

The Honorable Members of the Senate Judiciary Committee  
United States Senate  
Washington, D.C.

02/12/2025

Facing Fentanyl is a national coalition supported by over 200 impacted family groups, serving as a voice for thousands of families devastated by illicit fentanyl, including many listed in this letter. Our coalition of affected groups and families across the nation stands in full support of the HALT Fentanyl Act as it is currently written, without amendments. As American families who have suffered unimaginable loss, we implore Congress to pass this critical legislation, which is necessary to begin saving lives in the United States. In addition to the organizations listed below, we have gathered over 4,000 signatures from individuals who urgently call on Congress to take decisive action and implement positive steps to halt fentanyl activity in our country. The time to act is now—American families cannot afford further delays.

Respectfully,

Andrea Thomas, Executive Director Facing Fentanyl  
Jaime Puerta, Co-Chair Facing Fentanyl NFPAD
