

**OPEN LETTER TO THE SENATE JUDICIARY COMMITTEE
WOMEN ATTORNEYS FOR AN HONORABLE JUDICIARY**

September 25, 2018

Dear Chairman Grassley, Ranking Member Feinstein, and Members of the Committee:

We respectfully request that the Senate Judiciary Committee demand a thorough investigation of Dr. Christine Blasey Ford's allegations before recommending Judge Kavanaugh's confirmation.

The undersigned are female attorneys. We practice in a variety of settings, including law firms, public interest organizations, government agencies, private companies, and universities. We are Republicans, Democrats, and Independents. We come from diverse racial and ethnic backgrounds, sexual orientations, religious beliefs, political affiliations, and viewpoints. Many of us are mothers. We vote. We run for office.

Our concern for the integrity of Judge Kavanaugh's confirmation process is not a matter of policy disagreement or political affiliation. We respect the Constitution and our laws, and we hold the Justices who interpret them to high standards of ethics and morality. We believe that an act of sexual assault should disqualify a candidate from consideration for a lifetime appointment to the United States Supreme Court.

Our next Supreme Court Justice will have the power to uphold or discard women's reproductive autonomy, to realign the boundaries around federal rules of evidence for victims of sexual assault, and to radically influence many other areas that disproportionately impact women. We demand a thorough confirmation process so that all Americans can remain confident in the fairness and independence of our Judicial Branch.

In both our professional networks and our personal lives, rarely a day passes without a woman seeking assistance because she is suffering from the effects of assault, harassment, or discrimination from a man who holds power over her. We are citizens who will be deeply impacted by future decisions of the Supreme Court. Many, if not all, women share our stories. We ask that when you hear Dr. Ford's testimony, you question her with the respect due to all those who have experienced sexual violence.

America is watching this process. We must shift our culture to one that does not excuse violent behavior and values strength of character. You have the power to help make this change. It starts with you, our leaders. And it must start now.

Respectfully,

ATTORNEY SIGNATURES
