

**Nomination of Dominic W. Lanza to the
United States District Court for the District of Arizona
Questions for the Record
Submitted March 14, 2018**

QUESTIONS FROM SENATOR BOOKER

1. According to a Brookings Institute study, African Americans and whites use drugs at similar rates, yet blacks are 3.6 times more likely to be arrested for selling drugs and 2.5 times more likely to be arrested for possessing drugs than their white peers.¹ Notably, the same study found that whites are actually *more likely* to sell drugs than blacks.² These shocking statistics are reflected in our nation's prisons and jails. Blacks are five times more likely than whites to be incarcerated in state prisons.³ In my home state of New Jersey, the disparity between blacks and whites in the state prison systems is greater than 10 to 1.⁴

- a. Do you believe there is implicit racial bias in our criminal justice system?

The unfortunate but undeniable reality is that racial bias continues to exist in America. Racial bias and discrimination are antithetical to the rule of law and to the core liberties protected by the Constitution. During my tenure in the U.S. Attorney's Office, I have attempted to address these issues by serving on the office's diversity committee, serving as a volunteer participant in the "Court Works" program (in which local students hailing primarily from at-risk schools act as the attorneys, witnesses, jurors, and judge in a simulated trial), helping oversee our office's civil rights prosecutions, and participating in outreach activities to various community groups.

- b. Do you believe people of color are disproportionately represented in our nation's jails and prisons?

Yes.

- c. Prior to your nomination, have you ever studied the issue of implicit racial bias in our criminal justice system? Please list what books, articles, or reports you have reviewed on this topic.

I had not specifically studied this issue prior to my nomination.

⁴ *Id.* at 8.

2. According to a Pew Charitable Trusts fact sheet, in the 10 states with the largest declines in their incarceration rates, crime fell an average of 14.4 percent.⁵ In the 10 states that saw the largest increase in their incarceration rates, crime decreased by an 8.1 percent average.⁶

- a. Do you believe there is a direct link between increases of a state's incarcerated population and decreased crime rates in that state? If you believe there is a direct link, please explain your views.

I have not previously reviewed these studies and statistics. In any event, it would be inappropriate for me, as a judicial nominee, to offer an opinion on this topic.

- b. Do you believe there is a direct link between decreases of a state's incarcerated population and decreased crime rates in that state? If you do not believe there is a direct link, please explain your views.

See answer to question 2a.

3. Do you believe it is an important goal for there to be demographic diversity in the judicial branch? If not, please explain your views.

Yes.
