VIA ELECTRONIC MAIL

The Honorable Charles Grassley
Chairman, United States Senate Committee on
the Judiciary
224 Dirksen Senate Office Building
Washington, D.C. 20510

Dear Chairman Grassley:

On behalf of former President of the United States George W. Bush, we enclose our third production of 42,980 documents totaling 169,957 pages from the presidential records of the Bush Administration. These documents were collected from data and documents relating to Judge Brett M. Kavanaugh's service in the White House Counsel's Office during the Bush Administration that were provided to us by the National Archives and Records Administration (NARA).

We are providing these documents on the condition that the Committee treats these records as "Committee Confidential," within the meaning of your July 27, 2018 letter to the Bush Library ("July 27 Letter"), with access limited to any Senator on the Senate Committee on the Judiciary, any member of Committee staff, and any others agreed upon by the Chairman and Ranking Member. Consistent with the process followed for our previous productions, while NARA continues its review of the materials requested by the Committee, we are in the process of determining which of these documents are, in the view of the attorneys reviewing the materials on behalf of President Bush, appropriate for public release. We will provide publicly releasable copies to the Committee on a rolling basis as a courtesy to the Committee and to further education and research about the Bush Administration.

The production of these records requested by the Committee does not constitute a waiver of any privileges that may apply in any other context to these records, or the subject matters to which they relate.

Respectfully,

A handwritten signature in blue ink, appearing to read 'William A. Burck', with a long horizontal flourish extending to the right.

William A. Burck
