

Chairman Senator Charles Grassley and Ranking Member Senator Sheldon Whitehouse

Dear Chairman Grassley and Ranking member Whitehouse

I write to you today as a child of Holocaust survivors and as someone deeply involved in the Jewish community for the past four decades. Over the past four years under your leadership the Judiciary committee has lead the effort to uncover the truth about Swiss banks' and their relationship to the Nazi government during WW11. Your efforts to date are to be commended and supported.

The hearing you have scheduled for Feb 3 is an important next step toward bringing to light significant historical facts that can clarify history and create an opportunity to demand accountability from the Swiss banks that played such an important role in assisting the Nazis in World War 11

I want to express my appreciation for your leadership in this matter.

Sincerely,

Howard Kohr
