

TESTIMONY OF ALYZA D. LEWIN

PRESIDENT

THE LOUIS D. BRANDEIS CENTER FOR HUMAN RIGHTS UNDER LAW

“NEVER TO BE SILENT: STEMMING THE TIDE OF ANTISEMITISM IN AMERICA”

TESTIMONY

BEFORE THE UNITED STATES SENATE COMMITTEE ON THE JUDICIARY

MARCH 5, 2025

CHAIRMAN GRASSLEY, RANKING MEMBER DURBIN, AND MEMBERS OF THE
COMMITTEE ON THE JUDICIARY:

I am honored to appear before you today at this hearing on “Never To Be Silent: Stemming the Tide of Antisemitism in America.” My name is Alyza Lewin. I am the President of the Louis D. Brandeis Center for Human Rights Under Law a non-profit organization established to advance the civil and human rights of the Jewish people and promote justice for all. The Brandeis Center engages in legal advocacy, research and education to combat the resurgence of anti-Semitism on college and university campuses, in the workplace and elsewhere.

At the Brandeis Center, I speak nearly every day with students, parents, employees, medical practitioners, patients and other individuals who have encountered anti-Semitism. Their experiences reflect a rapid and alarming growing hostility in this country toward Jews. The pattern is familiar. Jews, particularly those who recognize the Jewish people’s ancestral connection to Israel, are increasingly vilified, shunned, harassed, excluded, and even assaulted. As a result, according to a recent survey,¹ many American Jews are feeling the need to hide their Judaism. They’ve stopped wearing items that identify them as Jews, and stopped posting Judaism related content online. Some have even stopped attending public Jewish events.

On campuses, we have seen students, often encouraged and supported by faculty², disrupt classes³, intimidate and harass Jewish students⁴, vandalize university property⁵, assault university staff⁶, and pledge support for US designated terror organizations⁷.

This hostility towards Jews is now evident in the K-12 space as well. Just two weeks ago, the Santa Ana Unified School District in California settled a lawsuit⁸ that had been filed by the Brandeis Center against the school district for introducing ethnic studies courses that had been developed in secret and infected with anti-Semitism. As part of the settlement, the school district agreed to cease instruction of several courses that contained false and damaging narratives about Israel and the Jewish people.

Jew hatred in America is spreading beyond schools and university campuses. Just two days ago, the Brandeis Center filed a lawsuit on behalf of an individual who was kicked out of a coffee shop in Oakland, California simply for wearing a hat with a Star of David on it.⁹

The Brandeis Center has also fielded numerous calls from medical practitioners and therapists who have described a growing hostile environment¹⁰ for Jews in healthcare¹¹. These include stories of blacklists¹² of Jewish practitioners¹³, and Jewish patients being denied prompt healthcare services due to anti-Semitism.¹⁴

Alongside these troubling stories, we are seeing an increase in what has been termed, “erasive anti-Semitism” – the erasure and denial of Jewish history and heritage. Jews share more than a common faith. As a people, they have a shared ancestry and ethnicity deeply rooted in the land of Israel. It is not possible to separate the history of the Jewish people from the land of Israel. The two are inextricably intertwined. And yet there are those, today, who seek to do just that. There are those who insist that the Jews are not a people and that they have no history in the land of Israel.

The United States government must use all means at its disposal to reverse this alarming trend. Nothing less than the values we hold dear as Americans is at stake. Actions to be taken should include adopting the International Holocaust Remembrance Alliance Definition of Antisemitism; withholding federal funding from entities that are failing to adequately protect Jews; demanding transparency when universities receive foreign funding; and investigating
