen the program's long-term financial security.
- The management of the government Medicare plan should be strengthened so that it can provide better care for seniors.
- Medicare's regulations and administrative procedures should be updated and streamlined, while the instances of fraud and abuse should be reduced.
- Medicare should encourage high-quality health care for all seniors.

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

AARP expressed full public support and praise this morning for the
President's new discount drug card. Also below
is a link to a Miami Herald editorial this morning praising the President
for taking the lead in helping seniors.

President's Faith-Based and Community Initiative Takes Another Step Forward

Action:

- The House Ways and Means Committee approved bipartisan legislation that includes key elements of the President's plan to rally America's armies of compassion, ensuring that the full House will have an opportunity to vote on the measure soon.

- The Committee approved a nearly $13.3 billion dollar, ten-year package of measures based on President Bush's proposals that will:

  - Allow those taxpayers who do not itemize on their taxes to get a tax deduction for charitable giving, in addition to their standard deduction.
  - Allow those aged 70 1/2 and older to make tax free withdrawals from their Individual Retirement Accounts for the purpose of giving to charities.
  - Permit an enhanced tax deduction for food donations by businesses that donate food inventory to charitable groups.
  - Double the funding for Individual Development Accounts, which are accounts designed to help low-income Americans accumulate assets.

- President Bush will continue to work with Members of Congress on a bipartisan basis to make incentives for charitable giving as robust as possible and to more effectively deliver vital social services to Americans who are most in need.

The President's Initiative to Help More Disadvantaged Americans:

The President's faith- and community-based initiative is designed to help Americans in need by:

- **Stimulating an outpouring of private giving to nonprofits, faith-based programs, and community groups by expanding tax deductions and other initiatives:**

- **Eliminating federal barriers to effective faith-based and community-serving programs through legislative, regulatory, and programmatic reforms.**

- **Expanding established Charitable Choice principles to enable private, charitable and religious organizations to compete, on a nondiscriminatory basis, for federal funds for social service programs such as:**

  - ✓ Juvenile justice
  - ✓ Crime prevention
  - ✓ Housing assistance
  - ✓ Job training
  - ✓ Elder care
  - ✓ Hunger relief
  - ✓ Domestic violence prevention
  - ✓ After-school and adult education services
  - ✓ Community Development Block Grants

- **Empowering low-income families to save and build assets through Individual Development Accounts**

For more information please contact White House Communications at (202) 456-2777

AARP expressed full public support and praise this morning for the
President's new discount drug card. Also below
is a link to a Miami Herald editorial this morning praising the President
for taking the lead in helping seniors.

http://www.miami.com/herald/content/opinion/editorials/digdocs/054109.htm

AARP expressed full public support and praise this morning for the
President's new discount drug card. Also below
is a link to a Miami Herald editorial this morning praising the President
for taking the lead in helping seniors.

Yes, very dismissive, but not to the point of saying it would never, ever happen.

Subject: Re:

Never said it would NEVER pass, just that I didn't think it would. Also, to say it's debatable that it won't pass is of course true.

Subject:

Your suggestion that flag burning amendment will never pass is debatable . . .

Since 1995, three consecutive Congresses have voted on a constitutional

amendment on flag desecration. In the 104th Congress, the House voted 312 to 120 in favor. The Senate voted 63 to 36, three votes short of the necessary two-thirds majority. In the 105th Congress, the House voted 310 to 114 in favor. The Senate did not take up the measure. In the 106th Congress, the House voted 305 to 124 in favor. The Senate voted 63 to 37, four votes short of the required two-thirds majority.

The vote on Lease 181 in the Senate just ended with a 67-33 victory for the President. Talking points are attached.

ATT CREATION TIME/DATE: 0 00:00:00.00
File attachment <P_XK9S2004_OPD.TXT_1>

President's Energy Plan Scores Victory in Senate

- The Senate just voted 67-33 to table an amendment by Sen. Bill Nelson that would have prohibited the Department of Interior from executing any final agreements on lease blocks in the "181" area in the Gulf of Mexico. *(details on Lease 181 are below)*

- **This vote represents a crystal clear bipartisan victory for the President's comprehensive energy package.**

- **This vote shows that bipartisan consensus can be reached on a plan to address our energy needs.**

- **Today's vote is a victory for all Americans who want to see environmentally responsible energy production to help protect consumers from wild fluctuations in energy prices.**

- **This vote represents yet another example that President Bush is keeping his word to balance the need to address our energy situation with local concerns. Florida officials worked with the President to craft this acceptable solution that will result in no drilling within 100 miles off the coast of Florida or in any Florida waters.**

The President's Comprehensive Energy Plan

- **America has a serious energy shortage and President Bush has a comprehensive plan to address it.**

- **The President wants to protect consumers from wild fluctuations in energy prices by diversifying America's energy supply.** America has become too dependent on foreign oil. **The President wants to use 21st Century technology to lower consumer energy bills by producing a diversity of clean and affordable energy.**

- The President is concerned about the Americans who are feeling the energy crunch. **He is doing everything he can – as soon as he can -- to help Americans who are feeling the energy crunch at the gas pump and in their utility bills. The President is using every tool at his disposal to help those who are suffering from blackouts and high gas prices. He is helping California this summer by expediting new power plants and ordering federal agencies to conserve. The President is also earmarking federal energy revenues to help low-income families cope with high energy and gas bills.**

- **The President's plan to produce more** reliable, affordable and environmentally clean energy **is built on 3 core principles:**

  - ✓ **The plan is comprehensive and forward-looking.**
  - ✓ **It utilizes 21st Century technology to allow us to promote conservation and diversify our energy supply.**
  - ✓ **The plan will increase the quality of life of Americans by providing reliable energy and protecting the environment.**

Details on Lease 181

- The Secretary of the Interior has announced that the Bush Administration's new plan for Lease Sale 181 will include no new drilling in Florida waters.

- The proposed notice of sale will cover an area approximately one quarter the size of the area originally approved for leasing by former President Clinton and then-Governor Chiles of Florida. The sale covers an area of 1.47 million acres, as compared to the 5.9 million acres originally envisioned.

- There will be absolutely no new leasing in waters off the coast of Florida --the modified boundaries have been drawn to be at least 100 miles from the northwestern corner of the State of Florida (at the Florida-Alabama State line); more than 100 miles from Pensacola; 138 miles from Panama City; and 285 miles from Tampa.

- The exclusion of tracts within 100 miles or east of the Florida-Alabama state line came after Secretary Norton consulted with the Governors of the five coastal states closest to the Lease 181 area. Texas, Louisiana, Mississippi, and Alabama supported the proposed sale, while the State of Florida opposed any development of oil or gas off the coasts of Florida.

- The new plan was devised in a manner consistent with the President's pledge to give great weight to the views of state officials.

- The proposed notice of sale balances the interests of all of the States and other stakeholders in the area. It will allow the environmentally responsible development of significant natural gas and oil resources in the Eastern Gulf of Mexico's deep waters to meet our energy needs, while respecting Florida's concerns.

- Under the new five-year plan, dramatically less Gulf deep water will be subject to drilling than under the previous Administration.

- This lease sale is part of the Department's 5-year Outer Continental Shelf Oil and Gas Leasing Program for 1997 to 2002.

- The proposed lease sale area includes 256 lease blocks (5760 acres each) totaling approximately 1.47 million acres. Twenty-three of the blocks in the proposed lease sale area are already under lease from previous sales. (The entire Sale 181 Area consists of 1033 lease blocks totaling approximately 5.9 million acres).

- The Minerals Management Service estimates that the average amount of undiscovered resources in the new plan's area that can be recovered using current technology is approximately 1.25 trillion cubic feet of natural gas and 185 million barrels of oil. In other words, as a result of today's decision, less than half of the total estimated oil and natural gas reserves in the Sale 181 Area will be open to new exploration.

- The Minerals Management Service is also releasing its five-year OCS Oil and Gas Leasing Program for 2000 -2007. This plan does not include further leasing in the remainder of the Sale 181 Area. This effectively means that there will be no additional leasing in the Eastern Gulf of Mexico, including the remainder of the Sale 181 Area, for at least the next five years.

The vote on Lease 181 in the Senate just ended with a 67-33 victory for the President. Talking points are attached.

ATT CREATION TIME/DATE: 0 00:00:00.00
File attachment <02070_p_xk9s2004_who.txt_1>

President's Energy Plan Scores Victory in Senate

- The Senate just voted 67-33 to table an amendment by Sen. Bill Nelson that would have prohibited the Department of Interior from executing any final agreements on lease blocks in the "181" area in the Gulf of Mexico. *(details on Lease 181 are below)*

- **This vote represents a crystal clear bipartisan victory for the President's comprehensive energy package.**

- **This vote shows that bipartisan consensus can be reached on a plan to address our energy needs.**

- **Today's vote is a victory for all Americans who want to see environmentally responsible energy production to help protect consumers from wild fluctuations in energy prices.**

- **This vote represents yet another example that President Bush is keeping his word to balance the need to address our energy situation with local concerns. Florida officials worked with the President to craft this acceptable solution that will result in no drilling within 100 miles off the coast of Florida or in any Florida waters.**

The President's Comprehensive Energy Plan

- **America has a serious energy shortage and President Bush has a comprehensive plan to address it.**

- **The President wants to protect consumers from wild fluctuations in energy prices by diversifying America's energy supply.** America has become too dependent on foreign oil. **The President wants to use 21st Century technology to lower consumer energy bills by producing a diversity of clean and affordable energy.**

- The President is concerned about the Americans who are feeling the energy crunch. **He is doing everything he can – as soon as he can -- to help Americans who are feeling the energy crunch at the gas pump and in their utility bills. The President is using every tool at his disposal to help those who are suffering from blackouts and high gas prices. He is helping California this summer by expediting new power plants and ordering federal agencies to conserve. The President is also earmarking federal energy revenues to help low-income families cope with high energy and gas bills.**

- **The President's plan to produce more** reliable, affordable and environmentally clean energy **is built on 3 core principles:**

  - ✓ **The plan is comprehensive and forward-looking.**
  - ✓ **It utilizes 21st Century technology to allow us to promote conservation and diversify our energy supply.**
  - ✓ **The plan will increase the quality of life of Americans by providing reliable energy and protecting the environment.**

Details on Lease 181

- The Secretary of the Interior has announced that the Bush Administration's new plan for Lease Sale 181 will include no new drilling in Florida waters.

- The proposed notice of sale will cover an area approximately one quarter the size of the area originally approved for leasing by former President Clinton and then-Governor Chiles of Florida. The sale covers an area of 1.47 million acres, as compared to the 5.9 million acres originally envisioned.

- There will be absolutely no new leasing in waters off the coast of Florida --the modified boundaries have been drawn to be at least 100 miles from the northwestern corner of the State of Florida (at the Florida-Alabama State line); more than 100 miles from Pensacola; 138 miles from Panama City; and 285 miles from Tampa.

- The exclusion of tracts within 100 miles or east of the Florida-Alabama state line came after Secretary Norton consulted with the Governors of the five coastal states closest to the Lease 181 area. Texas, Louisiana, Mississippi, and Alabama supported the proposed sale, while the State of Florida opposed any development of oil or gas off the coasts of Florida.

- The new plan was devised in a manner consistent with the President's pledge to give great weight to the views of state officials.

- The proposed notice of sale balances the interests of all of the States and other stakeholders in the area. It will allow the environmentally responsible development of significant natural gas and oil resources in the Eastern Gulf of Mexico's deep waters to meet our energy needs, while respecting Florida's concerns.

- Under the new five-year plan, dramatically less Gulf deep water will be subject to drilling than under the previous Administration.

- This lease sale is part of the Department's 5-year Outer Continental Shelf Oil and Gas Leasing Program for 1997 to 2002.

- The proposed lease sale area includes 256 lease blocks (5760 acres each) totaling approximately 1.47 million acres. Twenty-three of the blocks in the proposed lease sale area are already under lease from previous sales. (The entire Sale 181 Area consists of 1033 lease blocks totaling approximately 5.9 million acres).

- The Minerals Management Service estimates that the average amount of undiscovered resources in the new plan's area that can be recovered using current technology is approximately 1.25 trillion cubic feet of natural gas and 185 million barrels of oil. In other words, as a result of today's decision, less than half of the total estimated oil and natural gas reserves in the Sale 181 Area will be open to new exploration.

- The Minerals Management Service is also releasing its five-year OCS Oil and Gas Leasing Program for 2000 -2007. This plan does not include further leasing in the remainder of the Sale 181 Area. This effectively means that there will be no additional leasing in the Eastern Gulf of Mexico, including the remainder of the Sale 181 Area, for at least the next five years.
