Re: Rebecca Grady Jennings, Nominee to United States District Court for the Western District of Kentucky

Dear Chairman Grassley and Ranking Member Feinstein,

I write in behalf of confirming the nomination of Rebecca Grady Jennings to the United States District Court for the Western District of Kentucky.

This letter comes from a different party and as an adversary recommending without hesitation that Rebecca be confirmed as the next United States District Judge for the Western District of Kentucky.

I have been practicing law for forty five years including a winning argument before the Supreme Court of the United States. I am registered and consider myself a moderate Democrat. For about the last three years, I had the opportunity to have Rebecca Jennings as a worthy adversary on a Title IX and 504 discrimination case out of Martha Layne Collins High School in Shelby County, Kentucky with the minor defendant having Asperger's syndrome and very vulnerable. The usual briefs and reply briefs have been submitted on various motions including summary judgments. Her legal and writing ability is superb confirming that she has the knowledge to become an excellent Federal Judge. Needless to say, I thought my briefs were better, so I hope she loses Defendants' motion for summary judgment.

But more importantly it was easy to ascertain that her demeanor and personality in caring for the vulnerability of the 15 year old child she was deposing will put her in the upper echelon of District Judges. Of the hundreds of cases, I have prosecuted for injured and/or discriminated minor school children, she was the best.

Thanking you in advance for your consideration

Sincerely yours,
