Note(s):

- 1) The report reflects the most up-to-date estimate available at the time the database is queried.
- 2) Counts may differ from those reported in previous periods due to system updates and post-adjudicative outcomes.
- 3) Please note that the reason for revocation is not available in the system, so we are not able to discern revocations due to layoffs. As a result, this report may over count revocations due to the H-1B worker being laid off because there can be many other reasons for revocations. Given the context of the question, only non-fraud revocations are reported.
- 4) Report includes all I-129 H1B revocations that took place between 07/01/2022 and 03/31/2023 and an I-140 approved at any time.
- 5) Report is grouped by the fiscal year and quarter of the revocation date.
- 6) An exact match of the I-129 to the I-140 is not possible due to lack of a personal identifier. The report matched the I-129 to the I-140 based on the A Number if entered on both forms. Many I-129 petitions do not have the beneficiary's A number captured, in which case the report matched the I-129 to the I-140 based on a key of the combined fields of the beneficiary's last name, first name, date of birth and country of birth. Therefore, it is possible some I-129 revocations are not matched to an approved I-140, and not counted in this report.
